Supervisors:

Re: Request of a continuance on hiring the appeals of the following cases:
BOS File No. 200903, MTA Emergency Temporary Transit Lanes and Bikeways
BOS File No. 200987, MTA Panhandle Social Distancing and Safety Project
BOS File No. 201000, MTA Emergency Temporary Street Changes Program
BOS File No. 201024, MTA Slow Streets Phase 3

We request a continuance on the appeal for Planning Department Cases listed here based on the fact that no one can reasonably deal with such a case load in such a rushed fashion during a pandemic and a firestorm emergency. In fact, few people could handle this during a none emergency state of affairs when all systems are functioning properly.

These are separate appeals on different MTA programs and projects. MTA is clearly using the COVID-19 crisis as a pretext to implement large-scale traffic and transit changes, labeling them as temporary, but actually designed as permanent, with no meaningful public process.

The main issue before the BOS in the appeals is whether the ongoing COVID-19

public health crisis is an emergency under CEQA, which the law strictly defines as a "sudden, unexpected occurrence" and requires specific conditions to qualify for an exemption from environmental review. The appellants argue that the MTA projects are not exempt under CEQA and that the exemption determination by the Planning Department should be reversed. The appellants are also asking for a continuance on each appeal to allow more time for briefing and public comment before the BOS decides how to rule.

The public has not been properly notified of this hearing or had time to respond to the actions being taken that do not follow health guidelines or fall within the jurisdiction of the agencies attempting to enforce them.

Sincerely,

Mari Eliza

Subject: CEQA Appeal on the MTA's extension of the 30-Stockton bus line into the Presidio
Date: Wednesday, September 16, 2020 4:04:12 PM

I'd like an opportunity to address the Board of Supervisors at their next meeting on the issue of the MTA's plan to extend the 30-Stockton bus line into the Presidio National Trust.

The route is both unsafe and unnecessary. There are posted signs on Marina Boulevard that vehicles over 3 tons are prohibited. The planned extension would violate that traffic law. In addition, the buses would travel two ways on Broderick Street - when they only travel one way on the current route. This will increase traffic, congestion and safety concerns on a block with a lot of retirees and small children.

There has been no need study provided that indicates the necessity of this extension. The ridership from Chestnut Street, down Broderick to Jefferson is almost zero.

Please let me know if you need any additional information.

San Francisco Board of Supervisors,

108 people have signed a petition on Action Network telling you to Support Emergency Measures to Open Streets to People.

Here is the petition they signed:

We urge you to reject the CEQA appeals of SFMTA's emergency measures. Slow Streets, Shared Spaces, Temporary Emergency Transit Lanes and Emergency Bike Lanes provide essential relief and amenities to San Franciscans during the COVID-19 emergency. The programs allow San Franciscans to enjoy safe and socially-distanced time outdoors. They help San Franciscans travel safely to work, groceries, and errands. They provide an economic lifeline for struggling small businesses. And they add to the city's COVID response capacity by making room for testing sites and food pantries.

Moreover, we call on you to reform the CEQA appeals process. All transportation projects which do not increase vehicle-miles traveled (VMT) should be ineligible to be appealed on CEQA grounds to the Board of Supervisors. All emergency SFMTA projects should not be subject to appeal on CEQA grounds.

Transportation projects such as these help San Francisco meet its joint commitments to making our streets safer and reducing our contributions to climate change. We will not succeed in either goal if we continue to allow a small number of individuals to abuse the CEQA process and waste city resources, delaying these necessary and urgent projects.

You can view each petition signer and the comments they left you below.

Thank you,

Streets for People

This use of CEQA is the most un environmental step a single resident has done to attempt to stop an environmentally conscience set of measures to help people and businesses survive during a pandemic and looks absolutely foolish against the backdrop of California's single most deadly fire season brought on by decades of mismanagement and stupidity

Open the streets to walking/biking and allow restaurants to create larger parklets. This is absolutely

an emergency, and will help people survive both mentally and financially.

Please use common sense when it comes to CEQA and don't allow it to delay environmentally beneficial projects. We need to fast-track all programs that reduce vehicle miles traveled to make our streets safer for pedestrians and bike riders.

CEQA has become a laughable excuse for an "environmental protection" law. All it achieves (at least in urban contexts) is to preserve the status quo of traffic, long commutes, and unfavorable housing while wasting everyone's time and money in the process.

I would go even further and request no CEQA appeals for any SFMTA/transportation projects that do not add lane-miles or parking stalls for private vehicles. Clean and simple, whereas VMT projection math could be fought over.

Would love to see the Board of Supervisors also take similar action to establish CEQA-proof criteria for other types of projects, like housing. I won't hold my breath though.

Slow Streets has been a huge help in allowing those of us who have been locked inside our tiny apartments to get outside and exercise while maintaining safe social distancing from others. Taking away this program based on the complaints of a handful of spiteful people that have apparently found enough free time during a pandemic to file them is beyond unfair to those who are unable to counter their claims. A system that allows this to happen is a broken system. For the good of the residents of this city who are trying their best to stay safe and sane through this nightmare of a year, please fix it.

We have 10 yrs to slash emissions by 50%. We can't let 20% of that get gobbled up by CEQA appeals.

Not to mention, biking on these Slow Streets was one of the few things that brought me joy in our pandemic spring in SF.
