This is on a public SFCity Street Palou and Griffith Street in the Jan/February 2023 Atmospheric River. This is the only picture on this phone. I will send others when I get back to our office @ Greenaction for Health and Environmental Justice. I will be forwarding more pictures of the overflow from Parcel E-2 onto the City of SF Streets. HUMAN PROTECTIVENESS IS A MAJOR CONCERN AND SHOULD BE ACTED ON NOW. Studies are showing the contamination from the HPNS is impacting groundwater which means the total City and Bay is impacted.

Thank you

Shirletha Holmes-Boxx

415-589-1959

Ps I have relocated to District 5 from being a legacy resident of D10 due to my health.

These are the other pictures outside the fence of Parcel E2 from 2023.  
This year wasn't as bad as 2023 but the pictures will be forwarded to demonstrate the Urgency of FLOOD MANAGEMENT IN D10 AND BEYOND...Especially since the contaminants of the shipyard Parcel E-2 overflow onto SF City streets potentially compromising human health.  
Thank you
