PURPOSE: The Department shall provide a grant to and for the benefit of the Grantee. The purpose of the grant is to implement public health activities related to monitoring, prevention, testing, and linkage to and retention in care activities for the most vulnerable and underserved individuals living with, or at high risk for, hepatitis C virus (HCV) infection in collaboration with community-based organizations (CBOs) within the local health jurisdiction (LHJ).

Funds allocated to the LHJs shall be used to develop and implement a public education and outreach program to raise hepatitis C awareness in high-risk groups, physician's offices, among health care workers, and in health care facilities by including hepatitis C counseling, education, and testing, as appropriate, into local state-funded programs including those addressing HIV, tuberculosis, sexually transmitted diseases (STDs), and all other appropriate programs approved by the director. Local health jurisdictions should use these funds to enhance activities already provided for HCV prevention and control, and should not replace existing activities. Key strategic targets for HCV prevention and control are: enhancement of surveillance and case follow up for acute hepatitis C cases and other priority populations; testing, linkages to care, care coordination, and assurance of treatment for vulnerable and underserved clients at high risk for hepatitis C infection; partnerships to identify and address systemic barriers; and implementation of community-based services through partnerships between LHJs and CBOs.

GRANT AMOUNT: The maximum amount payable under this Grant shall not exceed Nine Hundred Fifty-Two Thousand, Thirty Dollars (\$952,030).

Scope of Work

1. Service Overview

The Grantee will implement public health activities related to monitoring, prevention, testing, and linkage to and retention in care activities for the most vulnerable and underserved individuals living with, or at high risk for, hepatitis C virus (HCV) infection in collaboration with community-based organizations (CBOs)¹ within the local health jurisdiction (LHJ). California Health and Safety Code (H&SC) Section 122420 requires the Director of Health Services to develop and implement a public education and outreach program to raise hepatitis C awareness in high-risk groups, physician's offices, among health care workers, and in health care facilities by including hepatitis C counseling, education, and testing, as appropriate, into local state-funded programs including those addressing HIV, tuberculosis, sexually transmitted diseases (STDs), and all other appropriate programs approved by the director. H&SC Section 122440 requires the department to allocate funds to local health jurisdictions (LHJs) to provide HCV activities, including, but not limited to, monitoring, prevention, testing, and linkage to and retention in care activities for the most vulnerable and underserved individuals living with, or at high risk for, HCV infection. Local health jurisdictions should use these funds to enhance activities already provided for HCV prevention and control, and should not replace existing activities.

H&SC Section 122440 also requires that no less than 50 percent of the funds allocated to LHJs shall be provided to community-based organizations (CBOs) for purposes consistent with this section, provided that there are CBOs in the jurisdiction that are able to provide these activities and demonstrate expertise, history, and credibility working successfully in engaging the most vulnerable and underserved individuals living with, or at high risk for, HCV infection.

California Department of Public Health (CDPH) HCV surveillance data indicate that over the past five years, there were continued increases in the rate of newly reported hepatitis C infections among young people 15-29 years of age, which is likely due to ongoing transmission related to injection drug use. Perinatal hepatitis C is also of particular concern.

Key strategic targets for HCV prevention and control are: enhancement of surveillance and case follow up for acute hepatitis C cases and other priority populations; testing, linkages to care, care coordination, and assurance of treatment for vulnerable and underserved clients at high risk for hepatitis C infection; partnerships to identify and address systemic barriers; and implementation of community-based services through partnerships between LHJs and CBOs.

2. Service Location

The services shall be performed at applicable facilities in the City and County of San Francisco.

¹ A CBO is defined as a private entity that is a nonprofit corporation [Int. Rev Code Section 501(c)] operating at the local level with extensive experience serving persons living with or at risk for hepatitis C infection. CBOs may include community health centers, syringe service programs, and non-profit drug treatment programs.

Exhibit A
Scope of Work

3. Service Hours

The services shall be primarily provided Monday through Friday, from 8:00 a.m. to 5:00 p.m. and may include evenings, weekends, and holidays as needed.

4. Services to be Performed: Collaboration with CBOs to implement core HCV prevention and control

Part I: Core HCV Public Health Services – Surveillance and Case Follow Up

LHJs are required to participate in activities A and B, as well as at least one of the optional activities listed (C through I). Place a checkmark in the box for the optional activit(ies) in which you plan to participate. LHJs may propose and describe other innovative and impactful activity for review and approval by CDPH in the SOW Narrative box. All program activities, including innovative projects, should support the outcome measures of increased HCV monitoring, screening, testing, linkage to care, and treatment.

Please complete the final section to indicate which activities (by letter) will be carried out by the LHJ and which will be subcontracted to one or more CBOs.

Part II: HCV testing, navigation,³ linkages to care, care coordination, and treatment, among vulnerable and underserved clients at high risk for HCV,⁴ with an emphasis on priority settings⁵

LHJs are required to participate in a minimum of one of the optional activities listed (A through D). Place a checkmark in the box for the optional activity in which you plan to participate. LHJs that select Activity A must also select Activity B and Activity C—clients tested for HCV antibody must also be offered HCV RNA testing and, if HCV RNA positive, linked to care. However, LHJs and their subcontracted CBOs may also choose to focus primarily on care coordination (Activity D) for people diagnosed with hepatitis C who have not yet been treated and cured of their infection. LHJs may also propose and describe other innovative and impactful activity for review and approval by CDPH in the SOW Narrative box (Optional Activity E). All program activities, including innovative projects, should support the outcome measures of increased HCV monitoring, screening, testing, linkage to care, and treatment.

³ Patient navigation include, but is not limited to, helping clients with obtaining identification, enrolling in health coverage and benefits, offering transportation and accompaniment to appointments (such as with bus tokens, taxi or ride-sharing, transportation assistance through the client’s health plan or paratransit), offering pay-as-you go phones, hygiene kits, appointment reminders, and other supports. It also includes linkages and referrals to other services, such as primary care and other health services, housing, drug treatment, naloxone, etc.

⁴ People living with or at high risk for hepatitis C who are likely vulnerable and underserved include a) people who have ever injected drugs (PWID); b) people experiencing homelessness or unstable housing; c) people engaged in drug treatment or detained in a local jail; d) people who use non-injection drugs, such as methamphetamine, cocaine, crack, etc.; e) transgender women; and f) sex partners of PWID. Demographic populations disproportionately affected by hepatitis C in California include Blacks/African Americans and American Indian/Alaska Natives as well as people experiencing homelessness or incarceration.

⁵ High priority settings include drug treatment programs, syringe exchange programs, jails, health care for the homeless clinics and mobile health vans, street-based outreach programs, and other locations serving a high number and percent of persons at high risk for HCV who are likely vulnerable and medically underserved.

⁶ CDPH will provide LHJs and CBOs with a Microsoft Excel template for use collecting and reporting HCV testing, linkage to care, and treatment performance indicators/deliverables. Sites will be expected to use the Excel template for quarterly aggregated data reporting to CDPH, but use of the tool for client-level data collection is optional.

⁷ It is a best practice to follow an HCV antibody reactive result with same-day HCV RNA testing, through either a reflex testing on the same blood sample or, if conducting rapid HCV antibody testing, through a blood draw.

Exhibit E**Hepatitis C Virus (HCV) Local Assistance Funds – Standards and General Terms and Conditions****1. Overview**

The California Department of Public Health (CDPH) Sexually Transmitted Diseases Control Branch (STDCB), which includes the Office of Viral Hepatitis Prevention (OVHP), sets forth the following standards and procedures. These standards and procedures specify the conditions for receipt of CDPH STDCB HCV local assistance funds. The local health department has the authority for prevention and control of communicable diseases, including HCV, as outlined in the [Summary of Regulations Related to STD Prevention and Control Efforts in California](https://www.cdph.ca.gov/Programs/CID/DCDC/Pages/STD-ForLocalHealthJurisdictions.aspx), which can be accessed at <https://www.cdph.ca.gov/Programs/CID/DCDC/Pages/STD-ForLocalHealthJurisdictions.aspx>.

2. Grantee's Responsibilities

The Grantee agrees to:

- A. Direct activities toward achieving the program objectives set forth by the CDPH STDCB.
- B. Use these funds in accordance with any additional guidance set forth by the CDPH STDCB regarding the granting, use and reimbursement of the STDCB HCV local assistance funds. Additional consideration should be given to other guidance from CDPH and the U.S. Centers for Disease Control and Prevention (CDC) intended to highlight successful HIV, HCV, and/or STD prevention strategies or outline California specific initiatives, policies and procedures. Please find relevant programmatic guidance documents on the CDPH STDCB OVHP website: <https://cdph.ca.gov/ovhp>.
- C. Use these funds to augment existing funds and not supplant funds that have been locally appropriated for the same purposes. Local assistance funds are intended to provide local entities with increased capabilities to address HCV control needs. Supplanting of funds is defined (for the purposes of this agreement) as using local assistance award monies to “replace” or “take the place of” existing local funding. For example, reductions in local funds cannot be offset by the use of CDPH STDCB dollars for the same purpose.
- D. Abide by the most recent standards of care for HCV screening, treatment, control and prevention as promulgated by:
 1. California Department of Public Health
<https://www.cdph.ca.gov/Programs/CID/DCDC/Pages/ovhp.aspx>
 2. Centers for Disease Control and Prevention
<https://www.cdc.gov/hepatitis/>
 3. [Association for the Advanced Study of Liver Diseases](https://www.hcvguidelines.org/)
<https://www.hcvguidelines.org/>
- E. Share health advisories, health education materials, outreach, testing, linkage to care, and care coordination protocols, and other products created to enhance HCV awareness, prevention, testing, linkages to care, care coordination, and treatment, funded with these dollars with CDPH and other LHJs and community-based organizations (CBOs) in California. The intent of this is to allow

Exhibit E**Hepatitis C Virus (HCV) Local Assistance Funds – Standards and General Terms and Conditions**

duplication (where possible) and cross-jurisdictional reach of successful HCV interventions and activities aimed at priority populations, clinical providers, and community partners. Source documents should be submitted to CDPH upon completion and with the annual progress report, and upon request from CDPH, as relevant.

- F. Submit information and reports as requested by the CDPH STDCB.
- G. Ensure the use of a competitive bid process in the selection of all subcontracts. If the subcontract is one where the LHJ has a current agreement with, indicate the date the agreement was effective. If the CBO is a non-profit agency as defined by Internal Revenue Code 501(c), ensure the LHJ has a current letter on file from the Internal Revenue Service for the CBO.

3. Reporting Requirements**A. Case Report, Laboratory, and Interview Record**

All Grantees shall comply with morbidity reporting requirements for reportable HCV identified in Title 17, California Code of Regulations (CCR) §2500, §2593, §2641.5-2643.20, and §2800 – 20182 Reportable Diseases and Conditions.

<https://www.cdph.ca.gov/Programs/CID/DCDC/CDPH%20Document%20Library/ReportableDiseases.pdf>

All Grantees, excluding Los Angeles, San Francisco, and San Diego, must enter HCV case data for their jurisdiction directly into the California Reportable Disease Information Exchange (CalREDIE) system, the CDPH web-based reporting software for notifiable diseases. Data must be entered into the appropriate tabs and forms in CalREDIE. Submission of hard copy forms for data entry into CalREDIE by CDPH or scanning of case reports, laboratory results, or interview records into the electronic filing cabinet (EFC), sans data entry, will not be accepted. CDPH STD Control Branch will provide essential variables for data entry and HCV case report forms. Specific case investigation and report requirements are as follows:

1. Hepatitis C-related laboratory reports submitted electronically are automatically imported, processed, and closed through CalREDIE as suspect cases of chronic hepatitis C.
2. The Grantee should investigate cases of Acute Hepatitis B and Acute Hepatitis C using the Acute Hepatitis B and Hepatitis C Case Report Form (CDPH 8073), <https://www.cdph.ca.gov/CDPH%20Document%20Library/ControlledForms/cdph8703.pdf>, and Perinatal Hepatitis C using the Perinatal Hepatitis C Case Report Form (CDPH 8704), <https://www.cdph.ca.gov/CDPH%20Document%20Library/ControlledForms/cdph8704.pdf>.

Exhibit E**Hepatitis C Virus (HCV) Local Assistance Funds – Standards and General Terms and Conditions**

3. Grantees will enter completed Acute Hepatitis C and Perinatal Hepatitis C Case Report Forms into CalREDIE within 45 days of the initial report to the local health department.
4. Grantees will participate in trainings related to HCV-specific aspects of CalREDIE and surveillance and conduct quality control procedures, including review of cases to ensure appropriate surveillance case definition and reconciliation of case counts.

- Chronic Hepatitis C data to be submitted by March 31st of each year as an annual line list of cases reported during the prior year. This data must be submitted via a secure file transfer protocol (FTP) and in a format that conforms to the National Electronic Telecommunications System for Surveillance (NETSS) or Message Mapping Guides (MMG) standards, as requested by CDPH.

B. Performance Measurement and Program Evaluation

Exhibit FInformation Privacy and Security Requirements
(For Non-HIPAA/HITECH Act Contracts)XI. Breach and Security Incident Responsibilities:

- A. Notification to CDPH of Breach or Security Incident: The Contractor shall notify CDPH **immediately by telephone call plus email or fax** upon the discovery of a breach (as defined in this Exhibit), **and within twenty-four (24) hours by email or fax** of the discovery of any security incident (as defined in this Exhibit), unless a law enforcement agency determines that the notification will impede a criminal investigation, in which case the notification required by this section shall be made to CDPH immediately after the law enforcement agency determines that such notification will not compromise the investigation. Notification shall be provided to the CDPH Program Contract Manager, the CDPH Privacy Officer and the CDPH Chief Information Security Officer, using the contact information listed in Section XI(F), below. If the breach or security incident is discovered after business hours or on a weekend or holiday and involves CDPH PCI in electronic or computerized form, notification to CDPH shall be provided by calling the CDPH Information Security Office at the telephone numbers listed in Section XI(F), below. For purposes of this Section, breaches and security incidents shall be treated as discovered by Contractor as of the first day on which such breach or security incident is known to the Contractor, or, by exercising reasonable diligence would have been known to the Contractor. Contractor shall be deemed to have knowledge of a breach if such breach is known, or by exercising reasonable diligence would have been known, to any person, other than the person committing the breach, who is a employee or agent of the Contractor.

Contractor shall take:

1. prompt corrective action to mitigate any risks or damages involved with the breach or security incident and to protect the operating environment; and
 2. any action pertaining to a breach required by applicable federal and state laws, including, specifically, California Civil Code section 1798.29.
- B. Investigation of Breach and Security Incidents: The Contractor shall immediately investigate such breach or security incident. As soon as the information is known and subject to the legitimate needs of law enforcement, Contractor shall inform the CDPH Program Contract Manager, the CDPH Privacy Officer, and the CDPH Chief Information Security Officer of:
1. what data elements were involved and the extent of the data disclosure or access involved in the breach, including, specifically, the number of individuals whose personal information was breached; and
 2. a description of the unauthorized persons known or reasonably believed to have improperly used the CDPH PCI and/or a description of the unauthorized persons known or reasonably believed to have improperly accessed or acquired the CDPH PCI, or to whom it is known or reasonably believed to have had the CDPH PCI improperly disclosed to them; and
 3. a description of where the CDPH PCI is believed to have been improperly used or disclosed; and

 5. whether Civil Code section 1798.29 or any other federal or state laws requiring individual notifications of breaches have been triggered.
- C. Written Report: The Contractor shall provide a written report of the investigation to the CDPH Program Contract Manager, the CDPH Privacy Officer, and the CDPH Chief Information Security Officer as soon as practicable after the discovery of the breach or security incident. The report shall include, but not be limited to, the information specified above, as well as a complete, detailed corrective action plan, including information on measures that were taken to halt and/or contain the breach or security incident, and measures to be taken to prevent the recurrence or further disclosure of data regarding such breach or security incident.
- D. Notification to Individuals: If notification to individuals whose information was breached is required under state or federal law, and regardless of whether Contractor is considered only a custodian and/or non-owner of the CDPH PCI, Contractor shall, at its sole expense, and at the sole election of CDPH, either:
1. make notification to the individuals affected by the breach (including substitute notification), pursuant to the content and timeliness provisions of such applicable state or federal breach notice laws. Contractor shall inform the CDPH Privacy Officer of the time, manner and content of any such notifications, prior to the transmission of such notifications to the individuals; or
 2. cooperate with and assist CDPH in its notification (including substitute notification) to the individuals affected by the breach.
- E. Submission of Sample Notification to Attorney General: If notification to more than 500 individuals is required pursuant to California Civil Code section 1798.29, and regardless of whether Contractor is considered only a custodian and/or non-owner of the CDPH PCI, Contractor shall, at its sole expense, and at the sole election of CDPH, either:
1. electronically submit a single sample copy of the security breach notification, excluding any personally identifiable information, to the Attorney General pursuant to the format, content and timeliness provisions of Section 1798.29, subdivision (e). Contractor shall inform the CDPH Privacy Officer of the time, manner and content of any such submissions, prior to the transmission of such submissions to the Attorney General; or

Contractor Data Security Standards

1. General Security Controls

- A. **Confidentiality Statement.** All persons that will be working with CDPH PCI must sign a confidentiality statement. The statement must include at a minimum, General Use, Security and Privacy safeguards, Unacceptable Use, and Enforcement Policies. The statement must be signed by the workforce member prior to access to CDPH PCI. The statement must be renewed annually. The Contractor shall retain each person's written confidentiality statement for CDPH inspection for a period of three (3) years following contract termination.
- B. **Background check.** Before a member of the Contractor's workforce may access CDPH PCI, Contractor must conduct a thorough background check of that worker and evaluate the results to assure that there is no indication that the worker may present a risk for theft of confidential data. The Contractor shall retain each workforce member's background check documentation for a period of three (3) years following contract termination.
- C. **Workstation/Laptop encryption.** All workstations and laptops that process and/or store CDPH PCI must be encrypted using a FIPS 140-2 certified algorithm, such as Advanced Encryption Standard (AES), with a 128bit key or higher. The encryption solution must be full disk unless approved by the CDPH Information Security Office.
- D. **Server Security.** Servers containing unencrypted CDPH PCI must have sufficient administrative, physical, and technical controls in place to protect that data, based upon a risk assessment/system security review.
- E. **Minimum Necessary.** Only the minimum necessary amount of CDPH PCI required to perform necessary business functions may be copied, downloaded, or exported.
- F. **Removable media devices.** All electronic files that contain CDPH PCI data must be encrypted when stored on any removable media or portable device (i.e. USB thumb drives, floppies, CD/DVD, smart devices tapes etc.). PCI must be encrypted using a FIPS 140-2 certified algorithm, such as Advanced Encryption Standard (AES), with a 128bit key or higher.
- G. **Antivirus software.** All workstations, laptops and other systems that process and/or store CDPH PCI must install and actively use a comprehensive anti-virus software solution with automatic updates scheduled at least daily.
- H. **Patch Management.** All workstations, laptops and other systems that process and/or store CDPH PCI must have operating system and application security patches applied, with system reboot if necessary. There must be a documented patch management process which determines installation timeframe based on risk assessment and vendor recommendations. At a maximum, all applicable patches must be installed within 30 days of vendor release.
- I. **User IDs and Password Controls.** All users must be issued a unique user name for accessing CDPH PCI. Username must be promptly disabled, deleted, or the password changed upon the transfer or termination of an employee with knowledge of the password.

Exhibit F
Information Privacy and Security Requirements
(For Non-HIPAA/HITECH Act Contracts)

Passwords are not to be shared. Must be at least eight characters. Must be a non-dictionary word. Must not be stored in readable format on the computer. Must be changed every 60 days. Must be changed if revealed or compromised. Must be composed of characters from at least three of the following four groups from the standard keyboard:

- Upper case letters (A-Z)
- Lower case letters (a-z)
- Arabic numerals (0-9)
- Non-alphanumeric characters (punctuation symbols)

J. **Data Sanitization.** All CDPH PCI must be sanitized using NIST Special Publication 800-88 standard methods for data sanitization when the CDPH PCI is no longer needed.

2. System Security Controls

- A. **System Timeout.** The system must provide an automatic timeout, requiring reauthentication of the user session after no more than 20 minutes of inactivity.
- B. **Warning Banners.** All systems containing CDPH PCI must display a warning banner each time a user attempts access, stating that data is confidential, systems are logged, and system use is for business purposes only. User must be directed to log off the system if they do not agree with these requirements.
- C. **System Logging.** The system must maintain an automated audit trail which can identify the user or system process which initiates a request for CDPH PCI, or which alters CDPH PCI. The audit trail must be date and time stamped, must log both successful and failed accesses, must be read only, and must be restricted to authorized users. This logging must be included for all user privilege levels including, but not limited to, systems administrators. If CDPH PCI is stored in a database, database logging functionality must be enabled. Audit trail data must be archived for at least 3 years after occurrence.
- D. **Access Controls.** The system must use role based access controls for all user authentications, enforcing the principle of least privilege.
- E. **Transmission encryption.** All data transmissions of CDPH PCI outside the contractor's secure internal network must be encrypted using a FIPS 140-2 certified algorithm, such as Advanced Encryption Standard (AES), with a 128bit key or higher. Encryption can be end to end at the network level, or the data files containing CDPH PCI can be encrypted. This requirement pertains to any type of CDPH PCI in motion such as website access, file transfer, and E-Mail.
- F. **Intrusion Detection.** All systems involved in accessing, holding, transporting, and protecting CDPH PCI that are accessible via the Internet must be protected by a comprehensive intrusion detection and prevention solution.

3. Audit Controls

Exhibit F**Information Privacy and Security Requirements
(For Non-HIPAA/HITECH Act Contracts)**

- A. **System Security Review.** All systems processing and/or storing CDPH PCI must have at least an annual system risk assessment/security review which provides assurance that administrative, physical, and technical controls are functioning effectively and providing adequate levels of protection. Reviews shall include vulnerability scanning tools.
- B. **Log Reviews.** All systems processing and/or storing CDPH PCI must have a routine procedure in place to review system logs for unauthorized access.
- C. **Change Control.** All systems processing and/or storing CDPH PCI must have a documented change control procedure that ensures separation of duties and protects the confidentiality, integrity and availability of data.

4. Business Continuity / Disaster Recovery Controls

- A. **Disaster Recovery.** Contractor must establish a documented plan to enable continuation of critical business processes and protection of the security of electronic CDPH PCI in the event of an emergency. Emergency means any circumstance or situation that causes normal computer operations to become unavailable for use in performing the work required under this agreement for more than 24 hours.
- B. **Data Backup Plan.** Contractor must have established documented procedures to securely backup CDPH PCI to maintain retrievable exact copies of CDPH PCI. The backups shall be encrypted. The plan must include a regular schedule for making backups, storing backups offsite, an inventory of backup media, and the amount of time to restore CDPH PCI should it be lost. At a minimum, the schedule must be a weekly full backup and monthly offsite storage of CDPH data.

5. Paper Document Controls

- A. **Supervision of Data.** CDPH PCI in paper form shall not be left unattended at any time, unless it is locked in a file cabinet, file room, desk or office. Unattended means that information is not being observed by an employee authorized to access the information. CDPH PCI in paper form shall not be left unattended at any time in vehicles or planes and shall not be checked in baggage on commercial airplanes.
- B. **Escorting Visitors.** Visitors to areas where CDPH PCI is contained shall be escorted and CDPH PHI shall be kept out of sight while visitors are in the area.
- C. **Confidential Destruction.** CDPH PCI must be disposed of through confidential means, using NIST Special Publication 800-88 standard methods for data sanitization when the CDPH PSCI is no longer needed.
- D. **Removal of Data.** CDPH PCI must not be removed from the premises of the Contractor except with express written permission of CDPH.
- E. **Faxing.** Faxes containing CDPH PCI shall not be left unattended and fax machines shall be in secure areas. Faxes shall contain a confidentiality statement notifying persons receiving

Exhibit F

(For Non-HIPAA/HITECH Act Contracts)

faxes in error to destroy them. Fax numbers shall be verified with the intended recipient before sending.

- F. **Mailing.** CDPH PCI shall only be mailed using secure methods. Large volume mailings of CDPH PHI shall be by a secure, bonded courier with signature required on receipt. Disks and other transportable media sent through the mail must be encrypted with a CDPH approved solution, such as a solution using a vendor product specified on the CALIFORNIA STRATEGIC SOURCING INITIATIVE.

San Francisco, CA 94103

Dear Dr. Philip:

NOTICE OF AWARD

The California Department of Public Health (CDPH), Sexually Transmitted Diseases (STD) Control Branch is pleased to announce the intent to award local assistance funds to your agency for hepatitis C virus (HCV) prevention and control activities. The funds must be used to develop and implement a public education and outreach program to raise hepatitis C awareness in high-risk groups, physician's offices, among health care workers, and in health care facilities by including hepatitis C counseling, education, and testing, as appropriate, into local state-funded programs. Your agency's annual award is \$190,406 and no less than 50 percent of the funds shall be provided to community-based organizations (CBOs) for the purposes consistent with Health and Safety Code section 122440. To secure these funds, an official grant agreement will be developed and executed between your agency and CDPH; the grant term period will be the date of execution through June 30, 2024. Please submit your intent to accept these funds to STDLHJContracts@cdph.ca.gov by December 6, 2019 and include your agency's name in the subject line when you send the email to help us to easily identify which local health jurisdiction you represent.

Scope of Work

The Scope of Work (SOW) is enclosed for your information. You will be responsible for all activities in the SOW unless they are marked "Optional." Parts I through III include an area where you can indicate whether your agency or the CBO will be responsible for completing the required activities. For the "Optional" activities, the SOW allows you to indicate if you plan to participate in the optional activity and, if so, whether your agency or the CBO will be responsible for completion of the activities. Parts I through III also provides an opportunity for you to propose innovative and impactful activities, as well as corresponding performance indicators and deliverables. The activities may include, but is not limited to, monitoring, preventing, testing, and linkage to and retention in care activities for the most vulnerable and underserved individuals living with, or at high risk for, HCV infection in collaboration with community-based organizations within the local health jurisdiction.

Travel Costs in Budget

The grant budget may include funds for staff to attend the following meetings, conferences, and trainings: California STD/HIV Controllers Association annual meeting, other statewide conferences for HCV. The amount of funds allocated for travel may be adjusted or redirected to another line item on a later date to accurately reflect actual planned trips.

Indirect Costs

Beginning with FY 2014/2015, the CDPH negotiated the Indirect Cost Rate (ICR) with each local health jurisdiction in an effort to standardize the rate. This rate is applied to all contracts that CDPH has with your agency. Please see the attached FY 2019/2020 ICR for your use in completing your budgets. Please note that most of the local health jurisdictions apply the ICR to the total personnel costs only. However, there are a few that apply the rate to the total direct costs (this includes personnel, benefits, operating expenses, travel, and subcontracts line items). Your ICR cannot exceed the negotiated amount, nor can the application of the ICR be changed. However, you may elect to reduce the published Indirect Cost Rate percentage or not include Indirect Costs in the budget.

Board of Resolution or Minute Order Requirements

All agreements with the local health jurisdictions must have a current Board of Resolution or Minute Order. If the grant is amended during the term of the agreement, a new Board of Resolution or Minute Order must be obtained unless the original resolution clearly states the allowance for amendments, extensions, and renewals to be approved without going through the Board of Supervisors.

At the beginning of FY 2018/2019, CDPH began using a new statewide financial management system that integrates budgeting, accounting, contracts, and procurement into one information technology system. Under this system, it is critical that the official name of your agency is used for the grant, as well as ensuring accuracy of the address where invoice payments are to be mailed. To ensure we have accurate information for your agency, we are requesting you complete the enclosed CDPH 9083, Government Agency Taxpayer Identification form.

Terms and Conditions and HIV Confidentiality Documents

In order to enhance coordination across CDPH programs and compliance with CDPH regulations and policies, the STD Control Branch has updated guidance documents associated with local assistance funding. Please see the attached Terms and Conditions and Exhibit B, Budget Detail and Payment Provision. Additionally, local health jurisdiction staff who work with client-level data will be required to sign confidentiality agreements to ensure appropriate handling and data security of STD/HIV data. As we move towards integration of the two programs, documents such as these will become more streamlined for local health jurisdictions.
