The fee to be assessed per year is \$344 under each of the scenarios.

### Amendments to Current Law

The proposed legislation would increase the licensing fees assessed for the specified permits issued by the Fire Department from \$344 to \$359 per year, except for the fee for public and open air assemblies, where the fee would increase from \$564 to \$589, to allow for evening and off-hours inspections.

### Background Information

The current fees set in these sections do not cover the costs to the Fire Department of providing the services. The proposed fee increase will cover those costs.
