**Subject:** Laundromat Stabilization Legislation

This message is from outside the City email system. Do not open links or attachments from untrusted sources.

Dear Supervisors:

I was shocked to learn of the loss of so many laundromats in our city. Those of us who live in apartments which have no hookups for a washer/dryer either in our individual units or communally rely on laundromats for the basic human need for clean clothes, linens etc. Laundromats are part of the infrastructure for urban residents who live in multiunit buildings. Please support Supervisor Peskin's legislation!

Respectfully yours,  
Marla Knight
