

LEGISLATIVE DIGEST

[Planning Code - Landmark Designation - Hose Company #30 Firehouse]

Ordinance amending the Planning Code to designate the Hose Company #30 Firehouse, located at 1757 Waller Street, Assessor's Parcel Block No. 1250, Lot No. 029, on the south side of Waller Street between Stanyan and Shrader Streets, as a landmark consistent with the standards set forth in Article 10 of the Planning Code; affirming the Planning Department's determination under the California Environmental Quality Act; and making public necessity, convenience, and welfare findings under Planning Code, Section 302, and findings of consistency with the General Plan, and the eight priority policies of Planning Code, Section 101.1.

Existing Law

Under Article 10, Section 1004 of the Planning Code, the Board of Supervisors may, by ordinance, designate an individual structure that has special character or special historical, architectural or aesthetic interest or value as a City landmark. Unless prohibited by state law, once a structure has been named a landmark, any construction, alteration, removal or demolition for which a City permit is required necessitates a Certificate of Appropriateness from the Historic Preservation Commission. (Planning Code § 1006; Charter of the City and County of San Francisco, § 4.135.) Thus, landmark designation generally affords a high degree of protection to historic and architectural structures of merit in the City. There are currently more than 300 individual landmarks in the City under Article 10, in addition to structures and districts in the downtown area that are protected under Article 11. (See App. A to Article 10.)

Amendments to Current Law

This ordinance amends the Planning Code to add a new historic landmark to the list of individual landmarks under Article 10: Hose Company #30 Firehouse, located at 1757 Waller Street, Assessor's Parcel Block No. 1250, Lot No. 029. The ordinance finds that the Hose Company #30 Firehouse is eligible for local designation as one of San Francisco's earliest extant firehouses, for its association with Haight Ashbury's early history, and as an intact example of Italianate architecture. Constructed in 1895, at an early point in the neighborhood's history, the property housed Engine Company Number 30 until 1959. The property remains a rare example of an intact, non-residential, pre-1900 building in the neighborhood. The property is an intact example of Italianate architecture and retains high integrity. As required by Section 1004, the ordinance lists the particular features that shall be preserved, or replaced in-kind, as determined necessary.
