17 Be it ordained by the People of the City and County of San Francisco:

18 Section 1. Environmental Findings. The Planning Department has determined that the
19 actions contemplated in this ordinance comply with the California Environmental Quality Act
20 (California Public Resources Code Sections 21000 et seq.). Said determination is on file with
21 the Clerk of the Board of Supervisors in File No. _____ and is incorporated herein by
22 reference. The Board affirms this determination.

23 Section 2. General Findings.

24 (a) The California Building Standards Code is contained in Title 24 of the California
25 Code of Regulations. It consists of 12 Parts, which are based upon model codes that are
amended by the State agencies with jurisdiction over the subject matter. The California

1 Building Code is Part 2 of Title 24 of the California Code of Regulations; the California
2 Residential Code is Part 2.5. The 2019 California Building Code and 2019 California
3 Residential Code will go into effect throughout California on January 1, 2020.

4 (b) The State of California adopts a new California Building Standards Code every
5 three years ("triennial CBSC") with supplemental amendments published in intervening years.
6 The triennial CBSC goes into effect throughout the State of California 180 days after its
7 publication by the California Building Standards Commission or at a later date established by
8 the Commission. The 2019 triennial CBSC will go into effect on January 1, 2020.

9 (c) Local jurisdictions must enforce the California Building Standards Code but they
10 may also enact more restrictive building standards that are reasonably necessary because of
11 local climate, geologic, or topographical conditions. Local amendments may be made both to
12 a triennial CBSC and also to its individual Parts during the intervening years; however, local
13 amendments previously adopted are not automatically applicable to a triennial CBSC. Rather,
14 they must be re-enacted with the required findings of local climate, geologic, or topographical
15 conditions, expressly made applicable to the new triennial CBSC, and with an operative date
16 no earlier than the effective date of the new State Code.

17 (d) As in past triennial CBSC adoption cycles, by this ordinance the Board of
18 Supervisors repeals the 2016 San Francisco Building Code in its entirety, enacts the 2019
19 San Francisco Building Code, and re-enacts the existing local amendments to make them
20 applicable to the 2019 California Building and Residential Codes.

21 (e) Pursuant to Charter Section D3.750-5, the Building Inspection Commission
22 considered and approved San Francisco's amendments to the 2019 California Building Code
23 at a duly noticed public hearing that was held on July 17, 2019.

24
25 Section 3. Findings regarding Local Conditions.

1 (a) California Health and Safety Code Sections 17958.7 and 18941.5 provide that
2 before making any changes or modifications to the California Building Code and any other
3 applicable provisions published by the California Building Standards Commission, the
4 governing body must make an express finding that each such change or modification is
5 reasonably necessary because of specified local conditions. The local amendments together
6 with the required findings must be filed with the California Building Standards Commission
7 before the local changes or modifications can go into effect.

8 (b) The City and County of San Francisco is unique among California communities
9 with respect to local climate, geologic, topographical, and other conditions. A specific list of
10 findings that support San Francisco's modifications to the 2019 California Building Code and
11 the 2019 California Residential Code, with a section-by-section correlation of each
12 modification with a specific numbered finding, are contained in Exhibit A entitled "Standard
13 Findings for San Francisco Building Standards Code Amendments."

14 (c) Pursuant to California Health and Safety Code Sections 17958.7 and 18941.5,
15 the Board of Supervisors finds and determines that the local conditions described in Exhibit A
16 constitute a general summary of the most significant local conditions giving rise to the need
17 for modification of the 2019 California Building Code and 2019 California Residential Code
18 provisions published by the California Building Standards Commission. The Board of
19 Supervisors further finds and determines that the proposed modifications are reasonably
20 necessary based upon the local conditions set forth in Exhibit A.

21
22 Section 4. Repeal of 2016 San Francisco Building Code and Enactment of the 2019
23 San Francisco Building Code.

24 (a) The 2016 San Francisco Building Code is hereby repealed in its entirety. The
25 San Francisco Building Code being repealed was enacted on November 22, 2016, by

1 Ordinance Nos. 225-16 and 226-16, with an operative date of January 1, 2017. It was
2 amended by Ordinance Nos. 53-17, 131-17, 200-17, 233-17, 36-18, 102-18, 121-18, 245-18,
3 267-18, 301-18, 3-19, 52-19, 60-19, 62-19, 65-19, and 207-19. These ordinances are
4 available on the Board of Supervisors' website.

5 (b) The 2019 San Francisco Building Code is hereby enacted. It consists of (1) the
6 2019 California Building Code, (2) the 2019 California Residential Code, and (3) San
7 Francisco's existing local amendments to those 2019 California Codes, which are re-enacted
8 and expressly made applicable to said codes. Copies of the 2019 California Building Code,
9 the 2019 California Residential Code, and the stand-alone San Francisco amendments to
10 those 2019 California Codes are declared to be part of Board File No. _____ and are
11 incorporated into this ordinance by reference as though fully set forth. Existing San Francisco
12 amendments that are being made applicable to those 2019 California Codes are shown in
13 unformatted ("plain") text and may include bold and/or italicized type; new San Francisco
14 amendments are underlined; and deleted San Francisco amendments are in strikeout text.

15
16 Section 5. Continuance of Actions Under Prior Code. Nothing contained in this
17 ordinance shall be construed as abating any action now pending under or by virtue of any
18 ordinance of the City and County of San Francisco hereby repealed, nor shall this ordinance
19 be construed as discontinuing, abating, modifying or altering any penalties accruing, or to
20 accrue, or as waiving any right of the City under any such ordinance.

21
22 Section 6. Severability. If any section, subsection, sentence, clause, or phrase of this
23 ordinance is, for any reason, held to be invalid, such decision shall not affect the validity of the
24 remaining portions of this ordinance. The Board of Supervisors hereby declares that it would
25 have passed this ordinance, and each section, subsection, sentence, clause, or phrase of this

1 Ordinance, irrespective of the fact that any one or more sections, subsections, sentences,
2 clauses, or phrases be declared invalid.

3
4 Section 7. Effective and Operative Dates. This ordinance shall become effective 30
5 days after enactment. Enactment occurs when the Mayor signs the ordinance, the Mayor
6 returns the ordinance unsigned or does not sign the ordinance within ten days of receiving it,
7 or the Board of Supervisors overrides the Mayor's veto of the ordinance. This ordinance shall
8 take effect and be in full force on and after either January 1, 2020 or its effective date if the
9 effective date is later.

10
11 Section 8. Directions to Clerk. Upon final passage of this ordinance, the Clerk of the
12 Board of Supervisors is hereby directed to transmit to the California Building Standards
13 Commission pursuant to the applicable provisions of State law 1) this ordinance, 2) the Exhibit
14 A attachment, and 3) the San Francisco modifications to the 2019 California Building Code
15 and the 2019 California Residential Code.

LEGISLATIVE DIGEST

[Building Code - Repeal of Existing 2016 Code and Enactment of 2019 Edition]

Ordinance repealing the 2016 Building Code in its entirety and enacting a 2019 Building Code consisting of the 2019 California Building Code and the 2019 California Residential Code, as amended by San Francisco; adopting environmental findings and findings of local conditions under the California Health and Safety Code; providing for an operative date of January 1, 2020; and directing the Clerk of the Board to forward the legislation to the California Building Standards Commission as required by State law.

Existing Law

The Building Code regulates and controls the design, construction, quality of materials, use and occupancy, location, maintenance and demolition of all buildings and structures, and quarrying, grading, excavation and filling of land. The current San Francisco Building Code consists of the 2016 California Building Code (which incorporates the 2015 International Building Code), the 2016 California Residential Code (which incorporates the 2015 International Residential Code), and San Francisco's local amendments to those California Codes ("San Francisco Amendments"). Chapter 36 of the San Francisco Building Code serves as a directory of where the provisions of the California Residential Code may be found in the San Francisco Building Code.

Amendments to Current Law

On January 1, 2020, a 2019 California Building Code and 2019 California Residential Code ("California Codes") will go into effect throughout the State. The San Francisco Amendments to the 2016 editions of these California Codes must be re-enacted and made applicable to the 2019 California Codes. Therefore, as in past State Code adoption cycles, San Francisco will repeal its existing Building Code in its entirety and adopt a new Building Code consisting of the new model code, as amended by the State of California, and as further amended by San Francisco. The San Francisco Amendments to the 2016 California Codes will be carried forward and made applicable to the 2019 California Codes with no or only minor technical changes.

The San Francisco Amendments are not integrated into the text of the California Codes but rather are separately printed in a stand-alone document. Therefore, the user must consult both texts in order to determine the complete code requirement. In the San Francisco Amendments, unchanged language from the 2019 California Codes is shaded gray, San Francisco's additions to the 2019 California Codes are shown in unshaded text, additions to San Francisco's amendments are underlined and deletions are shown with strikethrough.

Background Information

The State of California adopts a new California Building Standards Code every three years (the “triennial State Code”) with supplements published in intervening years. The triennial State Code goes into effect throughout the State 180 days after its publication by the California Building Standards Commission or at a later date established by the Commission. In the current triennial State Code adoption cycle, the California Building Standards Code will go into effect on January 1, 2020. The California Building Standards Code is contained in Title 24 of the California Code of Regulations, and consists of several parts that are based upon model codes with amendments made by the State agencies with jurisdiction over the subject matter. The California Building Code is Part 2 of Title 24 of the California Code of Regulations; the California Residential Code is Part 2.5.

Local jurisdictions must enforce the California Building Standards Code, but they may also enact more restrictive building standards that are reasonably necessary because of local conditions caused by climate, geology, or topography. Local amendments may be made to a triennial State Code and also throughout the intervening years. However, local amendments previously adopted are not automatically applicable to a new triennial State Code. Rather, they must be re-enacted with the required findings of local conditions, expressly made applicable to the new triennial State Code, and with an operative date no earlier than the effective date of the new State Code.

2 reasonably necessary because of specified local conditions. The local amendments together
3 with the required findings must be filed with the California Building Standards Commission
4 before the local changes or modifications can go into effect.

5 (b) The City and County of San Francisco is unique among California communities

11 (c) Pursuant to California Health and Safety Code Sections 17958.7 and 18941.5,

LEGISLATIVE DIGEST

[Existing Building Code – Repeal of Existing 2016 Code and Enactment of 2019 Edition]]

Ordinance repealing the 2016 Existing Building Code in its entirety and enacting a 2019 Existing Building Code consisting of the 2019 California Existing Building Code as amended by San Francisco; adopting environmental findings and findings of local conditions under the California Health and Safety Code; providing for an operative date of January 1, 2020; and directing the Clerk of the Board of Supervisors to forward the legislation to the California Building Standards Commission as required by State law.

Existing Law

The Existing Building Code regulates additions, alterations, or repairs to existing buildings, structures, and property. The current San Francisco Existing Building Code consists of the 2016 California Existing Building Code and San Francisco's local amendments to the California Existing Building Code.

Amendments to Current Law

Every three years the State of California adopts a new California Building Standards Code ("triennial CBSC"), which amends the California Existing Building Code and the other state codes that constitute the CBSC. The 2019 triennial CBSC will go into effect throughout the State on January 1, 2020. As in past triennial CBSC adoption cycles, San Francisco will repeal its current Existing Building Code in its entirety and adopt a new Existing Building Code that applies San Francisco's existing local amendments to the new California Existing Building Code. Except for non-substantive or technical modifications required by amendments to the state code, there are no changes to the existing San Francisco Existing Building Code amendments being carried forward.

Background Information

Local jurisdictions are required to enforce the California Building Standards Code but they may also enact more restrictive building standards that are reasonably necessary because of local climate, geology, or topography. Local amendments may be made to a triennial CBSC and also throughout the intervening years. However, local amendments previously adopted are not automatically transferred to a new triennial CBSC. Rather, they must be re-enacted with the required findings of local climate, geologic, or topographical conditions, expressly made applicable to the new triennial CBSC, and with an operative date no earlier than the effective date of the new State Code.

8 a section-by-section correlation of each modification with a specific numbered finding, are
9 contained in Exhibit A entitled "Standard Findings for San Francisco Building Standards Code
10 Amendments."

11 (c) Pursuant to California Health and Safety Code Sections 17958.7 and 18941.5,

13 constitute a general summary of the most significant local conditions giving rise to the need
14 for modification of the 2019 California Electrical Code provisions published by the California
15 Building Standards Commission. The Board of Supervisors further finds and determines that
16 the proposed modifications are reasonably necessary based upon the local conditions set
17 forth in Exhibit A.

15 accrue, or as waiving any right of the City under any such ordinance.

16
17 Section 6. Severability. If any section, subsection, sentence, clause, or phrase of this
18 ordinance is, for any reason, held to be invalid, such decision shall not affect the validity of the

LEGISLATIVE DIGEST

[Electrical Code - Repeal of Existing 2016 Code and Enactment of 2019 Edition]

Ordinance repealing the 2016 Electrical Code in its entirety and enacting a 2019 Electrical Code consisting of the 2019 California Electrical Code as amended by San Francisco; adopting environmental findings and findings of local conditions under the California Health and Safety Code; providing an operative date of January 1, 2020; and directing the Clerk of the Board of Supervisors to forward the legislation to the California Building Standards Commission as required by State law.

Existing Law

The Electrical Code regulates equipment, wiring, and systems of electrical installations. The existing San Francisco Electrical Code consists of the 2016 California Electrical Code (which incorporates the 2014 National Electrical Code as amended by California) and San Francisco's local amendments to the California Electrical code.

Amendments to Current Law

Every three years the State of California adopts a new California Building Standards Code ("triennial CBSC"), which amends the California Electrical Code and the other state codes that constitute the CBSC. The 2019 triennial CBSC will go into effect throughout the State on January 1, 2020. As in past triennial CBSC adoption cycles, San Francisco will repeal its existing Electrical Code in its entirety and adopt a new Electrical Code that applies San Francisco's existing local amendments to the new California Electrical Code. Except for non-substantive or technical modifications required by amendments to the state code, there are no changes to the existing San Francisco Electrical Code amendments being carried forward.

Background Information

Local jurisdictions are required to enforce the California Building Standards Code but they may also enact more restrictive building standards that are reasonably necessary because of local climate, geology, or topography. Local amendments may be made to a triennial CBSC and also throughout the intervening years. However, local amendments previously adopted are not automatically transferred to a new triennial CBSC. Rather, they must be re-enacted with the required findings of local climate, geologic, or topographical conditions, expressly made applicable to the new triennial CBSC, and with an operative date no earlier than the effective date of the new State Code.

18 actions contemplated in this ordinance comply with the California Environmental Quality Act
19 (California Public Resources Code Sections 21000 et seq.). Said determination is on file with

21 reference. The Board affirms this determination.

22 Section 2. General Findings.

23 (a) The California Building Standards Code is contained in Title 24 of the California
24 Code of Regulations. It consists of 12 Parts, which are based upon model codes that are
25 amended by the State agencies with jurisdiction over the subject matter. The California
Mechanical Code is Part 4 of Title 24 of the California Code of Regulations.

1 (b) The State of California adopts a new California Building Standards Code every

5 the Commission. The 2019 triennial CBSC will go into effect on January 1, 2020.

6 (c) Local jurisdictions must enforce the California Building Standards Code but they
7 may also enact more restrictive building standards that are reasonably necessary because of
8 local climate, geologic, or topographical conditions. Local amendments may be made both to
9 a triennial CBSC and to its individual Parts during the intervening years; however, local
10 amendments previously adopted are not automatically applicable to a triennial CBSC. Rather,
11 they must be re-enacted with the required findings of local climate, geologic, or topographical
12 conditions, expressly made applicable to the new triennial CBSC, and with an operative date
13 no earlier than the effective date of the triennial CBSC.

14 (d) As in past triennial CBSC adoption cycles, by this ordinance the Board of
15 Supervisors repeals the 2016 San Francisco Mechanical Code in its entirety, enacts the 2019
16 San Francisco Mechanical Code, and re-enacts the existing local amendments to make them
17 applicable to the 2019 California Mechanical Code.

18 (e) Pursuant to Charter Section D3.750-5, the Building Inspection Commission
19 considered and approved San Francisco’s amendments to the 2019 California Mechanical
20 Code at a duly noticed public hearing that was held on July 17, 2019.

2 reasonably necessary because of specified local conditions. The local amendments together
3 with the required findings must be filed with the California Building Standards Commission
4 before the local changes or modifications can go into effect.

11 (c) Pursuant to California Health and Safety Code Sections 17958.7 and 18941.5,

13 constitute a general summary of the most significant local conditions giving rise to the need

19 Section 4. Repeal of 2016 San Francisco Mechanical Code and Enactment of the
20 2019 San Francisco Mechanical Code.

21 (a) The 2016 San Francisco Mechanical Code is hereby repealed in its entirety. The
22 San Francisco Mechanical Code being repealed was enacted on November 22, 2016, by

7 may also enact more restrictive building standards that are reasonably necessary because of
8 local climate, geologic, or topographical conditions. Local amendments may be made both to
9 a triennial CBSC and also to its individual Parts during the intervening years; however, local
10 amendments previously adopted are not automatically applicable to a triennial CBSC. Rather,
11 they must be re-enacted with the required findings of local climate, geologic, or topographical
12 conditions, expressly made applicable to the new triennial CBSC, and with an operative date
13 no earlier than the effective date of the new State Code.

14 (d) As in past triennial CBSC adoption cycles, by this ordinance the Board of
15 Supervisors repeals the 2016 San Francisco Green Building Code in its entirety, enacts the
16 2019 San Francisco Green Building Code, and re-enacts the existing local amendments to
17 make them applicable to the 2019 California Green Building Standards Code.

18 (e) Pursuant to Charter Section D3.750-5, the Building Inspection Commission
19 considered and approved San Francisco's amendments to the 2019 California Green Building
20 Standards Code at a duly noticed public hearing that was held on July 17, 2019.

21
22 Section 3. Findings regarding Local Conditions.

23 (a) California Health and Safety Code Sections 17958.7 and 18941.5 provide that
24 before making any changes or modifications to the California Green Building Code and any
25 other applicable provisions published by the California Building Standards Commission, the

1 governing body must make an express finding that each such change or modification is
2 reasonably necessary because of specified local conditions. The local amendments together
3 with the required findings must be filed with the California Building Standards Commission
4 before the local changes or modifications can go into effect.

5 (b) The City and County of San Francisco is unique among California communities
6 with respect to local climate, geologic, topographical, and other conditions. A specific list of
7 findings that support San Francisco's modifications to the 2019 California Green Building
8 Standards Code, with a section-by-section correlation of each modification with a specific
9 numbered finding, are contained in Exhibit A entitled "Standard Findings for San Francisco
10 Building Standards Code Amendments."

11 (c) Pursuant to California Health and Safety Code Sections 17958.7 and 18941.5,
12 the Board of Supervisors finds and determines that the local conditions described in Exhibit A
13 constitute a general summary of the most significant local conditions giving rise to the need
14 for modification of the 2019 California Green Building Standards Code provisions published by
15 the California Building Standards Commission. The Board of Supervisors further finds and
16 determines that the proposed modifications are reasonably necessary based upon the local
17 conditions set forth in Exhibit A.

18
19 Section 4. Findings Required by California Public Resources Code and Title 24 of the
20 California Code of Regulations.

21 (a) Public Resources Code Section 25402.1(h)(2) and Section 10-106 of the
22 California Code of Regulations, Title 24, Part 1, Locally Adopted Energy Standards, authorize
23 a local jurisdiction to adopt and enforce more restrictive local energy standards, provided that
24 the local jurisdiction makes a determination that the local standards are cost effective and will
25 save more energy than the current Statewide standards and provided further that the local

1 jurisdiction files an application for approval with the California Energy Commission together
2 with documentation supporting the cost-effectiveness determination. Local energy standards
3 may take effect only after the California Energy Commission has reviewed and formally
4 approved them.

5 (b) Local energy standards previously adopted are not automatically applicable to a
6 triennial CBSC. Rather, they must be re-enacted with a new cost-effectiveness study and
7 determination based on the new State standards, and be re-approved by the California
8 Energy Commission.

9 (c) Based upon the findings of a cost-effectiveness study performed on the more
10 restrictive local standards contained in the City's proposed 2019 San Francisco Green
11 Building Code, the Board of Supervisors hereby determines that these local energy standards
12 are cost effective and will save more energy than the standards contained in the 2019
13 California Green Building Standards Code. A copy of the cost-effectiveness study is on file
14 with the Clerk of the Board of Supervisors in File No. _____ .
15

16 Section 5. Repeal of 2016 San Francisco Green Building Code and Enactment of the
17 2019 San Francisco Green Building Code.

18 (a) The 2016 San Francisco Green Building Code is hereby repealed in its entirety.
19 The San Francisco Green Building Code being repealed was enacted on November 22, 2016,
20 by Ordinance No. 229-16, with an operative date of January 1, 2017. It was amended by
21 Ordinance No. 92-17. These ordinances are available on the Board of Supervisors' website.

22 (b) The 2019 San Francisco Green Building Code is hereby enacted. It consists of
23 the 2019 California Green Building Standards Code and San Francisco's existing local
24 amendments, which are re-enacted and expressly made applicable to the 2019 California
25 Green Building Standards Code. Copies of the 2019 California Green Building Standards

1 Code and the stand-alone San Francisco amendments are declared to be part of Board File
2 No. _____ and are incorporated into this ordinance by reference as though fully set forth.
3 Existing San Francisco amendments that are being made applicable to the 2019 California
4 Green Building Standards Code are shown in unformatted (“plain”) text and may include bold
5 and/or italicized type; new San Francisco amendments are underlined; and deleted San
6 Francisco amendments are in strikeout text.

7
8 Section 6. Continuance of Actions Under Prior Code. Nothing contained in this
9 ordinance shall be construed as abating any action now pending under or by virtue of any
10 ordinance of the City and County of San Francisco hereby repealed, nor shall this ordinance
11 be construed as discontinuing, abating, modifying or altering any penalties accruing, or to
12 accrue, or as waiving any right of the City under any such ordinance.

13
14 Section 7. Severability. If any section, subsection, sentence, clause, or phrase of this
15 ordinance is, for any reason, held to be invalid, such decision shall not affect the validity of the
16 remaining portions of this ordinance. The Board of Supervisors hereby declares that it would
17 have passed this ordinance, and each section, subsection, sentence, clause, or phrase of this
18 Ordinance, irrespective of the fact that any one or more sections, subsections, sentences,
19 clauses, or phrases be declared invalid.

20
21 Section 8. Effective and Operative Dates. This ordinance shall become effective 30
22 days after enactment. Enactment occurs when the Mayor signs the ordinance, the Mayor
23 returns the ordinance unsigned or does not sign the ordinance within ten days of receiving it,
24 or the Board of Supervisors overrides the Mayor’s veto of the ordinance. This ordinance shall
25

1 take effect and be in full force on and after either January 1, 2020 or its effective date if the
2 effective date is later.

3
4 Section 9. Directions to Clerk. Upon final passage of this ordinance, the Clerk of the
5 Board of Supervisors is hereby directed to transmit to the California Building Standards
6 Commission pursuant to the applicable provisions of State law 1) this ordinance, 2) the Exhibit
7 A attachment, and 3) the San Francisco modifications to the 2019 California Green Building
8 Standards Code.

LEGISLATIVE DIGEST

[Green Building Code - Repeal of Existing 2016 Code and Enactment of 2019 Edition]

Ordinance repealing the 2016 Green Building Code in its entirety and enacting a 2019 Green Building Code consisting of the 2019 California Green Building Standards Code as amended by San Francisco; adopting environmental findings and findings of local conditions under the California Health and Safety Code; providing for an operative date of January 1, 2020; and directing the Clerk of the Board of Supervisors to forward the legislation to the California Building Standards Commission as required by State law.

Existing Law

The Green Building Code enhances the design and construction of buildings through the use of building concepts having a reduced negative impact or positive environmental impact. The Code encourages sustainable construction practices in the categories of: planning and design, energy efficiency, water efficiency and conservation, material conservation and resource efficiency, and environmental quality. The current San Francisco Green Building Code consists of the 2016 California Green Building Standards Code and San Francisco's local amendments to the 2016 California Green Building Standards Code ("San Francisco Amendments").

Amendments to Current Law

On January 1, 2020, a 2019 California Green Building Standards Code (also known as CalGreen) will go into effect throughout the State. The San Francisco Amendments to the 2016 California Code must be re-enacted and made applicable to the 2019 California Code. Therefore, as in past State Code adoption cycles, San Francisco will repeal its existing Green Building Code in its entirety and adopt a new Green Building Code consisting of the 2019 California Green Building Standards Code and San Francisco's local amendments to the 2016 California Green Building Standards Code ("San Francisco Amendments"). The San Francisco Amendments to the 2016 California Green Building Standards Code will be carried forward and made applicable to the 2019 California Green Building Standards Code with no or only minor technical changes.

The San Francisco Amendments are not integrated into the text of the California Codes but rather are separately printed in a stand-alone document. Therefore, the user must consult both texts in order to determine the complete code requirement. In the San Francisco Amendments, unchanged language from the 2019 California Green Building Standards Code is shaded gray, San Francisco's additions to the 2019 California Green Building Standards Code are shown in unshaded text, new (minor and technical) additions to San Francisco's amendments are underlined and deletions are shown with strikethrough.

Background Information

The State of California adopts a new California Building Standards Code every three years (the “triennial State Code”) with supplements published in intervening years. The triennial State Code goes into effect throughout the State 180 days after its publication by the California Building Standards Commission or at a later date established by the Commission. In the current triennial State Code adoption cycle, the California Building Standards Code will go into effect on January 1, 2017. The California Building Standards Code is contained in Title 24 of the California Code of Regulations, and consists of several parts that are based upon model codes with amendments made by the State agencies with jurisdiction over the subject matter. The California Green Building Standards Code is Part 11 of Title 24 of the California Code of Regulations.

Local jurisdictions must enforce the California Building Standards Code but they may also enact more restrictive building standards that are reasonably necessary because of local conditions caused by climate, geology, or topography. Local amendments may be made to a triennial State Code and also throughout the intervening years. However, local amendments previously adopted are not automatically applicable to a new triennial State Code. Rather, they must be re-enacted with the required findings of local conditions, expressly made applicable to the new triennial State Code, and with an operative date no earlier than the effective date of the new State Code.
