23 Be it ordained by the People of the City and County of San Francisco:
24
25

1 Section 1. On April 26, 2012, the City Planning Commission
2 conducted a duly noticed public hearing on various actions related to the Near-Term Projects
3 proposed in California Pacific Medical Center's Long Range Development Plan, including on
4 the proposed sidewalk width changes. Pursuant to San Francisco Charter Section 4.105, the
5 Planning Commission found by Motion No. 10592 + 10600 that the sidewalk width changes
6 were consistent with the City's General Plan, as proposed to be amended, and the eight
7 priority policies of Planning Code Section 101.1. A copy of said Motion is on file with the Clerk
8 of the Board of Supervisors in File No. 120364. The Board of Supervisors adopts
9 said consistency findings as its own, finds the proposed sidewalk width changes are, on
10 balance, consistent with the General Plan, as proposed to be amended, and with the eight
11 Priority Policies of Planning Code Section 101.1, for the reasons set forth in Planning
12 Commission Motion No. 10592 + 10600, and the Board hereby incorporates such findings
13 by reference as though fully set forth herein.

14 Section 2. At its hearing on April 26, 2012, the Planning
15 Commission certified by Motion No. 10590 a Final Environmental Impact Report
16 ("FEIR") for the LRDP pursuant to the California Environmental Quality Act (California Public
17 Resources Code Sections 21000 et seq.) ("CEQA"), the CEQA Guidelines (14 Cal. Code Reg.
18 Sections 15000 et seq.) and Chapter 31 of the Administrative Code. A copy of Planning
19 Commission Motion No. 10590 is on file with the Clerk of the Board of Supervisors in
20 File No. 120357. In accordance with the actions contemplated herein, this Board has
21 reviewed the FEIR, and adopts and incorporates by reference as though fully set forth herein
22 the findings, including the statement of overriding considerations and mitigation monitoring and
23 reporting program, adopted by the Planning Commission on April 26, 2012,
24 pursuant to CEQA, in Motion No. 10599. Said Motion is on file with the Clerk of the
25 Board of Supervisors in File No. 120357, and is incorporated herein by reference.

1 Section 3. In accordance with the Department of Public Works' Order No. 180165,
2 a copy of which is in the Clerk of the Board of Supervisors File No. 120364 and
3 incorporated herein by reference, Board of Supervisors Ordinance No.1061, entitled
4 "Regulating the Width of Sidewalks," a copy of which is in the Clerk of the Board of
5 Supervisors Book of General Ordinances, in effect May 11, 1910, is hereby amended by
6 adding thereto a new section to read as follows:

7 Section 1596. The official sidewalk width of (a) the southerly side of Post Street starting at the
8 southeast intersection with Franklin Street continuing east to the southwest intersection with Van Ness
9 Avenue; (b) the northerly side of Geary Boulevard starting at the northeast intersection with Franklin
10 Street continuing east to the northwest intersection with Van Ness Avenue; (c) the northerly side of
11 Geary Street starting at the northeast intersection of Van Ness Avenue continuing east 325 feet; (d)
12 both sides of Cedar Street starting at the intersection with Van Ness Avenue continuing east to the
13 intersection with Polk Street; (e) the westerly side of Van Ness Avenue starting at the intersection with
14 Geary Boulevard continuing north to the intersection with Post Street; and (f) the easterly side of Van
15 Ness Avenue starting at the intersection with Geary Street continuing north to the intersection of Cedar
16 Street, shall be as shown on Department of Public Works drawing Q-20-699, a copy of which is in the
17 Clerk of the Board of Supervisors File No. 120364.

18 Section 4. The California Pacific Medical Center, as is necessary as a result of this
19 Ordinance, shall make arrangements with public utility companies and City Departments for
20 the relocation, and/or modification of any affected public facilities. Any necessary relocation,
21 modification, or both of such facilities shall be at no cost to the City.

22 Section 5. This section is uncodified. Effective Date and Operative Date. This
23 ordinance shall become effective 30 days from the date of passage. This Ordinance shall
24 become operative only on (and no rights or duties are affected until) the later of (a) 30 days
25 from the date of its passage, or (b) the date that Ordinance No. _____, and Ordinance No.

1 _____ have both become effective. Copies of said Ordinances are on file with the
2 Clerk of the Board of Supervisors in File No. 120450 & 120460

3 Section 6. This section is uncodified. In enacting this Ordinance, the Board intends to
4 amend only those words, phrases, paragraphs, subsections, sections, articles, numbers,
5 punctuation, charts, diagrams, or any other constituent part of Ordinance No. 1061 that are
6 explicitly shown in this legislation as additions, deletions, Board amendment additions, and
7 Board amendment deletions in accordance with the "Note" that appears under the official title
8 of the legislation.

LEGISLATIVE DIGEST

[Changing the Official Sidewalk Widths - Portions of Post Street, Geary Boulevard, Geary Street, Cedar Street, Franklin Street, and Van Ness Avenue - California Pacific Medical Center: Cathedral Hill Campus]

Ordinance: 1) amending Ordinance No. 1061 entitled "Regulating the Width of Sidewalks" by adding thereto Section 1596 to change the official sidewalk width of: a) the southerly side of Post Street starting at the southeast intersection with Franklin Street continuing east to the southwest intersection with Van Ness Avenue; b) the northerly side of Geary Boulevard starting at the northeast intersection with Franklin Street continuing east to the northwest intersection with Van Ness Avenue; c) the northerly side of Geary Street starting at the northeast intersection of Van Ness Avenue continuing east 325 feet; d) both sides of Cedar Street starting at the intersection with Van Ness Avenue continuing east to the intersection with Polk Street; e) the westerly side of Van Ness Avenue starting at the intersection with Geary Boulevard continuing north to the intersection with Post Street; and f) the easterly side of Van Ness Avenue starting at the intersection with Geary Street continuing north to the intersection with Cedar Street; 2) making environmental findings and findings pursuant to the General Plan and Planning Code Section 101.1; and 3) requiring relocation, modification, or both of facilities affected by the sidewalk width change.

Existing Law

Board of Supervisors' Ordinance No. 1061 established the official sidewalk widths for sidewalks throughout San Francisco.

Amendments to Current Law

This ordinance changes the official sidewalk width of certain sidewalks surrounding the CPMC's proposed Cathedral Hill hospital and medical office building. The sidewalk widths to be changed are the south side of Post Street, between Franklin Street and Van Ness Avenue; the north side of Geary Boulevard, between Franklin Street and Van Ness Avenue; the north side of Geary Street, between Van Ness Avenue and just west of Polk Street; both sides of Cedar Street, between Van Ness Avenue and Polk Street; the west side of Van Ness Avenue, between Geary Boulevard and Post Street; and the east side of Van Ness Avenue between Geary Street and Cedar Street.

Background Information

This ordinance is part of a series of ordinances which would allow California Pacific Medical Center ("CPMC") to construct the Cathedral Hill Campus, which is proposed as part of CPMC's Long Range Development Plan. The Cathedral Hill Campus includes a new acute care hospital on the block bounded by Van Ness Avenue, Geary Boulevard, Franklin and Post

FILE NO. 120364

Streets, a new medical office building on the site bounded by Van Ness Avenue, Geary Street, Cedar Street and one property west of Polk Street, and a pedestrian tunnel under Van Ness Avenue to connect the two facilities.

Among other approvals, the Cathedral Hill Campus will also require ordinances to amend the San Francisco General Plan, Planning Code and Zoning Map. CPMC also seeks approval of a development agreement with the City primarily related to the construction of the new hospital and medical office building at the Cathedral Hill Campus, a new medical office building at the Davies Campus, and a new hospital and medical office building at the St. Luke's Campus.

California Pacific Medical Center Long Range Development Plan Project

BOS File No.'s: 120357, 120358, 120359, 120360, 120366, plus *pending* General Plan
Amendment File No's _____ and _____.

Planning Commission Recommendation: Approval

Dear Ms. Calvillo,

Attached please find one original hardcopy plus this electronic transmittal of the proposed General Plan Amendment Ordinances, Planning Code Text Amendment Ordinances, Zoning Map Amendment Ordinances, and a Development Agreement Ordinance (collectively, the "Ordinances") for Board of Supervisors' approval. These Ordinances are associated with the California Pacific Medical Center Long Range Development Plan Project (hereinafter "CPMC LRDP Project"), which is a multi-phased development strategy to meet state seismic safety requirements for hospitals and to create a 20-year framework for CPMC's four existing medical campuses and for construction of a proposed new medical campus (the "Cathedral Hill Campus") in San Francisco. The proposed LRDPs would facilitate the development of certain Near-Term Projects under the CPMC LRDP at CPMC's St. Luke's, Cathedral Hill, and Davies Campuses.

On April 5, 2012, the San Francisco Planning Commission (hereinafter "Commission") conducted a duly noticed public hearing at a regularly scheduled meeting to consider the initiation of the proposed General Plan Amendment Ordinances associated with the CPMC LRDP Project.

On April 10, 2012, the Mayor introduced at the regularly scheduled Board of Supervisors hearing various legislation associated with the CPMC LRDP Project, including the Planning Code Text Amendment Ordinances, Zoning Map Amendment Ordinances, and a Development Agreement Ordinance.

On April 26, 2012, the Commission conducted a duly noticed public hearing at a regularly scheduled meeting to consider the proposed Ordinances as part of the CPMC LRDP Project.

ADOPTING FINDINGS OF CONSISTENCY WITH THE SAN FRANCISCO GENERAL PLAN AND PLANNING CODE SECTION 101.1 FOR THE CALIFORNIA PACIFICA MEDICAL CENTER'S LONG RANGE DEVELOPMENT PLAN TO ALLOW THE IMPLEMENTATION OF THE NEAR-TERM PROJECTS AND THE LEGISLATION ASSOCIATED THEREWITH, ALONG WITH THE DEVELOPMENT AGREEMENT ("PROJECT"), AT THE CATHEDRAL HILL CAMPUS (ASSESSOR'S BLOCKS-LOTS: 0690-016, 0694-005, 0694-006, 0694-007, 0694-008, 0694-009, 0694-009A, 0694-010, 0695-005, 0695-006); St. LUKE'S CAMPUS (ASSESSOR'S BLOCKS-LOTS 6575/001, 002; 6576/021 AND A PORTION OF SAN JOSE AVENUE BETWEEN CESAR CHAVEZ STREET AND 27TH STREET) AND THE DAVIES CAMPUS (ASSESSOR' BLOCK-LOTS 3539-001), AND INCLUDING ENVIRONMENTAL FINDINGS.

PREAMBLE

The CPMC Long Range Development Plan ("LRDP") is a multi-phased development strategy to meet state seismic safety requirements for hospitals mandated originally in 1994 by Senate Bill ("SB") 1953 as modified through successor legislation, and to create a 20-year framework for CPMC's four existing medical campuses and for construction of a proposed new medical campus in San Francisco.

The four existing CPMC medical campuses are the St. Luke's Campus in the Mission District, Pacific Campus in the Pacific Heights area, the California Campus in the Presidio Heights area, and the Davies Campus in the Duboce Triangle area. The proposed new medical campus is the Cathedral Hill

ADOPTING FINDINGS RELATING TO THE DETERMINATION THAT: (1) GRANTING REVOCABLE PERMISSION TO THE CALIFORNIA PACIFIC MEDICAL CENTER (A) TO OCCUPY A PORTION OF THE PUBLIC RIGHT-OF-WAY ON VAN NESS AVENUE IN ORDER TO CONSTRUCT AND MAINTAIN A PEDESTRIAN TUNNEL UNDER VAN NESS AVENUE (STATE HIGHWAY 101) TO CONNECT THE NEW MEDICAL OFFICE BUILDING AND THE NEW HOSPITAL LOCATED AT 1100 AND 1101 VAN NESS AVENUE RESPECTIVELY; (B) TO CONSTRUCT AND MAINTAIN OFF-SITE IMPROVEMENTS ON THE NORTH SIDE OF CEDAR STREET BETWEEN VAN NESS AVENUE AND POLK STREET, ACROSS THE STREET FROM THE MEDICAL OFFICE BUILDING AND ON THE SOUTH SIDE OF CEDAR STREET CONTIGUOUS TO THE PROPERTY AT 1001 POLK STREET (BLOCK 0694, LOT 004), INCLUDING RECONSTRUCTING AND WIDENING THE EXISTING SIDEWALK, INSTALLING NEW LANDSCAPING AND RECONSTRUCTING THE EXISTING ROADWAY WITH PAVERS; AND (C) TO INSTALL AND MAINTAIN TWO 30,000 GALLON DIESEL FUEL TANKS WITHIN THE PUBLIC RIGHT OF WAY UNDER GEARY BOULEVARD BETWEEN FRANKLIN STREET AND VAN NESS AVENUE, IN ORDER TO SERVE THE HOSPITAL AT 1101 VAN NESS AVENUE; AND (2) CHANGING THE OFFICIAL SIDEWALK WIDTH OF: (A) THE SOUTHERLY SIDE OF POST STREET BETWEEN

FRANKLIN STREET AND VAN NESS AVENUE; (B) THE NORTHERLY SIDE OF GEARY BOULEVARD BETWEEN FRANKLIN STREET AND VAN NESS AVENUE; (C) THE NORTHERLY SIDE OF GEARY STREET STARTING AT VAN NESS AVENUE CONTINUING EAST 325 FEET; (D) BOTH SIDES OF CEDAR STREET STARTING AT THE INTERSECTION WITH VAN NESS AVENUE CONTINUING EAST TO POLK STREET; (E) THE WESTERLY SIDE OF VAN NESS AVENUE STARTING FROM GEARY BOULEVARD TO POST STREET; AND (F) THE EASTERLY SIDE OF VAN NESS AVENUE BETWEEN GEARY STREET AND CEDAR STREET; IN ASSOCIATION WITH THE DEVELOPMENT OF THE NEW CATHEDRAL HILL MEDICAL CENTER CAMPUS, WOULD BE CONSISTENT WITH THE OBJECTIVES AND POLICIES OF THE GENERAL PLAN AND THE PRIORITY POLICIES OF PLANNING CODE SECTION 101.1; AND MAKING AND ADOPTING ENVIRONMENTAL FINDINGS.

PREAMBLE

On June 10, 2005, Ralph F. Marchese of The Marchese Company, Inc., on behalf of the California Pacific Medical Center (hereinafter referred to variously as "CPMC" and "Project Sponsor"), submitted an Environmental Evaluation Application ("EEA") with the Planning Department ("Department"), Case No. 2005.0555E¹. The Department issued a Notice of Preparation of Environmental Review on July 1, 2006, to owners of properties within 300 feet, adjacent tenants, and other potentially interested parties. However, as planning for the CPMC Long Range Development Plan ("LRDP") continued, additional components were added to the LRDP that resulted in a reissuance of a revised NOP for a 30-day public review period on May 27, 2009.

On July 21, 2010, the Draft Environmental Impact Report ("DEIR") for CPMC's LRDP Project, including the new Cathedral Hill Hospital and Cathedral Hill Medical Office Building ("Cathedral Hill MOB"), was prepared and published for public review, and was available for public comment until October 19, 2010.

On September 23, 2010, the Planning Commission ("Commission") conducted a duly noticed public hearing at a regularly scheduled meeting to solicit comments regarding the DEIR. On March 29, 2012, the Department published a Comments and Responses ("C&R") document, responding to comments made regarding the DEIR prepared for the LRDP. Together, the Comments and Responses document, the DEIR, and any Errata Sheets, (the Appendices to the DEIR and C&R document), Department staff testimony and responses to questions and comments at the Commission's April 26, 2012, public hearing regarding certification of the Final EIR, and all of the supporting information that has been reviewed and considered by the Department comprise the Final EIR for the LRDP ("FEIR").

On April 26, 2012, the Commission reviewed and considered the FEIR and found that the contents of said report and the procedures through which the FEIR was prepared, publicized, and reviewed complied with the California Environmental Quality Act (California Public Resources Code Sections 21000 *et seq.*) ("CEQA"), 14 California Code of Regulations Sections 15000 *et seq.* (the "CEQA Guidelines"), and Chapter 31 of the San Francisco Administrative Code ("Chapter 31").

¹ At the time of this application, the Cathedral Hill Hospital site was within the boundaries, and was governed by the land use controls, of the Western Addition A-2 Plan. Those controls expired on January 1, 2009.

The Commission found the FEIR was adequate, accurate and objective, reflected the independent analysis and judgment of the Department and the Commission, and that the summary of comments and responses contained no significant revisions to the DEIR, and certified the FEIR for the LRDP Project in compliance with CEQA, the CEQA Guidelines and Chapter 31.

The Planning Department, Linda Avery, is the custodian of records, located in the File for Case No. 2005.0555E, at 1650 Mission Street, Fourth Floor, San Francisco, California.

Department staff prepared a Mitigation Monitoring and Reporting Program ("MMRP") for the LRDP Project, which material was made available to the public and this Commission for this Commission's review, consideration and action.

On April 26, 2012, the Commission (1) adopted Motion No. 18588 certifying the FEIR as accurate, adequate and complete, (2) adopted Motion No. 18589, adopting CEQA findings, including a Statement of Overriding Considerations, and adopting the MMRP, and (3) adopted other Motions and Resolutions with respect to the LRDP Project.

On June 10, 2010, the Project Sponsor submitted a request, as modified by subsequent submittals, to amend the following sections of the General Plan: (1) the text of the Van Ness Area Plan to support a high density medical center at the intersection of Van Ness Avenue and Geary Boulevard that is consistent with the City's Better Streets Plan; (2) "Map 1 - Generalized Land Use and Density Plan" of the Van Ness Area Plan to designate the sites proposed for the new Cathedral Hill Hospital and Cathedral Hill MOB as "The Van Ness Medical Use Subdistrict", and to increase the allowable floor area ratio ("FAR") for the Cathedral Hill Hospital site from 7:1 to 9:1, and to increase the allowable FAR for the Cathedral Hill MOB site from 7:1 to 7.5:1; (3) "Map 2 - Height and Bulk Districts" of the Van Ness Area Plan to create a 265-V Height and Bulk District coterminous with the Cathedral Hill Hospital site, in order to amend the height limit for the Cathedral Hill Hospital site from 130'-0" to 265'-0"; (4) "Map 4 - Height Map" of the Urban Design Element, to reflect a maximum height applicable to the Cathedral Hill Hospital site of 265'-0"; and (5) "Map 5 - Bulk Map" of the Urban Design Element, to reflect the proposed maximum plan and maximum diagonal plan dimensions allowed for the Cathedral Hill Hospital and MOB sites, of 385'-0" maximum plan and 466'-0" maximum diagonal plan dimensions for the Cathedral Hill Hospital site, and 265'-0" maximum plan and 290'-0" maximum diagonal plan dimensions for the Cathedral Hill MOB site (2009.0885M).

On June 10, 2010, the Project Sponsor submitted a request, as modified by subsequent submittals, to amend the following sections of the San Francisco Planning Code: (1) Section 243, the Van Ness Special Use District, to create a new Van Ness Medical Use Subdistrict, that would allow an FAR up to 9:1 for the Cathedral Hill Hospital site and 7.5:1 for the Cathedral Hill MOB site; allow modification of otherwise applicable standards for building projections to allow for coverage of drop-off and entry areas required by medical facilities; allow modification of otherwise applicable standards for obstructions over streets or alleys for vertical dimension and horizontal projections to allow architectural features that achieve appropriate articulation of building facades and that reduce pedestrian level wind currents; allow modification through Conditional Use authorization of otherwise applicable standards for street frontage

requirements as necessary for large-plate medical facilities on sloping sites with multiple frontages; allow modification through Conditional Use authorization of otherwise applicable parking standards for medical centers, provided that the amount of parking shall not exceed 150% of the number of spaces otherwise allowed by the Planning Code; allow modification of otherwise applicable loading standards for medical centers; and to allow modification through Conditional Use authorization of otherwise applicable bulk standards to allow for the unique massing requirements of medical facilities. (Case No. 2009.0885T).

On June 10, 2010, the Project Sponsor submitted a request, as modified by subsequent submittals, to amend the following Zoning Maps of the San Francisco Planning Code: (1) Map HT02 to reclassify the Cathedral Hill Hospital site from 130-V to 265-V Height and Bulk District; and (2) Map SU02 to show the boundaries of the Van Ness Medical Use Subdistrict (Case No. 2009.0885Z).

On June 10, 2010, the Project Sponsor filed an application, as modified by subsequent submittals, with the Department for Conditional Use Authorization to allow (1) the Cathedral Hill Hospital and MOB as a medical center use in the RC-4 District and pursuant to the provisions for the Van Ness Special Use District ("VNSUD"); (2) allow construction of buildings over 50'-0" in an RC-4 District; (3) authorize demolition of five residential dwelling-units at the Cathedral Hill MOB site; (4) modify standards for active ground floor uses and width of curb cuts; (5) provide an exception to allow wind speeds greater than 11 mph at certain sidewalk locations around the perimeter of the Cathedral Hill Campus; (6) modify the bulk limits applicable to the Cathedral Hill Hospital and MOB sites; and (7) modify the 3:1 residential to net new non-residential ratio requirement in the VNSUD, pursuant to Planning Code Sections ("Sections") 145.1, 209.3, 243, 253, 270, 271, 303, and 317.

On June 10, 2010, the Project Sponsor submitted an application to the Department, as modified by subsequent submittals, for the allocation of Office Space for approximately 194,000 sf of medical office space along with ancillary hospital and medical support service space on the upper floors of the proposed Cathedral Hill MOB (Case No. 2009.0885B).

On March 30, 2012, the Project Sponsor submitted an Application for a Development Agreement relating to the construction and reconstruction of health care facilities in furtherance of CPMC's LRDP by and between the City and County of San Francisco and CPMC, pursuant to Administrative Code Section 56.4. This Application was endorsed and accepted as complete by the Planning Director on April 4, 2012.

On April 28, 2011, the Project Sponsor submitted a request, as modified by subsequent submittals, for a General Plan Referral, Case No. 2009.0885R, regarding construction of the pedestrian tunnel that would connect the Cathedral Hill Hospital and MOB sites below grade under Van Ness Avenue, installation of two diesel fuel tanks under the Geary Boulevard sidewalk at the Cathedral Hill Hospital site; and sidewalk widening along various streets adjacent to the Cathedral Hill Campus (2009.0885R).

On April 5, 2012, the Commission conducted a duly noticed public hearing at a regularly scheduled meeting and adopted Resolution No. 18571, initiating the requested General Plan Amendments.

**Motion No. 18600
April 12, 2012**

**CASE NO's. 2005.0555E; 2009.0885EMTZCBRSK; 2012.0403W
1101 Van Ness Avenue**

On April 10, 2012, the Mayor, at the Board of Supervisors hearing, introduced the (1) Planning Code Text Amendments in Board File No. 120357; (2) the Zoning Map Amendments in Board File No. 120359, (3) the street encroachment ordinance in Board File No. 120362, (4) the Development Agreement in Board File No. 120366, and (5) sidewalk width legislation in Board File No. 120364.

On April 26, 2012, the Commission adopted Motion No. 18589, adopting CEQA findings, including a Statement of Overriding Considerations, and adopting the MMRP, which findings and adoption of the MMRP are hereby incorporated by reference as though fully set forth herein.

On April 26, 2012, the Planning Commission conducted a duly noticed public hearing at a regularly scheduled meeting and adopted: (1) Resolution No. 18591, recommending that the Board of Supervisors approved the requested General Plan Amendments; (2) Motion No. 18592, approving the General Plan and Planning Code Section 101.1 Findings; (3) Resolution No. 18597, recommending that the Board of Supervisors approve the requested Planning Code Text and Map Amendments; (4) Motion No. 18598, approving the Conditional Use authorization; (5) Motion No. 18599, approving the Office Allocation; and (6) Resolution No. 18602, recommending that the Board of Supervisors approve the Development Agreement.

On April 26, 2012, the Commission conducted a duly noticed public hearing at a regularly scheduled meeting for the General Plan Referral Application No. 2009.0885EMTZCBRSK.

The Commission has heard and considered the testimony presented to it at the public hearing and has further considered written materials and oral testimony presented on behalf of the applicant, Department staff, and other interested parties.

MOVED, that the Commission hereby adopts the General Plan Referral described in Application No. 2009.0885MTZCBRSK, based on the following findings:

FINDINGS

Having reviewed the materials identified in the preamble above, and having heard all testimony and arguments, this Commission finds, concludes, and determines as follows:

1. The above recitals are accurate and constitute findings of this Commission.
2. **Site Description and Present Use.** The site of the proposed Cathedral Hill Hospital currently contains the Cathedral Hill Hotel and 1255 Post Street office building. The site occupies a full city block – bounded by Van Ness Avenue, Geary Boulevard, Franklin Street, and Post Street – and contains approximately 106,000 square feet of lot area. The site slopes downward to the east along Post Street and Geary Boulevard, and slopes downward to the south along Franklin Street and Van Ness Avenue. The hotel is 10 stories above grade and 176 feet tall, and the adjacent office building is 11 stories above grade and 180'-tall; these buildings are both vacant, and together they contain approximately 381,791gsf of floor area.

The site of the proposed Cathedral Hill MOB is located on the east side of Van Ness Avenue, between Geary and Cedar Streets (Geary Boulevard becomes Geary Street east of Van Ness Avenue). The site contains approximately 36,200 sf of lot area, and slopes downward to the east along Cedar and Geary Streets, and slopes downward to the south along Van Ness Avenue and the eastern edge of the project site near Polk Street. The site currently contains seven parcels with a variety of ground floor commercial uses, five residential dwelling units, and 20 residential hotel units on upper floors. All of these spaces are vacant.

The sites of the future Cathedral Hill Hospital and MOB are located within the RC-4 Zoning District (Residential-Commercial, High Density), Van Ness Special Use District, Van Ness Automobile Special Use District, and 265-V Height and Bulk District.

The RC-4 Zoning District is intended to provide a mixture of high-density dwellings with supporting commercial uses. Hospitals are permitted in this District with Conditional Use authorization.

The Van Ness Avenue Special Use District controls help to implement the objectives and policies of the Van Ness Avenue Plan, which is a part of the General Plan. The key goals of the Van Ness Avenue Plan are to (i) create of a mix of residential and commercial uses along Van Ness Avenue, (ii) preserve and enhance of the pedestrian environment, (iii) encourage the retention and appropriate alteration of architecturally and historically significant and contributory buildings, (iv) conserve the existing housing stock, and (v) enhance the visual and urban design quality of the street. The controls of the special use district include a requirement that new residential uses be provided at a 3:1 ratio to net new nonresidential uses. With a Conditional Use Authorization, this requirement can be modified or waived for institutional uses that serve an important public need that cannot reasonably be met elsewhere in the area.

- 3. Surrounding Properties and Neighborhood.** The neighborhoods surrounding the Cathedral Hill Project site include Cathedral Hill, the Tenderloin, the Polk Street NCD, the Western Addition, Civic Center, Little Saigon, Japantown and Lower Pacific Heights. Although the surrounding neighborhoods contain predominately low- and mid-rise structures, there are a number of large-scale high-rise apartment buildings and several large commercial buildings in the Van Ness Avenue corridor. The Cathedral Hill neighborhood is also known for its prominent houses of worship, including St. Mary's Cathedral, St. Mark's Lutheran Church, First Unitarian Universalist Church of San Francisco, and Hamilton Square Baptist Church.

The Cathedral Hill Project site is at a major transit hub. It is directly accessible to nine Muni Bus lines. The following weekday routes serve the area: 2-Clement, 3-Jackson, 4-Sutter, 19-Polk, 31-Balboa, 38-Geary, 38L-Geary Limited, 47-Van Ness, 49-Van Ness Mission and 76-Union. The Golden Gate Bridge, Highway, and Transportation District provides regional transit services between San Francisco and Marin and Sonoma Counties, with seven Golden Gate Transit bus routes serving the Medical Center area, including two basic routes and five commute routes. The Cathedral Hill Project site is approximately three quarters of a mile from the Civic Center Bay Area Rapid Transit (BART)/Muni station.

The site is also bounded by or in the vicinity of major thoroughfares including Geary Boulevard, Franklin Street and Van Ness Avenue. Van Ness Avenue is the continuation of U.S. 101 Highway through the City, joining, via Lombard Street, the Golden Gate Bridge to the north with the elevated U.S. 101 approximately one mile to the south.

- 4. Project Description.** This approval relates to the items in the General Plan Referral application, but the broader Near-Term Projects are described here for context. The Near-Term Projects outlined in CPMC's LRDP will result in a five campus system with three acute care hospitals – Davies, St. Luke's, and Cathedral Hill – providing approximately 903 licensed beds and three full-service emergency departments (one at each of the acute care hospitals). The Davies Hospital North Tower was retrofitted in 2008 to remain operational to 2030. The St. Luke's Hospital will be replaced by a new hospital built on campus, adjacent to the existing hospital. The California and Pacific Campuses will remain operational as acute care hospitals until the proposed Cathedral Hill Hospital is constructed and operational. Once the proposed Cathedral Hill Hospital is built, as part of the Near-Term Project implementation activities, the acute care services at California and Pacific Campuses will be transferred to the Cathedral Hill Hospital, and the Pacific Campus's existing 2333 Buchanan Street Hospital would undergo renovation and reuse as an ambulatory care center.² In the long-term, the Pacific Campus will become an outpatient facility, and CPMC proposes an additional medical office building on the Davies Campus.³

The Cathedral Hill Project will include a new acute care hospital, a new MOB, and a pedestrian tunnel under Van Ness Avenue to connect the two facilities.

The proposed Cathedral Hill Hospital will be a 555-bed, 265'-0" tall, 15-story, approximately 875,378 g.s.f acute care hospital. The Cathedral Hill Hospital may include, but is not limited to inpatient medical care, labor and delivery, and post-partum care; specialized programs such as organ transplantation, interventional cardiology and newborn intensive care; and an approximately 12,000 sf emergency department. It will also include retail space, a cafeteria, education and conference space; a private, outdoor courtyard for patients, visitors, and staff, and a central utility plant and a three-level underground parking garage with 513 parking spaces. All vehicular access to the main drop-off and parking levels will be from Geary Boulevard and Post Street, with emergency vehicle (ambulance) access from Post Street. Large vehicle loading and private vehicle access to the emergency department will be from Franklin Street.

² 2333 Buchanan Street is an Existing Use under the proposed Development Agreement and is distinguished from the new construction proposed for the Long-Term Project at the Pacific Campus. The renovation and reuse may include, but is not limited to, the following uses: outpatient care, diagnostic and treatment services, Alzheimer's residential care, medical support services such as pre- and post-ambulatory surgery, outpatient laboratory services, physical and occupational therapy, hospital administration, and cafeteria uses.

³ Long-Term Projects at the Davies and Pacific Campuses are being evaluated at a program-level as part of CPMC's LRDP EIR. There are no pending Near-Term Projects under review for the Pacific Campus, and CPMC has not proposed any Near-Term or Long-Term Projects at the California Campus, which CPMC plans to sell after the majority of the services at that campus have been relocated to the Cathedral Hill and Pacific Campuses.

The building configuration of the Cathedral Hill Hospital has been designed based on the need to accommodate the specialized operational and functional requirements of a major hospital building located on a single City block. The building has two distinct elements: a lower broad supporting podium and a narrow tower with an east-west orientation. These elements accommodate two distinct building functions: diagnostic and treatment and support services within the podium, and inpatient care in the upper bed tower. The building silhouette, created by the tower and podium design, relates to both the immediate neighborhood context and the broader urban core. The building also has been designed to minimize the proportion of the façade along Van Ness Avenue and Post and Franklin Streets and allow for an appropriate pedestrian scale along those streets.

The new Cathedral Hill Hospital's building massing, height and square footage would be concentrated most intensely on the southern half of the site, along Geary Boulevard, where the 15-story rectangular tower would be constructed. The lowest concentration of building mass, height and square footage would be located on the northern half of the site, along Post Street, where the six-story podium component would be constructed. Levels 1 through 4 of the 15-story and six-story portions of the Cathedral Hill Hospital would be connected as one contiguous building (the podium). There is an open-air courtyard area on the fifth floor of the six-story portion of the Cathedral Hill Hospital.

The most efficient placement of the inter-related services in the podium requires the broad floor plates of the podium (approximately 100,000 g.s.f). This design locates all the operating and procedure rooms and required recovery spaces on one floor, which increases the building and operational efficiencies, and reduces the overall size of the building. These floor plates replace, by comparison, existing spaces currently occupying multiple floors, buildings, and campuses (Pacific and California).

The location of the main pedestrian entrance on Van Ness Avenue orients related public space, such as the second floor cafeteria, along the east side of the podium. Since the site slopes downhill from Franklin Street to Van Ness Avenue, the lobbies and public realm capitalize on daylight at the east side of the site. Spaces not requiring daylight, such as parking and support services, are stacked below the uphill grade along Franklin Street, lowering the perceived height of the podium from the west side of the site.

Access to the podium for vehicles, including ambulances and delivery vehicles, was also designed taking into account the buildings around the site, existing circulation issues, the slope of the site, and necessary adjacencies within the building. For example, the loading dock is located directly adjacent to the service elevators and away from the Daniel Burnham towers.

The closest part of the Cathedral Hill Hospital to the Daniel Burnham towers will be the podium, the height of which is actually lower than the existing office building and height limit for new construction at that location. Kiosk Markets would be located in niches in the bays along the Van

Ness Avenue façade of the Cathedral Hill Hospital. These niches could provide space for commercial uses such as a café, news stand or flower shop.

The bed tower and elevators are offset to the south of the site. This location for the bed tower was chosen so that the tower would not be in the center of the podium. If it were in the podium center, this would not allow the necessary contiguous floor areas in the podium (e.g., unbroken by a large elevator core). In determining whether the tower should be on the north or south side of the property, it was clear that the south side location was preferable. Although the location chosen for the tower has certain disadvantages, including shadowing the major green roof areas and courtyard on the podium, it was determined that these disadvantages were outweighed by the advantages to the Daniel Burnham towers and properties generally to the north.

The Central Utility Plant is on the top two floors of the building. This location has overall benefits for air quality and noise. Roof screens will conceal the Central Utility Plant. The roof screens are also a design element on the roof, creating an interesting building silhouette. Variation in materials at the screens articulates and integrates the tower façade.

The Cathedral Hill MOB would provide office space for physicians affiliated with the Cathedral Hill Hospital and for other ancillary uses. The Cathedral Hill MOB would be about nine stories at the highest portion of the building along Van Ness Avenue. It is approximately 130 feet tall to the top of the roof, varying in height from approximately 122 to 169 feet due partly to the slope of the site.

The Cathedral Hill MOB would replace seven smaller buildings along Geary Street between Van Ness Avenue and Polk Street. An important goal of the design of the Cathedral Hill MOB is to complement, to the extent feasible, the scale of nearby buildings so that the new building will fit within the urban pattern of this neighborhood.

The Cathedral Hill MOB is designed to be compatible with the architecture, scale, and massing of the surrounding building, relating to the historical vernacular of the buildings found along Van Ness Avenue. The design draws cues from – but is distinctly different than – the historical vernacular of many buildings found along the Van Ness Avenue corridor (i.e. Concordia Club, Regency Theater, Opal, 1000 Van Ness). The building's architectural organization includes a symmetrical design with a clearly articulated "entrance" at the center of the building's Van Ness Avenue façade, and with a solid base holds the corners more appropriately. The exterior treatment of the building includes a concrete cladding (GFRC), and the scale of the building includes window openings punched in the GFRC, similar to the two-story window bays found along many of the buildings along Van Ness Avenue. The height of the building at the street aligns with similar buildings along the Van Ness Avenue corridor, particularly the adjacent building, the Concordia Club; the podium at the street is capped by a contemporary cornice, in a form similar to other buildings on Van Ness Avenue. The upper portion of the building is set back from the Van Ness Avenue podium façade to reinforce this scale at the street.

The streetscape plan in development by CPMC for the Cathedral Hill Project is a critical part of its design. CPMC proposes to enhance the pedestrian environment by improving the street frontages in the Cathedral Hill Project area. The Cathedral Hill Project would enhance the pedestrian environment and improve the street frontages in the area, by expanding sidewalk widths and the landscaped areas, offering visual relief to pedestrians, and providing a buffer between pedestrians and traffic lanes. Rainwater gardens would be incorporated around the Cathedral Hill Hospital on Geary Boulevard and Post Street. These rain gardens would filter and absorb storm water from the sidewalks and building faces, and potentially from the building roofs and street surfaces. Landscaping along Van Ness Avenue for both the Cathedral Hill Hospital and Cathedral Hill MOB frontages would include tightly spaced matching street trees, and a "seasonal garden" planting strip separating the sidewalk from the curb lane. The entrances to both facilities would have entry plazas and matching flowering trees on either side of Van Ness. The public Emergency Department entrance on Franklin would have an inviting entry plaza, with vertical plantings near the entrance.

The western end of Cedar Street would be transformed into an Entry Plaza for the Cathedral Hill MOB, with a curbside drop-off area defined by tactile warning tiles and lighted bollards. Cedar Street would be planned so that it could be used for special events such as street fairs or markets in the evenings or on weekends, when the Cathedral Hill MOB and Cedar Street businesses would be closed. Cedar Street would be planted with street trees and shrubs, and would include pedestrian-level street lights along its length.

CPMC's streetscape plan has been designed to complement the City-sponsored improvements anticipated as part of the BRT project. The plan for Geary Boulevard west of Van Ness includes a stop for the proposed Geary BRT with a transit plaza. The Van Ness BRT stops are planned for the Van Ness median south of Geary. The final locations of the BRT stops have not been determined; however CPMC will update its Streetscape Plan accordingly to be consistent with adjustments to the BRT plan. The streetscape plan includes designs for BRT stop shelters. CPMC's Cathedral Hill Project includes benches along Geary Street and Post Street to accommodate transit riders. A stop for the CPMC shuttle is planned near the corner of Post Street and Van Ness Avenue, which will provide wind and rain protection and will also include shade trees and seating.

Although the proposed hospital is not subject to the San Francisco Building Code and the Green Building Ordinance, CPMC has committed to "building green", and is seeking LEED Certified status for the Cathedral Hill Hospital; the Cathedral Hill MOB is subject to San Francisco's Green Building Ordinance, and will achieve a minimum of LEED Silver certification.

Additional medical office space will be provided within the existing building at 1375 Sutter Street, which is currently a mixture of retail, office, and medical office space. That building will be renovated, retaining the existing retail and parking spaces; an additional 60 parking spaces required as the result of increased medical office use within the building will be provided off-site within the Cathedral Hill Hospital's underground parking garage. This conversion from general

office to medical office space does not require any office allocation under Planning Code Section 321.

5. **Public Comment.** The Department has received substantial comments expressing support for and opposition to CPMC's LRDP, over the past 7 years since the initial EEA was submitted. Support for and opposition to CPMC's LRDP can be found in the project files at the Planning Department.
6. **CEQA Findings.** On April 26, 2012, by Motion No. 18588, the Commission certified as adequate, accurate and complete the FEIR for the LRDP Project, which includes the Cathedral Hill Project. A copy of Commission Motion No.18588 is in the file for Case No. 2005.0555E. Also on April 26, 2012, by Motion No. 18589, the Commission adopted findings, including a statement of overriding considerations and an MMRP, pursuant to CEQA. In accordance with the actions contemplated herein, the Commission has reviewed the FEIR and adopts and incorporates by reference as though fully set forth herein the findings, including the statement of overriding considerations, pursuant to CEQA, adopted by the Commission on April 26, 2012, in Motion No. 18589.
7. **General Plan Referral.** San Francisco Charter Section 4.105 and Sections 2A.52 and 2A.53 of the San Francisco Administrative Code require that, for projects that include certain actions, the Department or the Commission must review these actions and determine whether the project is in conformity with the objectives and policies of the General Plan, as well as the Priority Policies of Section 101.1. The following aspects of the Cathedral Hill Project trigger the requirement for a General Plan referral:
 - a. **Sidewalk and Street Encroachments.** The Cathedral Hill Project requires several encroachment permits, associated with the construction of the new Cathedral Hill Hospital and MOB, in order to: (1) occupy of a portion of the public right-of-way on Van Ness Avenue in order to construct and maintain a pedestrian tunnel under Van Ness Avenue to connect the new Cathedral Hill MOB and the new Cathedral Hill Hospital located at 1100 and 1101 Van Ness Avenue respectively; (2) construct and maintain off-site improvements on the north side of Cedar Street between Van Ness Avenue and Polk Street, across the street from the Cathedral Hill MOB and on the south side of Cedar Street contiguous to the property at 1001 Polk street (block 0694, lot 004), including reconstructing and widening the existing sidewalk, installing new landscaping and reconstructing the existing roadway with pavers; and (3) install and maintain two 30,000 gallon diesel fuel tanks within the public right of way under Geary Boulevard between Franklin Street and Van Ness Avenue, in order to serve the Cathedral Hill Hospital at 1101 Van Ness Avenue.
 - b. **Sidewalk Width Changes.** The Cathedral Hill Project includes changes to sidewalk widths along various streets surrounding the Cathedral Hill Campus. Specifically, it includes changes to the official sidewalk width of: (a) the southerly side of Post Street between Franklin Street and Van Ness Avenue; (b) the northerly side of Geary Boulevard

between Franklin Street and Van Ness Avenue; (c) the northerly side of Geary Street starting at Van Ness Avenue continuing east 325 feet; (d) both sides of Cedar Street starting at the intersection with Van Ness Avenue continuing east to Polk street; (e) the westerly side of Van Ness Avenue starting from Geary Boulevard to Post Street; and (f) the easterly side of Van Ness Avenue between Geary Street and Cedar Street.

8. **General Plan Compliance.** The General Plan Consistency Findings set forth in Motion No. 18592 apply to this Motion, and are incorporated as though fully set forth herein.
9. **Planning Code Section 101.1(b).** The General Plan Priority Policy Findings of Planning Code Section 101.1 as set forth in Motion No. 18592 apply to this Motion, and are incorporated as though fully set forth herein.
10. The sidewalk and street encroachments and sidewalk width changes included as part of the Cathedral Hill Project are consistent with and would promote the general and specific purposes of the Code provided under Section 101.1(b) as outlined in **Motion No. 18592** and also in that the Cathedral Hill Project would contribute to the healthcare delivery and emergency services in San Francisco, include substantial economic benefits to the City during both the construction and operational phases, provide substantial other public benefits as outlined in the proposed Development Agreement, and be compatible with the character and stability of the neighborhood, thereby constituting a beneficial development.
11. The Commission hereby finds that, for the reasons described above, approval of the General Plan Referral would promote the health, safety and welfare of the City.

Motion No. 18600
April 12, 2012

CASE NO's. 2005.0555E; 2009.0885EMTZCBRSK; 2012.0403W
1101 Van Ness Avenue

DECISION

That based upon the Record, the submissions by the Applicant, the staff of the Department and other interested parties, the oral testimony presented to this Commission at the public hearings, and all other written materials submitted by all parties, the Commission hereby **ADOPTS FINDINGS** that 1) street and sidewalk encroachments, and 2) sidewalk width changes around the Cathedral Hill Campus; are consistent with the Objectives and Policies of the General Plan, and the Priority Policies of Section 101.1.

I hereby certify that the Planning Commission ADOPTED the foregoing Motion on April 26, 2012.

Linda D. Avery
Commission Secretary

AYES: Fong, Antonini, Borden, and Miguel

NAYS: Moore and Sugaya

ABSENT: Wu

ADOPTED: April 26, 2012

Edwin M. Lee, Mayor
Mohammed Nuru, Director

Office of the City and County Surveyor
875 Stevenson Street, Room 410
San Francisco, Ca 94103
(415) 554-5827 www.sfdpw.org

Bruce R. Storrs, City and County Surveyor

DPW Order No: 180165

Transmitting to the Board of Supervisors legislation changing the official sidewalk widths of: a) the southerly side of Post Street starting at the southeast intersection with Franklin Street continuing east to the southwest intersection with Van Ness Avenue; b) the northerly side of Geary Boulevard starting at the northeast intersection with Franklin Street continuing east to the northwest intersection with Van Ness Avenue; c) the northerly side of Geary Street starting at the northeast intersection of Van Ness Avenue continuing east 325 feet; d) both sides of Cedar Street starting at the intersection with Van Ness Avenue continuing east to the intersection with Polk Street; e) the westerly side of Van Ness Avenue starting at the intersection with Geary Boulevard continuing north to the intersection with Post Street; and f) the easterly side of Van Ness Avenue starting at the intersection with Geary Street continuing north to the intersection with Cedar Street; these streets shall be as shown on Department of Public Works drawing Q-20-699.

At the request of the California Pacific Medical Center, the Department of Public Works intends to change the official sidewalk widths on the above mentioned streets as shown on the enclosed Department of Public Works drawings Q-20-699.

The Planning Commission has determined that the sidewalk width changes comply with the General Plan and Planning Code Section 101.1. In addition, the Planning Commission adopted environmental findings pursuant to the California Environmental Quality Act (California Public Resources Code Sections 21000 et seq.) These documents are on file with the Clerk of the Board.

The Department of Public Works also has documentation on file indicating that all affected City departments, including the Municipal Transportation Agency, consent to the sidewalk width change.

The following have been approved by the Department of Public Works and are hereby transmitted to the Board of Supervisors:

1. Four (4) copies of the proposed Ordinance changing the official sidewalk widths on the southerly side of Post Street, the northerly side of Geary Boulevard, the northerly side of Geary street, both sides of Cedar Street, and both sides Van Ness Avenue as shown on Department of Public Works drawings Q-20-699.
2. Four (4) sets of said drawings showing the proposed change of official sidewalk as described above.

It is recommended that the Board of Supervisors adopt this Ordinance.

SAN FRANCISCO
MUNICIPAL TRANSPORTATION AGENCY
BOARD OF DIRECTORS

RESOLUTION No. 12-064

WHEREAS, In order to comply with State seismic safety requirements and improve healthcare facilities, Sutter West Bay Hospitals (dba California Pacific Medical Center (CPMC)) is planning to upgrade and/or construct new facilities at its existing St. Luke's and Davies Campuses and its proposed Cathedral Hill Campus; and,

WHEREAS, These facilities would have significant transportation impacts, especially the new Cathedral Hill Campus, which will provide 1,055 parking spaces, and is located at Geary Boulevard and Van Ness Avenue, two major transit corridors; and,

WHEREAS, The Cathedral Hill Campus in particular would afford a high level of transit accessibility to patients, employees and visitors consistent with the City's Transit First Policy and SFMTA's Strategic Plan; and,

WHEREAS, To help address resulting traffic, transit delay and ridership impacts, the City and SFMTA have negotiated a proposed Development Agreement with CPMC that contains payments from CPMC to the SFMTA as follows: (a) \$5 million for the proposed Van Ness and Geary Bus Rapid Transit projects; (b) a one-time \$10.5 million Transit Fee ; (c) a \$0.50 off-peak and \$0.75 peak entry and exit fee per vehicle at CPMC Cathedral Hill parking garages; and (d) \$400,000 to fund studies for improvements to bicycle facilities around and between the proposed new CPMC facilities; and,

WHEREAS, Over the lifetime of the proposed 10-year Development Agreement, CPMC would pay the SFMTA approximately \$20.9 million in current dollars.

WHEREAS, the SFMTA has identified a need for traffic and parking modifications adjacent to CPMC facilities as follows:

- A. ESTABLISH – TOW-AWAY, NO STOPPING ANYTIME Cesar Chavez Street, south side, from Guerrero Street to 148 feet easterly; Cesar Chavez Street, south side, from Valencia Street to 167 feet westerly and Valencia Street, west side, from Cesar Chavez Street to 19 feet southerly
- B. ESTABLISH – SIDEWALK WIDENING Cesar Chavez Street, south side, from Guerrero Street to 148 feet easterly and from Valencia Street to 167 feet westerly (sidewalk to be widened by 6 feet)
- C. ESTABLISH – TOW-AWAY NO STOPPING ANY TIME Post Street, south side, from Franklin Street to approximately 230 feet easterly
- D. ESTABLISH – SIDEWALK WIDENING Post Street, south side, from Franklin Street to approximately 230 feet easterly (widens sidewalk by 7 feet)
- E. ESTABLISH – SHUTTLE BUS ZONE Post Street, south side, from approximately 2 feet to 140 feet west of Van Ness Avenue

- F. ESTABLISH – TOW-AWAY NO STOPPING ANYTIME Van Ness Avenue, west side, from Post Street to Geary Boulevard
- G. ESTABLISH – SIDEWALK WIDENING Van Ness Avenue, west side, from Post Street to Geary Boulevard (widens sidewalk by 6 feet)
- H. ESTABLISH – SIDEWALK WIDENING Geary Boulevard, north side, from Van Ness Avenue to approximately 147 feet westerly (widens sidewalk by 7 feet)
- I. ESTABLISH – TOW-AWAY NO STOPPING ANY TIME Geary Boulevard, north side between Van Ness Avenue and Franklin Street
- J. ESTABLISH – BUS ZONE Geary Boulevard, north side, from Van Ness Avenue to approximately 147 feet westerly
- K. RESCIND – BUS ZONE Geary Boulevard, north side, from Franklin Street to 84 feet easterly
- L. ESTABLISH – RIGHT TURN ONLY LANE Geary Boulevard, from Franklin Street to approximately 120 feet easterly
- M. ESTABLISH – SIDEWALK NARROWING Geary Street, north side, from approximately 141 feet to 275 feet east of Van Ness Avenue (reduces sidewalk from 16.9 feet to 12 feet at the bus bulb out)
- N. RESCIND – BUS ZONE Geary Street, north side, from approximately 141 feet to 275 feet east of Van Ness Avenue
- O. ESTABLISH – TOW-AWAY NO STOPPING ANY TIME Geary Street, north side from Van Ness Avenue to 275 feet easterly
- P. ESTABLISH – TOW-AWAY NO STOPPING ANY TIME Cedar Street, north side, between Van Ness Avenue and Polk Street
- Q. ESTABLISH – SIDEWALK WIDENING Cedar Street, north side, between Van Ness Avenue and Polk Street (widens sidewalk by 0.8 feet)
- R. ESTABLISH – TOW-AWAY NO STOPPING ANY TIME Cedar Street, south side, between Van Ness Avenue and Polk Street
- S. ESTABLISH – SIDEWALK WIDENING Cedar Street, south side, between Van Ness Avenue and Polk Street (widens sidewalk by 0.5 feet)
- T. RESCIND – ONE-WAY Cedar Street, between Van Ness Avenue and the garage entrance to the Medical Office Building, approximately 290 feet west of Polk Street
- U. ESTABLISH – TWO-WAY Cedar Street, between Van Ness Avenue and the garage entrance to the Medical Office Building, approximately 290 feet west of Polk Street
- V. ESTABLISH – SIDEWALK WIDENING Extend bulb-out at the southeast corner of Van Ness Avenue and Cedar Street to align with sidewalk on Van Ness Avenue and Cedar Street

WHEREAS, At its hearing on April 26, 2012, the Planning Commission certified by Motion No. 18588 a Final Environmental Impact Report ("FEIR") for the LRDP pursuant to the California Environmental Quality Act (California Public Resources Code Sections 21000 et seq.) ("CEQA"), the CEQA Guidelines (14 Cal. Code Reg. Sections 15000 et seq.) and Chapter 31 of the Administrative Code, and in Motion 18589, adopted findings, including a statement of overriding consideration and a mitigation monitoring and reporting program; and,

WHEREAS, The Planning Commission determined by Motion that the Project, and the various actions being taken by the City and the Agency to approve and implement the Project, are consistent with the General Plan and with the Eight Priority Policies of City Planning Code Section 101.1, and made findings in connection therewith (the "General Plan Consistency Determination"), a copy of which is on file with the Planning Department and is incorporated into this Resolution by reference; and,

WHEREAS, The public has been notified about the proposed modifications and has been given the opportunity to comment on those modifications through the public hearing process; now, therefore, be it

RESOLVED, That in accordance with the actions contemplated herein, the SFMTA Board has reviewed the FEIR, and adopts and incorporates by reference as though fully set forth herein the findings, including the statement of overriding considerations and mitigation monitoring and reporting program, adopted by the Planning Commission on April 26, 2012, pursuant to CEQA, in Motion No. 18589; and, be it

FURTHER RESOLVED, That the SFMTA Board of Directors does hereby consent to the proposed 10-year Development Agreement between the City and County of San Francisco and Sutter West Bay Hospitals substantially in the form and on the terms on file with this Board and authorizes the Director of Transportation to execute the Consent to the Development Agreement on behalf of this Board; and be it

FURTHER RESOLVED, That the SFMTA Board of Directors, upon recommendation of the Director of Transportation, does hereby approve the traffic changes.

I certify that the foregoing resolution was adopted by the San Francisco Municipal Transportation Agency Board of Directors at its meeting of May 1, 2012.

R. Bodman

Secretary to the Board of Directors
San Francisco Municipal Transportation Agency
