[Separating Sharp Park Golf Course Plan from the Natural Area Plan]

Resolution to remove all management proposals and activities derived from the Sharp Park Conceptual Restoration Alternatives Report's Alternative A18 from the Environmental Impact Report for the San Francisco Recreation and Park Department's Significant Natural Resource Areas Management Plan, and to consider proposals and alternatives for the future of Sharp Park Golf Course through a separate and complete California Environmental Quality Act review process.

WHEREAS, The two-fold mission of the Recreation and Park Department's Natural Areas Program (NAP) is to "preserve, restore, and enhance remnant Natural Areas, and to develop and support community-based site stewardship of these areas"; and

WHEREAS, The Significant Natural Resource Areas Management Plan (SNRAMP) is intended to guide management activities and site improvements in designated Significant Natural Resource Areas (Natural Areas) in San Francisco and San Mateo Counties by the Recreation and Park Department for the next 20 years; and

WHEREAS, The objectives of the SNRAMP are to inventory biological resources in Natural Areas, identify issues and impacts adversely affecting ecosystem functions and biological diversity, prioritize management actions to promote functioning of native ecosystems, provide guidelines for educational and stewardship programs and for "passive recreational uses compatible with the City's natural resources"; and

WHEREAS, Sharp Park is located in San Mateo County, miles from the San Francisco County line and the nearest San Francisco-based Natural Area, and has significantly different ecological and administrative issues than other Natural Areas; and

WHEREAS, Sharp Park contains breeding and feeding grounds for the Endangered San Francisco garter snake and the Threatened California red-legged frog, which are not found in any of the City's other Natural Areas; and

WHEREAS, The planning process for the SNRAMP began in 1995, and has involved the input of multiple stakeholders, including a Citizens Task Force and Green Ribbon Panel convened for the NAP in 2002, a 2003 NAP Citizens Advisory Committee, an ad hoc working group in 2004, a public comment period on the 2005 public draft of the SNRAMP and three independent scientific peer-reviews of the 2005 public draft of the SNRAMP; and

WHEREAS, The SNRAMP Final Draft Plan was approved for environmental review in 2006, and has completed several steps in the environmental review process since, including the publication of a Notice of Preparation in April 2009; the completion and distribution of an Initial Study to Responsible Agencies in April 2009; and the conclusion of public scoping and comment periods in the summer of 2009; and

WHEREAS, In November 2009, Alternative A18 for Sharp Park Golf Course—a project wholly separate from the SNRAMP—was proposed in the Sharp Park Conceptual Restoration Alternatives Report. Alternative A18 calls for extensive dredging of Sharp Park's wetlands, raising the elevation of four golf links, and redesigning three other golf links in an attempt to reduce chronic flooding and drainage issues at the golf course; and

WHEREAS, The golf course project in Alternative A18 has not been subjected to California Environmental Quality Act (CEQA) procedural and substantive requirements, such as a discussion of the golf course project in a Notice of Preparation and Initial Study; review by or consultation with Responsible Agencies about the golf course project; and formal public comment and review of draft and final golf course project designs; and

WHEREAS, By the time the Sharp Park Conceptual Restoration Alternatives Report was released, the SNRAMP had already undergone more than three years of public scrutiny and programmatic environmental review; and

WHEREAS, Alternative A18 was nonetheless inserted into the long-standing SNRAMP CEQA review process as a new, additional SNRAMP project before the SNRAMP DEIR was released in August 2011; and

WHEREAS, All feasible alternative golf course design and restoration configurations for Sharp Park Golf Course were excluded from consideration in the DEIR with the exception of Alternative A18; and

WHEREAS, Sharp Park Golf Course is further characterized as a historic resource for purposes of CEQA in the DEIR, even though on September 21, 2011, San Francisco's Historic Advisory Commission voted that they did not concur with the DEIR's conclusion that Sharp Park Golf Course is an historic resource, and subsequently sent a letter on September 26, 2011 to the Recreation and Park Department explaining that they could not reach consensus on the historic integrity of Sharp Park Golf Course; and

WHEREAS, The management of this property is currently in litigation due to alleged violations of the federal Endangered Species Act; and

WHEREAS, Alternative A18 should be subject to a separate and complete environmental evaluation; now, therefore, be it

RESOLVED, That the Board of Supervisors of the City and County of San Francisco directs that all Sharp Park Golf Course projects and management proposals derived from Alternative A18 be excised from the SNRAMP EIR and considered in a separate, complete and public CEQA review process.

MEMORANDUM

TO: John Rahaim, Director, Planning Department
Phil Ginsburg, General Manager, Recreation and Park Department

FROM: Alisa Miller, Clerk, Land Use and Economic Development Committee
Board of Supervisors

DATE: July 10, 2012

SUBJECT: LEGISLATION INTRODUCED

The Board of Supervisors' Land Use and Economic Development Committee has received the following proposed legislation, introduced by Supervisor Olague on June 26, 2012, which is being forwarded to your department for review.

File No. 120619

Resolution to remove all management proposals and activities derived from the Sharp Park Conceptual Restoration Alternatives Report's Alternative A18 from the Environmental Impact Report for the San Francisco Recreation and Park Department's Significant Natural Resource Areas Management Plan, and to consider proposals and alternatives for the future of Sharp Park Golf Course through a separate and complete California Environmental Quality Act review process.

If you have any additional reports or comments to be included with the file, please forward them to me at the Board of Supervisors, City Hall, Room 244, 1 Dr. Carlton B. Goodlett Place, San Francisco, CA 94102.

File No. 120619
Land Use Committee Hearing December 3 , 2012
Dear Supervisors,

I support the San Francisco Rec & Park Department's plan to save the historic and popular Sharp Park Golf Course, while at the same time protecting the environment by recovering frog and snake habitat in the golf course's wetlands.

I urge you to vote "No" on the Sharp Park resolution, File No. 120619, which would require the City's Rec & Park and Planning Departments to start over on the Environmental Review process for the City's Sharp Park plan. This would mean a colossal waste of more than 4 years of public time, money, and effort that has gone into the Sharp Park plan. We cannot afford such public waste.

For these reasons, I respectfully request your "No" vote on File No. 120619.

Yours truly,

John A. Mendoza, CTP

Please Vote No on Resolution to Sever Sharp Park from the Natural Areas EIR

Jason Blasi to: scott.wiener, Eric.L.Mar, alisa.miller, malia.cohen 11/29/2012 06:55 PM
Cc: ed.lee, david.chiu, sean.elsbernd, angela.calvillo, richard

Dear Supervisors,
I am golf a course architect who has studied the Sharp Park golf course over several years, including the site history, the architecture , the environmental and habitat issues, drainage patterns and much more. I have toured the course with a variety of consultants, all working to find the right ways to SAVE the golf course and enhance frog and snake habitat in the golf course's wetlands. There is no doubt that this can be done.
It has come to my attention that Supervisor Olague has proposed a resolution that would ignore years of studies and require the City's Rec & Park Departments to start over on the Environmental Review process for the Department's Sharp Park Habitat Restoration plan, which would greatly enhance habitat for endangered species, while keeping the 18-hole course open.
Please recognize that Sharp Park is an internationally-known, architecturally significant public golf course, built in the early 1930's by history's greatest golf architect, Alister MacKenzie. This is a San Francisco public architectural treasure, and should be recognized and treated as such by the City's leaders. It is also "the poor man's Pebble Beach," a recreational field for common people of all income levels, walks of life, ethnicities, genders, and persuasions. It is worth saving.
Supervisor Olague's proposed Resolution would require the City to start over on the Sharp Park habitat recovery plan -- thereby wasting 4-plus years of study, planning, consultants, department staff time, and consultants fees. The waste of time, money, and effort would be colossal. It would also delay by years the City's efforts to improve natural habitat at Sharp Park while saving the golf course.
For these reasons, I respectfully request your "No" vote on File No. 120619.
Best regards,

Re: **File No. 120619,**
Pacifica Chamber of Commerce Opposes Resolution to Sever Sharp Park Golf Course From the Natural Areas EIR
Hearing December 3, 2012

Dear Chairman Mar and Supervisors Cohen and Wiener,

The Pacifica Chamber of Commerce, representing more than 400 businesses in the City of Pacifica, strongly opposes Resolution File No. 120619, sponsored by Supervisor Olague which would sever the Sharp Park Golf Course from the long-pending Significant Natural Resource Areas Management Plan ("SNRAMP") Environmental Impact Report process.

Severance would be extraordinarily wasteful of years of planning, staff and consultant expense, and thousands of hours of community time engaged in the planning and EIR processes at Sharp Park. This represents money, time, and effort wasted. The delay and additional expense would serve no good purpose here.

The Chamber wholeheartedly endorses preserving the 18-hole Sharp Park Golf Course, located in Pacifica which is an 80-year-old community institution here and a source of reasonably priced recreation and community for Pacificans, San Franciscans, and North Peninsula residents alike. The golf course is a cultural and architectural treasure of our community, recognized as an historical resource by the San Francisco Planning Department, the Pacifica Historical Society, the Pacifica General Plan, and the Cultural Landscape Foundation of Washington D.C.

Furthermore, we support the San Francisco Recreation and Park Department's plan to preserve the 18-hole golf course, while at the same time protecting the environment by recovering frog and snake habitat in Sharp Park's lagoons and wetlands. Golf and the environment can co-exist in Pacifica.

650.355.4122 · Info@PacificaChamber.com · **www.PacificaChamber.com**
225 Rockaway Beach Ave. Suite #1 · Pacifica, CA 94044

The Sharp Park plan is the result of a dozen public meetings in both San Francisco and Pacifica since April, 2009 by several San Francisco public agencies, including the S.F. Rec & Park Commission and its' citizens advisory committee ("PROSAC"), the SF Public Utilities Commission (on the related issue of the Sharp Park Recycled Water Project), the SF Board of Supervisors and its GAO, City Operations and Neighborhood Services, and now, Land Use committees. Our members have attended many if not most of these public hearings.

For these reasons, we respectfully request your "No" vote on Supervisor Olague's Sharp Park Resolution, File No. 120619.

Dear Supervisors,

It is wasteful of opponents of the Sharp Park Golf Course to seek its demise. The land is beautifully maintained, serves the public with recreation and protects the environment. The golf course is near an urban environment that serves San Franciscans and Californians by just existing as is -- a beautify space. I am not a golfer, but I can appreciate the economic and intrinsic value that the golf course provides the community. Please maintain it and vote
"No" on File No. 120619.

Respectfully Yours,

SHARP PARK GOLF CLUB
Dear Public Golf Alliance Members:
Please attend, Monday, Dec. 3, 1 p.m. at SF City Hall, Room 250 (the Supervisors' Legislative Chamber at top of the grand staircase), the continued public hearing by the Land Use Committee on the most recent Anti-Sharp Park Golf resolution, sponsored by Supervisor Olague. Members of the Land Use Committee are: Supervisors Eric Mar, Scott Weiner, and Malia Cohen.
The Olague Resolution would sever Sharp Park from the ongoing Natural Areas Environmental Impact Report process, and require San Francisco to start over with its Sharp Park planning. What a waste! The City has better uses for its limited financial resources.
This will continue the Land Use Committee public hearing that began Nov. 19. If you haven't yet, please send an e-mail to Committee members, and send us a copy; we will collect the e-mails and deliver hard copies to the Committee at the public meeting. Be certain to put your own home address and phone number on your e-mail comment. See a draft of such an e-mail, below. But use your own words.
RSVP: Please let us know if you will be able to attend. We will meet you outside the Supervisors' chambers at 12:40 p.m. Circulate this to your friends, and bring 2 friends to the hearing. Thanks. Save Sharp Park! Thank you.

Re: Please Vote No on Resolution to Sever Sharp Park from the Natural Areas EIR
File No. 120619
Land Use, etc. Committee Hearing December 3, 2012,

Dear Supervisors,

I support the San Francisco Rec & Park Department's plan to save the historic and popular Sharp Park Golf Course, while at the same time protecting the environment by recovering frog and snake habitat in the golf course's wetlands.

Please vote "No" on the Sharp Park resolution, File No. 120619, which would require the City's Rec & Park and Planning Departments to start over on the Environmental Review process for the City's Sharp Park plan (overwhelmingly endorsed by the Rec & Park citizens advisory committee and unanimously adopted by the Rec & Park Commission in December, 2009). Supervisor Olague's Resolution would mean a colossal waste of public time, money, and effort that has gone into the Sharp Park plan. We cannot afford such public waste -- especially not now, in hard economic times, when we need to spend public money carefully.

The City's Sharp Park plan is the result of more than a dozen public meetings in both San Francisco and Pacifica since April, 2009, by several San Francisco public agencies, including the Rec & Park Commission and its citizens advisory committee ("PROSAC"), the SF Public Utilities Commission (on the related issue of the Sharp Park Recycled Water Project), and the Board of Supervisors and its City Audit and Neighborhood Services and Government Audit and Oversight committees.

Sharp Park has been part of the Significant Natural Areas Management Plan since the initial draft plan in 1995. The golf course was very explicitly the subject of the Environmental Impact public "scoping" written comments and public meetings in both San Francisco and Pacifica in May, 2009, and again in both public testimony and written comment to the Planning Commission on the Draft Environmental Impact Report in 2011 and 2012.

All of this represents thousands of hours of paid consultants' time public agency staff time over many years, and yet more thousands of hours of individual citizens' time in submitting written comments and appearing at the public hearings. Supervisor Olague's Resolution would let all of this money, time, and effort go to waste.

For these reasons, I respectfully request your "No" vote on File No. 120619.

Dear Supervisors,

The San Francisco Rec & Park Department's plan to save the historic and popular Sharp Park Golf Course, while at the same time protecting the environment by recovering frog and snake habitat in the golf course's wetlands has been vetted.

I urge you to vote "No" on the Sharp Park resolution, File No. 120619, which would require the City's Rec & Park and Planning Departments to start over on the Environmental Review process for the City's Sharp Park plan. This would mean a colossal waste of more than 4 years of public time, money, and effort that has gone into the Sharp Park plan. We cannot afford such public waste.

For these reasons, I respectfully request your "No" vote on File No. 120619.

Yours truly,

NORMAN LEW

Dear Addressees:

Unfortunately I will not be in San Francisco on December 3rd and will not be able to attend this meeting. I fully support the San Francisco Public Golf Alliance on this issue and urge you to vote "No". It would be very costly to go back and start this process again. The City, various stakeholders and the Alliance were very close to a mutually beneficial and workable resolution to this issue.

Please excuse the Fwd: message as I do not have time to redraft personalized e-mails.

Subj: Sharp Park Sneak Attack Redux: Please attend continued SF Supervisors hearing Monday, Dec. 3, 1 p.m.at SF City Hall

Dear Public Golf Alliance Members:

Please attend, Monday, Dec. 3, 1 p.m. at SF City Hall, Room 250 (the Supervisors' Legislative Chamber at top of the grand staircase), the continued public hearing by the Land Use Committee on the most recent Anti-Sharp Park Golf resolution, sponsored by Supervisor Olague. Members of the Land Use Committee are: Supervisors Eric Mar, Scott Weiner, and Malia Cohen.

The Olague Resolution (see text of the Resolution here) would sever Sharp Park from the ongoing Natural Areas Environmental Impact Report process, and require San Francisco to start over with its Sharp Park planning. What a waste! The City has better uses for its limited financial resources.

This will continue the Land Use Committee public hearing that began Nov. 19. If you haven't yet, please send an e-mail to Committee members, and send us a copy; we will collect the e-mails and deliver hard copies to the Committee at the public meeting. Be certain to put your own home address and phone number on your e-mail comment. See a draft of such an e-mail, below. But use your own words.

RSVP: Please let us know if you will be able to attend. We will meet you outside the Supervisors' chambers at 12:40 p.m. Circulate this to your friends, and bring 2 friends to the hearing. Thanks. Save Sharp Park!

Thank you.

San Francisco Public Golf Alliance

Richard Harris

File No. 120619

Land Use Committee Hearing December 3 , 2012

Dear Ms. Calvillo,

The issue at hand has needs to be finalized and that means once and for all. Compromises have been reached on this matter, but the people who favor snakes and frogs over the recreational resources of low income local folks have once again decided to ignore progress and absorb your time, your energy and drag you away from making the real decisions of the day. The "destroy Sharp Park group" seem to bubble-over with joy every time they think of a new way to take up your time, and the time and energy of all of us who try our damnedest to protect our fragile environment in other ways not related to golf. You know were not a bunch of idiots, us golfers. Most of us (among lots and lots of other virtues) were environmentalists since we were kids. I'm almost 70.

We are all struggling on this planet to reduce green house gasses, and protect our wildlife. We have an open green area that is called Sharp Park and it needs to stay open for business. Stop giving these frog people the time of day, and get on with the business of keeping San Francisco the world class city it's always been a place where people of all kinds can work and PLAY together on the fields of their choice.

You have so many challenging issues every day. For the good of San Francisco, it's citizens, and for all the hard work (by both sides) that's been done and needs to be done to complete the plans that are so well thought out, for for your own peace of mind, please put this issue to bed for good and get on with governing this city. Thank you very much.

John Burns

Re: Please Vote No on Resolution to Sever Sharp Park from the Natural Areas EIR

File No. 120619

Land Use Committee Hearing December 3 , 2012

Dear Supervisors,

I am a San Francisco native and love the wildlife around Pacifica where I have fished since my youth. My wife and children live in West Portal and I have been active as a CPA and activist for my whole live. Among my proudest accomplishments was serving as the Board Chair of the Names Project during the worst of the AIDs epidemic and I received a humanitarian award for my efforts from the San Francisco Chamber of Commerce. I also serve as an Elder on Session at Old First Presbyterian Church and am one of the founders of WELCOME, a not for profit serving the homeless in the Upper Polk Street area of San Francisco. A dinner for the homeless sponsored by WELCOME, which is served to 150 folks every 2nd and 4th Saturday at Old First, was started by me and has been in operation for 15 years.

In short, I am a committed San Franciscan who loves playing Sharp's Park Golf Course. It provides a very reasonably priced golfing experience to San Franciscans and provides a great alternative to higher priced courses, including Presidio and even our wonderful Harding Park. In just a couple of years I will be a senior and look forward to playing many more games at Sharp Park in my retirement.

I support the San Francisco Rec & Park Department's plan to save the historic and popular Sharp Park Golf Course, while at the same time protecting the environment by recovering frog and snake habitat in the golf course's wetlands.

I urge you to vote "No" on the Sharp Park resolution, File No. 120619, which would require the City's Rec & Park and Planning Departments to start over on the Environmental Review process for the City's Sharp Park plan. This would mean a colossal waste of more than 4 years of public time, money, and effort that has gone into the Sharp Park plan. We cannot afford such public waste.

Land Use Committee Hearing December 3 , 2012, Sharp Park resolution

Patrick Mckern to: Eric.L.Mar@sfgov.org, alisa.miller, scott.wiener@sfgov.org, malia.cohen@sfgov.org 11/29/2012 11:30 AM

Cc: "ed.lee@sfgov.org", "david.chiu@sfgov.org", "sean.elsbernd@sfgov.org", "angela.calvillo@sfgov.org"

Please respond to Patrick Mckern

Dear Supervisors,

I support the San Francisco Rec & Park Department's plan to save Sharp Park Golf Course, which also protects the environment by recovering frog and snake habitat in the golf course's wetlands. With this in mind, I'm asking you all to vote "No" on the Sharp Park resolution, File No. 120619, which would require the City's Rec & Park and Planning Departments to start over on the Environmental Review process for the City's Sharp Park plan. This would mean a waste of more than 4 years of public time, money, and effort that has gone into the Sharp Park plan.

Respectfully,
Patrick McKern

Re: Please Vote No on Resolution to Sever Sharp Park from the Natural Areas EIR

File No. 120619

Land Use Committee Hearing December 3 , 2012

Dear Supervisors,

First off, let me say that I am sorry I don't have the time to address each of you as an individual. I hope you will accept my apology.

The issue at hand has needs to be finalized and that means once and for all. Compromises have been reached on this matter, but the people who favor snakes and frogs over the recreational resources of low income local folks have once again decided to ignore progress and absorb your time, your energy and drag you away from making the real decisions of the day. The "destroy Sharp Park group" seem to bubble-over with joy every time they think of a new way to take up your time, and the time and energy of all of us who try o ur damnedest to protect our fragile environment in other ways not related to golf. You know were not a bunch of idiots, us golfers. Most of us (amoung lots and lots of other virtues) were environmentalists since we were kids. I'm almost 70.

We are all struggling on this planet to reduce green house gasses, and protect our wildlife. We have an open green area that is called Sharp Park and it needs to stay open for business. Stop giving these frog people the time of day, and get on with the business of keeping San Francisco the world class city it's always been a place where people of all kinds can work and PLAY together on the fields of their choice.

You have so many challenging issues every day. For the good of San Francisco, it's citizens, and for all the hard work (by both sides) that's been done and needs to be done to complete the plans that are so well thought out, for for your own peace of mind, please put this issue to bed for good and get on with governing this city.

Thank you very much.

John Burns

I support the San Francisco Rec & Park Department's plan to save the historic and popular Sharp Park Golf Course, while at the same time protecting the environment by recovering frog and snake habitat in the golf course's wetlands.

I urge you to vote "No" on the Sharp Park resolution, File No. 120619, which would require the City's Rec & Park and Planning Departments to start over on the Environmental Review process for the City's Sharp Park plan. This would mean a colossal waste of more than 4 years of public time, money, and effort that has gone into the Sharp Park plan. We cannot afford such public waste.

For these reasons, I respectfully request your "No" vote on File No. 120619.

Yours truly,
John Burns

Edward Preston
393 Arlington St.
Sanfrancisco, CA 94131

Dear Supervisors,

I am a public course golfer, and I support the San Francisco Rec & Park Department's plan to save the historic and popular Sharp Park Golf Course, while at the same time protecting the environment by recovering frog and snake habitat in the golf course's wetlands.

Please vote "No" on the Sharp Park resolution, File No. 120619, which would require the City's Rec & Park and Planning Departments to start over on the Environmental Review process for the City's Sharp Park plan (overwhelmingly endorsed by the Rec & Park citizens advisory committee and unanimously adopted by the Rec & Park Commission in December, 2009). Supervisor Olague's Resolution would mean a colossal waste of public time, money, and effort that has gone into the Sharp Park plan. We cannot afford such public waste -- especially not now, in hard economic times, when we need to spend public money carefully.

The City's Sharp Park plan is the result of more than a dozen public meetings in both San Francisco and Pacifica since April, 2009, by several San Francisco public agencies, including the Rec & Park Commission and its citizens advisory committee ("PROSAC"), the SF Public Utilities Commission (on the related issue of the Sharp Park Recycled Water Project), and the Board of Supervisors and its City Audit and Neighborhood Services and Government Audit and Oversight committees.

Sharp Park has been part of the Significant Natural Areas Management Plan since the initial draft plan in 1995. The golf course was very explicitly the subject of the Environmental Impact public "scoping" written comments and public meetings in both San Francisco and Pacifica in May, 2009, and again in both public testimony and written comment to the Planning Commission on the Draft Environmental Impact Report in 2011 and 2012.

All of this represents thousands of hours of paid consultants' time public agency staff time over many years, and yet more thousands of hours of individual citizens' time in submitting written comments and appearing at the public hearings. Supervisor Olague's Resolution would let all of this money, time, and effort go to waste.
For these reasons, I respectfully request your "No" vote on File No. 120619.

Yours truly,

Edward Preston

Subject: file number 120619. Sharp Park Golf Course

Dear San Francisco officials.

Really? Another study? Another plan? Another vote? More time? More money? Please vote no on this resolution. The plan currently in place saves the golf course for us public course golfers (I have been one for over 30 years) and---equally important—it improves environmental protections for the flora and fauna, two of the main reasons we love Sharp Park so much.
I'm sure I don't need to tell you that the city has much better uses for its time AND its money.

Respectfully,

ML Manalli

Re: Please Vote No on Resolution to Sever Sharp Park from the Natural Areas EIR

File No. 120619

Land Use, etc. Committee Hearing November 19, 2012, Agenda No. 5

Dear Supervisors,

I am a member of the board of the San Francisco Park Alliance, a resident of District 2, and I am also a public course golfer. I strongly support the San Francisco Rec & Park Department's plan to save the historic and popular Sharp Park Golf Course, while at the same time protecting the environment by recovering frog and snake habitat in the golf course's wetlands. This solution which responds to the best interests of all San Franciscans and is an example of good government policy.

Please vote "No" on the Sharp Park resolution, File No. 120619, which would require the City's Rec & Park and Planning Departments to start over on the Environmental Review process for the City's Sharp Park plan (overwhelmingly endorsed by the Rec & Park citizens advisory committee and unanimously adopted by the Rec & Park Commission in December, 2009). Supervisor Olague's Resolution would mean a colossal waste of public time, money, and effort that has gone into the Sharp Park plan. We cannot afford such public waste -- especially not now, in hard economic times, when we need to spend public money carefully.

The City's Sharp Park plan is the result of more than a dozen public meetings in both San Francisco and Pacifica since April, 2009, by several San Francisco public agencies, including the Rec & Park Commission and its citizens advisory committee ("PROSAC"), the SF Public Utilities Commission (on the related issue of the Sharp Park Recycled Water Project), and the Board of Supervisors and its City Audit and Neighborhood Services and Government Audit and Oversight committees.

Supervisor Olague's Resolution would mean a colossal waste of public time, money, and effort that has gone into the Sharp Park plan. We cannot afford such public waste -- especially not now, in hard economic times, when we need to spend public money carefully.

The City's Sharp Park plan is the result of more than a dozen public meetings in both San Francisco and Pacifica since April, 2009, by several San Francisco public agencies, including the Rec & Park Commission and its citizens advisory committee ("PROSAC"), the SF Public Utilities Commission (on the related issue of the Sharp Park Recycled Water Project), and the Board of Supervisors and its City Audit and Neighborhood Services and Government Audit and Oversight committees.

Sharp Park has been part of the Significant Natural Areas Management Plan since the initial draft plan in 1995. The golf course was very explicitly the subject of the Environmental Impact public "scoping" written comments and public meetings in both San Francisco and Pacifica in May, 2009, and again in both public testimony and written comment to the Planning Commission on the Draft Environmental Impact Report in 2011 and 2012.

All of this represents thousands of hours of paid consultants' time public agency staff time over many years, and yet more thousands of hours of individual citizens' time in submitting written comments and appearing at the public hearings. Supervisor Olague's Resolution would let all of this money, time, and effort go to waste.

For these reasons, I respectfully request your "No" vote on File No. 120619.

Yours truly,

Bob Hutchinson

130 10th St
San Francisco

Subject: November 19,2012 hearing on agenda item #5, Sever Sharp Park from the Natural Areas EIR file #120619;

Dear Supervisors,
I am a public golf course course golfer. I support the San Francisco Recreation and Park Department's plan to save the historic and popular Sharp Park Golf Course, while at the same time protecting the environment
I have played many enjoyable rounds of golf at Sharp Park over the past 50 years and I assure you that there is no more useful facility for the "everyman" golfer in the entire Bay Area. It is a course that is enjoyed by all elements of society; young, old, advantaged as well as disadvantaged. A "No" vote, from you, on resolution file # 120619 will ensure that this beautiful experience continues.
The Sharp Park plan has been part of an overall environmental impact plan for over 15 years. Countless meetings, efforts, and monies have been spent with impact studies and consultant fees. In these times of budget cut-backs and economic austerity, it would seem unwise to start the process all over again.
There seems to be a better way to spend our time, energy, and dollars.
Supervisor Olague's resolution to abort and start the process anew is in my opinion wasteful and unproductive.
For these, and other reasons, I respectfully request your "No" vote on File # 120619.
Yours ttruly,

Clarence W. Bryant

San Francisco Board of Supervisors
Land Use and Economic Development Committee
Supervisor Eric Mar
Supervisor Scott Weiner
Supervisor Malia Cohen
Dear Supervisors:

I am retired resident of Pacifica and an avid supporter of affordable public golf. I have followed, for some years now, the attempts by extreme, marginalized elements of the environmental movement to confiscate the historic Sharp Park Golf Course. During these years I have attended many public hearings held by the SF Rec & Park Commission, PROSAC, and the Board of Supervisors, among others, including public meetings in Pacifica.

All those meetings, all the time-consuming discussions, all the costly consultant's reports, ultimately resulted in the Sharp Park Plan, which was unanimously adopted by the Rec & Park Commission almost three years ago. That plan is now successfully recovering and preserving the habitat of the threatened species, while allowing golfers who cannot afford Country Club fees to continue playing the game they love. It is my understanding that this success has been validated in the Biological Opinion recently prepared by the federal Fish & Wildlife Service.

The resolution proposed by Supervisor Olague (File No. 120619) will only frustrate that success, nullify the lawful, orderly process of civic decision-making, and make a mockery of the time, effort and expense invested by many citizens like myself and the ten-fold investment of the City of San Francisco.

I will not speculate on the motives behind this resolution, but the many friends of Sharp Park find it disheartening when their beloved course becomes a political football. I urge you to vote "No" on Supervisor Olague's resolution.

Sincerely,
Paul Slavin

SF Board of Supervisors Land Use Committee

Dear Committee Members,

Whereas...I am a voter, tax payer and concerned citizen, I am distressed at even the thought of spending even more work, time and money on continued efforts to sidestep all the past work, time and money spent on the issue of the Sharp Park lands in Pacifica.

With all of the fiscal and social issues in San Francisco, I urge the committee to get on with it. Move on to other, bigger issues and trust the voluminous work that has already been done. I support the current plan made by the SF Park & Rec. Department to save the Sharp Park Golf Course and support the continued vitality of the endangered Red Legged Frog and Garter Snake.

Thousands of golfers, including a huge percentage of senior citizens, use Sharp Park Golf Course as their chosen form of physical exercise. It actual helps to keep people out of hospitals. Your job is to continue the coexistence of people, the frog and the snake. You already have a plan. Now is the time to implement, not get bogged down the quicksand of redundancy and overspending.

Respectfully yours,

David Andrew Wardell

FW: Sharp Park

Tony Belway to: 'alisa.miller@sfgov.org', 'scott.wiener@sfgov.org', 'malia.cohen@sfgov.org'

Cc: 'Richard Harris'

11/19/2012 08:39 AM

My name is Tony Belway. I have lived in the outer Richmond District for over 50 years. I am sending you this email to urge you to not support the closing of Sharp Park Golf Course.

I have a Bachelor's of Science degree in Zoology, and also golf regularly at Sharp Park, and the other public San Francisco courses. I understand the environmental problems that can be caused by poor golf course management. My concerns are primarily related to water and pesticide use at golf courses. I have researched the Rachel Carson Institute's golf course management recommendations, as well as the Audubon Cooperative Sanctuary Golf course program recommendations.

Sharp Park is possibly the best managed golf course in terms of ecological sensitivity I have ever played, and one of the best in the world. The use of reclaimed water, the staking of environmentally sensitive habitat, the expansion of no-play areas during winter months, and the lack of chemicals used all are examples of their forward approach to golf course management. The habitation of numerous wildlife species is the best evidence of how good a job of course management is done at this park.

No doubt, the creation of the sea wall spanning the western boundary has changed the lagoon from a brackish, salt water environment, into a fresh water lagoon that several species have thrived in. It is because of this sea wall that these species are continuing to survive. The sea wall is also a great resource, as it part of a hiking a bike trail that extends the entire length of the Pacifica. It is a great hiking trail.

The golf course is not a threat to these species – indeed, their populations have been steadily increasing over the years, and funds generated by golf help maintain the sea wall and lagoon. However, the "restoration" project sponsored by the Center for Biological diversity includes the removal of 13,000 trees on 600 acres, as well as bulldozing 200 acres adjacent to the habitat. That is a threat to many other species that inhabit the golf course, including coyotes, hawks, foxes, rabbits numerous birds and other species.

It is a shame our leaders have so far have lacked the vision to see the opportunities at Sharp Park. Expand the access to view habitat with more hiking trails incorporated within in the golf course. Moving two holes to the eastern side of the highway would double the lagoon habitat. Certify the course with Audubon International – showcase Sharp Park as an example of how golf, nature and an urban park can all coexist.

Golfers are willing to pay their part, in higher fees if necessary, but remember, Sharp Park is one of the few economically accessible Golf Courses for City Residents. Harding Park is more than twice as expensive for City residents, and 5 times more expensive for Pacifica residents. And course fees charged by Recreation and Park help fund other recreation programs in the city.

Thank you for taking time to read this.

Tony Belway

Save Organic Sharp Park!!

wayne kappelman to: alisa.miller, eric.mar, scott.weiner, malia.cohen, ed.lee, david.chiu, info 11/19/2012 08:04 AM

Dear Supervisors,

I urge you to vote NO on the Sharp Park resolution before you today. Sharp Park golf course is a treasure for golfers and the public alike and needs to be protected now and for future generations. There are thousands of people who use and play the course that value the course as an affordable alternative to high priced country clubs. These are working people and retirees who cannot afford golf otherwise.

Additionally Sharp Park is 1 of only a handful of golf courses in the country that is entirely ORGANIC! There are over 14000 golf course in the country and Sharp Park is 1 of the 5 courses that does not use pesticides, herbicides, insecticides, and chemical fertilizers. In fact Sharp Park should be a model of organic and sustainable maintenance practices for the country and the world. In addition we continue to protect endangered and threatened species. Recent studies have found those species are thriving in and around Sharp Park golf course. I would expect Supervisors, the Mayor, and other politicians from the San Francisco area to sing the praises of Sharp Park. To brag about having an ORGANIC golf course owned and managed by the city. We are on the cutting edge of technology and maintenance practices for the organic golf industry and we continue to keep this a secret. Moreover we continue to attack the golf course in an effort to close it.

I hope this email reaches at least 1 person in city hall with the foresight to realize that standing behind an organic golf course is good politics as well as being the right thing to do. Thus I not only urge you to vote NO on the Sharp Park resolution I also urge you to visit Sharp Park and see for yourself what an organic golf course looks like.

Sincerely,

Wayne Kappelman
Golfer, Voter, Organic Guru at Sharp Park

Dear Supervisors,

I am a public course golfer, and I support the San Francisco Rec & Park Department's plan to save the historic and popular Sharp Park Golf Course, while at the same time protecting the environment by recovering frog and snake habitat in the golf course's wetlands.

Please vote "No" on the Sharp Park resolution, File No. 120619, which would require the City's Rec & Park and Planning Departments to start over on the Environmental Review process for the City's Sharp Park plan (overwhelmingly endorsed by the Rec & Park citizens advisory committee and unanimously adopted by the Rec & Park Commission in December, 2009). Supervisor Olague's Resolution would mean a colossal waste of public time, money, and effort that has gone into the Sharp Park plan. We cannot afford such public waste -- especially not now, in hard economic times, when we need to spend public money carefully.

The City's Sharp Park plan is the result of more than a dozen public meetings in both San Francisco and Pacifica since April, 2009, by several San Francisco public agencies, including the Rec & Park Commission and its citizens advisory committee ("PROSAC"), the SF Public Utilities Commission (on the related issue of the Sharp Park Recycled Water Project), and the Board of Supervisors and its City Audit and Neighborhood Services and Government Audit and Oversight committees.

Sharp Park has been part of the Significant Natural Areas Management Plan since the initial draft plan in 1995. The golf course was very explicitly the subject of the Environmental Impact public "scoping" written comments and public meetings in both San Francisco and Pacifica in May, 2009, and again in both public testimony and written comment to the Planning Commission on the Draft Environmental Impact Report in 2011 and 2012.

All of this represents thousands of hours of paid consultants' time public agency staff time over many years, and yet more thousands of hours of individual citizens' time in submitting written comments and appearing at the public hearings. Supervisor Olague's Resolution would let all of this money, time, and effort go to waste.

For these reasons, I respectfully request your "No" vote on File No. 120619.

Yours truly,

Robert F. Vranizan

Please respond to Grant Ingram

Dear Supervisors,

I am a public course golfer, and I support the San Francisco Rec & Park Department's plan to save the historic and popular Sharp Park Golf Course, while at the same time protecting the environment by recovering frog and snake habitat in the golf course's wetlands.

Please vote "No" on the Sharp Park resolution, File No. 120619, which would require the City's Rec & Park and Planning Departments to start over on the Environmental Review process for the City's Sharp Park plan (overwhelmingly endorsed by the Rec & Park citizens advisory committee and unanimously adopted by the Rec & Park Commission in December, 2009). Supervisor Olague's Resolution would mean a colossal waste of public time, money, and effort that has gone into the Sharp Park plan. We cannot afford such public waste -- especially not now, in hard economic times, when we need to spend public money carefully.

The City's Sharp Park plan is the result of more than a dozen public meetings in both San Francisco and Pacifica since April, 2009, by several San Francisco public agencies, including the Rec & Park Commission and its citizens advisory committee ("PROSAC"), the SF Public Utilities Commission (on the related issue of the Sharp Park Recycled Water Project), and the Board of Supervisors and its City Audit and Neighborhood Services and Government Audit and Oversight committees.

Sharp Park has been part of the Significant Natural Areas Management Plan since the initial draft plan in 1995. The golf course was very explicitly the subject of the Environmental Impact public "scoping" written comments and public meetings in both San Francisco and Pacifica in May, 2009, and again in both public testimony and written comment to the Planning Commission on the Draft Environmental Impact Report in 2011 and 2012.

All of this represents thousands of hours of paid consultants' time public agency staff time over many years, and yet more thousands of hours of individual citizens' time in submitting written comments and appearing at the public hearings. Supervisor Olague's Resolution would let all of this money, time, and effort go to waste.

For these reasons, I respectfully request your "No" vote on File No. 120619.

Sharp Park - Oppose the Resolution - $110 Million SFPUC habitat restoration is just over the hill from Sharp Park

Arnita Bowman to: eric.l.mar, Scott Weiner, malia.cohen, alisa.miller 11/18/2012 04:55 PM

Hello,

I am Arnita Bowman from San Bruno and a frequent visitor to San Francisco parks and respectfully request that the resolution to separate Sharp Park from the SNRAMP EIR be denied.

It is important that the environmental impact of ideological policy decisions be considered cumulatively. The 2006 Significant Natural Resource Areas Plan represents an ideology that deifies native plants and endangered species in a misguided attempt to turn back the clock in city park lands. This purist ideology is overall harmful to the people and wildlife that currently rely on these park lands and is far from benign.

If anything, instead of reducing the review scope to obscure the full impact of the policy decision, the environmental review process should be expanded to include all the ongoing projects in San Francisco and the nearby Peninsula that are based on this ideology and are already striping trees and wildlife habitat, escalating toxic herbicide spraying, and closing or preventing recreation such as hiking, golf, bike parks, disc golf courses, dog play areas, etc.

Specific to Sharp Park, it is important keep in mind that just over the hill is the 20,000+ SF Peninsula Watershed, a wildlife preserve owned by SF, which is the SF Peninsula critical habitat for the California Red-Legged Frog and is also reported as a habitat for the SF Garter Snake. The frog populations in the Sierras and southern California are most threatened, not those on the central coast. While the frog is a viable species and is doing well at Sharp Park and nearby locations, the existence of a pure SF Garter Snake population at Sharp Park seems questionable with or without the restoration. From what I've read, it is also questionable whether this garter snake is truly a unique subspecies from other common garter snakes or just a local color variation.

At a time of financial uncertainty, San Francisco residents are already doing much for the red-legged frog, the elusive SF garter snake, and other endangered species. In addition to Natural Areas plans, SF is already funding the $89 million SFPUC habitat restoration project and a $20 million Watershed Environmental Improvement project related to the SF Public Utilities Commission $4 Billion Water System Improvement Program (WSIP) project. Attached is a picture of four of the massive frog ponds that are being constructed in the watershed for this SFPUC project. I estimate these ponds are only about 3 miles from the Sharp Park lagoon and from a distance the new ponds look bigger than the lagoon.

I'd also encourage you to read this article with a perspective on the motivations and tactics of the extreme environmental groups. Separating this project will only increase costs, waste time, put recreation in further jeopardy, and obscure the full environmental impacts of extreme conservation ideologies.

Sincerely,

Arnita Bowman DSCN2524.JPG

Please respond to Steve Sinai

File No. 120619

Land Use, etc. Committee Hearing November 19, 2012, Agenda No. 5

Please vote no on Supervisor Olague's resolution to start over on the Environmental Review Process regarding the Sharp Park Golf Course. The whole effort to close Sharp Park, which at least produces revenues to offset its costs - and turn it into a frog-and-snake preserve, which will produce no revenues, is a waste of time and money. Local governments, including SF, can't afford to cater to small fringe groups on the right or left, including environmental groups.

Those of us who support the Sharp Park Golf Course like to refer to Wild Equity, the small group that is the driving force behind shutting down Sharp Park, as "Frog Qaeda."

This is nothing but a hail-Mary pass to overturn several years of work by someone who was totally unsuited to be on the Board of Supervisors and doesn't represent the views of her constituents, as evidenced by her being voted out of office.

Thanks,

Steve Sinai

Sharp Park has been part of the Significant Natural Areas Management Plan since the initial draft plan in 1995. The golf course was very explicitly the subject of the Environmental Impact public "scoping" written comments and public meetings in both San Francisco and Pacifica in May, 2009, and again in both public testimony and written comment to the Planning Commission on the Draft Environmental Impact Report in 2011 and 2012.

All of this represents thousands of hours of paid consultants' time public agency staff time over many years, and yet more thousands of hours of individual citizens' time in submitting written comments and appearing at the public hearings. Supervisor Olague's Resolution would let all of this money, time, and effort go to waste.

For these reasons, I respectfully request your "No" vote on File No. 120619.
Yours truly,

Jim Wagner

Dear Supervisors,

I am a public course golfer (and have been playing our wonderful City courses since 1962). I fully support the San Francisco Rec & Park Department's plan to save the historic and popular Sharp Park Golf Course, while at the same time protecting the environment by recovering frog and snake habitat in the golf course's wetlands.

Please vote "No" on the Sharp Park resolution, File No. 120619, which would require the City's Rec & Park and Planning Departments to start over on the Environmental Review process for the City's Sharp Park plan (overwhelmingly endorsed by the Rec & Park citizens advisory committee and unanimously adopted by the Rec & Park Commission in December, 2009). Supervisor Olague's Resolution would mean a colossal waste of public time, money, and effort that has gone into the Sharp Park plan. We cannot afford such public waste -- especially not now, in hard economic times, when we need to spend public money carefully.

The City's Sharp Park plan is the result of more than a dozen public meetings in both San Francisco and Pacifica since April, 2009, by several San Francisco public agencies, including the Rec & Park Commission and its citizens advisory committee ("PROSAC"), the SF Public Utilities Commission (on the related issue of the Sharp Park Recycled Water Project), and the Board of Supervisors and its City Audit and Neighborhood Services and Government Audit and Oversight committees.

Sharp Park has been part of the Significant Natural Areas Management Plan since the initial draft plan in 1995. The golf course was very explicitly the subject of the Environmental Impact public "scoping" written comments and public meetings in both San Francisco and Pacifica in May, 2009, and again in both public testimony and written comment to the Planning Commission on the Draft Environmental Impact Report in 2011 and 2012.

All of this represents thousands of hours of paid consultants' time public agency staff time over many years, and yet more thousands of hours of individual citizens' time in submitting written comments and appearing at the public hearings. Supervisor Olague's Resolution would let all of this money, time, and effort go to waste.

For these reasons, I respectfully request your "No" vote on File No. 120619.

Yours truly,

The Olague Resolution before your committee
Dan De Vries to: eric.mar, scott.wiener, malia.cohen, alisa.miller 11/17/2012 06:33 PM
Cc: ed.lee, david.chiu, sean.elsbernd, angela.calvillo

Supervisors Mar, Wiener, and Cohen:

I write to express passionate opposition to the Olague resolution regarding Sharp Park Golf Course, and profound disappointment that the matter is even being addressed in this manner, through yet another back door.

As each of you knows fully, there already exists a well-thought-out plan to preserve both the wildlife and golf at Sharp Park. It would be a travesty to jettison that plan and start the process all over again at the behest of a small minority of golf-hating extremists who pose as environmental activists.

That those extremists seek to deny seniors, juniors, and working people of moderate or limited income a time-honored and healthful outdoor recreation is beyond scorn. This matter should not even be before your committee, but since it is, I urge you to send it back under the rock from which it has slithered.

Re: Please Vote No on Resolution to Sever Sharp Park from the Natural Areas EIR
File No. 120619
Land Use, etc. Committee Hearing November 19, 2012, Agenda No. 5

Dear Supervisors,

I am a public course golfer, and I support the San Francisco Rec & Park Department's plan to save the historic and popular Sharp Park Golf Course, while at the same time protecting the environment by recovering frog and snake habitat in the golf course's wetlands.

Please vote "No" on the Sharp Park resolution, File No. 120619, which would require the City's Rec & Park and Planning Departments to start over on the Environmental Review process for the City's Sharp Park plan (overwhelmingly endorsed by the Rec & Park citizens advisory committee and unanimously adopted by the Rec & Park Commission in December, 2009). Supervisor Olague's Resolution would mean a colossal waste of public time, money, and effort that has gone into the Sharp Park plan. We cannot afford such public waste -- especially not now, in hard economic times, when we need to spend public money carefully.

The City's Sharp Park plan is the result of more than a dozen public meetings in both San Francisco and Pacifica since April, 2009, by several San Francisco public agencies, including the Rec & Park Commission and its citizens advisory committee ("PROSAC"), the SF Public Utilities Commission (on the related issue of the Sharp Park Recycled Water Project), and the Board of Supervisors and its City Audit and Neighborhood Services and Government Audit and Oversight committees.

Sharp Park has been part of the Significant Natural Areas Management Plan since the initial draft plan in 1995. The golf course was very explicitly the subject of the Environmental Impact public "scoping" written comments and public meetings in both San Francisco and Pacifica in May, 2009, and again in both public testimony and written comment to the Planning Commission on the Draft Environmental Impact Report in 2011 and 2012.

All of this represents thousands of hours of paid consultants' time public agency staff time over many years, and yet more thousands of hours of individual citizens' time in submitting written comments and appearing at the public hearings. Supervisor Olague's Resolution would let all of this money, time, and effort go to waste. For these reasons, I respectfully request your "No" vote on File No. 120619.

Yours truly,

Eugene Chan, Retired Professional Engineer

MEMORANDUM

TO: John Rahaim, Director, Planning Department
Phil Ginsburg, General Manager, Recreation and Park Department

FROM: Alisa Miller, Clerk, Land Use and Economic Development Committee
Board of Supervisors

DATE: July 10, 2012

SUBJECT: LEGISLATION INTRODUCED

The Board of Supervisors' Land Use and Economic Development Committee has received the following proposed legislation, introduced by Supervisor Olague on June 26, 2012, which is being forwarded to your department for review.

File No. 120619

Resolution to remove all management proposals and activities derived from the Sharp Park Conceptual Restoration Alternatives Report's Alternative A18 from the Environmental Impact Report for the San Francisco Recreation and Park Department's Significant Natural Resource Areas Management Plan, and to consider proposals and alternatives for the future of Sharp Park Golf Course through a separate and complete California Environmental Quality Act review process.

If you have any additional reports or comments to be included with the file, please forward them to me at the Board of Supervisors, City Hall, Room 244, 1 Dr. Carlton B. Goodlett Place, San Francisco, CA 94102.

c: Scott Sanchez, Zoning Administrator, Planning Department
Bill Wycko, Chief of Environmental Planning, Planning Department
AnMarie Rodgers, Planning Department
Monica Pereira, Planning Department
Joy Navarrete, Planning Department

Print Form

Introduction Form

By a Member of the Board of Supervisors or the Mayor

Time stamp
or meeting date

I hereby submit the following item for introduction (select only one):

☒ 1. For reference to Committee:
An ordinance, resolution, motion, or charter amendment.

☐ 2. Request for next printed agenda without reference to Committee.

☐ 3. Request for hearing on a subject matter at Committee:

☐ 4. Request for letter beginning "Supervisor _____ inquires"

☐ 5. City Attorney request.

☐ 6. Call File No. _____ from Committee.

☐ 7. Budget Analyst request (attach written motion).

☐ 8. Substitute Legislation File No.

☐ 9. Request for Closed Session (attach written motion).

☐ 10. Board to Sit as A Committee of the Whole.

☐ 11. Question(s) submitted for Mayoral Appearance before the BOS on

Please check the appropriate boxes. The proposed legislation should be forwarded to the following:

☐ Small Business Commission ☐ Youth Commission ☐ Ethics Commission

☐ Planning Commission ☐ Building Inspection Commission

Note: For the Imperative Agenda (a resolution not on the printed agenda), use a different form.
