

SAN FRANCISCO PLANNING DEPARTMENT

Planning Commission Resolution No. 20019

HEARING DATE: OCTOBER 5, 2017

Case No.: **2013.0208 ENV/PCA/MAP/DVA**
Project Name: **Mission Rock (aka Seawall Lot 337 / Pier 48)**
Existing Zoning: **Mission Bay Open Space (MB-OS); M-2 (Heavy Industrial) Zoning District; Mission Rock Height and Bulk District**
Block/Lot: **8719/ 006; 9900/048**
Proposed Zoning: **Mission Mixed-Use Zoning District / Mission Rock Special Use District; Mission Rock Height and Bulk District**
Project Sponsor: **Port of San Francisco and SWL 337 Associates, LLC**
Staff Contact: **Mat Snyder – (415) 575-6891**
mathew.snyder@sfgov.org

1650 Mission St.
Suite 400
San Francisco,

RESOLUTION RECOMMENDING THAT THE BOARD OF SUPERVISORS APPROVE AMENDMENTS TO THE PLANNING CODE TO ESTABLISH THE MISSION ROCK MIXED-USE DISTRICT, THE MISSION ROCK SPECIAL USE DISTRICT, ALONG WITH OTHER RELATED MINOR CHANGES TO ARTICLE 2 AND ARTICLE 9 OF THE PLANNING CODE; AND BY AMENDING ZONING MAP ZN 08 BY DESIGNATING ASSESSOR’S BLOCK AND LOT: 8719/ 006 AND 9900/-48 AS PART OF THE MISSION ROCK MIXED-USE DISTRICT AND BY AMENDING SPECIAL USE DISTRICT MAP SD 08 BY DESIGNATING ASSESSOR’S BLOCK AND LOTS: 8719/ 006 AND 9900/048 AS PART OF THE MISSION ROCK SPECIAL USE DISTRICT; ADOPT FINDINGS OF CONSISTENCY WITH THE GENERAL PLAN AND PLANNING CODE SECTION 101.1 AND FINDINGS UNDER PLANNING CODE SECTION 302, AND INCORPORATING FINDINGS UNDER THE CALIFORNIA ENVIRONMENTAL QUALITY ACT.

WHEREAS, on September 5, 2017, Mayor Edwin Lee and Supervisor Jane Kim introduced an ordinance (Board File 170940) for Planning Code Text Amendments to establish the Mission Rock Mixed-Use District and the Mission Rock Special Use District (herein “SUD”), and for Planning Code Map Amendments by amending Zoning Map ZN08 by designating Assessor’s Block and Lot: 8719/006 as part of the Mission Rock Mixed-Use District and by amending Special Use District Map SD08 by designating assessor’s block and lots: 8719/ 006 and 9900/048 to the Mission Rock SUD.

WHEREAS, pursuant to Planning Code Section 302(b), on September 5, 2017, the San Francisco Board of Supervisors initiated these Planning Code Text and Map Amendments.

WHEREAS, these Planning Code Text and Map Amendments would enable the Project. The Project includes new market-rate and affordable residential uses, commercial uses, retail, light industrial uses, parking, shoreline improvements, infrastructure development and street improvements, and public open space. Depending on the uses proposed, the Project would include approximately 1.1. to 1.6 million gross square feet (gsf) of residential uses (estimated as between 1,000 to 1,600 residential units) (of which 40% will be below market rate), approximately 972,000 to 1.4 million gsf of commercial-office uses, and a maximum of approximately 245,000 gsf of retail uses. The Project also includes construction of transportation and circulation improvements, new and upgraded utilities and infrastructure, geotechnical

and shoreline improvements, up to 3,000 off-street parking spaces in one or two new garages and 100 spaces elsewhere throughout the site. The Project is more comprehensively described in the Seawall Lot 337 and Pier 48 Mixed-Use Project Draft EIR.

WHEREAS, the Project would construct new buildings that would range in height from 90 to 240 feet, as is consistent with Proposition D which was passed by the voters of San Francisco in November 2015.

WHEREAS, these Planning Code Text Amendments would establish the Mission Rock Mixed Use District and Mission Rock SUD, which would outline the land use controls for the Project site.

WHEREAS, these Planning Code Map Amendments would designate the newly created Mission Rock Mixed-Use District and the Mission Rock Special Use District to the Project Site; the newly created SUD outline the land use controls for the Project site.

WHEREAS, this Resolution approving these Planning Code Text and Map Amendments is a companion to other legislative approvals relating to the Project, including approval of the Mission Rock Design Controls document, and recommendation for approval of the Development Agreement.

WHEREAS, as part of the implementation of the Project, the Office of Community Investment and Infrastructure (OCII) will consider removing certain property identified as Mission Bay Parcel P20 (a 0.3-acre, approximately 20-foot-wide strip of land adjacent to the south side of Seawall Lot 337, along the north side of Mission Rock Street) from the Mission Bay South Redevelopment Plan, and such removal would be part of the Project implementation as described in the Development Agreement. Parcel P20 is currently subject to the Mission Bay South Redevelopment Plan and is designated in that plan as a small open-space buffer. When it adopted AB 2797, the state legislature recognized the need to remove P20 from the Redevelopment Plan, on the basis that "the revitalization of Seawall Lot 337 . . . is of particular importance to the state." As such, AB 2797 calls for the amendment of the Redevelopment Plan to remove P20 without State-level review under Health & Safety Code Sections 34163(c)-(f) and 34164(a) and (b).

WHEREAS, on October 5, 2017, the Planning Commission reviewed and considered the Final EIR for the Mission Rock Project ("FEIR") and found the FEIR to be adequate, accurate and objective, thus reflecting the independent analysis and judgment of the Department and the Commission, and that the summary of comments and responses contained no significant revisions to the Draft EIR, and certified the FEIR for the Project in compliance with the California Environmental Quality Act ("CEQA"), the CEQA Guidelines and Chapter 31 by Motion No. 20017.

WHEREAS, on October 5, the Commission by Motion No. 20018 approved CEQA Findings, including adoption of a Mitigation Monitoring and Reporting Program (MMRP), under Case No. 2013.0208ENV, for approval of the Project, which findings and MMRP are incorporated by reference as though fully set forth herein.

WHEREAS, on October 5, 2017, the Commission conducted a duly noticed public hearing at a regularly scheduled meeting on the proposed Planning Code Text and Map Amendments and has considered the information included in the File for these Amendments, the staff reports and presentations, public testimony and written comments, as well as the information provided about the Project from other City departments.

WHEREAS, a draft ordinance, substantially in the form attached hereto as Exhibit A, approved as to form, including those minor changes to Exhibit A as provided by staff on September 28, 2017, would

establish the Mission Rock Mixed Use District, Mission Rock SUD, and make other related Planning Code Text and Map amendments.

NOW THEREFORE BE IT RESOLVED, that the Planning Commission hereby finds that the Planning Code Text Amendments and Zoning Map Amendments promote the public welfare, convenience and necessity for the following reasons:

1. The Amendments would help implement the Mission Rock Mixed-Use Project development, thereby evolving currently under-utilized surface parking lot for needed housing, commercial space, and parks and open space.
2. The Amendments would help implement the Mission Rock Mixed-Use Project, which in turn will provide employment opportunities for local residents during construction and post-occupancy, as well as community facilities and parks for new and existing residents.
3. The Amendments would help implement the Mission Rock Mixed-Use Project by enabling the creation of a mixed-use and sustainable neighborhood, with fully rebuilt infrastructure. The new neighborhood would improve the site's multi-modal connectivity to and integration with the surrounding City fabric, and connect existing neighborhoods to the City's waterfront.
4. The Amendments would enable the construction of a new vibrant, safe, and connected neighborhood, including new parks and open spaces. The Amendments would help ensure a vibrant neighborhood with active streets and open spaces, high quality and well-designed buildings, and thoughtful relationships between buildings and the public realm, including the waterfront.
5. The Amendments would enable construction of new housing, including new on-site affordable housing, and new retail and manufacturing uses. These new uses would create a new mixed-use neighborhood that would strengthen and complement nearby neighborhoods.
6. The Amendments would facilitate the preservation and rehabilitation of Pier 48 - an important historic resource listed in the National Register of Historic Places.

AND BE IT FURTHER RESOLVED, that the Planning Commission finds the Planning Code Text and Map Amendments are in general conformity with the General Plan and Planning Code Section 101.1 as set forth below.

AND BE IT FURTHER RESOLVED, that the Planning Commission finds the Project and its approvals associated therein, including the amendment to the Mission Bay South Redevelopment Plan to remove Parcel P20 from that Plan, all as more particularly described in Exhibits B and C to the Development Agreement on file with the Planning Department in Case No. 2013.0208DVA, are on balance consistent with the Objectives and Policies of the General Plan, as described herein as follows:

HOUSING ELEMENT

OBJECTIVE 1

IDENTIFY AND MAKE AVAILABLE FOR DEVELOPMENT ADEQUATE SITES TO MEET THE CITY'S HOUSING NEEDS, ESPECIALLY PERMANENTLY AFFORDABLE HOUSING.

POLICY 1.1

Plan for the full range of housing needs in the City and County of San Francisco, especially affordable housing.

POLICY 1.8

Promote mixed use development, and include housing, particularly permanently affordable housing, in new commercial, institutional or other single use development projects.

POLICY 1.10

Support new housing projects, especially affordable housing, where households can easily rely on public transportation, walking and bicycling for the majority of daily trips.

The Project is a mixed-use development with approximately 1.1 to 1.6 million gsf of residential uses (estimated at between 1,100 and 1,600 dwelling units) at full project build-out, which will provide a wide range of housing options. As detailed in the Development Agreement, the Project substantially exceeds the inclusionary affordable housing requirements of the Planning Code, through a partnership between the developer and the City to reach a 40% affordable level.

OBJECTIVE 11

SUPPORT AND RESPECT THE DIVERSE AND DISTINCT CHARACTER OF SAN FRANCISCO'S NEIGHBORHOODS.

POLICY 11.1

Promote the construction and rehabilitation of well-designed housing that emphasizes beauty, flexibility, and innovative design, and respects existing neighborhood character.

POLICY 11.2

Ensure implementation of accepted design standards in project approvals.

POLICY 11.7

Respect San Francisco's historic fabric, by preserving landmark buildings and ensuring consistency with historic districts.

The Project, as described in the Development Agreement and controlled in the Design Controls (DC), includes a program of substantial community benefits and detailed plans designed to create a vibrant new mixed-use amenity-rich neighborhood at the location of an existing surface parking lot. The new neighborhood will feature small blocks and well-articulated buildings with a human scale modeled off of features characteristic of San Francisco neighborhoods. Through the standards and guidelines in the DC and through the Development Agreement (DA), the Project Sponsor has committed to the rehabilitation of Pier 48 pursuant to the Secretary of Interior Standards.

OBJECTIVE 12

BALANCE HOUSING GROWTH WITH ADEQUATE INFRASTRUCTURE THAT SERVES THE CITY'S GROWING POPULATION.

POLICY 12.1

Encourage new housing that relies on transit use and environmentally sustainable patterns of movement.

POLICY 12.2

Consider the proximity of quality of life elements, such as open space, child care, and neighborhood services, when developing new housing units.

The Project appropriately balances housing with new and improved infrastructure and related public benefits.

The project site is located proximate to both major regional and local public transit, including Muni Metro and Caltrain. The Project includes incentives for the use of transit, walking and bicycling through its TDM program. In addition, the Project's streetscape design would enhance vehicular, bicycle and pedestrian access and connectivity through the site. Therefore, new residential and commercial buildings constructed as part of the Project would rely on transit use and environmentally sustainable patterns of movement.

The Project will provide over eight acres of new open space for a variety of activities, including an expanded China Basin Park, a central town square-like space, a waterfront wharf, and other small plazas and pedestrian connections throughout.

The Project includes substantial contributions related to quality of life elements such as open space, affordable housing, transportation improvements, childcare, public art, workforce development, youth development, and historic preservation.

COMMERCE AND INDUSTRY ELEMENT

OBJECTIVE 1

MANAGE ECONOMIC GROWTH AND CHANGE TO ENSURE ENHANCEMENT OF THE TOTAL CITY LIVING AND WORKING ENVIRONMENT.

POLICY 1.1

Encourage development which provides substantial net benefits and minimizes undesirable consequences. Discourage development which has substantial undesirable consequences that cannot be mitigated.

The Project is intended to provide a distinct mixed-use development with residential, office, retail, cultural, and open space uses. The Project would leverage the Project site's location on the waterfront and close proximity to major regional and local public transit by building a dense mixed-use development that allows people to work and live close to transit. The Project would incorporate varying heights, massing and scale, maintaining a strong human-scaled streetwall along streets, and focused attention around public open spaces. The Project would create a balanced commercial center with a continuum of floorplate sizes for a range of users, substantial new on-site open space, and sufficient density to support and activate the new active ground floor uses and open space in the Project.

The Project would help meet the job creation goals established in the City's Economic Development Strategy by generating new employment opportunities and stimulating job creation across all sectors. The Project would also construct high-quality housing with sufficient density to contribute to 24-hour activity on the Project site, while offering a mix of unit types, sizes, and levels of affordability to accommodate a range of potential residents. The Project would facilitate a vibrant, interactive ground plane for Project and neighborhood residents, commercial users, and the public, with public spaces that could accommodate a variety of events and programs, and adjacent ground floor building spaces that include elements such as transparent building frontages and large, direct access points to maximize circulation between, and cross-activation of, interior and exterior spaces.

OBJECTIVE 2

MAINTAIN AND ENHANCE A SOUND AND DIVERSE ECONOMIC BASE AND FISCAL STRUCTURE FOR THE CITY.

POLICY 2.1

Seek to retain existing commercial and industrial activity and to attract new such activity to the city.

See above (Commerce and Industry Element Objective 1 and Policy 1.1) which explain the Project's contribution to the City's overall economic vitality.

OBJECTIVE 3

PROVIDE EXPANDED EMPLOYMENT OPPORTUNITIES FOR CITY RESIDENTS, PARTICULARLY THE UNEMPLOYED AND ECONOMICALLY DISADVANTAGED.

POLICY 3.2

Promote measures designed to increase the number of San Francisco jobs held by San Francisco residents.

The Project would help meet the job creation goals established in the City's Economic Development Strategy by generating new employment opportunities and stimulating job creation across all sectors. The Project will provide expanded employment opportunities for City residents at all employment levels, both during and after construction. The Development Agreement, as part of the extensive community benefit programs, includes a Workforce Development Plan, including a local hire participation level of 30% per trade. Vertical developers will contribute \$1,000,000 to OEWD in 11 parcel-by-parcel installments. Half of the funds will support community-based organizations that provide barrier removal services and job readiness training for individuals within at-risk populations, and half will support city programs that provide job training for local residents.

OBJECTIVE 6

MAINTAIN AND STRENGTHEN VIABLE NEIGHBORHOOD COMMERCIAL AREAS EASILY ACCESSIBLE TO CITY RESIDENTS.

POLICY 6.1 *Ensure and encourage the retention and provision of neighborhood-serving goods and services in the city's neighborhood commercial districts, while recognizing and encouraging diversity among the districts.*

POLICY 6.2

Promote economically vital neighborhood commercial districts which foster small business enterprises and entrepreneurship and which are responsive to economic and technological innovation in the marketplace and society

POLICY 6.4

Encourage the location of neighborhood shopping areas throughout the city so that essential retail goods and personal services are accessible to all residents.

POLICY 6.5

Discourage the creation of major new commercial areas except in conjunction with new supportive residential development and transportation capacity.

POLICY 6.7

Promote high quality urban design on commercial streets.

The Project meets and furthers the Objectives and Policies of the Commerce and Industry Element by reinforcing the typical San Francisco pattern of including resident serving uses along with mixed-use development. The Amendments will generally permit small-scale retail and community-related uses throughout the site by requiring it at key locations along China Basin Park and along the pedestrian-oriented "Shared Public-Way." The Project calls for neighborhood commercial and other retail be established in a pedestrian-oriented active environment typical of San Francisco neighborhoods and specifically called for in the Commerce and Industry Element. The provision of retail space will provide entrepreneurial opportunities for local residents and workers. As noted above, streets will be designed to Better Streets standards with the particular goal of assuring an active and engaging environment for pedestrians.

TRANSPORTATION ELEMENT

OBJECTIVE 2

USE THE TRANSPORTATION SYSTEM AS A MEANS FOR GUIDING DEVELOPMENT AND IMPROVING THE ENVIRONMENT.

POLICY 2.1

Use rapid transit and other transportation improvements in the city and region as the catalyst for desirable development, and coordinate new facilities with public and private development.

POLICY 2.5

Provide incentives for the use of transit, carpools, vanpools, walking and bicycling and reduce the need for new or expanded automobile and automobile parking facilities.

The Project is located along Third Street and the Muni T-Line, whose service will substantially expand in the near future with the opening of the Central Subway. The Project is also in close proximity to the San Francisco Caltrain station along with other major bus lines. The Project includes a detailed TDM program, including various performance measures, physical improvements and monitoring and enforcement measures designed to create incentives for

transit and other alternative to the single occupancy vehicle for both residential and commercial buildings. In addition, the Project's design, including its streetscape elements, is intended to promote and enhance walking and bicycling.

OBJECTIVE 23

IMPROVE THE CITY'S PEDESTRIAN CIRCULATION SYSTEM TO PROVIDE FOR EFFICIENT, PLEASANT, AND SAFE MOVEMENT.

POLICY 23.1

Provide sufficient pedestrian movement space with a minimum of pedestrian congestion in accordance with a pedestrian street classification system.

POLICY 23.2

Widen sidewalks where intensive commercial, recreational, or institutional activity is present, sidewalks are congested, where sidewalks are less than adequately wide to provide appropriate pedestrian amenities, or where residential densities are high.

POLICY 23.6

Ensure convenient and safe pedestrian crossings by minimizing the distance pedestrians must walk to cross a street.

The Project will establish a new tight-knit street network on the project site, and will provide pedestrian improvements and streetscape enhancement measures as described in the DC and reflected in the mitigation measures, the Transportation Plan, and in the Development Agreement. The Project would establish two new north-south rights-of-way and three new east-west rights-of-way through the site, increasing the sites connectivity and access. All streets will be constructed to Better Street standards; the transportation network will include robust bike facilities and will improve and complete a missing link in the Bay Trail and Blue Greenway.

URBAN DESIGN ELEMENT

OBJECTIVE 1

EMPHASIS OF THE CHARACTERISTIC PATTERN WHICH GIVES TO THE CITY AND ITS NEIGHBORHOODS AN IMAGE, A SENSE OF PURPOSE, AND A MEANS OF ORIENTATION.

POLICY 1.1

Recognize and protect major views in the city, with particular attention to those of open space and water.

As explained in the DC, the Project is very carefully designed with particular emphasis on assuring a vibrant and engaging pedestrian realm. Buildings are to be scaled and shaped specific to their immediate context by assuring streetwalls are well proportioned relative to adjacent streets and open spaces. The Project's proposed tallest buildings will be sited at key locations to mark important gateway locations assuring that the buildings taken together create a dynamic skyline. The overall heights of the project are harmonious with and complementary to the overall city skyline when viewed from various distances.

POLICY 1.2

Recognize, protect and reinforce the existing street pattern, especially as it is related to topography.

POLICY 1.3

Recognize that buildings, when seen together, produce a total effect that characterizes the city and its districts.

POLICY 1.5

Emphasize the special nature of each district through distinctive landscaping and other features.

POLICY 1.6

Make centers of activity more prominent through design of street features and by other means.

POLICY 1.7

Recognize the natural boundaries of districts, and promote connections between districts.

POLICY 2.9

Review proposals for the giving up of street areas in terms of all the public values that streets afford.

POLICY 2.10

Permit release of street areas, where such release is warranted, only in the least extensive and least permanent manner appropriate to each case.

The Project will create a new fine-knit street network on the project site where it does not currently exist, increasing public access and circulation through the site. Buildings will be constructed between a maximum height range of 90 and 240 feet, with buildings stepping down to bases of 40 to 65 feet along streets. Building heights and urban design requirements in the DC assure that Pier 48, the site's existing historic Pier, will be respected and retain its predominance along the bayfront. The Project is envisioned as an extension and improvement to the Mission Bay neighborhood

OBJECTIVE 2

CONSERVATION OF RESOURCES WHICH PROVIDE A SENSE OF NATURE, CONTINUITY WITH THE PAST, AND FREEDOM FROM OVERCROWDING.

POLICY 2.4

Preserve notable landmarks and areas of historic, architectural or aesthetic value, and promote the preservation of other buildings and features that provide continuity with past development.

POLICY 2.5

Use care in remodeling of older buildings, in order to enhance rather than weaken the original character of such buildings.

Pier 48 will be rehabilitated to Secretary of Interior's Standards.

OBJECTIVE 3

MODERATION OF MAJOR NEW DEVELOPMENT TO COMPLEMENT THE CITY PATTERN, THE RESOURCES TO BE CONSERVED, AND THE NEIGHBORHOOD ENVIRONMENT.

POLICY 3.3

Promote efforts to achieve high quality of design for buildings to be constructed at prominent locations.

POLICY 3.4

Promote building forms that will respect and improve the integrity of open spaces and other public areas.

POLICY 3.5

Relate the height of buildings to important attributes of the city pattern and to the height and character of existing development.

POLICY 3.7

Recognize the special urban design problems posed in development of large properties.

POLICY 3.8

Discourage accumulation and development of large properties, unless such development is carefully designed with respect to its impact upon the surrounding area and upon the city.

While large in scope, the Project will be constructed in such a way to be an integral part of the San Francisco urban fabric. Blocks are being established at smaller-than-typical sizes to assure buildings are well-scaled, and that the site is permeable and accessible to all. Buildings will be shaped to assure that their fronting streetwalls are well proportioned relative to their adjacent streets and open spaces. The tallest of the site's buildings will be placed at key gateway and central locations and well-spaced to assure they work well together in adding to the City's skyline.

RECREATION AND OPEN SPACE ELEMENT

OBJECTIVE 1

ENSURE A WELL-MAINTAINED, HIGHLY UTILIZED, AND INTEGRATED OPEN SPACE SYSTEM.

POLICY 1.1

Encourage the dynamic and flexible use of existing open spaces and promote a variety of recreation and open space uses, where appropriate.

POLICY 1.7

Support public art as an essential component of open space design.

The Project would build a network of waterfront parks, playgrounds and recreational facilities on the 28-Acre Site that will greatly enhance access to and along the Bay. China Basin Park will be significantly expanded to provide a multi-use Bayfront park that provides both active and

contemplative space, while providing a space for planned community events. A central town square-like space will enable the proposed high-retail corridor to spill into open space creating an active and engaging central civic space. The Project will provide approximately eight acres of new and expanded open space for a variety of activities, including a great lawn, a small ballfield, kayak boat launches, wharf, along with small pedestrian plazas throughout. In addition, the Project would provide new private and/or common open space for the new dwelling units.

POLICY 1.12

Preserve historic and culturally significant landscapes, sites, structures, buildings and objects.

See Discussion in Urban Element Objective 2, Policy 2.4 and 2.5.

OBJECTIVE 3

IMPROVE ACCESS AND CONNECTIVITY TO OPEN SPACE.

POLICY 3.1

Creatively develop existing publicly-owned right-of-ways and streets into open space.

The Project provides approximately eight acres of new and expanded public open space and opens up new connections to the shoreline in the Mission Bay neighborhood. The Project would encourage non-automobile transportation to and from open spaces, and would ensure physical accessibility within these open spaces. The Project features robust bike facilities to both assure continuity of the Bay Trail and Blue Greenway, and improve bike access for its residents, workers, and visitors.

ENVIRONMENTAL PROTECTION ELEMENT

OBJECTIVE 1

ACHIEVE A PROPER BALANCE AMONG THE CONSERVATION, UTILIZATION, AND DEVELOPMENT OF SAN FRANCISCO'S NATURAL RESOURCES.

Policy 1.4

Assure that all new development meets strict environmental quality standards and recognizes human needs.

OBJECTIVE 15

INCREASE THE ENERGY EFFICIENCY OF TRANSPORTATION AND ENCOURAGE LAND USE PATTERNS AND METHODS OF TRANSPORTATION WHICH USE LESS ENERGY.

POLICY 15.3

Encourage an urban design pattern that will minimize travel requirements among working, shopping, recreation, school and childcare areas.

The Project is consistent with and implements the Environmental Protection Element in that it calls for mixed-use, high density, transit-friendly, sustainable development.

The Project's approvals include a Sustainability Plan, that among other things, set goals for the Project Sponsor that include sea level resilience through the year 2100, 100% operational energy from renewable sources, 100% non-potable water met with non-potable sources, and 20% single occupancy vehicle trip reduction.

PUBLIC SAFETY ELEMENT

OBJECTIVE 2 REDUCE STRUCTURAL AND NON-STRUCTURAL HAZARDS TO LIFE SAFETY, MINIMIZE PROPERTY DAMAGE AND RESULTING SOCIAL, CULTURAL AND ECONOMIC DISLOCATIONS RESULTING FROM FUTURE DISASTERS.

POLICY 2.1 Assure that new construction meets current structural and life safety standards.

POLICY 2.3 Consider site soils conditions when reviewing projects in areas subject to liquefaction or slope instability.

POLICY 2.9 Consider information about geologic hazards whenever City decisions that will influence land use, building density, building configurations or infrastructure are made.

POLICY 2.12 Enforce state and local codes that regulate the use, storage and transportation of hazardous materials in order to prevent, contain and effectively respond to accidental releases.

The Project is consistent with and implements the Community Safety Element. All improvements, including infrastructure, buildings and open space improvements will be constructed to local seismic standards, taking into account, among other considerations, the geological condition of the soil.

AIR QUALITY ELEMENT

OBJECTIVE 3 DECREASE THE AIR QUALITY IMPACTS OF DEVELOPMENT BY COORDINATION OF LAND USE AND TRANSPORTATION DECISIONS.

POLICY 3.1 Take advantage of the high density development in San Francisco to improve the transit infrastructure and also encourage high density and compact development where an extensive transportation infrastructure exists.

POLICY 3.2 Encourage mixed land use development near transit lines and provide retail and other types of service oriented uses within walking distance to minimize automobile dependent development.

POLICY 3.6 Link land use decision making policies to the availability of transit and consider the impacts of these policies on the local and regional transportation system.

POLICY 3.9 Encourage and require planting of trees in conjunction with new development to enhance pedestrian environment and select species of trees that optimize achievement of air quality goals

OBJECTIVE 6 LINK THE POSITIVE EFFECTS OF ENERGY CONSERVATION AND WASTE MANAGEMENT TO EMISSION REDUCTIONS.

POLICY 6.2 *Encourage recycling to reduce emissions from manufacturing of new materials in San Francisco and the region.*

The Project is consistent with and implements the Air Quality Element in that it calls for mixed-use, high density, sustainable development that will enable efficient use of land and encourage travel by transit, bicycle and by foot, thereby reducing auto use. The Sustainability Plan and TDM Plan governing development of the Project mandate a 20% single occupancy vehicle trip reduction.

AND BE IT FURTHER RESOLVED, that the Planning Commission finds the Project and its approvals associated therein, all as more particularly described in Exhibits B and C to the Development Agreement on file with the Planning Department in Case No. 2013.0208DVA, are in general conformity with the Planning Code Section 101.1 priority policies, as follows:

1. That existing neighborhood serving retail uses be preserved and enhanced and future opportunities for resident employment in or ownership of such businesses enhanced.

The Project will preserve and enhance existing neighborhood serving retail uses. The Project includes adding roughly 245,000 square feet of new retail uses, that will be focused along a central pedestrian "Shared Public Way" and fronting the site's major parks. The project does not include the removal of any existing neighborhood serving retail.

2. That existing housing and neighborhood character be conserved and protected in order to preserve the cultural and economic diversity of our neighborhoods.

The Project accommodates new development on land currently a surface parking lot. It would not accommodate removing or changing the character of existing residential neighborhoods. The Project includes a robust affordable housing program setting aside 40-percent of the on-site housing for below-market-rate units. The Project lays out requirements to assure the new development has characteristics of mixed-use neighborhoods throughout San Francisco, including but not limited to a fine-grained system of streets, well-modulated buildings with active frontages, and the ability to establish diverse retail and community uses where nothing exists today.

3. That the City's supply of affordable housing be preserved and enhanced.

The Project calls for development that would have a positive effect on the City's affordable housing stock. The Project would accommodate up to 1.6 million gsf of new residential units (estimated at 1,600 new units), of which 40-percent will be designated as Below-Market Rate. There is no housing on the site today; the Project would not accommodate the removal of any existing dwelling units.

4. That commuter traffic not impede MUNI transit service or overburden our streets or neighborhood parking.

The Project anticipates substantial new transit service improvements along Third Street with the opening of the Central Subway in 2019, as well as substantial improvement to nearby Caltrain service through the ongoing electrification project. Streets have been designed to emphasize travel by bicycle or by foot. On-street parking is generally not proposed thereby allowing more street space to be designated for bicyclists, pedestrians, and those arriving by transit, or taxi/TNCs, as well as for deliveries. While a large centralized parking facility (up to 3,000 spaces in one or two centralized garages) is proposed, the total number of spaces site-wide would not represent a substantial net gain of spaces for the site overall from existing conditions. At present, approximately 2,900 parking spaces are on the site between Lot A and Pier 48. Only 100 parking spaces are allowed elsewhere on the site in addition to the centralized garages.

5. That a diverse economic base be maintained by protecting our industrial and service sectors from displacement due to commercial office development, and that future opportunities for resident employment and ownership in these sectors be enhanced.

The Project would not adversely affect the industrial sector or service sectors. No such uses would be displaced by the Project. The Project includes the rehabilitation of Pier 48, which will provide about 250,000 gsf of new or improved space for production uses. Additional small production spaces would also be required along Terry Francois Boulevard, providing industrial space where none exists today.

6. That the City achieves the greatest possible preparedness to protect against injury and loss of life in an earthquake.

All new construction would be subject to the City's Building Code, Fire Code and other applicable safety standards. Thus, the Project would improve preparedness against injury and loss of life in an earthquake by prompting development that would comply with applicable safety standards.

7. That landmarks and historic buildings be preserved.

Pier 48 would be rehabilitated pursuant to the Secretary of Interior's Standards.

8. That our parks and open space and their access to sunlight and vistas be protected from development.

The Project would not significantly adversely affect existing open spaces or their access to sunlight and vistas. The Project includes a robust parks and open space program including the substantial expansion of China Basin Park and the establishment of two new additional parks and

other pedestrian plazas throughout. The Project includes a fine-grained network of new streets thereby assuring the site permeability and access through it.

I hereby certify that the Planning Commission ADOPTED the foregoing Motion on Thursday, October 5, 2017.

Jonas P. Ionin
