Notes The state of the state	[~. 1	TILE NO.	. 99221/
By extending the Open Space Fund and requiring coordination and efficiency from the public agencies that maintain our parks, Proposition C will enhance the quality of our existing parks and make possible the acquisition of new parks, playgrounds and natural spaces. What Measure C does: Extends the existing Open Space Fund to allow acquisition and enhancement of parks and open spaces. Promotes coordination between the city agencies responsible for parks and open space capital improvement projects. Measure C specifically requires the Department of Recreation and Parks and the Department of Public Works to agree on plans for capital improvements and work together effectively to implement capital projects. Requires that capital projects must be completed within 3 years of the budget allocation for design and construction. Reals for creation of a citizens advisory committee to make sure all funds are spent efficiently and appropriately. What Measure C does not do: It does not call for any privatization of the parks. It preserves all existing laws in respect to contracting out and helps make sure that public parks and open spaces remain fully under public contract.
