

Vincent Yuen

Vince Yuen is the founder of Refuse Refuse San Francisco, a grassroots volunteer effort dedicated to keeping San Francisco Clean. Since April 2021, the campaign has organized over 1,200 neighborhood cleanups and removed over 300,000 gallons of trash from the streets, parks, and beaches of San Francisco.

Vince started picking up trash with his two young daughters on the block they live on in the Richmond District and then began looking for others who wanted to help. He ultimately discovered that caring for San Francisco is his greatest passion. Vince is focused on keeping the city clean by supporting neighborhood cleanups and educating the general public on available resources, while also building community through civic engagement and volunteerism.

Mr. Yuen holds a Master's in Business from UC San Diego's Rady School of Management, where he was President of the Rady Entrepreneur Club.
