Overview of Grant Award

The Juvenile Accountability Block Grants (JABG) Program, administered at the federal level by the Office of Juvenile Justice and Delinquency Prevention (OJJDP), supports state and local efforts to reduce juvenile crime through programs that focus on offender accountability (Public Law 107-273). As the designated state agency for this federally funded program, the Board of State and Community Corrections (BSCC) distributes the Federal annual allocations to those local jurisdictions meeting the federal funding threshold to receive a direct allocation. The grant year will cover July 1, 2013 through June 30, 2014.

This year, local jurisdictions that meet the threshold for receiving a direct allocation will receive an additional amount of funding (see Appendix A). This opportunity comes as a result of an excess in discretionary JABG funding that remains unspent. If unused, these funds revert back to the federal government rather than directly benefiting the California local programs that qualify for JABG funding. In an attempt to maximize the fiscal support of local programs, these funds are being redirected to serve their intended purpose. Although this enhancement was also available to augment the 2012/13 allocation and is available again this year, it should be considered as a one-time funding opportunity. Future availability of these funds is dependent upon unspent discretionary JABG funding remaining on a year-to-year basis.

California's State Advisory Committee on Juvenile Justice and Delinquency Prevention (SACJJDP), which oversees the use of federal funds administered by the BSCC, identified three priority areas in their new three-year Strategic Plan on which California is to focus its efforts. The three priority areas are:

1. Disproportionate Minority Contact – includes direct services, education/awareness, and support through resources and advocacy to address any disparities in the decision-making processes within the juvenile justice system that impact youth of color and the corresponding disproportionality of youth of color coming into contact with the juvenile justice system.
2. Evidence-Based Practices - places an emphasis on achieving measurable outcomes and making sure that the services provided and the resources used are effective. It involves using research-based, and scientific studies to identify interventions that reliably produce significant reductions in recidivism, when correctly applied to offender populations through the use of the following four principles of effective intervention:
 - a. Risk Principle – focuses attention on the crucial question of WHO is being served and calls for targeting the highest risk offenders.
 - b. Need Principle – requires that priority be given to addressing criminogenic risk/need factors with a clear focus on WHAT programs are delivered.
 - c. Treatment Principle – conveys the importance of using behavioral treatment approaches to achieve the best possible outcomes and requires attention to the questions of HOW programs are delivered.
 - d. Fidelity Principle – draws attention to HOW WELL programs are delivered and reiterates the necessity that programs be implemented as designed.

Successful implementation of EBP includes organizational development to create and sustain a culture accepting of best practices and evidence-based approaches, including a commitment to initial and ongoing professional development and training, use of

validated risk/needs assessment tools, data collection and analysis, use of programs and practices known to produce positive criminal justice outcomes, quality assurance assessments to ensure program fidelity, performance management to improve programs and policies, a "systems change approach" to develop collaborations so that tasks, functions and sub-units work effectively together and not at cross-purposes, and a focus on sustainability.

3. A strategy to support efforts to develop and strengthen services, programs, and policies that promote positive outcomes for youth, their families, and communities – focuses on system improvement of juvenile detention policy and practice, and may include programs, research, and other initiatives to examine issues or improve practices, policies, or procedures on a system-wide basis (e.g., examining problems affecting decisions from arrest to disposition and detention to corrections).

The SACJJDP encourages JABG recipients to align the use of their direct allocation with the three priority areas identified in the SACJJDP's Strategic Plan.

Application Requirements

Due Date: This application is due to the BSCC via e-mail by **June 1, 2013**. A signed, hard copy of the application is to follow, submitted by the applicant via U.S. mail.

Eligible Applicants: Units of local government meeting the minimum federal funding threshold are eligible to apply for the formula-based direct allocation. **Please refer to Appendix A for a listing of eligible units of local government, including the federally determined grant amount for each.** Localities shall designate an implementing agency for the grant project.

Local Advisory Board: Under federal law, a local advisory board must review a Coordinated Enforcement Plan (CEP) outlining how JABG funds will be expended. For the purpose of this grant, this application is the CEP. The board must include, if appropriate, representatives from the police, sheriff and probation departments, district attorney's office, juvenile court, education, social services, a nonprofit and nongovernmental victim advocacy organization, and a nonprofit religious or community group. Grantees may use an existing advisory board with similar membership (e.g., Juvenile Justice Coordinating Council) to meet this requirement.

Local Match: Applicants must assure that they will contribute a cash match of 10% of the total project costs (see Appendix A for required match amounts **based on the federal formula** which requires match to be computed by dividing the funding allocated by 0.9 x 1.0). Applicants opting to use JABG funds to construct new and permanent detention facilities must provide a 50% cash match. Matching funds may be either state or local dollars. Federal funds are not an allowable match source.

Eligible Expenditures: Grantees must expend JABG funds for projects that fall within the 18 federally designated program purpose areas, with a focus on juvenile accountability. **Please see Appendix B for information on the JABG program purpose areas and performance measures.** Additionally, the California SACJJDP strongly encourages JABG recipients to align the use of their direct allocation with the three priority areas identified in their strategic plan.

Disbursement of Grant Funds: Disbursement of grant funds occurs on a reimbursement basis for actual project costs incurred during a reporting period. Grantees must submit invoices online to the BSCC on a quarterly basis, within 45 days following the end of the reporting period. Grantees must maintain adequate supporting documentation for all costs, both grant and match, claimed on invoices.

Federal Performance Measures: Federal regulations require JABG grantees to select a program purpose area(s) from the JABG program list and report specific data pertaining to the area(s) identified. Grantees will report data to the BSCC on a quarterly basis via progress reports.

Resolution: Applicants must submit a resolution from their governing board (City Council or Board of Supervisors) addressing specific requirements. **Please see Attachment C for a Sample Resolution.** The resolution must be on file with the BSCC prior to a finalized grant award agreement.

Waivers: A qualifying unit of local government may waive its right to a direct grant award and request that such unit's funds be awarded to and expended for its benefit by a larger or contiguous unit of local government. **Please see Attachment D for the pertinent waiver documentation.**

Disproportionate Minority Contact Training: To receive federal funding, the state of California is required to demonstrate a good faith effort to address Disproportionate Minority Contact (DMC). DMC refers to the overrepresentation of youth of color who come into contact with the juvenile justice system (at all points, from arrest through confinement) relative to their numbers in the general population. In an effort to comply with this requirement, the BSCC has undertaken a number of activities to ensure that California addresses DMC. Accordingly, JABG recipients are invited to attend a one day regional DMC training for project directors and other interested staff which will be provided during the program year.

Viewing direct service for at-risk youth through the DMC lens not only complements the principles of the JABG program but can effectively influence the impact of current interventions. The regional DMC courses will be provided at no cost to attendees and address issues relevant to participants who have received previous training as well as those attending DMC training for the first time. Two trainings will be offered; one for the northern region and one for the southern region. JABG funding may be used to reimburse agencies for travel related expenditures such as mileage, meals, lodging if required, and other per diem costs. Applicants should include these costs in the budget section of this application. Registration information regarding the date, time and location of the regional trainings will be sent to all project directors. Additional information about DMC can be found at www.bscc.ca.gov or applicants may contact DMC Coordinator, Shalinee Hunter, at (916) 322-8081; Shalinee.hunter@bscc.ca.gov.

Complete Application Submittal: A complete application includes the application document, Federal Performance Measures form(s) and governing body's resolution. Additionally, waiver documents are required from any applicant receiving funds waived from another locality.

Progress Reports: Grantees must submit quarterly progress reports, including the mandatory federal data and project progress notes, utilizing the JABG Progress Report form provided on the BSCC website www.bscc.ca.gov.

The Federal Funding Accountability and Transparency Act: The intent of the Federal Funding Accountability and Transparency Act (FFATA) is to empower every American with the ability to hold the government accountable for each spending decision. The end result is to reduce wasteful spending in the government. The FFATA legislation requires information on federal awards (federal financial assistance and expenditures) be made available to the public via a single, searchable website, which is www.USASpending.gov.

The FFATA Subaward Reporting System (FSRS) is the reporting tool Federal prime awardees (i.e. prime contractors and prime grants recipients) use to capture and report subaward and executive compensation data regarding their first-tier subawards to meet the FFATA reporting requirements. Prime contract awardees will report against subcontracts awarded and prime grant awardees will report against subgrants awarded. The subaward information entered in FSRS will then be displayed on www.USASpending.gov associated with the prime award furthering Federal spending transparency.

It is possible that funding used to support the 2013/14 JABG grant activities will trigger the FFATA reporting requirement. Should this occur we will contact your agency to obtain the information needed to report into the FSRS.

Audit: Grantees must submit an audit of expenditures within 120 days of the end of the grant period. Reasonable and necessary extensions to the timeframe may be granted if requested. Grantees may choose to submit either a program specific audit or a federal single audit.

Public Defender Placement Program	18) Hiring court-appointed defenders	\$94,132
-----------------------------------	--------------------------------------	----------

The Public Defender Placement Program partially funds an attorney position for Offender Counsel. All youth who are either committed to out of home placement or to the Log Cabin County Camp are removed from their homes and their communities for period of a year or more. Prior to their commitments youth are in detention. Upon a court order of out of home placement, the attorney immediately assesses the individualized needs of the youth incorporating the express interest of the youth in his/her placement "wants and needs" and works collaboratively with the Court and the Juvenile Probation Department in identifying the appropriate foster care placement to ensure a speedy and appropriate placement for the youth. The Placement Attorney has been successful in reducing out of home placement detention delay for her clients from two to three weeks. While youth are in out of home placement or county camp commitments, the Placement Attorney maintains close contact with the youth and their families to ensure that the youth are doing well in their placements, addresses the many needs and concerns of the youth and their families, and begins to focus on reentry planning for the eventual reunification of the youth to their families and their communities. The Placement Attorney also advocates for the educational, mental, and behavioral health needs of the youth. The Placement Attorney will serve up to 125 unduplicated youth per year. By expediting youth from detention to their placements, the attorney has been able to reduce disproportionate minority confinement. She also works collaboratively with the Juvenile Collaborative Reentry Unit (JCRU) a dedicated team of justice partners including a probation officer, community based case manager, social worker and judge to ensure a smooth reentry of youth returning home from long term removal. The Attorney incorporates the use of evidence based practices as part of JCRU which can involve Team Decision Making, risk assessment needs assessment through the Youth Assessment and Screening Instrument (YASI) and the Child and Adolescent Needs and Strengths Assessment (CANS) to ensure successful placement, reentry planning, transition, and public safety.

SECTION II: PROJECT INFORMATION

A. PROJECT DESCRIPTION:

Part I: In the space below #5, provide the following project information:

1. Describe the project(s)/program(s) to be supported with JABG funds.
 2. Define project goals and major activities/services.
 3. Define the juvenile justice population(s) to be served by the project, including the estimated number of youth.
 4. Support the project need with local data/information.
 5. Describe staffing, including classification and number of staff required to achieve project goals.
1. **The Public Defender Placement Program will partially fund one full time Deputy Public Defender to represent all Public Defender clients who have been committed to out of home placement, our local county camp facility, Log Cabin Ranch School and other youth who may have been placed in long term juvenile hall commitments. The attorney begins her representation upon initial commitment and receives referrals from other staff attorneys in the delinquency courts.**
 2. **The project goals and major activities/services include the following:**
 - a. **The attorney expedites youth in detention to be placed in the most appropriate residential programs after assessing the needs of the youth.**
 - b. **The assessment includes interviews with the referring attorney, the youth and their family members, consultation with placement probation officers and extensive review of relevant, social, psychological and education reports.**
 - c. **To ensure placement success and prevent failures and AWOLS, the attorney establishes close collaboration and monitoring of placement efforts with the probation department through scheduled meetings and regular court hearings, consistent communication with youth and family members while the youth are in placement or county camp.**
 - d. **Unreasonable detention and placement delays are raised by the attorney and brought to the Court's attention to ensure unnecessary detention of the youth and to ensure accountability of placement.**
 - e. **Multi-systems involved youth can experience extended detention delays. The Placement Attorney works closely with the reentry team to identify the appropriate system for the youth to be served in while also advocating for the necessary services for the youth in order to expedite placement, reduce detention stay, ensure stability of placement for the youth and also providing mental health and education advocacy for the youth as an integral component of the placement process.**
 - f. **Regular case conferencing and consistent communication with reentry team and other key providers reduces detention delay while improving placement and reentry success for the youth.**
 - g. **Placement attorney ensures that proper case plans are developed to address the youth's needs and complied with to promote eventual family reunification and improve public safety.**
 - h. **With appropriate case planning, the program has resulted in the reduction of youth facing removal commitments through effective use of community resources and targeted family involvement.**
 3. **The juvenile justice population(s) to be served by the project include all youth who have been adjudicated and have been committed to out of home placement, county camp, or other long term detention commitments.**
 - **The estimated number of youth to be served is 120 per year.**

4. Throughout the last fiscal year the placement attorney has represented approximately 100 clients per quarter. The recidivism tracked by the attorney has remained very low from 3% to 8%. Moreover, all youth placed in out of home placements are receiving evidence based practice services which can include cognitive behavioral therapy and multi-systemic therapy for youth and their family members. Youth who have returned home are closely monitored through EPSDT intensive case management. The placement attorney will also be working with eligible youth who are receiving AB 12 extended foster care funding. This population has grown from 4 youth when the law first took effect last year to the current population of 21 AB 12 clients. Additionally the placement attorney has started her representation of county camp clients who are graduating. Of the 5 youth served, 4 have returned home and have stabilized in their homes and communities without any new delinquent offenses.
5. The staffing for the placement program consists of one trial attorney who works with a dedicated social worker in the Public Defender's Juvenile unit.

Part II: Further identify the target population for your program by completing the table below. Place an "X" next to at least one population segment (or "not applicable") in each of the six designated areas. Multiple boxes may be checked in any one area. Each "X" shall indicate the populations, if any, to which the program intends to offer targeted services. Targeted services include any services or approaches **specifically designed** to meet the needs of the population (e.g. gender specific, culturally based, developmentally appropriate services).

PROGRAM PURPOSE AREA(S): All funded projects must fall within one or more federally recognized purpose areas established for JABG. Attachment B includes a detailed listing of the 18 program purpose areas from which each applicant must choose. Each separate purpose area identified in this section will require subsequent data reporting on quarterly progress reports to the BSCC. For this reason, applicants are encouraged to consolidate their programs into one program purpose area whenever possible. In addition to the Program Purpose areas, California's State Advisory Committee on Juvenile Justice and Delinquency Prevention (SACJJDP), which oversees the use of federal funds administered by the BSCC, encourages JABG recipients to align the use of their direct allocation with the three priority areas that are identified in the SACJJDP's Strategic Plan. The three priority areas are: (1) Disproportionate Minority Contact, (2) Evidence-Based Practices, and (3) a strategy to support efforts to develop and strengthen services, programs, and policies that promote positive outcomes for youth, their families, and communities. More information about these priority areas is provided in the Overview of Grant Award section of this application.

In the space below, please indicate the selected program purpose area(s) by number and topic, and the federal dollar amount allotted to each. (*Example: #8 Juvenile Drug Courts - \$ 47,189*)

#18 Hiring court-appointed defenders - \$94,132

- B. FEDERAL PERFORMANCE MEASURES:** All grantees must report data to the BSCC on mandatory **Core Measures** developed by the OJJDP (see table below). Additionally grantees are to report on the performance indicators for each program purpose area identified in their application. Once a purpose area(s) has been chosen in Section II-A above, applicants are to click the corresponding PDF link(s) below to locate the performance measure grid that identifies the data to be collected and reported. Please note the grid identifies the mandatory measures to be collected in the "Output/Outcome Measures" column and the precise data to be reported in the "Reporting Format" column. Applicants must select **at least one** Output Measure **and** one Outcome Measure for each program purpose area identified. In the space below, please indicate the selected program purpose area(s) by number and topic, along **with at least one** Output Performance Measure **and one** Outcome Performance Measure that will be reported throughout the grant period. (*Example: #8 Juvenile Drug Courts – Output Measure/Number of drug court slots – Outcome Measure/Number and percent of eligible youth to enter the drug court*)

#3 Hiring Court Staff/Pretrial Services – the funding will be used for indigent defense services.

Data to be collected will fall into either one or both of the following categories:

- Direct Service - Defined as an actual service with an individual or group which could take the form of mentoring, counseling, or educational activities. The efforts of these services are defined as prevention, intervention, or rehabilitative.
- System Improvement – Defined as efforts to make desired changes in overall practices, policies or procedures through activities such as hiring personnel, providing training or technical assistance, purchasing equipment/supplies or new information systems, or conducting research.

Grantees must determine which category best describes their project, as this will later determine the data to be collected in the quarterly progress reports.

SECTION VI: AUDIT IDENTIFICATION

Grant recipients must submit an audit of expenditures within 120 days following the end of the grant period. Grantees may choose either a program specific audit or a single federal audit. Federal guidelines allow grant recipients receiving \$500,000 or more in federal funds (from all sources including pass-through sub-awards) in a fiscal year to use their federal juvenile justice grant funds to pay for the cost of the audit. Grantees falling below the \$500,000 threshold must use non-federal funds (i.e., match funds) to pay for audit costs. For purposes of this application, please **check one of the boxes** below to indicate the grantee's choice for meeting the audit requirement.
