***Please attach a brief statement explaining why you are a qualified applicant for appointment to Workforce Investment Board of SF Advisory Committee. Specifically state how you can contribute to the workforce development system in San Francisco.

I have been working with homeless, veterans, and the formerly incarcerated all of my professional life. I have written and received veterans grants with re-entry strategies— using both innovative workforce solutions to place workers, as well as addressing the lack of opportunities for homeless, veterans, and the formerly incarcerated by creating the jobs directly—As part of a team I helped start and run market-based social businesses whose sole purpose is to employ those least able to get into the workforce and provide a solid career ladder.

I have served on 3 WIB Boards as well as their advisory boards and I have a strong understanding of serving in this capacity representing homeless, veterans, and other underserved populations.

For over 15 years I have been working to create innovative employment solutions, most notably creating social purpose businesses that bring jobs, training and supportive services to the disenfranchised. Many of these have been models of what social enterprise can be: Market driven businesses that hire people others won't, that provide training for people ready to change their lives and businesses that provide value to their customers. One example was a bakery that continues to work with many of Americas leading food retailers and provides great products for the customers who bought our desserts and confections. Another is a landscape company who works with construction companies, commercial real estate property managers, government agencies and others to provide high quality, ecologically sensitive landscape services.

In my current capacity I have established a workforce services program within Harbor House that has resulted in very high placement and retention statistics for our homeless single parents— this includes a veterans component. For the future, within The Salvation Army, I would like to help create a business development arm that will operate social enterprises to leverage the lessons learned from running businesses in the San Francisco Bay Area. I am currently soliciting and exploring promising social business models across the area which have the business structure to scale to multiple sites throughout the 9 Bay Area Region, have high labor requirements, and have the potential to work with local re-entry and workforce programs. If selected for WICAC I would bring all of the above with me. WICAC is a very creative team of people, I already attend their meetings, and I feel I would be a good fit as a part of the WICAC team.

To Whom It May Concern:

Please accept this letter of interest to serve on the Workforce Investment Community Advisory Committee for the City and County of San Francisco.

I have over 30 years experience in the field of workforce development, specializing in serving adults with developmental disabilities. I first joined The Arc of San Francisco in 1979 and subsequently helped to spearhead one of the state's first supported employment programs at in the early 1980s, in partnership with the University of San Francisco.

Currently, I lead a team of **10 staff** at The Arc of San Francisco as the Director of Job Placement Services. I am an active member of San Francisco's Jobs Group, the Bay Area Caucus and **the HSA Advisory Committee for City Employment of Persons with Disabilities**. I have been a member of the Mayor's Committee for the Employment of Disabled Persons, Business Networking International and an **active member of the SF Chamber of Commerce**.

The unemployment rate for adults with development disabilities is well over 70%, as this population faces numerous barriers toward employment. The degree of underemployment has been remedied over the last 30 years, but challenges still remain. The perspective that I will lend to the WICAC will not only reflect the needs of persons with disabilities, but other underemployed groups. The very barriers that exist for adults with developmental disabilities are often present for other special populations who have employment challenges.

The Office of Economic and Workforce Development has identified people with disabilities are a priority in its upcoming RFP. Reflecting this interest, I hope that the Board of Supervisors would consider appointing me to the Workforce Investment Community Advisory Committee to help identify the myriad "on-the-ground" workforce challenges here in San Francisco.

The very nature of my work has required me to work cooperatively – with consumers, employers, business groups, community-based organizations, and the City and County of San Francisco. It is this spirit of cooperation and progress that I hope to bring to my service on the WICAC.

Please feel free to call me at (415) 255-7200 with any questions. Thank you for your consideration.

Sincerely,

Joe Ramirez-Forcier has over 7 years of non-profit management and harm reduction direct service experience. For the past 4 years, Joe has served as the Managing Director for Employment Services of the Positive Resource Center (PRC), a non-profit organization that provides culturally appropriate professional benefits counseling and employment services to people affected by or at risk for HIV/AIDS, especially low-income residents of San Francisco.

In his senior management position, Joe is responsible for providing leadership in setting the direction of the Employment Services Program for people with HIV. He monitors the quality and level of services provided to clients. He provides strategic direction and supervision ensuring that the program services are client centered, proactive, and flexible to clients. Joe collaborates with the Department of Rehabilitation, Mayor's Office of Community Investment, and the Small Business Association.

Prior to joining the agency, Joe was a Case Manager of Episcopal Community Services of San Francisco in the Tenderloin neighborhood in San Francisco working on-site in a Single Room Occupancy (SRO), providing direct case management services to formerly homeless, chronically ill clients in housing funded by the San Francisco Department of Health. He worked with a multi-disciplinary team with public health and community based service providers to maintain support, develop programming, and provide education for clients.

Prior to joining Episcopal Community Services of San Francisco, Joe was a Program Specialist for Stepping Stone of San Diego, working with HIV positive individuals doing prevention with positives, and substance-use treatment in an out-patient alcohol and drug treatment program that emphasized social-model methods. He provided case management, counseling, assessment and referrals for individuals seeking to reduce substance use from methamphetamine, alcohol, and other poly-substances.

Prior to joining Stepping Stone of San Diego, Joe worked for 20 years in technology companies in the San Francisco Bay Area in Product and Technical Marketing in the Telecommunications and Computer Technologies sector for IBM and MCI Corporation.

Ordinance 270-07

Board Qualifications:

The Workforce Investment Community Advisory Committee shall consist of 7 members. The Board of Supervisors shall appoint four (4) members to the Committee. The Transitional Youth Task Force shall appoint one (1) member to the Committee; the Local Homeless Coordinating Board shall appoint one (1) member to the Committee; the San Francisco Safe Communities Re-Entry Council shall appoint one (1) member to the Committee. All Committee members must be staff and/or Board members of 501c3 organizations.

All Committee members will be appointed to serve for a two year term, and all Committee members and/or the organizations they represent will serve for no more than two (2) consecutive terms. The terms are to be staggered. Therefore, at the first meeting of the Committee, the members will draw lots to determine which three (3) members will serve for one (1) year.

The Committee shall be convened to serve in an advisory capacity to the Workforce Investment San Francisco (WISF). This committee shall include members representing workforce development service providers and other community-based organizations serving low-income San Francisco residents and those with barriers to employment. The Committee shall advise the WISF on workforce system priorities, client needs and services.
