RE: File 240497 – Ordinance Authorizing \$390 Million General Obligation Bond Issuance for Healthy, Safe, and Vibrant San Francisco

Dear Ms. Calvillo,

Should the proposed \$390 million in bonds be authorized and sold under current assumptions, the approximate costs will be as follows:

- a) In Fiscal Year (FY) 2025-2026, following issuance of the first series of bonds, the best estimate of the tax required to fund this bond issue would result in a property tax rate of \$0.0040 per \$100 (\$4.00 per \$100,000) of assessed valuation.
- b) In FY 2029-2030, the year with the highest estimated tax rate following the issuance of the last series of bonds, the best estimate of the tax required to fund this bond issue would result in a property tax rate of \$0.0101 per \$100 (\$10.10 per \$100,000) of assessed valuation.
- c) The best estimate of the average tax rate for these bonds over the entire projected duration of the bond debt service from FY 2025-2026 through FY 2046-2047 is \$0.0069 per \$100 (\$6.90 per \$100,000) of assessed valuation.
- d) Based on these estimates, the highest estimated annual property tax cost for these bonds for the owner of a home with an assessed value of \$700,000 would be approximately \$70.00.

The best estimate of total debt service, including principal and interest, that would be required to be repaid if all proposed \$390 million in bonds are issued and sold, would be approximately \$737 million. These estimates are based on projections only, which are not binding upon the City. Projections and estimates may vary due to the timing of bond sales, the amount of bonds sold at each sale, and actual assessed valuation over the term of repayment of the bonds. Hence, the actual tax rate and the years in which such rates are applicable may vary from those estimated above. The City's current non-binding debt management policy is to keep the property tax rate for City general obligation bonds below the 2006 rate by issuing new bonds as older ones are retired and the tax base grows, though this property tax rate may vary based on other factors.

Sincerely,

*Natasha Mihal*
