[Accept and Expend Grant - FY2011 Urban Areas Security Initiative Grant - $35,546,960]

Ordinance authorizing the Department of Emergency Management, on behalf of the City and County San Francisco, as the primary grantee for the combined Bay Area Urban Area and as the fiscal agent for the Urban Areas Security Initiative Approval Authority (UASI), to retroactively accept and expend a UASI grant in the amount of $35,546,960 from the United States Department of Homeland Security, through the California Emergency Management Agency; and amending Ordinance No. 146-11 (Annual Salary Ordinance, FY 2011-2012) to reflect the addition of one grant-funded position in the Police Department, as follows: one position (.33 FTE) in Class 1824 Principal Administrative Analyst.

Note: Additions are *single-underline italics Times New Roman*; deletions are ~~*strikethrough italics Times New Roman*~~. Board amendment additions are double underlined; Board amendment deletions are ~~strikethrough normal~~.

Be it ordained by the People of the City and County of San Francisco:

Section 1. Findings.

(a) Urban Areas Security Initiative ("UASI") Program. The United States Department of Homeland Security ("DHS") has a Homeland Security Grant Program, which includes the UASI Program. The UASI Program addresses the unique planning, equipment, training, and exercise needs of high-threat, high-density Urban Areas, and assists those areas in building an enhanced and sustainable capacity to prevent, protect against, respond to, and recover from threats and acts of terrorism. DHS distributes UASI grant funds to recipient jurisdictions in California through the California Emergency Management Agency (CalEMA), which administers the UASI Program within the State.

(b) Bay Area Urban Area. Since fiscal year 2006-2007, DHS has combined the three separate Urban Areas of the City and County of San Francisco, the City of Oakland, and the City of San Jose into a single, combined "Bay Area Urban Area" for application, allocation and distribution of UASI grant funds. The Bay Area Urban Area includes the ten contiguous Bay Area counties and other governmental entities within those counties. The Bay Area Urban Area is one of seven "Tier 1" Urban Areas in the Nation.

(c) Urban Area Working Group ("UAWG") Requirement. For the UASI Program, DHS requires each Urban Area receiving funds to establish an UAWG to act as an executive steering committee, provide overall governance and coordinate development and implementation of all UASI Program initiatives within the applicable region, and ensure that all UASI program requirements are fulfilled.

(d) UASI Approval Authority. Beginning in fiscal year 2006-2007, the City and County of San Francisco, the City of Oakland, the City of San Jose, Alameda County, and Santa Clara County committed to cooperate in applying for, allocating and distributing UASI grant funds. Those jurisdictions entered a Memorandum of Understanding ("MOU") setting forth their agreements regarding the Bay Area Urban Area's mission, governance and reporting structures, responsibilities, and financial arrangements, and establishing processes and mechanisms to use in applying for, allocating and distributing UASI grant funds for the Bay Area Urban Area. The MOU created the UASI Approval Authority, comprised of representatives from the City and County of San Francisco, the City of Oakland, the City of San Jose, Alameda County, and Santa Clara County, and also created an Advisory Group and a UASI Management Team, with working groups, to support and assist the Approval Authority. DHS and CalEMA approved the Approval Authority and related layers of governance structure as the UAWG for the Bay Area Urban Area. The parties entered into an updated MOU effective July 1, 2007, which continued the UASI Approval Authority and UASI

Management Team structure. DHS and CalEMA approved that governance structure as the UAWG for the Bay Area Urban Area in fiscal years 2007-2008, 2008-2009, 2009-2010 and 2010-2011. The Board of Supervisors approved amendments to extend the term of that updated MOU, to permit the parties to negotiate a successor MOU, in Resolutions No. 111-11, File No. 110078 and No. 239-11, File No. 110603. The City and County of San Francisco finalized a successor MOU dated December 1, 2011 with the Cities of Oakland and San Jose and the Counties of Alameda, Contra Costa, Marin, Monterey, San Mateo, Santa Clara and Sonoma, and the Board of Supervisors approved that MOU in Resolution No. 478-11, File No. 111053. Under the successor MOU, the UASI Approval Authority is now an eleven member body, comprised of two representatives from San Francisco and one representative from each of the other jurisdictions that is party to the successor MOU. DHS and CalEMA approval of this reconstituted Approval Authority as the UAWG for the Bay Area Urban Area for fiscal year 2011-2012 is pending.

(e) Methodology for allocating funds; San Francisco as primary grantee and fiscal agent for UASI Approval Authority. The UASI Approval Authority makes decisions regarding allocation of UASI funds throughout the Bay Area Urban Area. The City and County of San Francisco is the primary grantee of UASI funds for the Urban Area and serves as the fiscal agent for the Approval Authority. San Francisco disburses funds to jurisdictions in the Bay Area Urban Area pursuant to the Approval Authority's direction.

(f) The City and County of San Francisco has participated in federal and state homeland security grant programs since their inception, and deems participation in those programs as vital to the continued well-being of its citizens.

(g) Fiscal Year 2011 UASI Grant Award, Use of UASI Funds. The DHS awarded the Bay Area Urban Area $35,546,960 in UASI grant funds for Fiscal Year 2011. Regionally, the grant funds will be used to purchase equipment and conduct planning, training and exercise

activities, as described more fully in the materials on file with the Clerk of the Board of Supervisors in File No. 120321, which are hereby declared to be a part of this ordinance as if set forth fully herein. The grant does not include any provisions for indirect costs.

(h) The City and County of San Francisco intends to use a portion of its share of the UASI grant funds to continue funding certain existing positions and to create one new grant-funded position within the City and County, at the Police Department.

(i) The performance period for the FY11 UASI grant is from November 17, 2011 through April 30, 2014.

Section 2. Authorization to Accept and Expend Grant Funds.

(a) The Board of Supervisors hereby authorizes the Department of Emergency Management to retroactively accept and expend, on behalf of the City and County of San Francisco, as the primary grantee of UASI funds for the Bay Area Urban Area and as the fiscal agent for the UASI Approval Authority, $35,546,960 in UASI grant funds for fiscal year 2011 from the DHS, through the CalEMA.

(b) The grant does not include any provisions for indirect costs, and indirect costs are hereby waived.

(c) The Executive Director of the Department of Emergency Management, or designee, is authorized to furnish whatever additional information or assurances the DHS or CalEMA may request in connection with this grant, to execute any and all agreements or other documents, and to take any other steps necessary to accept, distribute and expend the grant funds.

Section 3. Grant Funded Positions; Amendment to FY 2011-2012 Annual Salary Ordinance. The hereinafter designated sections and items of Ordinance No. 146-11 (Annual Salary Ordinance, FY 2011-2012) are hereby amended to add one position at the Police Department as follows:

[Accept and Expend FY 11 Urban Areas Security Initiative Grant and Amend Annual Salary Ordinance, FY 2011-2012]

Ordinance authorizing the Department of Emergency Management, on behalf of the City and County San Francisco, as the primary grantee for the combined Bay Area Urban Area and as the fiscal agent for the UASI Approval Authority, to retroactively accept and expend an Urban Areas Security Initiative ("UASI") grant in the amount of $35,546,960 from the United States Department of Homeland Security, through the California Emergency Management Agency; and amending Ordinance No. 146-11 (Annual Salary Ordinance, FY 2011-2012) to reflect the addition of one grant-funded position in the Police Department, as follows: one position (.33 FTE) in Class 1824 Principal Administrative Analyst.

Background Information

The United States Department of Homeland Security ("DHS"), through its Urban Areas Security Initiative ("UASI") Grant Program, provides funding for the planning, equipment, training, and exercise needs of high-threat, high-density Urban Areas, and assists those areas in building an enhanced and sustainable capacity to prevent, protect against, respond to, and recover from threats and acts of terrorism.

The combined Urban Areas of the City and County of San Francisco, the City of Oakland, and the City of San Jose form the Bay Area Urban Area, a Tier I Urban Area. The Bay Area Urban Area includes the ten contiguous Bay Area counties and governmental entities within those counties.

San Francisco, the City of Oakland, the City of San Jose, Alameda County, and Santa Clara County have entered a Memorandum of Understanding ("MOU") regarding the Bay Area Urban Area's mission, governance and reporting structures, responsibilities, and financial arrangements, as well as processes and mechanisms to use in applying for, allocating and distributing UASI grant funds through the Bay Area Urban Area. Under the MOU, the UASI Approval Authority determines the allocation and distribution of UASI grant funds. San Francisco serves as the primary grantee of UASI funds for the Bay Area Urban Area and as the fiscal agent for the Approval Authority. San Francisco disburses UASI funds pursuant to the Approval Authority's direction.

For fiscal year 2011, the Bay Area Urban Area was awarded $35,546,960. The term of the grant is from November 17, 2011 through April 30, 2014. The grant funds will be distributed throughout the region for planning, equipment, training, exercise, and organizational initiatives determined by the Approval Authority. San Francisco will use a portion of its share of the grant funds to continue funding existing positions and to create a new position.

Proposed Ordinance

The proposed ordinance authorizes the Department of Emergency Management (DEM), on behalf of the City and County of San Francisco as the primary grantee of UASI funds for the Bay Area Urban Area and as the fiscal agent for the UASI Approval Authority, to accept and expend $35,546,960 in UASI grant funds for fiscal year 2011 from the United States Department of Homeland Security, through the California Emergency Management Agency. The proposed ordinance also authorizes DEM's Executive Director, or designee, to take any steps necessary to accept, distribute and expend the grant funds.

Pursuant to Administrative Code §10.170-1(b), the proposed ordinance also amends the Annual Salary Ordinance, FY2011-2012, to reflect the addition of one (1) new grant-funded position at the Police Department.

RE: **Ordinance to Accept and Expend Bay Area Urban Areas Security Initiative (UASI) FY 2011 Homeland Security Grant Program Funds**

The Department of Emergency Management is pleased to present the following Grant Report in summary of the above-referenced item submitted by the Department of Emergency Management.

Legislation For Approval:

The proposed ordinance seeks the Board of Supervisors' approval for the acceptance (retroactive) and expenditure of $35,546,960 in funds from the Federal Department of Homeland Security (DHS) through the California Emergency Management Agency (CalEMA) to provide financial assistance to address the unique planning, equipment, training, exercise, and organizational needs of high-threat, high-density Urban Areas, and assist those areas in building an enhanced and sustainable capacity to prevent, protect against, respond to, and recover from natural or human caused disasters as well as threats and terrorism.

This grant was awarded to the Bay Area UASI from the Department of Homeland Security. It is a pass through from the California Emergency Management Agency. The focus of the funding is to provide financial assistance to address the unique planning, equipment, training, exercise, and organizational needs of high-threat, high-density Urban Areas, like the San Francisco Bay Area, and assist those areas in building an enhanced and sustainable capacity to prevent, protect against, respond to, and recover from disasters, threats and terrorism. San Francisco will continue to act as the fiscal agent for these funds.

Departments:

Department of Emergency Management (DEM). Department will act as fiscal agent and expenditures are to benefit the Bay Area UASI which includes the three former separate UASI cities: the City and County of San Francisco, the City of Oakland, and the City of San Jose, as well as the twelve contiguous Bay Area counties and the other Bay Area governmental jurisdictions within those counties.

The Bay Area UASI was established, in grant year FY2006, as a requirement of the Department of Homeland Security for regions to create a governance structure for the distribution of the Urban Area Strategic Initiative grant funding. The San Francisco Bay Area is designated as a Tier One region, indicating a high level of risk and threat.

The Bay Area UASI is lead by a grant funded general manager and staff consisting of employees from the cities and counties within the Bay Area region. Based on requirements of the grant, as well as recommendations of regional working groups and committees, grants are allocated through a regional Advisory Group and under the policy direction of the Approval Authority, which consists of representatives of the Cities of San Jose, Oakland, and San Francisco, and the Counties of Alameda, Contra Costa, Marin, Monterey, Santa Clara, San Francisco, San Mateo, and Sonoma. CalEMA also holds a seat on the Approval Authority. The chair of the Approval Authority is the Executive Director of the San Francisco Department of Emergency Management.

As the fiscal agent, DEM would be authorized to accept and expend these grant funds on behalf of the Bay Area, and to receive grant reimbursements for expenses incurred on behalf of the region.

DEM is responsible for administering the grant for the Bay Area UASI, ensuring that the grant funds are spent according to the grant guidelines, and ensuring that each of the Bay Area counties and cities that may receive a portion of these grant funds adheres to the grant and financial guidelines.

Each sub-recipient county or city that participates in this grant will enter into a grant MOU with DEM that outlines their obligation under the grant allocation, including requirements for contracting and procurement, record keeping and reimbursement documentation, and adherence to federal grant assurances.

Amount: Grant allocation to the UASI in the amount of $35,546,960 to be allocated to the above jurisdictions by agreement of the UASI Approval Authority which will act as the executive steering committee.

Grant Period: November 17, 2011 through April 30, 2014

Retroactivity: The Accept and Expend Legislation requests retroactive approval because the Federal Grant period commenced before the legislation was introduced. No grant funds will be encumbered or expended until the Board of Supervisors approves the Accept and Expend legislation.

Source of funds: U.S. Department of Homeland Security, through the California Emergency Management Agency. No match is required.

Indirect Costs: The proposed resolution waives indirect costs, because the grant program does not allow the charging of indirect costs.

Description: The proposed ordinance authorizes the Department of Emergency Management to accept and expend $35,546,960 in federal grant funding from the FY 2011 Homeland Security Grant Program (Award # 2011-SS-0077, OES # 075-95017), issued by the U.S. Department of Homeland Security (DHS) through the California Emergency Management Agency (CalEMA) and to continue the DHS and CalEMA approved Memorandum of Understanding (MOU) of 2006 through the updated 2011 MOU regarding the UASI mission, governance structure, responsibilities, reporting structure and financial arrangements, and establishing structures, processes and mechanisms to use in applying for, allocating and distributing grant funds to the UASI region. These grant expenditures will provide financial assistance to address the unique planning, equipment, training, exercise, organizational needs of high-threat, high-density Urban Areas, and assist those areas in building an enhanced and sustainable capacity to prevent, protect against, respond to, and recover from disasters, threats and terrorism.

The three original core cities of San Francisco, Oakland, and San Jose have been allocated $1,000,000 each to fund planning, training, equipment, and exercises.

Budget: The summary budget by activity for the subject grant is as follows:

(1) Equipment: $17,452,701

Funds will be used for the purchase of equipment for first responders throughout the region such as: Risk Management software, Terrorism Incident Response Equipment, Interoperable Communications Equipment, Information Technology Equipment, a watercraft, a CBRNE Response vehicle, a Specialized Mission Vehicle, and a Command vehicle upgrade, personal protective equipment, bomb squad equipment, and Citizen Corps equipment.

(2) Planning: $9,067,816

Of this amount, $1,915,408 will be used for the hiring of contractors for regional projects through the RFP process. Additional funding will be used by Alameda and Santa Clara Counties to pay for multidisciplinary project planning staff. San Francisco plans include the hire of one (1) staff member, an 1824 Principal Administrative Analyst to assist the Police Department in their Risk and Capability project. DEM will continue to fund an Emergency Response planner, a Risk Management Planner, and a strategic communications planner position. The San Francisco Fire and San Francisco Police Department will continue to

receive funding for one position each to provide updated plans and protocols within their departments.

(3) Training: $2,170,000
The amount represents the planned allocation to conduct regional Terrorism Liaison Officer training, regional Rescue Boat Operator Training, regional bomb squad classes, Hazmat training, Earthquake Management Training, Rescue system courses, tactical medicine courses, and various response courses for campus police departments.

(4) Exercises: $1,780,000
The amount represents the planned allocation for regional exercise planning, supplies, and the conduct of exercises using HSEEP (Homeland Security Exercise and Evaluation Program) guidelines and requirements. DEM will also continue funding an exercise planner and Alameda County will be provided funding to hire an Exercise overhead planning team.

(5) Organizational: $3,299,095
The amount represents the planned allocation for information sharing and collaboration as well as critical infrastructure protection. This amount pays for salary and fringe costs of regional intelligence analysts that staff the Northern California Regional Intelligence Center (NCRIC).

(6) Management & Administration $1,777,348
Management and Administration expenses include UASI grant administration staff, line item office expenses, Controller's Accounting, City Attorney, office and equipment maintenance and leases. The amount budgeted reflects 5% of the cash grant, which is the maximum allowable under the guidelines.

Total Budget: **$35,546,960**

Project	State Investment Justification Goals and Objectives	Project Description	Need	Project Milestone & Justifications
Project A	Goal 1, Obj 1.1	Provide Planning support for risk management and continue region-wide strategic planning and program management. The development of a risk and capabilities assessment based on the regions' goals and objectives in the Homeland Security Strategy will be used to enhance region-wide strategic planning and reporting. Risk Management softeware will be purchased to support the work of the planners.	Despite a strong foundation of regional planning, the Bay Area still has gaps in planning and risk management as found in current assessments. The region needs to collect and analyze more data for infomed decision making, updating of local emergency plans, and integrating these plans in the region. This will allow for a better understanding of trends in risk reduction and capability enhancements to evaluate grant effectiveness.	At the 6 month mark, this project will be 5% complete and $185,918 funds will be expended. At the 12 month mark, this project will be 20% complete and $743,673 funds will be expended. At the 18 month mark, this project will be 75% complete and $2,788,775 funds will be expended.
Project B	Goal 2, Obj. 2.1, 2.2, 2.3, 2.5	Provides funding for the Northern California Regional Intelligence Center (NCRIC) which is the Bay Area's Regional Threat Assessment Center. This fusion center provide comprehensive intelligence products that provides information regarding patterns related to terrorist operations and other criminal activity. In addition, this project will fund the continuing integration of RMS and AFR to organize large quantities of data and provide users with access to this data in secure repositories. It will also provide training for new and existing personnel at the NCRIC.	The need for continued funding exists in all areas of this project. Organization: need to sustain capability through the funding of 5 analysts in the fusion center (NCRIC) Planning: need updated and refined THIRAs and to establish buffer zone protection plans in Tier I CI/KR facilities in the region Equipment: need equipment at identified sites to protect critical infrastructure Training: need to conduct refresher training and training for new personnel. Need to continue integrating AFR/RMS systems in the region.	At the 6 month mark, this project will be 5% complete and $324,885 funds will be expended. At the 12 month mark, this project will be 20% complete and $1,299,542 funds will be expended. At the 18 month mark, this project will be 75% complete and $4,873,282 funds will be expended.
Project C	Goal 3, Obj. 3.1, 3.2	This project will continue to build capabilities by continuing the development of interoperable communications through BayRICs. This is a multi-phase, multi-year project and funds from this grant year will purchase dispatch consoles and the upgrade of regional command van communications equipment.	After Action Reports (AAR) from regional exercises and real world incidents have demonstrated the need for a BayRICs system of systems approach. The region is moving forward to ensure that coordinated voice communications and operational requirements within the region continue to improve.	At the 6-month mark, this project will be 5% complete and $487,775 funds will be expended. At the 12-month mark, this project will be 10% complete and $975,550 funds will be expended. At the 18-month mark, this project will be 50% complete and $4,877,751 funds will be expended.
Project D	Goal 4, Obj. 4.1, 4.2, 4.4, 4.6, 4.8	The project will continue to enhance the Bay Area regions' CBRNE response capabilities through the purchase of equipment, the development of plans, and the conduct of training.	The current CBRNE plan and assessment shows the need for equipment, vehicles, aircraft, and/or specially trained and equipped teams that can respond to a CBRNE incident. This investment works to close these gaps through the purchase of equipment and the training of specialized teams that will be strategically placed around the Bay Area to assist in the security of the region.	At the 6-month mark, this project will be 5% complete and $281,195 funds will be expended. At the 12-month mark, this project will be 10% complete and $562,390 funds will be expended. At the 18-month mark, this project will be 50% complete and $2,811,950 funds will be expended.

Project	State Investment Justification Goals and Objectives	Project Description	Need	Project Milestone Justifications
Project E	Goal 5, Obj. 5.3, 5.7	This project is designed to support medical and public health preparedness by funding a website to provide comprehensive information for the general public; to purchase equipment for a bioterrorism event, and to develop plans and procedures for mass prophylaxis when needed.	Despite significant investment in its Emergency Medical Services, gaps remain in real time data gathering and interpret data in real time to enable early detection of infectious deisease outreadks, biological terrorist threats, CBRNE, and other large-scal events. Public outreach messages concerning the dispensing of mass prophylaxis medications must be regional and consistent. In addition, the complex process of tracking medication inventory, POD staffing, and other planning efforts require continued development.	At the 6-month mark, this project will be 5% complete and $27,720 funds will be expended. At the 12-month mark, this project will be 20% complete and $110,878 funds will be expended. At the 18-month mark, this project will be 75% complete and $415,793 funds will be expended.
Project F	Goal 6, Obj. 6.2	Funding in this project will support planning efforts to enhance community preparedness in the West Bay and develop a strategic, operational plan for service delivery to Access and Functional Needs (AFN) populations in the South Bay.	There is a need to continue engaging the community to ensure preparation. Therefore, the West Bay wishes to support its ongoing CERT programs and refine community preparedness messaging which can also be used region-wide. The South Bay is not adequately prepared to meet the needs of the AFN population. This project will allow for strategic planning to obtain greater coordination within the area.	At the 6-month mark, this project will be 5% complete and $64,215 funds will be expended. At the 12-month mark, this project will be 20% complete and $256,860 funds will be expended. At the 18-month mark, this project will be 75% complete and $963,225 funds will be expended.
Project G	Goal 7, Obj. 7.4	This project will support recovery capabilities in the region by continuing planning efforts through the development of recovery annexes and a mitigation project that will identify, prioritize, and implement disaster mitigation projects in order to increase public safety and reduce or elimnate the risk of futere damage to local resources, infrastructure, and structures.	Lifelines interdependency is a highly technical field of study requiring extensive data gathering and assessment. This project will work towards closing this identified gap. Recovery planning has been identified as a neglected component of the homeland security mission areas and this project is in response to an established goal in the Bay Area's Homeland Security Strategy.	At the 6-month mark, this project will be 5% complete and $28,960 funds will be expended. At the 12-month mark, this project will be 20% complete and $115,838 funds will be expended. At the 18-month mark, this project will be 75% complete and $434,393 funds will be expended.
Project H	Goal 8, Obj. 8.1, 8.2	This project funds the region's training and exercise program. The program has a multi-year strategic plan that includes Urban Shield, the region's annual multi-discipline, multi-location full scale exercise. The program continues to build and enhance agency capabilities throughout the Bay Area.	The identified need in this project is for the constant need for training on new lessons and for training of new personnel as needed.	At the 6-month mark, this project will be 2% complete and $115,125 funds will be expended. At the 12-month mark, this project will be 15% complete and $863,438 funds will be expended. At the 18-month mark, this project will be 50% complete and $2,878,127 funds will be expended.
Project I	All Goals	Management and Administration as allowed by the grant.		At the 6-month mark, this project will be __% complete and $___ funds will be expended. At the 12-month mark, this project will be __% complete and $___ funds will be expended. At the 18-month mark, this project will be __% complete and $___ funds will be expended.

SUBJECT: **NOTIFICATION OF SUBGRANTEE APPLICATION APPROVAL**
FY 2011 Homeland Security Grant Program (HSGP)
Grant #2011-SS-0077, Cal EMA ID# 075-95017
Subgrantee Performance Period: November 17, 2011 to April 30, 2014

Dear Ms. Serata:

The California Emergency Management Agency (Cal EMA) has approved your FY 11 Homeland Security Grant Program (HSGP) award in the amount of $35,546,960. Once your completed application is received and approved, you may request reimbursement of eligible grant expenditures using the Cal EMA financial management forms workbook available at www.calema.ca.gov .

During the review process, a Cal EMA representative examined and evaluated your FY11 HSGP grant application. As a result of this review, some of your funded projects may have been assigned performance milestones shorter than the subgrantee performance period, based in part on information provided in your application and submitted workbook. Performance milestones will be used by Cal EMA to both determine the appropriate date to disencumber funds awarded under this grant and re-direct them to other needs across the State and as indicators of performance and grant management capacity in future competitive grant applications.

Activity:	Amount	Completion Date
ALL PROJECTS	$10,000,000	11/30/2012

Additionally, Aviation/Watercraft requests, Establish/Enhance Emergency Operations Center (EOC) projects, projects requiring EHP review and sole source procurement requests will require additional approvals from Cal EMA. For that reason, Project(s) , are not approved at this time, pending receipt of required supplemental documentation and/or approval from DHS. Subgrantees must obtain written approval for these activities **prior** to incurring any costs, in order to be reimbursed for any related costs under this grant. Subgrantees are required to obtain a performance bond for any equipment item over $250,000, or any vehicle, aviation, or watercraft (regardless of the cost) financed with homeland security dollars.

Following acceptance of this award, you must enter your grant information into the US Office of Grants and Training, Grant Reporting Tool (GRT), for the December 2011 Biannual Strategy Implementation Report (BSIR) period. The GRT can be accessed online at https://www.reporting.odp.dhs.gov/.

This grant is subject to all policies and provisions of the Federal Single Audit Act of 1984 and the Single Audit Act Amendments of 1996. Any funds received in excess of current needs, approved amounts, or those found owed as a result of a final review or audit, must be refunded to the State within 30 days upon receipt of an invoice from Cal EMA.
