Re: Support for Nabihah Azim's Nomination to Treasure Island Development Authority Board

Dear Supervisors Peskin, Mandelman and Chan:

On behalf of One Treasure Island and all of our Members-- Catholic Charities, Chinatown Community Development Center, HealthRight 360, Homerise, Mercy Housing, Rubicon Programs, Swords to Plowshare and Toolworks, we are writing to urge your support for Nabihah Azim for the TIDA Board.

I have known Nabihah through her management of Star View Court, a 138-unit affordable housing development on Treasure Island while at Mercy Housing, where she worked as an affordable housing developer for 8 years. During her time there she developed projects such as: Star View Court-an affordable housing project for current and new residents; the future Treasure Island HealthRight 360 project which will serve folks in need of residential substance abuse services; and, Sunnysdale HOPE SF. Nabihah understands the intricacies of development in San Francisco and specifically Treasure Island both from a resident, community services and development perspective.

Nabihah's work shows her commitment to creating equitable neighborhoods. She brings with her valuable insight on master plan developments, hard work, and empathy. Her experience and voice on the TIDA Board will be invaluable as we build this growing inclusive, diverse and mixed income San Francisco neighborhood.

It is for the above- mentioned reasons, we strongly urge you to approve Nabihah's appointment. Thank you in advance for your consideration. Please feel free to contact me at 415-426-6905 or [swilliams@onetreasureisland.org](mailto:swilliams@onetreasureisland.org) if you have any questions.

Sincerely,

Sherry Williams  
Executive Director
