

## **Pier 70 Mixed Use Project Overview**

---

**July 25, 2017**

Between 2007 and 2010 the Port led an extensive community process to develop the Pier 70 Preferred Master Plan, with the goal of redeveloping the site to bring back its historic activity levels through infill and economic development, and increasing access to the water and creating new open spaces, while maintaining the area's historic character and supporting its ship repair activities. The Pier 70 Preferred Master Plan was endorsed by the Port Commission in 2010. The Port then issued a Request for Developer Qualifications for the Waterfront Site infill development opportunity, representing a 28 acre portion of Pier 70. In 2011, after a competitive solicitation process, Forest City was named as master developer. In 2013, the Port Commission and the Board of Supervisors each unanimously endorsed a term sheet, outlining the proposed land plan and transaction terms for future development of Pier 70. In 2014, 73% of voters supported Proposition F, the 2014 ballot measure supporting Forest City's proposed vision for reuse of the area and enabling the Board of Supervisors to increase height limits at the project. Throughout this process, Forest City and the Port have undertaken extensive engagement and outreach efforts, hosting workshops, open houses, markets, tours, presentations and family events – more than 135 events at last count engaging over 75,000 people. These activating events have allowed visitors to experience Pier 70, and share their input as to its future, today rather than wait for Project improvements.

After a decade of outreach and concept development, the Pier 70 project has developed into a clear vision to reintegrate and restore the 28-Acre Site into the fabric of San Francisco, creating an active, sustainable neighborhood that recognizes its industrial past. As contemplated in the proposed Pier 70 SUD Design for Development, the future of the 28-Acre Site is envisioned as an extension of the nearby Dogpatch neighborhood that joins community and industry, engaging residents, workers, artists, and manufacturers into a lively mix of uses and activities. The Project will reflect this diversity and creativity, inviting all to the parks, which are lined with local establishments, restaurants, arts uses, and event spaces, each with individual identities. And as a fundamental premise, the Project will create public access to the San Francisco Bay where it has never previously existed, opening up the shoreline for all to enjoy.

New buildings within the site will complement the industrial setting and fabric in size, scale, and material, with historic buildings repurposed into residential use, spaces for local manufacturing and community amenities. The Project will include a diversity of open spaces at multiple scales, shaped by nearby buildings, framing the waterfront, and creating a platform for a range of experiences.

### **Project Statistics (Mid Point Program – Pier 70 SUD):**

- 1,400,000 square feet of new office space
- 2150 new housing units (Approximately 1200 rentals and 950 condos)
- 400,000 square feet of active ground floor uses (traditional retail, arts uses, and PDR)
- Over nine acres of new public open space
- Preservation and rehabilitation of three historic buildings on site (2, 12, and 21)

### **Public Benefits:**

The Supervisor's Office, OEWD, Port, and Forest City have negotiated a public benefit package that reflects the goals of the Southern Bayfront, and represents over \$750M dollars of public benefits. Key benefits include:

- **Affordable Housing:** Overall the project will result in 30% onsite affordability, with the following components:
  - Approximately 150 or more units of onsite rental inclusionary housing, representing 20% of the units in all onsite rental buildings. These units will be affordable to households from 55% TO 110% of area median income, with the maximum number possible at the time of their lottery rented to applicants under the Neighborhood Resident Housing Preference program.
  - Approximately 320 or more fully-funded units of permanently affordable family and formerly homeless housing, in three buildings developed by local nonprofits located close to transit and a children’s playground.
  - Estimated \$15- \$20M in revenue dedicated to HOPE SF projects, including Potrero Rebuild.
- **Transportation Funding and On-Site Services:** Transportation demand management on-site, facilities to support a new bus line through the project, an open-to-the-public shuttle service, and almost \$50 million in funding that will be used to support neighborhood-supporting transportation infrastructure. Commitment to reducing total auto trips by 20% from amount analyzed in Project environmental review document.
- **Workforce Development Program:** 30% local hiring commitment, local business enterprise (“LBE”) utilization, participation in OEWD’s “First Source” hiring programs, and funding to support expansion of CityBuild and TechSF with outreach to District 10 residents.
- **Rehabilitation of Historic Structures at Pier 70:** The Project will rehabilitate three key historic structures (Buildings 2, 12, 21) and include interpretive elements to enhance public understanding of the Union Iron Works Historic District in open space, streetscape and building design.
- **Parks:** The project will provide over 9 acres of new open space for a variety of activities, including an Irish Hill playground, a market square, a central commons, public art, a minimum 20k square feet active rooftop recreation, and waterfront parks along 1,380 feet of shoreline. Project will pay for maintenance of its own parks.
- **Retail and Industrial Uses:** The project will provide a 60,000 square foot local market hall supporting local manufacturing, is committing to a minimum of 50,000 square feet of on-site PDR space, and is developing a small business attraction program with OEWD staff.
- **A Centerpiece For the Arts:** The project will include an up to 90,000 square foot building that will house local performing and other arts nonprofits, as well as providing replacement, permanently affordable studio space for the Noonan building tenants. The development will provide up to \$20 million through fee revenue and a special tax for development of the building.
- **Community Facilities:** The Project will contribute up to \$2.5M towards creating new space to serve the education and recreational needs of the growing community from Central Waterfront, from Mission Bay to India Basin and Potrero Hill, as well as include on-site childcare facilities.
- **Site Sea Level Rise Protection:** The Project’s waterfront edge will be designed to protect buildings against the high-end of projected 2100 sea-level-rise estimates established by the state, and the grade of the entire site will be raised to elevate buildings and ensure that utilities function properly.
- **City Seawall Improvement Funding Stream:** The Project will include a perpetual funding stream of between \$1 and \$2 billion to finance future sea level rise improvements anywhere along the San Francisco waterfront.

The Project’s commitment to these benefits will be memorialized in the Development Agreement, which must be recommended for approval by the Planning Commission, and the Disposition and Development Agreement, which will be approved by the Port Commission, before seeking final approval from the Board of Supervisors.

**Zoning and Design Controls:**

The DA and DDA are part of a larger regulatory approvals package that also includes a Planning Code text amendment creating a Special Use District (“SUD”) for the Project Site, conforming Zoning Map amendments for height and to establish the Special Use District and a Design for Development (D4D) which will detail development standards and guidelines for buildings, open space and streetscape improvements. Under the Design for Development, the following components of the Project will be subject to review and approval as follows:

- **New Development:** New buildings will be reviewed by Planning Department staff, in consultation with Port staff, for consistency with the standards and guidelines in the Design for Development, with a recommendation to the Planning Director who will approve or deny applications for proposed new buildings;
- **Historic Rehabilitation:** Historic rehabilitation of Buildings 2, 12 and 21 will be reviewed by Port staff, in consultation with Planning Department staff, for consistency with Secretary of the Interior’s Standards for Treatment of Historic Properties (“Secretary’s Standards”) and the standards and guidelines in the Design for Development as part of the Port’s building permit process, with a recommendation to the Port Executive Director, who will approve or deny plans for proposed historic rehabilitation projects; and
- **Parks and Open Space:** Design of parks and open space will undergo public design review by a design advisory committee appointed by the Port Executive Director, with a recommendation to the Port Commission, which will approve or deny park schematic designs.

**Project Approvals:**

The approvals relating to the proposed Project include:

1. Entitlements, including certification and approval of a Final Environmental Impact Report (“EIR”), adoption of a Special Use District and its accompanying Design for Development, amendments to the City’s General Plan, Planning Code and Zoning Map, and a Development Agreement.
2. Implementing Documents, including a Disposition and Development Agreement (DDA) governing the transaction between the Port and Forest City, setting forth Forest City’s obligations for horizontal development, including infrastructure, affordable housing and jobs, and establishing the timing for vertical development; and a Financing Plan setting forth the financial deal, including public financing and disposition of land proceeds.
3. Public Financing approvals, including establishment of an infrastructure financing district (IFD) project area to support construction of infrastructure and rehabilitation of historic structures, an Infrastructure and Revitalization Financing District (IRFD) to support onsite affordable housing, and a series of community facilities districts (CFD) which will fund construction of infrastructure, maintenance of streets and open space, construction of the arts building, and combat sea level rise along the seawall.
4. a Trust Exchange that requires approval and implementation of a Compromise Title Settlement and Land Exchange Agreement and an amendment to the Burton Act Transfer Agreement with the California State Lands Commission (“State Lands”) consistent with the requirements of AB 418.
