PROJECT DESCRIPTION

On October 25, 2011, the Planning Department (herein "the Department") received a request from Department of Public Works for a General Plan Referral as required by Section 4.105 of the Charter and Section 2A.53 of the Administrative Code. The proposed project calls for the acceptance and dedication of public infrastructure and more specifically, the acceptance and dedication of a Sanitary Sewer Pump Station, including underground and surface infrastructure improvements. The Pump Station and improvements are located in Mission Bay South Project Area.

PROPOSED ACTIONS BY BOARD OF SUPERVISORS

Acceptance of Dedication of the Public Infrastructure Improvements

The Department of Public Works (DPW) has determined that the public infrastructure improvements installed as part of the Sanitary Sewer Pump Station have been constructed in accordance with the

approved Plans and Specifications and are ready for their intended use. Accordingly, the Developer is obligated to dedicate the Infrastructure Improvements to the City. The dedication will be for the improvements located in a portion of Assessor's Block/Lot 8711/005. The improvements include the Mission Bay South Sanitary Sewer Pump Station and related underground and surface infrastructure and improvements.

PREVIOUS ACTIONS RELATED TO THIS PROJECT

The Planning Commission found that the Mission Bay North and Mission Bay South Redevelopment Plans, dated September 4, 1998, were consistent with the San Francisco General Plan, by adopting Resolution No. 14699 on September 17, 1998. The project referenced above was proposed as part of the Mission Bay South Redevelopment Plan.

The Mission Bay Tentative Map and Land Transfers were found to be consistent with the General Plan and Section 101.1 of the Planning Code, as stated in a letter dated Nov., 13, 1998 from the Planning Department to Mr. Mark Primeau, Department of Public Works.

An Owner Participation Agreement (OPA) was executed between the Redevelopment Agency of the City and County of San Francisco and the project sponsor, on November 16, 1998. The OPA included the Infrastructure Plan that defined the horizontal infrastructure plans and improvements that are incorporated into the subject project.

In addition to these actions, the Final Land Transfer Map was approved by the Board of Supervisors by Motion No. M99-79.

ENVIRONMENTAL REVIEW

The Major Environmental Analysis section of the Planning Department completed Environmental Review of the Mission Bay Final Subsequent Environmental Impact Report (FSEIR). The FSEIR included analysis of regulatory and physical aspects of the Plan, including: the vacation of public rights-of-way, property acquisition, acceptance of offers of dedication of land for road rights-of-way, and acceptance of offers of Dedication of horizontal improvements (street and public rights-of-way, stormwater and sanitary sewer pump stations), among other actions.

The Final Subsequent Environmental Impact Report for Mission Bay (FSEIR) was prepared pursuant to the California Environmental Quality Act and was certified as adequate, accurate and objective in the following actions:

- Redevelopment Commission Resolution No. 182-98 on 9/17/1998
- Planning Commission Case 1996.771E, Resolution No. 14696 on 9/17/1998, certifying the FSEIR
- Board of Supervisors affirmed the Planning Commission's certification of the EIR by Resolution No. 854-98 on 10/19/1998.
- Redevelopment Agency issued Addendum #6 to the FSEIR on 9/10/2008.

Further Environmental Analysis is not required, as the subject project (acceptance of dedication of public infrastructure including the referenced project) was analyzed as part of the FSEIR certified by the Planning Commission and affirmed by the Board of Supervisors, as amended by subsequent Addenda. In addition, acceptance of infrastructure improvements (non-physical actions) is exempt from further environmental review, pursuant to Sec. 15060(c) (2) of CEQA guidelines.

GENERAL PLAN COMPLIANCE AND BASIS FOR RECOMMENDATION

The Project is consistent with the following relevant objectives and policies of the General Plan. The Project is consistent with the following General Plan Objectives and Policies. The Objectives and Policies are shown in **bold** font, policy text is in regular font, and staff comments are in *italic font*.

COMMUNITY FACILITIES ELEMENT

OBJECTIVE 10
LOCATE WASTEWATER FACILITIES IN A MANNER THAT WILL ENHANCE THE EFFECTIVE TREATMENT OF STORM AND WASTEWATER.

Policy 10.1
Provide facilities for treatment of storm and wastewater prior to discharge into the Bay or ocean. Locate such facilities according to the Wastewater and Solid Waste Facilities Plan.
Comment: The sanitary sewer pump station dedicated as part of this Project will serve as part of the sanitary system that will treat sanitary sewer waste prior to discharging treated water efficiently to the Bay. Unlike most areas of the City, Mission Bay has separate systems for stormwater and wastewater. Wastewater will be delivered to facilities for treatment before discharge. Stormwater is collected and handled separately.

ENVIRONMENTAL PROTECTION ELEMENT

POLICY 1.2
Improve the quality of natural resources.

If the present trend toward environmental deterioration is to be curbed, all forms of pollution must be controlled and eventually eliminated. Those resources within the exclusive jurisdiction of the City should be guarded against contamination through local regulatory action. Where effective resource management against pollution requires regional action, San Francisco should support and comply with all anti-pollution standards of the region.

OBJECTIVE 3
MAINTAIN AND IMPROVE THE QUALITY OF THE BAY, OCEAN AND SHORELINE AREAS.

Policy 3.3
Implement plans to improve sewage treatment and halt pollution of the Bay and Ocean.
Comment: The Project consists of the City's acceptance of a sanitary sewer pump station constructed by FOCIL_MB, LLC, and the developer of Mission Bay. The sanitary sewer pump station and associated

infrastructure improvements have been constructed in accordance with approved Plans and specifications and are ready for their intended use. Acceptance of the sanitary sewer pump station is required as part of the system been designed to treat wastewater before it is discharged to the Bay. Unlike most areas of the City, Mission Bay has separate systems for stormwater and wastewater. Stormwater is collected and handled separately. Construction of the separate systems in Mission Bay will reduce the incidence of stormwater overflows and discharge of untreated wastewater to San Francisco Bay. The Project is consistent Federal, State and Municipal regulations and is consistent with the referenced General Plan objectives and policies.

EIGHT PRIORITY POLICIES

The subject project is found to be consistent with the Eight Priority Policies of Planning Code Section 101.1(b) in that:

1. That existing neighborhood-serving retail uses be preserved and enhanced and future opportunities for resident employment in and ownership of such businesses enhanced.
   The project would have no adverse effect on neighborhood serving retail uses or opportunities for employment in or ownership of such businesses.

2. That existing housing and neighborhood character be conserved and protected in order to preserve the cultural and economic diversity of our neighborhood.
   The project would have no adverse effect on existing housing or neighborhood character.

3. That the City's supply of affordable housing be preserved and enhanced.
   The project would increase the City's affordable housing supply

4. That commuter traffic not impede MUNI transit service or overburden our streets or neighborhood parking.
   The project would have no adverse effect on MUNI transit service or parking.

5. That a diverse economic base be maintained by protecting our industrial and service sectors from displacement due to commercial office development, and that future opportunities for residential employment and ownership in these sectors be enhanced.
   The project would not adversely affect the industrial or service sectors or future opportunities for resident employment or ownership in these sectors.

6. That the City achieve the greatest possible preparedness to protect against injury and loss of life in an earthquake.
   The project would not adversely affect the City's preparedness against injury and loss of life in an earthquake.

7. That landmarks and historic buildings be preserved.
   The site does not have any landmarks or historic buildings to be demolished.

8. That our parks and open space and their access to sunlight and vistas be protected from development.
   The project would have no adverse effect on parks and open space or their access to sunlight and vistas.

Assignment

FOR VALUE RECEIVED, FOCIL-MB, LLC, a Delaware limited liability company ("**FOCIL**"), conditionally assigns to the City and County of San Francisco (the "**City**"), acting by and through the San Francisco Public Utilities Commission ("**SFPUC**"), to the extent permissible, all of its right, title and interest in and to any and all warranties and guaranties (individually a "**Warranty**", and collectively, "**Warranties**") applicable to the Acquisition Facilities set forth on **Exhibit** A (the "**Acquisition Facilities**"), effective on the effective date of a License Agreement relating to the Acquisition Facilities between FOCIL and the City, dated for reference purposes as of OCTOBER 4, 2011.

This Conditional Assignment of Warranties and Guaranties (the "**Assignment**") is being made in connection with Section 4.3(c) of that certain Acquisition Agreement dated as of June 1, 2001, by and between Catellus Development Corporation and the Redevelopment Agency of the City and County of San Francisco ("**Agency**"), as supplemented by that certain Supplement No. 1 to Acquisition Agreement dated as of October 1, 2002, as assigned to FOCIL pursuant to that certain Assignment, Assumption and Release Agreement (Mission Bay South) dated November 22, 2004, applicable to the Redevelopment Agency of the City and County of San Francisco Community Facilities District No. 6 (Mission Bay South Public Improvements) (as may be further supplemented or amended from time to time, the "**Acquisition Agreement**"). SFPUC is the city agency that will have jurisdiction of and operate the Acquisition Facilities for the City, as contemplated in Section 4.2 of the Acquisition Agreement.

In this Assignment, FOCIL acknowledges that the City, as the owner of the Acquisition Facilities, will be entitled to exercise rights under certain indemnities, warranties or other commitments given by FOCIL under the Mission Bay Plan and Plan Documents or subsequent Permits (the "**Other Obligations**"), to the extent provided therein, and which are not affected by this Assignment. The Warranties and Other Obligations are listed on **Exhibit B.**

FOCIL represents that it: (1) will not and has not taken any action, and has not failed to take any required action or done anything that could limit the enforceability of the Warranties and Other Obligations; and (2) has followed all start-up and monitoring procedures required to keep the Warranties in effect.

Conditions

1. Warranty Repairs. FOCIL either has entered into a contract to provide repair services for the Acquisition Facilities while the Warranties are in effect, or has the right to demand that a contractor, manufacturer, or supplier make repairs while the applicable Warranties are in effect. Therefore, FOCIL and the City agree that:

a. In non-emergency circumstances, the City must provide notice to FOCIL at least ten (10) business days before the City exercises a right of repair, warranty, guaranty, or similar right with respect to Acquisition Facilities subject to a Warranty (the "Warranty Notice

Period"). Within the Warranty Notice Period, FOCIL, at its option, without any requirement that it do so, may enforce the Warranty directly, but, if it does so, FOCIL must provide notice to the City before the Warranty Notice Period expires. If FOCIL either fails to provide such notice to the City, or provides notice but then fails to pursue the Warranty diligently (as determined in the City's reasonable judgment), the City will have the sole right and privilege to enforce the Warranty.

b. In the event of emergency circumstances, the City will have the right to use any and all means it deems proper to repair the Acquisition Facilities without prior notice to FOCIL, and the City's actions will not impair its rights in relation to FOCIL under this Assignment or the Other Obligations. The City agrees to provide FOCIL with notice of emergency repairs and the costs of the repairs to be claimed under the applicable Warranties within 24 hours or, if not practicable, as soon as reasonably practicable. In the event the City fails to provide FOCIL with reasonable notice FOCIL will not be obligated to reimburse the City for expenses or costs not covered by the Warranties.

c. In all circumstances, FOCIL agrees to cooperate and assist the City with its efforts to enforce any Warranties.
