LEGISLATIVE DIGEST

[Accept and Expend Grant - Urban Areas Security Initiative Grant Increase:
Budget Revision - FY2013 - \$1,012,873]

Resolution retroactively authorizing the Department of Emergency Management, on behalf of the City and County San Francisco, as the fiscal agent for the Bay Area Urban Areas Security Initiative (UASI), to accept and expend an increase to FY2013 UASI grant funds in the amount of \$1,012,873 for a total of \$23,632,173 from the U.S. Department of Homeland Security through the California Office of Emergency Services for the period September 1, 2013, through May 31, 2015.

Background Information

The United States Department of Homeland Security ("DHS"), through its Urban Areas Security Initiative ("UASI") Grant Program, provides funding for the planning, equipment, training, and exercise needs of high-threat, high-density Urban Areas, and assists those areas in building an enhanced and sustainable capacity to prevent, protect against, respond to, and recover from threats and acts of terrorism.

The combined Urban Areas of the City and County of San Francisco, the City of Oakland, and the City of San Jose form the Bay Area Urban Area. The Bay Area Urban Area includes the twelve contiguous Bay Area counties and governmental entities within those counties.

The City and County of San Francisco, the City of Oakland, the City of San Jose, and the Counties of Alameda, Contra Costa, Marin, Monterey, San Mateo, Santa Clara and Sonoma have entered a Memorandum of Understanding ("MOU") regarding the Bay Area Urban Area's mission, governance and reporting structures, responsibilities, and financial arrangements, as well as processes and mechanisms to use in applying for, allocating and distributing UASI grant funds through the Bay Area Urban Area. Under the MOU, the UASI Approval Authority determines the allocation and distribution of UASI grant funds. San Francisco serves as the primary grantee of UASI funds for the Bay Area Urban Area and as the fiscal agent for the Approval Authority. San Francisco disburses UASI funds pursuant to the Approval Authority's direction.

Based on the FY 12 UASI grant award, the Department of Emergency Management (DEM) included \$21,931,312 in the Annual Appropriation Ordinance (AAO). However, for fiscal year 2013, the Bay Area Urban Area was awarded \$22,619,300, an increase of \$687,988 from the 2012 award. Resolution No. 11-14 approved the requested approval for the additional funds. On May 7, 2014, the Bay Area received an additional award of \$1,012,873 to provide funding for the purchase of equipment and for planning purposes for a statewide cyber risk management project. This project will be managed by the Bay Area UASI on behalf of the Bay Area and other Urban Areas within California. The term of the grant is from September 1, 2013 through May 31, 2015.

Proposed Resolution

The proposed resolution authorizes the Department of Emergency Management (DEM), on behalf of the City and County of San Francisco as the primary grantee of UASI funds for the Bay Area Urban Area and as the fiscal agent for the UASI Approval Authority, to accept and expend an additional \$1,012,873 in UASI grant funds for fiscal year 2013 from the United States Department of Homeland Security, through the California Emergency Management Agency. The proposed resolution also authorizes DEM's Executive Director, or designee, to take any steps necessary to accept, distribute and expend the grant funds.

Project	Investment #	Investment Description	Goal	Objective	Activity	Impact	Progress	Cost
Project 1- Strengthen Emergency Planning and Community Preparedness Capabilities	Investment #4: Enhance Community Resilience	Goal 4: Enhance Planning and Community Preparedness	Objective 4.1: Enhance Citizen Preparedness While Integrating the Needs of Vulnerable Populations and	This project supports the implementation of emergency planning and community preparedness. It funds a neighborhood hub planner, a Community Engagement Manager and Planner, 2 Emergency Services Planners, a Neighborhood Emergency Response Team (NERT) Program Coordinator, and a consultant to continue efforts in the area of public/private partnerships. Purchase and install "Coveler", a text and email messaging systems, sustain text and email messaging systems in San Francisco and San Mateo; and sustain WestCOO in the West Bay.	Residents need assistance with problem solving, information sharing, peer to peer support and resource management during a crisis. There are gaps in communications and outreach strategies for public emergency preparedness. Logistics, donations, and notification systems need to be coordinated and messaging systems to provide real time messaging and important updates. Neighborhood Emergency Response Teams need to develop Standard Operating Guidelines (SOG) to assist with the dissemination of emergency public information; require a curriculum to enhance basic neighborhood training; and require materials to assist monolingual individuals participate in the response in their community.	At the 6-month mark, this project will be 10% complete and \$124,058 funds will be expended. At the 12-month mark, this project will be 50% complete and \$388,226 funds will be expended. At the 18-month mark, this project will be 100% complete and \$1,250,811 funds will be expended.		
Project 6- Enhance Recovery Capabilities	Investment #4: Enhance Community Resilience	Goal 4: Enhance Planning and Community Preparedness	Objective 4.1: Enhance Citizen Preparedness While Integrating the Needs of Vulnerable Populations and Objective 4.2: Strengthen Volunteer Management	This project supports recovery and resiliency. Fund an SF Recovery Support Specialist to support various planning efforts; fund a Logistics Coordinator to oversee the SF Emergency Operations Center Logistics Section; fund the continued development of SF72, a web-based tool to assist citizens in preparing to survive for 72 hours after an emergency; and fund a Specialist and Coordinator to address the gaps in social and economic community impact and long-term community recovery.	While the region has made progress by establishing a recovery goal in its homeland security strategy, implementation is still in the early stages. The continued development of operational plans to ensure they link to the National Disaster Recovery Framework and state level recovery plans are needed. Lifelines interdependencies have been partially addressed, but more analysis is required. Logistics planning is also required for the development of policies and procedures and the revision of existing plans. Citizens also still require assistance to prepare for an emergency. Although progress has been made in this area, gaps still exist and web-based information has become increasingly important.	At the 6-month mark, this project will be 5% complete and \$19,952 funds will be expended. At the 12-month mark, this project will be 20% complete and \$189,724 funds will be expended. At the 18-month mark, this project will be 100% complete and \$392,158 funds will be expended.		
Project 8- Enhance Regional Homeland Security Exercise, Evaluation and Training Programs	Investment #8: Homeland Security Exercise, Evaluation and Training Programs	Goal 8: Enhance Homeland Security Exercise, Evaluation and Training Programs	Objective 8.1: Expand Statewide Training Across All Mission Areas, While Enhancing Professional Training For Emergency Management and Homeland Security Disciplines	This project implements the Bay Area's Multi-Year Training and Exercise Plan. It funds regional and local level training personnel to develop strategic policy direction and oversee an annual training needs assessment to develop a plan for training activities and opportunities for all major emergency first responder disciplines (over 1,000 students). Funds regional and local level exercise personnel who will conduct an annual exercise needs assessment and provide a plan for the provision of exercises, as well as conducting a regional multi-disciplinary, multidisciplinary Full Scale Exercise ("Urban Shield"), Funds two Exercise and Training Planners for San Francisco to coordinate, develop, and conduct SF based training and exercises.	Specific gaps exist in bomb squad/underwater explosive teams, crowd control/mobile field force, and observation aircraft. Swift water rescue and other search and rescue gaps exist. Fire/hazardous materials training gaps appear in technical positions as well as supervisory and management levels. Realistic exercise scenarios in last year's Urban Shield have identified gaps in critical infrastructure protection, intelligence and info sharing, search and rescue, tactical, medical, fire and explosive ordinance and active shooter response capabilities.	At the 6-month mark, this project will be 10% complete and \$310,184 funds will be expended. At the 12-month mark, this project will be 50% complete and \$2,040,235 funds will be expended. At the 18-month mark, this project will be 100% complete and \$5,101,837 funds will be expended.		
Project 1- Management and Administration	N/A	N/A	N/A	Management and Administration as allowed by the grant	Management and Administration as allowed by the grant	At the 6-month mark, this project will be 25% complete and \$282,741 funds will be expended. At the 12-month mark, this project will be 50% complete and \$555,482 funds will be expended. At the 18-month mark, this project will be 100% complete and \$1,130,955 funds will be expended.		
Project 1- Statewide Cyber Security and Data Project	Investment #9: Statewide Cyber Security and Data Project	Goal 1: Enhance Information Analysis and Law Enforcement Capabilities	Objective 1.2: Strengthen California's Ability to Identify and Counter Emerging Threats	This project provides funding for a statewide cyber security project, maintenance of the existing statewide activities, and funding for a statewide coordinator.	The CA OASIS have identified a need for state support to fund this project to provide for cyber security and a statewide coordinator for this project. The risk management portion of the project will provide for maintenance of the analytic tools.	At the 6-month mark, this project will be 25% complete and \$253,218 funds will be expended. At the 12-month mark, this project will be 50% complete and \$506,437 funds will be expended. At the 18-month mark, this project will be 100% complete and \$1,012,873 funds will be expended.

SUBJECT: IDENTIFICATION OF FUNDING
Fiscal Year 2013 Homeland Security Grant Program
Grant Number 2013-00110 Cal OES ID 075-95017

Dear Mr. Dziedzic:

Congratulations, the California Governor's Office of Emergency Services (Cal OES) has identified your organization to receive funds pursuant to your application under the Homeland Security Grant Program (HSGP). The approved projects, and their respective amounts, are as follows:

<u>Project</u>	<u>Funding Source</u>	<u>Amount</u>
Project J Cyber Risk Management Center	UASI	\$ 1,012,873

Cal OES must receive and approve the application documents and a final budget for all projects. All Aviation/Watercraft requests, Emergency Operations Center (EOC) projects, and Sole Source Procurement requests require additional approvals from Cal OES. No costs may be incurred on any project requiring Environmental Planning and Historic Preservation (EHP) review until the US Department of Homeland Security/Federal Emergency Management Agency (DHS/FEMA) issues approval.

This grant is subject to all policies and provisions set forth in HSGP Grant. The HSGP requirements are described in the DHS HSGP Guidance and Application Kit.

Please submit the final application, and Financial Management Forms Workbook (FMFW), and all other required documentation that reflect the approved projects to your Cal OES Program Representative, Maybel Garing-Espilla, at maybel.garing-espilla@caloes.ca.gov. If you have any questions, Ms. Garing-Espilla can be reached at (916) 845-8429.

Thank you for your work in protecting California. We look forward to working with you and appreciate your cooperation and support.

Sincerely,
