MANDATE STATEMENT

Administrative Code Section 6.60(d) states that contracts entered into for emergency work in the amount of \$250,000 or more are subject to Board of Supervisors approval. Section 6.60(d) also states that if the emergency does not permit approvals of the emergency determination before work is commenced or the contracts entered into, such approvals shall be obtained as soon as possible, with the proposed resolution approving the emergency determination submitted to the Board of Supervisors within 60 days of the department head's emergency declaration.

BACKGROUND

The City and County of San Francisco owns the facility at 170 Otis Street, which houses the County's Human Services Agency (HSA). Three elevators at 170 Otis Street were originally installed in 1976 and have experienced intermittent failures since 2014, with worn cables, doors and interior compartments, resulting in hazardous conditions with doors closing on passengers, and passengers being trapped in the elevators.

HSA declared an emergency regarding the conditions of the elevators on March 27, 2014 and HSA staff requested elevator condition assessments and proposals to renovate and upgrade the three elevators, from three elevator firms including ThyssenKrupp, Empire Elevator Company, Inc., and KONE, Inc. They received two proposals and determined that KONE, Inc.¹ (KONE) was the most qualified respondent. The KONE proposal estimate was \$415,099, and provided a scope of work including, but not limited to:

- 1) New elevator door operating equipment;
- 2) Fire-rated elevator doors at all openings;
- 3) Digital position indicators;
- 4) Renovated elevator cab interiors;
- 5) Inspection and testing of completed work.

HSA signed a contract with KONE on April 2, 2014 and subsequently paid KONE \$207,550 (50 percent of the total \$415,099) to purchase equipment and materials and begin performing the modifications according to KONE's proposal. On May 2, 2014, HSA introduced a resolution (File #14-0473) to the Board of Supervisors seeking approval of the emergency contract with KONE. However, the San Francisco City Attorney's Office determined that HSA did not have authority to issue public works contracts, pursuant to Administrative Code Section 6.2, and that such services must be procured through the Department of Public Works (Public Works).

¹ The proposal was submitted by Empire Elevator Company, but was soon after legally acquired by KONE.

POLICY CONSIDERATIONS

On June 23, 2015, the Board of Supervisors approved an ordinance (File 15-0175; Ordinance No. 108-15) amending Chapter 6 of the City's Administrative Code, including Section 6.60 regarding emergency repairs, work and contracts, which became effective on August 1, 2015. Under the new provisions, the department head responsible for addressing the emergency may declare an emergency with immediate notice to the Board of Supervisors, the Mayor, Controller and board or commission having jurisdiction over the emergency. In addition, if the estimated cost of the emergency exceeds \$250,000, the proposed resolution approving the emergency determination must be submitted to the Board of Supervisors within 60 days of the department head's emergency declaration.

HSA initially requested authorization to commence with emergency repairs to the elevators in May 2014, or 36 days after the emergency was declared by HSA. However, the current proposed resolution seeking such authorization was introduced to the Board of Supervisors on July 14, 2015, approximately 438 days after the initial determination by HSA that the elevators required emergency repair, and 218 days after Public Works assumed responsibility for the project and made its declaration of emergency.

The intent of seeking authorization from the Board of Supervisors within 60 days of the department head's emergency declaration is so that the Board of Supervisors may review the emergency nature of the contracts shortly after the emergency is declared. Such a significant delay between the emergency declaration and the approval from the Board of Supervisors denies the Board of Supervisors its authority to approve such contracts on a timely basis. Given

the work to repair the elevators has commenced and is expected to be completed in November, 2015, the Board of Supervisors should approve the proposed resolution. In the future, departments requesting approval of emergency contracts should submit such resolutions within 60 days to the Board of Supervisors as required in Section 6.60 of the Administrative Code.

RECOMMENDATIONS

1. Amend the proposed resolution to correctly state that the contract not-to-exceed amount is \$460,160, not \$460,100.
2. Approve the proposed resolution as amended.

EMERGENCY DECLARED AND CONTRACT AWARDED

An Emergency exists as a result of service failures of three elevators at the Human Services Agency building located at 170 Otis Street. Such failures have been occurring for over a year, and the most recent incidents, during the week of November 24, 2014, resulted in members of the public as well as Human Services Agency staff being trapped for upwards of two and a half hours and necessitating rescues by the San Francisco Fire Department. In addition, the elevator doors on each floor suffer untimely operating patterns that close on patrons improperly, and the elevator cables have been found to be worn significantly past their useful lives. These conditions constitute an emergency involving the health, safety and property of the citizens of the City and County of San Francisco.

In advance of these dangerous and unsafe conditions the Human Services Agency Facilities staff had repeatedly attempted to have the existing maintenance contractors remedy these problems. But due to some large repair items that qualified as capital projects (thereby disqualifying maintenance contractors from providing equipment and services) coupled with the rapid decline of the aging equipment, the situation grew worse requiring immediate action by the HSA facilities staff.

On April 7, 2014, the HSA staff commenced requesting elevator condition assessments and proposals from three elevator firms, one of which was the current maintenance contractor. They received two proposals and determined that one of the firms was the most qualified, KONE, Inc. At the same time the Human Services Commission issued an emergency declaration letter to the HSA Director on March 27, 2014. In April, 2014 HSA staff proceeded to issue a purchase order for the long-lead-time parts and equipment required to affect the modifications and upgrades to current code according to KONE Inc.'s proposal.

In order to move forward with the repairs, an Emergency is declared to exist under the provisions of Section 6.60 of the San Francisco Administrative Code, and
