#### Q&M LLC Type 87 Pre-application Community Meeting Notes

I introduced myself as the owner of the restaurant project planned for 3657 Taraval Street. I indicated that we are currently working to clean out the space and have made improvements with the infrastructure. I let them know that we are replacing the previous damaged floor and will be pouring a new concrete floor. I provided background about my experience in the neighborhood operating The Riptide and also discussed the fire that destroyed the business that we eventually rebuilt.

A neighbor had asked about the hours of operating and seating at the new restaurant. I let her know that we planned on being open for lunch and dinner and would have a capacity of around 49 people. She also asked about the name, and I let her know that we were discussing concepts and may tie-in with The Riptide.

# COMMUNITY MEETING

Monday Nov. 19
