FILE NO. 160657

ORDINANCE NO.

1	[Planning, Administrative Code - Construction of Accessory Dwelling Units]
2	
3	Ordinance amending the Planning Code to allow the construction of Accessory
4	Dwelling Units (ADUs, also known as Secondary or In-Law Units) on all lots in the City
5	in areas that allow residential use; amending the Administrative Code to revise the
6	definition of "rental unit" as it applies to ADUs; affirming the Planning Department's
7	determination under the California Environmental Quality Act; making findings of
8	consistency with the General Plan, and the eight priority policies of Planning Code,
9	Section 101.1; adopting findings of public necessity, convenience, and welfare under
10	Planning Code, Section 302; and directing the Clerk to send a copy of this ordinance to
11	the California Department of Housing and Community Development after adoption.
12	NOTE: Unchanged Code text and uncodified text are in plain Arial font.
13	Additions to Codes are in <u>single-underline italics Times New Roman font</u> . Deletions to Codes are in strikethrough italics Times New Roman font.
14	Board amendment additions are in <u>double-underlined Arial font</u> . Board amendment deletions are in strikethrough Arial font.
15	Asterisks (* * * *) indicate the omission of unchanged Code subsections or parts of tables.
16	
17	Be it ordained by the People of the City and County of San Francisco:
18	
19	Section 1.General and Environmental Findings.
20	(a) The Planning Department has determined that the actions contemplated in this
21	ordinance comply with the California Environmental Quality Act (California Public Resources
22	Code Sections 21000 et seq.). Said determination is on file with the Clerk of the Board of
23	Supervisors in File No. 160657 and is incorporated herein by reference. The Board affirms
24	this determination.
25	

(b) On June 16, 2016, the Planning Commission, in Resolution No. 19663, adopted
findings that the actions contemplated in this ordinance are consistent, on balance, with the
City's General Plan and eight priority policies of Planning Code Section 101.1. The Board
adopts these findings as its own. A copy of said Resolution is on file with the Clerk of the
Board of Supervisors in File No.160657, and is incorporated herein by reference.

6 (c) Pursuant to Planning Code Section 302, the Board of Supervisors finds that 7 these Planning Code amendments will serve the public necessity, convenience, and welfare 8 for the reasons set forth in Planning Commission Resolution No. 19663.

9

10

Section 2. Legislative Findings.

(a) San Francisco's total land area is approximately 49 square miles, and much of
 this land is not open to development because of prohibitive topography or public ownership.

(b) According to the 2010 United States Census Report, San Francisco is the most
 densely populated city in California. The San Francisco Bay Area is the second most densely
 populated metropolitan area in the United States, following only New York City.

(c) Housing costs in San Francisco are beyond the reach of the vast majority lowand middle-income households. Approximately 90% of individuals earning less than \$35,000
and over 50% of individuals making from \$35,000 to \$75,000 spending more than 30% of their
income on rent.

(d) San Francisco has a shortage of affordable housing units, exacerbated not only
by a shortage of new affordable housing units, but also by the continuing loss of affordable
housing units across the City. While approximately 6,300 new affordable housing units were
built in the period from 2005 to 2015, over 4,500 rent controlled and otherwise protected
affordable units were withdrawn from the housing market.

25

(e) Policy 1.5 of the City's 2014 Housing Element, which is a required element of
the City's General Plan, states that adding new units in existing residential buildings
represents a simple and cost-effective method of expanding the City's housing supply. These
units could be developed to meet the needs of seniors, people with disabilities and others
who, because of modest incomes or lifestyles, prefer or need small units at relatively low
rents, while simultaneously enhancing their overall safety and habitability.

(f) Section 65852.2 of the California Government Code provides that any local
agency may, by ordinance, provide for the creation of Accessory Dwelling Units (also known
as "second" or "in-law" units) in zones that allow for residential use. The State Legislature
finds and declares that these units are a valuable form of housing in California.

11 (g) Expanding the ability to construct Accessory Dwelling Units in San Francisco to 12 all areas that allow for residential use will provide additional housing that may be subject to 13 rent control and other rent stabilization protections, without substantially changing their built 14 character and allowing more residents to live within walking distance of transit, shopping, and 15 services.

(h) Allowing Accessory Dwelling Units within existing residential buildings, subject to
restrictions that incentivize their use as additional affordable rental housing, is a pragmatic
infill strategy to create more housing for San Francisco residents. This strategy is crucial for
San Francisco's housing market in multiple respects.

(i) This infill strategy would create more apartments in the areas of the city that are
already built-out without changing the neighborhood character, increasing building heights or
altering the built form. Such small-scale residential infill could create additional homes for
existing and future San Franciscans spread throughout the city.

- 24
- 25

1	(j) A need exists in San Francisco for additional affordable housing. By allowing
2	Accessory Dwelling Units citywide, San Francisco will continue to be a major provider of
3	affordable housing opportunities in the region.
4	
5	Section 3. The Planning Code is hereby amended by revising Sections 102, 207, and
6	307, and deleting Section 207.2, to read as follows:
7	SEC. 102. DEFINITIONS.
8	* * * *
9	Dwelling Unit, Accessory. Also known as a Secondary Unit or In-Law Unit, is a Dwelling Unit
10	added to an existing residential property and constructed entirely within the existing built envelope of
11	an existing building in areas that allow residential use or within the existing built envelope of an
12	existing and authorized auxiliary structure on the same lot with a complete or partial waiver from the
13	Zoning Administrator of the density limits and/or the parking, rear yard, exposure, or open space
14	standards of this Code pursuant to the provisions of Sections 207(c)(4) and 307(i).
15	* * * *
16	SEC. 207. DWELLING UNIT DENSITY LIMITS.
17	* * * *
18	(c) Exceptions to Dwelling Unit Density Limits. An exception to the calculations
19	under this Section shall be made in the following circumstances:
20	* * * *
21	(4) Accessory Dwelling Units <i>in Zoning Districts Other Than RH-1(D)</i> .
22	(A) Definition. An "Accessory Dwelling Unit" (ADU) is defined in
23	Section 102.
24	(B) Applicability. <i>Except for lots zoned RH-1(D), which are regulated by</i>
25	<u>subsection (c)(5) below</u> , T_{t} he exceptions permitted by this <u>S</u> ubsection 207(c)(4) shall apply only

1	to all lots located within the City and County of San Francisco in areas that allow residential use;
2	provided, however, that the Department shall not approve an application for construction of an
3	Accessory Dwelling Unit in any building where a tenant has been evicted pursuant to Administrative
4	Code Section 37.9(a)(9) through 37.9(a)(14) under a notice of eviction served within 10 years prior to
5	filing the application for a building permit to construct the ADU or where a tenant has been evicted
6	pursuant to Administrative Code Section 37.9(a)(8) under a notice of eviction served within five years
7	prior to filing the application for a building permit to construct the ADU.
8	(i) lots within the boundaries of Board of Supervisors District 8
9	extant on July 1, 2015;
10	(ii) lots within the boundaries of Board of Supervisors District 3
11	extant on July 1, 2015; and
12	(iii) lots with a building undergoing mandatory seismic retrofitting in
13	compliance with Section 34B of the Building Code or voluntary seismic retrofitting in compliance with
14	the San Francisco Department of Building Inspection's Administrative Bulletin 094.
15	(C) Controls <u>on Construction</u> . An Accessory Dwelling Unit is permitted
16	to be constructed under the following conditions:
17	(i) For buildings that have four existing Dwelling Units or fewer, one
18	ADU is permitted; for buildings that have more than four existing Dwelling Units, there is no limit on
19	the number of ADUs permitted.
20	(ii) An Accessory Dwelling Unit shall be constructed entirely within
21	the built envelope of an existing building or within the built envelope of an existing and authorized
22	auxiliary structure on the same lot, as the built envelope in either case existed three years prior to the
23	time the application was filed for a building permit to construct the ADU. For purposes of this
24	provision, the "built envelope" shall include all spaces included in Zoning Administrator Bulletin 4, as
25	amended from time to time, as well as any infilling underneath rear extensions.

1	(i) (iii) An Accessory Dwelling Unit shall not be constructed using
2	space from an existing Dwelling Unit.
3	(iv) A building undergoing seismic retrofitting may be eligible for a
4	height increase pursuant to Subsection (c)(4)(F) below.
5	(v) Notwithstanding any other provision of this Code, an Accessory
6	Dwelling Unit authorized under this Section 207(c)(4) may not be merged with an original unit(s).
7	(vi) An Accessory Dwelling Unit shall not be permitted in any
8	building in a Neighborhood Commercial District or in the Chinatown Community Business or Visitor
9	Retail Districts if accommodating the Accessory Dwelling Unit would either eliminate a ground-story
10	retail or commercial space or reduce a ground-story retail or commercial space by more than 25%.
11	(ii) The Accessory Dwelling Unit is subject to the provisions of the
12	San Francisco Rent Stabilization and Arbitration Ordinance (Chapter 37 of the Administrative Code) if
13	the existing building or any existing Dwelling Unit within the building is subject to the Rent
14	Stabilization and Arbitration Ordinance.
15	(iii) (D) Prohibition of Short-Term Rentals. The Department shall require the
16	applicant to disclose on any application for construction of an Accessory Dwelling Unit whether the
17	applicant intends to use, or authorize the use of, the An Accessory Dwelling Unit shall not be used for
18	Short-Term Residential Rentals under Chapter 41A of the Administrative Code, which restriction
19	shall be recorded as a Notice of Special Restriction on the subject lot. The Department shall not
20	approve an application for construction of an Accessory Dwelling Unit unless the applicant has
21	provided the information required by this subsection.
22	(iv) Board of Supervisors District 8. For Accessory Dwelling Units
23	on lots covered by Subsection 207(c)(4)(B)(i):
24	a. An Accessory Dwelling Unit shall not be permitted in any
25	RH-1(D) zoning district.

1	b. An Accessory Dwelling Unit shall be constructed entirely
2	within the existing building envelope or auxiliary structure, as it existed three (3) years prior to the
3	time of the application for a building permit.
4	c. For buildings that have no more than 10 existing Dwelling
5	Units, one Accessory Dwelling Unit is permitted; for buildings that have more than 10 existing
6	Dwelling Units, two Accessory Dwelling Units are permitted.
7	(v) Board of Supervisors District 3. For Accessory Dwelling Units
8	on lots covered by Subsection 207(c)(4)(B)(ii):
9	a. An Accessory Dwelling Unit shall not be permitted in any
10	RH-1(D) zoning district.
11	b. An Accessory Dwelling Unit shall be constructed entirely
12	within the existing building envelope or auxiliary structure, as it existed three (3) years prior to the
13	time of the application for a building permit.
14	c. For buildings that have four existing Dwelling Units or
15	fewer, one Accessory Dwelling Unit is permitted; for buildings that have more than four existing
16	Dwelling Units, there is no limit on the number of Accessory Dwelling Units permitted by this Section
17	207(c)(4).
18	(E) (vi) Buildings Undergoing Seismic Retrofitting. For Accessory
19	Dwelling Units on lots covered by Subsection 207(c)(4)(B)(iii): with a building undergoing
20	mandatory seismic retrofitting in compliance with Section 34B of the Building Code or voluntary
21	seismic retrofitting in compliance with the Department of Building Inspection's Administrative Bulletin
22	094, the following additional provision applies:
23	a. An Accessory Dwelling Unit shall not be permitted in any
24	RH-1 or RH-1(D) zoning district.
25	

1	b. An Accessory Dwelling Unit shall be constructed entirely
2	within the existing building envelope or auxiliary structure, as it existed three (3) years prior to the
3	time of the application for a building permit. If permitted allowed by the Building Code, a building
4	in which an Accessory Dwelling Unit is constructed may be raised up to three feet to create
5	ground floor ceiling heights suitable for residential use on lower floors. Such a raise in height
6	shall be:
7	<i>i</i> +) <i>shall be</i> exempt from the notification requirements of
8	Sections 311 and 312 of this Code; and
9	<i>ii2) permitted to <u>may</u></i> expand a noncomplying structure, as
10	defined in Section 180(a)(2) of this Code and further regulated in Sections 172, 180, and 188,
11	without obtaining a variance for increasing the discrepancy between existing conditions on the
12	lot and the required standards of this Code.
13	(F) (vii) Waiver of Code Requirements; Applicability of Rent Ordinance.
14	Pursuant to the provisions of Section 307(I) of this Code, the Zoning Administrator may grant
15	an Accessory Dwelling Unit a complete or partial waiver of the density limits and parking, rear
16	yard, exposure, or open space standards of this Code. However, If the Zoning Administrator
17	grants a complete or partial waiver of the requirements of this Code and the subject lot contains any
18	Rental Units at the time an application for a building permit is filed for construction of the Accessory
19	Dwelling Unit(s), the property owner(s) shall enter into a Regulatory Agreement with the City under
20	subsection (c)(4)(H) subjecting the ADU(s) to the San Francisco Residential Rent Stabilization and
21	Arbitration Ordinance (Chapter 37 of the Administrative Code) as a condition of approval of the
22	ADU(s). For purposes of this requirement, Rental Units shall be as defined in Section 37.2(r) of the
23	Administrative Code. existing building or any existing Dwelling Unit within the building is subject to
24	the provisions of the San Francisco Residential Rent Stabilization and Arbitration Ordinance (Chapter
25	37 of the Administrative Code), the property owner shall submit the following to the Department:

1	(G) Regulatory Agreements. A Regulatory Agreement required by subsection
2	(c)(4)(G) as a condition of approval of an Accessory Dwelling Unit shall contain the following:
3	a. (i) a. proposed agreement demonstrating statement that the Accessory Dwelling
4	Unit(s) ADU(s) are not subject to the Costa Hawkins Rental Housing Act (California Civil Code
5	Section 1954.50) because, under Section 1954.52(k), the owner has entered into this
6	agreement with the City in consideration for a <i>complete or partial waiver of the density limits</i> ,
7	and/or parking, rear yard, exposure or open space standards of this Code or other direct financial
8	contribution or any other form of assistance specified in California Government Code Sections
9	65915 et seq. ("Agreement") <u>;</u> and
10	(ii) b. if the Planning Director determines necessary, an Affidavit
11	containing information about the a description of the complete or partial waiver of Code requirements
12	granted by the Zoning Administrator or other direct financial contribution or other form of
13	assistance provided to the property owner: and-
14	(iii) a description of the remedies for breach of the Agreement and other
15	provisions to ensure implementation and compliance with the Agreement.
16	(iv) The property owner and the Planning Director (or his designee), on
17	behalf of the City, will execute the Agreement, which shall be reviewed and approved by the
18	City Attorney's Office. The Agreement shall be <i>approved</i> executed prior to the City's issuance of
19	the First Construction Document for the project, as defined in Section 107A.13.1 of the San
20	Francisco Building Code.
21	(v) Following execution of the Regulatory Agreement by all parties and
22	approval by the City Attorney, the Regulatory Agreement or a memorandum thereof shall be recorded
23	against the property and shall be binding on all future owners and successors in interest.
24	(D) (H) Monitoring Program.
25	

1 (i) Monitoring and Enforcement of Unit Affordability. The 2 Department shall establish a system to monitor the affordability of the Accessory Dwelling 3 Units authorized to be constructed by this S_s ubsection 207(c)(4) and shall use such data to enforce the requirements of the Regulatory Agreements entered into pursuant to subsection (c)(4)(H). 4 5 Property owners shall provide the Department with rent information as requested by the 6 Department. The Board of Supervisors recognizes that property owners and tenants generally 7 consider rental information sensitive and do not want it publicly disclosed. The intent of the 8 Board is for the Department to obtain the information for purposes of monitoring and enforcement 9 so but that its public disclosure is not it can be used by the Department in aggregate form, not in a *manner that would be* linked to specific individuals or units. The Department shall *only request* 10 11 rental information from property owners if the notice includes the statement that the Department is 12 acquiring it in confidence and will publicly disclose it only in aggregate form. The Department shall 13 not ask property owners to provide rental information if it determines, after consulting with the City 14 Attorney's Office, with respect to the legal requirements to determine how best to achieve the intent of 15 the Board that the information would be publicly disclosable under federal, state, or local law in 16 nonaggregated form. (ii) 17 Monitoring *and Enforcement* of *Prohibition on uUse* as Short 18 **Term Rentals.** The Department shall collect data on the use of Accessory Dwelling Units authorized to be constructed by this *Ssubsection* (c)(4) as Short-Term Residential Rentals, as 19 20 that term is defined in Administrative Code Section 41A.4, and shall use such data to evaluate 21 and enforce Notices of Special Restriction pursuant to subsection 207(c)(4)(D) and the requirements of Administrative Code Chapter 41A. 22 23 (iii) Department Report. The Department shall publish a report 24 annually until by April 1, 2019 2016, that describes and evaluates the types of units being developed and their affordability rates as well as their use as Short-Term Residential Rentals. 25

1	The report shall contain such additional information as the Director or the Board of Supervisors
2	determines would inform decision makers and the public on the effectiveness and
3	implementation of this <u>S</u> ubsection (c)(4) and <i>make <u>include</u></i> recommendations for any
4	amendments to the requirements of this Section 207(c)(4) or expansion of areas where Accessory
5	Dwelling Units should be constructed. The Department shall transmit this report to the Board of
6	Supervisors for its review and public input. In subsequent years, this information on Accessory
7	Dwelling Units shall be <i>included reported annually</i> in the Housing Inventory.
8	(5) Accessory Dwelling Units in RH-1(D) Zoning Districts.
9	(A) Definition. An "Accessory Dwelling Unit" (ADU) is defined in Section
10	<u>102.</u>
11	(B) Controls on Construction. An Accessory Dwelling Unit in an RH-1(D)
12	zoning district shall be allowed only as mandated by Section 65852.2 of the California Government
13	Code and only in strict compliance with the requirements of subsection (b) of Section 65852.2, as that
14	state law is amended from time to time.
15	(C) Department Report. In the report required by subsection $(c)(4)(H)(3)$, the
16	Department shall include a description and evaluation of the number and types of units being
17	developed pursuant to this subsection (c)(5), their affordability rates, and such other information as the
18	Director or the Board of Supervisors determines would inform decision makers and the public.
19	SEC. 207.2 SECOND UNITS.
20	(a) Second units, as defined and referred to in Government Code Section 65852.2, are
21	precluded in RH-1(D) and RH-1 zoned areas, except for units designed for and occupied by senior
22	citizens ("Senior Housing" as defined by Section 102) and except as may hereafter be permitted by later
23	amendments to this Code governing second units.
24	(b) Government Code Section 65852.2 requires a City to adopt either an ordinance
25	permitting or precluding second units within single-family and multifamily zoned areas or, in the

1	alternative, to be subject to certain restrictions set forth in Government Code Section 65852.2(b). The
2	provisions of this ordinance, in light of other provisions of the Planning Code governing second units,
3	do not result in the total preclusion of second units within single-family and multifamily zoned areas
4	and therefore San Francisco has a legislative scheme which complies with Government Code Section
5	65852.2(a). In the event that it is determined, however, that San Francisco's legislative scheme does not
6	comply with Government Code Section 65852.2(a), the following findings are made with the intent of
7	complying with Government Code Section 65852.2(c).
8	(1) San Francisco's total land area is approximately 49 square miles and much of
9	this land is not open to development because of topography or public ownership. San Francisco does
10	not have the option open to many other cities of annexing undeveloped land currently outside its
11	borders.
12	(2) San Francisco already has higher density development than other cities in
13	California, both in terms of units per square feet of lot area and in terms of units per linear feet of
14	street frontage. The density for housing development in San Francisco ranges from 4,000 square feet of
15	lot area per unit in RH-1(D) (House, One-Family Detached Dwellings) Districts to 200 square feet per
16	unit in RM-4 (Mixed Residential, High Density) Districts. Except for districts which require a lot width
17	of 33 feet and an area of 4,000 square feet, the minimum lot size for housing development is 2,500
18	square feet in area, following the standard lot size in San Francisco (25 X 100 square feet), or 1,750
19	square feet for lots within 125 feet of a corner. This density and lot size requirement allows greater
20	density than other jurisdictions in California where the typical density and lot size is about 5,000
21	square feet per unit for single-family dwellings and 1,500 square feet per unit for multifamily
22	development.
23	(3) San Francisco is the most densely populated city in California. It is the fourth
24	most densely populated city in the nation following only New York City and two cities in New Jersey
25	(Jersey City and Patterson).

1	(4) The limited land area and the limited developable land area of San Francisco
2	make it difficult to provide sites to replace single-family houses lost through conversion to a higher
3	density. Once single-family homes are converted into multiple dwelling structures by the addition of a
4	second unit, single-family housing stock is eliminated from the existing supply of single-family homes.
5	The irrevocable loss of the limited supply of single-family housing stock throughout the City will
6	adversely affect the health, safety and welfare of San Francisco residents.
7	(5) Single-family residences have in recent years been demolished at a faster rate
8	than any other residential structures in the City primarily because new multiple-unit residential
9	development in the City often occurs as the result of the demolition of single-family homes in multiple-
10	unit districts. Single-family homes were 37 percent of the residential units demolished in 1984, and 61
11	percent of the residential units demolished in 1983. Single-family homes represented an even larger
12	percentage of the residential structures demolished. Single-family homes were 86 percent of the
13	residential structures demolished in 1984, and 74.4 percent of the residential structures demolished in
14	1983.
15	(6) Single-family structures represent only 1/3 of all residential structures in San
16	Francisco compared to 60 percent of the residential structures in the State of California. Single-family
17	homes accounted for 18 percent of the new housing units in San Francisco in 1984, and 7 percent of
18	the new units in 1983. Other jurisdictions in California had single-family structures representing
19	approximately 50 percent of their new residential building permits for the same period.
20	(7) The number of families in San Francisco declined in the years from 1970 to
21	1980, as evidenced by the school enrollment for the population group under 15 years old. The decline
22	in enrollment was from 106,900 to 83,790. The zoning policy of the City and County of San Francisco
23	should encourage families to live in the City rather than encouraging them to leave the City. A further
24	decline in the number of families living in the City is detrimental to the public health, safety and
25	welfare.

1	(8) The addition of second units to single-family dwellings usually results in an
2	increase in the cost of those dwellings, and, in addition, to the cost of the remaining smaller supply of
3	single-family homes without second units. An increase in the cost of these types of dwellings will
4	discourage families from living in the City because the cost of dwellings most suitable for families will
5	be beyond the means of many who would otherwise live in the City.
6	(9) San Francisco will probably face a need for more large units in the future than it
7	did in the past, as the population ages and the new baby boom continues. Many women born between
8	1945 and 1952 who delayed child-bearing during the 1970's are now having babies at the same rate as
9	women born after 1952.
10	(10) The addition of second units in single-family houses throughout the City will
11	irrevocably deplete its limited supply of single-family homes and discourage families from living in the
12	City by removing the type and size of dwelling units most suitable for families. Many of the residential
13	parcels in the City are less than 2,500 square feet in size or 1,750 square feet for corner lots and do not
14	meet minimum lot size standards. Many of these parcels were developed without required garages or
15	with minimal garage space, and do not comply with existing off-street parking requirements. The
16	addition of second residential units in these areas could only worsen existing congestion.
17	(11) Parking problems are severe in a number of areas of the City because of its
18	dense population. The addition of second units in such areas will exacerbate the parking problem.
19	Imposing off-street parking requirements on secondary units would only partially alleviate that
20	problem in that additional units cause increased traffic other than that engaged in by the occupants of
21	the units (such as persons visiting the occupants for social or business purposes) as well as by the
22	occupants of the units.
23	(12) Increased parking problems in areas of the City already burdened with traffic
24	congestion adversely affects the health, safety and welfare of the residents of such areas by interfering
25	with access to off-street parking spaces, requiring additional police services to control traffic problems

1	and unlawful parking, requiring occupants and visitors to park further from their homes (thereby also
2	exposing themselves to greater inconvenience and, in some instances, threat to safety), and interfering
3	with access by emergency vehicles during an emergency (a problem which is further complicated in
4	areas with narrow streets, winding roads, and other topographical features which make access by
5	vehicles difficult).
6	(13) A need exists in San Francisco for additional affordable housing. Allowing
7	second units in RH-1(D) and RH-1 Districts is one means of providing such housing. However, to allow
8	second units without restriction in all areas currently zoned RH-1(D) and RH-1 would adversely affect
9	the health, safety and welfare of the public by permitting the conversion of an undue number of single-
10	family houses to multi-family units; by eliminating low-density residential areas in the City and thereby
11	depriving those who desire to live in the City without the stress of living in higher-density areas of their
12	opportunity to do so; and by permitting second units to be added in areas where undue traffic
13	congestion and the attendant difficulties described above, will occur.
14	(14) A further period of time is needed in order to determine those areas of the City
15	where the traffic congestion problems described above would be least likely to occur and where second
16	units may therefore be permitted without adverse impact to the public.
17	(15) There are no large districts suitable for the provision of second units, but instead
18	there are small subareas which must be reviewed on a case-by-case basis with community participation
19	in the review process. A case-by-case review is needed in order to determine those areas of the City
20	where the traffic congestion problems described above would be least likely to occur and where second
21	units may therefore be permitted without adverse impact to the public. Furthermore:
22	(A) The Planning Code presently permits a secondary unit in all single-
23	family homes in RH-1(S) (House, One-Family with Minor Second Unit), RH-2 (House, Two-Family)
24	and RH-3 (House, Three-Family) Districts no matter what the lot size. Second units in single-family
25	

homes are permitted in all other multifamily residential districts (all RM and RC Districts), depending on the size of the lot.

3	(B) The Planning Code permits the mapping of the RH-1(S) (House, One-
4	Family with Minor Second Unit) District. These RH-1(S) Zoning Districts provide for a two-family
5	dwelling with the second dwelling limited to 600 square feet of net floor area. The second unit remains
6	subordinate to the owner's unit and the structures retain the appearance of single-family dwellings. The
7	RH-1(S) Zoning District has been mapped in four areas of the City. Additional mapping of the RH-1(S)
8	Zoning District may be used to legalize existing secondary units in single-family homes and to increase
9	the number of secondary units.
10	(C) Dwellings specifically designed for and occupied by senior citizens
11	("Senior Housing") are presently permitted at a density ratio or number of Dwelling Units not
12	exceeding twice the number of Dwelling Units otherwise permitted as a principal use in the district by
13	the Planning Code.
14	(16) Restricting second units in single-family homes in San Francisco's RH-1(D) and
15	RH-1 Zoning Districts may limit the housing opportunities of the region. However, over time,
16	applications for RH-1(S) zoning designation may be reviewed on a case-by-case basis by the Planning
17	Commission and its staff, the Board of Supervisors and the Mayor and where second units would be
18	appropriate and would not adversely affect the public health, safety and welfare of residents of the City
19	and County of San Francisco, such rezoning applications would be approved. Neither the provisions of
20	this Section nor those of Government Code Section 65852.2 preclude the City from hereafter amending
21	this Code in order to permit second units in additional situations designed to address specific housing
22	needs and circumstances unique to San Francisco.
23	(17) San Francisco has been and will continue to be a major provider of affordable
24	housing opportunities in the region.

25

1	(A) Currently (1986) San Francisco administers 6,766 units of public
2	housing and 2,574 Section 8 certificates.
3	(B) Article 34, Section 1 of the California Constitution requires the approval
4	of the electorate as a condition to the development or acquisition of a low-rent housing project by the
5	local jurisdiction. San Francisco has met the requirement with the City's voters approving the
6	development of a maximum of 3,000 low-income housing units by a vote on Proposition Q on
7	November 2, 1976. Together with the units previously approved, approximately 4,000 low-income
8	housing units may be developed, constructed or acquired.
9	(C) Between 1981 and 1985, San Francisco's housing production efforts
10	included, but were not limited to the following:
11	1. San Francisco undertook a major rezoning of underutilized land
12	which will allow the development of 14,000 housing units. Another 1,700 units are underway on vacant
13	publicly owned sites in the City.
14	2. San Francisco set aside \$10,000,000 in general-fund monies for
15	an Affordable Housing Fund. \$6,100,000 of this amount is committed to create 443 housing units
16	including the renovation of 82 vacant public housing units into privately managed two- and three-
17	bedroom apartments.
18	3. San Francisco combined \$1,000,000 in federal Community
19	Development Funds with the proceeds of an \$8,000,000 bond issue to finance home improvement loans
20	for low- and moderate-income homeowners.
21	4. The Office Housing Production Program (OHPP), under which
22	high-rise office developers are required to build or contribute to housing on a formula based on the
23	size of their projects was instituted in 1981. The program has resulted in \$25,000,000 and over 3,700
24	housing units to date.
25	

- construction of 563 units of rental housing on five sites. 6 (D) Between 1980 and mid-1985 community-based nonprofit organizations 7 which receive Community Development Block Grant funding built 1,166 new housing units for low- and 8 moderate-income households. At the time of the 1985 report on their activities they had 200 units under construction, and 426 units planned. During this same time the organizations rehabilitated 1,780 units 9 for lower-income households, had 426 units undergoing rehabilitation, and had plans to rehabilitate 10 1.285 units. 11 12 SEC. 307. OTHER POWERS AND DUTIES OF THE ZONING ADMINISTRATOR. 13 In addition to those specified in Sections 302 through 306, and Sections 316 through 14 316.6 of this Code, the Zoning Administrator shall have the following powers and duties in 15 administration and enforcement of this Code. The duties described in this Section shall be 16 performed under the general supervision of the Director of Planning, who shall be kept informed of the 17 actions of the Zoning Administrator. * * * 18 **(I) Exceptions from Certain Specific Code Standards Through** 19 20 Administrative Review for Accessory Dwelling Units Constructed Pursuant to Section 21 207(c)(4) $\frac{207.4(c)}{c}$ of this Code. The Zoning Administrator may allow complete or partial relief from the density limits and from the parking, rear yard, exposure, and/or open space 22 23 requirements of this Code when modification of the requirement would facilitate the construction of an Accessory Dwelling Unit, as defined in Section 102 and meeting the 24 requirements of Section 207(c)(4) of this Code. The exposure requirements of Section 140 25

The City of San Francisco has sold \$84,000,000 in two bond

percent mortgages. In June, 1985 the City sold \$44,000,000 in mortgage revenue bonds to finance the 4

issues since 1982 to provide 30-year, 10³/₄ percent mortgages to some 900 low-to middle-income first-

time homebuyers. In addition a \$42,000,000 bond issue was sold to finance up to 400 homes with 9.8

1 SEC. 710. NC-1 – NEIGHBORHOOD COMMERCIAL CLUSTER DISTRICT.

- NC-1 Districts are intended to serve as local neighborhood shopping districts, providing
 convenience retail goods and services for the immediately surrounding neighborhoods
 primarily during daytime hours.
- 5 These NC-1 Districts are characterized by their location in residential neighborhoods, 6 often in outlying areas of the City. The commercial intensity of these districts varies. Many of 7 these districts have the lowest intensity of commercial development in the City, generally 8 consisting of small clusters with three or more commercial establishments, commonly grouped 9 around a corner; and in some cases short linear commercial strips with low-scale,
- 10 interspersed mixed-use (residential-commercial) development.
- Building controls for the NC-1 District promote low-intensity development which is compatible with the existing scale and character of these neighborhood areas. Commercial development is limited to one story. Rear yard requirements at all levels preserve existing backyard space.
- NC-1 commercial use provisions encourage the full range of neighborhood-serving convenience retail sales and services at the first story provided that the use size generally is limited to 3,000 square feet. However, commercial uses and features which could impact residential livability are prohibited, such as auto uses, financial services, general advertising signs, drive-up facilities, hotels, and late-night activity; eating and drinking establishments are restricted, depending upon the intensity of such uses in nearby commercial districts.
- Housing development in new buildings is encouraged above the ground story in most
 districts. Existing residential units are protected by prohibitions of conversions above the
 ground story and limitations on demolitions. Accessory Dwelling Units are permitted <u>within the</u>
 <u>district</u> on lots within the boundaries of Board of Supervisors District 8 pursuant to <u>Ss</u>ubsection
 207(c)(4) of this Code.

The raspecialty retail sto mmonly located a istricts range in s velopment in long s typically range in	along both collector and arterial streets which have transit ize from two or three blocks to many blocks, although the ger districts may be interspersed with housing or other land

The small-scale district controls provide for mixed-use buildings which approximate or
 slightly exceed the standard development pattern. Rear yard requirements above the ground
 story and at residential levels preserve open space corridors of interior blocks.
 Most new commercial development is permitted at the ground and second stories.
 Neighborhood-serving businesses are strongly encouraged. Eating and drinking and

6 entertainment uses, however, are confined to the ground story. The second story may be

7 used by some retail stores, personal services, and medical, business and professional offices.

8 Parking and hotels are monitored at all stories. Limits on late-night activity, drive-up facilities,

9 and other automobile uses protect the livability within and around the district, and promote

10 continuous retail frontage.

Housing development in new buildings is encouraged above the ground story. Existing
 residential units are protected by limitations on demolition and upper-story conversions.

13 Accessory Dwelling Units are permitted within the district pursuant to subsection 207(c)(4) of this

14 <u>Code.</u>

SEC. 712. NC-3 - MODERATE-SCALE NEIGHBORHOOD COMMERCIAL DISTRICT.

NC-3 Districts are intended in most cases to offer a wide variety of comparison and specialty goods and services to a population greater than the immediate neighborhood, additionally providing convenience goods and services to the surrounding neighborhoods. NC-3 Districts are linear districts located along heavily trafficked thoroughfares which also serve as major transit routes.

NC-3 Districts include some of the longest linear commercial streets in the City, some
 of which have continuous retail development for many blocks. Large-scale lots and buildings
 and wide streets distinguish the districts from smaller-scaled commercial streets, although the
 districts may include small as well as moderately scaled lots. Buildings typically range in
 height from two to four stories with occasional taller structures.

NC-3 building standards permit moderately large commercial uses and buildings. Rear yards are protected at residential levels.

- A diversified commercial environment is encouraged for the NC-3 District, and a wide
 variety of uses are permitted with special emphasis on neighborhood-serving businesses.
- 3 Eating and drinking, entertainment, financial service and certain auto uses generally are
- 4 permitted with certain limitations at the first and second stories. Other retail businesses,
- 5 personal services and offices are permitted at all stories of new buildings. Limited storage and
- 6 administrative service activities are permitted with some restrictions.
- 7 Housing development in new buildings is encouraged above the second story. Existing
- 8 residential units are protected by limitations on demolitions and upper-story conversions.
- 9 <u>Accessory</u> Dwelling Units are permitted <u>within the district</u> on lots within the boundaries of Board of
- 10 Supervisors District 8 pursuant to $S_{\underline{s}}$ ubsection 207(c)(4) of this Code.

		Boundaries:-Within the boundaries of the NC-3 Districts
		Board of Supervisors District 8 extant on July 1, 2015.
§ 712.91	§ 207(c)(4)	Controls: An "Accessory Dwelling Unit," as defined in
3 · · = · • ·	3 _0. (0)(1)	Section 102 and meeting the requirements of Section
		207(c)(4), is permitted to be constructed within an existing
		building <u>in areas that allow</u> zoned for residential use or
		within an existing and authorized auxiliary structure on th

1	same lot, provided that it does not eliminate or reduce a
2	ground story retail or commercial space.
3	SEC. 713. NC-S – NEIGHBORHOOD COMMERCIAL SHOPPING CENTER DISTRICT.
4	NC-S Districts are intended to serve as small shopping centers or supermarket sites
5	which provide retail goods and services for primarily car-oriented shoppers. They commonly
6	contain at least one anchor store or supermarket, and some districts also have small medical
7	office buildings. The range of services offered at their retail outlets usually is intended to serve
8	the immediate and nearby neighborhoods. These districts encompass some of the most
9	recent (post-1945) retail development in San Francisco's neighborhoods and serve as an
10	alternative to the linear shopping street.
11	Shopping centers and supermarket sites contain mostly one-story buildings which are
12	removed from the street edge and set in a parking lot. Outdoor pedestrian activity consists
13	primarily of trips between the parking lot and the stores on-site. Ground and second stories
14	are devoted to retail sales and some personal services and offices.
15	The NC-S standards and use provisions allow for medium-size commercial uses in low
16	scale buildings. Rear yards are not required for new development. Most neighborhood-serving
17	retail businesses are permitted at the first and second stories, but limitations apply to fast-food
18	restaurants and take-out food uses. Some auto uses are permitted at the first story. Limited
19	storage and administrative service activities are permitted with some restrictions.
20	Housing development in new buildings is permitted. Existing residential units are
21	protected by limitations on demolitions and prohibitions of upper-story conversions. Accessory
22	Dwelling Units are permitted within the district on lots within the boundaries of Board of Supervisors
23	District 8 pursuant to Ssubsection 207(c)(4) of this Code.

SEC. 716	. INNER C	LEMENT STREET NEIGHBORHOOD COMMERCIAL DISTRICT.
Th	e Inner Cler	ment Street Commercial District is located on Clement Street betweer
Arguello E	Boulevard a	nd Funston Avenue in the eastern portion of the Richmond District of
northwest	t San Franci	isco. The district provides a wide selection of convenience goods and
services f	or the resid	ents of the Inner Richmond neighborhood. Inner Clement Street has c
of the gre	atest conce	ntrations of restaurants of any commercial street in San Francisco,

drawing customers from throughout the City and region. There are also a significant number
 of professional, realty, and business offices as well as financial institutions. The pleasant
 pedestrian character of the district is derived directly from the intensely active retail frontage
 on Clement Street.

5 The Inner Clement Street District controls are designed to promote development that is 6 consistent with its existing land use patterns and to maintain a harmony of uses that supports 7 the district's vitality. The building standards allow small-scale buildings and uses, protecting 8 rear yards above the ground story and at residential levels. In new development, most 9 commercial uses are permitted at the first two stories, although certain limitations apply to uses at the second story. Special controls are necessary to preserve the equilibrium of 10 11 neighborhood-serving convenience and comparison shopping businesses and protect 12 adjacent residential livability. These controls prohibit additional financial service and limit 13 additional eating and drinking establishments, late-night commercial uses and ground-story 14 entertainment uses. In order to maintain the street's active retail frontage, controls also 15 prohibit most new automobile and drive-up uses.

Housing development is encouraged in new buildings above the ground story. Existing
 residential units are protected by prohibitions on upper-story conversions and limitations on
 demolitions. <u>Accessory Dwelling Units are permitted within the district pursuant to subsection</u>

19 $\underline{207(c)(4) \text{ of this Code.}}$

SEC. 717. OL	SEC. 717. OUTER CLEMENT STREET NEIGHBORHOOD COMMERCIAL DISTRICT.					
The Outer Clement Street Neighborhood Commercial District is located on Clement						
Street betwee	Street between 19th Avenue and 27th Avenue in the western portion of the Richmond District					
The shopping	The shanning area contains small-scale convenience husinesses, as well as many					

22 The shopping area contains small-scale convenience businesses, as well as many

restaurants and a movie theater. The district's restaurants serve a neighborhood and Citywide

clientele during the evening hours, while convenience shopping uses cater for the most part to

25

daytime neighborhood shoppers. Outer Clement Street contains many mixed-use buildings
 with some fully commercial and fully residential buildings interspersed between them.

3 The Outer Clement Street District controls are designed to promote development that is in keeping with the district's existing small-scale, mixed-use character. The building standards 4 5 monitor large-scale development and protect rear yards at all levels. Future commercial 6 growth is directed to the ground story in order to promote more continuous and active retail frontage. Additional eating and drinking establishments are regulated to prevent over-7 8 concentration, while ground-story entertainment and financial service uses are monitored in 9 order to limit the problems of traffic, congestion, noise and late-night activity associated with such uses and to protect existing neighborhood-serving businesses. Other controls restricting 10 late-night activity, hotels, automobile uses, and drive-up facilities are designed to preserve the 11 12 low-intensity character of the district.

Housing development in new buildings is encouraged above the ground story. Existing
 residential units are protected by prohibitions of upper-story conversions and limitations on
 demolitions. <u>Accessory Dwelling Units are permitted within the district pursuant to subsection</u>
 <u>207(c)(4) of this Code.</u>

¹⁶ SEC. 718. UPPER FILLMORE STREET NEIGHBORHOOD COMMERCIAL DISTRICT.

17 The Upper Fillmore Street Neighborhood Commercial District is situated in the south-18 central portion of Pacific Heights. It runs north-south along Fillmore Street from Jackson to 19 Bush and extends west one block along California and Pine Streets. This medium-scaled, 20 multi-purpose commercial district provides convenience goods to its immediate neighborhood 21 as well as comparison shopping goods and services on a specialized basis to a wider trade 22 area. Commercial businesses are active during both day and evening and include a number 23 of bars, restaurants, specialty groceries, and specialty clothing stores. 24 The Upper Fillmore District controls are designed to protect the existing building scale 25 and promote new mixed-use development which is in character with adjacent buildings.

1 Building standards regulate large lot and use development and protect rear yards above the 2 ground story and at residential levels. Most commercial uses are permitted at the first two 3 stories of new buildings. Special controls are designed to preserve the existing equilibrium of 4 neighborhood-serving convenience and specialty commercial uses. In order to maintain 5 convenience stores and protect adjacent livability, additional bars (unless part of a full-service 6 restaurant) and formula retail establishments are prohibited, other eating and drinking 7 establishments and self-service specialty foods require conditional use authorization and 8 ground-story entertainment and financial service uses are limited. In order to promote 9 continuous retail frontage, drive-up and most automobile uses are prohibited.

10 Housing development in new buildings is encouraged above the second story. Existing residential units are protected by limitations on demolitions and upper-story conversions. 11

12 Accessory Dwelling Units are permitted within the district pursuant to subsection 207(c)(4) of this

13 Code.

SEC. 719. HAIGHT STREET NEIGHBORHOOD COMMERCIAL DISTRICT.

16 Northwest of the City's geographical center, the Haight Street Neighborhood 17 Commercial District is located in the Haight-Ashbury neighborhood, extending along Haight 18 Street between Stanyan and Central Avenue, including a portion of Stanyan Street between 19 Haight and Beulah. The shopping area provides convenience goods and services to local 20 Haight-Ashbury residents, as well as comparison shopping goods and services to a larger 21 market area. The commercial district is also frequented by users of Golden Gate Park on 22 weekends and by City residents for its eating, drinking, and entertainment places. Numerous 23 housing units establish the district's mixed residential-commercial character. 24 The Haight Street District controls are designed to protect the existing building scale

²⁵ and promote new mixed-use development which is in character with adjacent buildings. The

1 building standards regulate large-lot and use development and protect rear yards above the 2 ground story and at residential levels. To promote the prevailing mixed-use character, most 3 commercial uses are directed primarily to the ground story with some upper-story restrictions 4 in new buildings. In order to maintain the balanced mix and variety of neighborhood-serving 5 commercial uses and regulate the more intensive commercial uses which can generate 6 congestion and nuisance problems, special controls prohibit additional drinking uses, limit 7 additional eating establishments, restrict expansion and intensification of existing eating and 8 drinking establishments, and limit entertainment and tourist hotels. Prohibitions of most 9 automobile and drive-up uses protect the district's continuous retail frontage.

10 Housing development in new buildings is encouraged above the ground story. Existing residential units are protected by prohibition of upper-story conversions and limitations on 11

12 demolitions. Accessory Dwelling Units are permitted within the district pursuant to subsection

13 207(c)(4) of this Code.

13					

SEC. 720. HAYES-GOUGH NEIGHBORHOOD COMMERCIAL TRANSIT DISTRICT.

The Hayes-Gough Neighborhood Commercial Transit District is located within walking 15 distance of the Civic Center, lying west of Franklin Street and east of Laguna Street, with its 16 southern edge generally at Lily Street, with an extension sough along both sides of Octavia 17 Boulevard to Market Street. This mixed-use commercial district contains a limited range of 18 retail commercial activity, which primarily caters to the immediate need of the neighborhood. 19 The few comparison goods that it does provide attract clientele from a wider area outside its 20 neighborhood, mostly the Performing Arts and Civic Center workers and visitors. There are a 21 number of restaurants and art galleries, but other types of retail activity are limited. 22

The Hayes-Gough District controls are designed to allow for growth and expansion that 23 is compatible with the existing building and use scales. Building standards protect the 24 moderate building and use size and require rear yards at residential levels. To maintain the 25

0

14

1 mixed-use character of the district, most commercial uses are permitted at the first and 2 second stories and housing is strongly encouraged at the third story and above. In order to 3 encourage lively pedestrian-oriented commercial activity, but restrict certain sensitive and problematic uses, eating and drinking, and entertainment uses are directed to the ground 4 5 story. Retail sales activity, especially neighborhood-serving businesses, is further promoted 6 by restricting new ground-story medical, business and professional offices. To protect 7 continuous frontage, drive-up and most automobile uses are prohibited, above-ground parking 8 is required to be setback or below ground, and active, pedestrian-oriented ground floor uses 9 are required on Hayes Street and portions of Octavia Boulevard.

Housing development in new buildings is encouraged above the second story, and is 10 controlled not by lot area but by physical envelope controls. Existing residential units are 11 12 protected by limitations on demolitions, mergers, subdivisions, and upper-story conversions. 13 Given the area's central location and accessibility to the downtown and to the City's transit 14 network, accessory parking for residential uses is not required. The code controls for this 15 district are supported and augmented by design guidelines and policies in the Market and Octavia Area Plan of the General Plan. Accessory Dwelling Units are permitted within the district 16 17 pursuant to subsection 207(c)(4) of this Code.

21							mercial District, on Market Street at
23					U		y, Buena Vista, and Duboce Triangle
24	neighborho	oods	. Upper Market	Stre	et is a mult	i-purp	ose commercial district that provides
_			_				

for a broader trade area. A large number of offices are located on Market Street within easy
transit access to downtown. The width of Market Street and its use as a major arterial diminish
the perception of the Upper Market Street District as a single commercial district. The street
appears as a collection of dispersed centers of commercial activity, concentrated at the
intersections of Market Street with secondary streets.

6 This district is well served by transit and is anchored by the Castro Street Station of the 7 Market Street subway and the F-Market historic streetcar line. The F, K, L, and M streetcar 8 lines traverse the district, and the Castro Station serves as a transfer point between light rail 9 and crosstown and neighborhood bus lines. Additionally, Market Street is a primary bicycle corridor. Residential parking is not required and generally limited. Commercial establishments 10 are discouraged or prohibited from building accessory off-street parking in order to preserve 11 12 the pedestrian-oriented character of the district and prevent attracting auto traffic. There are 13 prohibitions on access (i.e. driveways, garage entries) to off-street parking and loading on 14 Market Street to preserve and enhance the pedestrian-oriented character and transit function.

15 The Upper Market Street district controls are designed to promote moderate-scale 16 development which contributes to the definition of Market Street's design and character. They 17 are also intended to preserve the existing mix of commercial uses and maintain the livability of 18 the district and its surrounding residential areas. Large-lot and use development is reviewed 19 for consistency with existing development patterns. Rear yards are protected at residential 20 levels. To promote mixed-use buildings, most commercial uses are permitted with some 21 limitations above the second story. In order to maintain continuous retail frontage and 22 preserve a balanced mix of commercial uses, ground-story neighborhood-serving uses are 23 encouraged, and eating and drinking, entertainment, and financial service uses are limited. Continuous frontage is promoted by prohibitions of most automobile and drive-up uses. 24

1	Housing development in	new buildings is	s encouraged above	the second story.	Existing

SEC. 724. SACRAMENTO STREET NEIGHBORHOOD COMMERCIAL DISTRICT.

2 Located in the Presidio Heights neighborhood in north-central San Francisco, the 3 Sacramento Street Neighborhood Commercial District functions as a small-scale linear 4 shopping area. It extends along Sacramento Street between Lyon and Spruce. Interspersed 5 among residential buildings and garages, the district's daytime-oriented retail stores provide a 6 limited array of convenience goods to the immediate neighborhood. Sacramento Street also 7 has many elegant clothing, accessory, and antique stores and services, such as hair salons, 8 which attract customers from a wider trade area. Its numerous medical and business offices 9 draw clients from throughout the City. Evening activity in the district is limited to one movie 10 theater, a few restaurants, and some stores near Presidio Avenue.

11 The Sacramento Street District controls are designed to promote adequate growth 12 opportunities for development that is compatible with the surrounding low-density residential 13 neighborhood. The building standards monitor large-scale development and protect rear yards 14 at the grade level and above. Most new commercial development is permitted at the first 15 story; general retail uses are permitted at the second story only if such use would not involve 16 conversion of any existing housing units. Special controls are designed to protect existing 17 neighborhood-serving ground-story retail uses. New medical service uses are prohibited at all 18 stories except a change of use is permitted on the first story or below from a business or 19 professional service use to medical service use under certain circumstances. Personal and 20 business services are restricted at the ground story and prohibited on upper stories. Limits on 21 new ground-story eating and drinking uses, as well as new entertainment and financial service 22 uses, are intended to minimize the environmental impacts generated by the growth of such 23 uses. The daytime orientation of the district is encouraged by prohibiting bars and restricting 24 late-night commercial activity. New hotels and parking facilities are limited in scale and

1 operation to minimize disruption to the neighborhood. Most new automobile and drive-up uses

2 are prohibited to promote continuous retail frontage.

3 Housing development in new buildings is encouraged above the second story. Existing

4 residential units are protected by limitations on demolitions and prohibitions of upper-story

5 conversions. <u>Accessory Dwelling Units are permitted within the district pursuant to subsection</u>

 $6 \qquad \underline{207(c)(4) \text{ of this Code.}}$

SEC. 725. UNION STREET NEIGHBORHOOD COMMERCIAL DISTRICT.

6 The Union Street Commercial District is located in northern San Francisco between the 7 Marina and Pacific Heights neighborhoods. The district lies along Union Street between Van 8 Ness Avenue and Steiner, including an arm extending north on Fillmore Street to Lombard. The 9 shopping area provides limited convenience goods for the residents of sections of the Cow 10 Hollow, Golden Gate Valley, and Pacific Heights neighborhoods immediately surrounding the 11 street. Important aspects of Union Street's business activity are eating and drinking 12 establishments and specialty shops whose clientele comes from a wide trade area. There are 13 also a significant number of professional, realty, and business offices. Many restaurants and 14 bars as well as the district's two movie theaters are open into the evening hours, and on 15 weekends the street's clothing, antique stores and galleries do a vigorous business.

16 The Union Street District controls are designed to provide sufficient growth opportunities 17 for commercial development that is in keeping with the existing scale and character, promote 18 continuous retail frontage, and protect adjacent residential livability. Small-scale buildings and 19 neighborhood-serving uses are promoted, and rear yards above the ground story and at all 20 residential levels are protected. Most commercial development is permitted at the first two 21 stories of new buildings, while retail service uses are monitored at the third story and above. 22 Controls are necessary to preserve the remaining convenience businesses and to reduce the 23 cumulative impacts which the growth of certain uses have on neighborhood residents. Such 24 controls prohibit additional drinking establishments and limit additional eating establishments,

1 entertainment, and financial service uses. Most automobile and drive-up uses are prohibited in

2 order to maintain continuous retail frontage and minimize further traffic congestion.

3 Housing development in new buildings is encouraged above the second story. Existing

4 residential units are protected by limitations on demolitions and upper-story conversions.

5 Accessory Dwelling Units are permitted within the district pursuant to subsection 207(c)(4) of this

19			story retail or commercial space			
20	SEC 727	24ТН СТ	REET – MISSION NEIGHBORHOOD COMMERCIAL TRANSIT			
21	DISTRICT					
22			et – Mission Neighborhood Commercial Transit District is situated in the			
23			t on 24th Street between Bartlett Street and San Bruno Avenue. This			
24			ovides convenience goods to its immediate neighborhood as well as			
25			g goods and services to a wider trade area. The street has a great			

number of Latin American restaurants, grocery stores, and bakeries as well as other gift and
secondhand stores. Most commercial businesses are open during the day while the district's
bars and restaurants are also active in the evening. Dwelling units are frequently located
above the ground-story commercial uses.

5 The 24th Street – Mission Neighborhood Commercial Transit District controls are 6 designed to provide potential for new development consistent with the existing scale and 7 character. Small-scale buildings and neighborhood-serving uses are encouraged, and rear 8 yard corridors above the ground story and at residential levels are protected. Most commercial 9 uses are encouraged at the ground story, while service uses are permitted with some 10 limitations at the second story. Special controls are necessary to preserve the unique mix of 11 convenience and specialty commercial uses. In order to maintain convenience stores and 12 protect adjacent livability, new bars and fast-food restaurants are prohibited, and limitations 13 apply to the development and operation of ground-story full-service restaurants, take-out food 14 and entertainment uses. Continuous retail frontage is maintained and encouraged by 15 prohibiting most automobile and drive-up uses, banning curb cuts, and requiring active, pedestrian-oriented ground floor uses. Parking is not required, and any new parking required 16 17 to be set back or below ground.

Housing development in new buildings is encouraged above the ground story. Housing density is not controlled by the size of the lot but by requirements to supply a high percentage of larger units and by physical envelope controls. Existing housing units are protected by prohibitions on upper-story conversions and limitations on demolitions, mergers, and subdivisions. Given the area's central location and accessibility to the City's transit network, accessory parking for residential uses is not required. <u>Accessory Dwelling Units are permitted on</u> <u>within the district pursuant to subsection 207(c)(4) of this Code.</u>

12	728.91	s 207(c)(4)	and meeting the requirements of Section 207(c)(4), is permitted to be
13		207 (0)(4)	constructed within an existing building zoned for residential use or
14			within an existing and authorized auxiliary structure on the same lot,
15			provided that it does not eliminate or reduce a ground-story retail or
16			commercial space.
17	SEC. 729.	WEST PO	ORTAL AVENUE NEIGHBORHOOD COMMERCIAL DISTRICT.
18	Loc	ated in the	southwestern part of the City, the West Portal Avenue Neighborhood

Located in the southwestern part of the City, the West Portal Avenue Neighborhood
 Commercial District stretches for three long blocks along West Portal Avenue from Ulloa
 Street to 15th Avenue and extends one block east along Ulloa Street from the Twin Peaks
 Tunnel entrance to Claremont Boulevard. West Portal Avenue provides a selection of goods
 and services for customers coming mainly from the surrounding west of Twin Peaks and
 Sunset single-family residential neighborhoods. The lively, small-scale retail frontage is
 interrupted at several locations by large-scale financial institutions which take up a large
 amount of commercial ground-story frontage. More than half of the number of medical,

professional and business offices are located at the ground level. Except for one three-movie
 theater complex, West Portal offers no entertainment uses and its restaurants are mainly
 family-oriented.

The West Portal Avenue District controls are designed to preserve the existing family-4 5 oriented, village character of West Portal Avenue. The building standards limit building heights 6 to 26 feet and two stories and maintain the existing pattern of rear yards at the ground level 7 and above. The height, bulk and design of new development, especially on large lots, should 8 respect the small-scale character of the district and its surrounding residential neighborhoods. 9 Lot mergers creating large lots are discouraged. Individual nonresidential uses require conditional use permits above 2,500 square feet and are restricted to 4,000 square feet as an 10 11 absolute limit to conform with the existing small use sizes in the district.

12 Special controls on commercial uses are designed to protect the existing mix of 13 ground-story retail uses and prevent further intensification and congestion in the district. No 14 new financial services are permitted. Because the district and surrounding neighborhoods are 15 well served by the existing number of eating and drinking establishments, new bars, 16 restaurants and take-out food generally are discouraged: any proposed new establishment 17 should be carefully reviewed to ensure that it is neighborhood-serving and family-oriented, 18 and will not involve high-volume take-out food or generate traffic, parking, or litter problems. 19 Medical, business or professional services are permitted at the first two stories, but additional 20 ground-story locations are to be closely monitored to ensure that the current balance between 21 retail and office uses is maintained. Existing service stations are encouraged to continue 22 operating, but changes in their size, operation, or location are subject to review. Other 23 automotive uses are prohibited. The neighborhood-oriented, retail character of the district is further protected by prohibiting hotels and nonretail uses. The daytime orientation of the 24

1 district is maintained by prohibitions of entertainment uses and late-night commercial

2 operating hours.

Housing development is limited. Existing residential units are protected by
limitations on demolition and prohibition of upper-story conversions; new construction is to be
carefully reviewed to ensure appropriate scale, design and compatibility with adjacent
development. <u>Accessory Dwelling Units are permitted within the district pursuant to subsection</u>
207(c)(4) of this Code.

SEC. 730. INNER SUNSET NEIGHBORHOOD COMMERCIAL DISTRICT.

10 The Inner Sunset Neighborhood Commercial District is located in the Inner Sunset 11 neighborhood, consisting of the NC-2 district bounded by Lincoln Way on the north, Fifth 12 Avenue on the east, Kirkham Street on the south, and Nineteenth Avenue on the west. The 13 shopping area provides convenience goods and services to local Inner Sunset residents, as 14 well as comparison shopping goods and services to a larger market area. The commercial 15 district is also frequented by users of Golden Gate Park on weekends and by City residents for 16 its eating, drinking, and entertainment places. Numerous housing units establish the district's 17 mixed residential-commercial character.

18 The Inner Sunset District controls are designed to protect the existing building scale and 19 promote new mixed-use development which is in character with adjacent buildings. The building 20 standards regulate large-lot and use development and protect rear yards above the ground 21 story and at residential levels. To promote the prevailing mixed use character, most commercial 22 uses are directed primarily to the ground story with some upper-story restrictions in new 23 buildings. In order to maintain the balanced mix and variety of neighborhood-serving 24 commercial uses and regulate the more intensive commercial uses which can generate 25 congestion and nuisance problems, special controls prohibit additional eating and drinking

1	uses, restrict expansion and intensification of existing eating and drinking establishments, and
2	limit entertainment and tourist hotels. Prohibitions of most automobile and drive-up uses protect
3	the district's continuous retail frontage.
4	Housing development in new buildings is encouraged above the ground story. Existing
5	residential units are protected by prohibition of upper-story conversions and limitations on
6	demolitions. Accessory Dwelling Units are permitted within the district pursuant to subsection
7	207(c)(4) of this Code.

SEC. 733A. NCT-1 – NEIGHBORHOOD COMMERCIAL TRANSIT CLUSTER DISTRICT.

6 NC-1 Districts are intended to serve as local neighborhood shopping districts, providing 7 convenience retail goods and services for the immediately surrounding neighborhoods 8 primarily during daytime hours. NCT-1 Districts are located near major transit services. They 9 are small mixed-use clusters, generally surrounded by residential districts, with small-scale 10 neighborhood-serving commercial uses on lower floors and housing above. Housing density is 11 limited not by lot area, but by the regulations on the built envelope of buildings, including 12 height, bulk, setbacks, and lot coverage, and standards for residential uses, including open 13 space and exposure, and urban design guidelines. There are prohibitions on access (i.e. 14 driveways, garage entries) to off-street parking and loading on critical stretches of commercial 15 and transit street frontages to preserve and enhance the pedestrian-oriented character and 16 transit function. Residential parking is not required and generally limited. Commercial 17 establishments are discouraged from building excessive accessory off-street parking in order 18 to preserve the pedestrian-oriented character of the district and prevent attracting auto traffic. 19 NCT-1 Districts are generally characterized by their location in residential 20 neighborhoods. The commercial intensity of these districts varies. Many of these districts have 21 the lowest intensity of commercial development in the City, generally consisting of small 22 clusters with three or more commercial establishments, commonly grouped around a corner; 23 and in some cases short linear commercial strips with low-scale, interspersed mixed-use

²⁴ (residential-commercial) development. Building controls for the NCT-1 District promote low-

²⁵ intensity development which is compatible with the existing scale and character of these

1 neighborhood areas. Commercial development is limited to one story. Rear yard requirements

- 2 at all levels preserve existing backyard space.
- NCT-1 commercial use provisions encourage the full range of neighborhood-serving
 convenience retail sales and services at the first story provided that the use size generally is
 limited to 3,000 square feet. However, commercial uses and features which could impact
 residential livability are prohibited, such as auto uses, financial services, general advertising
 signs, drive-up facilities, hotels, and late-night activity; eating and drinking establishments are
 restricted, depending upon the intensity of such uses in nearby commercial districts.
- 9 Existing residential units are protected by prohibitions of conversions above the

10 ground story and limitations on demolitions. <u>Accessory Dwelling Units are permitted within the</u>

11 *district pursuant to subsection 207(c)(4) of this Code.*

15 SEC. 734. NCT-2 – SMALL-SCALE NEIGHBORHOOD COMMERCIAL TRANSIT

16 **DISTRICT**.

NCT-2 Districts are transit-oriented mixed-use neighborhoods with small scale 17 commercial uses near transit services. The NCT-2 Districts are mixed use districts that 18 support neighborhood-serving commercial uses on lower floors and housing above. These 19 Districts are well-served by public transit and aim to maximize residential and commercial 20 opportunities on or near major transit services. The District's form is generally linear along 21 transit-priority corridors, though may be concentric around transit stations or in broader areas 22 where multiple transit services criss-cross the neighborhood. Housing density is limited not by 23 lot area, but by the regulations on the built envelope of buildings, including height, bulk, 24 setbacks, and lot coverage, and standards for residential uses, including open space and 25

exposure, and urban design guidelines. There are prohibitions on access (e.g., driveways,
garage entries) to off-street parking and loading on critical stretches of commercial and transit
street frontages to preserve and enhance the pedestrian-oriented character and transit
function. Residential parking is not required and generally limited. Commercial establishments
are discouraged from building excessive accessory off-street parking in order to preserve the
pedestrian-oriented character of the district and prevent attracting auto traffic.

NCT-2 Districts are intended to provide convenience goods and services to the
surrounding neighborhoods as well as limited comparison shopping goods for a wider market.
The range of comparison goods and services offered is varied and often includes specialty
retail stores, restaurants, and neighborhood-serving offices. The small-scale district controls
provide for mixed-use buildings, which approximate or slightly exceed the standard
development pattern. Rear yard requirements above the ground story and at residential levels
preserve open space corridors of interior blocks.

Most new commercial development is permitted at the ground and second stories. Neighborhood-serving businesses are strongly encouraged. Eating and drinking and entertainment uses, however, are confined to the ground story. The second story may be used by some retail stores, personal services, and medical, business and professional offices. Parking and hotels are monitored at all stories. Limits on late-night activity, drive-up facilities, and other automobile uses protect the livability within and around the district, and promote continuous retail frontage.

21 Housing development in new buildings is encouraged above the ground story. Existing 22 residential units are protected by limitations on demolition and upper-story conversions.

23 Accessory Dwelling Units are permitted within the district pursuant to subsection 207(c)(4) of this

24 <u>Code.</u>

24			residential use or within an existing and authorized auxiliary
25			<u>, </u>

1	structure on the same lot, provided that it does not eliminate or
2	reduce a ground-story retail or commercial space.
3	SEC. 735. SOMA NEIGHBORHOOD COMMERCIAL TRANSIT DISTRICT.
4	The SoMa Neighborhood Commercial Transit District (SoMa NCT) is located along the
5	6th Street and Folsom Street corridors in the South of Market. The commercial area provides
6	a limited selection of convenience goods for the residents of the South of Market. Eating and
7	drinking establishments contribute to the street's mixed-use character and activity in the
8	evening hours. A number of upper-story professional and business offices are located in the
9	district, some in converted residential units.
10	The SoMa NCT has a pattern of ground floor commercial and upper story residential
11	units. Controls are designed to permit moderate-scale buildings and uses, protecting rear
12	yards above the ground story and at residential levels. Active, neighborhood-serving
13	commercial development is required at the ground story, curb cuts are prohibited and ground
14	floor transparency and fenestration adds to the activation of the ground story. While offices
15	and general retail sales uses may locate on the second story or above of new buildings, most
16	commercial uses are prohibited above the second story. In order to protect the balance and
17	variety of retail use, bars and liquor stores are allowed with a conditional use. Continuous
18	retail frontage is promoted by prohibiting drive-up facilities, some automobile uses, and new
19	non-retail commercial uses. Above-ground parking is required to be setback or below ground.
20	Active, pedestrian-oriented ground floor uses are required.
21	Housing development in new buildings is encouraged above the ground story. Housing
22	density is not controlled by the size of the lot or by density controls, but by bedroom counts.
23	Given the area's central location and accessibility to the City's transit network, parking for
24	residential and commercial uses is not required. Accessory Dwelling Units are permitted within
25	the district pursuant to subsection 207(c)(4) of this Code.

1 serving the day-to-day needs of the residents of the Mission District. Additionally, this District 2 serves a wider trade area with its specialized retail outlets. Eating and drinking establishments 3 contribute to the street's mixed-use character and activity in the evening hours.

The District is extremely well-served by transit, including regional-serving BART 4 5 stations at 16th Street and 24th Street, major buses running along Mission Street, and both 6 cross-town and local-serving buses intersecting Mission along the length of this district. Given 7 the area's central location and accessibility to the City's transit network, accessory parking for 8 residential uses is not required. Any new parking is required to be set back or be below 9 ground.

This District has a mixed pattern of larger and smaller lots and businesses, as well as a 10 11 sizable number of upper-story residential units. Controls are designed to permit moderate-12 scale buildings and uses, protecting rear yards above the ground story and at residential 13 levels. New neighborhood-serving commercial development is encouraged mainly at the 14 ground story. While offices and general retail sales uses may locate at the second story of 15 new buildings under certain circumstances, most commercial uses are prohibited above the 16 second story. Continuous retail frontage is promoted by requiring ground floor commercial 17 uses in new developments and prohibiting curb cuts. Housing development in new buildings is 18 encouraged above the ground story. Housing density is not controlled by the size of the lot but 19 by requirements to supply a high percentage of larger units and by physical envelope controls. 20 Existing residential units are protected by prohibitions on upper-story conversions and 21 limitations on demolitions, mergers, and subdivisions. Accessory Dwelling Units are permitted 22 within the district pursuant to subsection 207(c)(4) of this Code. 23

SEC. 737. OCEAN AVENUE NEIGHBORHOOD COMMERCIAL TRANSIT DISTRICT.

4 The Ocean Avenue Neighborhood Commercial Transit District is located on Ocean 5 Avenue from Howth Street to Manor Drive. Ocean Avenue is a multi-purpose transit-oriented 6 small-scale commercial district that is modeled on the NCT-2 District. Ocean Avenue was 7 developed as a streetcar-oriented commercial district in the 1920s and continues to serve this 8 function, with the K-line streetcar on Ocean Avenue. Numerous other bus lines serve the 9 area, especially the eastern end, where the Phelan Loop serves as a major bus terminus. The 10 eastern end of the district is anchored by the main City College campus and direct linkages to 11 the Balboa Park BART/MUNI rail station a couple blocks to the east, which serves as the 12 southernmost San Francisco station for BART and the terminus of the J, K, and M streetcar 13 lines. Because of the immediate proximity of the BART/MUNI station the district has quick and 14 easy transit access to downtown.

15 The Ocean Avenue NCT District is mixed use, transitioning from a predominantly one-16 and two-story retail district to include neighborhood-serving commercial uses on lower floors 17 and housing above. Housing density is limited not by lot area, but by the regulations on the 18 built envelope of buildings, including height, bulk, setbacks, and lot coverage, and standards 19 for residential uses, including open space and exposure, and urban design guidelines. Access 20 (i.e. driveways, garage entries) to off-street parking and loading is generally prohibited on 21 Ocean Avenue to preserve and enhance the pedestrian-oriented character and transit 22 function of the street. Residential and commercial parking are not required.

The Ocean Avenue NCT District is intended to provide convenience goods and services to the surrounding neighborhoods as well as limited comparison shopping goods for a wider market. The range of comparison goods and services offered is varied and often

1 includes specialty retail stores, restaurants, and neighborhood-serving offices. Buildings may

2 range in height, with height limits generally allowing up to four or five stories. Lots are

3 generally small to medium in size and lot consolidation is prohibited to preserve the fine grain

4 character of the district, unless the consolidation creates a corner parcel that enables off-

5 street parking to be accessed from a side street.

Rear yard requirements above the ground story and at residential levels preserve open
space corridors of interior blocks.

8 Commercial uses are required at the ground level and permitted at the second story.

9 Housing development in new buildings is encouraged above the ground story. Existing

10 residential units are protected by limitations on demolition and upper-story conversions.

11 <u>Accessory Dwelling Units are permitted within the district pursuant to subsection 207(c)(4) of this</u>

12 <u>Code.</u>

SEC. 739. NORIEGA STREET NEIGHBORHOOD COMMERCIAL DISTRICT.

The Noriega Street Neighborhood Commercial District is located in the Outer Sunset neighborhood and includes the non-residential currently-zoned NC-2 properties fronting both sides of Noriega Street between 19th and 27th and 30th through 33rd Avenues.

5 The District provides a selection of convenience goods and services for the residents of 6 the Outer Sunset District. There are a high concentration of restaurants, drawing customers 7 from throughout the City and the region. There are also a significant number of professional, 8 realty, and business offices as well as financial institutions.

9 The Noriega Street Neighborhood Commercial District controls are designed to promote development that is consistent with its existing land use patterns and to maintain a 10 harmony of uses that support the District's vitality. The building standards allow small-scale 11 12 buildings and uses, protecting rear yards above the ground story and at residential levels. In 13 new development, most commercial uses are permitted at the first two stories, although 14 certain limitations apply to uses at the second story. Special controls are necessary to 15 preserve the equilibrium of neighborhood-serving convenience and comparison shopping 16 businesses and to protect adjacent residential livability. To protect continuous frontage, drive-17 up uses are prohibited and active, pedestrian-oriented ground floor uses generally must be 18 provided, unless such uses are authorized by Conditional Use. These controls are designed 19 to encourage the street's active retail frontage, and local fabrication and production of goods. 20 Accessory Dwelling Units are permitted within the district pursuant to subsection 207(c)(4) of

19

SEC. 743. FOLSOM STREET NEIGHBORHOOD COMMERCIAL TRANSIT DISTRICT.

The Folsom Street Neighborhood Commercial Transit District (Folsom Street NCT) is
located along Folsom Street in the Western SoMa area, generally between 7th Street and

22 10th Streets.

23 The Folsom Street NCT has a pattern of ground floor commercial and upper story

residential units. Controls are designed to permit moderate-scale buildings and uses,

25 protecting rear yards above the ground story and at residential levels. Active, neighborhood-

1 serving commercial development is required at the ground story where transparency and 2 fenestration requirements add to the activation at the street level. While offices and general 3 retail sales uses may locate on the second story, most commercial uses are prohibited above the second story. In order to protect the balance and variety of retail use, bars and restaurants 4 5 are permitted on the ground floor, and liquor stores are allowed with a conditional use. 6 Continuous non-residential frontage is promoted by prohibiting drive-up facilities, some 7 automobile uses, and permitting a mix of commercial and production, distribution, and repair 8 uses. Parking is required to be setback if above grade or locate below ground. Active,

9 pedestrian-oriented ground floor uses are required.

Housing development in new buildings is encouraged above the ground story, and 10 student housing is only permitted in newly constructed buildings. Housing density is not 11 12 controlled by the size of the lot or by density controls, but by bedroom counts. Given the 13 area's central location and accessibility to the City's transit network, parking for residential and 14 commercial uses is not required. Accessory Dwelling Units are permitted within the district

- 15 pursuant to subsection 207(c)(4) of this Code.
- 16

13			reauce a ground-story retail or commercial space.		

¹⁴ SEC. 744. REGIONAL COMMERCIAL DISTRICT.

The Regional Commercial District (RCD) is located along the 9th Street and 10th Street corridors, generally running from Mission Street to Harrison Street, and provides for a wide variety of commercial uses and services to a population greater than the immediate neighborhood. While providing convenience goods and services to the surrounding neighborhood, the RCD corridors are also heavily trafficked thoroughfares into and out of the City that serve shoppers from other neighborhoods and cities.

Large-scale lots and buildings and wide streets distinguish the RCD from smallerscaled neighborhood commercial streets, although the district also includes small as well as moderately scaled lots. Buildings typically range in height from two to four stories with occasional taller structures.

1	A diverse commercial environment is encouraged for the RCD. Eating and drinking
2	establishments, general retail, office, certain auto uses, and production, distribution, and
3	repair uses generally are permitted with certain limitations at the first and second stories. Arts
4	activities are encouraged on all floors, but nighttime entertainment uses are prohibited.
5	Housing development is encouraged at the second story and above, and permitted on
6	the ground floor on smaller lots. Student housing is not permitted, and existing residential
7	units are protected by limitations on demolitions and conversions. Accessory Dwelling Units are
8	permitted within the district pursuant to subsection 207(c)(4) of this Code.

20 SEC. 746. DIVISADERO STREET NEIGHBORHOOD COMMERCIAL TRANSIT DISTRICT.

The Divisadero Street Neighborhood Commercial Transit District ("Divisadero Street NCT") extends along Divisadero Street between Haight and O'Farrell Streets. Divisadero Street's dense mixed-use character consists of buildings with residential units above groundstory commercial use. Buildings typically range in height from two to four stories with occasional one-story commercial buildings. The district has an active and continuous commercial frontage along Divisadero Street for most of its length. Divisadero Street is an
 important public transit corridor and throughway street. The commercial district provides
 convenience goods and services to the surrounding neighborhoods as well as limited
 comparison shopping goods for a wider market.

5 The Divisadero Street NCT controls are designed to encourage and promote 6 development that enhances the walkable, mixed-use character of the corridor and 7 surrounding neighborhoods. Rear yard requirements above the ground story and at residential 8 levels preserve open space corridors of interior blocks. Housing development in new buildings 9 is encouraged above the ground story. Existing residential units are protected by limitations 10 on demolition and upper-story conversions. <u>Accessory Dwelling Units are permitted within the</u> 11 district pursuant to subsection 207(c)(4) of this Code.

12 Consistent with Divisadero Street's existing mixed-use character, new commercial 13 development is permitted at the ground and second stories. Most neighborhood-serving 14 businesses are strongly encouraged. Controls on new Formula Retail uses are consistent with 15 Citywide policy for Neighborhood Commercial Districts; Eating and Drinking and 16 Entertainment uses are confined to the ground story. The second story may be used by some 17 retail stores, personal services, and medical, business and professional offices. Additional 18 flexibility is offered for second-floor Eating and Drinking, Entertainment, and Trade Shop uses 19 in existing non-residential buildings to encourage the preservation and reuse of such 20 buildings. Hotels are monitored at all stories. Limits on late-night activity, drive-up facilities, 21 and other automobile uses protect the livability within and around the district, and promote 22 continuous retail frontage.

2	reduce a ground-story retail or commercial space.					
3	SEC. 747. FILLMORE STREET NEIGHBORHOOD COMMERCIAL TRANSIT DISTRICT.					
4	The Fillmore Street Neighborhood Commercial Transit District ("Fillmore Street NCT")					
5	extends along Fillmore Street between Bush and McAllister Streets. Fillmore Street's dense					
6	mixed-use character consists of buildings with residential units above ground-story					
7	commercial use. Buildings range in height from one-story commercial buildings to high-rise					
8	towers. Fillmore Street and Geary Boulevard are important public transit corridors. The					
9	commercial district provides convenience goods and services to the surrounding					
10	neighborhoods as well as shopping, cultural, and entertainment uses that attract visitors from					
11	near and far.					
12	The Fillmore Street NCT controls are designed to encourage and promote					
13	development that enhances the walkable, mixed-use character of the corridor and					
14	surrounding neighborhoods. Rear yard requirements at residential levels preserve open spac					
15	corridors of interior blocks. Housing development in new buildings is encouraged above the					
16	ground story. Existing residential units are protected by limitations on demolition and upper-					
17	story conversions. Accessory Dwelling Units are permitted within the district pursuant to subsection					
18	207(c)(4) of this Code.					
19	Consistent with Fillmore Street's existing mixed-use character, new commercial					
20	development is permitted at the ground and second stories. Most neighborhood- and visitor-					
21	serving businesses are strongly encouraged. Controls on new Formula Retail uses are					
22	consistent with Citywide policy for Neighborhood Commercial Districts; Eating and Drinking					
23	and entertainment uses are confined to the ground story. The second story may be used by					
24	some retail stores, personal services, and medical, business, and professional offices.					
25	Parking and hotels are monitored at all stories. Limits on drive-up facilities and other					

- 1 automobile uses protect the livability within and around the district and promote continuous
- 2 retail frontage.

5 SEC. 748. JAPANTOWN NEIGHBORHOOD COMMERCIAL DISTRICT.

6 The Japantown Neighborhood Commercial District extends between Geary Boulevard 7 and Post Street from Fillmore Street to Laguna Street, the north side of Post Street from 8 Webster Street to Laguna Street, and Buchanan Street from Post Street to midway between 9 Sutter Street and Bush Street. The character of these streets is largely commercial, including 10 large malls, although there are some residential units above the ground story. Buildings are 11 typically two- to four-stories, although there are two taller hotels. Geary Boulevard, Fillmore 12 Street, and Sutter Street are important public transit corridors. The commercial district 13 provides convenience goods and services to the surrounding neighborhoods as well as 14 shopping, cultural, and entertainment uses that attract visitors from near and far. 15 The Japantown Neighborhood Commercial District controls are designed to 16 encourage and promote development that enhances the walkable, commercial character of

17 this area and to support its local and regional role. New commercial development is required

18 on the ground floor and permitted above. Most neighborhood- and visitor-serving businesses

are strongly encouraged, including eating, drinking, and retail uses, as long as they do not

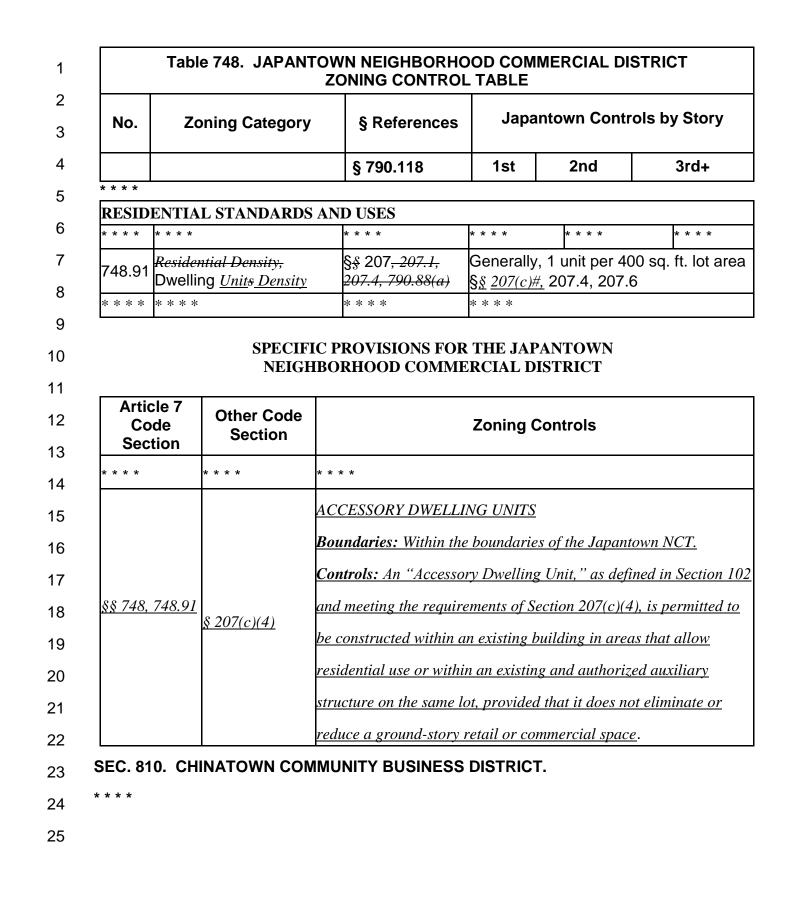

20 create a nuisance. Less active commercial uses are encouraged above the ground floor,

along with housing and institutional uses. <u>Accessory Dwelling Units are permitted within the</u>

district pursuant to subsection 207(c)(4) of this Code.

SEC. 813. RED – RESIDENTIAL ENCLAVE DISTRICT. 21

Residential Enclave Districts (RED) encompass many of the clusters of low-scale, 22 medium density, predominantly residential neighborhoods located along the narrow side 23 streets of the South of Market area. Within these predominantly residential enclaves lie a 24 number of vacant parcels, parking lots and other properties in open storage use. These 25

1 properties are undeveloped or underdeveloped and are viewed as opportunity sites for new,

2 moderate-income, in-fill housing.

The zoning controls for this district are tailored to the design needs and neighborhood characteristics of these enclaves and are intended to encourage and facilitate the development of attractive, compatible and economically feasible in-fill housing while providing adequate residential amenities to the site and neighborhood.

Dwelling units are permitted as a principal use. Nonresidential uses, except art related activities, are not permitted, except for certain uses in historic buildings. Existing commercial activities in nonresidential structures may continue as nonconforming uses subject to the termination requirements of Sections 185 and 186. Assessment Dwelling Units are normitted within

10 termination requirements of Sections 185 and 186. <u>Accessory Dwelling Units are permitted within</u>

11 *the district pursuant to subsection 207(c)(4) of this Code.*

4	SEC. 814. SPD – SOUTH PARK DISTRICT.					
5	South Park is an attractive affordable mixed-use neighborhood. The South Park District					
6	(SPD) is intended to preserve the scale, density and mix of commercial and residential					
7	activities within this unique neighborhood. The district is characterized by small-scale,					
8	continuous-frontage warehouse, retail and residential structures built in a ring around an oval-					
9	shaped, grassy park. Retention of the existing structures is encouraged, as is a continued mix					
10	of uses, family-sized housing units, and in-fill development which contributes positively to the					
11	neighborhood scale and use mix. Accessory Dwelling Units are permitted within the district					
12	pursuant to subsection 207(c)(4) of this Code.					
13	Most retail, general commercial, office, service/light industrial, arts, live/work and					
14	residential activities are permitted. Group housing, social services, and other institutional uses					
15	are conditional uses. Hotels, motels, movie theaters, adult entertainment and nighttime					
16	entertainment are not permitted.

⁹ SEC. 816. SLR – SERVICE/LIGHT INDUSTRIAL/RESIDENTIAL MIXED USE DISTRICT.

The Service/Light Industrial/Residential (SLR) Mixed Use District is designed to maintain and facilitate the growth and expansion of small-scale light industrial, home and business service, wholesale distribution, arts production and performance/exhibition activities, live/work use, general commercial and neighborhood-serving retail and personal service activities while protecting existing housing and encouraging the development of housing and live/work space at a scale and density compatible with the existing neighborhood.

Housing and live/work units are encouraged over ground floor commercial/service/light
 industrial activity. New residential or mixed use developments are encouraged to provide as
 much mixed-income rental housing as possible. Existing group housing and dwelling units
 would be protected from demolition or conversion to nonresidential use by requiring
 conditional use review. <u>Accessory Dwelling Units are permitted within the district pursuant to</u>

- 21 <u>subsection 207(c)(4) of this Code.</u>
- General office, hotels, nighttime entertainment, movie theaters, adult entertainment and
 heavy industrial uses are not permitted.

SEC. 827. RINCON HILL DOWNTOWN RESIDENTIAL MIXED USE DISTRICT (RH-DTR).

The Rincon Hill Downtown Residential Mixed Use District (RH-DTR), the boundaries of which are shown in Section Map No. 1 of the Zoning Map, is established for the purposes set forth below.

The RH-DTR District is adjacent to the southern edge of the downtown, generally bounded by Folsom Street, the Bay Bridge, the Embarcadero, and Essex Street. High-density residential uses and supporting commercial and institutional uses are allowed and encouraged within the limits set by height, bulk, and tower spacing controls. Folsom Street is intended to develop as the neighborhood commercial heart of the Rincon Hill and Transbay neighborhoods, and pedestrian-oriented uses are required on the ground floor. Individual townhouse dwelling units with ground floor entries directly to the street are required on streets

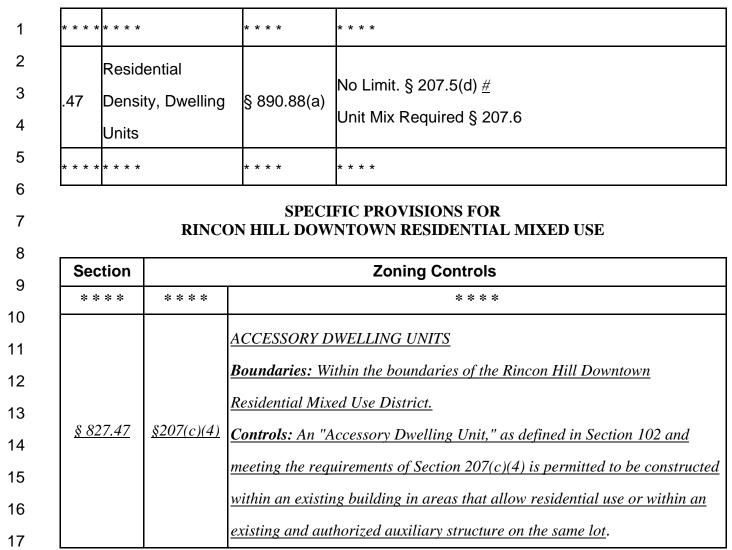

that will become primarily residential, including First, Fremont, Beale, Main, and Spear
 Streets.

3 While lot coverage is limited for all levels with residential uses that do not face onto streets or alleys, traditional rear yard open spaces are not required except in the limited 4 5 instances where there is an existing pattern of them, such as smaller lots on the Guy Place 6 block. Specific height, bulk, and setback controls establish appropriate heights for both towers 7 and mid-rise podium development and ensure adequate spacing between towers in order to 8 establish a neighborhood scale and ensure light and air to streets and open spaces. Setbacks 9 are required where necessary to provide transition space for ground floor residential uses and to ensure sunlight access to streets and open spaces. Off-street parking must be located 10 below grade. 11

12 Given the need for services and open space resulting from new development, projects 13 will provide or contribute funding for the creation of public open space and community facilities 14 as described in the Rincon Hill Area Plan of the General Plan. The Rincon Hill Streetscape 15 Plan, part of the Area Plan, proposes to enhance and redesign most streets in the district to 16 create substantial new open space amenities, improve pedestrian conditions, and improve the 17 flow of local traffic and transit. Detailed standards for the provision of open spaces, mid-block 18 pathways, and residential entries are provided to ensure that new buildings contribute to 19 creating a public realm of the highest quality in Rincon Hill. Accessory Dwelling Units are

20 *permitted within the district pursuant to subsection 207(c)(4) of this Code.*

SEC. 828. TRANSBAY DOWNTOWN RESIDENTIAL DISTRICT (TB-DTR).

The Transbay Downtown Residential District, which is wholly within the Transbay Redevelopment Project Area, comprises mostly publicly owned parcels containing infrastructure or underutilized land related to the Transbay Terminal and former Embarcadero Freeway. This district generally extends along the north side of Folsom Street from Spear to Essex Streets, and between Main and Beale Streets to the north side of Howard Street. Laid out in the Transbay Redevelopment Plan and its companion documents, including the Design 1 for the Development and the Development Controls and Design Guidelines for the Transbay 2 Redevelopment Project, is the comprehensive vision for this underutilized area as a high-3 density, predominantly residential, district within walking distance of the downtown core, transit facilities, and the waterfront. The plan for the district includes: a mix of widely-spaced 4 5 high-rises, mixed with a street-defining base of low- and mid-rise buildings with ground floor 6 townhouses; a public open space on part of the block bounded by Folsom, Beale, Howard, 7 and Main Streets; ground-floor retail along Folsom Street; and several new alleyways to break 8 up the size of the blocks.

9 (a) Basic Controls. Development controls for this district are established in the
10 Transbay Redevelopment Plan as approved by the Planning Commission on December 9,
11 2004, and January 13, 2005, specifically the Development Controls and Design Guidelines for
12 the Transbay Redevelopment Project. On matters to which these Redevelopment documents
13 are silent, controls in this Code pertaining to the C-3-O District shall apply. *The C-3-O District*14 *permits construction of Accessory Dwelling Units pursuant to Section 207(c)(4) of thisCode.*

15 SEC. 829. SOUTH BEACH DOWNTOWN RESIDENTIAL MIXED USE DISTRICT (SB-DTR).

The South Beach Downtown Residential Mixed Use District (SB-DTR), the boundaries
of which are shown in Section Map No. 1 of the Zoning Map, is established for the purposes
set forth below.

The SB-DTR District is adjacent to the southern edge of the downtown, generally bounded by the Bay Bridge, Bryant Street, the Embarcadero, and 2nd Street, and is primarily comprised of the former South Beach Redevelopment Area. High-density residential uses and supporting commercial and institutional uses are allowed and encouraged within the limits set by height, bulk, and tower spacing controls. Individual townhouse dwelling units with ground floor entries directly to the street are generally required on streets.

1		While	e lot coverage	is limited for	all levels with residential uses that do not face onto		
2	street	ts or al	leys, traditiona	al rear yard o	pen spaces are not required. Specific height, bulk, and		
3	setba	ck cor	trols establish	n appropriate	heights for both towers and mid-rise podium		
4	devel	development and ensure adequate spacing between towers in order to establish a					
5	neigh	borho	od scale and e	ensure light a	nd air to streets and open spaces. Setbacks are		
6	requii	red wh	ere necessary	y to provide tr	ansition space for ground floor residential uses and to		
7	ensur	e sunl	ight access to	streets and o	open spaces. Off-street parking must be located below		
8	grade	e. <u>Acce</u>	ssory Dwelling	Units are perm	nitted within the district pursuant to subsection 207(c)(4) of		
9	<u>this C</u>	ode.

SEC. 843. UMU – URBAN MIXED USE DISTRICT.

The Urban Mixed Use (UMU) District is intended to promote a vibrant mix of uses while 10 maintaining the characteristics of this formerly industrially-zoned area. It is also intended to 11 serve as a buffer between residential districts and PDR districts in the Eastern 12 Neighborhoods. Within the UMU, allowed uses include production, distribution, and repair 13 uses such as light manufacturing, home and business services, arts activities, warehouse, 14 and wholesaling. Additional permitted uses include retail, educational facilities, and nighttime 15 entertainment. Housing is also permitted, but is subject to higher affordability requirements. 16 Family-sized dwelling units are encouraged. Within the UMU, office uses are restricted to the 17 upper floors of multiple story buildings. In considering any new land use not contemplated in 18 this District, the Zoning Administrator shall take into account the intent of this District as 19 expressed in this Section and in the General Plan. Accessory Dwelling Units are permitted within 20 the district pursuant to subsection 207(c)(4) of this Code. 21

SEC. 844. WMUG – WSOMA MIXED USE-GENERAL DISTRICT.

The WSoMa Mixed Use-General (WMUG) District is largely comprised of the low-scale, production, distribution, and repair uses mixed with housing and small-scale retail. The WMUG is designed to maintain and facilitate the growth and expansion of small-scale light industrial, wholesale distribution, arts production and performance/exhibition activities, general commercial and neighborhood-serving retail and personal service activities while protecting existing housing and encouraging the development of housing at a scale and density compatible with the existing neighborhood.

Housing is encouraged over ground floor commercial and production, distribution, and repair uses. New residential or mixed use developments are encouraged to provide as much mixed-income family housing as possible. Existing group housing and dwelling units will be 1 protected from demolition or conversion to nonresidential use by requiring conditional use

1 SEC. 845. WMUO – WSOMA MIXED USE-OFFICE DISTRICT.

- The WSoMa Mixed Use-Office (WMUO) runs predominantly along the Townsend
 Street corridor between 4th Street and 7th Street and on 11th Street, from Harrison Street to
 the north side of Folsom Street. The WMUO is designed to encourage office uses along with
 small-scale light industrial and arts activities. Nighttime entertainment is permitted, although
 limited by buffers around RED and RED-MX districts.
 Office, general commercial, most retail, production, distribution, and repair uses are
- 8 also principal permitted uses. Residential uses, large hotels, adult entertainment and heavy
 9 industrial uses are not permitted.
 - Accessory Dwelling Units are permitted within the district pursuant to subsection 207(c)(4) of
- 11 *this Code.*

SEC. 847. RED-MX – RESIDENTIAL ENCLAVE-MIXED DISTRICT.

Residential Enclave-Mixed Districts (RED-MX) encompass some of the clusters of low scale, medium density, predominantly residential neighborhoods located along the narrow
 side streets of the Western SoMa area. Many parcels in these residential enclaves are
 underdeveloped and represent opportunities for new residential and low-intensity commercial
 uses.

13 While residential uses are encouraged throughout these districts, group housing is 14 limited, and student housing and single-room-occupancy units are prohibited. Small-scale 15 retail, restaurants, arts activities, and other commercial uses are principally permitted to 16 create the potential for more active, mixed use alleys. Some automobile-related and 17 production, distribution, and repair uses are also permitted with limitations. Existing 18 commercial activities in nonresidential structures may continue as nonconforming uses 19 subject to the termination requirements of Article 1.7. <u>Accessory Dwelling Units are permitted</u> 20 within the district pursuant to subsection 207(c)(4) of this Code.

within an existing bu	uilding in areas that allow residential use or within an
existing and authori	zed auxiliary structure on the same lot.
Section 5. The Administrative Code	is hereby amended by revising Section 37.2, to
ead as follows:	
SEC. 37.2. DEFINITIONS.	
(r) Rental Units. All residential of	dwelling units in the City and County of San
Francisco together with the land and appur	tenant buildings thereto, and all housing services,
privileges, furnishings and facilities supplie	d in connection with the use or occupancy thereof
including garage and parking facilities.	
* * * *	
The term "rental units" shall not inclu	ude:
* * * *	
(4) Except as provided in	<u>Ss</u> ubsections (A), (B) and (C), dwelling units whos
rents are controlled or regulated by any go	vernment unit, agency or authority, excepting thos

Housing and Urban Development; provided, however, that units in unreinforced masonry
buildings which have undergone seismic strengthening in accordance with Building Code
Chapters 16B and 16C shall remain subject to the Rent Ordinances to the extent that the
ordinance is not in conflict with the seismic strengthening bond program or with the program's
loan agreements or with any regulations promulgated thereunder.

6

(D) The term "rental units" shall include Accessory Dwelling Units
constructed pursuant to Section 207(c)(4) of the Planning Code and that have received a
complete or partial waiver of the density limits and the parking, rear yard, exposure, or open
space standards from the Zoning Administrator pursuant to Planning Code Section 307(l), *provided that the building containing the Accessory Dwelling Unit(s) or any unit within the building is already subject to this Chapter*.

13

* *

* *

14

Section 6. Scope of Ordinance. In enacting this ordinance, the Board of Supervisors intends to amend only those words, phrases, paragraphs, subsections, sections, articles, numbers, punctuation marks, charts, diagrams, or any other constituent parts of the Municipal Code that are explicitly shown in this ordinance as additions, deletions, Board amendment additions, and Board amendment deletions in accordance with the "Note" that appears under the official title of the ordinance.

21

22 Section 7. Severability. If any section, subsection, sentence, clause, phrase, or word 23 of this ordinance is for any reason held to be invalid or unconstitutional by a decision of any 24 court of competent jurisdiction, such decision shall not affect the validity of the remaining 25 portions of the ordinance. The Board of Supervisors hereby declares that it would have

1	passed this ordinance and each and every section, subsection, sentence, clause, phrase, and
2	word not declared invalid or unconstitutional without regard to whether any other portion of
3	this ordinance would subsequently be declared invalid or unconstitutional.
4	
5	Section 8. Directions to Clerk. The Clerk of the Board of Supervisors is hereby directed
6	to submit a copy of this ordinance to the California Department of Housing and Community
7	Development within 60 days following adoption pursuant to Section 65852.2(h) of the
8	California Government Code.
