

LEGISLATIVE DIGEST

[Health Code - Extending the Food Security Task Force]

Ordinance amending the Health Code to extend the sunset date of the Food Security Task Force by three years.

Existing Law

The Food Security Task Force is an advisory body that makes recommendations to the Board of Supervisors to increase participation in federally-funded food security programs. The Task Force also provides general advice and assistance to the Board regarding funding priorities, legislative action, and city policies on addressing hunger and enhancing the food security of San Francisco residents.

The Task Force will sunset and cease to exist in July 2015 unless the Board extends the Task Force.

Amendments to Current Law

The proposed ordinance would extend the existence of the Task Force until July 1, 2018. The Board could extend it further in 2018 by adopting another ordinance.
