TO: Board of Supervisors members

FROM: Eileen Boken,
President
Sunset-Parkside Education and Action Committee (SPEAK)

In solidarity with the Mid-Sunset Neighborhood Association (MSNA), SPEAK is strongly supporting a coordinated response to the PCE contamination on the Irving Street corridor.

This resolution urges the **California** Department of Toxic Substances Control (DTSC) to treat the now five areas with documented high levels of tetrachloroethylene (PCE) near 26th-27th Avenues and Irving:

- 1- In a coordinated manner
- 2-Involve the Department of Public Health
- 3-Ensure that the toxins are remediated, not simply modified or mitigated
- 4-Keep action levels completely consistent with those typical in California at 1/1,000,000 people becoming ill, being the threshold for action.
