Legislative Aide,

Dear Board of Supervisors,

I am writing to urge you to SUPPORT the measure to restore remote public comment at Board of Supervisors committee meetings in San Francisco. After former Supervisor Peskin proposed such a measure last fall (File #241048), the matter unfortunately did not make it to a vote before the end of the year. We need one or more members of the Board of Supervisors to take up sponsorship again, and for the rest of the Board to support it.

Remote public comment is crucial in allowing constituents to provide meaningful, real-time feedback on decisions that will affect us and our communities. There are myriad reasons why so many of us can't make it in person in the middle of the day to City Hall to give a public comment, even when the outcome of the decisions the Board is making will impact us greatly. Many people can't take the time off work, or need to be present as a parent or caregiver for family or other loved ones. Many people don't have reliable transportation, or can't afford to risk COVID/Flu and other illnesses in an indoor poorly ventilated environment where so few people are wearing masks. Remote public comment makes democracy more accessible and increases digital inclusion for the residents of this city, who you represent.

We urge you to SUPPORT access to democratic participation for ALL, especially those most disenfranchised and marginalized in our city, who have been historically left out of the political process. Please listen to our broad coalition of San Franciscans, and invest in democracy by supporting remote public comment.

The participation of the senior and disabled residents of this great city need this option to continue to participate. Please support remote access to comment. The time limit on the comments is sufficient to control the objections. Often, for many of us, it is our only option.

Legislative Aide,

Dear Board of Supervisors,

Currently I have a parent in the hospital with Flu, and 2 school aged children I care for at home. I want to participate in government, you need to hear from busy parents like me. Restore remote public comment. Participation is part of a healthy democracy. Keeping our citizens healthy is part of your job. This improves both. I caught COVID at a packed school board meeting years ago. Why is this another hurdle for participating?

Subject: Restore remote public comment at Board of Supervisors committee meetings!
Date: Tuesday, February 18, 2025 10:46:25 PM

This message is from outside the City email system. Do not open links or attachments from untrusted sources.

Clerk Angela Calvillo,

Dear Board of Supervisors,

I am writing to urge you to SUPPORT the measure to restore remote public comment at Board of Supervisors committee meetings in San Francisco. After former Supervisor Peskin proposed such a measure last fall (File #241048), the matter unfortunately did not make it to a vote before the end of the year. We need one or more members of the Board of Supervisors to take up sponsorship again, and for the rest of the Board to support it.

Remote public comment is crucial in allowing constituents to provide meaningful, real-time feedback on decisions that will affect us and our communities. There are myriad reasons why so many of us can't make it in person in the middle of the day to City Hall to give a public comment, even when the outcome of the decisions the Board is making will impact us greatly. Many people can't take the time off work, or need to be present as a parent or caregiver for family or other loved ones. Many people don't have reliable transportation, or can't afford to risk COVID/Flu and other illnesses in an indoor poorly ventilated environment where so few people are wearing masks. Remote public comment makes democracy more accessible and increases digital inclusion for the residents of this city, who you represent.

We urge you to SUPPORT access to democratic participation for ALL, especially those most disenfranchised and marginalized in our city, who have been historically left out of the political process. Please listen to our broad coalition of San Franciscans, and invest in democracy by supporting remote public comment.

Legislative Aide,

Dear Board President Madelman and Supervisors,

I am writing to urge you to support the measure to restore remote public comment at the Board of Supervisors committee meetings in San Francisco. Former Supervisor Peskin proposed such a measure last fall (File #241048), but the matter unfortunately did not make it to a vote before the end of the year. We need one or more members of the Board of Supervisors to take up sponsorship again and for the rest of the Board to support it.

Remote public comment is crucial in allowing constituents (like myself) to provide meaningful, real-time feedback on decisions affecting us and our communities. There are myriad reasons why so many of us can't make it to City Hall in person in the middle of the day to give a public comment, even when the outcome of the decisions the Board is making will impact us significantly. Many people can't take the time off work or need to be present as a parent or caregiver for family or other loved ones. Many people don't have reliable transportation or can't afford to risk COVID/Flu and other illnesses in an indoor, poorly ventilated environment where hardly any people are wearing masks. The remote public comment makes democracy more accessible and increases digital inclusion for the residents of this city whom you are elected to represent.

We urge you to SUPPORT access to democratic participation for ALL, especially those most disenfranchised and marginalized in our city, who have historically been left out of the political process. Please listen to our broad coalition of San Franciscans and invest in democracy by supporting remote public comment at the PEOPLES House (City Hall).

I appreciate your attention to this critical matter.

Legislative Aide,

Dear Board of Supervisors,

If trust that you want to hear from your constituents, and that you want our government processes to include voices from people with disabilities, and working families. If so, please SUPPORT the measure to restore remote public comment at Board of Supervisors committee meetings in San Francisco.

Former Supervisor Peskin proposed such a measure last fall (File #241048). We need YOU to take up sponsorship again, and for the rest of the Board to support it.

In the disability world, there is the concept of Universal Design - trying to design our built world and our systems so that they fit the needs of as many people as possible.

Remote public comment being routinely available is a good example of Universal Design.

Yes, you must, legally, provide remote public comment to people with disabilities whose disability makes it hard, or impossible, to go to City Hall. But, the process is cumbersome for everyone. Always providing remote public comment crucial allows everyone an equal opportunity to give you their input on issues that affect us.

As SDA has pointed out, there are so many reasons many people can't make it in person in the middle of the day to City Hall to give a public comment, even when the outcome of the decisions the Board is making will impact us greatly. Many people can't take the time off work, or need to be present as a parent or caregiver for family or other loved ones. Many people don't have reliable transportation, or can't afford to risk COVID/Flu and other illnesses in an indoor poorly ventilated environment where so few people are wearing masks. Remote public comment makes democracy more accessible and increases digital inclusion for the residents of this city, who you represent.

Please SUPPORT access to democratic participation for ALL, especially those most disenfranchised and marginalized in our city, who have been historically left out of the political process. Please listen to our broad coalition of San Franciscans, and invest in democracy by supporting remote public comment.

Thank you.

Sincerely,

Susan Mizner

Legislative Aide,

Dear Board of Supervisors,

I am writing to urge you to SUPPORT the measure to restore remote public comment at Board of Supervisors committee meetings in San Francisco. After former Supervisor Peskin proposed such a measure last fall (File #241048), the matter unfortunately did not make it to a vote before the end of the year. We need one or more members of the Board of Supervisors to take up sponsorship again, and for the rest of the Board to support it.

Remote public comment is crucial in allowing constituents to provide meaningful, real-time feedback on decisions that will affect us and our communities. There are myriad reasons why so many of us can't make it in person in the middle of the day to City Hall to give a public comment, even when the outcome of the decisions the Board is making will impact us greatly. Many people can't take the time off work, or need to be present as a parent or caregiver for family or other loved ones. Many people don't have reliable transportation, or can't afford to risk COVID/Flu and other illnesses in an indoor poorly ventilated environment where so few people are wearing masks. Remote public comment makes democracy more accessible and increases digital inclusion for the residents of this city, who you represent.

We urge you to SUPPORT access to democratic participation for ALL, especially those most disenfranchised and marginalized in our city, who have been historically left out of the political process. Please listen to our broad coalition of San Franciscans, and invest in democracy by supporting remote public comment.

We urge you to SUPPORT access to democratic participation for ALL, especially those most disenfranchised and marginalized in our city, who have been historically left out of the political process. Please listen to our broad coalition of San Franciscans, and invest in democracy by supporting remote public comment.

Just last week I had to take multiple hours out of my workday to commute, wait for public comment to start, then commute home in order to urge the board to refuse any cuts to MUNI service. I was only able to do so because the tech company I work for allows me the flexibility to do things during the workday as long as I ship my deliverables on time. Most workers, especially those who aren't working in tech or work in service or shift work, do not have that luxury. Their voices should be represented also

Legislative Aide,

Dear Board of Supervisors,

I am writing to urge you to SUPPORT the measure to restore remote public comment at Board of Supervisors committee meetings in San Francisco.

When you disallow remote public comment, you make it clear that you only wish to hear feedback from those who are young, financially well-off and able-bodied. Does that sound like democracy to you? Is that really how it should be in the city of St. Francis?

After former Supervisor Peskin proposed such a measure last fall (File #241048), the matter unfortunately did not make it to a vote before the end of the year. We need one or more members of the Board of Supervisors to take up sponsorship again, and for the rest of the Board to support it.

Many people can't take the time off work, or need to be present as a parent or caregiver for family or other loved ones. Many people don't have reliable transportation, or can't afford to risk COVID/Flu and other illnesses in an indoor poorly ventilated environment where so few people are wearing masks. Remote public comment makes democracy more accessible and increases digital inclusion for the residents of this city, who you represent.

We urge you to SUPPORT access to democratic participation for ALL, especially those most disenfranchised and marginalized in our city, who have been historically left out of the political process. Please listen to our broad coalition of San Franciscans, and invest in democracy by supporting remote public comment.

This message is from outside the City email system. Do not open links or attachments from untrusted sources.

Clerk Angela Calvillo,

Dear Board of Supervisors,

I am writing to urge you to SUPPORT the measure to restore remote public comment at Board of Supervisors committee meetings in San Francisco. After former Supervisor Peskin proposed such a measure last fall (File #241048), the matter unfortunately did not make it to a vote before the end of the year. We need one or more members of the Board of Supervisors to take up sponsorship again, and for the rest of the Board to support it.

Remote public comment is crucial in allowing constituents to provide meaningful, real-time feedback on decisions that will affect us and our communities. There are myriad reasons why so many of us can't make it in person in the middle of the day to City Hall to give a public comment, even when the outcome of the decisions the Board is making will impact us greatly. Many people can't take the time off work, or need to be present as a parent or caregiver for family or other loved ones. Many people don't have reliable transportation, or can't afford to risk COVID/Flu and other illnesses in an indoor poorly ventilated environment where so few people are wearing masks. Remote public comment makes democracy more accessible and increases digital inclusion for the residents of this city, who you represent.

We urge you to SUPPORT access to democratic participation for ALL, especially those most disenfranchised and marginalized in our city, who have been historically left out of the political process. Please listen to our broad coalition of San Franciscans, and invest in democracy by supporting remote public comment.

It's crucial for public comment to reflect the sectors of folks who cannot afford to be at City Hall in the middle of a business day. Privileging the voices of those with that flexibility is unacceptable and undemocratic.

Thanks much for your time.

Subject: Restore remote public comment at committee meetings
Date: Thursday, November 21, 2024 1:55:17 PM

This message is from outside the City email system. Do not open links or attachments from untrusted sources.

Dear Rules Committee Members,

Thank you for all you do to support a more just and livable city for all. I am reaching out today to ask for your support again in making our democratic process accessible to everyone. Thank you to Supervisor Peskin for introducing a motion on 10/23 to restore remote public comment at Board of Supervisors committee meetings.

I am writing to urge all members of the Rules Committee to support this motion. I also urge the Committee to schedule this item for the next Rules Committee meeting when it can be on the agenda. Remote public comment is widely supported by a diverse group of people and organizations, evidenced by the 80+ organizations that signed the [campaign letter](#) sent out to the Board of Supervisors last month.

- Reasonable accommodation (allowing remote comment on an individual basis) is a cumbersome and unworkable solution.
- Giving real-time comments (rather than through a letter or email) on issues before a committee is often the last opportunity before a vote is taken.
- Restoring remote public comment only in committee meetings would be less of a lightning rod for hate speech and would allow the Board to manage comments that are not germane to the specific agenda item.

Restoring remote public comment ensures that a wide variety of community members can participate and make their voices heard. Especially those who would otherwise be underrepresented in favor of those with the privilege of sufficient resources and/or less personal risk to physically attend at city hall.

Thank you,

Vanessa Garcia
