Grant Information Form
(Effective March 2005)

Purpose: Accompanies proposed Board of Supervisors resolutions authorizing a Department to accept and expend grant funds.

The following describes the grant referred to in the accompanying resolution:

- 1. Grant Title: **San Francisco Hepatitis B Free Best Practices Project -The San Francisco Foundation**
- 2. Department: **Department of Public Health, Communicable Disease Control & Prevention Section**
- 3. Contact Person: **Melissa Sanchez, PhD, MA** Telephone: **(415) 554-2743**

4. Grant Approval Status (check one):

- Approved by funding agency
- Not yet approved

5. Amount of Grant Funding Approved or Applied for: \$20,000

- 6a. Matching Funds Required: **No**
- b. Source(s) of matching funds (if applicable): **N/A**

- 7a. Grant Source Agency: **The San Francisco Foundation**
- b. Grant Pass-Through Agency (if applicable): **N/A**

8. Proposed Grant Project Summary:
The San Francisco Hepatitis B Free (SFHBF) Best Practices project will evaluate the effectiveness of the methods used by the SFHBF campaign to determine which most effectively influenced San Francisco clinicians to provide testing, vaccination, and appropriate hepatitis B virus follow-up testing for Asian Pacific Islander patients; as well as the behavior of San Francisco Asian Pacific Islanders to seek out and accept those services. SFHBF and its partners will use the evaluation results to more effectively conduct outreach activities and to increase the level of hepatitis B virus knowledge, testing, vaccination, and follow-up testing among Asian Pacific Islander communities and clinicians who were not reached by the first phase of the campaign.

9. Grant Project Schedule, as allowed in approval documents, or as proposed:

Start-Date: **April 1, 2012** End-Date: **March 31, 2013**

10a. Amount budgeted for contractual services: **None**

- b. Will contractual services be put out to bid? **N/A**
- c. If so, will contract services help to further the goals of the department's MBE/WBE requirements? **N/A**
- d. Is this likely to be a one-time or ongoing request for contracting out? **N/A**

Grant Amount:

\$20,000.00 for 12 months

Date Approved:

March 22, 2012

Grant Period:

April 1, 2012 -- March 31, 2013

Grant Purpose:

To evaluate the SF Hep B Free campaign to determine which outreach strategies had the most impact on behavior change among 1) clinicians to provide hepatitis B testing, vaccination and appropriate follow-up testing for Asian Pacific Islanders (APIs) and 2) APIs to seek out and accept these services.

Outcomes:

1. Identify best practice, and upon completion of the project, disseminate best practices summary reports to SF clinicians, the SF API community, and SFHBF and its provider and community partners.
2. Implement the identified best practices strategies, targeting API subpopulations, new immigrants, and additional clinicians in SF who have yet to be impacted by the campaign.

Activities:

1. Conduct medical record reviews on a random sample of 360 SF API patients seen in 2006 and 360 new SF API patients seen in 2011 to collect data and determine patterns about HBV testing and vaccination and appropriate HBV follow-up testing for patients with test results indicating HBV infection.
2. Host 4 focus groups with SF clinicians who care for API patients to identify best practices for clinician outreach and to identify API and clinician subpopulations who were not reached in the first phase of the SFHBF campaign.
3. Host 4 focus groups with API community members to identify best practices for improving HBV awareness and to identify API subpopulations who were not reached in the first phase of the SFHBF campaign.
4. Analyze the results and write reports to summarize best practices results and describe subpopulations to be targeted in future phases of SFHBF.

II. SPECIAL CONDITIONS

None.

III. REPORTING REQUIREMENTS AND PAYMENT SCHEDULE

Payments will be made on the schedule below if special conditions described above are met and if narrative and financial reports have been submitted on the dates requested. Report guidelines and forms are available on the Foundation's website at www.sff.org/grantseeker/forms. Reminder notices will be sent in the month before the report is due. If you need to extend the grant period or request changes in the payment schedule or budget, please request the change in writing, briefly explaining the reason it is needed.

Please note that payments on new grants will not be released until final reports on all prior grants have been received and approved by your Program Officer.

Progress Report Due Dates (if any):

None.

Payment(s):

\$20,000.00 scheduled on April 1, 2012

Final Report:

Standard Final Report due on April 30, 2013

IV. PUBLICITY

As a community foundation, our ability to fund important programs such as yours is contingent upon ongoing support from the Bay Area community. We look forward to partnering with you to let others know about the importance of philanthropy. Please include us in any communications connected with the grant, including press releases,

programs, announcements, invitations, stories in the media, annual reports, and newsletters, and submit copies of any such publications with your project report(s). If your organization has a website, please link to www.sff.org. Any statement about Foundation policy should be cleared in advance through our Marketing Communications Officer.

V. BUDGET AND USE OF FUNDS

Funds must be used by the grantee strictly in accordance with the final budget on which the grant was based. Any changes must be approved in advance by the Foundation.

VI. REVERSION OF FUNDS

All funds not expended for the purposes agreed to by the grantee and the Foundation must be returned to the Foundation.

VII. AUDIT

The Foundation reserves the right to conduct an audit of any grantee if it appears appropriate and necessary.

VIII. MONITORING AND EVALUATION

In order to assess the effectiveness of our grants, the Foundation may monitor or conduct an evaluation of the program funded by this grant, which may include visits by representatives of the Foundation to observe the grantee's program procedures and operations and to discuss the program with the grantee's personnel.

IX. HOLD HARMLESS

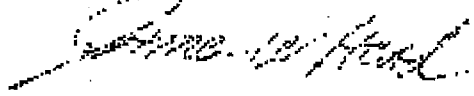

In accepting a grant from the Foundation, the grantee hereby irrevocably and unconditionally agrees, to the fullest extent permitted by law, to defend, indemnify and hold harmless The San Francisco Foundation, its officers, directors, trustees, employees and agents, from and against any and all claims, liabilities, losses and expenses (including reasonable attorneys' fees) directly, indirectly, wholly or partially arising from or in connection with any act or omission of the grantee, its employees or agents, in applying or accepting such grant, in expending or applying the funds furnished pursuant to such grant or in carrying out the program or project to be funded or financed by such grant, except to the extent that such claims, liabilities, losses or expenses arise from or in connection with any act or omission of The San Francisco Foundation, its officers, directors, trustees, employees or agents.

The Board and staff of The San Francisco Foundation are pleased to be able to make this grant (#79553) to your organization. Please sign and return one copy of this Agreement as evidence of your understanding of and agreement with the terms outlined. Please keep a copy for your files.

Organizational and Project Information

Please provide a brief history of your organization and its current programs and services. (1,200 characters)

The SFDPH's Communicable Disease Control and Prevention Section (CDCP) tracks reports of over 80 reportable diseases and conditions, investigates cases and contacts, and recommends public health actions to control the spread of disease. CDCP prevents communicable diseases by promoting vaccines across the lifespan for all San Franciscans through outreach, education, and vaccine distribution to eligible public and non-profit providers.

The San Francisco Hep B Free (SFHBF) campaign began in 2006 with the goal of eliminating hepatitis B (HBV) in SF by testing and vaccinating all Asian Pacific Islanders (APIs). SFHBF is the largest, most intensive healthcare campaign for APIs in the U.S. In 2006, the SF Board of Supervisors and SF Health Commission passed unanimous resolutions supporting SFHBF, which is a collaboration between the SFDPH, the Asian Week Foundation, the Asian Liver Center, SF hospitals, and multiple community based organizations serving APIs. Currently, SFHBF has over one hundred provider and community partners and 34 media supporters. SFHBF hosts an average of two outreach and screening events per month,

with over 6500 people screened to date through these events alone.

Please describe the issue/problem/need your organization is working to resolve and discuss how you are addressing it. What research or best practice models support your methods? (1,750 characters)

Chronic HBV infection and its sequelae – cirrhosis, liver failure, hepatocellular carcinoma (HCC), death – disproportionately affect APIs in SF and nationally. APIs account for over 50% of Americans who live with chronic HBV; the highest rate of HCC occurs in APIs who immigrated to the U.S. APIs represent 32% of SF's population; many are foreign-born. In 2009, SFDPH received HBV infection reports on over 3,500 individuals. For the 66% of cases where race was known, 87% were API, of which 85% were foreign-born. Currently, SF has the highest rate of HCC in the U.S.

To address this health disparity, the SFHBF campaign was launched in 2007 to increase HBV awareness, testing, vaccination, and treatment among APIs by forming a SF community coalition to educate healthcare providers and the community; promote routine HBV testing and vaccination as part of primary care; and provide access to low-cost HBV prevention and treatment for those chronically infected. SFHBF's coalition follows the framework of Community Coalition Action Theory, and unified the API community, healthcare system, policy makers and businesses. Mass-media and grassroots messaging has raised citywide awareness and promoted use of the healthcare system for screening and follow-up.

After 5 years of implementation, CDCP and its partners propose to do a comprehensive evaluation of the methods and strategies used by the campaign. The results will enable SFHBF and its partners to conduct its future outreach activities in a more focused and effective manner; increase the level of HBV knowledge, testing, vaccination, and follow-up testing among APIs and clinicians who were not reached by the first phase of the campaign; and achieve the goal of eliminating HBV in SF.

Please describe the work (program/project) your organization is requesting funding for and describe the impact your organization is trying to achieve. Please address how your work aligns with one or more of the Foundation's grantmaking objectives. (1,750 characters)

To assess the effectiveness of SFHBF's clinician outreach, medical charts will be reviewed for 360 API patients seen before the campaign in 2006 and 360 API patients seen in 2011. The 5-year change in HBV testing and vaccination practices will be measured. Four focus groups with SF clinicians who care for API patients will also be conducted to elicit opinions about which SFHBF outreach strategies best increased their awareness and knowledge of HBV testing and vaccination recommendations. Clinicians will also be asked to identify SF API communities and clinician groups that should be targeted in future phases of the SFHBF campaign.

Four focus groups with SF API community members and leaders will be conducted to identify (1) which SFHBF public outreach strategies most effectively increased awareness, pursuit and acceptance of HBV testing and vaccination among APIs and (2) which SF API communities have not been reached by the SFHBF campaign.

SFHBF and the proposed evaluation project align with the Foundation's Community Investment funding objective. An Advisory Board of SF clinician and community representatives will help to plan and implement the project and disseminate the results to SFHBF's coalition of healthcare and API community organizations, as well as groups around the U.S. that wish to create similar community-based HBV prevention campaigns. SFHBF partners will use the best practices identified by this project to plan and implement future prevention activities in a more focused and effective manner, resulting in improved knowledge of HBV in clinical and API communities, increased testing and vaccination of SF APIs, and reduced HBV-related chronic liver disease health disparities among APIs.

Does your work contain any lobbying or advocacy? Please Describe. (600 characters)

This proposed work, the San Francisco Hep B Free Best Practices Project, does not include any lobbying or advocacy activities.

Please also note that The San Francisco Foundation did a preliminary vetting of this proposed project in September 2011, and, consequently, invited CDCP and its partners to apply for this SF Foundation funding opportunity.

Outcomes

What are the **main outcomes** for which you are requesting support? Your proposal must have at least one outcome, however you may have up to three (585 characters each)

See more information about Outcomes

Outcome 1

Best practices identified and, upon completion of the project, best practices summary reports disseminated to SF clinicians, the SF API community, and SFHBF and its provider and community partners.

Outcome 2 optional

Over the course of the next three years (2013 – 2016), SFHBF and its partners will use the evaluation results to more effectively conduct HBV outreach activities. SFHBF will implement the identified best practices strategies, targeting API subpopulations, new immigrants, and additional clinicians in SF who have yet to be impacted by the campaign.

Outcome 3 optional

Activities

What are the most important **activities** that will help you achieve those outcomes? Include frequency/duration of program events or services provided. Only one activity is required. (360 characters each)

See more information about Activities

Activity 1

Medical record reviews on a random sample of 360 SF API patients seen in 2006 and 360 new SF API patients seen in 2011 to collect data about HBV testing and vaccination and appropriate HBV follow-up testing for patients with test results indicating HBV infection. The five-year change in clinician practice patterns will be measured.

Activity 2 optional

Host 4 focus groups with SF clinicians who care for API patients to identify best practices for clinician outreach and to identify API and clinician subpopulations who were not reached in the first phase of the SFHBF campaign.

Activity 3 optional

Host 4 focus groups with API community members to identify best practices for improving HBV awareness and to identify API subpopulations who were not reached in the first phase of the SFHBF campaign.

Activity 4 optional

Analyze the results and write reports to summarize best practices results and describe subpopulations to be targeted in future phases of SFHBF.

Activity 5 optional

Evaluation

Please describe how your organization will evaluate the success of the project you are proposing? (Your evaluation should be directly linked to your outcomes and activities.) (The Foundation recognizes that it is not necessary to hire outside experts to have a solid evaluation plan. We do expect that you will know what success looks like and how you will know you achieved it.) (1,045 characters)

See more information about Evaluation

Upon completion of the project, the best practices summary reports will be disseminated to SF clinicians, the SF API community, and SFHBF and its provider and community partners. Over the course of the next three years (2013 - 2016), SFHBF and its partners will use the evaluation results to more effectively conduct HBV outreach activities. SFHBF will implement the identified best practices strategies, targeting API subpopulations, new immigrants, and additional clinicians in SF who have yet to be impacted by the campaign. Three years after completion of the project (2016), SFDPH staff will produce a summary of the best practices activities being conducted by SFHBF and its provider and community partners. This summary will include a listing of the SF API subpopulations, new immigrants, and clinicians who have been targeted for outreach from 2013-2015. SFDPH staff will also document the dissemination and publication of the evaluation summary reports to SF clinicians, the SF API community, and SFHBF and its partners

Functional Expenses

The three categories in this box are the same as those on the IRS Form 990, Part II, Statement of Functional Expenses. If you are using a fiscal sponsor or are a city or university department, please estimate your project's functional expenses. Do not report the functional expenses for the fiscal sponsor or for the entire city or university.

Please note the functional expenses must be greater than 0.

The SFDPH is a large, stable organization with a budget of over 1.57 billion dollars for fiscal year 2011-12. This represents an eight percent increase over Fiscal Year 2010-11. This increase is largely due to additional revenues and federally mandated capacity enhancements that will allow the Department to prepare for full implementation of Health Care Reform. SFDPH is part of the City and County of San Francisco Government with a budget that includes \$582 million for San Francisco General Hospital; \$188 million for Laguna Honda Hospital and Rehabilitation Center; \$5.9 million for Health at Home; \$27.7 million for Jail Health program in the San Francisco County Jails; \$239 million for Mental Health Programs; \$66 million for Primary Care Programs; \$305 million for Public Health Programs (including CDC); and \$62 million for Substance Abuse Programs.

Similar to other cities and counties, San Francisco faces increasing costs, such as healthcare for its employees and retirees, which outpace its projected revenue growth. These challenges will have an effect on SFDPH as it receives the largest general fund subsidy in the City. At the same time, SFDPH leverages \$1.2 Billion of revenue from federal, state and other sources including Medi-Cal and Medicare using only about \$363 million (23%) of county general fund to support its programs.

Fund-raising Plan

The fundraising plan should give a sense of how the organization expects to ensure that the project and/or organization will have the resources necessary to succeed. Please briefly outline your plan to sustain your efforts over the next one to three years. (2,200 characters)

This project will be implemented over 18 months for a proposed total budget of \$430,000. Committed funds over 18 months include \$225,000 from Metta Fund and in-kind support of \$67,500 from SFDPH and \$37,500 from SFHBF/Asian Week Foundation. Requested funds over 12 months include \$20,000 from The SF Foundation and an expected combined total of \$70,000 from the Chinese Community Health Care Association and the Hospital Council of Northern & Central CA, with the remaining \$10,000 from a funder to be identified. The majority of the budget will support project staff who will design and implement the evaluation and analyze, summarize, and disseminate the results. The Project Director, Dr. Melissa Sanchez of CDCP, will oversee the project and lead the evaluation, analysis, writing, and dissemination of results. The Project Coordinator, Ms. Amy Nishimura, will design and monitor all project activities, analyze data, and write reports; and two Research Assistants will collect the data. In-kind contributions will be made by Dr. Sandra Huang of CDCP; Ms. Janet Zola, CDCP Health Promotion Specialist/co-founder of SFHBF; Mr. Ted Fang, co-founder of SFHBF/Executive Director-Asian Week Foundation, who will serve as Community/Strategic Advisor; and an Advisory Board. Data collection activities will be completed in the first 12 months, and in the final 6 months, staff will analyze, write, and disseminate the results. CDCP's strong relationships with SF hospitals, health care systems and community partners and the stability of its infrastructure, which uses a combination of general fund and grant opportunities to maintain its highly trained staff, will ensure the availability of highly skilled epidemiologists for measuring the project's impact and success over the course of the three years following the evaluation. In addition, SFHBF's strong leadership, as well as its over one hundred provider and community partners, will enable SFHBF to successfully implement the identified best practices approaches among the targeted SF API communities and clinicians who were not reached by the first phase of the campaign.

Target Population Description

Please use this section if you would like to share any additional information regarding the population you serve. (1,045 characters)

The API population of SF will significantly benefit from the results and outcomes of this project. This includes APIs of all ages, genders and levels

of education, literacy, English proficiency, and acculturation. There are over 250,000 APIs throughout SF, including many who are foreign-born. All geographic areas throughout SF will be targeted, with the expectation that some regions will be more heavily targeted based on results from the focus groups. New immigrants from countries with moderate or high rates of chronic HBV will also be targeted.

Asian communities outside of SF will also benefit from this project given that the best practices results will be summarized in reports that will be shared with health and community organizations in other regions of the SF Bay Area and the U.S. that are interested in starting their own Hep B Free campaigns.

Special Populations

Please complete the table below to indicate if your project plans to target any Special Populations. Please do not exceed 100% (if your population overlap please use the Target Population question to clarify.)
