

590 2nd Ave looking NW from Balboa St.

590 2nd Ave – Picture by AT&T showing proposed screening

View from W side of 2nd Ave. looking SW with Proposed FRP

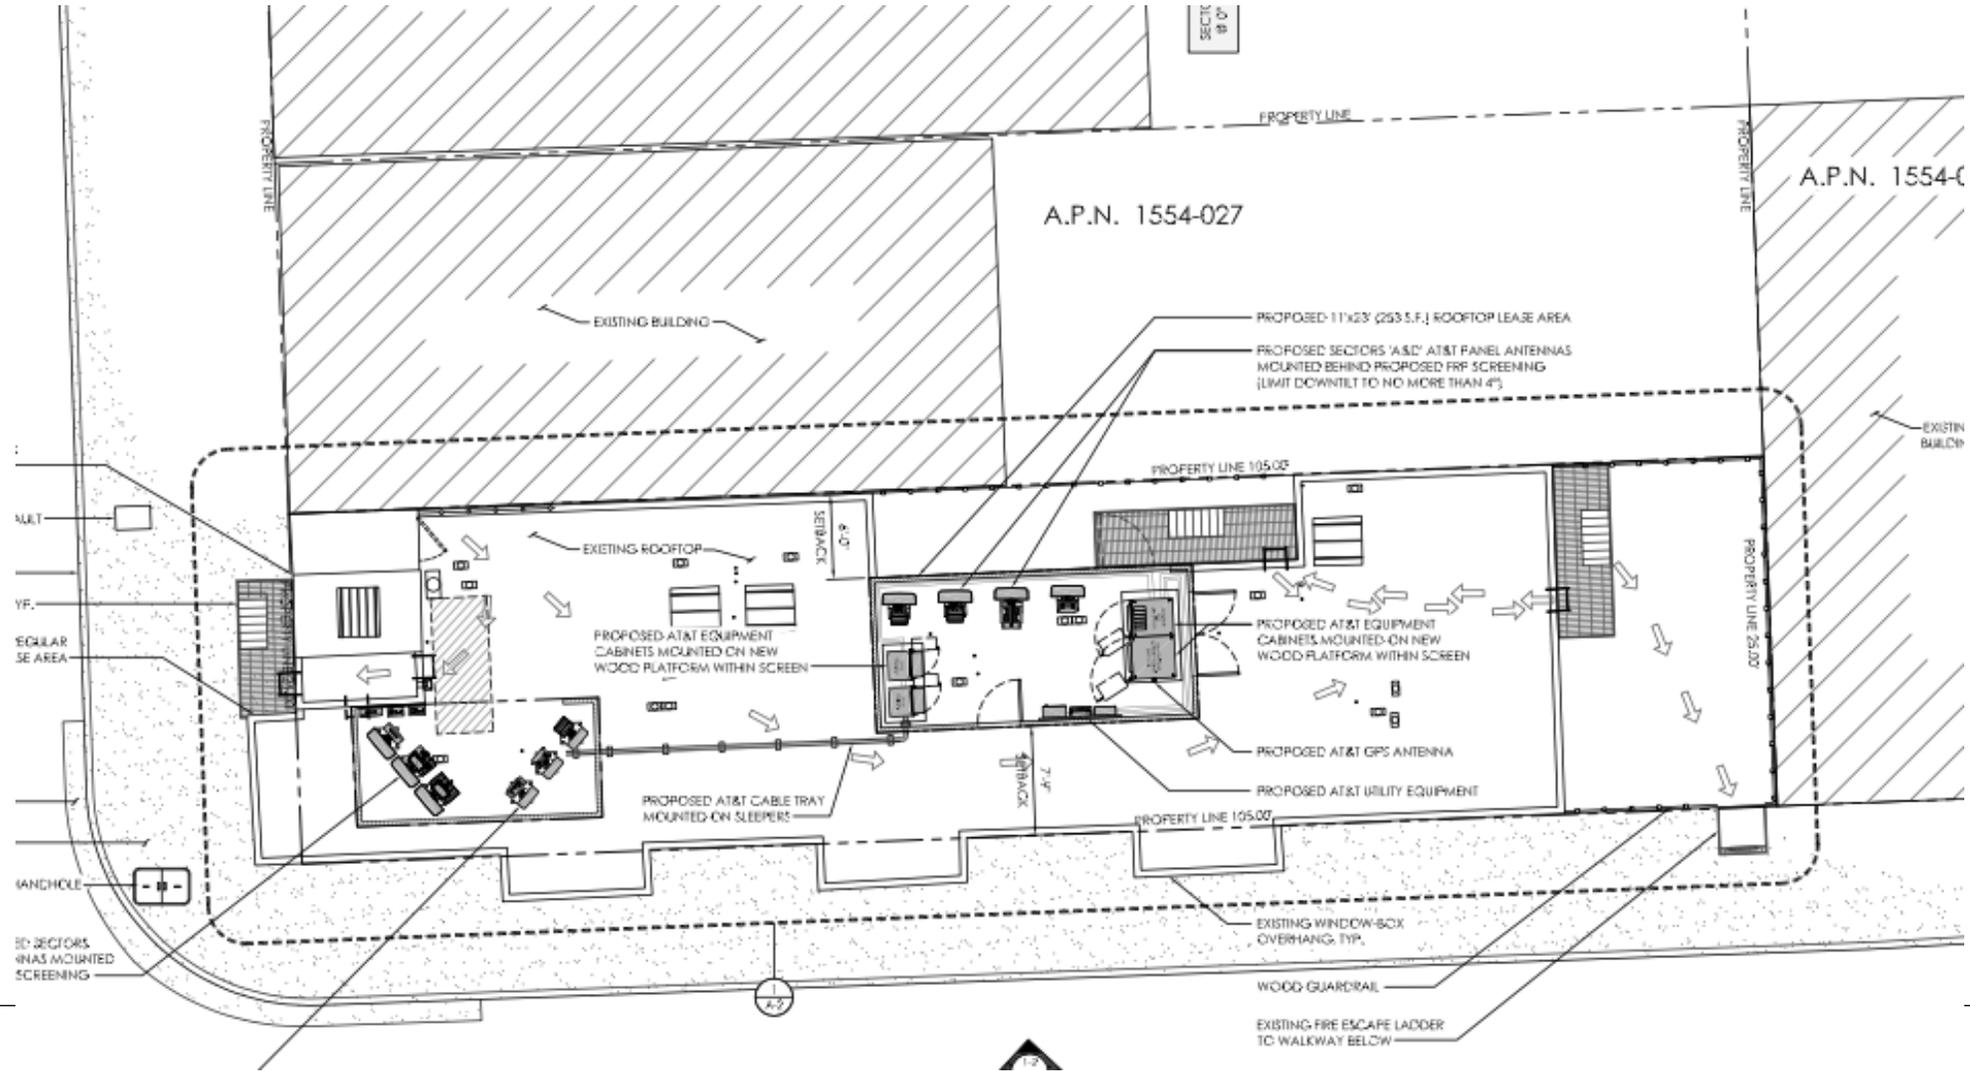

We believe the FRP screen will be visible from the windows and entry stairs of 6 houses on the west side of 2nd Ave north of Balboa

590 2nd Ave from west side of 2nd Ave looking NE. Both Screens will be visible half way up the block

590 2nd Ave Roof showing location of antennas and screens.

View from 588 2nd Ave Deck at noon on Nov 15th

588 2nd Ave Backyard looking west towards the house

431 Balboa – cell site behind hidden parapet

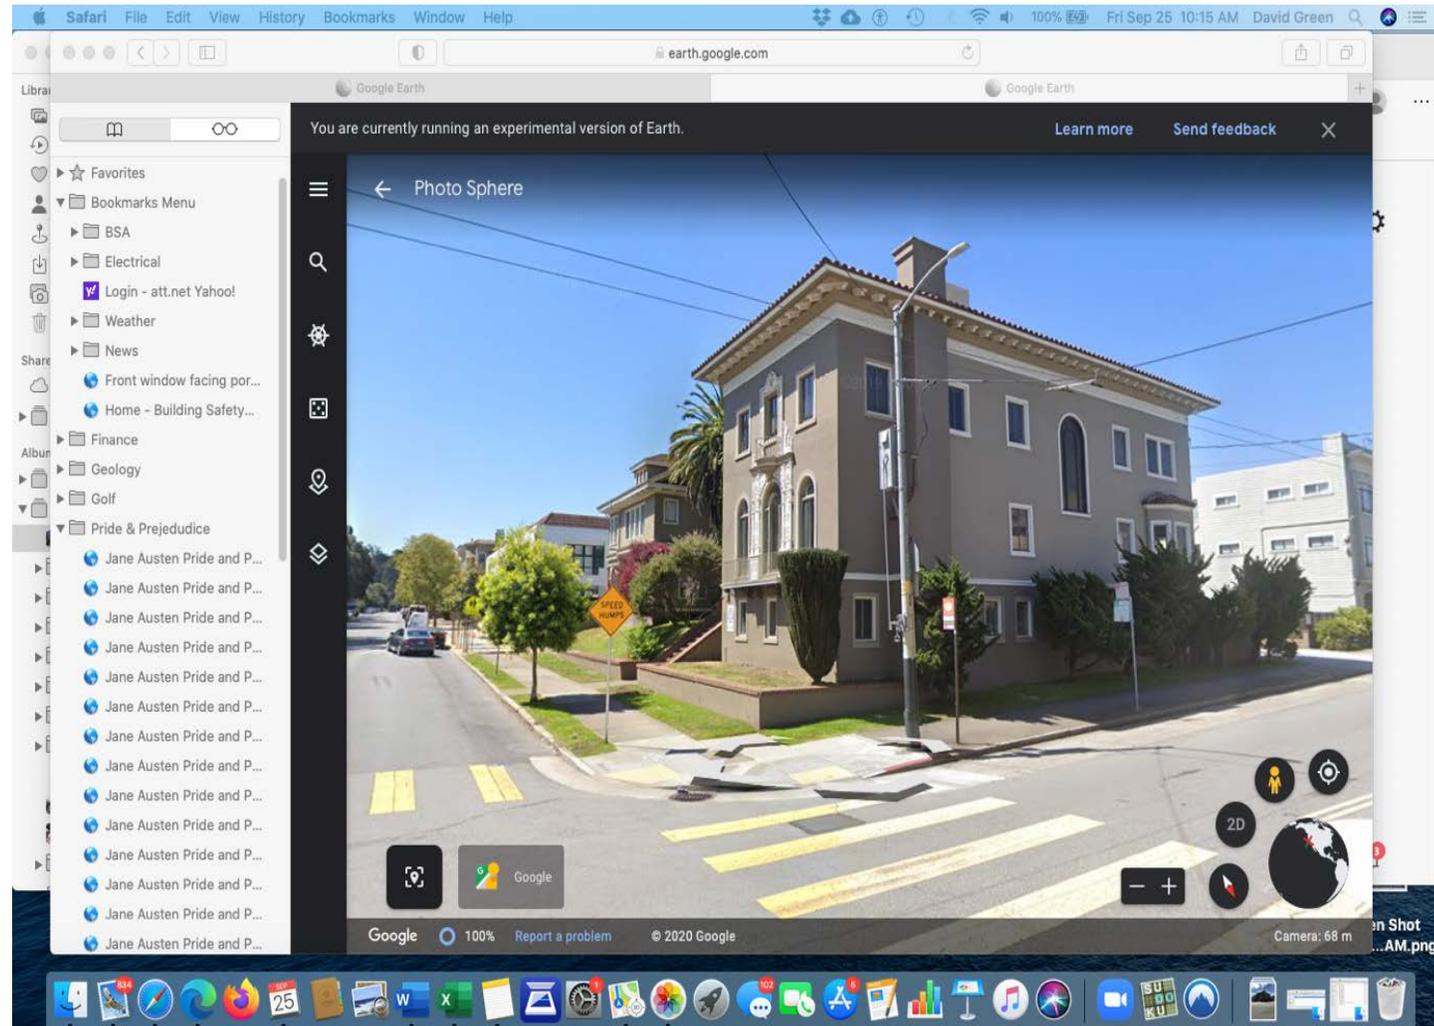

2277 Fulton – cell site in Penthouse – no shading – unobtrusive
Looking SE from Stanyan and Fulton

4216 California – looking north – no shading – set back matching screen

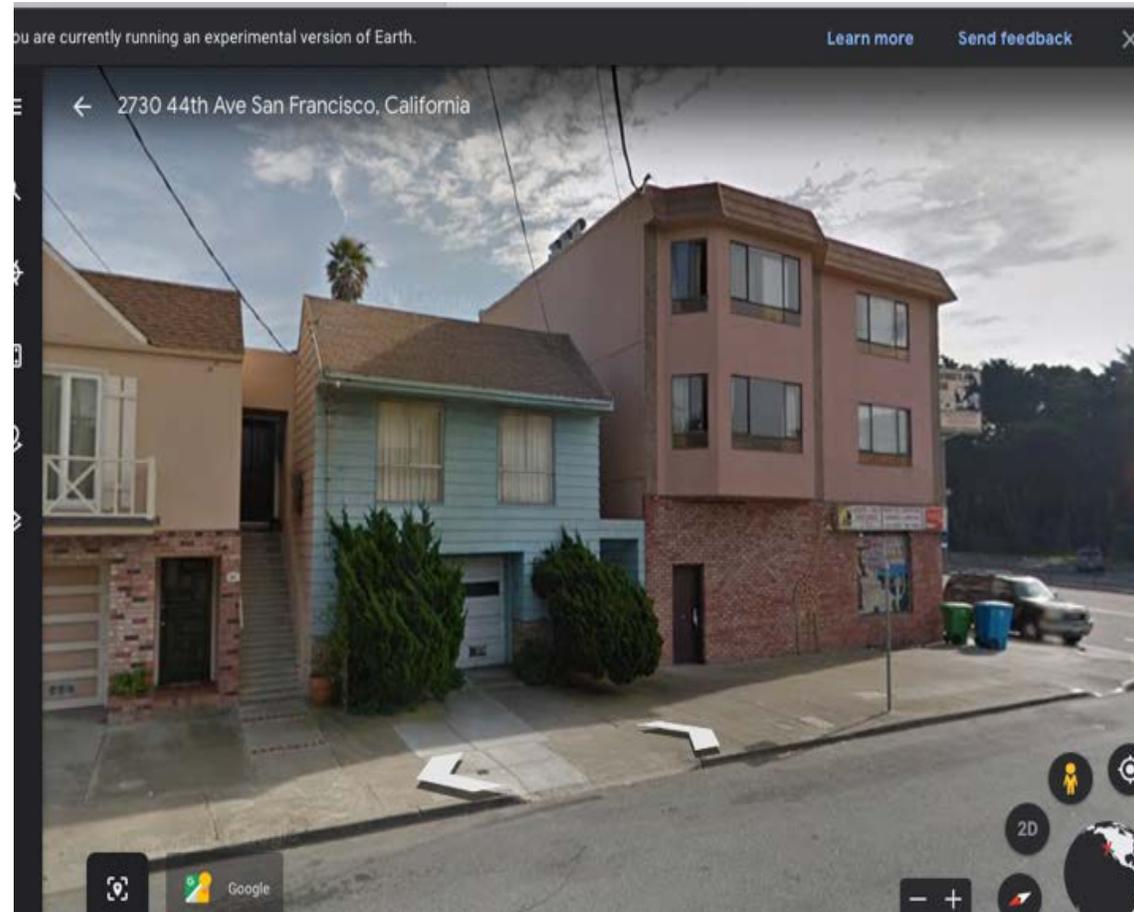

601 14th Ave – looking south. Antennas not visible – no shading

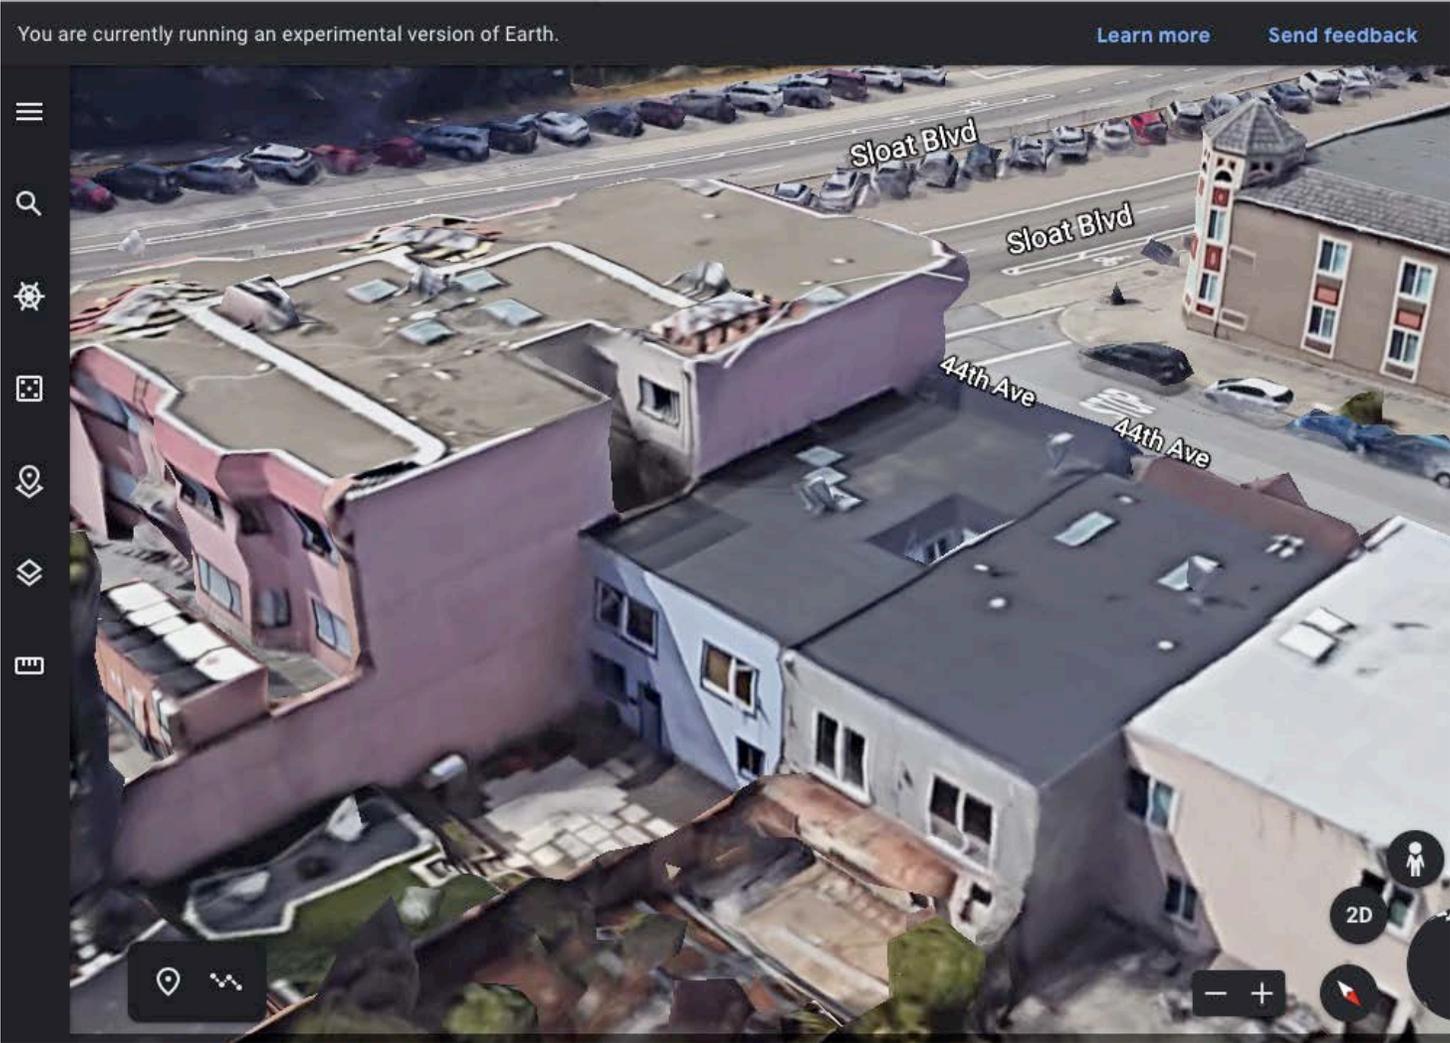

2550 Sloat looking SE – most similar site to 590 2nd Ave

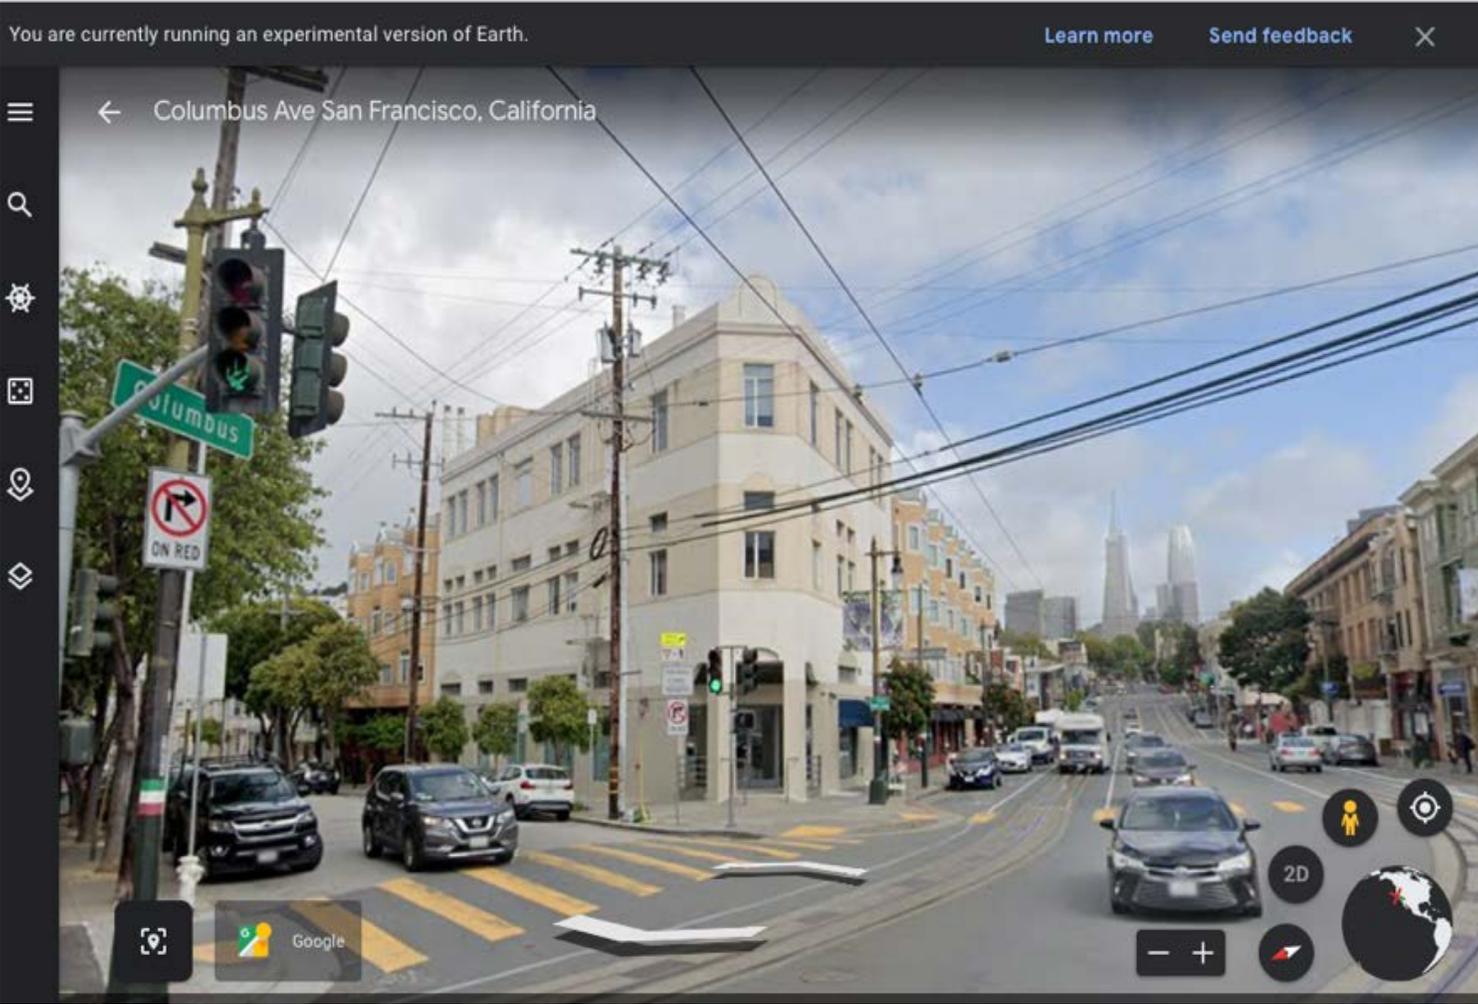

Antennas not visible from streets or from north back yard – see next slide

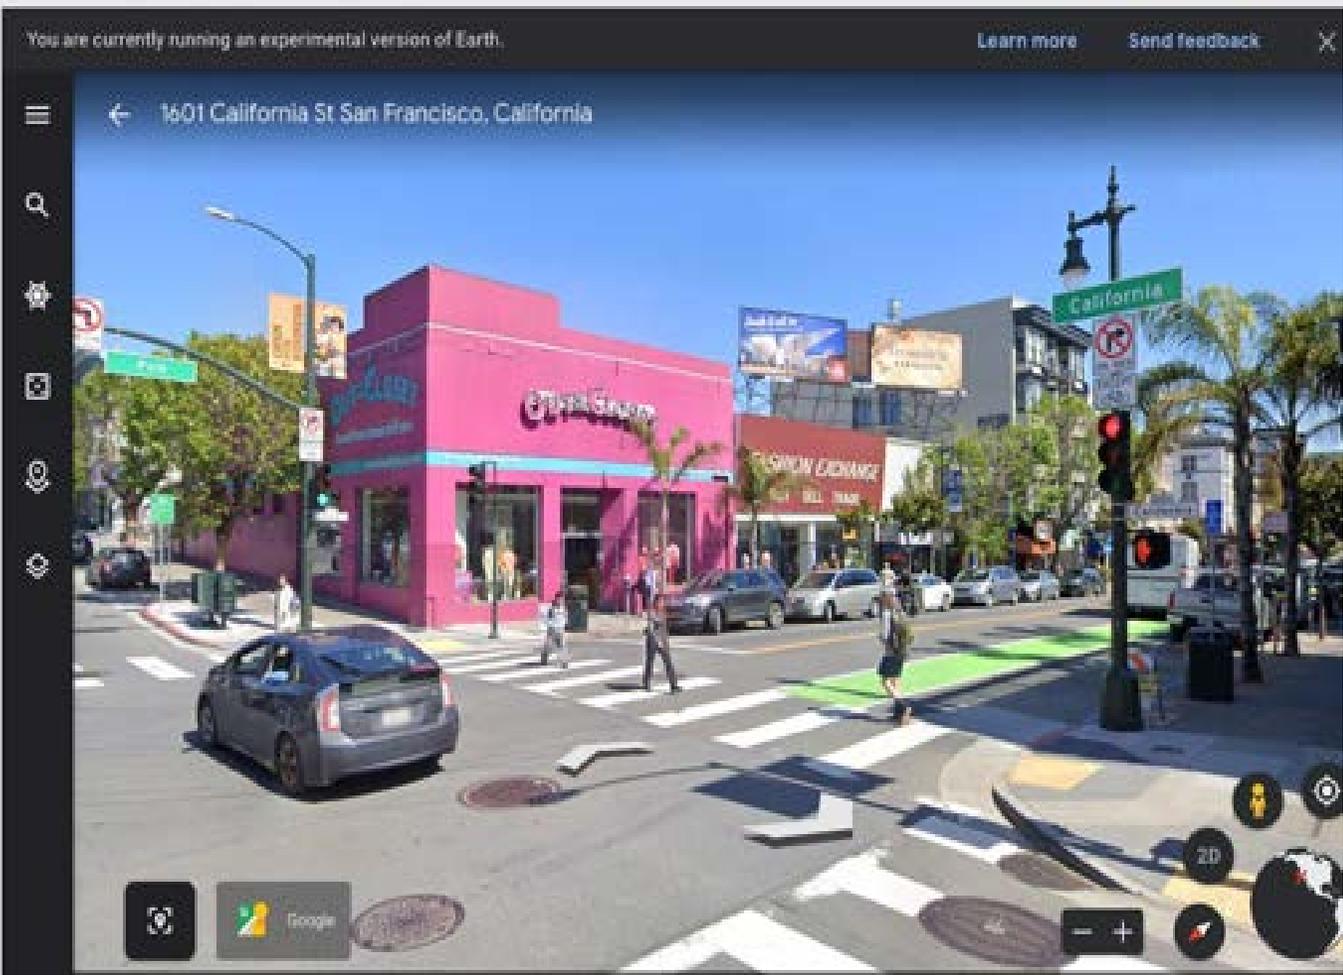

2550 Sloat looking SW – Antennas sited over roof of northern building not visible and no shading

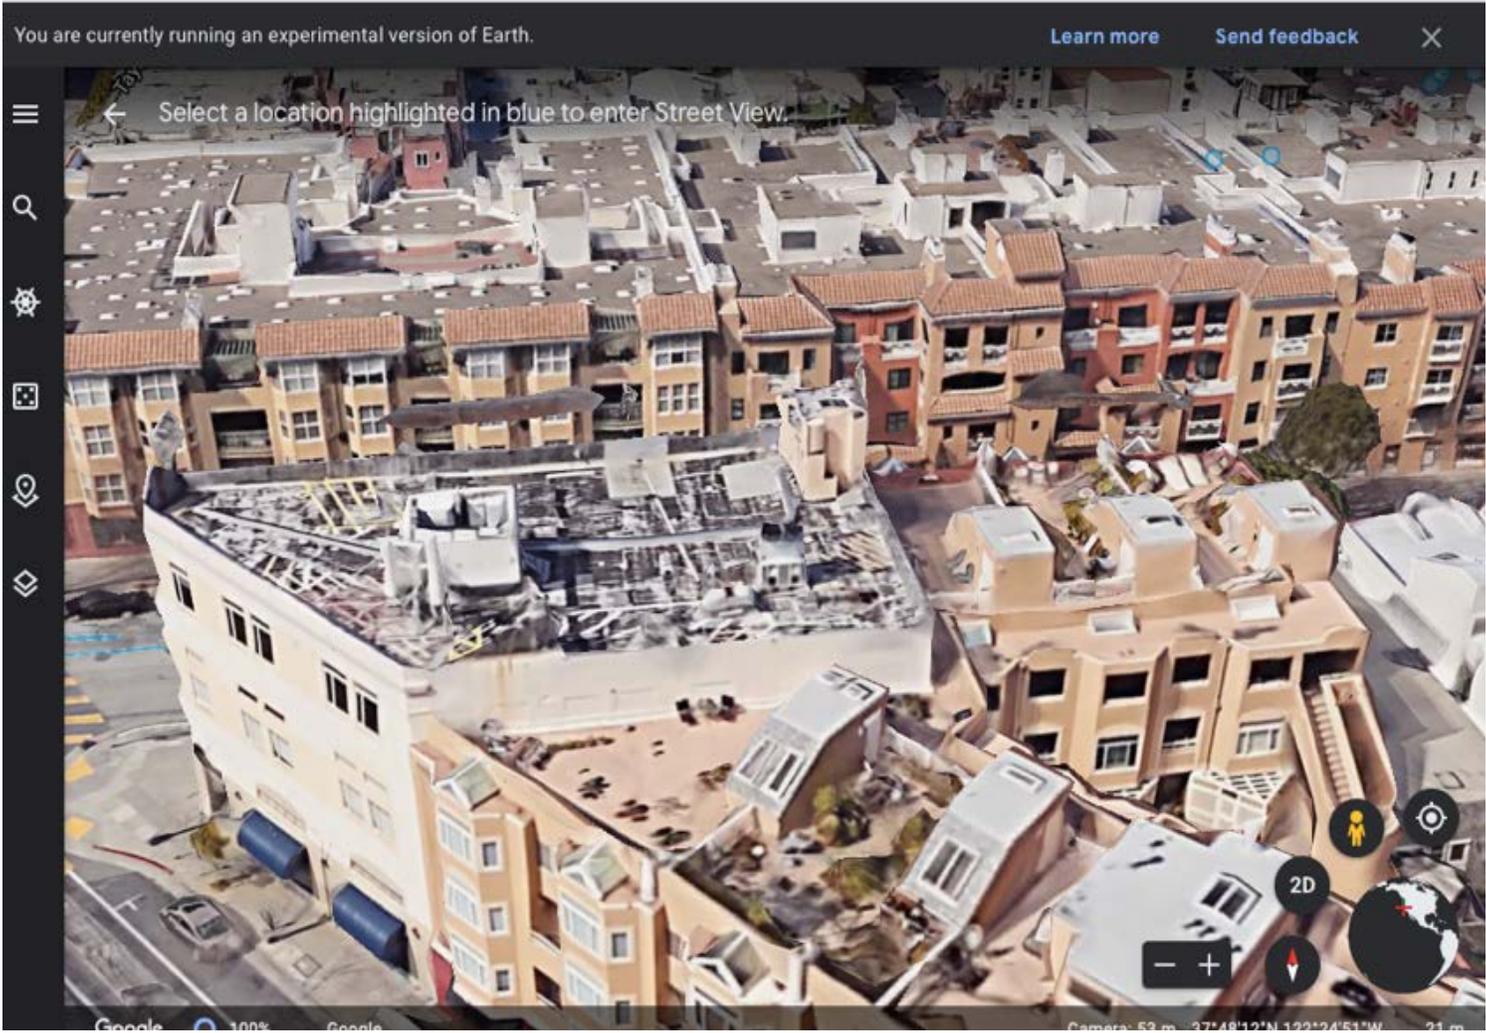

990 Columbus looking SE – antennas probably on penthouse at NE corner of roof – see next slide

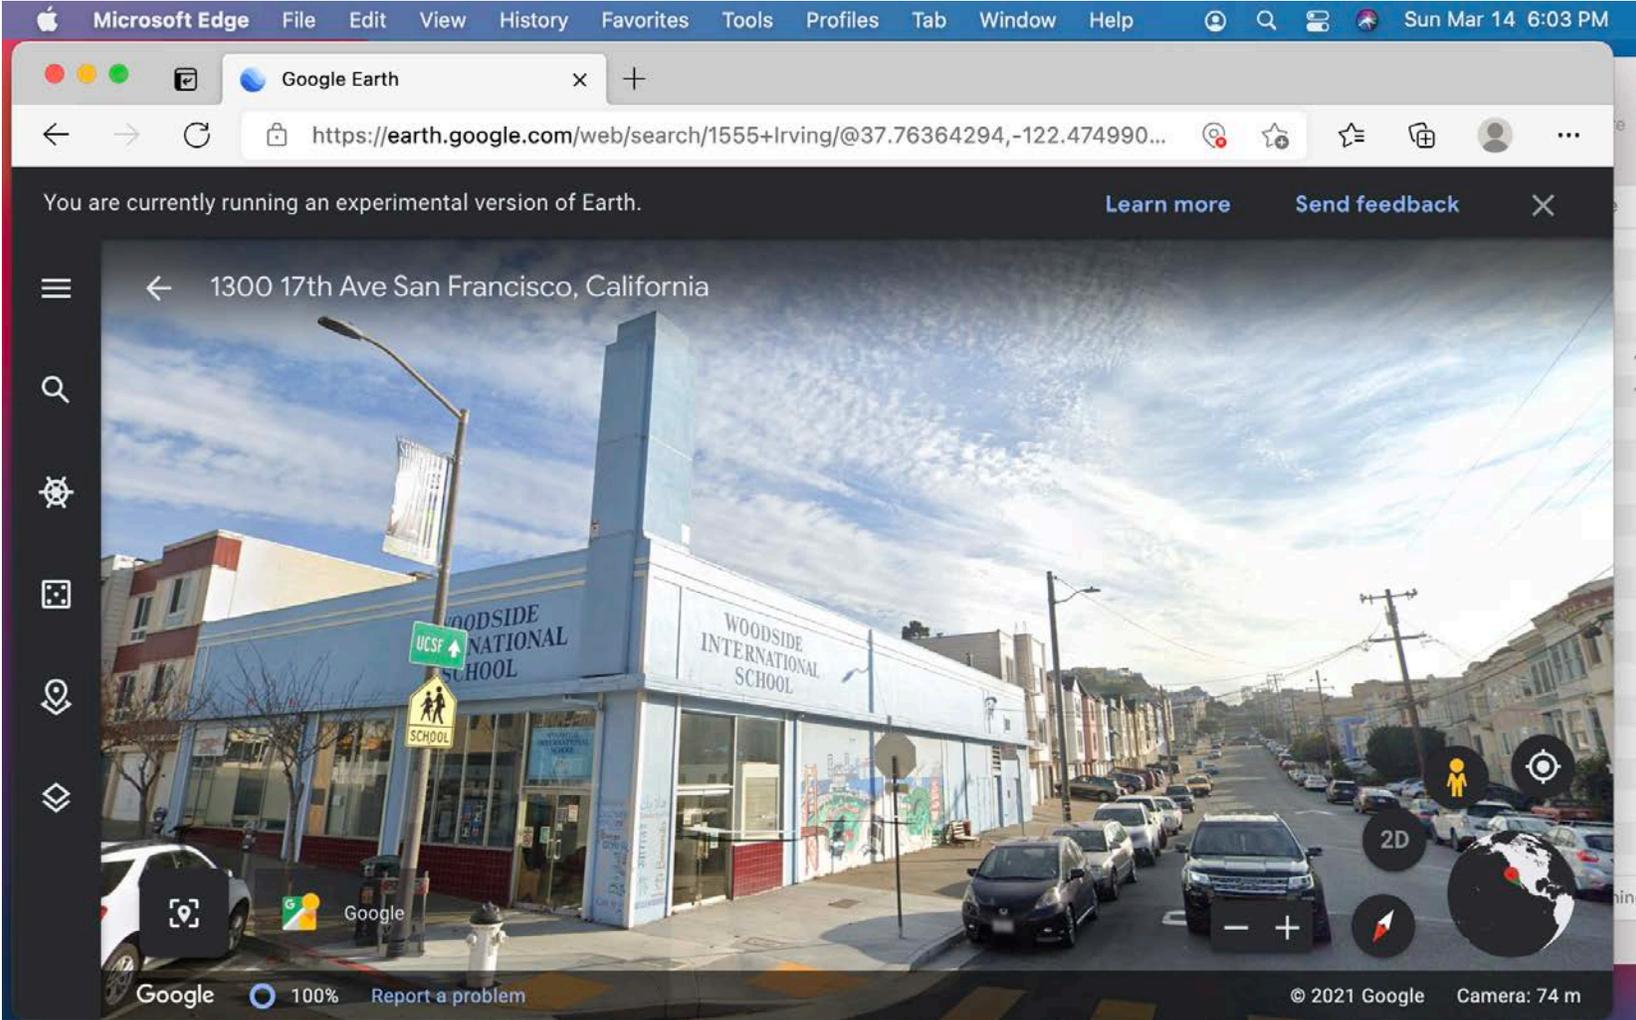

1475 Polk – looking SE – commercial district – antenna behind matching parapet or FRP screen

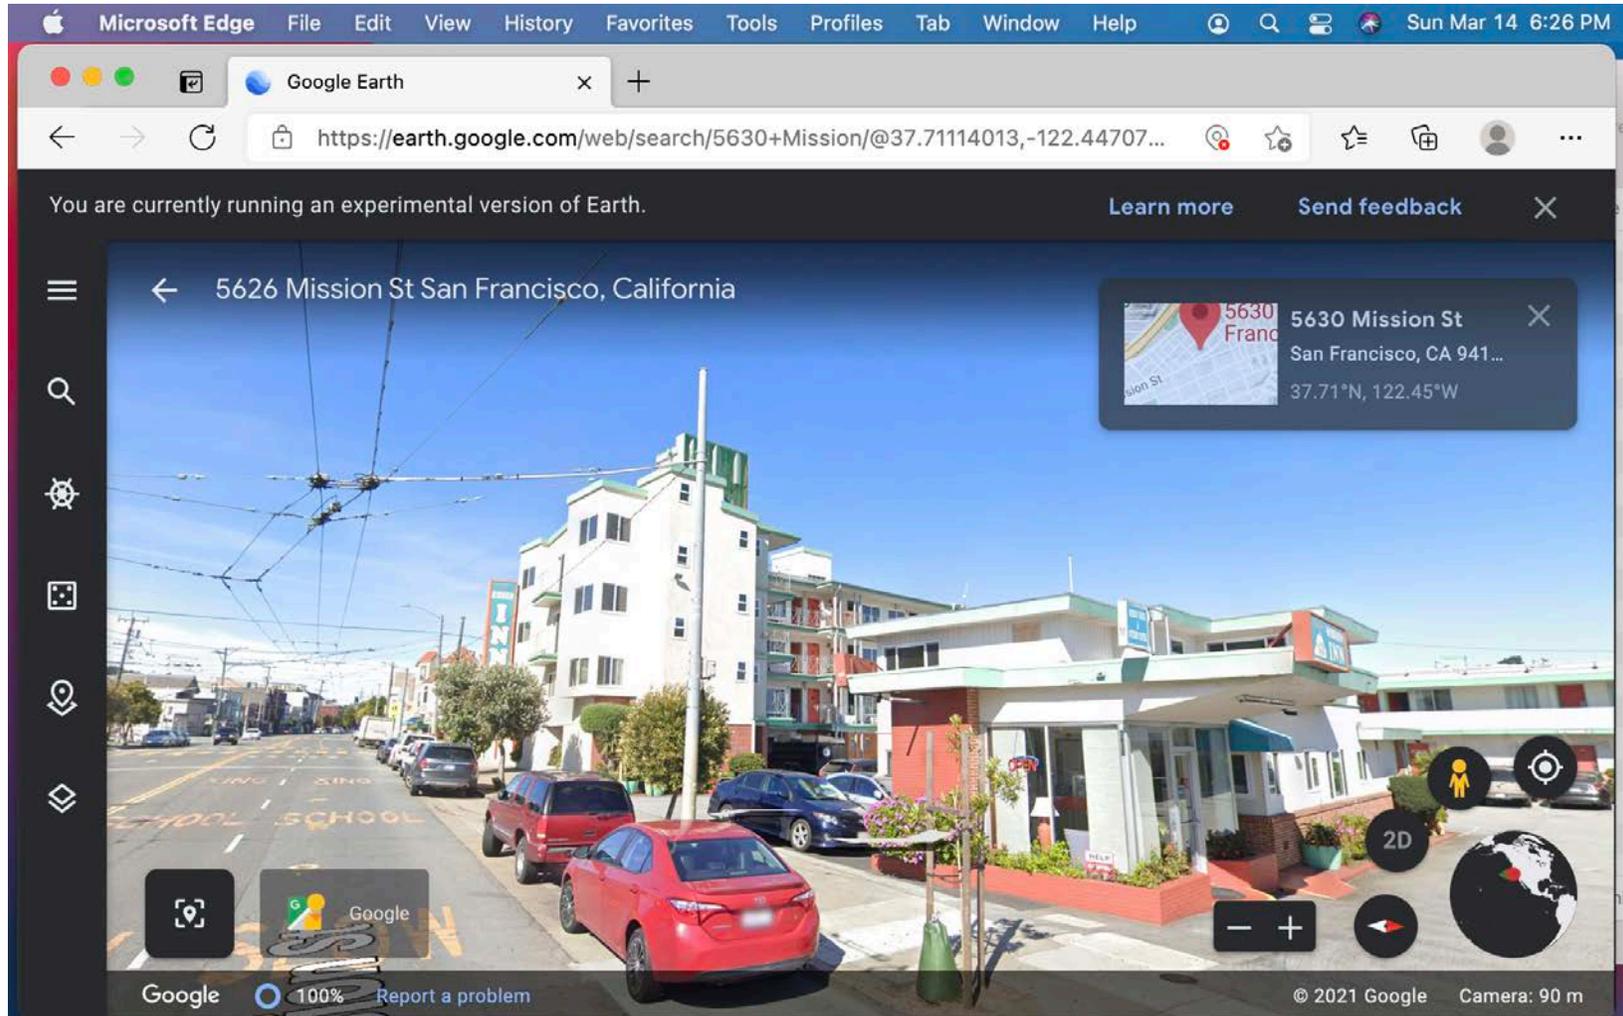

990 Columbus – looking north – NE penthouse may shade roof of dwellings to East. But no shading of buildings to north across the street

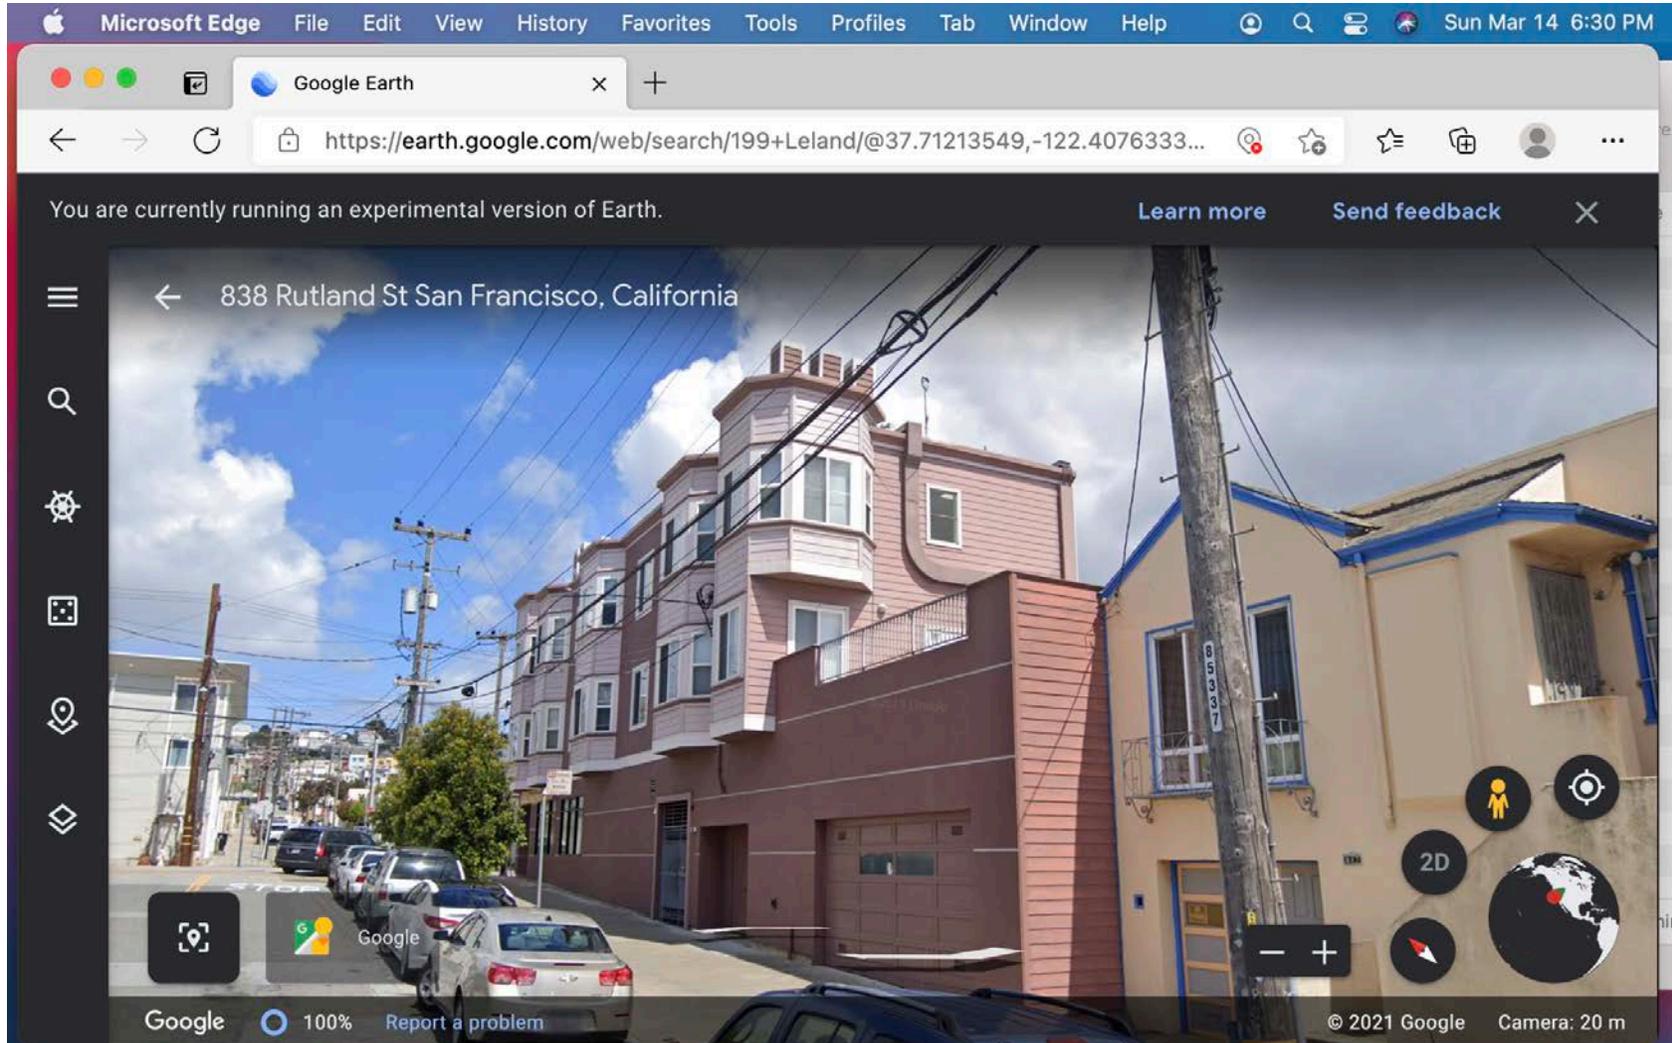

1555 Irving at 17th Ave

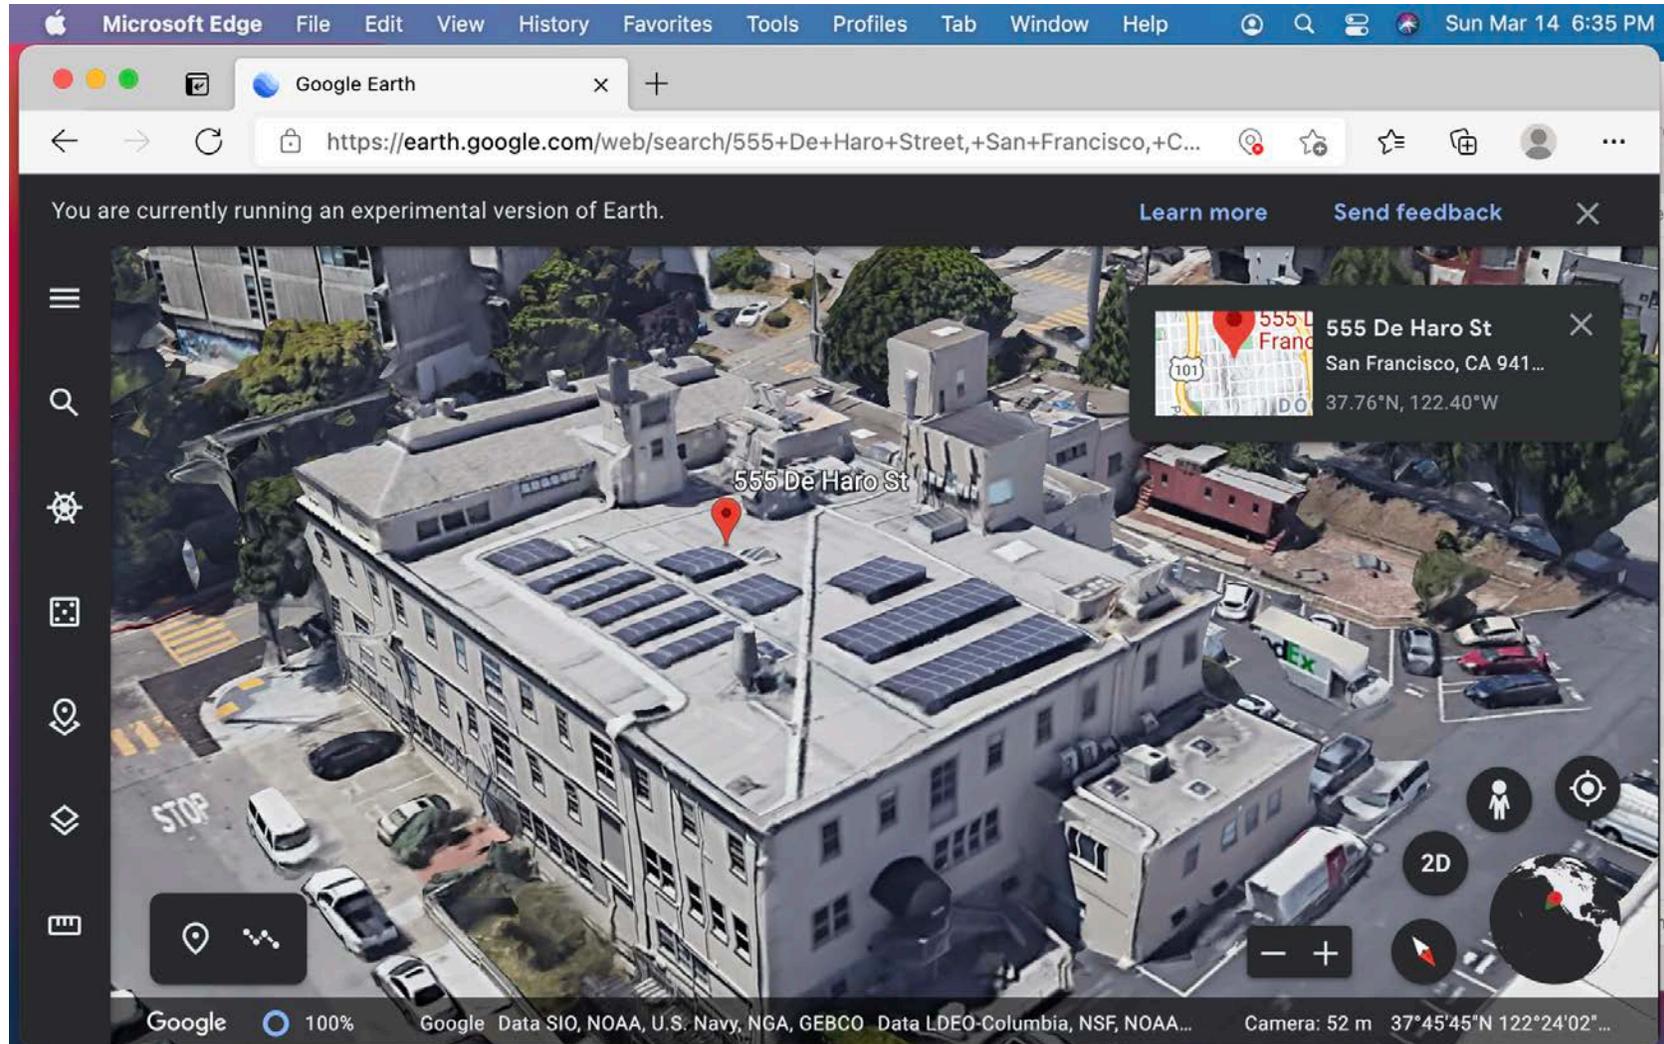

5626 Mission from the N – Antennas visible!!!!

19 Leland - Structures on roof blend in. Antenna cable guideway visible on exterior wall

555 De Haro looking NW – I can't identify antennas on this large building

2501 3rd St looking NE – antennas hidden by set back screen at SW corner of building
