

Paratransit Broker Agreement Execution

SFMTA proposes to execute a new Paratransit Broker Agreement with a private contractor for approximately five years, including an option for a five-year extension, replacing the existing paratransit service agreement. The new Agreement would involve the provision and operation of Paratransit disabled ride services throughout San Francisco by the contractor. Related activities outlined in the agreement include but are not limited to customer service, oversight and monitoring of payment systems, direct provision of transportation services, subcontracting and monitoring of other van and taxi services, purchase of software, and leasing of vans.

Not defined as a “project” under CEQA pursuant to CEQA Guidelines 15060(c) and 15378(b) because the action would not result in a direct physical change in the environment, or a reasonably foreseeable indirect physical change in the environment.

A handwritten signature in black ink, appearing to read 'Erik Jaszewski', is written over a horizontal line.
