

APPENDIX A

The Resolutions provide that the Bonds are payable from and secured by a voter-approved dedicated property tax levy on all taxable property in the City, and the City is empowered under the law to set such tax rate for the Bonds at the level needed to generate sufficient property tax revenues to pay the debt service on the Bonds. Under the Resolutions, the City is not obligated to pay the debt service from any other sources, nor are any property or assets of the City otherwise pledged to the repayment of the Bonds. This Appendix A provides information on the City's overall operations and finances with an emphasis on its General Fund and therefore includes information on revenues and other funds that are not pledged to the Bonds under the Resolutions and are not available to pay debt service on the Bonds. See "SECURITY FOR THE BONDS" in the forepart of this Official Statement.

CITY AND COUNTY OF SAN FRANCISCO ORGANIZATION AND FINANCES

This Appendix A provides general information about the City's governance structure, budget processes, property taxation system and tax and other revenue sources, City expenditures, labor relations, employment benefits and retirement costs, investments, bonds, and other long-term obligations.

The various reports, documents, websites, and other information referred to herein are not incorporated by such references. The City has referred to certain specified documents in this Appendix A which are hosted on the City's website. A wide variety of other information, including financial information, concerning the City is available from the City's publications, websites, social media accounts, and its departments. Any such information that is inconsistent with the information set forth in this Official Statement should be disregarded and is not a part of or incorporated into this Appendix A and should not be considered in making a decision to buy the Bonds.

Certain information contained in this Appendix A may reference other enterprise departments of the City including San Francisco International Airport ("SFO" or the "Airport"), Public Utilities Commission ("SFPUC"), and other enterprise departments. Descriptions of such enterprises are included for informational purposes only, but no funds or resources of such enterprises are available or pledged as security for the Bonds.

The information presented in this Appendix A contains, among other information, City budgetary forecasts, projections, estimates and other statements that are based on current expectations as of the date of the Preliminary Official Statement. The words "expects," "forecasts," "projects," "budgets," "intends," "anticipates," "estimates," "assumes" and analogous expressions are intended to identify such information as "forward-looking statements." Such budgetary forecasts, projections and estimates are not intended as representations of fact or intended as guarantees of results. Any such forward-looking statements are inherently subject to a variety of risks and uncertainties that could cause actual results or performance to differ materially from those that have been forecast, estimated or projected.

CITY FINANCIAL CHALLENGES

The City continues to face material financial challenges, including actual and projected revenue losses, resulting from a variety of factors, including continuing remote work by a significant portion of the workforce (which has led to declining property taxes for certain office buildings, lower real estate property transfer taxes, and reductions in taxes based on employees physically located in the City), continuing weakness in the local hospitality and convention industries (resulting in declines in hotel and sales taxes), and general economic conditions. As described herein, these conditions have resulted in projected budget deficits (absent corrective actions) in the hundreds of millions of dollars in future fiscal years, rising to approximately \$1.47 billion in fiscal year 2029-30.

FY25 & FY26 ORIGINAL BUDGET

The Original Budget for fiscal years 2024-25 and 2025-26 (the “FY25 & FY26 Original Budget”) was approved by the Board of Supervisors on July 30, 2024 and signed by the Mayor on August 1, 2024. See “CITY BUDGET – Budget Process” for additional detail. The FY25 & FY26 Original Budget reflects \$15.9 billion of expenditures in fiscal year 2024-25 and \$15.5 billion in fiscal year 2025-26. The FY25 & FY26 Original Budget addresses the then-current projected \$789.3 million two-year shortfall primarily through the use of \$135.7 million of fund balance, \$236.6 million in projected revenue increases, and \$68.8 million use of special funds, as well as \$302.0 million of net departmental budget reductions and other operating savings. Such operating savings were offset by increased capital and information technology costs and new labor costs. For information concerning recent reports relating to the FY25 & FY26 Original Budget, see “PERIODIC FINANCIAL REPORTING; RECENT REPORTS.”

NOVEMBER 2024 CITY ELECTION

At the November 5, 2024 election, voters in the City elected Daniel Lurie as Mayor of the City. In addition, elections were held for a number of Board of Supervisors seats, as well as City Attorney and Treasurer. See “CITY GOVERNMENT.” Voters also approved Propositions H, I, J and M, which impacts City finances. See “OTHER CITY TAX REVENUES – Business Taxes,” “CITY GENERAL FUND PROGRAMS AND EXPENDITURES - Voter-Mandated Spending Requirements” and “EMPLOYMENT COSTS; POST-EMPLOYMENT OBLIGATIONS - San Francisco Employees’ Retirement System.”

PERIODIC FINANCIAL REPORTING; RECENT REPORTS

The City Charter and Administrative Code provide for the preparation of a number of regular financial reports. These reports include:

Controller Revenue Letter: The Controller Revenue Letter is issued in June of each year, and addresses the Controller’s view of the accuracy of economic assumptions underlying the revenue estimates in the Mayor’s Proposed Budget. See “CITY BUDGET - FY25 & FY26 Original Budget and Revenue Letter.”

Budget Status Reports: Each year, the Controller issues six-month and nine-month budget status reports to apprise the City’s policymakers of the current budgetary status, including projected year-end revenues, expenditures and fund balances. See “CITY BUDGET –FY25 & FY26 Original Budget and Revenue Letter” and the description below of the Six-Month Budget Status Report issued by the Controller’s Office on February 18, 2025 (the “February 2025 Six-Month Report”).

Five-Year Financial Plan: The Five-Year Financial Plan (the “Five-Year Plan”) is required under Proposition A, a charter amendment approved by voters in November 2009. The Charter requires the City to forecast expenditures and revenues for the next five fiscal years, propose actions to balance revenues and expenditures during each year of the Plan, and discuss strategic goals and corresponding resources for City departments. Proposition A required that a Five-Year Plan be adopted every two years. Charter Section 9.119

requires that by March 1 of each odd-numbered year, the Mayor submit a Five-Year Plan to the Board. The City's Administrative Code requires that by March 1 of each even-numbered year, the Mayor, Board of Supervisor's Budget Analyst, and Controller submit an updated estimate for the remaining four years of the most recently adopted Five-Year Plan. . See the "CITY BUDGET – December 2024 Five-Year Plan and FY26 Mayor's Budget Instructions."

Following is a description of certain recently issued reports, with the most recent reports presented first.

February 2025 Six-Month Report

On February 18, 2025, the Controller's Office issued the Six-Month Budget Status Report (the "February 2025 Six-Month Report"). The February 2025 Six-Month Report noted that the Controller projects a \$367.2 million General Fund ending balance in the current fiscal year, a \$35.7 million improvement from the \$331.5 million balance in the December 2024 Five-Year Financial Plan. Citywide revenues for Fiscal Year 2024-25 are projected to be \$114.1 million below the FY25 & FY26 Original Budget, or \$68.5 million below the projection in the December 2024 Five-Year Financial Plan. Departments are projected to end Fiscal Year 2024-25 with a \$97.7 million net surplus.

The February 2025 Six-Month Report also noted that the Police, Fire, Emergency Management and Sheriff's departments, and the Public Utilities Commission, will require additional supplemental appropriations for overtime, which could reduce available fund balance, and that the projections assume no changes to federal revenue related to the new federal administration's proposed funding freezes or rescission of funds, but this remains a source of budgetary uncertainty. Specifically, the FY25 & FY26 Original Budget assumes \$80.0 million of FEMA reimbursements for COVID response costs, of which \$51.7 million is confirmed in the current fiscal year to date, and the projection currently assumes total reimbursements at budgeted levels. See "BUDGETARY RISKS – Impact of Federal Government on Local Finances."

See "CITY BUDGET – February 2025 Six-Month Report" for additional information concerning the February 2025 Six-Month Report.

Controller's Report on the Status of the City Economy

On February 13, 2025, the Controller's Office issued its most recent report on the status of the City economy through January 2025. The Controller's Office report noted that the City's job market continued its slow recovery, with jobs growing at a rate of 1.4% from October to December 2024. The City's unemployment rate increased to 3.9% after dipping to 3.7% in September and October. The City continues to have one of the lowest unemployment rates among California counties. The City's slow pace of returning to office showed some positive signs as MUNI metro's downtown ridership continued to recover and new data from Placer.ai (an analytics source used by the City that provides data about foot traffic and consumer behavior) shows employee visits have been increasing throughout 2024. Hotel revenue recovery remains flat. The office vacancy rate dropped slightly in the 4th quarter, for its first quarterly decline since 2020. However, Placer.ai data also showed that downtown visitors—mainly shoppers—have been dropping, and the formation of new restaurants and retail establishments are also trending down. Apartment rents within the City are rising, despite a broader softening trend. Housing prices remain stagnant, and new housing permits remain stuck well below pre-pandemic levels.

December 2024 Five-Year Plan

On December 18, 2024, the Mayor's Office, Controller's Office, and Board of Supervisors Budget and Legislative Analyst's Office issued the "Proposed Five-Year Financial Plan Fiscal Years 2025-26 through 2029-30" (the "December 2024 Five-Year Plan"). The December 2024 Five-Year Plan projects that that, over the next five years, the City's revenue outlook will improve, supported by recent changes in San Francisco's tax structure and modest economic growth. However, this improvement will be tempered by post-pandemic economic

realities and the depletion of one-time funding sources. At the same time, the cost of City services is projected to grow significantly, surpassing revenue growth each year of the five-year period.

Total annual expenditures are projected to increase by approximately \$1.99 billion over the next five years, representing a 29% increase from fiscal year 2024-25. In contrast, annual available General Fund sources are expected to grow by only \$518.6 million over the same period, an increase of 7.6 percent from fiscal year 2024-25. This results in projected annual deficits, absent corrective action, of \$253.2 million in fiscal year 2025-26, \$622.7 million in fiscal year 2026-27, \$1.05 billion in fiscal year 2027-28, \$1.33 billion in fiscal year 2028-29 and \$1.47 billion in fiscal year 2029-30.

The December 2024 Five-Year Plan states that City must develop and implement strategies to bridge the gap between projected revenues and expenditures, and that these strategies must be incorporated into the fiscal year 2025-26 and 2026-27 two-year budget and extended across the five-year period reflected in the December 2024 Five-Year Plan. The December 2024 Five-Year Plan notes that, unlike the significant budget shortfalls that followed the 2001 and 2008 recessions, the current outlook highlights longer-term structural challenges, even without the occurrence of another recession.

See “CITY BUDGET – December 2024 Five-Year Plan and FY26 Mayor’s Budget Instructions” for additional information concerning the December 2024 Five-Year Plan.

FY26 Mayor’s Budget Instructions

In December 2024, the Mayor’s Office issued budget instructions (the “FY26 Mayor’s Budget Instructions”), which contained a preview summary of the findings in the December 2024 Five-Year Plan, including the projected deficits described therein. The FY26 Mayor’s Budget Instructions noted that, since the COVID pandemic, the City has relied heavily on one-time sources to balance recent budgets. These one-time sources include federal disaster relief, and use of General Fund reserves and fund balance. The FY26 Mayor’s Budget Instructions noted that there is significant uncertainty with respect to receiving outstanding FEMA reimbursements. These one-time sources are expected to be depleted by the end of fiscal year 2027-28.

The FY26 Mayor’s Budget Instructions also identify particular risks including revenue losses to the City which may result from State financial difficulties, federal policies implemented by the incoming Trump administration, and declining property values resulting from assessment appeals. In addition, business tax appeals threaten over \$400 million in business tax revenue. The FY26 Mayor’s Budget Instructions also noted that health care costs escalation has increased, office vacancies remain elevated, and the hospitality industry recovery is slowing.

As a result of the foregoing, the FY26 Mayor’s Budget Instructions to departments direct ongoing, permanent spending reductions to the General Fund of 15% starting in fiscal year 2025-26, a re-examination of all contractual services and non-personnel expenditures, elimination of positions that are currently vacant, the consideration of future hiring freezes, and cessation of overnight and air travel for City employees. See “CITY BUDGET – December 2024 Five-Year Plan and FY26 Mayor’s Budget Instructions” for additional information concerning the December 2024 Five-Year Plan.

Subsequent to the issuance of the FY26 Mayor’s Budget Instructions, on January 9, 2025, Mayor Lurie announced a Citywide hiring freeze through the end of the fiscal year. Certain exemptions will be permitted including new hires to support public health, public safety, and other core City priorities.

Upcoming Reports

Significant upcoming reports include the March 2025 Update to the December 2024 Five-Year Plan. The financial pressures described herein result in challenges with respect to revenue and expense forecasting, and there can be no assurances that future reports will not identify increasing expenses and/or decreasing

revenues, potentially resulting in increased deficit projections as compared to prior reports. In addition, the City has commenced utilizing additional tools in connection with the forecasting of potential property tax losses, which may result in additional annual projected property tax losses in the tens of millions of dollars. See “GENERAL FUND REVENUES - PROPERTY TAXATION - Assessed Valuations, Tax Rates, and Tax Delinquencies.”

CITY BUDGET

Overview

The City manages the operations of more than 60 departments, commissions and authorities, including the enterprise fund departments, and funds such departments and enterprises through its annual budget process. Each year the Mayor prepares budget legislation for the City departments, which must be approved by the Board of Supervisors. General Fund revenues consist largely of local property tax, business tax, sales tax, other local taxes and charges for services. A significant portion of the City’s revenue also comes in the form of intergovernmental transfers from the State and federal governments. Thus, the City’s fiscal position is affected by the health of the local real estate market, the local business and tourist economy, and, by budgetary decisions made by the State and federal governments which depend, in turn, on the health of the larger State and national economies. All these factors are almost wholly outside the control of the Mayor, the Board of Supervisors and other City officials. In addition, the State Constitution limits the City’s ability to raise taxes and property-based fees without a vote of City residents. See “CONSTITUTIONAL AND STATUTORY LIMITATIONS ON TAXES AND EXPENDITURES” herein. Also, the fact that the City’s annual budget must be prepared before the State and federal budgets adds uncertainty to the budget process and necessitates flexibility so that spending decisions can be adjusted during the course of the fiscal year. See “CITY GENERAL FUND PROGRAMS AND EXPENDITURES” herein.

The FY25 & FY26 Original Budget was passed by the Board of Supervisors on July 30, 2024, and signed by Mayor Breed on August 1, 2024. The Original Budget for fiscal year 2024-25 appropriates annual revenues, fund balance, transfers and reserves of \$15.9 billion, of which the City’s General Fund accounts for \$6.9 billion. The Original Budget for fiscal year 2025-26 appropriates revenues, fund balance, transfers and reserves of \$15.6 billion, of which \$7.1 billion represents the General Fund budget. See “CITY BUDGET – FY25 & FY26 Original Budget and Revenue Letter” for further details on the budget. Table A-2 shows Final Revised Budget revenues and appropriations for the City’s General Fund for fiscal years 2020-21 through 2023-24, and the Original Budget for fiscal year 2024-25. See “GENERAL FUND REVENUES – PROPERTY TAXATION –Tax Levy and Collection,” “GENERAL FUND REVENUES – OTHER CITY TAX REVENUES” and “CITY GENERAL FUND PROGRAMS AND EXPENDITURES” herein.

See “CITY FINANCIAL CHALLENGES” and “BUDGETARY RISKS” for discussions of factors that have adversely impacted the revenue and expenditure levels assumed in the FY25 & FY26 Original Budget.

(1) The Budget appropriates Excess ERAF property tax funds in all fiscal years shown on the table. Please see "GENERAL FUND REVENUES -- Property Taxation" for more information about Excess ERAF.

(2) Other Local Taxes includes sales, hotel, utility users, parking, transfer, sugar sweetened beverage, stadium admissions, access line, cannabis, and overpaid executive taxes.

(3) Transfers Out is primarily related to transfers to support Charter-mandated spending requirements and hospitals.

(4) Fiscal year 2020-21 through fiscal year 2023-24 Final Revised Budget reflects prior year actual budgetary fund balance.

(5) Fiscal years 2020-21, 2021-22, 2022-23, and 2023-24 Final Revised Budgets are based on respective Annual Comprehensive Financial Reports.

(6) Fiscal year 2024-25 amount represents the Original Budget, adopted July 30, 2024. See "PERIODIC FINANCIAL REPORTING; RECENT REPORTS" for recent financial reports and projections.

Budget Process

The following paragraphs contain a description of the City's customary budget process. The City's fiscal year commences on July 1 and ends on June 30. The City's budget process for each fiscal year begins in the middle of the preceding fiscal year as departments prepare their budgets and seek any required approvals from the applicable City board or commission. Departmental budgets are consolidated by the City Controller, and then transmitted to the Mayor no later than the first working day of March. By the first working day of May, the Mayor is required to submit a proposed budget to the Board of Supervisors for certain specified departments, based on criteria set forth in the Administrative Code. On or before the first working day of June, the Mayor is required to submit a proposed budget, including all departments, to the Board of Supervisors.

Under the Charter, following the submission of the Mayor's Proposed Budget, the City Controller must provide an opinion to the Board of Supervisors regarding the economic assumptions underlying the revenue estimates and the reasonableness of such estimates and revisions in the proposed budget (the City Controller's "Revenue Letter"). The City Controller may also recommend reserves that are considered prudent given the proposed resources and expenditures contained in the Mayor's Proposed Budget. The Revenue Letter and other information from the Controller's website are not incorporated herein by reference. The City's Capital Planning Committee (composed of other City officials) also reviews the proposed budget and provides recommendations based on the budget's conformance with the City's adopted ten-year capital plan. For a further discussion of the Capital Planning Committee and the City's ten-year capital plan, see "CAPITAL FINANCING AND BONDS – Capital Plan" herein.

The City is required by the Charter to adopt, each year, a budget which is balanced in each fund. During its budget approval process, the Board of Supervisors has the power to reduce or augment any appropriation in the proposed budget, provided the total budgeted appropriation amount in each fund is not greater than the total budgeted appropriation amount for such fund submitted by the Mayor. The Board of Supervisors approves the budget by adoption of the Budget and Appropriation Ordinance (also referred to herein as the "Original Budget") typically by no later than August 1 of each fiscal year.

The Budget and Appropriation Ordinance becomes effective with or without the Mayor's signature after 10 days; however, the Mayor has line-item veto authority over specific items in the budget. Additionally, in the event the Mayor were to disapprove the entire Budget and Appropriation Ordinance, the Charter directs the Mayor to promptly return the ordinance to the Board of Supervisors, accompanied by a statement indicating the reasons for disapproval and any recommendations which the Mayor may have. Any Budget and Appropriation Ordinance so disapproved by the Mayor shall become effective only if, subsequent to its return, it is passed by a two-thirds vote of the Board of Supervisors.

Following the adoption and approval of the Budget and Appropriation Ordinance, the City makes various revisions throughout the fiscal year (the Original Budget plus any changes made to date are collectively referred to herein as the "Revised Budget"). A "Final Revised Budget" is prepared at the end of the fiscal year upon release of the City's Annual Comprehensive Financial Report ("ACFR") to reflect the year-end revenue and expenditure appropriations for that fiscal year.

Multi-Year Budgeting and Planning

The City's budget involves multi-year budgeting and financial planning, including:

1. Fixed two-year budgets are approved by the Board of Supervisors. For fiscal year 2025-26, all departments except for MTA, SFPUC, SFO, and the Port will have budgets open again for amendments.
2. A five-year financial plan and update, which forecasts General Fund revenues and expenses and summarizes expected public service levels and funding requirements for that period. The

December 2024 Five-Year Plan, including a forecast of expenditures and revenues and proposed actions to balance them in light of strategic goals, was issued by the Mayor, the Budget Analyst for the Board of Supervisors and the Controller's Office on December 18, 2024, for fiscal year 2025-26 through fiscal year 2029-30. See "CITY BUDGET – December 2024 Five-Year Plan and FY 26 Mayor's Budget Instructions" section below.

3. The Controller's Office proposes to the Mayor and Board of Supervisors financial policies addressing reserves, use of volatile revenues, debt and financial measures in the case of disaster recovery and the City is required to adopt budgets consistent with these policies once approved. The Controller's Office may recommend additional financial policies or amendments to existing policies no later than October 1. Key financial policies that have been enacted include:
 - Non-Recurring Revenue Policy – This policy limits the Mayor's and Board's ability to use for operating expenses the following nonrecurring revenues: extraordinary year-end General Fund balance, the General Fund share of revenues from prepayments provided under long-term leases, concessions, or contracts, otherwise unrestricted revenues from legal judgments and settlements, and other unrestricted revenues from the sale of land or other fixed assets. Under the policy, these nonrecurring revenues may only be used for nonrecurring expenditures that do not create liability for, or expectation of, substantial ongoing costs, including but not limited to discretionary funding of reserves, acquisition of capital equipment, capital projects included in the City's capital plans, development of affordable housing, and discretionary payment of pension, debt, or other long-term obligations.
 - Rainy Day and Budget Stabilization Reserve Policies – These reserves were established to support the City's budget in years when revenues decline. These and other reserves are discussed under "Rainy Day Reserve" and "Budget Stabilization Reserve" below.
4. The City is required to submit labor agreements to the Board of Supervisors by May 15, so the fiscal impact of the agreements can be incorporated in the Mayor's proposed June 1 budget. In July 2024, the City entered into 28 MOUs representing miscellaneous bargaining units. The Controller's Office analysis found that the MOUs will result in increased costs to the City of \$130.8 million (or 3.1%) of base wage and benefit cost in fiscal year 2024-25; \$293.3 million (or 6.9%) in fiscal year 2025-26; and \$471.6 million (or 11.1%) in fiscal year 2026-27. In addition, there is a wage increase of 2.5% on June 30, 2027, that will create additional costs in fiscal year 2027-28. Approximately 65% of the increased cost under the MOUs is supported by the General Fund. See "EMPLOYMENT COSTS; POST-EMPLOYMENT OBLIGATIONS – Labor Relations."

Role of Controller in Budgetary Analysis and Projections

As Chief Fiscal Officer and City Services Auditor, the City Controller monitors spending for all officers, departments and employees charged with receipt, collection or disbursement of City funds. Under the Charter, no obligation to expend City funds can be incurred without a prior certification by the Controller that sufficient revenues are or will be available to meet such obligation as it becomes due in the then-current fiscal year, which ends June 30. The Controller monitors revenues throughout the fiscal year, and if actual revenues are less than estimated, the City Controller may freeze department appropriations or place departments on spending "allotments" which will constrain department expenditures until estimated revenues are realized. If revenues are in excess of what was estimated, or budget surpluses are created, the Controller can certify these surplus funds as a source for supplemental appropriations that may be adopted throughout the year upon approval of the Mayor and the Board of Supervisors. The City's actual expenditures are often different from the estimated expenditures in the Original Budget due to supplemental appropriations, continuing appropriations of prior years, and unexpended current-year funds. If the Controller estimates revenue shortfalls that exceed applicable reserves and any other allowances for

revenue shortfalls in the adopted City budget, upon receipt of such estimates, the Mayor is to inform the Board of Supervisors of actions to address this shortfall. The Board of Supervisors may adopt an ordinance to reflect the Mayor's proposal or alternative proposals in order to balance the budget.

General Fund Results: Audited Financial Statements

The City issued the ACFR, which includes the City's audited financial statements, for fiscal year 2023-24 on November 27, 2024.

Fiscal year 2023-24 General Fund balance increased from fiscal year 2022-23. As of June 30, 2024, the net available budgetary basis General Fund balance was \$903.7 million, which is \$51.6 million more than the \$852.1 million available as of June 30, 2023. The portion of General Fund balance available for appropriation increased from the prior year by \$51.5 million as a result of steps taken during fiscal year 2023-24 to de-appropriate and otherwise hold spending of previously budgeted funds. This increase, however, was more than offset by the reduction in fund balance not available for appropriation, resulting in a decline in total GAAP and budgetary basis fund balance.

The City prepares its budget on a modified accrual basis, which is also referred to as "budget basis" in the ACFR. Accruals for incurred liabilities, such as claims and judgments, workers' compensation, accrued vacation and sick leave pay are funded only as payments are required to be made.

Table A-2 is extracted from information in the City's published ACFRs. Audited financial statements can be obtained from the City Controller's website <https://sf.gov/annual-comprehensive-financial-reports-acfr>. Information from the City Controller's website is not incorporated herein by reference. Excluded from this Statement of General Fund Revenues and Expenditures in Table A-2 are fiduciary funds, internal service funds, special revenue funds (which relate to proceeds of specific revenue sources which are legally restricted to expenditures for specific purposes), and all of the enterprise fund departments of the City, each of which prepares separate audited financial statements. See "CITY BUDGET – Five-Year Financial Plan: FY 2025-26 through FY 2029-30 and FY 2025-26 Mayor's Budget Instructions" for a summary of the most recent projections.

On a GAAP basis, the General Fund balance as of June 30, 2024 was \$2.6 billion . Table A-4 focuses on the City's fund balances; General Fund balances are shown on both a budget basis and a GAAP basis with comparative financial information for the fiscal years ended June 30, 2020 through June 30, 2024.

(1) Summary of financial information derived from City ACFRs. Fund balances include amounts reserved for rainy day (Economic Stabilization and One-time Spending accounts), encumbrances, appropriation carryforwards and other purposes (as required by the Charter or appropriate accounting practices) as well as unreserved designated and undesignated available fund balances (which amounts constitute unrestricted General Fund balances).

(2) Other Local Taxes includes sales, hotel, utility users, parking, transfer, sugar sweetened beverage, stadium admissions, access line, cannabis, and overpaid executive taxes.

Sources: Annual Comprehensive Financial Reports; Office of the Controller, City and County of San Francisco.

In addition to the reconciliation of GAAP versus budget-basis fund balance, Table A-3 shows the City's various reserve balances as designations of fund balance. Key reserves are described further below.

Rainy Day Reserve

The City maintains a Rainy Day Reserve, as shown on the first and second line of Table A-3 below. Charter Section 9.113.5 requires that if total General Fund revenues for the current year exceed total General Fund revenues for the prior year by more than five percent, then the City must deposit anticipated General Fund revenues in excess of that five percent growth into three accounts within the Rainy Day Reserve (see below) and for other lawful governmental purposes. Similarly, if budgeted revenues exceed current year revenues by more than five percent, the budget must allocate deposits to the Rainy Day Reserve. Proposition C, passed by the voters in November 2014, divided the existing Rainy Day Economic Stabilization Account into a City Rainy Day Reserve ("City Reserve") and a School Rainy Day Reserve ("School Reserve") for SFUSD, with each reserve account receiving 50% of the existing balance at the time. Deposits to the reserve are allocated as follows:

- 37.5% of the excess revenues to the City Reserve;
- 12.5% of the excess revenues to the School Reserve (not shown in Table A-3 because it is reserved for SFUSD and not part of the General Fund,);
- 25% of the excess revenues to the Rainy Day One-Time or Capital Expenditures account; and
- 25% of the excess revenues to any lawful governmental purpose.

The fiscal year 2022-23 ending balance of the Rainy Day Economic Stabilization City Reserve was \$114.5 million, as shown in Table A-3. Under Proposition C, the City is not eligible to withdraw from the Rainy Day Reserve in fiscal years 2023-24, 2024-25 or 2025-26, preserving the balance of \$114.5 million in those years.

The combined balances of the Rainy Day Reserve's Economic Stabilization account and the Budget Stabilization Reserve are subject to a cap of 10% of actual total General Fund revenues. Amounts in excess of that cap in any year will be placed in the Budget Stabilization One-Time Reserve, which is eligible to be allocated to capital and other one-time expenditures. Monies in the City Reserve are available to provide budgetary support in years when General Fund revenues are projected to decrease from prior-year levels (or, in the case of a multi-year downturn, the highest of any previous year's total General Fund revenues). Monies in the Rainy Day One-Time Reserve are available for capital and other one-time spending initiatives.

Budget Stabilization Reserve

The City maintains a Budget Stabilization Reserve, as shown on the third line of Table A-4 below. The Budget Stabilization Reserve augments the Rainy Day Reserve and is funded through the dedication of 75% of certain volatile revenues, including Real Property Transfer Tax ("RPTT") receipts in excess of the rolling five-year annual average (adjusting for the effect of any rate increases approved by voters), funds from the sale of assets, and year-end unassigned General Fund balances beyond the amount assumed as a source in the subsequent year's budget.

The combined value of the Budget Stabilization Reserve and the Budget Stabilization One-Time Reserve was \$330.0 million at the end of fiscal year 2023-24, with an ending balance of \$275.1 million in the Budget Stabilization Reserve and \$54.8 million in the Budget Stabilization One-Time Reserve. As with the Rainy Day Reserve under Proposition C, the City is not permitted to withdraw from the Budget Stabilization Reserve in fiscal years 2023-24, 2024-25 or 2025-26, maintaining the fiscal year 2022-23 balance of \$275.2 million.

The Budget Stabilization Reserve has the same withdrawal requirements as the Rainy Day Reserve. Withdrawals are structured to occur over a period of three years: in the first year of a downturn, a maximum of 30% of the combined value of the Rainy Day Reserve and Budget Stabilization Reserve could be drawn; in the second year, the maximum withdrawal is 50%; and, in the third year, the entire remaining balance may be drawn. No deposits are required in years when the City is permitted to withdraw.

Salaries, Benefits and Litigation Reserves

The City maintains two reserves to offset potential expenses, which are available to City departments through a Controller's Office review and approval process. These are shown in the "assigned, not available for appropriation," and "assigned and unassigned, available for appropriation" sections of Table A-4 below. These include the Salaries and Benefit Reserve (balance of \$1.8 million as of fiscal year 2023-24) and the Litigation Reserve. The Litigation Reserve and Public Health Management Reserve (balance of \$282.7 million in fiscal year 2023-24) are combined for reporting purposes. The purpose of the latter is to manage patient revenue volatility in the Department of Public Health.

General Reserve

The City maintains a General Reserve, shown as part of "Unassigned for General Reserve" in the "assigned and unassigned, available for appropriation" section of Table A-4 below. The fiscal year 2023-24 balance of \$135.7 million includes \$128.1 million of General Reserve, as well as two smaller, unrelated reserves. On December 16, 2014, the Board of Supervisors adopted financial policies which increased the City's General Reserve from 2% to 3% of General Fund revenues between fiscal year 2017-18 and fiscal year 2020-21 while reducing the required deposit to 1.5% of General Fund revenues in years when the City appropriates a withdrawal from the Rainy Day reserve. The intent of this policy change was to increase reserves available during a multi-year downturn. In fiscal years 2020-21 and 2021-22, the City withdrew from the Rainy Day Reserve and reset its General Fund Reserve deposit requirement to 1.5% of General Fund revenues in those years. See "CITY BUDGET – Five-Year Financial Plan Update: FY 2025-26 through FY 2029-30 and FY 2025-26 Mayor's Budget Instructions" for a summary of the most recent projections.

Fiscal Cliff Reserve

The Fiscal Cliff Reserve was created for the purpose of managing projected budget shortfalls following the spend down of federal and state pandemic stimulus funds and other one-time sources. In fiscal year 2021-22, \$64.2 million of the Fiscal Cliff Reserve was appropriated through a supplemental appropriation ordinance for rent relief and social housing. As a result, the fiscal year 2021-22 reserve balance was \$229.8 million. The fiscal year 2022-23 and 2023-24 budgets appropriated \$9.3 million and \$90.2 million respectively. However, given the City's fiscal year 2023-24 results, the City only needed to use \$38.0 million leaving a balance of \$182.4 million for future years.

Operating Cash Reserve

Although not shown in Table A-3, under the City Charter, the Treasurer, upon recommendation of the City Controller, is authorized to transfer legally available moneys to the City's operating cash reserve from any unencumbered funds then held in the City's pooled investment fund (which contains cash for all pool participants, including city departments and external agencies such as San Francisco Unified School District and City College). The operating cash reserve is available to cover cash flow deficits in various City funds, including the City's General Fund. From time to time, the Treasurer has transferred unencumbered moneys in the pooled investment fund to the operating cash reserve to cover temporary cash flow deficits in the General Fund and other City funds. Any such transfers must be repaid within the same fiscal year in which the transfer was made, together with interest at the rate earned on the pooled funds at the time the funds were used. See "INVESTMENT OF CITY FUNDS – Investment Policy" herein.

Recent Reports

The following sections describe recent reports on the City's financial condition, presented with the most recent report first, followed by prior reports.

February 2025 Six-Month Report

On February 18, 2025, the Controller's Office issued the Six-Month Budget Status Report (the "February 2025 Six-Month Report"). The February 2025 Six-Month Report noted that:

- The Controller's Office projects a \$367.2 million General Fund ending balance in Fiscal Year 2024-25, a \$35.7 million improvement from the \$331.5 million balance in the December 2024 Five-Year Plan. Application of this additional current year fund balance would decrease the projected shortfall in the upcoming two-year budget to \$840.2 million from the previous projected shortfall of an \$875.9 million. However, significant risks to this projection remain, most notably from uncertainty in the economy and potential policy changes affecting federal revenue.
- Citywide revenues are projected to be \$114.1 million below the FY25 & FY26 Original Budget, or \$68.5 million below the projection for Fiscal Year 2024-25 in the December 2024 Five-Year Plan. Property tax is projected to be \$55.8 million below the FY25 & FY26 Original Budget as figures are updated to increase appeals reserves to reflect appeals filed by the September 2024 filing deadline and refunds of taxes paid year to date. Business tax revenue is projected to be \$22.8 million below budget as Proposition M approved by the voters in November 2024 eliminated a scheduled tax increase. Shortfalls in sales tax revenues (including realignment) reflect year to date weakness in cash receipts at both the local and state levels. The projected shortfall in hotel tax is based on weak receipts in the first half of the fiscal year and assumed improvement in the second half. These shortfalls are partially offset by strength in real property transfer tax revenue and interest income.
- Departments are projected to end Fiscal Year 2024-25 with a \$97.7 million net surplus including:
 - A total of \$19.9 million of expenditure savings from the close out of continuing projects, including \$10.5 million at the Department of Children, Youth and Their Families and \$3.0 million at the Mayor's Office of Housing and Community Development. Amounts that require Board of Supervisors approval to deappropriate will be noted in the Controller's June 2025 Revenue Letter and will be placed on Mayor's reserve in the interim. In addition, \$2.5 million of annual project expenditures at the Department of Public Health related to sugary drinks distributor tax programs will be placed on reserve.
 - A total of \$77.8 million in operating savings identified by departments includes a net \$40.0 million revenue surplus and \$37.8 million in expenditure savings, primarily generated as a result of a September 2024 Mayor's Office mid-year personnel savings target of 3.5%, additional hiring restrictions announced by the Mayor's Office in January 2025, and other operating conditions. The Department of Public Health is projected to have a \$61.6 million surplus, including \$59.0 million in revenue above budget due to surplus San Francisco Health Network revenue, partially offset by a patient revenue shortfall at Laguna Honda Hospital caused by the pause on new admissions during recertification. An operating surplus of \$16.7 million at the Human Services Agency is offset by revenue shortfalls at Public Works and City Planning and overspending at the Sheriff's department.
- The Police, Fire, Emergency Management and Sheriff's departments, and the Public Utilities Commission, will require additional supplemental appropriations for overtime. To the extent these are not funded by reallocation of existing expenditure appropriation, such supplementals could reduce available fund balance. Any additional supplemental appropriations using projected revenue surpluses or

expenditure savings displayed in this report will reduce fund balance available to solve the projected FY 2025-26 and FY 2026-27 shortfall identified in the December 2024 Five-Year Plan.

- Projections assume no changes to federal revenue related to the new federal administration’s proposed funding freezes or rescission of funds, but this remains a source of budgetary uncertainty. Since January 20, 2025, the new federal administration has issued a number of Executive Orders and agency directives to eliminate, reduce, or condition federal funding based on the President's immigration, LGBTQ+, energy, and DEI/DEIA program policy preferences. The Office of Management and Budget (“OMB”) announced a federal funding freeze on January 27, 2025 and rescinded the funding freeze memo on January 29, 2025 after a pair of legal challenges. Two courts have since entered temporary restraining orders after concluding that freezing federal assistance was likely illegal. But, that litigation and the threat to the City’s federal funding remain ongoing. For example, the courts may lift part or all of the funding freeze. In addition, other federal agencies continue to initiate processes to implement the administration's desired funding cuts. The City Attorney’s Office is working with the Mayor’s Office and City departments to evaluate legal options to protect federal funds received by the City.

Specifically, the FY25 & FY26 Original Budget assumes \$80.0 million of FEMA reimbursements for COVID response costs, of which \$51.7 million is confirmed in the current year to date, and the projection currently assumes total reimbursements at budgeted levels. COVID claims are currently undergoing eligibility reviews by CalOES (California Office of Emergency Services). The City has the option to appeal costs deemed ineligible. See “BUDGETARY RISKS - Impact of Federal Government on Local Finances.”

[Remainder of Page Intentionally Left Blank]

The following table shows variances between the FY25 & FY26 Original Budget, the December 2024 Five-Year Plan and the February 2025 Six-Month Report. The February 2025 Six-Month Report notes that the variances from the December 2024 Five-Year Plan are largely due to worsening expectations for property, hotel and sales taxes.

General Fund Citywide Revenues Variances to Budget (\$ millions)

	Fiscal Year 2023-24	Fiscal Year 2024-25			Variance in February 2025 Six-Month Report	
			December 2024 Five- Year Plan	February 2025 Six- Month Report	Vs December 2024 Five- Year Plan	
	Actuals	FY25 & FY26 Original Budget			Vs Adopted Budget

December 2024 Five-Year Plan and FY26 Mayor’s Budget Instructions

The Five-Year Financial Plan (the “Five-Year Plan”) is required under Proposition A, a charter amendment approved by voters in November 2009. The Charter requires that, every two years, the City must forecast expenditures and revenues for the next five fiscal years, propose actions to balance revenues and expenditures during each year of the Plan, and discuss strategic goals and corresponding resources for City departments. The Charter also requires that by March 1 of each odd-numbered year, the Mayor submit a Five-Year Plan to the Board. The City’s Administrative Code requires that by March 1 of each even-numbered year, the Mayor, Board of Supervisor’s Budget Analyst, and Controller submit an updated estimate for the remaining four years of the most recently adopted Five-Year Plan.

On December 18, 2024, the Mayor's Office, Controller's Office, and Board of Supervisors Budget and Legislative Analyst's Office issued the “Proposed Five-Year Financial Plan Fiscal Years 2025-26 through 2029-30” (the “December 2024 Five-Year Plan”). The December 2024 Five-Year Plan projects that that, over the next five years, the City’s revenue outlook will improve, supported by recent changes in San Francisco’s tax structure

and modest economic growth. However, this improvement will be tempered by post-pandemic economic realities and the depletion of one-time funding sources. At the same time, the cost of City services is projected to grow significantly, surpassing revenue growth each year of the five-year period.

The City anticipates budget deficits in each of the next five years without proactive measures taken to address the imbalance between revenues and expenditures. Unlike the significant budget shortfalls that followed the 2001 and 2008 recessions, the current outlook highlights longer-term structural challenges, even without the occurrence of another recession. Given this economic context, the fiscal strategies outlined emphasize implementing ongoing spending reductions to balance the budget in each year. These reductions are grouped into the main categories of labor, infrastructure, and contracts.

The December 2024 Five-Year Plan states it was issued during a period of transition, as the City transitioned from the administration of Mayor London Breed to that of Mayor Daniel Lurie, who assumed office on January 8, 2025. The December 2024 Five-Year Plan notes that, as the incoming administration refines its policy priorities within the constraints of the two-year and long-term structural deficits, the December 2024 Five-Year Plan provides a high-level framework to inform decision making.

The following table is excerpted from the December 2024 Five-Year Plan and sets forth projected changes from the Annual Appropriations Ordinance (“AAO”) Budget for fiscal year 2025-26. (The AAO is the legislation adopted after the Board of Supervisors reviews and amends the Mayor’s Proposed Budget that enacts the annual budget).

The remainder of this section summarizes certain information from the December 2024 Five-Year Plan.

Key assumptions in the December 2024 Five-Year Plan: The December 2024 Five-Year Plan noted key assumptions, including the following:

- *No major changes to service levels or number of employees:* The December 2024 Five-Year Plan projection assumes no major changes to policies, service levels, or the number of employees from previously adopted fiscal year 2024-25 and fiscal 2025-26 budgeted levels unless specified below.
- *Weak growth but no recession:* The December 2024 Five-Year Plan projection report assumes changes in office use that occurred during the pandemic will continue, affecting commercial and residential real estate and taxable gross receipts. The recovery in travel and tourism is slower than prior forecasts, reflecting weakness in business travel and convention activity.
- *Implementation of measures adopted by voters in the November 2024 election:* The December 2024 Five-Year Plan projections assume additional expenditures and changes in business tax revenue resulting required by the measures enacted by the voters in November 2024.
- *Previously negotiated wage increases and inflationary increases for open contracts in line with CPI:* The December 2024 Five-Year Plan projection reflects the additional salary and benefit costs for previously negotiated, closed labor agreements. After the expiration of closed contracts, the December 2024 Five-Year Plan projects salary increases equal to the change in CPI of 2.67% in fiscal year 2026-27, 2.69% in fiscal year 2027-28, 2.41% in fiscal year 2028-29, and 2.40% in fiscal year 2029-30.
- *Pension investment returns meet expectations and assume a partial supplemental COLA:* The December 2024 Five-Year Plan projection assumes a return on San Francisco Employees' Retirement System (SFERS) assets of 7.2 percent, the actuarially assumed rate of return. Under the City Charter, returns of 7.3 percent starts to generate a trigger a supplemental COLA for the non-Prop C retirees. The projection assumes half of a full supplemental COLA each year for non-Prop C retirees. The impact of future supplemental COLA on contribution rates and funded status is most negative when investment returns are just high enough to trigger a full supplemental COLA. Since preparing the estimated cost of

retirement, the Retirement Board on December 11, 2024 reported that the fiscal year 2024 returns triggered a supplemental COLA that resulted in an additional 0.5% increase for non-Prop C retirees. The forecast update in March 2025 will incorporate this update, along with other new information.

- *Health insurance cost increases:* Based on healthcare utilization trends and benchmarks, the December 2024 Five-Year Plan projection assumes that the employer share of health insurance costs for active employees will increase an average of 6.1 percent annually over the five years. Retiree health costs are assumed to grow by an average of 7.4 percent annually over the five years.
- *Inflationary increase on non-personnel operating costs:* The December 2024 Five-Year Plan projection assumes that the cost of materials and supplies, professional services, contracts with community-based organizations, and other non-personnel operating costs will increase by the rate of Consumer Price Index (CPI) starting in fiscal year 2025-26 and thereafter. The projection reflects the adopted fiscal year 2024-25 and fiscal year 2025-26 budget, which included a 3.0% cost-of-doing business increase for General Fund nonprofit contracts in fiscal year 2024-25 and remained flat in fiscal year 2025-26.
- *Deposits to and withdrawals from reserves:* Because General Fund revenue is forecasted to grow slowly year-over-year, the City is not eligible to withdraw from its Rainy Day or Budget Stabilization reserves. The projection assumes \$138.0 million of withdrawals from other reserves as approved in the adopted fiscal year 2024-25 and fiscal year 2025-26 budget. In accordance with Administrative Code Section 10.60(b), deposits to the General Reserve are assumed in all years of the plan period, increasing from 2.5 percent of General Fund revenue in fiscal year 2025-26 to 3.0 percent in fiscal year 2027-28. Deposits to the Budget Stabilization Reserve are expected in fiscal year 2026-27 through fiscal year 2029-30, as real property transfer tax revenues exceed the prior five-year average.
- *State fiscal condition:* The December 2024 Five-Year Plan currently assumes excess ERAF revenue of \$298.0 million in fiscal year 2024-25, \$264.6 million in fiscal year 2025-26, \$239.3 million in fiscal year 2026-27, \$230.8 million in fiscal year 2027-28, \$235.1 million in fiscal year 2028-29, and \$245.2 million in fiscal year 2029-30. In its November 2024 multi-year budget outlook, the state Legislative Analyst's Office projects the state's fiscal year 2025-26 General Fund budget will likely remain balanced, as spending increases are projected to be offset by the recent stock market rally, which increased earnings of the highest-income residents and state income tax revenue. However, given underlying weakness in employment and consumer spending, anticipated annual revenue growth of 4.0 percent will not keep pace with spending growth of 5.8 percent through the forecast period, resulting in deficits from fiscal year 2026-27 onward. The City should therefore be prepared for continued legislative proposals to shift more ERAF to schools, which would reduce state school funding burdens and reduce excess ERAF that reverts to the City. In addition, any deficit would likely reduce discretionary state funding for housing, criminal justice, and other local government grants.

Key factors that could affect the projections: The December 2024 Five-Year Plan noted key factors that could materially impact the City's financial condition, including the following:

- *Inflationary pressures lead to higher interest rates and slower, or negative, economic growth.* The December 2024 Five-Year Plan assumes very modest revenue growth over the forecast period given continued but tepid economic recovery. It does not assume a recession. If policy and economic factors tip the nation into recession, and if local policymakers chose to completely deplete the City's economic stabilization reserves to manage it, we estimate such a recession would increase the total shortfall amount by \$339.0 million over the forecast period.
- *Pending or proposed new programs or legislation:* No pending or proposed legislative changes with a fiscal impact are assumed in the December 2024 Five-Year Plan. Legislation adopted by the Mayor and Board of Supervisors with a fiscal impact would increase the projected shortfalls. Several appropriations

for new program initiatives are pending at the Board of Supervisors, and others may be proposed. Subsequent projections will include impacts from any final adopted legislation.

- *New business tax structure:* Administrative decisions including methods of apportionment and business decisions to delay filings as allowed by Measure M that are different than those assumed in this forecast could affect revenue amounts and timing.
- *State fiscal condition:* The December 2024 Five-Year Plan projections assume state subvention revenues updated for fiscal year 2023-24 year-end results and current statewide sales tax projections, and that excess ERAF allocations continue under existing law. As a result of potential State financial stress, the City should anticipate legislative proposals to reduce the state's school funding burden by increasing schools' ERAF draws, which would reduce excess ERAF that reverts to the City. In addition, discretionary state funding for housing, criminal justice, and other local government grants could decline.
- *Federal funding changes:* The fiscal year 2024-25 budget includes approximately \$1.8 billion in federal funding, including funds received directly from the federal government and federal funding that is passed through the state. Health care services are the single largest program funded through the federal budget, largely via Medicare and Medicaid. To the extent the new presidential administration and Congress pursue changes to health care programs, these could affect City revenues and expenditures. For example, previously proposed actions such as reducing health insurance premium subsidies under the Affordable Care Act would likely reduce coverage and increase the demand for uncompensated services in the public health care system, as would seeking to reduce Medicaid enrollment by reducing matching funds for states and imposing work requirements and benefit limits. The forecast assumes no changes to federal policy regarding these or any other programs, and assumes the City is reimbursed for just under \$245 million of pandemic and winter storm emergency response costs, which are subject to Congressional appropriation.

Potential Corrective Strategies: The December 2024 Five-Year Plan notes that the deficit projections reflects the long-term structural deficit and post-COVID-19 economic realities challenging San Francisco. Each year between fiscal year 2025-26 and fiscal year 2029-30, the budget gap is projected to grow by between \$280 million and \$460 million. To the extent each year's budget is not balanced with ongoing solutions, it exacerbates the shortfall, resulting in the approximately \$1.5 billion annual deficit by fiscal year 2029-30. Current possible strategies to address the immediate \$876 million two-year budget deficit identified in the December 2024 Five-Year Plan, as well as the longer-term projected five-year deficit, focus on spending reductions and are divided into departmental solutions and Citywide policy decisions.

Additionally, identifying redundancies in City operations offers a cross-departmental opportunity for ongoing savings. City leaders will review proposed savings from departments and Citywide stakeholders that aim to eliminate duplicate efforts, consolidate and centralize functions, and promote long-term efficiency. This initiative is supported by the Mayor's budget instructions, which require departments to reorganize, eliminate redundancies, and identify consolidation opportunities.

The December 2024 Five-Year Plan notes that all departments meeting the required budget targets identified in the FY 2025-26 Mayor's Budget Instructions will generate sufficient savings to close approximately \$815 million, or 93 percent, of the currently projected two-year \$876 million deficit. The main cost categories for City leaders to consider are labor, infrastructure, and contracted services (including grants).

Recession Planning Scenarios: The December 2024 Five-Year Plan contains a planning scenario which assumes a hypothetical recession beginning in late fiscal year 2024-25, with revenues declines by the average percent decline seen in the prior recessions in the early 2000's and in 2008 and following years. Projected net revenue losses (after taking into account reduced reserve deposits and the use of \$389.7 million in economic

stabilization reserves) would result in a net remaining deficit of approximately \$1,311.6 million over the five-year period.

FY26 Mayor's Budget Instructions

In December 2024, the Mayor's Office issued budget instructions (the "FY26 Mayor's Budget Instructions"), which contained a summary of the findings in the December 2024 Five-Year Plan, including the significant deficits contained therein. The FY 2025-26 Mayor's Budget Instructions also note that, since the COVID pandemic, the City has relied heavily on one-time sources to balance recent budgets. These one-time sources include federal disaster relief, and use of General Fund reserves and fund balance. (The FY 2025-26 Mayor's Budget Instructions noted that there is significant uncertainty in as to receiving outstanding FEMA reimbursements.) These one-time sources are expected to be depleted by the end of fiscal year 2027-28.

The FY26 Mayor's Budget Instructions also identify particular risks including revenue losses to the City which may result from State financial difficulties, federal policies implemented by the incoming Trump administration, declining property values resulting from assessment appeals, and business tax appeals which threaten over \$400 million in business tax revenue. The FY26 Mayor's Budget Instructions also noted that health care costs escalation has increased, office vacancies remain elevated, and hospitality industry recovery is slowing.

As a result of the foregoing, the FY26 Mayor's Budget Instructions to departments direct ongoing, permanent spending reductions of 15% starting in fiscal year 2025-26, a re-examination of all contractual services and non-personnel expenditures, elimination of positions that are currently vacant, the consideration of future hiring freezes, and cessation of overnight and air travel.

Subsequent to the issuance of the FY 2025-26 Mayor's Budget Instructions, on January 9, 2025, Mayor Lurie announced a Citywide hiring freeze through the end of the fiscal year. Certain exemptions will be permitted including new hires to support public health, public safety, and other core City priorities.

FY25 & FY26 Original Budget and Revenue Letter

The FY25 & FY26 Original Budget was approved by the Board of Supervisors on July 30, 2024, and signed by the Mayor on August 1, 2024. See "CITY BUDGET – Budget Process" for additional detail. The FY25 & FY26 Original Budget reflects \$15.9 billion of expenditures in fiscal year 2024-25 and \$15.5 billion in fiscal year 2025-26. The \$789.3 million two-year shortfall projected during development of the budget was addressed primarily through the use of \$135.7 million of fund balance, \$236.6 million in projected revenue increases, and \$68.8 million use of special funds, as well as \$302.0 million of net departmental budget reductions and other operating savings. (Such operating savings were offset by increases in capital and information technology costs and new labor costs.)

The Charter requires that the Controller comment on revenue estimates assumed in the Mayor's fiscal year 2024-25 and fiscal year 2025-26 proposed budget. These comments were issued in the Revenue Letter on June 10, 2024. The revenue estimates assumed in the proposed budget were not materially different from the budget finally passed and approved later in the summer.

As described herein, subsequent reports have been issued, which have also identified financial pressures.

While the Controller found the revenue assumptions in the Mayor's proposed budget to be reasonable, the Controller noted that the City faces several key financial risks in upcoming fiscal years. These risks include: the projected structural budget gap following depletion of one-time funds; economic risk; funding uncertainty at Laguna Honda Hospital; State budget revenue risk; disallowance of claims for federal revenues assumed in the City's emergency response budgets; and potential cost increases resulting from November 2024 ballot measures.

Key findings in the June 2024 Revenue Letter included:

- **Tax revenue projections generally assume a continuing but slow economic recovery from the pandemic, with a significant drag created by the continuing effect of remote office work on economic activity in the City.** Most economically sensitive taxes, such as sales and hotel taxes, are projected to grow slowly during the coming two years, but in most cases remain below pre-pandemic levels. Remote work and high interest rates are projected to continue to have significant impacts on the City's property, business, and property transfer taxes. Tax increases adopted by the voters in recent years are projected to contribute to modest overall General Fund tax revenue growth of 2.2% in fiscal year 2024-25 compared to the fiscal year 2023-24 Nine Month Report and 3.5% in fiscal year 2025-26 compared to fiscal year 2024-25 projection.
- **The proposed budget assumes \$1 billion of General Fund-related one-time solutions over the two budget years.** These include drawdown of \$445.5 million in prior year fund balance, including \$106.1 million in prior year General Fund appropriations the Mayor's budget proposes to close. While deficit forecasts in the most recent update to the Five-Year Financial Plan assumed available fund balance to be used evenly across the first three years of the forecast, the proposed budget accelerates the use of fund balance, spending \$45.2 million previously held to address the fiscal year 2026-27 shortfall. It also assumes \$235.7 million of FEMA reimbursement for previously incurred emergency response costs; \$138.3 million of reserve drawdowns; and at least \$82.5 million of other one-time revenue in General Fund-supported funds. Additionally, the budget proposes at least \$137.6 million of short-term cost shifts in other funds, with a significant portion designed to achieve General Fund savings.
- **The budget draws on available reserves but maintains the City's economic stabilization reserves.** The proposed budget uses \$138.3 million of reserves funded in prior years and maintains the current balance of \$389.7 million in the combined Rainy Day and Budget Stabilization reserves (also known as combined "Economic Stabilization Reserves"), as the City is not expected to be eligible to withdraw from or deposit to these reserves. Required General Reserve funding levels are maintained in the proposed budget. Excluding economic stabilization reserves, by the end of the two-year budget period, the City is expected to have \$304.6 million (or 38%) of its roughly \$800 million of pre-pandemic reserves available for on-going operations.
- **The proposed budget makes minimal progress towards closing projected structural budget gaps in years beyond the coming two-year budget period.** As one-time solutions are depleted, the structural budget gap will become larger, making future budgets more difficult to close. In March 2024 the City forecasted a structural budget gap of \$927 million in fiscal year 2026-27, growing in subsequent years, absent ongoing corrective action by policy makers. Based on the mix of ongoing and one-time solutions proposed in the Mayor's budget, as well as known labor contract costs above the previously assumed levels in fiscal year 2026-27, the shortfall likely remains more than \$800 million in fiscal year 2026-27, growing in subsequent years.
- **The final adopted budget will require active monitoring and management by the Mayor and Board of Supervisors given a number of economic and financial risks. These risks include the possibility of a slowing economic recovery or a recession, risks associated with both State and Federal revenue streams, and financial impacts of potential November 2024 ballot measures.**

BUDGETARY RISKS

In addition to the budgetary risks described below, see "CITY BUDGET – FY25 & FY26 Original Budget and Revenue Letter".

Threat of Recession

An economic recession could adversely impact the City's economy and the financial condition of the General Fund. During the "Great Recession" that occurred nationally from December 2007 to June 2009 (according to the U.S. National Bureau of Economic Research), California real GDP growth slowed for five consecutive quarters from the third quarter of 2008 to the third quarter of 2009 and did not return to pre-recession level of output until three years later in the third quarter of 2012. The unemployment rate rose steadily from 4.9% in the fourth quarter of 2006 to peak at 12.3% in the fourth quarter of 2010 and did not return to the pre-recession level until the second quarter of 2017.

Impact of Commuting Pattern Changes on Business Taxes

The persistence of remote work results in continued pressure on the City's General Fund revenues. Approximately half of workers in major tax-paying sectors such as professional services, financial services, and information live outside of San Francisco. Continued high levels of telecommuting and work from anywhere policies may affect how much of any business's gross receipts are apportionable to the City. Muni metro and downtown BART ridership have not returned to pre-pandemic levels. Indicators of auto use – bridge crossings and freeway speed – both indicate less traffic. As of October 2024, bridge crossings into and out of the City have reached to about 93% of pre-pandemic levels. Comparatively, the bridge crossings were at their post-pandemic peak in October 2023 at approximately 91% of pre-pandemic levels.

Businesses owe gross receipts tax only on their employees physically working within the City. For certain categories of businesses, the gross receipts tax is also dependent on their San Francisco payroll. Thus, the sharp rise in telecommuting has resulted in reduced business taxes and, if the change becomes permanent, could negatively impact the City for the foreseeable future. Although some City residents who previously commuted out of the City are now telecommuting from within the City, many of these residents work for employers who do not have a nexus in the City, and thus are not subject to business taxes.

Office Vacancy in San Francisco; Impact on Property Taxes and Other Revenues

The City has experienced the largest increase in office vacancy among major urban office markets in the United States, from 5.6% in the 4th quarter of 2019 to 34.5% in the 3rd quarter of 2024. The high vacancy rate, along with continuing uncertainty regarding the return-to-office plans of major office tenants, has reduced both the volume of office transactions, and the per-square foot value of these sales. According to CoStar, downtown office sales transactions have averaged 5-6 per quarter since 2020, down from an average of 10-20 per quarter before the pandemic. The per-square foot market value of office properties in the City is, as of the 3rd quarter of 2024, down 40% from the pre-pandemic high of \$860 per square foot, across all property classes.

The market value of commercial real estate reflects the current and future income that the market expects the property to generate. If expectations of future income streams are reduced, then the market value of office properties will be reduced.

A reduction in demand from tenants is not the only thing that could reduce the market value of San Francisco office buildings in the near future. Using an income valuation approach, the market value of properties is commonly estimated as the property's net operating income, divided by its capitalization rate (its effective rate of return). Capitalization rates are generally calculated from the sales of comparable properties, and vary across markets, and over time, according to changes in investors' perception of risk, and the risk-free rate of return. When investors perceive greater risk, they require a higher rate of return, and the spread between that asset's capitalization rate and the risk-free rate widens. When the capitalization rate rises, for whatever reason, the market value of a property will decline, all other things being equal.

The market value of a property is important for property tax revenue because a property's assessed value – the basis of its property tax liability – may not exceed its market value. If a property owner believes a property

is assessed above its market value, they can request a reduction in assessment from the Assessor, and/or appeal a decision to the Assessment Appeals Board. The gap between current market and assessed values is narrowed somewhat by the effect of Proposition 13, which caps growth in assessed value at 2% per year unless a sale or new construction prompts a reassessment. Given that market values have typically increased at much higher rates over the years, properties that have not been recently sold have been assessed below market value. In other words, Proposition 13 effectively cushions the City's property tax base from downturns in property markets, at the cost of reduced growth in property tax revenue during periods of strong economic growth.

Given assessment appeal hearing timelines, there is a significant lag between the filing of appeals and completion of hearings at the Assessment Appeals Board ("AAB"). As of June 30, 2024, the City is holding \$217.3 million in AAB reserves for the General Fund's portion of refunds on approximately \$37.5 billion in prior years' assessed value reductions, plus interest. Reserve balances are projected to grow given the capacity for hearings and requests for delays from commercial property owners' agents. As of the December 2024 Five-Year Plan, General Fund property tax revenue required to pay refunds that result from AAB decisions is estimated at \$105.3 million for fiscal 2024-25, \$135.9 million for fiscal year 2025-26, \$163.8 million for fiscal year 2026-27, \$153.5 million for fiscal year 2027-28, \$132.2 million for fiscal year 2028-29, and \$107.7 million for fiscal year 2029-30, respectively, directly reducing property tax revenue in the year of deposit.

The City cannot predict the actual level of revenue losses, however the City will continue to account for these trends in its periodic reports.

Business Tax Litigation

As of June 30, 2024, the City has reserved \$572 million of tax collections for litigation risk associated with its various business taxes, including approximately \$292 million for gross receipts tax and \$238 million for homelessness gross receipts tax. The majority of the litigation and claims relate to the validity, methodology and/or calculation of the various business taxes. The amount of claims and litigation continues to increase. Although more than 10,000 businesses pay the gross receipts tax that accrues to the General Fund, the top ten payers accounted for 27% of the revenue in tax year 2022. The top ten payers accounted for 28.7% of all business taxes – including gross receipts, homelessness gross receipts, commercial rents, and overpaid executive taxes – in tax year 2023. The legal issues raised vary by claimant and are generally in the early stages of the claims and litigation process.

In addition, in December 2024, a ride share company challenged \$100 million in business taxes imposed by the City over the last five years.

The City is vigorously defending itself in these matters. However, there can be no assurances that the final determination of particular claims or litigation matters would not be applicable to other similarly situated taxpayers in the City and thus have broader applicability, and correspondingly increase the City's financial exposure. The City can make no assurances that the actual final impact to the City of the current and potential future claims and litigation related to the City's various business taxes will not significantly exceed amounts currently reserved.

Impact of the State of California Budget on Local Finances

Revenues from the State represent approximately 10% of the General Fund revenues appropriated in the Original Budget for fiscal years 2024-25 and 2025-26, and thus changes in State revenues could have a material impact on the City's finances. In a typical year, the Governor releases two primary proposed budget documents: 1) the Governor's Proposed Budget required to be submitted in January; and 2) the "May Revise" to the Governor's Proposed Budget. The Governor's Proposed Budget is then considered and typically revised by the State Legislature. Following that process, the State Legislature adopts, and the Governor signs, the State budget. City policy makers review and estimate the impact of both the Governor's Proposed and May Revise Budgets prior to the City adopting its own budget.

The State budget for fiscal year 2024-25, enacted in June 2024, addressed an estimated multi-year shortfall of \$46.8 billion. The State budget assumes continued but slowing economic growth, but does not assume a recession will occur.

Potential City Acquisition of PG&E Distribution Assets

On January 29, 2019, PG&E filed for Chapter 11 bankruptcy protection to shield itself from potential wildfire liability that was estimated in excess of \$30 billion. Taxes and fees paid by PG&E to the City total approximately \$75 million annually and include property taxes, franchise fees and business taxes, as well as the utility user taxes it remits on behalf of its customers. On June 20, 2020, the United States Bankruptcy Court for the Northern District of California confirmed PG&E's Plan of Reorganization, and on July 1, 2020 PG&E announced that it had emerged from Chapter 11 bankruptcy.

During the pendency of the PG&E bankruptcy, on September 6, 2019 the City submitted a non-binding indication of interest to PG&E and PG&E Corporation to purchase substantially all of PG&E's electric distribution and transmission assets needed to provide retail electric service to all electricity customers within the geographic boundaries of the City (the "Target Assets") for a purchase price of \$2.5 billion (such transaction, the "Proposed Transaction"). In a letter dated October 7, 2019, PG&E declined the City's offer. On November 4, 2019, the City sent PG&E a follow-up letter reiterating its interest in acquiring the Target Assets. To demonstrate public support for the Proposed Transaction, on January 14, 2020, the City's Board of Supervisors and SFPUC's Commission conditionally authorized the sale of up to \$3.065 billion of Power Enterprise Revenue Bonds to finance the acquisition of the Target Assets and related costs, subject to specific conditions set forth in each authorizing resolution.

On July 27, 2021, the City submitted a petition with the California Public Utilities Commission (the "CPUC") seeking formal determination of the value of PG&E's local electric infrastructure. The matter is pending before the CPUC and the City can give no assurance about whether or when the CPUC will hold a hearing on the matter.

The City is unable to predict whether it will be able to consummate a final negotiated acquisition price for the Target Assets and, if so, the terms thereof. Any such final terms would be subject to approval by the Board of Supervisors and SFPUC. If consummated, it is expected that such new electric system would be wholly supported by its own revenues, and no revenues of the City's General Fund would be available to pay for system operations, or City General Fund secured bonds issued to acquire the Target Assets. The City is committed to acquiring PG&E's assets and expects to continue its pursuit with the newly reorganized entity.

Impact of Federal Government on Local Finances

The City receives substantial federal funds for assistance payments, social service programs and other programs. A portion of the City's assets are also invested in securities of the United States government. The City's finances may be adversely impacted by fiscal matters at the federal level, including but not limited to cuts to federal spending.

In the event Congress and the President fail to enact appropriations, budgets or debt ceiling increases on a timely basis in the future, such events could have a material adverse effect on the financial markets and economic conditions in the United States and an adverse impact on the City's finances. The City cannot predict the outcome of future federal budget deliberations and the impact that such budgets will have on the City's finances and operations. The City's General Fund and hospitals, which are supported by the General Fund, collectively receive over \$1 billion annually in federal subventions for entitlement programs, the large majority of which are reimbursements for care provided to Medicaid and Medicare recipients. In addition, tens of thousands of San Franciscans receive federal subsidies to purchase private insurance on the State's health care exchange, Covered California. Efforts to change such subsidies or alter provisions of the Affordable Care Act through regulatory changes could have significant effects on future health care costs.

In addition, there be no assurances that the new Presidential administration will not adopt new federal policies, or revise existing policies, or otherwise takes action, in a manner that materially adversely impacts the City's finances. Projections assume no changes to federal revenue related to the new federal administration's proposed funding freezes or rescission of funds, but this remains a source of budgetary uncertainty. Since January 20, 2025, the new federal administration has issued a number of Executive Orders and agency directives to eliminate, reduce, or condition federal funding based on the President's immigration, LGBTQ+, energy, and DEI/DEIA program policy preferences. Litigation has been brought challenging certain actions by the federal administration. Notwithstanding, the threat to the City's federal funding remains ongoing.

On February 19, 2025, President Trump issued an Executive Order targeting sanctuary cities and purporting to prohibit use of federal funds by cities in certain ways related to undocumented immigrants. The City is reviewing such Order and its impact on City finances, if any, cannot be predicted at this time.

The federal government provided significant funding to local governments to respond to the public health emergency and mitigate the fiscal effect of the COVID-19 pandemic. The City spent the entirety of its General Fund allocations of Coronavirus Aid, Relief, and Economic Security Act and American Rescue Plan Act State and Local Fiscal Recovery Fund monies as of fiscal year 2021-22 and is awaiting reimbursement of emergency response costs submitted to the FEMA. In fiscal year 2023-24, the City originally budgeted \$170.0 million of FEMA reimbursements. By May 2024, that estimate was revised down to \$116.8 million in that fiscal year, and only \$73.3 million was recorded by year end. In addition to the timing of reimbursements, the City is in communication with both state and federal officials to understand the fiscal effect of recent changes in FEMA cost eligibility guidelines for non-congregate shelter programs, as described above. The December 2024 Five-Year Plan assumes FEMA revenues of \$74.0 million, which is \$1.7 million less than the FY25 & FY26 Original Budget. See "PERIODIC FINANCIAL REPORTING; RECENT REPORTS."

GENERAL FUND REVENUES

The revenues discussed below are recorded in the General Fund, unless otherwise noted.

PROPERTY TAXATION

Property Taxation System – General

The City receives approximately one-third of its total General Fund operating revenues from local property taxes. Property tax revenues result from the application of the appropriate tax rate to the taxable assessed value of property in the City. The City levies property taxes for general operating purposes as well as for the payment of voter-approved bonds. As a county under State law, the City also levies property taxes on behalf of all local agencies with overlapping jurisdiction within the boundaries of the City.

Local property taxation is the responsibility of various City officers. The Assessor identifies all taxable property in the City and County of San Francisco, computes the value of locally assessed taxable property, and applies all legal exemptions. After the assessed roll is closed on June 30, the Controller issues a Certificate of Assessed Valuation in August which certifies the taxable assessed value at the beginning of that fiscal year. The Controller also applies the tax rate factors, including the 1.0% tax authorized by Article XIII A of the State Constitution (and mandated by statute), and tax factors needed to repay voter-approved general obligation bonds on property located in the City. Typically, the Board of Supervisors approves the schedule of tax rates each year by resolution no later than the last working day of September. The Treasurer and Tax Collector prepares and mails tax bills to taxpayers and collects the taxes on behalf of the City and other overlapping taxing agencies that levy taxes on taxable property located in the City. The Treasurer holds and invests City tax funds, including taxes collected for payment of general obligation bonds, and is charged with payment of principal and interest on such bonds when due. The State Board of Equalization assesses certain special classes of property, as described below. See "Taxation of State-Assessed Utility Property" below.

Assessed Valuations, Tax Rates, and Tax Delinquencies

The property tax rate is comprised of two components: 1) the 1.0% countywide portion, and 2) all voter-approved overrides which fund debt service for general obligation bond indebtedness. Table A-5 provides a recent history of assessed valuations of taxable property within the City. Lingered impacts of the COVID-19 pandemic, which triggered business changes such as extended work-from-home policies that resulted in less demand for office spaces, and the substantial increases in borrowing costs (interest rates) resulted in a reduction in property values for certain asset classes in the City and may result in future reductions, which could be material.

The total tax rate shown in Table A-6 includes taxes assessed on behalf of the City as well as the SFUSD, County Office of Education (“SFCOE”), SFCCD, Bay Area Air Quality Management District (“BAAQMD”), and San Francisco Bay Area Rapid Transit District (“BART”), all of which are legal entities separate from the City. See also, Table A-32: “Statement of Direct and Overlapping Debt and Long-Term Obligations.” In addition to *ad valorem* taxes, voter-approved special assessment taxes or direct charges may also appear on a property tax bill.

Additionally, although no additional rate is levied, a portion of property taxes collected within the City is allocated to OCII, the successor agency to the San Francisco Redevelopment Agency, and a number of tax increment financing districts. Property tax revenues attributable to the growth in assessed value of taxable property (known as “tax increment”) within the adopted redevelopment project areas may be utilized by OCII to pay for outstanding and enforceable obligations and a portion of administrative costs of the agency, reducing tax revenues from those parcels located within project areas to the City and other local taxing agencies, including SFUSD and SFCCD. Taxes collected for payment of debt service on general obligation bonds are not affected or diverted. OCII received \$134.0 million of property tax increment in fiscal year 2023-24 for recognized obligations, diverting about \$74.5 million that would have otherwise been apportioned to the City’s General Fund.

The percent collected of property tax (current year levies excluding supplemental) was 98.93% for fiscal year 2023-24.

(1) Net Assessed Valuation (NAV) is Total Assessed Value for Secured and Unsecured Rolls, less Non-reimbursable Exemptions and Homeowner Exemptions.

(2) Annual tax rate for unsecured property is the same rate as the previous year's secured tax rate.

(3) The Total Tax Levy and Total Tax Collected through fiscal year 2023-24 is based on year-end current year secured and unsecured levies as adjusted through roll collections, excluding supplemental assessments, as included in the statistical report received from the Office of the Treasurer and Tax Collector. Total Tax Levy for fiscal year 2024-25 is estimated, based upon initial assessed valuations times the secured property tax rate.

(4) Based on initial assessed valuations for fiscal year 2024-25.

Source: Office of the Controller, City and County of San Francisco.

At the start of fiscal year 2024-25, the total net assessed valuation of taxable property within the City was approximately \$351.3 billion. Of this total, \$334.5 billion (95.2%) represents secured valuations and \$16.8 billion (4.8%) represents unsecured valuations. See "Tax Levy and Collection" below for a further discussion of secured and unsecured property valuations.

Proposition 13 limits to 2% per year the increase in the assessed value of property, unless it is sold, or the structure is improved. The total net assessed valuation of taxable property therefore does not generally reflect the current market value of taxable property within the City and is in the aggregate substantially less than the current market value. For this same reason, the total net assessed valuation of taxable property lags behind changes in market value and may continue to increase even without an increase in aggregate market values of property.

Under Article XIII A of the State Constitution added by Proposition 13 in 1978, property sold after March 1, 1975 must be reassessed to full cash value at the time of sale. Taxpayers can appeal the Assessor's determination of their property's assessed value, and the appeals may be retroactive and for multiple years. The State prescribes the assessment valuation methodologies and the adjudication process that counties must employ in connection with counties' property assessments.

The City typically experiences increases in assessment appeals activity during economic downturns and decreases in assessment appeals as the economy rebounds. During the severe economic downturn of fiscal years 2009-10 and 2010-11, reductions of up to approximately 30% of the assessed valuations appealed were granted. Successful assessment appeals result in property tax refunds and so as with appeals activity the total value of refunds typically increases as a result of economic downturns. Other taxing agencies such as SFUSD, SFCOE, SFCCD, BAAQMD, and BART share proportionately in any refunds paid as a result of successful appeals. To

mitigate the financial risk of potential assessment appeal refunds, the City funds appeal reserves for its share of estimated property tax revenues for each fiscal year. In the period following the Great Recession, assessment appeals increased significantly as did associated reductions, and a similar trend is developing post-pandemic. For scale, in the wake of the Great Recession, the reductions in residential property assessed value reached upwards of \$2 billion in 2010-11 when the roll topped \$157 billion.

The FY25 & FY26 Original Budget assumes declines in commercial assessed values in the City resulting from the continuance of work from home patterns and interest rates currently affecting the City's businesses, and that such declines could be material. The City's most recent economic reports have noted continuation of these trends.

Appeals activity is reviewed each year and incorporated into the current and subsequent years' budget projections of property tax revenues. Refunds of prior years' property taxes from the discretionary General Fund appeals reserve fund for fiscal years 2014-15 through 2023-24 are listed in Table A-6 below.

TABLE A-6
Refunds of Prior Years' Property Tax Revenues
General Fund
Fiscal Years 2014-15 through 2023-24
(\$000s)

Fiscal Year	Amount Reduced
2014-15	\$16,304
2015-16	16,199
2016-17	33,397
2017-18	24,401
2018-19	30,071
2019-20	17,900
2020-21*	10,729
2021-22	16,479
2022-23	23,070
2023-24	36,822

Source: Office of the Controller, City and County of San Francisco.

*Amount reduced in fiscal year 2020-21 and forward reflects both Teetered and non-teetered property tax amounts.

A property's annual assessed value is determined as of January 1 preceding the start of the fiscal year for which taxes are billed and paid. Under California's Proposition 13, a property's annual assessed value is the lesser of (1) its base year value (fair market value as of the date of change in ownership or completion of new construction), factored for inflation at no more than two percent per year; or (2) its fair market value as of that January 1. A qualifying taxpayer can seek assessed value adjustment from the Assessment Appeals Board (AAB), from the Assessor's Office, or both. If a property's fair market value is assessed below its factored base year value, the reduced value is enrolled on a temporary basis (for one year) and is commonly referred to as a "Proposition 8" reduction, after the 1978 initiative, or simply as a "decline in value" reduction. If a property receives such a temporary reduction, the Assessor is required to annually review the property's temporary reduction for each subsequent January 1 lien date, until such time as the market value again exceeds the property's factored base year value, at which point the Assessor reestablishes the factored base year value as the taxable value to be enrolled for that January 1 lien date.

COVID-19's impact on San Francisco real property values first arose on the 2021 Assessment Roll, resulting in an almost 4-times increase in the total count of Proposition 8 reductions granted compared to the 2020 Assessment Roll (up from 2,059 to 8,212) and more than 8-times increase in the value of the reductions (up from \$272 million to \$2.18 billion). For the January 1, 2024 lien date, the Assessor's Office completed

11,339 “decline-in-value” reviews, which was nearly 40% higher than anticipated. The total count and value of Proposition 8 reductions for the 2024 Assessment Roll were 9,715 and \$4.9 billion, respectively.

The two most significant factors driving changes beginning with the 2021 Assessment Roll were Proposition 8 reductions for hotel and condominium properties. In response to COVID-19, the Assessor’s Office performed proactive reviews of commercial properties, which resulted in temporary reductions of \$1.01 billion for 26 hotel properties on the 2021 Assessment Roll. For the 2024 Assessment Roll, the Assessor reviewed and applied Proposition 8 assessed value reductions for 21 hotel properties, totaling \$1.34 billion. Meanwhile, condominiums accounted for the largest share of new reductions since the onset of the pandemic at over 70% of the total value of temporary reductions (excluding hotels) on the 2021 and 2022 Assessment Rolls or roughly \$804 million and \$859 million, respectively. For the 2023 and 2024 Assessment Rolls, condominiums accounted for a declining percentage of total value of temporary reductions (excluding hotels) at 63% and 54%, respectively.

In order to more efficiently address a number of regular open appeals on condominium properties with an assessed value below \$5 million, in January 2024, the Assessor’s Office applied the same regression model it uses for determining Proposition 8 reductions on condominiums to those with open appeals. Stipulation letters were sent to 942 taxpayers containing a recommended value and instructions about how to withdraw their open appeal if they accepted said value. Taxpayers were given three weeks to withdraw their appeals and accept the recommended value, which 591 did according to Assessor records. An additional 132 from this pool subsequently withdrew with a modicum of appraiser interaction. Taken together, the result of these 718 withdrawals is a temporary downward adjustment of the enrolled value for these properties totaling approximately \$165 million. This initiative was one among a number aimed at timely addressing the steep increase in open appeals and the Assessor will continue the initiative this year with the goal of reaching a larger pool of taxpayers by launching the initiative three months earlier, as well as by expanding the initiative to include property owners of dwellings in addition to condominiums.

As referenced above, taxpayers may also seek assessed value adjustments from the AAB, whether or not they seek and/or receive such an adjustment from the Assessor through the Assessor’s informal review process. Supplemental and Base Year Appeals are to establish a property’s base value. Escape and Regular Appeals are filed to contest a property’s value as of January 1. The majority of appeals (typically 70 plus percent) filed are Regular Appeals. For regular, annual secured property tax assessments, the period for property owners to file an appeal is between July 2nd and September 15th. If September 15th falls on a Saturday or Sunday, applications filed or postmarked the next business day are considered timely. The AAB generally is required to resolve appeals applications within two (2) years of filing, unless the applicant signs a waiver to extend the statutory period. Appeals may also be resolved when the Assessor and a property owner stipulate to a corrected value, which the AAB may approve, or reject and require a hearing in which it determines the value. Upon hearing a supplemental or base year appeal to establish a base value, the AAB may decide to increase, decrease, or not change an assessment. In the case of an escape or regular appeal, the AAB may lower the taxable value or maintain the factored base year value but cannot increase the value above the factored base year value. If an escape or regular appeal results in a change in value, the result is a decline-in-value reduction. The new assessed value will be used to determine the property taxes for the year that was appealed. Subsequently, as with any decline-in-value reduction, each year, the Assessor examines the property to see if the market value has risen back to the Proposition 13 base year value, or higher, and if so, reestablishes the Proposition 13 base year value. This does not apply to appeals to establish a property’s base value.

Not all filed appeals receive a hearing or result in a property tax assessment reduction. A large majority of all assessment appeals are withdrawn and these withdrawn appeals may or may not receive a reduction. Similarly, not all assessment appeals heard result in a reduction. City revenue estimates take into account projected losses from pending and future assessment appeals that are based on historical results as to appeals.

Appeals have increased considerably since fiscal year 2019-20 as a result of the impacts of the COVID pandemic and its aftermath as described herein. As of December 31, 2024, the total number of open appeals before the AAB was approximately 11,300. This reflects approximately 9,000 applications (some of which are

pending due to incomplete application information or missing filing fees) the City has received during the July 2nd through September 15th filing period in fiscal year 2024-25. Additional appeals are expected by the end of the fiscal year. (During the July 2nd through September 15th filing period in fiscal year 2023-24, the City received approximately 7,500 applications with approximately 8,000 total by the end of fiscal year June 30, 2024.)

As of December 31, 2024, the difference between the assessed value and the taxpayer's opinion of values for all the open applications was approximately \$124.4 billion. Assuming the City did not contest any taxpayer appeals and the AAB upheld all the taxpayers' requests, a negative potential total property tax revenue impact of about \$1.5 billion would result. The General Fund's portion of that hypothetical loss of \$1.5 billion in property tax revenues would be approximately \$709.9 million. In practice, the City has contested virtually all taxpayer appeals resulting in substantially lower impacts to the City's property tax revenues resulting from assessment appeals.

Tax Levy and Collection

As the local tax-levying agency under State law, the City levies property taxes on all taxable property within the City's boundaries for the benefit of all overlapping local agencies, including SFUSD, SFCCD, the BAAQMD and BART. The total tax levy for all taxing entities to begin fiscal year 2024-25 was \$4.1 billion, not including supplemental, escape and special assessments that may be assessed during the year. Of total property tax revenues allocated in fiscal year 2023-24 (including supplemental and escape property taxes), per pre-audit numbers, the City received \$2.5 billion in the General Fund and \$283.9 million in special revenue funds designated for children's programs, libraries and open space. SFUSD and SFCCD received approximately \$257.5 million and \$48.3 million, respectively, and the local ERAF received \$455.6 million (before adjusting for the vehicle license fees ("VLF") backfill shift). The Successor Agency received \$134.0 million. The remaining portion was allocated to various other governmental bodies, various special funds, general obligation bond debt service funds, and other taxing entities. Taxes levied to pay debt service for general obligation bonds issued by the City, SFUSD, SFCCD and BART may only be applied for that purpose. The City's General Fund was allocated about 47.2% of total property tax revenue before adjusting for the tax increment financing districts, VLF backfill shift, and excess ERAF.

Generally, property taxes levied by the City on real property become a lien on that property by operation of law. A tax levied on personal property does not automatically become a lien against real property without an affirmative act of the City taxing authority. Real property tax liens have priority over all other liens against the same property regardless of the time of their creation by virtue of express provision of law.

Property subject to ad valorem taxes is entered as secured or unsecured on the assessment roll maintained by the Assessor-Recorder. The secured roll is that part of the assessment roll containing State-assessed property and property (real or personal) on which liens are sufficient, in the opinion of the Assessor-Recorder, to secure payment of the taxes owed. Other property is placed on the "unsecured roll."

The method of collecting delinquent taxes is substantially different for the two classifications of property. The City has four ways of collecting unsecured personal property taxes: 1) pursuing civil action against the taxpayer; 2) filing a certificate in the Office of the Clerk of the Court specifying certain facts, including the date of mailing a copy thereof to the affected taxpayer, in order to obtain a judgment against the taxpayer; 3) filing a certificate of delinquency for recording in the Assessor-Recorder's Office in order to obtain a lien on certain property of the taxpayer; and 4) seizing and selling personal property, improvements or possessory interests belonging or assessed to the taxpayer. The exclusive means of enforcing the payment of delinquent taxes with respect to property on the secured roll is the sale of the property securing the taxes. Proceeds of the sale are used to pay the costs of sale and the amount of delinquent taxes.

A 10% penalty is added to delinquent taxes that have been levied on property on the secured roll. In addition, property on the secured roll with respect to which taxes are delinquent is declared "tax defaulted" and

subject to eventual sale by the Treasurer and Tax Collector of the City. Such property may thereafter be redeemed by payment of the delinquent taxes and the delinquency penalty, plus a redemption penalty of 1.5% per month, which begins to accrue on such taxes beginning July 1 following the date on which the property becomes tax-defaulted.

In October 1993, the Board of Supervisors passed a resolution that adopted the Alternative Method of Tax Apportionment (the “Teeter Plan”). This resolution changed the method by which the City apportions property taxes among itself and other taxing agencies. Additionally, the Teeter Plan was extended to include the allocation and distribution of special taxes levied for City and County of San Francisco Community Facilities District No. 2014-1 (Transbay Transit Center) in June 2017 (effective fiscal year 2017-18) and for the Bay Restoration Authority Parcel Tax, SFUSD School Facilities Special Tax, SFUSD School Parcel Tax, and City College Parcel Tax in October 2017 (effective fiscal year 2018-19). The Teeter Plan method authorizes the City Controller to allocate to the City’s taxing agencies 100% of the secured property taxes billed but not yet collected. In return, as the delinquent property taxes and associated penalties and interest are collected, the City’s General Fund retains such amounts. Prior to adoption of the Teeter Plan, the City could only allocate secured property taxes actually collected (property taxes billed minus delinquent taxes). Delinquent taxes, penalties and interest were allocated to the City and other taxing agencies only when they were collected. The City has funded payment of accrued and current delinquencies through authorized internal borrowing. The City also maintains a Tax Loss Reserve for the Teeter Plan as shown on Table A-7. The Tax Loss Reserve sets aside 1% of the total of all taxes and assessments levied for which the Teeter Plan is the applicable distribution method. The purpose of the Tax Loss Reserve is to cover losses that may occur. The amount has grown in recent years as the assessed values on the secured roll have grown.

TABLE A-7
Teeter Plan
Tax Loss Reserve Fund Balance
Fiscal Years 2014-15 through 2023-24
(\$000s)

Year Ended	Amount Funded
2014-15	\$20,569

Assessed valuations of the aggregate ten largest assessment parcels in the City for the fiscal year beginning July 1, 2024 are shown in Table A-8. The City cannot determine from its assessment records whether individual persons, corporations or other organizations are liable for tax payments with respect to multiple properties held in various names that in aggregate may be larger than is suggested by the Office of the Assessor-Recorder.

[Remainder of Page Intentionally Left Blank]

Taxation of State-Assessed Utility Property

A portion of the City's total net assessed valuation consists of utility property subject to assessment by the State Board of Equalization. State-assessed property, or "unitary property," is property of a utility system with components located in many taxing jurisdictions assessed as part of a "going concern" rather than as individual parcels of real or personal property. Unitary and certain other State-assessed property values are allocated to the counties by the State Board of Equalization, taxed at special countywide rates, and the tax revenues distributed to taxing jurisdictions (including the City itself) according to statutory formula are generally based on the distribution of taxes in the prior year. The fiscal year 2024-25 valuation of property assessed by the State Board of Equalization in the City is approximately \$4.6 billion.

OTHER CITY TAX REVENUES

In addition to property taxes, the City has several other major tax revenue sources, as described below. For a discussion of State constitutional and statutory limitations on taxes that may be imposed by the City, including a discussion of Proposition 62 and Proposition 218, see "CONSTITUTIONAL AND STATUTORY LIMITATIONS ON TAXES AND EXPENDITURES" herein.

The following section contains a brief description of other major City-imposed taxes as well as taxes that are collected by the State and shared with the City. The City's General Fund is also supported by other sources of revenue, including charges for services, fines and penalties, and transfers-in, which are not discussed below.

See Table A-9 below for a summary of revenue source as a percentage of total General Fund revenue based on the Original Budget for fiscal year 2024-25.

[Remainder of Page Intentionally Left Blank]

TABLE A-9
General Fund Revenue Overview
Fiscal Year 2024-25
(\$000s)

Revenues	FY 2024-25 Original Budget	
Property Taxes	\$ 2,469,580	38.9%
Business Taxes	883,000	13.9
Other Local Taxes ⁽¹⁾	1,109,170	17.5
Licenses, Permits and Franchises	31,802	0.5
Fines, Forfeitures and Penalties	3,921	0.1
Interest and Investment Income	146,715	2.3
Rents and Concessions	14,145	0.2
Intergovernmental	1,321,363	20.8
Charges for Services	351,423	5.5
Other	19,444	0.3
Total Revenues	\$ 6,350,563	100.0%

⁽¹⁾ Other Local Taxes includes sales, hotel, utility users, parking, transfer, sugar sweetened beverage, stadium admissions, access line, cannabis, and overpaid executive taxes.

Business Taxes

Through tax year 2014, businesses in the City were subject to payroll expense and business registration taxes. Proposition E (November 2012) changed business registration tax rates and introduced a gross receipts tax which phased in over a five-year period beginning January 1, 2014, intending to replace the then existing 1.5% tax on business payrolls over the same period. Overall, the ordinance increased the number and types of businesses in the City that pay business tax and registration fees from approximately 7,500 to 15,000. In November 2020, voters passed Proposition F, which eliminated the payroll tax and modified gross receipt tax rates. Most gross receipt tax rates increased by 40% for tax year 2021 over the prior year. Much smaller increases were scheduled for 2023 and 2024, should the City's taxable gross receipts in 2021 and 2022 reach at least 90% and 95%, respectively, of 2019 taxable gross receipts. The 2023 tax increase was suspended for one year because the City's 2021 taxable gross receipts did not reach the 90% threshold and the 2024 tax increase is suspended for one year because the City's 2022 taxable gross receipts did not reach the 95% threshold. In some industries that were particularly hurt during the pandemic, such as retail, trade and food services, Proposition F resulted in lowered tax rates through 2022 for gross receipts under \$25 million. Subsequent legislation extended the lowered rate to these businesses for an additional two years. Proposition F also reduced business registration fees for businesses with less than \$1 million in gross receipts and raised the small business exemption for gross receipts taxes to \$2 million.

Business tax revenue (gross receipts, payroll, and business registration) for fiscal year 2023-24 is \$871.8 million for all funds, representing an increase of \$18.7 million (2.2%) from fiscal year 2022-23.

Remote work occurring outside the City creates fiscal risk because, for certain categories of businesses, the gross receipts tax is dependent in part on their San Francisco payroll, and the firms only need to calculate their San Francisco payroll expense for employees that physically work within the City's geographic boundaries. Approximately half of the workers in major tax-paying sectors such as Professional Services, Financial Services, and Information live outside of San Francisco. Office attendance remained about the same between fiscal year 2022-23 and fiscal year 2023-24 suggesting that there will not be significant increases to the San Francisco economy from employees returning from remote work to office work in the foreseeable future. See "BUDGETARY RISKS – Office Vacancy in San Francisco; Impact on Property Taxes and Other Revenues."

In November 2024, voters in the City approved Proposition M. In connection with Proposition M, the Controller prepared an analysis of the projected impacts of Proposition M on business tax revenue. The Controller projected that, over the first three fiscal years, between fiscal years 2024-25 and 2026-27, Measure M will reduce revenues by approximately \$40 million annually. The Controller noted that, while uncertain this projected loss may be smaller if Measure M helps enable the City to reduce reserves for disputed taxes in the future. Beginning in 2027, scheduled rate increases are projected to generate positive revenues of approximately \$50 million annually in fiscal year 2028-29 and thereafter. By fiscal year 2029-30, the total positive revenue resulting from the rate increases are projected to offset the reduced revenue in the first three years, making the total amount of business tax revenue over that period comparable to law prior to the enactment of Proposition M. After fiscal year 2029-30, the Controller projected that Measure M will generate additional revenue of approximately \$50 million annually. Projected revenue impacts above assume a reduction in business license fees of \$10 million annually, which is the subject of recently introduced legislation.

Measure M amended the City's existing Business and Tax Regulations Code in several key areas:

- Increased the small business exemption from the gross receipts tax from \$2.25 million to \$5.0 million,
- Consolidated the number of tax schedules from 14 business activity categories to 7 business activity categories for the gross receipts and homelessness gross receipts taxes,
- Adjusted tax rates for gross receipts, homelessness gross receipts, administrative office, and overpaid executive gross receipts taxes in 2025, and increases tax rates on gross receipts, administrative office, and overpaid executive gross receipts taxes in 2027 and 2028; currently scheduled tax rate increases after 2024 would not occur under this proposal,
- Shifted the City's calculation of San Francisco gross receipts for most business activities away from payroll expenses and towards sales; the only exceptions are business activities whose San Francisco gross receipts calculation is already entirely based on sales,
- Requires the Office of the Treasurer and Tax Collector to establish an advance determination process to provide written guidance to taxpayers, and makes other implementation changes,
- Creates new tax credits for businesses paying stadium operator admission taxes, grocery retailers, and new lessees in certain newly constructed buildings, and
- Makes changes to business registration fees.

Additionally, the ordinance requires that the Controller report on the impact of the various changes made by Measure M in September 2026 and September 2027.

Transient Occupancy Tax (Hotel Tax)

Pursuant to the San Francisco Business and Tax Regulation Code, a 14.0% transient occupancy tax is imposed on occupants of hotel rooms and is remitted by hotel operators to the City monthly. Hotel tax revenue in fiscal year 2023-24 was \$287.6 million (all funds), an increase of \$4.1 million (1.4%) from fiscal year 2022-23. The fiscal year 2024-25 budget is \$323.4 million, an increase of \$35.9 million (12.5%) from fiscal year 2023-24. The fiscal year 2025-26 budget is \$355 million, an increase of \$31.6 million (9.8%) from fiscal year 2024-25. Table A-11 includes hotel tax in all funds. Slightly less than 90% of the City’s hotel tax is allocated to the General Fund, with 10.7% allocated to arts and cultural organizations and approximately \$5 million for debt service on hotel tax revenue bonds.

Fiscal year 2023-24 hotel tax revenue performed better than fiscal year 2022-23, as leisure visits and convention activity continue to recover. Fiscal year 2023-24 enplanements at SFO increased by 9.0% from the prior year, as international and domestic enplanements improved by 210% and 4.7%, respectively. The return of conferences and conventions has played a key role in the recovery of hotel tax revenues, particularly because conventions drive up hotel tax room rates through compression pricing. In fiscal year 2022-23, there were 33 conferences with over 286,000 attendees. In fiscal year 2023-24, a total of 38 conferences with over 390,000 attendees took place at the Moscone Convention Center.

TABLE A-11
Transient Occupancy Tax Revenues - All Funds⁽¹⁾
Fiscal Years 2020-21 through 2025-26
(\$000s)

Fiscal Year ⁽²⁾	Tax Rate	Revenue	Change	
2020-21	14.0%	\$42,195	(\$239,420)	-85.0%
2021-22	14.0	179,134	136,939	324.5
2022-23	14.0	283,453	104,320	58.2
2023-24	14.0	287,553	4,100	1.4
2024-25 Original Budget ⁽³⁾	14.0	323,443	35,890	12.5
2025-26 Original Budget ⁽³⁾	14.0	355,047	31,604	9.8

(1) Amounts include the portion of hotel tax revenue used to pay debt service on hotel tax revenue bonds, as well as the portion of hotel tax revenue dedicated to arts and cultural programming reflecting the passage of Proposition E in November 2018, which took effect January 1, 2019.

(2) Figures for Fiscal Year 2020-21 through Fiscal Year 2023-24 are actuals.

(3) Original Budget amounts are from the Fiscal Year 2024-25 and Fiscal Year 2025-26 budget, adopted July 31, 2024. See “PERIODIC FINANCIAL REPORTING; RECENT REPORTS” for recent financial reports and projections.

Source: Office of the Controller, City and County of San Francisco.

Real Property Transfer Tax

Real property transfer tax (“RPTT”) is imposed on all real estate transfers recorded in the City. Transfer tax revenue is more susceptible to economic and real estate cycles than most other City revenue sources. Transfer tax rates are \$5.00 per \$1,000 of the sale price of the property being transferred for properties valued at \$250,000 or less; \$6.80 per \$1,000 for properties valued more than \$250,000 and less than \$999,999; \$7.50 per \$1,000 for properties valued at \$1.0 million to \$5.0 million; \$22.50 per \$1,000 for properties valued more than \$5.0 million and less than \$10.0 million; \$55.00 per \$1,000 for properties valued at more than \$10.0 million and less than \$25.0 million and \$60.00 per \$1,000 for properties valued at more than \$25.0 million.

The City has experienced the largest increase in office vacancy among major urban office markets in the United States, from 5.6% in the 4th quarter of 2019 to 34.5% in the 3rd quarter of 2024. The high vacancy rate, along with continuing uncertainty regarding the return-to-office plans of major office tenants, has reduced both the volume of office transactions, and the per-square foot value of these sales. According to CoStar, downtown office sales transactions have averaged 5-6 per quarter since 2020, down from an average of 10-20 per quarter before the pandemic. The per-square foot market value of office properties in the City is, as of the 3rd quarter of 2024, down 40% from the pre-pandemic high of \$860 per square foot, across all property classes.

Due to the highly progressive nature of the tax, the volatility of RPTT is attributable mainly to the sales of high-value (largely commercial) properties over \$10 million. The overall number of transactions over \$10 million dropped from 101 transfers in fiscal year 2021-22 to 55 transfers in fiscal year 2022-23 and 56 transfers in fiscal year 2023-24. The number of transactions under \$10 million also declined from 10,086 transfers in fiscal year 2021-22 to 6,714 transfers in fiscal year 2022-23, and further declining to 6,487 transfers in fiscal year 2023-24.

The fiscal year 2024-25 and 2025-26 budget projects increases from fiscal year 2023-24 results, anticipating increases in transfers as buyers and sellers begin to come into agreement about market prices of large real estate transactions. However, the interest rate environment and uncertainty around the value of office-based real estate with the shift to hybrid models of work is expected to continue to dampen the City’s transfer tax receipts.

TABLE A-12
Real Property Transfer Tax Receipts - All Funds
Fiscal Years 2020-21 through 2025-26
(\$000s)

Fiscal Year ⁽¹⁾	Revenue	Change	
2020-21	\$344,683	\$10,148	3.0%
2021-22	520,359	175,676	51.0
2022-23	186,247	(334,112)	-64.2
2023-24	177,700	(8,547)	-4.6
2024-25 Original Budget ⁽²⁾	218,850	41,150	23.2

Sales and Use Tax

The sales tax rate on retail transactions in the City is 8.6250%, of which 1.00% represents the City’s local share (“Bradley-Burns” portion). The State collects the City’s local sales tax on retail transactions along with State and special district sales taxes, and then remits the local sales tax collections to the City.

The components of San Francisco’s 8.6250% sales tax rate are shown in Table A-13. In addition to the 1% portion of local sales tax, the State subvenes portions of sales tax back to counties through 2011 realignment (1.0625%), 1991 realignment (0.5%), and public safety sales tax (0.5%). The subventions are discussed in more detail under “INTERGOVERNMENTAL REVENUES” herein.

[Remainder of Page Intentionally Left Blank]

TABLE A-13
San Francisco's Sales & Use Tax Rate

State Sales Tax	6.00%
State General Fund	3.9375
Local Realignment Fund 2011*	1.0625
Local Revenue Fund*	0.50
(to counties for health & welfare)	
Public Safety Fund (to counties & cities)*	0.50
 Local Sales Tax	 1.25%
Local Sales Tax (to General Fund)*	1.00
Local Transportation Tax (TDA)	0.25
 Special District Use Tax	 1.375%
2020 Peninsula Corridor Joint Powers Board	0.125
Transactions and Use Tax (JPBF)	
SF County Transportation Authority	0.50
Bay Area Rapid Transit (BART)	0.50
SF Public Financing Authority (Schools)	0.25
 TOTAL Sales Tax Rate	 8.625%

* Represents portions of the sales tax allocated to the City.

Source: Office of the Controller, City and County of San Francisco.

The local sales tax (the 1% portion) revenue in fiscal year 2023-24 is \$190.5 million, a decrease of \$7.4 million (3.7%) from fiscal year 2022-23. The fiscal year 2024-25 budget is \$193.7 million, an increase of \$3.2 million (1.7%) from fiscal year 2023-24. The budget for fiscal year 2025-26 is \$198.9 million, an increase of \$5.3 million (2.7%) from the fiscal year 2024-25 projection. The entirety of sales tax revenue is recorded in the General Fund.

Historically, sales tax revenues have been highly correlated to growth in tourism, business activity and population. This revenue is significantly affected by changes in the economy and spending patterns. In recent years, online retailers have contributed significantly to sales tax receipts, offsetting sustained declines in point-of-sale purchases.

Other Local Taxes

The City imposes a number of other general purpose taxes:

- Utility Users Tax (“UUT”) - A 7.5% tax on non-residential users of gas, electricity, water, steam and telephone services.
- Access Line Tax (“ALT”) – As of July 1, 2023, a charge of \$3.96 on every telecommunications line, \$29.79 on every trunk line, and \$536.32 on every high-capacity line in the City. The ALT replaced the Emergency Response Fee (“ERF”) in 2009. The tax is collected from telephone communications service subscribers by the telephone service supplier.
- Parking Tax - A 25% tax for off-street parking spaces. The tax is paid by occupants and remitted monthly to the City by parking facility operators. In accordance with Charter Section 16.110, 80% of parking tax revenues are transferred from the General Fund to the MTA’s Enterprise Funds to support public transit.
- Sugar Sweetened Beverage Tax – A one cent per ounce tax on the distribution of sugary beverages. This measure was adopted by voters on November 9, 2016 (Proposition V) and took effect on January 1, 2018.
- Stadium Admission Tax – A tax between \$0.25 and \$1.50 per seat or space in a stadium for any event, with some specific exclusions.
- Cannabis Tax – A gross receipts tax of 1% to 5% on marijuana business and permits the City to tax businesses that do not have a physical presence in the City. This measure was adopted by voters in November 2018 (Proposition D). The tax was originally slated to go into effect on January 1, 2021, but the Board has delayed the imposition of the tax several times. The cannabis tax will now take effect beginning January 1, 2026.
- Franchise Tax – A tax for the use of City streets and rights-of-way on cable TV, electric, natural gas, and steam franchises.

- **Overpaid Executives Tax** – In November 2020, voters adopted Proposition L, a new tax on businesses in the City, where compensation of the businesses’ highest-paid managerial employee compared to the median compensation paid to the businesses’ employees based in the City exceeds a ratio of 100:1. The measure took effect on January 1, 2022 for tax year 2022, so revenues were first received in fiscal year 2022-23. Revenue from this tax is expected to be highly volatile due to the narrow base of expected payers, large annual fluctuations in the value and form of executive compensation, which typically includes equity, and tax-avoidance risk associated with tax increases. Estimates based on prior years’ activity may not be predictive of future revenues. Fiscal year 2023-24 revenue was \$124.4 million and the projection for both 2024-25 and 2025-26 is \$140.0 million per year.

Table A-15 reflects the City’s actual tax receipts for fiscal years 2020-21 through 2023-24 and budgets for fiscal years 2024-25 and 2025-26, respectively.

As with the larger tax revenues described above, the City anticipates these sources will be impacted by the pace of economic recovery. See “See “PERIODIC FINANCIAL REPORTING; RECENT REPORTS” for recent financial reports and projections.

INTERGOVERNMENTAL REVENUES

State Subventions Based on Taxes

The City receives allocations of State sales tax and VLF revenue for 1991 Health and Welfare Realignment, 2011 Public Safety Realignment, and Prop 172 Public Safety Sales Tax. These subventions fund programs that are substantially supported by the General Fund. See “GENERAL FUND REVENUES – OTHER CITY TAX REVENUES – Sales and Use Tax” above.

- Health and Welfare Realignment, enacted in 1991, restructured the state-county partnership by giving counties increased responsibilities and dedicated funding to administer certain public health, mental health and social service programs.
- Public Safety Realignment (AB 109), enacted in early 2011, transfers responsibility for supervising certain kinds of felony offenders and state prison parolees from state prisons and parole agents to county jails and probation officers.
- State Proposition 172, passed by California voters in November 1993, provided for the continuation of a one-half percent sales tax for public safety expenditures. This revenue is a function of the City’s proportionate share of Statewide sales activity. These revenues are allocated to counties by the State separately from the local one-percent sales tax discussed above. Disbursements are made to counties based on the county ratio, which is the county’s percent share of total statewide sales taxes in the most recent calendar year.

Table A-16 reflects the City’s actual receipts for fiscal years 2020-21 through 2023-24 and projection for fiscal years 2024-25 and 2025-26.

Total ⁽²⁾	\$ 4,677,066	\$ 5,096,262	\$ 5,196,515	\$5,431,593	\$ 5,544,564	\$ 5,594,055

(1) Figures for fiscal year 2019-20 through fiscal year 2023-24 are as reflected in ACFR.

(2) Fiscal year 2024-25 amounts are from Original Budget, adopted July 31, 2024.

Source: Office of the Controller, City and County of San Francisco.

Public Protection primarily includes the Police Department, the Fire Department, and the Sheriff's Office which is primarily responsible for City jails rather than law enforcement. Human Welfare & Neighborhood Development includes the Department of Human Services' aid assistance, aid payments, and City grant programs. Community Health includes the Public Health Department, which also operates San Francisco General Hospital and Laguna Honda Hospital.

The Laguna Honda Hospital and Rehabilitation Center ("Laguna Honda") is a skilled nursing facility owned and operated by the City through its Department of Public Health, serving up to 660 patients, most of whom are low income or extremely low-income residents. Beginning in March 2022, the City had a series of disputes with the Centers for Medicare and Medicaid Services ("CMS"), an agency within the federal Department of Health & Human Services, over conditions at Laguna Honda which potentially put federal funding at risk. Although the disputes were generally resolved, and Laguna Honda is now fully recertified and will continue to receive Medicare and Medicaid payments, Laguna Honda will continue to be reviewed for compliance with conditions of participation in Medicare and Medicaid programs as is normal for facilities regulated by CMS and CDPH. There can be no assurances that federal funding will continue to be available in the amounts projected by the City. See "BUDGETARY RISKS - Impact of Federal Government on Local Finances."

For budgetary purposes, enterprise funds (which are not shown on the table above) are characterized as either self-supported funds or General Fund-supported funds. General Fund-supported funds include the Convention Facility Fund, the Cultural and Recreation Film Fund, the Gas Tax Fund, the Golf Fund, the General Hospital Fund, and the Laguna Honda Hospital Fund. These funds are supported by transfers from the General Fund to the extent their dedicated revenue streams are insufficient to support the desired level of services.

[Remainder of Page Intentionally Left Blank]

Voter-Mandated Spending Requirements

The Charter requires funding for voter-mandated spending requirements, which are also referred to as “baselines,” “set-asides,” or “mandates”. The chart below identifies the required and budgeted levels of funding for key mandates. The spending requirements are formula-driven, variously based on projected aggregate General Fund discretionary revenue, property tax revenues, total budgeted spending, staffing levels, or population growth. Table A-18 reflects fiscal year 2024-25 and 2025-26 spending requirements. These mandates are generally budgeted as transfers out of the General Fund or allocations of revenue.

⁽¹⁾ Fiscal year 2024-25 and 2025-26 amounts represent the Mayor's Proposed Budget, June 1, 2024.

In November 2024, voters in the City approved two initiatives (Proposition G and Proposition J) which impose additional mandatory spending requirements. In connection with the propositions, the Controller prepared an analysis of the projected impacts of the propositions on City finances.

Proposition G creates the Affordable Housing Opportunity Fund for Seniors, Families, and People with Disabilities for the Mayor's Office of Housing and Community Development to provide rental subsidies to extremely low-income households. The Controller projected that Proposition G would reallocate funds that would otherwise be available, starting with at least \$4 million in fiscal year 2026-27, \$8.25 million in fiscal year 2027-28, and increasing by up to 3% annually, rising to a maximum of approximately \$14 million in fiscal year 2045-46.

Proposition J creates an Our Children, Our Families Initiative, to be staffed by officials from the City and SFUSD, to align the City's spending on children and youth with the Initiative's Outcomes Framework. The Mayor and Board of Supervisors may need to appropriate additional funds towards children and youth services of up to \$35 million starting in fiscal year 2024-25 and at least \$35 million every year for the next 14 years through fiscal year 2037-38, up to a maximum of \$83 million. The City will need to balance these amounts either with new revenues or reductions in other expenditures. Proposition J restricts the City from providing certain funding to SFUSD under certain conditions, including the Board not approving the SFUSD's five-year spending plan. Given the potential restrictions, Proposition J could generate savings for the City, but at a level that cannot be specified at this time.

EMPLOYMENT COSTS; POST-EMPLOYMENT OBLIGATIONS

The cost of salaries and benefits for City employees represents slightly less than half of the City's expenditures, totaling \$7.3 billion and \$7.1 billion in fiscal years 2024-25 and 2025-26 in the FY25 & FY26 Original Budget. For the General Fund, the combined salary and benefits in the Original Budget is \$3.3 billion in fiscal year 2024-25 and \$3.2 billion in fiscal year 2025-26.

This section discusses the organization of City workers into bargaining units, the status of employment contracts, and City expenditures on employee-related costs including salaries, wages, medical benefits, retirement benefits and the City's retirement system, and post-employment health and medical benefits. SFUSD, SFCCD and the San Francisco Superior Court, called Trial Court below, are not City employees.

Labor Relations

The City's FY25 & FY26 Original Budget includes approximately 40,600 full-time and part-time positions, of which approximately 33,300 are funded positions. City workers are represented by 36 different labor unions. The largest unions in the City are the Service Employees International Union, Local 1021 ("SEIU"); the International Federation of Professional and Technical Engineers, Local 21 ("IFPTE"); and the unions representing Police, Fire, Deputy Sheriffs, and Transit Workers.

Wages, hours and working conditions of City employees are determined by collective bargaining pursuant to State law (the Meyers-Milias-Brown Act, California Government Code Sections 3500-3511) and the City Charter. San Francisco is unusual among California's cities and counties in that nearly all of its employees, including managerial and executive-level employees, are represented by labor organizations.

The City's employee selection procedures are established and maintained through a civil service system. In general, selection procedures and other merit system issues, with the exception of discipline, are not subject to arbitration. Disciplinary actions are generally subject to grievance arbitration, with the exception of sworn police officers and fire fighters.

Further, the City Charter requires binding arbitration to resolve negotiations in the event of an impasse. If an impasse is reached, the parties are required to convene a tripartite arbitration panel, chaired by an impartial

third-party arbitrator, which sets the disputed terms of the new agreement. The award of the arbitration panel is final and binding. This process applies to all City employees except Registered Nurses and a small group of unrepresented employees, whose working conditions and compensation are established annually by ordinance. Wages, hours and working conditions of nurses are not subject to interest arbitration but are subject to Charter-mandated economic limits.

Since 1976, no City employees have participated in a union-authorized strike, which is prohibited by the Charter. On July 24, 2023, the California Public Employment Relations Board (“PERB”) ruled in favor of SEIU and IFPTE, concluding that City Charter sections A8.346 and A8.409 prohibiting strikes by City employees are invalid, affirming an earlier ruling of an administrative law judge that such City Charter provisions violate the Meyers-Milias-Brown Act. The City has filed a notice of appeal to the California Court of Appeal with respect to the PERB decision. The City can give no assurance whether the appeal will be successful.

In May 2024, the City negotiated three-year agreements (for fiscal years 2024-25 through 2026-27) with 27 labor unions. The City negotiated a 1.5% base wage increase due on July 1, 2024 and 1.5% on January 4, 2025, with an additional 1% base wage increase at the close of business on June 30, 2025. For fiscal year 2025-26, the parties agreed to a base wage increase of 1% on July 1, 2025, 1.5% on January 3, 2026 and 2% at the close of business on June 30, 2026. For fiscal year 2026-27, the parties agreed to a base wage increase of 2% on January 2, 2027 and 2.5% at the close of business on June 30, 2027. The City additionally negotiated a minimum base wage of \$25.00 an hour implemented on July 1, 2024, impacting members of SEIU Local 1021 Citywide and Laborers, Local 261. For fiscal year 2024-25, the Unrepresented Employee Ordinance was passed approving a wage increase of 1.5% on July 1, 2024, 2.25% on January 6, 2024, and 1% at close of business on June 30, 2025.

Also, in May 2024, the MTA negotiated three-year agreements (for fiscal years 2024-25 through 2026-27) with the unions that represent Transit Operators, Mechanics, Station Agents, Parking Control Officers and others, collectively referred to as Service-Critical. The parties agreed to the same wage increase schedule as provided in the City agreements.

In 2023, the City negotiated a 2.5% base wage increase with labor organizations representing sworn members of the Police and Fire departments due on July 1, 2023 and 2.25% on January 6, 2024. For fiscal year 2024-25, the parties agreed to a base wage increase of 3.0% on January 4, 2025 with a provision to delay the increase by six months if the City’s budget deficit for fiscal year 2024-25, as projected in the March 2024 Joint Report, exceeds \$300 million. The March 2024 Joint Report forecasted a deficit \$235.9 million, below the \$300 million threshold. Therefore, no wage delay was triggered. For fiscal year 2025-2026, the parties agreed to a base wage increase of 3.0% on July 1, 2025 with a provision to delay the increase by one year if the City’s budget deficit for fiscal year 2025-26, as projected in the March 2025 Joint Report, exceeds \$300 million.

San Francisco Employees' Retirement System

History and Administration

The San Francisco City & County Employees' Retirement System ("SFERS" or "Retirement System") is charged with administering a defined-benefit pension plan that covers substantially all City employees and certain other employees. The Retirement System was initially established by approval of City voters on November 2, 1920 and the State Legislature on January 12, 1921 and is currently codified in the City Charter. The Charter provisions governing the Retirement System may be revised only by a Charter amendment, which requires an affirmative public vote at a duly called election.

The Retirement System is administered by the Retirement Board consisting of seven members, three appointed by the Mayor, three elected from among the members of the Retirement System, at least two of whom must be actively employed, and a member of the Board of Supervisors appointed by the President of the Board of Supervisors.

The Retirement Board appoints an Executive Director and an Actuary to aid in the administration of the Retirement System. The Executive Director serves as Chief Executive Officer and Chief Investment Officer of SFERS. The Actuary's responsibilities include advising the Retirement Board on actuarial matters and monitoring of actuarial service providers. The Retirement Board retains an independent consulting actuarial firm to prepare the annual valuation reports and other analyses. The independent consulting actuarial firm is currently Cheiron, Inc., a nationally recognized firm selected by the Retirement Board pursuant to a competitive process.

Membership

Retirement System members include eligible employees of the City, SFUSD, SFCCD, and the San Francisco Trial Courts. The Retirement System estimates that the total non-retired membership as of July 1, 2024 was 48,521, compared to 46,657 as of July 1, 2023. Total non-retired membership as of July 1, 2024 included 11,930 terminated vested members and 1,173 reciprocal members. Terminated vested members are former employees who have vested rights in future benefits from SFERS. Reciprocal members are individuals who have established membership in a reciprocal pension plan such as California Public Employees' Retirement System ("CalPERS") and may be eligible to receive a reciprocal pension from the Retirement System in the future. Monthly retirement allowances are paid to approximately 32,654 retired members and beneficiaries. Benefit recipients include retired members, vested members receiving a vesting allowance, and qualified survivors.

Table A-20 shows various member counts in the total Retirement System (City, SFUSD, SFCCD, and San Francisco Trial Courts) as of the five most recent actuarial valuation dates, July 1, 2020 through July 1, 2024. The number of retirees supported by each active member can be an important indicator of growing plan maturity and sensitivity to investment returns, assumption changes, and other changes to the Retirement System. In particular, if the ratio of retirees to active members grows, it indicates that any actuarial losses on retiree liabilities or assets are likely to place a relatively greater burden on employers and active members. The ratio for SFERS had been relatively stable but increased modestly in 2021 and again in 2022 with the two-year decline in number of active members. Although the City has been actively filling vacant positions, the ratio remains elevated above pre-pandemic levels.

[Remainder of Page Intentionally Left Blank]

TABLE A-20
Employees' Retirement System
July 1, 2020 through July 1, 2024

As of July 1 st	Active Members	Vested Members	Reciprocal Members	Total Non-retired	Retirees & Continuants	Retiree to Active Ratio
2020	34,521	9,478	1,071	45,070	30,128	0.87
2021	33,644	10,066	1,060	44,770	30,854	0.92

2023	34,016	11,461	1,180	46,657	32,104	0.94
2024	35,418	11,930	1,173	48,521	32,654	0.92

Sources: SFERS' annual Actuarial Valuation Report dated July 1st. See the Retirement System's website, mysfers.org, under Publications. The information on such website is not incorporated herein by reference.

Notes: Member counts are for the entire Retirement System and include non-City employees.

Funding Practices

Employer and employee (member) contributions are mandated by the Charter. Sponsoring employers are required to contribute 100% of the actuarially determined contribution approved by the Retirement Board. The Charter specifies that employer contributions consist of the normal cost (the present value of the benefits that SFERS expects to become payable in the future attributable to a current year's employment) plus an amortization of the unfunded liability over a period not to exceed 20 years. The Retirement Board sets the funding policy subject to the Charter requirements.

The Retirement Board adopts the economic and demographic assumptions used in the annual valuations. Demographic assumptions such as retirement, termination and disability rates are based upon periodic demographic studies performed by the consulting actuarial firm approximately every five years. Economic assumptions are reviewed each year by the Retirement Board after receiving an economic experience analysis from the consulting actuarial firm.

The Board adopted the current demographic assumptions at its December 9, 2020 Retirement Board meeting based on the experience study dated August 12, 2020. The current discount rate of 7.20% was adopted at the November 10, 2021 Board meeting, effective for the July 1, 2021 actuarial valuation. The Board most recently voted to maintain these assumptions (for the July 1, 2024 actuarial valuation) at its November 13, 2024 meeting. In the long term, the true cost of a pension plan is determined by actual results and not by assumptions.

While employee contribution rates are mandated by the Charter, sources of payment of employee contributions (i.e. City or employee) may be the subject of collective bargaining agreements with each union or bargaining unit. Since July 1, 2011, substantially all employee groups have agreed through collective bargaining for employees to contribute all employee contributions through pre-tax payroll deductions.

Prospective purchasers of the City's debt obligations should carefully review and assess the assumptions regarding the performance of the Retirement System. Audited financial statements and actuarial reports may be found on the Retirement System's website, www.mysfers.org, under Publications. The information on such website is not incorporated herein by reference. There is a risk that actual results will differ significantly from assumptions. In addition, prospective purchasers of the City's debt obligations are cautioned that the information and assumptions speak only as of the respective dates contained in the underlying source documents and are therefore subject to change.

Annual Valuation and Employer Contribution History

Table A-21 shows total Retirement System liabilities, assets and percent funded for the last five actuarial valuations as well as total contributions for the last five fiscal years ending June 30, 2024. Information is shown for all employers in the Retirement System (City & County, SFUSD, SFCCD and San Francisco Trial Courts). “Actuarial Liability” reflects the actuarial accrued liability of the Retirement System measured for purposes of determining the funding contribution. “Market Value of Assets” reflects the fair market value of assets held in trust for payment of pension benefits. “Actuarial Value of Assets” refers to the plan assets with investment returns different than expected smoothed over five years to provide a more stable contribution rate. The “Market Percent Funded” column is determined by dividing the market value of assets by the actuarial accrued liability. The “Actuarial Percent Funded” column is determined by dividing the actuarial value of assets by the actuarial accrued liability. “Employee and Employer Contributions” reflects the sum of mandated employee and employer contributions received by the Retirement System in the fiscal year ended June 30 prior to the July 1 valuation date.

The information on such website is not incorporated herein by reference.

Note: Information above reflects entire Retirement System, not just the City and County of San Francisco.

[Remainder of Page Intentionally Left Blank]

Note that at the July 1, 2024 valuation date, the market percent funded ratio is slightly lower than the actuarial percent funded ratio, reflecting net asset returns lower than the long-term rate of return assumptions that have not yet been recognized in the smoothed actuarial value of assets. The Retirement System's investment portfolio return was -2.9% in fiscal year 2021-22, 4.3% in fiscal year 2022-23, and 8.0% in fiscal year 2023-24. Global markets remain volatile due to continued uncertainty about the economy, interest rates, inflation, and geopolitical risk.

The actuarial liability is measured by an independent consulting actuary in accordance with Actuarial Standards of Practice. In addition, an actuarial audit is conducted every five years in accordance with Retirement Board policy. The most recent actuarial audit was completed in July 2024.

The fiscal year 2022-23 employer contribution rate was 21.35% (estimated to be 18.76% after cost-sharing). The 2022-23 fiscal year City employer contributions to the Retirement System were \$638.0 million, which includes \$404.8 million from the General Fund. The fiscal year 2023-24 employer contribution rate was 18.24% (estimated to be 16.12% after cost-sharing), with a total budget of \$620.9 million, which includes \$381.7 million from the General Fund. The fiscal year 2024-25 employer contribution rate is 16.91% (expected to be 15.27% after cost-sharing), with an estimated total budget of \$671.4 million. The continued declines in the contribution rate reflect the completion of prior amortization layers and the five-year phase-in of investment gains from fiscal year 2020-21, offset by the impact of lower investment returns in fiscal years 2021-22 and 2022-23. Employer contribution rates anticipate annual increases in pensionable payroll of 3.25%. As discussed under "CITY BUDGET-Five-Year Financial Plan Update: FY2025-26 through FY2029-30 and FY 2025-26 Mayor's Budget Instructions," increases in retirement costs are projected in the City's Five-Year Financial Plan.

Risks to City's Retirement Plan

In its July 2024 actuarial report, Cheiron identifies three primary risks to the Retirement System as required by Actuarial Standards of Practice No. 51 (Assessment and Disclosure of Risk Associated with Measuring Pension Obligations and Determining Pension Plan Contributions). The material risks identified were as follows: investment risk, interest rate risk, and supplemental cost of living adjustment ("COLA") risk. Investment risk is the potential for investment returns to be different than expected, while interest rate risk is the potential for longer-term trends to impact economic assumptions such as inflation and wage increases but particularly the discount rate. Supplemental COLA risk is the potential for the cost of future supplemental COLAs to increase contribution rates.

Supplemental COLAs are mandated by the Charter when investment returns exceed expectations. If the pension plan is less than fully funded on a market-value basis, certain groups of retirees may not receive a supplemental COLA at all or their supplemental COLA may be limited. Supplemental COLAs are capped at 3.5% less any basic COLA. As the majority of retirees have annual basic COLAs capped at 2.0%, a supplemental COLA when granted typically represents a 1.5% increase in benefit.

Cheiron's July 2024 report provides stress testing of the supplemental COLA provision and shows that the current funding policy of amortizing new supplemental COLAs over five years manages the risk with contributions remaining very close to baseline and a relatively stable funded status.

Governmental Accounting Standards Board ("GASB") Disclosures

The Retirement System discloses accounting and financial reporting information under GASB Statement No. 67, *Financial Reporting for Pension Plans*. The City discloses accounting and financial information about the Retirement System under GASB Statement No. 68, *Accounting and Financial Reporting for Pensions*. In general, the City's funding of its pension obligations is not affected by the GASB 68 reporting of the City's pension liability. Funding requirements are specified in the City Charter and are described in "Funding Practices" above.

Total Pension Liability reported under GASB Statements No. 67 and 68 differs from the Actuarial Liability calculated for funding purposes in several ways, including the following differences. First, Total Pension Liability

measured at fiscal year-end is a roll-forward of liabilities calculated at the beginning of the year and is based upon a beginning of year census adjusted for significant events that occurred during the year. Second, Total Pension Liability is based upon a discount rate determined by a blend of the assumed investment return, to the extent the fiduciary net position is available to make payments, and a municipal bond rate, to the extent that the fiduciary net position is unavailable to make payments. There have been no differences between the discount rate and assumed investment return since the end of fiscal year 2015. The third distinct difference is that Total Pension Liability includes a provision for supplemental COLAs that may be granted in the future, while Actuarial Liability for funding purposes includes only supplemental COLAs that have already been granted as of the valuation date.

Table A-22 below shows for the five most recent fiscal years the collective Total Pension Liability, Plan Fiduciary Net Position (market value of assets), and Net Pension Liability for all employers who sponsor the Retirement System. The City's audited financial statements disclose only its own proportionate share of the Net Pension Liability and other required GASB 68 disclosures.

TABLE A-22
Employees' Retirement System
GASB 67/68 Disclosures
Fiscal Years 2019-2020 through 2023-24
(Dollar amounts in 000s)

As of July 1 st	Collective Total Pension Liability (TPL)	Discount Rate	Plan Fiduciary Net Position	Plan Net Position as % of TPL	Collective Net Pension Liability (NPL)	City and County's Proportionate Share of NPL
2020	\$32,031,018	7.40%	\$26,620,218	83.1%	\$5,410,800	\$5,107,271
2021	33,088,765	7.40	35,673,834	107.8	(2,585,069)	(2,446,563)
2022	35,489,639	7.20	32,798,524	92.4	2,691,115	2,552,997
2023	37,332,835	7.20	33,688,428	90.2	3,644,407	3,456,687
2024	39,404,561	7.20	35,417,666	89.9	3,986,895	3,775,718

Sources: SFERS fiscal year-end GSAB 67/68 Reports as of each June 30

Note: Collective amounts include all employees (City and County, SFUSD, SFCCD, Trail Courts)

NPL can be quite volatile. The large decline at fiscal year-end 2021 is due to the 33.7% investment portfolio return during that year, while the increase at fiscal year-end 2022 is due to both the -2.9% return and the reduction in discount rate from 7.4% to 7.2%. NPL increased again at year-end 2023 due to asset returns below the long-term assumed rate, the November 2022 Charter amendment that increased the June 30, 2023 TPL by \$59 million, and differences between expected and actual demographic assumptions including salary increases. The NPL increased by about \$342 million as of July 1, 2024, primarily due to liability experience losses of \$480 million, offset by an investment experience gain of \$171 million.

Asset Management

The assets of the Retirement System, (the "Fund") are invested in a broadly diversified manner across the institutional global capital markets. In addition to U.S. equities and fixed income securities, the Fund holds international equities, global sovereign and corporate debt, global public and private real assets, absolute return strategies (including hedge funds), and an array of alternative investments including private equity, venture capital limited partnerships, and private credit.

Annualized investment return (net of fees and expenses) for the Retirement System for the five years ending June 30, 2024 was 8.44%. For the ten-year and twenty-year periods ending June 30, 2024, annualized investment returns were 8.03% and 7.98% respectively.

The investments, their allocation, transactions and proxy votes are regularly reviewed by the Retirement Board and monitored by an internal staff of investment professionals who in turn are advised by external consultants who are specialists in the areas of investments detailed above. A description of the Retirement System's investment policy, a description of asset allocation targets and current investments, and the Annual Report of the Retirement System are available upon request from the Retirement System by writing to the San Francisco Retirement System, 1145 Market Street, 5th Floor, San Francisco, California 94103, or by calling (415) 487-7000. These documents are not incorporated herein by reference.

Voter Approved Changes to the Retirement Plan

SFERS plan benefits are established under the Charter and approved directly by the voters, rather than through the collective bargaining process. Changes to retirement benefits require a voter-approved Charter amendment.

In 2011, voters approved Proposition C which aimed to reduce future pension costs. Proposition C introduced new lower-cost benefit tiers for all members hired on and after January 7, 2012 and also restricted the payment of any new supplemental COLAs to when SFERS is fully funded. Since 2011, the fully funded requirement for Supplemental COLAs has been removed from all members hired before January 7, 2012. First the October 2015 Superior Court judgement removed the fully funded requirement for pre-Proposition C members retired on and after November 6, 1996. Then in November 2022, voters approved Proposition A which removed the fully funded requirement for retirees who commenced benefits prior to November 6, 1996. However, for this older group of retirees only, the amount of supplemental COLA is capped at \$200 per month for retirees with annual pensions exceeding \$50,000 when SFERS is not fully funded.

The Proposition C fully funded restriction remains in effect for retirees hired on and after January 7, 2012. In addition, for these post-2011 hires, the supplemental COLA is temporary and reverts to zero in any year in which no supplemental COLA is paid.

In November 2024, voters again approved two expansions of benefits. Measure H restored pre-2012 retirement age factors to firefighters while retaining the three-year final average compensation requirement for these post-2011 hires. Measure I increased retirement benefits for 911 Operators by moving their future service to the Miscellaneous Safety benefit tier. Measure I also allows Registered Nurses to purchase previously ineligible service worked prior to becoming a member of SFERS.

Impact on the Retirement System from Changes in the Economic Environment

As of June 30, 2024, the audited market value of Retirement System assets was \$35.4 billion. As of January 31, 2025, the estimated value of SFERS' investment portfolio was \$36.7 billion. These values represent, as of the date specified, the estimated value of the Retirement System's portfolio if it were liquidated on that date. The Retirement System cannot be certain of the value of certain of its portfolio assets and, accordingly, the market value of the portfolio could be lower or higher. Moreover, appraisals for classes of assets that are not publicly traded are based on estimates which typically lag changes in actual market value by three to six months. Representations of market valuations are audited at each fiscal year end as part of the annual audit of the Retirement System's financial statements.

The Retirement System investment portfolio is structured for long-term performance. The Retirement System continually reviews investment and asset allocation policies as part of its regular operations and continues to rely on an investment policy which is consistent with the principles of diversification and the search for long-term value. Market fluctuations are an expected investment risk for any long-term strategy. Significant market fluctuations are expected to have significant impact on the value of the Retirement System investment portfolio.

A decline in the value of SFERS Trust assets over time, without a commensurate decline in the pension liabilities, will result in an increase in the contribution rate for the City. No assurance can be provided by the City that contribution rates will not increase in the future, and that the impact of such increases will not have a material impact on City finances.

Other Employee Retirement Benefits

As noted above, various City employees are members of CalPERS, an agent multiple-employer public employee defined benefit plan for safety members and a cost-sharing multiple-employer plan for miscellaneous members. The City makes certain payments to CalPERS in respect of such members, at rates determined by the CalPERS board. Section A8.510 of the Charter requires the City to pay the full amount required by the actuarial valuations. The actual total employer contributions to CalPERS were \$52.0 million in fiscal year 2021-22. In addition to the required amounts, the City elected to pay an additional amount of \$8.4 million in fiscal years 2017-18, 2018-19 and 2019-2020; \$5.0 million in fiscal year 2021-22; and \$16.7 million in fiscal year 2022-23 in order to reduce its unfunded liability. A discussion of other post-employment benefits, including retiree medical benefits, is provided below under “Medical Benefits – Post-Employment Health Care Benefits” and “GASB 75 Reporting Requirements.”

Medical Benefits

Administration through San Francisco Health Service System; Audited System Financial Statements

Medical and COBRA benefits for eligible active City employees and eligible dependents, for retired City employees and eligible dependents, and for surviving spouses and domestic partners of covered City employees (the “City Beneficiaries”) are administered by the San Francisco Health Service System (the “San Francisco Health Service System” or “SFHSS”) pursuant to City Charter Sections 12.200 *et seq.* and A8.420 *et seq.* Pursuant to such Charter Sections, the SFHSS also administers medical benefits to active and retired employees of SFUSD, SFCCD and the San Francisco Superior Court; however, the City is only required to fund medical benefits for City Beneficiaries.

The San Francisco Health Service System is overseen by the City’s Health Service Board (the “Health Service Board”). The plans (the “SFHSS Medical Plans”) for providing medical care to the City Beneficiaries are determined annually by the Health Service Board and approved by the Board of Supervisors pursuant to Charter Section A8.422.

The San Francisco Health Service System oversees a trust fund (the “Health Service System Trust Fund”) established pursuant to Charter Sections 12.203 and A8.428 through which medical benefits for the City Beneficiaries are funded. The San Francisco Health Service System issues an annual, publicly available, independently audited financial report that includes financial statements for the Health Service System Trust Fund. This report may be obtained through the SFHSS website at sfhss.org, by writing to the San Francisco Health Service System, 1145 Market Street, Third Floor, San Francisco, California 94103. Audited annual financial statements for prior years are posted to the SFHSS website, however the information available on the SFHSS website is not incorporated in this Official Statement by reference.

Under the City Charter, the Health Service System Trust Fund is not a fund through which assets are accumulated to finance post-employment healthcare benefits (an “OPEB Trust Fund”). Thus, GASB Statement Number 45, *Financial Reporting for Postemployment Benefit Plans Other Than Pensions* (“GASB 45”) and GASB Statement Number 75, *Accounting and Financial Reporting for Postemployment Benefits Other than Pensions* (“GASB 75”), which apply to OPEB Trust Funds, do not apply to the San Francisco Health Service System Trust Fund. However, the City has been funding post-employment healthcare benefits (“OPEB”) in a separate fund, the Retiree Health Care Trust Fund (“RHCTF”) for the purpose of prefunding future OPEB payments as described below.

Determination of Employer and Employee Contributions for Medical Benefits

According to the City Charter Section A8.428, the City's contribution towards SFHSS Medical Plans for active employees and retirees is determined by the results of an annual survey of the amount of premium contributions provided by the ten most populous counties in California (other than the City) for health care. The survey is commonly called the 10-County Average Survey and is used to determine "the average contribution made by each such County toward the providing of health care plans, exclusive of dental or optical care, for each employee of such County." The "average contribution" is used to calculate the City's required contribution to the Health Service System Trust Fund for retirees.

Unions representing the majority of City employees negotiate through collective bargaining rather than applying the "average contribution" to determine the amount the City is required to contribute for active employees. To the extent annual medical premiums exceed the contributions made by the City as required by the Charter and union agreements, such excess must be paid by SFHSS Beneficiaries. Medical benefits for City Beneficiaries who are retired or otherwise not employed by the City (e.g., surviving spouses and surviving domestic partners of City retirees) ("Nonemployee City Beneficiaries") are funded through contributions from such Nonemployee City Beneficiaries and the City as determined pursuant to Charter Section A8.428. The San Francisco Health Service System medical benefit eligibility requirements for Nonemployee City Beneficiaries are described below under "*Post-Employment Health Care Benefits.*"

City Contribution for Retirees

The City contributes the full employer contribution amount for medical coverage for eligible retirees who were hired on or before January 9, 2009 pursuant to Charter Section A8.428. For retirees who were hired on or after January 10, 2009, the City contributes a portion of the medical coverage costs based on five coverage/employer contribution classifications that reflect certain criteria outlined in the Table below.

Retiree Medical Coverage/Employer Contribution for Those Hired On or After January 10, 2009	
Years of Credited Service at Retirement	Percentage of Employer Contribution Established in Charter Section A8.428 Subsection (b)(3)
Less than 5 years of Credited Service with the Employers (except for the surviving spouses or surviving domestic partners of active employees who died in the line of duty)	No Retiree Medical Benefits Coverage
At least 5 but less than 10 years of Credited Service with the Employers; or greater than 10 years of Credited Service with the Employers but not eligible to receive benefits under Subsections (a)(4), (b)(5) (A8.428 Subsection (b)(6))	0% - Access to Retiree Medical Benefits Coverage. Including Access to Dependent Coverage
At least 10 but less than 15 years of Credited Service with the Employers (AB.428 Subsection (b)(5))	50%
At least 15 but less than 20 years pf Credited Service with the Employers (AB.428 Subsection (b)(5))	75%
At least 20 years of Credited Service with the Employer; Retired Persons who retired for disability; surviving spouses or surviving domestic partners of active employees who died in the line of duty (AB.428 Subsection (b)(4))	100%

Health Care Reform

The following discussion is based on the current status of the Patient Protection and Affordable Care Act (the “ACA”). Many attempts have been made to completely repeal the ACA; however full repeal has been unsuccessful thus far.

Three ACA taxes and one fee have impacted SFHSS rates for medical coverage. The three ACA taxes were repealed in 2020 and 2021; however, Congress revived and extended the Patient-Centered Outcomes Research Institute (“PCORI”) Fee, which had expired in 2019. The PCORI fee, adopted in the ACA, is paid by issuers of health insurance policies and plan sponsors of self-insured health plans to help fund the Patient-Centered Outcomes Research Institute. The fee is based on the average number of lives covered under the policy or plan. The fee applies to policy or plan years ending on or after October 1, 2012, and before October 1, 2029.

Employer Contributions for San Francisco Health Service System Benefits

For fiscal year 2023-24, based on the most recent audited financial statements, the San Francisco Health Service System received approximately \$939 million from participating employers for San Francisco Health Service System benefit costs. Of this total, the City contributed approximately \$806 million; approximately \$230 million of this \$806 million amount was for health care benefits for approximately 24,269 retired City employees and their eligible dependents, and approximately \$576 million was for benefits for approximately 32,023 active City employees and their eligible dependents.

The 2024 aggregate (employee and employer) cost of medical benefits offered by SFHSS to the City increased by 10.3%. The increase is comparable to California benchmarks due to several factors including contracting by SFHSS that maintains competition among the health plans, implementing value-based models such as Accountable Care Organizations, use of generic prescription, and implementing flex-funded plans using narrow networks. Flex-funding eliminates the typical margins added by health plans; however, more risk is assumed by the city, and reserves are required to protect against this risk.

Post-Employment Health Care Benefits

The eligibility of former City employees for retiree health care benefits (“OPEB Benefits”) and City and employee contributions to the Retiree Health Care Trust Fund (“RHCTF”) are governed by the Charter (Section A8.432(a-b)). San Francisco voters have passed three different propositions to set these eligibility and contribution requirements: Proposition B passed on June 3, 2008; Proposition C passed on November 8, 2011; and Proposition A passed on November 5, 2013.

Employees hired before January 10, 2009, and a spouse or dependent are potentially eligible for health benefits following retirement at age 50 and completion of five years of City service. OPEB Benefit coverage and the City’s required contributions for employees hired on or after January 10, 2009, is described above under “Medical Benefits: City Contribution for Retirees”. Unlike employee pension contributions that are made to individual accounts, contributions to the RHCTF are non-refundable, even if an employee separates from the City and does not receive OPEB Benefits from the City.

Employee and City contributions to the RHCTF are a fixed percentage of pay that varies depending on the employee’s hire date, the year in which the payment is made, and whether the RHCTF is fully funded. Employees hired before January 10, 2009, are required to make contributions equal to 1% of their salary to the RHCTF and employees hired on or after January 10, 2009, are required to make contributions equal to 2% of their salary. The City pays all OPEB Benefits on a pay-as-you-go basis each year and is required to contribute an amount equal to 1% of total pay to the RHCTF.

The City may not make disbursements from the RHCTF until it is fully funded, subject to the following exception. If the sum of the City’s annual RHCTF contributions and OPEB Benefit payments (together, the

“OPEB Cost”) is projected to exceed 10% of payroll, the RHCTF Board may authorize stabilization disbursements from the RHCTF to the extent necessary to reduce the City’s OPEB Cost to 10% of payroll provided that such stabilization disbursement does not exceed 10% of the balance in the RHCTF as of the prior year. The City has never had to make a disbursement from the RHCTF, and OPEB Cost as a percentage of payroll for fiscal year 2022-23 was 6.2%.

GASB 75 Reporting Requirements

In June 2015, GASB issued GASB 75. GASB 75 revises and establishes new accounting and financial reporting requirements for governments that provide their employees with OPEBs. The new standard is effective for periods beginning after June 15, 2017. The City implemented the provisions of GASB 75 in its audited financial statements for fiscal year 2017-18. According to GASB’s Summary of GASB 75, GASB 75 requires recognition of the entire OPEB liability, a more comprehensive measure of OPEB expense, and new note disclosures and required supplementary information to enhance decision-usefulness and accountability.

City’s Estimated Liability

The City is required by GASB 75 to prepare a new actuarial study of its OPEB Benefits obligation at least once every two years. As of the measurement date of June 30, 2023 (issued October 2024), used in the most recent actuarial valuation report dated June 30, 2023, the retiree health care fiduciary plan net position as a percentage of the total OPEB liability was 19.3%. This reflects the net position of the RHCTF in the amount of \$938.9 million divided by the total OPEB liability of \$4.9 billion. The estimated covered payroll (annual payroll of active employees covered by the plan) was \$4.5 billion, and the ratio of the Net OPEB liability to the covered payroll was 86.8%.

Under GASB 75, the annual OPEB Expense can be calculated as the change in the City’s Net OPEB liability plus the changes in deferred outflows and inflows plus employee contributions. As stated above, employee and City contributions to the RHCTF are set by the Charter and are not actuarially determined. The annual OPEB Expense is included in the five-year trend information displayed in Table A-24 below purely for informational purposes.

Total City Employee Benefits Costs

Table A-24 provides historical and budget information for all health benefits costs paid including pension, health, dental and other miscellaneous benefits. Historically, approximately 50% of health benefit costs are paid from the General Fund. For all fiscal years shown, a “pay-as-you-go” approach was used by the City for health care benefits.

Table A-24 below provides a summary of the City’s employee benefit actual costs for fiscal years 2020-21 through 2023-24 and budgeted costs for 2024-25.

INVESTMENT OF CITY FUNDS

Investment Pool

The Treasurer of the City (the “Treasurer”) is authorized by Charter Section 6.106 to invest funds available under California Government Code Title 5, Division 2, Part 1, Chapter 4. In addition to the funds of the City, the funds of various City departments and local agencies located within the boundaries of the City, including the school and community college districts, airport and public hospitals, are deposited into the City and County’s Pooled Investment Fund (the “Pool”). The funds are commingled for investment purposes.

Investment Policy

The management of the Pool is governed by the Investment Policy administered by the Office of the Treasurer and Tax Collector in accordance with California Government Code Sections 27000, 53601, 53635, et. al. In order of priority, the objectives of this Investment Policy are safety, liquidity and return on investments. Safety of principal is the foremost objective of the investment program. The investment portfolio maintains sufficient liquidity to meet all expected expenditures for at least the next six months. The Office of the Treasurer and Tax Collector also attempts to generate a market rate of return, without undue compromise of the first two objectives.

The Investment Policy is reviewed and monitored annually by a Treasury Oversight Committee, which is established by the Board of Supervisors. The Committee consists of the following members, who are nominated by the Treasurer and confirmed by the Board of Supervisors:

- Seat 1 is held by the Controller or the Controller’s designee.
- Seat 2 is held by the County Superintendent of Schools or the Superintendent’s designee.
- Seat 3 is held by the Chancellor of the Community College District or the Chancellor’s designee.
- Seats 4 and 5 are held by employees of City departments or local agencies that participate in the City’s pooled fund. These are currently held by the San Francisco International Airport and the San Francisco Public Utilities Commission.
- Seats 6 and 7 are held by members of the public who have expertise in, or an academic background in public finance

A complete copy of the Treasurer’s Investment Policy, dated May 2024, is included as an Appendix to this Official Statement.

Investment Portfolio

As of November 30, 2024, the City’s surplus investment fund consisted of the investments classified in Table A-25 and had the investment maturity distribution presented in Table A-26.

Further Information

A report detailing the investment portfolio and investment activity, including the market value of the portfolio, is submitted to the Mayor and the Board of Supervisors monthly. The monthly reports and annual reports are available on the Treasurer's web page: www.sftreasurer.org. The monthly reports and annual reports are not incorporated by reference herein.

CAPITAL FINANCING AND BONDS

Capital Plan

In October 2005, the Board of Supervisors adopted, and the Mayor approved, Ordinance No. 216-05, which established a new capital planning process for the City. The legislation requires that the City develop and adopt a 10-year capital expenditure plan for City-owned facilities and infrastructure. It also created the Capital Planning Committee (the "CPC") and the Capital Planning Program ("CPP"). The CPC makes recommendations to the Mayor and Board of Supervisors on the City's capital expenditures and plans. The CPC reviews and submits the Capital Plan, Capital Budget, and issuances of long-term debt for approval. The CPC is chaired by the City Administrator and includes the President of the Board of Supervisors, the Mayor's Budget Director, the Controller, the City Planning Director, the Director of Public Works, the Airport Director, the Executive Director of the MTA, the General Manager of the SFPUC, the General Manager of the Recreation and Parks Department, and the Executive Director of the Port. To help inform CPC recommendations, the CPC staff, under the direction of the City Administrator, review and prioritize funding needs; project and coordinate funding sources and uses; and provide policy analysis and reports on interagency capital planning.

The City Administrator, in conjunction with the CPC, is directed to develop and submit a 10-year capital plan every other fiscal year for approval by the Board of Supervisors. The Capital Plan is a fiscally constrained long-term finance strategy that prioritizes projects based on a set of funding principles. It provides an assessment of the City's infrastructure and other funding needs over 10 years, highlights investments required to meet these needs, and recommends a plan of finance to fund these investments. Although the Capital Plan provides cost

estimates and proposes methods to finance such costs, the document does not reflect any commitment by the Board of Supervisors to expend such amounts or to adopt any specific financing method. The Capital Plan is required to be updated and adopted biennially, along with the City's Five-Year Financial Plan and the Five-Year Information & Communication Technology Plan. The CPC is also charged with reviewing the annual capital budget submission and all long-term financing proposals and providing recommendations to the Board of Supervisors relating to the compliance of any such proposal or submission with the adopted Capital Plan.

The Capital Plan is required to be submitted to the Mayor and the Board of Supervisors by each March 1 in odd-numbered years and adopted by the Board of Supervisors and the Mayor on or before May 1 of the same year.

The fiscal years 2024-2033 Capital Plan (the "Adopted Capital Plan") was approved by the CPC on February 27, 2023, and was adopted by the Board of Supervisors on May 9, 2023. The Adopted Capital Plan contains \$41.4 billion in capital investments over the coming decade for all City departments, including \$5.8 billion in projects for General Fund-supported departments. The Adopted Capital Plan proposes \$2.2 billion for General Fund pay-as-you-go capital projects through fiscal year 2032-33. The next capital plan update is expected in Spring 2025. Major capital projects for General Fund-supported departments included in the Capital Plan consist of critical seismic projects, and relocation of staff from seismically vulnerable facilities; upgrades to public health, police, and fire facilities; transportation and utility system improvements; street and right-of-way improvements; the removal of barriers to accessibility; and park improvements, among other capital projects. \$2.7 billion of the capital projects of General Fund supported departments are expected to be financed with general obligation bonds and other long-term obligations, subject to planning policy constraints. The balance is expected to be funded by federal and State funds, the General Fund and other sources.

In addition to the City General Fund-supported capital spending, the Adopted Capital Plan recommends over \$19.0 billion in enterprise fund department projects to continue major transit, economic development and public utility projects such as MTA facilities, seawall strengthening, terminal 1 and 3 upgrades at San Francisco International Airport, water, sewer, and power enterprise improvements, and building adequate facilities to support the City's growing transit fleet, among others. Approximately \$8.3 billion of enterprise fund department capital projects are anticipated to be financed with revenue bonds. The balance is expected to be funded by general obligation bonds, federal and State funds, user/operator fees, General Fund and other sources.

While significant investments are proposed in the City's Adopted Capital Plan, identified resources remain below those necessary to maintain and enhance the City's physical infrastructure. As a result, over \$6.7 billion in capital needs including enhancements are deferred from the plan's horizon.

Failure to make the capital improvements and repairs recommended in the City's Adopted Capital Plan may have the following impacts: (i) failing to meet federal, State or local legal mandates; (ii) failing to provide for the imminent life, health, safety and security of occupants and the public; (iii) failing to prevent the loss of use of the asset; (iv) impairing the value of the City's assets; (v) increasing future repair and replacement costs; and (vi) harming the local economy.

Tax-Supported Debt Service – City General Obligation Bonds

Under the State Constitution and the Charter, City bonds secured by *ad valorem* property taxes ("general obligation bonds" or "GO bonds") can only be authorized with a two-thirds approval of the voters. In addition to the City's general obligation bonds, BART, SFUSD and SFCCD also have outstanding general obligation bonds as shown in Table A-31.

Table A-27 shows the annual amount of debt service payable on the City's outstanding GO bonds.

Authorized but Unissued City GO Bonds

Certain GO bonds authorized by the City's voters as discussed below have not yet been issued. Such bonds may be issued at any time by action of the Board of Supervisors, without further approval by the voters.

In November 1992, voters approved Proposition A ("1992 Proposition A") which authorized the issuance of up to \$350.0 million in GO bonds to support San Francisco's Seismic Safety Loan Program ("SSLP"), which provides loans for the seismic strengthening of privately-owned unreinforced masonry affordable housing, market-rate residential, commercial and institutional buildings. Between 1994 and 2015, the City issued \$89.3 million of bonds under the original 1992 Proposition A authorization. In November 2016, voters approved Proposition C ("2016 Proposition C"), which amended the 1992 Proposition A authorization (together, the "1992A/2016A Propositions") to broaden the scope of the remaining \$260.7 million authorization by adding the eligibility to finance the acquisition, improvement, and rehabilitation to convert at-risk multi-unit residential buildings to affordable housing, as well as the needed seismic, fire, health, and safety upgrades and other major rehabilitation for habitability, and related costs. Currently \$85.7 million remains authorized and unissued.

In November 2018, voters approved Proposition A ("2018 Embarcadero Seawall Improvement Proposition"), authorizing the issuance of up to \$425.0 million in general obligation bonds for repair and improvement projects along the City's Embarcadero and Seawall to protect the waterfront, BART and Muni, buildings, historic piers, and roads from earthquakes, flooding, and sea level rise. Currently, \$216.3 million remains authorized and unissued.

In November 2019, voters approved Proposition A ("2019 Affordable Housing Proposition"), which authorized the issuance of up to \$600.0 million in general obligation bonds to finance the construction, development, acquisition, and preservation of affordable housing for certain vulnerable San Francisco residents; to assist in the acquisition, rehabilitation, and preservation of existing affordable housing to prevent the displacement of residents; to repair and reconstruct distressed and dilapidated public housing developments and their underlying infrastructure; to assist the City's middle-income residents or workers in obtaining affordable rental or home ownership opportunities including down payment assistance and support for new construction of affordable housing for SFUSD and City College of San Francisco employees; and to pay related costs. Currently, \$107.5 million remains authorized and unissued.

In March 2020, voters approved Proposition B ("2020 Earthquake Safety and Emergency Response Proposition") which authorized the issuance of up to \$628.5 million in general obligation bonds to aid fire, earthquake and emergency response by improving, constructing, and/or replacing: deteriorating cisterns, pipes, tunnels, and related facilities to ensure firefighters a reliable water supply for fires and disasters; neighborhood fire and police stations and supporting facilities; the City's 911 Call Center; and other disaster response and public safety facilities, and to pay related costs. Currently, \$243.0 million remains authorized and unissued.

In November 2020, voters approved Proposition A ("2020 Health and Recovery Bond"), which authorized the issuance of up to \$487.5 million in general obligation bonds to fund permanent investments in transitional supportive housing facilities, shelters, and/or facilities that serve individuals experiencing homelessness, mental health challenges, or substance use; improve the safety and quality of parks; and improve the safety and condition of streets and other public rights of way. Currently, approximately \$200.2 million remains authorized and unissued.

In March 2024, voters approved Proposition A ("2024 Affordable Housing Proposition"), which authorized the issuance of up to \$300.0 million in general obligation bonds to construct, develop, acquire, and/or rehabilitate housing, including workforce housing and senior housing, that will be affordable to households ranging from extremely low-income to moderate-income households. Currently, approximately \$152.8 million remains authorized and unissued.

In November 2024, voters approved Proposition B (“2024 Healthy, Safe, and Vibrant SF Bond”), which authorized the issuance of up to \$390.0 million in general obligation bonds to finance the acquisition or improvement of temporary shelters, particularly for families; facilities that deliver healthcare services, including preventive care and behavioral health services, such as the Chinatown Public Health Center; critical repairs, renovations, and seismic upgrades at Zuckerberg San Francisco General Hospital and Trauma Center and Laguna Honda Hospital; and pedestrian and street safety improvements, streetscape enhancements, and other public space improvements. No series have yet been issued under the 2024 Healthy, Safe, and Vibrant SF Bond authorization.

Table A-28 on the following page lists for each of the City’s voter-authorized general obligation bond programs, the amounts issued and outstanding, and the amount of remaining authorization for which bonds have not yet been issued. Series are grouped by program authorization in chronological order. The authorized and unissued column refers to total program authorization that can still be issued and does not refer to any particular series.

General Fund Lease Obligations

The Charter requires that any lease-financing agreements with a nonprofit corporation or another public agency must be approved by a majority vote of the City's electorate, except (i) leases approved prior to April 1, 1977, (ii) refunding lease financings expected to result in net savings, and (iii) certain lease financing for capital equipment. The Charter does not require voter approval of lease financing agreements with for-profit corporations or entities.

Table A-29 sets forth the aggregate annual lease payment obligations supported by the City's General Fund with respect to outstanding long-term lease revenue bonds, certificates of participation, and equipment lease purchase agreements as of February 1, 2025.

Voter-Approved Lease Revenue Bonds

The City electorate has approved several lease revenue bond propositions, and the City has issued the lease revenue bonds set forth in Table 30. There are approximately \$114.1 million of authorized but unissued voter-approved lease revenue bonds. The following lease programs have remaining authorization:

In 1987, voters approved Proposition F, which authorizes the City to lease finance (without limitation as to maximum aggregate principal amount) the construction of new parking facilities, including garages and surface lots, in eight of the City's neighborhoods. In July 2000, the City issued \$8.2 million in lease revenue bonds to finance the construction of the North Beach Parking Garage, which was opened in February 2002. There is no current plan to issue additional bonds at this time.

In 1990, voters approved Proposition C ("1990 Proposition C"), which amended the Charter to authorize the City to lease purchase equipment through a nonprofit corporation without additional voter approval but with certain restrictions. The City and County of San Francisco Finance Corporation (the "Corporation") was incorporated for that purpose. 1990 Proposition C provides that the outstanding aggregate principal amount of obligations with respect to lease financings may not exceed \$20.0 million, with such amount increasing by five percent each fiscal year. As of July 1, 2023, the total authorized and unissued amount for such financings was \$100 million. There is no current plan to issue additional bonds at this time.

In 1994, voters approved Proposition B ("1994 Proposition B"), which authorized the issuance of up to \$60.0 million in lease revenue bonds for the acquisition and construction of a combined dispatch center for the City's emergency 911 communication system and for the emergency information and communications equipment for the center. In 1997 and 1998, the Corporation issued \$22.6 million and \$23.3 million of 1994 Proposition B lease revenue bonds, respectively, leaving \$14.1 million in remaining authorization. There is no current plan to issue additional series of bonds under 1994 Proposition B.

In 2000, voters approved Proposition C ("2000 Proposition C"), which extended a two and one-half cent per \$100.0 in assessed valuation property tax set-aside for the benefit of the Recreation and Park Department (the "Open Space Fund"). 2000 Proposition C also authorized the issuance of lease revenue bonds or other forms of indebtedness payable from the Open Space Fund. In August 2018 the City issued refunding lease revenue bonds to refund Series 2006 and 2007 Open Space Fund lease revenue bonds.

In 2007, voters approved Proposition D, which amended the Charter and renewed the Library Preservation Fund. Proposition D continued the two and one-half cent per \$100.0 in assessed valuation property tax set-aside and established a minimum level of City appropriations, moneys that are maintained in the Library Preservation Fund. Proposition D also authorized the issuance of revenue bonds or other evidences of indebtedness. In August 2018 the City issued refunding lease revenue bonds to refund Series 2009A Branch Library Improvement Project lease revenue bonds.

Board Authorized and Unissued Long-Term Certificates of Participation

Certain issuances have been authorized as supplements to a lease (“Master Lease”), which currently supports the City’s outstanding Certificates of Participation (“COPs”), Series 2019-R1, Series 2020-R1, Series 2021A, Series 2023A, Series 2023B, Series 2024-R1 and Series 2024A, by and between the City and a third-party trustee, currently U.S. Bank National Association. Properties leased pursuant to the Master Lease currently include the City-owned Laguna Honda Hospital campus located at 375 Laguna Honda Boulevard, San Francisco; the San Bruno Jail Complex located at 1 Moreland Drive, San Bruno; and One South Van Ness Property located at 1 South Van Ness Avenue, San Francisco.

Treasure Island Improvement Project: In October of 2013, the Board authorized, and the Mayor approved the issuance of not to exceed \$13.5 million of City and County of San Francisco Certificates of Participation to finance the cost of additions and improvements to the utility infrastructure at Treasure Island. At this time there is not an expected timeline for the issuance of these certificates.

Housing Trust Fund Project: In April 2016, the Board authorized and the Mayor approved the issuance of not to exceed \$95.0 million of City and County of San Francisco Certificates of Participation (Affordable Housing Projects) authorized under the Master Lease to provide funds to assist in the development, acquisition, construction or rehabilitation of affordable rental housing projects. The City previously issued commercial paper to finance these projects and paid down its commercial paper balance.

Hall of Justice Relocation Projects: In October 2019, the Board authorized and the Mayor approved the issuance of not to exceed \$62.0 million principal amount of City and County of San Francisco Certificates of Participation (Multiple Capital Projects) authorized under the Master Lease to finance or refinance tenant improvements involving the construction, acquisition, improvement, renovation, and retrofitting of City-owned properties as needed for the Hall of Justice Improvement Project enabling staff and offices to be consolidated in acquired City-owned properties. The City funded \$4.6 million in project fund and related financing costs related to this authorization for the 444 Sixth Street acquisition as part of the Certificates of Participation, Series 2021A issuance. The City expects to issue the remainder of the long-term COPs in fiscal year 2025-26 or later.

HOPE SF Project: In December 2019, the Board authorized, and the Mayor approved the issuance of not to exceed \$83.6 million of City and County of San Francisco Certificates of Participation authorized under the Master Lease to finance or refinance certain capital improvements, including but not limited to certain properties generally known as Hunters View, Sunnysdale, and Potrero Terrace and Annex housing developments. The City anticipates issuing the first long-term COPs under this authorization in fiscal year 2025-26 or later.

Critical Repairs and Recovery Stimulus (FY2022): In July 2021, the Board authorized and the Mayor approved the issuance of not to exceed \$67.5 million of City and County of San Francisco Certificates of Participation authorized under the Master Lease, to finance and refinance certain capital improvements generally consisting of critical repairs, renovations and improvements to City-owned buildings, facilities and works utilized by various City departments and local economic stimulus projects. The City funded \$31.9 million in project fund and related financing costs for this authorization as part of the Certificates of Participation Series 2023B issuance. The City expects to issue the remainder of the long-term COPs in fiscal year 2024-25 or later.

Critical Repairs, Recovery Stimulus and Street Repaving Projects (FY2023): In July 2022, the Board authorized and in August 2022 the Mayor approved the issuance of not to exceed \$140.0 million of City and County of San Francisco Certificates of Participation authorized under the Master Lease, to finance and refinance certain capital improvements generally consisting of (a) street repaving and reconstruction, (b) critical repairs, including renovations and improvements to City-owned buildings, facilities and works utilized by various City departments and (c) local economic stimulus projects. The City funded \$48.4 million in project fund and related financing costs for this authorization as part of the Certificates of Participation Series 2023B issuance. The City expects to issue the remainder of the long-term COPs in fiscal year 2025-26 or later.

Affordable Housing and Community Development Projects: In May 2023 the Board authorized and in June 2023 the Mayor approved the issuance of not to exceed \$146.8 million of City and County of San Francisco Certificates of Participation authorized under the Master Lease, to finance and refinance certain capital improvement, affordable housing and community facility development projects. The City funded \$102.0 million in project funds for this authorization as part of the Certificates of Participation, Series 2023A issuance. The City expects to issue the remainder of the long-term COPs in fiscal year 2025-26 or later.

Critical Repairs and Street Repaving Projects (FY2024): In September 2023 the Board authorized and the Mayor approved the issuance of not to exceed \$77.2 million of City and County of San Francisco Certificates of Participation authorized under the Master Lease, to finance and refinance certain capital improvements generally consisting of critical repairs, renovations and improvements to City-owned buildings, facilities, streets, and works utilized by various City departments. The City expects to issue its first series of long-term COPs in fiscal year 2025-26 or later.

Critical Repairs and Street Repaving Projects (FY2025): In September 2024 the Board authorized and the Mayor approved the issuance of not to exceed \$61.4 million of City and County of San Francisco Certificates of Participation authorized under the Master Lease, to finance and refinance certain capital improvements generally consisting of critical repairs, renovations and improvements to City-owned buildings, facilities, streets, and works utilized by various City departments. The City expects to issue its first series of long-term COPs in fiscal year 2025-26.

Music Concourse Garage (FY2025): In September 2024 the Board authorized and the Mayor approved the issuance of not to exceed \$29.0 million of City and County of San Francisco Certificates of Participation, to finance the acquisition of the Music Concourse Garage (Garage), with certain obligations associated with the construction of the Garage being defeased concurrently. The City expects to issue the COPs in fiscal year 2024-25.

Treasure Island Stage 2 Certificates of Participation. In May 2024, legislation amending the Development Agreement and Disposition and Development Agreement for the Treasure Island development project was approved by the Board of Supervisors. This amendment includes a proposal for the City to issue Certificates of Participation to fund \$115 million in infrastructure improvements related to Stage 2 of the Treasure Island development project. In December 2024 the Board authorized the issuance of not to exceed \$65.0 million of City and County of San Francisco Certificates of Participation to finance, refinance or reimburse expenditures relating to the construction of certain public facilities and improvements in connection with Stage 2 of the Treasure Island development project. The City expects to issue its first series of COPs in fiscal year 2024-25.

Commercial Paper Program

In March 2009, the Board of Supervisors authorized, and the Mayor approved, a not-to-exceed \$150.0 million Lease Revenue Commercial Paper Certificates of Participation Program, Series 1 and 1-T and Series 2 and 2-T (the “Original CP Program”). In July of 2013, the Board of Supervisors authorized, and the Mayor approved an additional \$100.0 million of Lease Revenue Commercial Paper Certificates of Participation, Series 3 and 3-T and Series 4 and 4-T (the “Second CP Program” and together with the Original CP Program, the “City CP Program”) that increased the total authorization of the City CP Program to \$250.0 million.

Commercial Paper Notes (the “CP Notes”) are issued from time to time to pay approved project costs in connection with the acquisition, improvement, renovation and construction of real property and the acquisition of capital equipment and vehicles. Projects are eligible to access the CP Program once the Board of Supervisors and the Mayor have approved the project and the long-term, permanent financing for the project.

The Original CP Program notes are secured by a \$150.0 million revolving credit agreement with Wells Fargo, which expires in March 2026.

The Second CP Program notes are secured by a \$100.0 million revolving letter of credit issued by Bank of the West, which expires in April 2026.

As of February 15, 2025, the outstanding principal amount of CP Notes is \$18.6 million. The average interest rate for the \$7.7 million outstanding tax-exempt CP Notes is 2.64%. The interest rate for the \$10.9 million outstanding taxable CP Notes is 4.45%. The projects with Board of Supervisors authorized and unissued Certificates of Participation currently utilizing the CP Program include HOPE SF, Critical Repairs & Recovery Stimulus, and Hall of Justice Relocation Project - Tenant Improvements. Additionally, there is a short-term financing for police vehicle acquisition utilizing the City's CP Program and is expected to be paid down over time. The following is a summary of the outstanding liability by project associated with the CP Notes outstanding.

Project	CP Notes Liability as of 2/15/2025
HOPE SF	\$3,935,699
Critical Repairs & Recovery Stimulus	11,674,155
Police Vehicle Acquisition	1,871,158
HOJ Relocation – Tenant Improvements	1,119,988
TOTAL*	\$18,601,000

** Projects may not sum to total due to rounding.*

Overlapping Debt

Table A-31 shows bonded debt and long-term obligations as of December 1, 2024, sold in the public capital markets, except for those financings otherwise noted in the table, by the City and those public agencies whose boundaries overlap the boundaries of the City in whole or in part. Long-term obligations of non-City agencies generally are not payable from revenues of the City. In many cases, long-term obligations issued by a public agency are payable only from the General Fund or other revenues of such public agency. In the table, lease obligations of the City which support indebtedness incurred by others are included. As noted below, the Charter limits the City's outstanding general obligation bond debt to 3% of the total assessed valuation of all taxable real and personal property within the City.

CITY GOVERNMENT

City Charter

San Francisco is constituted as a city and county chartered pursuant to Article XI, Sections 3, 4, 5 and 6 of the Constitution of the State of California (the “State”) and is the only consolidated city and county in the State. In addition to its powers under its charter in respect of municipal affairs granted under the State Constitution, San Francisco generally can exercise the powers of both a city and a county under State law. On April 15, 1850, several months before California became a state, the original charter was granted by territorial government to the City. New City charters were adopted by the voters on May 26, 1898, effective January 8, 1900, and on March 26, 1931, effective January 8, 1932. In November 1995, voters approved the current charter, which went into effect in most respects on July 1, 1996 (“Charter”).

The City is governed by a Board of Supervisors consisting of eleven members elected from supervisorial districts (the “Board of Supervisors”), and a Mayor elected at large who serves as chief executive officer (the “Mayor”). Members of the Board of Supervisors and the Mayor each serve a four-year term. The Mayor and members of the Board of Supervisors are subject to term limits as established by the Charter. Members of the Board of Supervisors may serve no more than two successive four-year terms and may not serve another term until four years have elapsed since the end of the second successive term in office. The Mayor may serve no more than two successive four-year terms, with no limit on the number of non- successive terms of office. The City Attorney, Assessor-Recorder, District Attorney, Treasurer and Tax Collector, Sheriff, and Public Defender are also elected directly by the citizens and may serve unlimited four-year terms. The Charter provides a civil service system for most City employees. School functions are carried out by the San Francisco Unified School District (grades TK-12) (“SFUSD”) and the San Francisco Community College District (post-secondary) (“SFCCD”). Each is a separate legal entity with a separately elected governing board.

Unique among California cities, San Francisco as a charter city and county provides the services of both a city and a county. Public services include police, fire and public safety; public health, mental health and other social services; courts, jails, and juvenile justice; public works, streets, and transportation, including a port and airport; construction and maintenance of all public buildings and facilities; water, sewer, and power services; parks and recreation; libraries and cultural facilities and events; zoning and planning, and many others. Employment costs are relatively fixed by labor and retirement agreements, and account for slightly less than 50% of all City expenditures. In addition, voters have approved Charter amendments that impose certain spending mandates and tax revenue set-asides, which dictate expenditure or service levels for certain programs, and allocate specific revenues or specific proportions thereof to other programs, including transportation services, children’s services and public education, and libraries.

Under its original charter, the City committed to a policy of municipal ownership of utilities. The Municipal Railway, when acquired from a private operator in 1912, was the first such city-owned public transit system in the nation. In 1914, the City obtained its municipal water system, including the Hetch Hetchy watershed near Yosemite. In 1927, the City dedicated Mills Field Municipal Airport at a site in what is now San Mateo County 14 miles south of downtown San Francisco, which would grow to become today’s San Francisco International Airport. In 1969, the City acquired the Port of San Francisco (the “Port”) in trust from the State. Substantial expansions and improvements have been made to these enterprises since their original acquisition. SFO, the Port, SFPUC (which includes the Water Enterprise, the Wastewater Enterprise and the Hetch Hetchy Water and Power Project), the Municipal Transportation Agency (“MTA”) (which operates the San Francisco Municipal Railway or “Muni” and the Department of Parking and Traffic (“DPT”), including twenty one public parking garages), and the City-owned hospitals (Zuckerberg San Francisco General and Laguna Honda), are collectively referred to herein as the “enterprise fund departments,” as they are not integrated into the City’s General Fund operating budget. However, certain enterprise fund departments, including San Francisco General Hospital, Laguna Honda Hospital, and the MTA, annually receive significant General Fund-transfers.

The Charter distributes governing authority among the Mayor, the Board of Supervisors, the various other elected officers, the City Controller and other appointed officers, and the boards and commissions that oversee the various City departments. The Mayor appoints most commissioners subject to a two-thirds vote of the Board of Supervisors, unless otherwise provided in the Charter. The Mayor appoints each department head from among persons nominated to the position by the appropriate commission and may remove department heads.

Mayor

In November 2024, Daniel Lurie was elected as the City's 46th Mayor. He took office on January 8, 2025, succeeding Mayor Breed.

Board of Supervisors

Table A-32 lists the members of the Board of Supervisors effective January 8, 2025. The Supervisors are elected for staggered four-year terms and are elected by district. Vacancies are filled by appointment by the Mayor.

TABLE A-32
Board of Supervisors

Name	First Elected or Appointed	Current Term Expires
Connie Chan, District 1	2021	2029
Stephen Sherill, District 2	2024	2027
Danny Sauter, District 3	2025	2029
Joel Engardio, District 4	2023	2027
Bilal Mahmood, District 5	2025	2029
Matt Dorsey, District 6	2022	2027
Myrna Melgar, District 7	2021	2029
Rafael Mandelman, Board President, District 8	2018	2027
Jackie Felder, District 9	2025	2029
Shamann Walton, District 10	2019	2027
Chyanne Chen, District 11	2025	2029

Other Elected and Appointed City Officers

The City Attorney, an elected position, represents the City in all legal proceedings in which the City has an interest. On November 4, 2024, David Chiu was re-elected to serve as the San Francisco City Attorney.

The Assessor-Recorder, a citywide elected position, administers the property tax assessment system of the City. On February 8, 2021, Joaquín Torres, formerly the Director of the Office of Economic and Workforce Development, was sworn in as the new Assessor-Recorder. Mr. Torres ran and was elected by voters in a special election on February 15, 2022 to his current term as Assessor-Recorder.

The Treasurer is responsible for the deposit and investment of all City moneys, and also acts as Tax Collector for the City. José Cisneros was re-elected to a four-year term as Treasurer of the City in November 2024 for a term that extends through January 2029. Mr. Cisneros has served as Treasurer since September 2004, following his appointment by then-Mayor Newsom.

The City Controller is responsible for timely accounting, disbursement, and other disposition of City moneys, certifies the accuracy of budgets, estimates the cost of ballot measures, provides payroll services for the City's employees, and, as the Auditor for the City, directs performance and financial audits of City activities. On January 10, 2024, Mayor Breed appointed Greg Wagner, formerly the Chief Operating Officer of the City's

Department of Public Health, to a ten-year term as Controller of the City. Mr. Wagner's appointment was confirmed by the Board of Supervisors on January 23, 2024, in accordance with the Charter.

The City Administrator has overall responsibility for the management and implementation of policies, rules and regulations promulgated by the Mayor, the Board of Supervisors and the voters. The City Administrator oversees the General Services Agency which consists of 25 departments, divisions, and programs that include the Public Works Department, Department of Technology, Office of Contract Administration/Purchasing, Real Estate, County Clerk, Fleet Management, Convention Facilities, Animal Care and Control, Medical Examiner, and Treasure Island. Carmen Chu was sworn in as the City Administrator on February 2, 2021.

THE SUCCESSOR AGENCY

The San Francisco Redevelopment Agency (the "Former Agency") was organized in 1948 by the Board of Supervisors pursuant to the Redevelopment Law. The Former Agency's mission was to eliminate physical and economic blight within specific geographic areas of the City designated by the Board of Supervisors. The Former Agency had redevelopment plans for nine redevelopment project areas.

As a result of ABx1 26 and the decision of the California Supreme Court in the *California Redevelopment Association* case, as of February 1, 2012, (collectively, the "Dissolution Act"), redevelopment agencies in the State were dissolved, including the Former Agency, and successor agencies were designated as successor entities to the former redevelopment agencies to expeditiously wind down the affairs of the former redevelopment agencies and also to satisfy "enforceable obligations" of the former redevelopment agencies all under the supervision of a new oversight board, the State Department of Finance and the State Controller.

Pursuant to Ordinance No. 215-12 passed by the Board of Supervisors of the City on October 2, 2012 and signed by the Mayor on October 4, 2012, the Board of Supervisors (i) officially gave the following name to the successor to the Former Agency: the "Successor Agency to the Redevelopment Agency of the City and County of San Francisco," (the "Successor Agency") also referred to as the "Office of Community Investment & Infrastructure" ("OCII"), (ii) created the Successor Agency Commission as the policy body of the Successor Agency, (iii) delegated to the Successor Agency Commission the authority to act to implement the surviving redevelopment projects, the replacement housing obligations of the Former Agency and other enforceable obligations and the authority to take actions that ABx1 26 and AB 1484 require or allow and (iv) established the composition and terms of the members of the Successor Agency Commission.

Because of the existence of enforceable obligations, the Successor Agency is authorized to continue to implement, through the issuance of tax allocation bonds, certain major redevelopment projects that were previously administered by the Former Agency. The Successor Agency exercises land use, development and design approval authority for the developed projects. The Successor Agency, in addition to other various City agencies and entities, also may issue community facilities district bonds from time to time to facilitate development in the major approved development projects in accordance with the terms of such enforceable obligations. See also, Table A-33: "Statement of Direct and Overlapping Debt and Long-Term Obligations."

CITY INFRASTRUCTURE FINANCING DISTRICTS

San Francisco has formed numerous special financing districts in order to finance infrastructure improvements benefiting the public in newly developing areas of the City. Projects that may be financed by revenues from special finance districts include, but are not limited to streets, water and sewer systems, libraries, parks, and public safety facilities. Pursuant to California Government Code Section 53395 *et seq.* ("IFD Law"), the Board of Supervisors has formed Infrastructure Financing Districts, Infrastructure Revitalization Financing Districts, and Enhanced Infrastructure Financing Districts (collectively "IFDs") within the geographic boundaries of the City.

Under IFD Law, municipalities may fund improvements within the IFD geographic boundary. IFDs capture increases in property tax revenue stemming from growth in assessed value as a result of new development and use that revenue to finance infrastructure projects and improvements. Each district has its own plan of finance for the allocation and use of tax increment.

CONSTITUTIONAL AND STATUTORY LIMITATIONS ON TAXES AND EXPENDITURES

Several constitutional and statutory limitations on taxes, revenues and expenditures exist under State law which limit the ability of the City to impose and increase taxes and other revenue sources and to spend such revenues, and which, under certain circumstances, would permit existing revenue sources of the City to be reduced by vote of the City electorate. These constitutional and statutory limitations, and future limitations, if enacted, could potentially have an adverse impact on the City's general finances and its ability to raise revenue, or maintain existing revenue sources, in the future. However, *ad valorem* property taxes required to be levied to pay debt service on general obligation bonds were authorized and approved in accordance with all applicable constitutional limitations. A summary of the currently effective limitations is set forth below.

Article XIII A of the California Constitution

Article XIII A of the California Constitution, known as "Proposition 13," was approved by the California voters in June of 1978. It limits the amount of *ad valorem* tax on real property to 1% of "full cash value," as determined by the county assessor. Article XIII A defines "full cash value" to mean the county assessor's valuation of real property as shown on the 1975-76 tax bill under "full cash value," or thereafter, the appraised value of real property when "purchased, newly constructed or a change in ownership has occurred" (as such terms are used in Article XIII A) after the 1975 assessment. Furthermore, all real property valuation may be increased or decreased to reflect the inflation rate, as shown by the CPI or comparable data, in an amount not to exceed 2% per year, or may be reduced in the event of declining property values caused by damage, destruction or other factors. Article XIII A provides that the 1% limitation does not apply to *ad valorem* taxes to pay interest or redemption charges on 1) indebtedness approved by the voters prior to July 1, 1978, 2) any bonded indebtedness for the acquisition or improvement of real property approved on or after July 1, 1978, by two-thirds of the votes cast by the voters voting on the proposition, or 3) bonded indebtedness incurred by a school district or community college district for the construction, reconstruction, rehabilitation or replacement of school facilities or the acquisition or lease of real property for school facilities, approved by 55% of the voters of the district voting on the proposition, but only if certain accountability measures are included in the proposition.

The California Revenue and Taxation Code permits county assessors who have reduced the assessed valuation of a property as a result of natural disasters, economic downturns or other factors, to subsequently "recapture" such value (up to the pre-decline value of the property) at an annual rate higher or lower than 2%, depending on the assessor's measure of the restoration of value of the damaged property. The California courts have upheld the constitutionality of this procedure.

Since its adoption, Article XIII A has been amended a number of times. These amendments have created a number of exceptions to the requirement that property be assessed when purchased, newly constructed or a change in ownership has occurred. These exceptions include certain transfers of real property between family members, certain purchases of replacement dwellings for persons over age 55 and by property owners whose original property has been destroyed in a declared disaster, and certain improvements to accommodate persons with disabilities and for seismic upgrades to property. These amendments have resulted in marginal reductions in the property tax revenues of the City. Both the California State Supreme Court and the United States Supreme Court have upheld the validity of Article XIII A.

Article XIII B of the California Constitution

Article XIII B was enacted by California voters as an initiative constitutional amendment in November 1979. Article XIII B limits the annual appropriations from the proceeds of taxes of the State and any city, county,

school district, authority, or other political subdivision of the State to the level of appropriations for the prior fiscal year, as adjusted for changes in the cost of living, population, and services rendered by the governmental entity. However, no limit is imposed on the appropriation of local revenues and taxes to pay debt service on bonds existing or authorized by January 1, 1979, or subsequently authorized by the voters. Article XIII B includes a requirement that if an entity's average revenues over two consecutive years exceed the amount permitted to be spent, the excess would have to be returned by revising tax or fee schedules over the following two years. With voter approval, the appropriations limit can be raised for up to four years.

Articles XIII C and XIII D of the California Constitution

Proposition 218, an initiative constitutional amendment, approved by the voters of the State in 1996, added Articles XIII C and XIII D to the State Constitution, which affect the ability of local governments, including charter cities such as the City, to levy and collect both existing and future taxes, assessments, fees, and charges. Proposition 218 does not affect the levy and collection of taxes for voter-approved debt. However, Proposition 218 affects the City's finances in other ways. Article XIII C requires that all new local taxes be submitted to the electorate for approval before such taxes become effective. Taxes for general governmental purposes of the City require a majority vote and taxes for specific purposes require a two-thirds vote. Under Proposition 218, the City can only continue to collect taxes that were imposed after January 1, 1995 if voters subsequently approved such taxes by November 6, 1998. All of the City's local taxes subject to such approval have been either reauthorized in accordance with Proposition 218 or discontinued. The voter approval requirements of Article XIII C reduce the City's flexibility to manage fiscal problems through new, extended, or increased taxes. No assurance can be given that the City will be able to raise taxes in the future to meet increased expenditure requirements.

In addition, Article XIII C addresses the initiative power in matters of local taxes, assessments, fees, and charges. Pursuant to Article XIII C, the voters of the City could, by initiative, repeal, reduce or limit any existing or future local tax, assessment, fee, or charge, subject to certain limitations imposed by the courts and additional limitations with respect to taxes levied to repay bonds. The City raises a substantial portion of its revenues from various local taxes which are not levied to repay bonded indebtedness, and which could be reduced by initiative under Article XIII C. No assurance can be given that the voters of the City will not approve initiatives that repeal, reduce, or prohibit the imposition or increase of local taxes, assessments, fees or charges. See "GENERAL FUND REVENUES — OTHER CITY TAX REVENUES" herein, for a discussion of other City taxes that could be affected by Proposition 218.

With respect to the City's general obligation bonds (City bonds secured by *ad valorem* property taxes), the State Constitution and the laws of the State impose a duty on the Board of Supervisors to levy a property tax sufficient to pay debt service coming due in each year. The initiative power cannot be used to reduce or repeal the authority and obligation to levy such taxes which are pledged as security for payment of the City's general obligation bonds or to otherwise interfere with performance of the duty of the City with respect to such taxes which are pledged as security for payment of those bonds.

Article XIII D contains several provisions making it generally more difficult for local agencies, such as the City, to levy and maintain "assessments" (as defined in Article XIII D) for local services and programs. The City has created a number of special assessment districts both for neighborhood business improvement purposes and community benefit purposes and has caused limited obligation bonds to be issued in 1996 to finance construction of a new public right of way. The City cannot predict the future impact of Proposition 218 on the finances of the City, and no assurance can be given that Proposition 218 will not have a material adverse impact on the City's revenues.

Proposition 1A

Proposition 1A, a constitutional amendment proposed by the State Legislature and approved by the voters in November 2004, provides that the State may not reduce any local sales tax rate, limit existing local government

authority to levy a sales tax rate, or change the allocation of local sales tax revenues, subject to certain exceptions. As set forth under the laws in effect as of November 3, 2004, Proposition 1A generally prohibits the State from shifting any share of property tax revenues allocated to local governments for any fiscal year to schools or community colleges. Any change in the allocation of property tax revenues among local governments within a county must be approved by two-thirds of both houses of the Legislature. Proposition 1A provides, however, that beginning in fiscal year 2008-09, the State may shift to schools and community colleges up to 8% of local government property tax revenues, which amount must be repaid, with interest, within three years. If the Governor proclaims that the shift is needed due to a severe State financial hardship, the shift is approved by two-thirds of both houses and certain other conditions are met. The State may also approve voluntary exchanges of local sales tax and property tax revenues among local governments within a county.

Proposition 1A also provides that if the State reduces the annual vehicle license fee rate below 0.65% of vehicle value, the State must provide local governments with equal replacement revenues. Further, Proposition 1A requires the State to suspend State mandates affecting cities, counties, and special districts, excepting mandates relating to employee rights, schools or community colleges, in any year that the State does not fully reimburse local governments for their costs to comply with such mandates.

Proposition 1A may result in increased and more stable City revenues. The magnitude of such increase and stability is unknown and would depend on future actions by the State. However, Proposition 1A could also result in decreased resources being available for State programs. This reduction, in turn, could affect actions taken by the State to resolve budget difficulties. Such actions could include increasing State taxes, decreasing aid to cities and spending on other State programs, or other actions, some of which could be adverse to the City.

Proposition 22

Proposition 22 (“Proposition 22”) which was approved by California voters in November 2010, prohibits the State, even during a period of severe fiscal hardship, from delaying the distribution of tax revenues for transportation, redevelopment, or local government projects and services and prohibits fuel tax revenues from being loaned for cash-flow or budget balancing purposes to the State General Fund or any other State fund. In addition, Proposition 22 generally eliminates the State’s authority to temporarily shift property taxes from cities, counties, and special districts to schools, temporarily increases a school and community college district’s share of property tax revenues, prohibits the State from borrowing or redirecting redevelopment property tax revenues or requiring increased pass-through payments thereof, and prohibits the State from reallocating vehicle license fee revenues to pay for State-imposed mandates. In addition, Proposition 22 requires a two-thirds vote of each house of the State Legislature and a public hearing process to be conducted in order to change the amount of fuel excise tax revenues shared with cities and counties. Proposition 22 prohibits the State from enacting new laws that require redevelopment agencies to shift funds to schools or other agencies (but see “THE SUCCESSOR AGENCY” above). While Proposition 22 will not change overall State and local government costs or revenues by the express terms thereof, it will cause the State to adopt alternative actions to address its fiscal and policy objectives.

Due to the prohibition with respect to the State’s ability to take, reallocate, and borrow money raised by local governments for local purposes, Proposition 22 supersedes certain provisions of Proposition 1A (2004). However, borrowings and reallocations from local governments during 2009 are not subject to Proposition 22 prohibitions. In addition, Proposition 22 supersedes Proposition 1A of 2006. Accordingly, the State is prohibited from borrowing sales taxes or excise taxes on motor vehicle fuels or changing the allocations of those taxes among local governments except pursuant to specified procedures involving public notices and hearings.

Proposition 26

On November 2, 2010, the voters of the State approved Proposition 26 (“Proposition 26”), revising certain provisions of Articles XIII A and XIII C of the California Constitution. Proposition 26 re-categorizes many State and local fees as taxes, requires local governments to obtain two-thirds voter approval for taxes levied by

local governments, and requires the State to obtain the approval of two-thirds of both houses of the State Legislature to approve State laws that increase taxes. Furthermore, pursuant to Proposition 26, any increase in a fee beyond the amount needed to provide the specific service or benefit is deemed to be a tax and the approval thereof will require a two-thirds vote. In addition, for State-imposed charges, any tax or fee adopted after January 1, 2010 with a majority vote which would have required a two-thirds vote if Proposition 26 were effective at the time of such adoption was repealed as of November 2011 absent the re-adoption by the requisite two-thirds vote.

Proposition 26 amends Article XIII C of the State Constitution to state that a “tax” means a levy, charge or exaction of any kind imposed by a local government, except (1) a charge imposed for a specific benefit conferred or privilege granted directly to the payor that is not provided to those not charged, and which does not exceed the reasonable costs to the local government of conferring the benefit or granting the privilege; (2) a charge imposed for a specific government service or product provided directly to the payor that is not provided to those not charged, and which does not exceed the reasonable costs to the local government of providing the service or product; (3) a charge imposed for the reasonable regulatory costs to a local government for issuing licenses and permits, performing investigations, inspections and audits, enforcing agricultural marketing orders, and the administrative enforcement and adjudication thereof; (4) a charge imposed for entrance to or use of local government property or the purchase, rental, or lease of local government property; (5) a fine, penalty, or other monetary charge imposed by the judicial branch of government or a local government as a result of a violation of law, including late payment fees, fees imposed under administrative citation ordinances and parking violations; (6) a charge imposed as a condition of property development; or (7) assessments and property related fees imposed in accordance with the provisions of Proposition 218. Fees, charges, and payments that are made pursuant to a voluntary contract that are not “imposed by a local government” are not considered taxes and are not covered by Proposition 26.

Proposition 26 applies to any levy, charge or exaction imposed, increased, or extended by local government on or after November 3, 2010. Accordingly, fees adopted prior to that date are not subject to the measure until they are increased or extended or if it is determined that an exemption applies.

If the local government specifies how the funds from a proposed local tax are to be used, the approval will be subject to a two-thirds voter requirement. If the local government does not specify how the funds from a proposed local tax are to be used, the approval will be subject to a fifty percent voter requirement. Proposed local government fees that are not subject to Proposition 26 are subject to the approval of a majority of the governing body. In general, proposed property charges will be subject to a majority vote of approval by the governing body although certain proposed property charges will also require approval by a majority of property owners.

Future Initiatives and Changes in Law

The laws and Constitutional provisions described above were each adopted as measures that qualified for the ballot pursuant to the State’s initiative process. From time-to-time other initiative measures could be adopted, further affecting revenues of the City or the City’s ability to expend revenues. The nature and impact of these measures cannot be anticipated by the City.

On April 25, 2013, the California Supreme Court in *McWilliams v. City of Long Beach* (April 25, 2013, No. S202037), held that the claims provisions of the Government Claims Act (Government Code Section 900 *et. seq.*) govern local tax and fee refund actions (absent another State statute governing the issue), and that local ordinances were without effect. The effect of the *McWilliams* case is that local governments could face class actions over disputes involving taxes and fees. Such cases could expose local governments to significant refund claims in the future. The City cannot predict whether any such class claims will be filed against it in the future, the outcome of any such claim or its impact on the City.

LEGAL MATTERS AND RISK MANAGEMENT

Pending Litigation

There are a number of lawsuits and claims routinely pending against the City. Included among these are a number of actions which if successful would be payable from the City's General Fund. Except as otherwise described in this Appendix A as to certain litigation, in the opinion of the City Attorney, such suits and claims presently pending will not materially impair the ability of the City to pay debt service on its General Fund lease obligations or other debt obligations, nor have an adverse impact on City finances.

Ongoing Investigations

Community Challenge Grant Program Investigation. On August 29, 2023, the San Francisco District Attorney charged Lanita Henriquez, who served as the director of the San Francisco Community Challenge Grant Program under the Office of the San Francisco City Administrator, and Rudolph Dwayne Jones, a former City official who occasionally served as a prime contractor and a subcontractor to the SFPUC, with counts of misappropriation of public monies, bribery, and financial conflict of interest in a government contract. It is alleged that Ms. Henriquez and Mr. Jones misappropriated public money between 2016 and 2020, that Mr. Jones wrote Ms. Henriquez multiple checks in 2017 and 2018 totaling \$25,000, while Ms. Henriquez directed government grant contracts exceeding \$1.4 million to entities controlled by Mr. Jones, in which entities Ms. Henriquez also had a financial stake, between 2016 and 2020.

The San Francisco District Attorney has not alleged any impropriety in connection with the sole grant program Ms. Henriquez administered for the SFPUC and the SFPUC has confirmed that there are no active direct contracts between the SFPUC and Mr. Jones or his affiliated entities. The SFPUC has, however, identified four subcontracts between Mr. Jones or his affiliated entities and other SFPUC prime contractors that were effective on the date that Mr. Jones was charged, and directed each of the four prime contractors retaining Mr. Jones and/or any entities affiliated with Mr. Jones, to terminate or cancel any subcontract, service order, or other contractual arrangement such parties.

The FBI investigation is ongoing, and the City can give no assurance when the FBI will complete its investigation. The San Francisco District Attorney's Office Public Integrity Task Force has also independently investigated certain of the matters described here, and the City can give no assurance when this task force will complete its investigation.

Recology Settlement. On March 4, 2021, the City Attorney announced an approximately \$100 million settlement with Recology San Francisco ("Recology"), the contractor handling the City's waste and recycling collection. The settlement arose from overcharges that were uncovered as part of the continuing public integrity investigation tied to Mr. Nuru and others. As part of the Settlement, Recology was required to lower commercial and residential rates starting April 1, 2021 and make a \$7 million settlement payment to the City under the California Unfair Competition Law and the San Francisco Campaign and Governmental Conduct Code. In addition, Recology will be enjoined for four years from making any gift to any City employee or any contribution to a nonprofit at the behest of a City employee. The comprehensive settlement agreement with Recology was approved by the Board of Supervisors. The bribery and corruption public integrity investigation related to the Nuru matter is ongoing.

On May 16, 2022, the Controller's Office released a public integrity assessment report on the review of rate-setting and rate reporting processes, and profits earned by Recology that were over and above allowed profit margins. The report found that Recology netted profits of \$23.4 million over and above the allowed profit margin set in the 2017 Rate Application. Even after taking into account the 2021, \$101 million settlement in restitution, penalties, and interest to ratepayers affected by the erroneous calculation of revenues in the rate application, Recology consistently exceeded their allowable operating profits.

On June 7, 2022, the voters of San Francisco passed Proposition F, a ballot measure that allows the City to oversee Recology more closely, including certain changes to the composition of the Refuse Rate Board. The changes are intended to provide more oversight with respect to monitoring rates to residential and commercial customers.

In addition to the ongoing joint investigation by the City Attorney's Office and the Controller's Office into City contracting policies and procedures, the City's Board of Supervisors has conducted a series of public hearings before its Government Audit and Oversight Committee to examine issues raised by the federal complaints. That committee also considered the Controller's periodic reports. The City can give no assurance regarding when the City's investigation will be completed or what the outcome will be. The criminal investigation by the Federal Bureau of Investigation and the United States Attorney's office is ongoing.

Human Rights Commission Investigation. On October 11, 2024, Sheryl Davis the Executive Director of Human Rights Commission resigned her post amid allegations of the misuse of public funds. Mawuli Tugbenyoh, formerly the deputy director for the city's Department of Human Resources, was named acting interim director of the Commission. The Mayor announced the imposition of tighter financial controls regarding spending for the Commission. The investigation is ongoing and the City can give no assurance about the outcome of the investigation.

AB 218 and AB 2777 (Sexual Abuse Victims Acts)

Assembly Bill 218, which is called the "California Child Victims Act", became effective in January 2020, and Assembly Bill 2777, which is called the "Sexual Abuse and Cover Up Accountability Act", became effective in January 2023. These bills allow alleged victims of sexual abuse to bring claims which previously had been barred by the applicable statute of limitations. Although there are certain, existing claims against the City as a result of the enactment of these laws, the City is still in the process of evaluating whether these types of claims might have a material impact on the City's finances. The City can give no assurances that additional claims will not be brought against the City as a result of these laws or that any additional claims will not have a material impact on the City's finances.

Risk Retention Program

Citywide risk management is coordinated by the Risk Management Division of the City Administrator's Office. With certain exceptions, it is the general policy of the City to first evaluate self-insurance and not purchase commercial liability insurance for the risks of losses to which it is exposed. The City believes that it is more economical to manage its risks internally and administer, adjust, settle, defend, and pay claims from budgeted resources (i.e., "self-insurance"). The City obtains commercial insurance in certain circumstances, including when required by bond or lease financing covenants and for other limited purposes. The City actuarially determines liability and workers' compensation risk exposures as permitted under State law. The City does not maintain commercial earthquake coverage, with certain minor exceptions.

The City's decision to obtain commercial insurance depends on various factors. For property insurance, these factors include whether the facility is currently under construction or if the property is owned by a self-supporting enterprise fund department. For new construction projects, the City has utilized traditional insurance, owner-controlled insurance programs or contractor-controlled insurance programs. Under the latter two approaches, the insurance program provides coverage for the entire construction project. When a traditional insurance program is used, the City requires each contractor to provide its own insurance, while ensuring that the full scope of work be covered with satisfactory limits. The majority of the City's commercial insurance coverage is purchased for enterprise fund departments and other similar revenue-generating departments (i.e. the Airport, MTA, SFPUC, the Port and Convention Facilities, etc.). The remainder of the commercial insurance coverage is for General Fund departments that are required to provide coverage for bond-financed facilities, coverage for collections at City-owned museums and to meet statutory requirements for bonding of various public officials, and other limited purposes where required by contract or other agreement. In recent years, the City has purchased Cyber

Liability insurance for departments and certain enterprise fund departments providing critical City services and/or managing high volumes of confidential/personal data.

Through coordination between the City Controller and the City Attorney's Office, the City's general liability risk exposure is actuarially determined and is addressed through appropriations in the City's budget and also reflected in the ACFR. The appropriations are sized based on actuarially determined anticipated claim payments and the projected timing of disbursement.

The City is self-insured for the financial risk and liability to provide workers' compensation benefits to its employees. The administration of workers' compensation claims and disbursement of all benefit payments is managed by the Workers' Compensation Division of the City's Department of Human Resources and its contracted third-party claims administrator. Estimates of future workers' compensation costs are based on the following criteria: (i) the frequency and severity of historical claim filings; (ii) average claim losses by expense category; (iii) gross payroll and workforce composition; (iv) benefit cost inflation, including increases to the statewide average weekly wage, and medical cost growth; and (v) regulatory developments that impact benefit cost and delivery. The Workers' Compensation Division determines and allocates workers' compensation costs to departments based upon actual claim benefit expenditures and an allocated share of overhead expenses for self-insurance administration. The City continues to develop and implement programs to lower or mitigate workers' compensation costs.
