MEMORANDUM

RULES COMMITTEE

SAN FRANCISCO BOARD OF SUPERVISORS

TO: Supervisor Hillary Ronen, Chair
Rules Committee

FROM: Victor Young, Assistant Clerk *Victor Young*

DATE: July 13, 2020

SUBJECT: **COMMITTEE REPORT, BOARD MEETING**
Tuesday, July 14, 2020

The following file should be presented as a **COMMITTEE REPORT** at the Board Meeting on Tuesday, July 14, 2020. This item was acted upon at the Rules Committee Meeting on Monday, July 13, 2020, at 10:00 a.m., by the votes indicated.

Item No. 29 File No. 200510

[Charter Amendment - Department of Sanitation and Streets, Sanitation and Streets Commission, and Public Works Commission]

Charter Amendment (Fourth Draft) to amend the Charter of the City and County of San Francisco to create the Department of Sanitation and Streets to succeed to specific duties currently performed by the Department of Public Works; to create a Sanitation and Streets Commission to oversee the Department of Sanitation and Streets; to create a Public Works Commission to oversee the Department of Public Works; and to require an annual performance audit and cost and waste analysis for both departments; and affirming the Planning Department's determination under the California Environmental Quality Act; at an election to be held on November 3, 2020.

RECOMMENDED AS A COMMITTEE REPORT

Vote: Supervisor Hillary Ronen - Aye
Supervisor Catherine Stefani - No
Supervisor Gordon Mar - Aye

c: Board of Supervisors
Angela Calvillo, Clerk of the Board
Alisa Somera, Legislative Deputy Director
Anne Pearson, Deputy City Attorney

1 [Charter Amendment - Department of Sanitation and Streets, Sanitation and Streets Commission,
2 and Public Works Commission]

3 **Describing and setting forth a proposal to the voters at an election to be held on November**
4 **3, 2020, to amend the Charter of the City and County of San Francisco to create the**
5 **Department of Sanitation and Streets to succeed to specific duties currently performed by**
6 **the Department of Public Works; to create a Sanitation and Streets Commission to oversee**
7 **the Department of Sanitation and Streets; to create a Public Works Commission to oversee**
8 **the Department of Public Works; and to require an annual performance audit and cost**
9 **and waste analysis for both departments; and affirming the Planning Department’s**
10 **determination under the California Environmental Quality Act.**

11
12 Section 1. The Planning Department has determined that the actions contemplated in this
13 proposed Charter Amendment comply with the California Environmental Quality Act (California
14 Public Resources Code Sections 21000 et seq.). Said determination is on file with the Clerk of
15 the Board of Supervisors in File No. 200510 and is incorporated herein by reference. The Board
16 affirms this determination.

17
18 Section 2. The Board of Supervisors hereby submits to the qualified voters of the City
19 and County, at an election to be held on November 3, 2020, a proposal to amend the Charter of
20 the City and County by revising Sections 3.104, 16.129, and F1.102, adding Sections 4.138,
21 4.139, and 4.141, and revising and renumbering Section 4.130 as Section 4.140, to read as
22 follows:

23 NOTE: **Unchanged Charter text and uncodified text** are in plain font.
24 **Additions** are *single-underline italics Times New Roman font*.
25 **Deletions** are ~~*strike-through italics Times New Roman font*~~.
Asterisks (* * * *) indicate the omission of unchanged Charter subsections.

1
2 **SEC. 3.104. CITY ADMINISTRATOR.**

3 * * * *

4 The City Administrator shall have power to:

5 6. With the concurrence of the Mayor, appoint and remove the directors of the
6 Departments of Administrative Services, Solid Waste, and Public Guardian/Administrator, ~~and~~
7 ~~Public Works~~, and such other department heads which are placed under ~~his or her~~ the City
8 Administrator's direction;

9 * * * *

10
11 **SEC. 4.138. DEPARTMENT OF SANITATION AND STREETS.**

12 (a) **Establishment.** There shall be a Department of Sanitation and Streets, which
13 shall come into existence three months after the Transition Date for the Sanitation and Streets
14 Commission in Section 4.139(d). The Department shall be headed by the Director of Sanitation
15 and Streets, who shall be qualified by either technical training or management experience in
16 environmental services or the maintenance, sanitation, or cleaning of public spaces; and shall
17 have a demonstrated knowledge of best practices regarding cleaning and maintenance of high-
18 traffic or publicly accessible areas. The Department shall assume all responsibilities previously
19 under the jurisdiction of the Department of Public Works that pertain to the duties specified in
20 subsection (b).

21 (b) **Duties.** Except as otherwise provided in the Charter or pursuant to Section
22 4.132, in addition to any other duties assigned by ordinance, the Department shall have the
23 following duties:

24 (1) efficient and systematic street sweeping, sidewalk cleaning, and litter
25 abatement;

- 1 (2) maintenance and cleaning of public restrooms in the public right of way;
2 (3) provision and maintenance of city trash receptacles;
3 (4) removal of illegal dumping and graffiti in the public right of way;
4 (5) maintenance of public medians, and of street trees in the public right of
5 way pursuant to section 16.129;
6 (6) maintenance of City streets and sidewalks;
7 (7) construction, repair, remodeling, and management services for City-
8 owned buildings and facilities; and
9 (8) control of pests on City streets and sidewalks.

10 The Board of Supervisors may limit, modify, or eliminate the duties set forth in
11 subsections (1) through (8), and may transfer any of those duties to the Department of Public
12 Works or other City departments, by ordinance approved by two-thirds of the Board. Nothing in
13 this Section 4.138 shall relieve property owners of the legal responsibilities set by local or State
14 law, including as those laws may be amended in the future.

15 (c) **Refuse Collection and Disposal Ordinance.** The Director of Sanitation and Streets
16 shall perform the responsibilities assigned to the Director of Public Works by the Refuse
17 Collection and Disposal Ordinance of November 8, 1932, as it may be amended from time to
18 time.

19 (d) **Administrative Support.** By no later than the Transition Date in Section 4.139(d),
20 the Board of Supervisors shall by ordinance require the City Administrator, the Department of
21 Public Works, and/or any other City department to provide administrative support for the
22 Department, which shall include but need not be limited to human resources, performance
23 management, finance, budgeting, technology, emergency planning, training, and employee safety
24 services. At any time more than two years and three months after the Transition Date, the Board
25

1 of Supervisors may adopt ordinances requiring the Department of Sanitation and Streets to
2 assume responsibility for some or all of that administrative support.

3 **(e) Transition.**

4 No later than the Transition Date in Section 4.139(d), the City Administrator shall submit
5 to the Board of Supervisors a proposed ordinance amending the Municipal Code, including but
6 not limited to the Public Works Code, to conform to Sections 3.104, 4.139, 4.140, 4.141, 16.129,
7 F1.102, and this Section 4.138, as adopted or amended by the voters at the November 3, 2020
8 election.

9
10 **SEC. 4.139. SANITATION AND STREETS COMMISSION.**

11 **(a) Purpose.** There is hereby established a Sanitation and Streets Commission. The
12 Commission shall set policy directives and provide oversight for the Department of Sanitation
13 and Streets.

14 **(b) Membership and Terms of Office.**

15 **(1)** The Commission shall consist of five members, appointed as follows:
16 Seats 1 and 2 shall be appointed by the Mayor subject to confirmation by the
17 Board of Supervisors. Each nomination shall be the subject of a public hearing and vote within
18 60 days. If the Board of Supervisors fails to act on a nomination within 60 days of the date the
19 nomination is transmitted to the Clerk of the Board of Supervisors, the nominee shall be deemed
20 confirmed. Seat 1 shall be held by a person who is a small business owner. Seat 2 shall be held
21 by a person with experience in project management.

22 Seat 3 shall be appointed by the Controller subject to confirmation by the Board
23 of Supervisors. The nomination shall be the subject of a public hearing and vote within 60 days.
24 If the Board of Supervisors fails to act on a nomination within 60 days of the date the nomination
25

1 is transmitted to the Clerk of the Board of Supervisors, the nominee shall be deemed confirmed.

2 Seat 3 shall be held by a person who has a background in finance and audits.

3 Seats 4 and 5 shall be appointed by the Board of Supervisors. Seat 4 shall be held
4 by a person who has a background in either urban forestry, urban design, or environmental
5 services. Seat 5 shall be held by a person with significant experience in cleaning and
6 maintaining public spaces.

7 (2) Members of the Commission shall serve four-year terms; provided,
8 however, the term of the initial appointees in Seats 1 and 4 shall be two years.

9 (3) Members may be removed at will by their respective appointing officer.

10 (c) Duties. With regard to the Department of Sanitation and Streets, beginning three
11 months after the Transition Date in subsection (d), the Commission shall exercise all the powers
12 and duties of boards and commissions set forth in Sections 4.102, 4.103, and 4.104, and may
13 take other actions as prescribed by ordinance. In addition, the Commission shall:

14 (1) review and evaluate data regarding street and sidewalk conditions,
15 including but not limited to data collected by the Department, and annual reports generated by
16 the Controller;

17 (2) establish minimum standards of cleanliness for the public right of way,
18 and set baselines for services to be administered by the Department;

19 (3) approve all contracts proposed to be entered into by the Department,
20 provided that the Commission may delegate this responsibility to the Director of the Department,
21 or the Director's designee;

22 (4) perform an annual cost analysis evaluating whether there are
23 inefficiencies or waste in the Department's administration and operations; and

24 (5) perform an annual review on the designation and filling of Department
25 positions, as exempt, temporary, provisional, part-time, seasonal or permanent status, the

1 number of positions that are vacant, and at the Commission's discretion, other data regarding
2 the Department's workforce. This function shall not in any way limit the roles of the Civil
3 Service Commission or the Department of Human Resources under the Charter.

4 (d) Transition provisions.

5 (1) The Commission shall come into existence on the Transition Date, which
6 shall be established by the Board of Supervisors by written motion adopted by a majority vote of
7 its members, provided that the Transition Date shall be no earlier than July 1, 2022. The Board
8 of Supervisors shall vote on a written motion to establish the Transition Date no later than
9 January 1, 2022. If the Board of Supervisors fails to adopt such a motion by January 1, 2022,
10 the Clerk of the Board of Supervisors shall place such a motion on the agenda of a Board of
11 Supervisors meeting at least once every three months thereafter until such time as the Board of
12 Supervisors adopts a motion establishing the Transition Date. The Mayor, Board of
13 Supervisors, and Controller shall make initial appointments to the Commission by no later than
14 three months before the Transition Date. The terms of all five members shall commence at noon
15 on the Transition Date.

16 (2) The Commission shall have its inaugural meeting by no later than 30 days
17 after three members of the Commission have assumed office.

18 (3) The Director of Public Works or person serving in an acting capacity as
19 Director of Public Works, at the time the Commission comes into existence, shall perform the
20 duties of the Director of the Department of Sanitation and Streets in an acting capacity until the
21 Commission appoints a new Director in accordance with the Charter provisions governing
22 appointment of a department head serving under a commission.

1 **SEC. ~~4.1404.130~~. DEPARTMENT OF PUBLIC WORKS.**

2 Except as otherwise specified in the Charter, including in Section 4.138(b)(7), ~~The duties~~
3 ~~and functions~~ of the Department of Public Works shall *design, build, and improve the City's*
4 *infrastructure and public right of way, and assume any other duties* ~~be assigned by the City~~
5 ~~Administrator~~, by ordinance or pursuant to Section 4.132. *The Department shall be headed by*
6 *the Director of Public Works, who shall be qualified by either technical training or management*
7 *experience in engineering or architecture.*

8
9 **SEC. 4.141. PUBLIC WORKS COMMISSION.**

10 (a) **Purpose.** There is hereby established a Public Works Commission. The
11 Commission shall set policy directives and provide oversight for the Department of Public
12 Works.

13 (b) **Membership and Terms of Office.**

14 (1) The Commission shall consist of five members, appointed as follows:
15 Seats 1 and 5 shall be appointed by the Board of Supervisors. Seat 1 shall be held
16 by a registered professional engineer licensed in the State of California, with a background in
17 civil, mechanical, or environmental engineering, and Seat 5 shall be an at-large position.

18 Seats 2 and 4 shall be appointed by the Mayor subject to confirmation by the
19 Board of Supervisors. Each nomination shall be the subject of a public hearing and vote within
20 60 days. If the Board of Supervisors fails to act on a nomination within 60 days of the date the
21 nomination is transmitted to the Clerk of the Board of Supervisors, the nominee shall be deemed
22 confirmed. Seat 2 shall be held by a registered architect licensed in the State of California, and
23 Seat 4 shall be an at-large position.

24 Seat 3 shall be held by a person with a background in finance with at least 5
25 years in auditing experience, appointed by the Controller subject to confirmation by the Board of

1 Supervisors. The nomination shall be the subject of a public hearing and vote within 60 days. If
2 the Board of Supervisors fails to act on a nomination within 60 days of the date the nomination is
3 transmitted to the Clerk of the Board of Supervisors, the nominee shall be deemed confirmed.

4 (2) Members of the Commission shall serve four-year terms; provided,
5 however, the term of the initial appointees in Seats 1, 3, and 5 shall be two years.

6 (3) Commissioners may be removed from office at will by their respective
7 appointing authority.

8 **(c) Powers and Duties.**

9 (1) With regard to the Department of Public Works, beginning on September
10 1, 2022, the Commission shall exercise all the powers and duties of boards and commissions set
11 forth in Sections 4.102, 4.103, and 4.104, and may take other actions as prescribed by
12 ordinance.

13 (2) The Commission shall oversee the Department's performance, including
14 evaluation of data collected by the Department, the Controller, and other City agencies.

15 (3) The Commission shall approve all contracts proposed to be entered into
16 by the Department, provided that the Commission may delegate this responsibility to the
17 Director of Public Works, or the Director's designee.

18 (4) The Commission shall require the Director of Public Works, or the
19 Director's designee, to provide the Commission with proof of adequate performance of any
20 contract entered into by the Department for public works involving the City's infrastructure or
21 public right of way, based on written documentation including documentation that the building
22 official has issued a building or site permit and a final certificate of occupancy.

23 (5) The Commission shall perform an annual review on the designation and
24 filling of Department positions, as exempt, temporary, provisional, part-time, seasonal or
25 permanent status, the number of positions that are vacant, and at the Commission's discretion,

1 other data regarding the Department's workforce. This function shall not in any way limit the
2 roles of the Civil Service Commission or the Department of Human Resources under the
3 Charter.

4 (d) **Transition provisions.**

5 (1) The Mayor, Board of Supervisors, and Controller shall make initial
6 appointments to the Commission by no later than the Appointment Deadline, which shall be
7 either noon on June 1, 2022, or an earlier date established by the Board of Supervisors by
8 written motion adopted no later than January 1, 2022 by a majority vote of its members. The
9 Commission shall come into existence either at noon on the 31st day after the Appointment
10 Deadline, or at noon on the date that three members of the Commission have assumed office,
11 whichever is later. The terms of all five members shall commence at noon on the 31st day after
12 the Appointment Deadline, regardless of when the Commission comes into existence.

13 (2) The Commission shall have its inaugural meeting by no later than three
14 months after the terms of the initial members begin.

15 (3) The Director of Public Works at the time the Commission comes into
16 existence shall remain in that position unless removed from it in accordance with the Charter
17 provisions governing removal of a department head serving under a commission. If a person is
18 serving in an acting capacity as Director at the time the Commission comes into existence, the
19 preceding sentence applies, except that the position shall also be considered vacant for purposes
20 of the next sentence. If the position of Director is vacant for any reason, including removal of
21 the incumbent Director, the position shall be filled in accordance with the Charter provisions
22 governing appointment of a department head serving under a commission. In that event, a
23 person removed from the position under the first sentence of this subsection may be considered
24 for appointment to the position.

1 **SEC. 16.129. STREET TREE MAINTENANCE.**

2 (a) Definitions. For purposes of this Section 16.129:

3 * * * *

4 “Maintenance” (and its root “Maintain”) shall mean those actions necessary to
5 promote the life, growth, health, or beauty of a Tree. Maintenance includes both routine
6 maintenance and major maintenance. Routine maintenance includes adequate watering to ensure
7 the Tree’s growth and sustainability; weed control; removal of Tree-well trash; staking;
8 fertilizing; routine adjustment and timely removal of stakes, ties, Tree guards, and Tree grates;
9 bracing; and Sidewalk repairs related to the Tree’s growth or root system. Major maintenance
10 includes structural pruning as necessary to maintain public safety and to sustain the health,
11 safety, and natural growth habit of the Tree; pest and disease-management procedures as needed
12 and in a manner consistent with public health and ecological diversity; and replacement of dead
13 or damaged Trees. Pruning practices shall be in compliance with International Society of
14 Arboriculture Best Management Practices and ANSI Pruning Standards, whichever is more
15 protective of Tree preservation, or any equivalent standard or standards selected by the Director
16 of the Department of Sanitation and Streets~~Public Works~~.

17 * * * *

18 “Street Tree” shall mean any Tree growing within the public right-of-way, including
19 unimproved public streets and Sidewalks, and any Tree growing on land under the jurisdiction of
20 the Department of Public Works or the Department of Sanitation and Streets. “Street Tree” does
21 not include any other forms of landscaping.

22 * * * *

23 (g) Beginning in fiscal year 2018-2019, the City may suspend growth in the City’s \$19
24 million contribution to the Fund under subsection (f) of this Section 16.129 if the City’s
25 projected budget deficit for the upcoming fiscal year at the time of the Joint Report or Update to

1 the five-year financial plan as prepared jointly by the Controller, the Mayor’s Budget Director,
2 and the Board of Supervisors’ Budget Analyst exceeds \$200 million adjusted annually by
3 changes in aggregate discretionary revenues as defined in subsection (f) of this Section 16.129.

4 (h) Administration and Use of the Fund. The Department of Sanitation and
5 StreetsPublic Works shall administer the Fund. Monies in the Fund shall only be used for the
6 following purposes:

- 7 (1) Maintenance and Removal of Street Trees;
- 8 (2) Necessary costs of administering the Fund; and
- 9 (3) Making grants totaling up to \$500,000 annually to the San Francisco Unified
10 School District exclusively to fund Maintenance and Removal of Trees on School District
11 property.

12 * * * *

13 (i) Annual Reports. Commencing with a report filed no later than January 1, 2019,
14 covering the fiscal year ending June 30, 2018, the Department of Sanitation and StreetsPublic
15 Works shall file annually with the Board of Supervisors, by January 1 of each year, a report
16 containing the amount of monies collected in and expended from the Fund during the prior fiscal
17 year, and such other information as the Director of the Department of Sanitation and
18 StreetsPublic Works, in the Director’s sole discretion, shall deem relevant to the operation of this
19 Section 16.129.

20 * * * *

21
22 **F1.102. STREET, SIDEWALK, AND PARK CLEANING AND MAINTENANCE.**

23 (a) The Services Audit Unit shall conduct annually a performance audit of the City's
24 street, sidewalk, and public park maintenance and cleaning operations. The annual audit shall:
25

1 (1) Include quantifiable, measurable, objective standards for street, sidewalk,
2 and park maintenance, to be developed in cooperation and consultation with the Department of
3 Sanitation and Streets, the Department of Public Works, and the Recreation and Park
4 Department;

5 * * * *

6 (b) The Services Audit Unit shall conduct annually a cost and waste analysis evaluating
7 whether there are inefficiencies or waste in the administration and operations of the Department
8 of Sanitation and Streets, and the Department of Public Works or inefficiencies or waste in the
9 division of labor between the two departments. The annual audit shall make quantifiable,
10 measurable recommendations for the elimination of inefficient operations and functions, and
11 shall include:

12 (1) Consolidation of duplicative and overlapping activities and functions;

13 (2) Integration and standardization of information maintenance systems that
14 promote interdepartmental sharing of information and resources;

15 (3) Departmental accounting for expenditure of resources in terms of effectiveness
16 of the service or product delivered;

17 (4) Departmental deployment and utilization of personnel, the City's personnel
18 procurement system, and reforms to enhance the quality of work performance of public
19 employees; and

20 (5) Methods of operation to reduce consumption and waste of resources.

21 (b~~c~~) In addition, all City agencies engaged in street, sidewalk, or park maintenance
22 shall establish regular maintenance schedules for streets, sidewalks, parks and park facilities,
23 which shall be available to the public and on the department's website. Each such department
24 shall monitor compliance with these schedules, and shall publish regularly data showing the
25 extent to which the department has met its published schedules. The City Services Audit Unit

1 shall audit each department's compliance with these requirements annually, and shall furnish
2 recommendations for meaningful ways in which information regarding the timing, amount and
3 kind of services provided may be gathered and furnished to the public.

LEGISLATIVE DIGEST

Revised 07/09/20

[Charter Amendment - Department of Sanitation and Streets, Sanitation and Streets Commission, and Public Works Commission]

Describing and setting forth a proposal to the voters at an election to be held on November 3, 2020, to amend the Charter of the City and County of San Francisco to create the Department of Sanitation and Streets to succeed to specific duties currently performed by the Department of Public Works; to create a Sanitation and Streets Commission to oversee the Department of Sanitation and Streets; to create a Public Works Commission to oversee the Department of Public Works; and to require an annual performance audit and cost and waste analysis for both departments; and affirming the Planning Department's determination under the California Environmental Quality Act.

Existing Law

Under the Charter, the Department of Public Works' responsibilities are determined by the City Administrator and include the responsibility for maintaining and cleaning the public right of way.

Charter section 4.102 provides that a commission of the executive branch has the responsibility to formulate, evaluate and approve goals, set policies, develop Annual Statements of Purpose for the departments under its jurisdiction, and approve departmental budgets.

Charter section F1.102 provides that the City Auditor shall develop quantifiable, measurable, objective standards for street, sidewalk, and park maintenance in consultation with the Department of Public Works.

Amendments to Current Law

This Charter amendment would remove the Department of Public Works from the purview of the City Administrator. The amendment would create a new Public Works Commission which would have oversight over the Department of Public Works. At the same time, the responsibilities for cleaning and maintaining the public right of way, and certain other responsibilities such as the maintenance of street trees in the public right of way would be transferred to a newly created Department of Sanitation and Streets. The new Department would also be responsible for maintaining City buildings. The amendment would also create a Sanitation and Streets Commission which would have oversight responsibilities over the new Department of Sanitation and Streets. The Charter amendment would also require the Controller's office to complete an annual performance audit and cost and waste analysis for both departments.

RE: File 200510 – Charter amendment to create a Public Works Commission and to create the Sanitation and Streets Department and Sanitation and Streets Commission

Dear Ms. Calvillo,

Should the proposed Charter amendment be approved by the voters, in my opinion, it would have a significant impact on the cost of government beginning in fiscal year 2022-23, ranging from \$2.5 million to \$6 million annually. This estimate does not include changes to current service levels. The measure permits the Board of Supervisors to delay portions of the measure's implementation, which could defer a portion of these costs until a later date.

The proposed Charter amendment would create a new Department of Sanitation and Streets to perform specific duties currently performed by the Department of Public Works. The amendment would shift approximately 835 of 1,711 full-time equivalent employees currently working for Public Works to the new Sanitation and Streets Department.

Decoupling shared administrative services would necessitate a 10-25 percent increase in staffing for these functions for the loss of efficiency with shared services. However, the amendment requires the Board of Supervisors to require the City Administrator, Department of Public Works, and/or other City departments to provide administrative services for the Department of Sanitation and Streets for at least the first two years and three months of the amendment's implementation. New positions for the Department of Sanitation and Streets include a department head, public information officer, chief administrative officer, and managers for contracts, performance, and information technology to manage the administrative services provided by other departments. Costs would likely increase in future years if the Board authorized independent administrative support for the new department, which is permitted following this initial implementation period.

The amendment would also create two new five-member commissions: one to oversee the existing Department of Public Works and one to oversee the new Sanitation and Streets Department. Costs would include commission secretary, commissioner compensation, and costs such as preparing public materials.

Finally, the amendment also allows the Board of Supervisors to limit, modify, or eliminate duties of the Department of Sanitation and Streets by two-thirds vote and transfer those services to other City departments.

Sincerely,

Natasha Mikal

FOR Ben Rosenfield
Controller

RE: File 200510 – Charter amendment to create a Public Works Commission to oversee the Department of Public Works and to create the Sanitation and Streets Department to create a Sanitation and Streets Commission to oversee the new Sanitation and Streets Department

Dear Ms. Calvillo,

Should the proposed Charter amendment be approved by the voters, in my opinion, it would have a significant impact on the cost of government, ranging from \$4 million to \$10 million annually beginning September 2021 depending on future implementation decisions. Possible amendments to the proposed Charter amendment would affect the ultimate costing analysis.

The proposed Charter amendment would create a new Sanitation and Streets Department to perform specific duties currently performed by the Department of Public Works. The amendment would shift approximately 835 of 1,711 full-time equivalent employees currently working for Public Works to the new Sanitation and Streets Department.

Decoupling shared administrative services would necessitate a 10-25 percent increase in staffing for these functions for the loss of efficiency with shared services. These new positions would include adding managers and staff for information technology and systems, finance and budgeting, human resources, safety, training, and communications functions, as well as a new department head and support staff. Other ongoing and one-time costs for splitting shared services would include office space, technology infrastructure and systems, public-facing websites redesign and re-branding of Public Works vehicles.

The amendment would also create two new five-member commissions: one to oversee the existing Department of Public Works and one to oversee the new Sanitation and Streets Department. Costs would include commission secretary, commissioner compensation, and costs such as preparing public materials.

Sincerely,

Natasha Mihal

RE: **Amended Meeting Notice for Proposed Charter Amendment – Public Works Commission, Sanitation and Streets Commission, and Sanitation and Streets Department (BOS File No: 200510)**

Dear Labor Colleagues,

On May 19, 2020 Supervisor Matt Haney introduced a proposed Charter Amendment to create a Public Works Commission with oversight over the Department of Public Works; and, the creation of a Sanitation and Streets Department with oversight by a new Sanitation and Streets Commission to be placed on the November 3, 2020 ballot. Copies of the proposed Charter Amendment and its accompanying digest are enclosed, and more information can be found at the link below:

<https://sfgov.legistar.com/View.ashx?M=F&ID=8450376&GUID=2F0F97FC-5290-45E2-BE7F-967BA0BBD0F8>

This Charter amendment would remove the Department of Public Works from the purview of the City Administrator. The amendment would create a new Public Works Commission which would have oversight over the Department of Public Works. At the same time, the responsibilities for cleaning and maintaining the public right of way, and certain other responsibilities such as the maintenance of street trees in the public right of way would be transferred to a newly created Department of Sanitation and Streets. The new Department would also be responsible for maintaining City buildings. The amendment would also create a Sanitation and Streets Commission which would have oversight responsibilities over the new Department of Sanitation and Streets. The new Department and Commission would have a focus on street cleaning, including measurement of the City's performance using objective metrics.

The City is providing this notice and an opportunity to meet and confer on the proposed Charter Amendment. Due to the COVID-19 pandemic and public health orders, including the shelter-in-place orders, the City offers to meet remotely, by videoconference. The City is available on **June 10, 2020 from 3:30-5:00pm** to initiate this process. The Employee Relations Division will send an invitation for the meeting.

Attachments: Charter Amendment – Public Works Commission, Sanitation and Streets Commission, and Sanitation and Streets Department
(BOS File No: 200510)

Supervisor Hillary Ronen
Chair of the Rules Committee
City Hall
1 Dr. Carlton B. Goodlett Place, Room 244
San Francisco, Ca 94102-4689

Chair Ronen,

The proposed Charter Amendment to split Public Works (File #200510) would add a significant cost to City government with no certainty of achievable benefits. As the legislation moves forward, I want to make sure the department has the opportunity to put our concerns on the record.

Increasing Transparency and Accountability

First, let me emphasize that I enthusiastically support increased transparency and accountability for Public Works. There is no doubt that the scandal involving the former director damaged public trust in the department. Since I joined the department in January, my top priority has been to restore that trust. The department moved quickly to enact new policies that bolster safeguards and transparency over contracting and grants. We have been fully cooperating with the City Attorney and City Controller's investigations. It is important to note that, to date, there has been no indication of systematic or widespread corruption in the department. The probes continue to focus on the former director and his relationships outside his official duties. Where there were departmental failures, we have moved to address them – not reluctantly but with a fervency to do better.

As has been the case since I assumed this job, I welcome the opportunity to come before the Board of Supervisors to answer questions and report out on our work to boost transparency and accountability.

Spinning off a new Department of Sanitation from Public Works – having two departments take on the work now performed by one – comes with a significant cost yet does not increase spending on street cleaning.

As you have heard, the Controller has estimated that the added financial burden on the City would be \$4 million to \$10 million annually – primarily for the needed administrative, management and support staff to run two departments. The \$4 million estimate, on the low end, would leave the City with two bare-bones departments with inadequate support to address the challenges facing the City.

San Francisco Faces an Unprecedented \$1.7 Billion Budget Deficit

The proposal comes as the City braces for a projected \$1.7 billion budget shortfall over the next two years – a number that the City Controller has warned very well could worsen due to the COVID-19 pandemic. Even if the start of the proposed charter amendment is delayed two years, as the sponsor proposes, financial forecasters say that it could take many more years before San Francisco regains a solid financial footing. Spending millions of dollars on new management and administrative staff will not make the City cleaner or greener.

London N. Breed
Mayor

Alaric Degrafinried
Acting Director

San Francisco Public Works
1 Dr. Carlton B. Goodlett Pl.
Room 348
San Francisco, CA 94102
tel 415-554-6920

sfpublicworks.org
facebook.com/sfpublicworks
twitter.com/sfpublicworks

For \$4 million, the City could fill more than 17,000 potholes, open eight new staffed Pit Stop public toilets or pave more than 70 blocks in one year. For \$10 million, the City could plant 5,000 new trees, hire 62 new street cleaners or create more than 180 new shelter beds. And remember, that is every year. The estimated \$4 million to \$10 million cost to operate two departments is an annual amount.

Loss of Efficiency

Public Works is responsible for the design, construction and maintenance of the City's right of way and public buildings, such as fire stations and neighborhood health clinics. The proposed charter amendment would split off operations and maintenance from design and construction. That split would cause a major loss of financial and operational efficiency, coordination and responsiveness.

Operations currently participates in design review and works as a design-build team with Engineering and Architecture. Our Engineering and Landscape Architecture design staff coordinate with Street Cleaning and Urban Forestry to review new streetscape designs for maintenance needs. Street Cleaning reviews and provides feedback on design impacts on cleaning and mechanical sweeping, and Urban Forestry reviews tree and landscape planting plans for future maintenance.

Our Bureau of Architecture together with the Bureau of Building Repair, which is within the Operations Division, are an in-house design-build team that effectively and quickly responds to urgent building needs – without the need to contract out services or set up inter-department MOUs. For example, they were able to work together to quickly build safe sleeping sites, COVID testing centers and the majority of the City's Navigation Centers.

Our Street Repair and Cement Shop branches, also within Operations, work as a design-build team with Engineering to implement pressing Vision Zero projects, such as the Townsend and Valencia protected bike lanes. The Cement Shop also works with Engineering to design and build the most complicated curb ramps to improve accessibility in the City. If there are unusual conditions in the field, we can do the work in-house and avoid costly change-orders from a contractor. Engineering also relies on the Cement Shop to implement quick fixes for street structures, such as stairways and bridges. They can quickly make hazards safe while it might take weeks to get a contract in place, or months if you consider dual commission approvals.

Our Engineering Division supports our Operations Division with \$10 million in paving work and \$6 million in curb ramp work annually. If the department were split, the Administrative code requires that such work be sent out to bid to private contractors. The work no longer would be done by civil service staff. We prioritize keeping some work in-house because we value having experienced staff on hand to respond quickly when needed. Those jobs and that in-house expertise are at risk if this plan moves forward.

Departments develop their own priorities and preferences. Negotiating projects and policies between the three agencies that currently have jurisdiction in the public right of way – Public Works, SFPUC and SFMTA – already takes an additional amount of time and money. Adding another department to the equation would result in even more delays and wasted City funds on negotiating MOUs and service orders.

Street Cleanliness

There has been a lot of discussion about cleanliness. Chair Ronen, you mentioned the daily emails you get about tents, feces, urine and needles. I get those emails, too. If this proposal would actually address those issues I would be in full support. The reality is that changing the organizational structure of one department is not going to do anything to address the root causes of these very complex issues, among them poverty, mental health and addiction.

Public Works already is laser-focused on street cleaning, with a 24/7 operation that removes approximately 1 million pounds of trash from the streets every week. We are open to innovation and new ideas to address the challenges. The Pit Stops and Hot Spots teams are just two examples. But until we more effectively address the crisis on our streets and the bad behavior of the people who litter, dump and tag in our City, we will not see a noticeable difference in the cleanliness of the City. The Tenderloin is a prime example. Every sidewalk is swept by 9 a.m. every day. Our crews, as well as our nonprofit partners, pick up litter at intervals throughout the day, and the Community Benefit District provides regular steam cleaning services on top of Public Works daily steam cleaning in the neighborhood to address human and dog waste. And yet the challenges persist.

That said, we also can look to the Tenderloin for what's possible. In recent weeks, there has been a coordinated effort to move hundreds of people from sidewalk encampments into safe sleeping sites and hotel rooms. There has been a noticeable improvement in the cleanliness of the neighborhood. And as long as we can keep people from re-encamping, I expect the situation to continue improving.

The proposed charter amendment would not create a department focused solely on street cleaning. Under this proposal, the Director of Sanitation of Streets would oversee at least five divisions: Street Cleaning, Urban Forestry, Street Repair, Building Repair and, presumably, Administration. The Director of the truncated Public Works department would oversee three divisions: Building Design and Construction, Infrastructure Design and Construction and Administration.

Over the last several weeks, the sponsor of the proposed Charter Amendment has made assertions repeatedly that most large cities have a separate department of sanitation. We did some research and found that of the 20 largest cities in the country, only four had a stand-alone department of sanitation. These four also were linked with municipal garbage collection, which we do not do here. Fifteen of the 20 departments had cleaning, operations, maintenance and design and construction in the same department. We also reached out to the accreditation manager with the American Public Works Association who agreed that street cleaning is a function of Public Works in the majority of departments she has worked with around the country. We also sent an inquiry out to accredited Public Works agencies nationwide. We received nearly 50 responses from 16 states and all of them had street cleaning as a function of Public Works. Including street cleaning with design and construction is a time-tested national model that makes logistical and financial sense.

Impact on Overhead Rates

There are important nuances of our budget and organization that were not considered in the development of this legislation. For example, Public Works has an indirect cost model where administrative staff time is charged as an overhead rate to projects to save the General Fund money. With two smaller departments we still need support positions, but we will not be able to spread their cost over as many people doing the work. Each service position would be supporting a greater percentage of that administrative overhead. As a result, the services of the architects and engineers in the new Public Works would become more expensive and less competitive as compared to private firms.

Other City agencies, such as the Department of Public Health, the San Francisco Public Library and the Recreation and Park Department, which use our services to construct their facilities, would have a stronger incentive to contract out design and construction management work, possibly leading to fewer City employees performing that work. If this were to occur, the City would lose the in-house expertise and experience that comes from 100 years of designing and building City infrastructure and buildings. More work would be done by contractors and consultants and less would be done by unionized civil servants.

The proposed charter amendment was drafted without consulting Public Works management or having a detailed understanding of the department's operations and finances.

I want to make clear that I and the Public Works leadership team are invested in process improvement and welcome the opportunity to be better, more transparent and more accountable. For the past six months we have taken steps to improve the organization through a deliberative, reasoned and responsible approach. Again, I want to express my commitment and eagerness to work with the Board of Supervisors on oversight, accountability and setting baselines of service to improve the cleanliness of San Francisco. But this proposal does not address the problems it sets out to solve and will cost millions of dollars annually that we cannot afford.

Sincerely,

A handwritten signature in blue ink, appearing to read "Alaric Degrafinried". The signature is fluid and cursive, with a large loop at the end.

DATE: June 29th 2020

Dear Honorable Supervisors,

My name is Almudena and I have been working for the SF Rec and park Department for 12 years. I love our City and the Citizens we serve. It is beyond disappointing to see San Francisco in the headlines of international newspapers because of the conditions of our streets, but it is even more disappointing to see that our city's leadership has been engaging in serious fraud and corruption and that the FBI is involved. The workers have struggled under years of corruption and now must live with the stigma it has created. They filed complaints and whistleblowers for years which never resulted in change and many times made them a target. Our system is broken! We know that there is no real oversight of the Department of Public Works. Unlike other departments there is no system of accountability to an independent commission or anyone really watching the shop. We desperately need a Commission that can make sure that proper standards are being met and that the workers voices are being heard.

That is why I am writing in support of Matt Haney's charter amendment to finally put some common sense cleaning laws on the books and to provide what is clearly some much needed oversight to one of our city's most mismanaged departments. I urge you, to please vote in support of this legislation! Please support this charter amendment and help us!

I urge you to please vote in support of this legislation.

Thank you.

Sincerely,
Almudena Martin

Dear Honorable Supervisors,

My name is Matt Swagler and I have been working for the SF Rec and Park for 3 years. I understand that the budget is tight, but I think that Haney's proposal to split public works and establish oversight is the only way to ensure accountability. The status quo hasn't been working and it's going to take a lot of work to turn it around. Clearly the current amount of oversight hasn't been enough to discourage corruption. I take pride in my work and serving the city. Our workers deserve to take pride in the organization they represent. Our residents deserve to take pride in the services they are paying for. We are losing tourism in a major way because of the state of the streets. The committee will pay for itself with the amount of money it redirects to the right place. Thanks for your time.

San Francisco, CA. 94102

RE: 200510: CHARTER AMENDMENT - PUBLIC WORKS COMMISSION, SANITATION
AND STREETS COMMISSION, AND SANITATION AND STREETS DEPARTMENT

Dear Supervisors:

I am writing on behalf of the Bayanihan Equity Center (BEC) to convey my support for Sup. Haney's Charter Amendment which will create a Department of Sanitations and Streets.

BEC has been serving the community for over 20 years. The center is located in the heart of the South of Market at the corner of 6th and Mission Streets. Over the years, the filth in the SoMa neighborhood has gotten worse. The human waste, used needles and trash on the sidewalks and streets has become a public health issue especially during these times when residents and workers have heightened fears about the spread of infectious disease. The condition of the sidewalks and streets are especially problematic during BEC's food distribution days. Forcing our pantry participants to line up for food in the midst of trash and human waste is demoralizing.

Sup. Haney's proposal will make a huge impact on the quality of life for San Francisco residents and workers alike. The Department of Sanitations and Streets will ensure that streets and sidewalks are cleaned, trash cans are available, and public bathrooms are accessible for the community.

I strongly encourage the members of the San Francisco Board of Supervisors to consider the creation of the Department of Sanitations and Streets for a clean and safe city.

Very truly yours,

A handwritten signature in blue ink, appearing to read "Luisa M. Antonio".

Luisa M. Antonio
Executive Director

OFFICE OF THE CONTROLLER
CITY AND COUNTY OF SAN FRANCISCO

Ben Rosenfield
Controller
Todd Rydstrom
Deputy Controller

Ms. Angela Calvillo
Clerk of the Board of Supervisors
1 Dr. Carlton B. Goodlett Place Room 244
San Francisco, CA 94102-4689

July 6, 2020

RE: File 200510 – Charter amendment to create a Public Works Commission to oversee the Department of Public Works and to create the Sanitation and Streets Department to create a Sanitation and Streets Commission to oversee the new Sanitation and Streets Department

Dear Ms. Calvillo,

Should the proposed Charter amendment be approved by the voters, in my opinion, it would have a significant impact on the cost of government beginning in fiscal year 2022-23, ranging from \$4 million to \$10 million annually, depending on future implementation decisions. The amendment allows the Board of Supervisors to require other departments to provide administrative support to the new department which could, if adopted, reduce the estimated cost. This estimate does not include changes to current service levels.

The proposed Charter amendment would create a new Department of Sanitation and Streets to perform specific duties currently performed by the Department of Public Works. The amendment would shift approximately 835 of 1,711 full-time equivalent employees currently working for Public Works to the new Sanitation and Streets Department. The amendment also allows the Board of Supervisors to limit, modify, or eliminate duties of the Department of Sanitation and Streets by two-thirds vote and transfer those services to other City departments.

Decoupling shared administrative services would necessitate a 10-25 percent increase in staffing for these functions for the loss of efficiency with shared services. These new positions would include adding managers and staff for information technology and systems, finance and budgeting, human resources, safety, training, and communications functions, as well as a new department head and support staff. Other ongoing and one-time costs for splitting shared services would include office space, technology infrastructure and systems, public-facing websites redesign and re-branding of Public Works vehicles.

The amendment requires any department performing public works or improvements in City streets, sidewalks, or City-owned buildings or facilities to first request the Department of Sanitation and Streets to perform the work, rather than contracting this work out. This requirement could increase the cost to government.

The amendment would also create two new five-member commissions: one to oversee the existing Department of Public Works and one to oversee the new Sanitation and Streets Department. Costs would include commission secretary, commissioner compensation, and costs such as preparing public materials.

Sincerely,

Ben Rosenfield
Controller

Note: This analysis reflects our understanding of the proposal as of the date shown. At times further information is provided to us which may result in revisions being made to this analysis before the final Controller's statement appears in the Voter Information Pamphlet.

Hello,

I am writing in support of Supervisors Haney, Ronen, Walton, Preston, and Mar's Charter Amendment that would finally address the state of our streets and to create oversight commissions for the Department of Public Works and the new Department of Sanitation and Streets.

San Francisco is one of the only major cities in America *without* a Department of Sanitation.

Especially during the time of COVID-19 and heightened fears about the spread of infectious disease, creating a new Department of Sanitation and Streets is common sense: it is a solution to keep our city clean with data-driven decision making and real accountability and oversight. The new department will be dedicated to making sure our streets and sidewalks are cleaned, that we have trash cans for litter, and that we have public bathrooms available for people to use.

The Department of Sanitation and Streets will make a huge impact on our streets and the quality of life for all San Franciscans. While our streets continue to get more dirty, the current department tasked with street cleaning has been full of fraud and corruption. We need oversight and we need it now.

Please support Supervisor Haney's charter amendment. Our city needs this change now!

Thank you,
Jiwoo Song

I would like to comment on this:

Charter Amendment – Sanitation and Streets Department, Sanitation and Streets Commission, and Public Works Commission" I feel that if implemented this would be eliminating numerous opportunities to the small local businesses. Many of these opportunities like street cleaning, sidewalk repairs, etc, that could normally be designated as micro-set asides, would cease to exist, as they would be absorbed by DPW.

I ask you if you can **SLOW DOWN** this process, and allow for more data to be collected on how this will impact MicroLBEs and LBEs in San Francisco.

Thank you,

Hello Mayor Breed, Board of Supervisors and legislative aides,

I am writing in support of Supervisors Haney, Ronen, Walton, Preston, and Mar's Charter Amendment that would create a new Department of Sanitation and Streets and to create oversight commissions for the Department of Public Works and the new Department of Sanitation and Streets.

I live on the corner of Larkin and Olive in the Tenderloin, and I experience the filthy condition of our streets and sidewalks every day. In addition to the weekly power washing performed by the Tenderloin Community Benefit District, my HOA pays \$9,000 a year to have our sidewalks power washed weekly. While power washing helps for a while, it's merely an extremely expensive, laborious and temporary band-aid, and does nothing to address the root cause of our filthy public spaces.

Especially during the time of COVID-19 and heightened fears about the spread of infectious disease, creating a new Department of Sanitation and Streets is common sense: it is a solution to keep our city clean with data-driven decision making and real accountability and oversight. The new department will be dedicated to making sure our streets and sidewalks are cleaned, that we have trash cans for litter, and that we have public bathrooms available for people to use.

In addition to the enormous quality of life improvements that clean streets and sidewalks would bring, we need to prevent and eliminate the corruption that has plagued DPW for so

long. This amendment will add oversight committees to both DPW and the new department so we can avoid the corruption our city is so unfortunately infamous for.

Please support Supervisor Haney's charter amendment. Our city needs this change now!

Thank you,

Drew McDaniel

Importance: High

This message is from outside the City email system. Do not open links or attachments from untrusted sources.

Dear Board of Supervisors,

I have concerns in relation to *Charter Amendment – Sanitation and Streets Department, Sanitation and Streets Commission, and Public Works Commission*. **This Charter amendment would have negative impacts on some of the smallest businesses in San Francisco's public works and construction community, who participate in the City's Chapter 14B LBE Program.**

In section 4.139b of the current draft of the Charter Amendment, it states..."the Department shall have the following duties: (1) efficient and systematic street sweeping, sidewalk cleaning, maintenance and cleaning of public restrooms in the public right of way, and litter abatement; (2) provision and maintenance of city trash receptacles; (3) removal of illegal dumping and graffiti in the public right of way; (4) maintenance of public medians, and of street trees in the public right of way pursuant to section 16.129; (5) maintenance of City streets and sidewalks; (6) construction, repair, remodeling, and management services for City-owned buildings and facilities; and (7) control of pests on City streets and sidewalks."

These duties mentioned could be packaged as Micro-LBE Set-Asides, and/or low-bid procurement opportunities for some of the smallest businesses in the Public Works/Construction LBE Category. But, allowing DPW to absorb these duties entirely, would effectively eliminate vital contracting opportunities that MicroLBEs and SmallLBEs utilize to grow their businesses.

In section 4.139c of the current Charter Amendment, it states "...No department may enter agreements with private parties for public works or improvements in City streets, sidewalks, or City-owned buildings or facilities, unless the department first requests the Department of Sanitation and Streets to perform the work subject to specifications and timing requirements determined in the discretion of the requesting department."

An explicit statement in a Charter Amendment forcing a department to first give opportunities to the Department of Sanitation and Street, effectively bypassing local San Francisco businesses will be detrimental to the livelihoods of Micro-LBEs and many smaller LBEs who are fighting to survive in San Francisco. It is also a violation of Chapter 6 of the Administrative Code. This section should be considered for removal in its entirety.

This Charter Amendment needs to allow for more input from the Public Works/Construction contracting community, LBE Advisory Committee, Contract Monitoring Division, and community stakeholders to ensure the smallest local businesses are not harmed the most.

Thank you,

Thank you,

Subject: STOP Charter Amendment – Sanitation and Streets Department, Sanitation and Streets Commission, and Public Works Commission
Date: Monday, July 6, 2020 9:26:58 AM

This message is from outside the City email system. Do not open links or attachments from untrusted sources.

Dear Board of Supervisors,

I have concerns in relation to *Charter Amendment – Sanitation and Streets Department, Sanitation and Streets Commission, and Public Works Commission*. **This Charter amendment would have negative impacts on some of the smallest businesses in San Francisco's public works and construction community, who participate in the City's Chapter 14B LBE Program.**

In section 4.139b of the current draft of the Charter Amendment, it states..."the Department shall have the following duties: (1) efficient and systematic street sweeping, sidewalk cleaning, maintenance and cleaning of public restrooms in the public right of way, and litter abatement; (2) provision and maintenance of city trash receptacles; (3) removal of illegal dumping and graffiti in the public right of way; (4) maintenance of public medians, and of street trees in the public right of way pursuant to section 16.129; (5) maintenance of City streets and sidewalks; (6) construction, repair, remodeling, and management services for City-owned buildings and facilities; and (7) control of pests on City streets and sidewalks."

These duties mentioned could be packaged as Micro-LBE Set-Asides, and/or low-bid procurement opportunities for some of the smallest businesses in the Public Works/Construction LBE Category. But, allowing DPW to absorb these duties entirely, would effectively eliminate vital contracting opportunities that MicroLBEs and SmallLBEs utilize to grow their businesses.

In section 4.139c of the current Charter Amendment, it states "...No department may enter agreements with private parties for public works or improvements in City streets, sidewalks, or City-owned buildings or facilities, unless the department first requests the Department of Sanitation and Streets to perform the work subject to specifications and timing requirements determined in the discretion of the requesting department."

An explicit statement in a Charter Amendment forcing a department to first give opportunities to the Department of Sanitation and Street, effectively bypassing local San Francisco businesses will be detrimental to the livelihoods of Mirco-LBEs and many smaller LBEs who are fighting to survive in San Francisco. It is also a violation of Chapter 6 of the Administrative Code. This section should be considered for removal in its entirety.

This Charter Amendment needs to allow for more input from the Public Works/Construction contracting community, LBE Advisory Committee, Contract Monitoring Division, and community stakeholders to ensure the smallest local businesses are not harmed the most.

Thank you,

Crystal Miks

Hello,

I am writing in support of Supervisors Haney, Ronen, Walton, Preston, and Mar's Charter Amendment that would finally address the state of our streets and to create oversight commissions for the Department of Public Works and the new Department of Sanitation and Streets.

San Francisco is one of the only major cities in America *without* a Department of Sanitation.

Especially during the time of COVID-19 and heightened fears about the spread of infectious disease, creating a new Department of Sanitation and Streets is common sense: it is a solution to keep our city clean with data-driven decision making and real accountability and oversight. The new department will be dedicated to making sure our streets and sidewalks are cleaned, that we have trash cans for litter, and that we have public bathrooms available for people to use.

The Department of Sanitation and Streets will make a huge impact on our streets and the quality of life for all San Franciscans. While our streets continue to get more dirty, the current department tasked with street cleaning has been full of fraud and corruption. We need oversight and we need it now.

Please support Supervisor Haney's charter amendment. Our city needs this change now!

Dear BOS,

I tried dialing in to today's meeting but for an "invalid/not started yet" response. Not surprising.

In reference to this item, Clean Streets/Sanitation Department: this is long overdue. I have lived in a number of cities in the US and California (Wausau & Madison, WI ; Chicago, Raleigh NC, Sacramento, Fresno, San Mateo, and 30 years in SF). NEVER in my life have I seen such filth CITYWIDE! Honestly, the streets of Cairo with 20 million people are cleaner than SF.

And it is not just the homeless who create this mess. It is the residents themselves who seem to have a mindset that it is just fine to throw candy wrappers, pizza boxes and just about anything on the sidewalks and streets. Compounding the problem is the fact that unlike Chicago, there are few receptacles and when they are there they are overflowing with junk. Some of it comes from residents who refuse to pay for garbage service but the rest is from a haphazard collection routine by DPW.

We need a real sanitation service, oversight and a mechanism to ensure public cooperation.

Christine Cordaro

Greetings Mayor Breed and Board of Supervisors

I am writing in support of Supervisors Haney, Ronen, Walton, Preston, and Mar's Charter Amendment that would finally address the conditions of our streets and to create a much needed oversight commissions for the Department of Public Works and the new Department of Sanitation and Streets.

San Francisco is one of the only major cities in America *without* a Department of Sanitation. A fact that both astounds me and that makes so much sense considering the condition our city has been in.

With us on the beginning of a statewide second wave of COVID-19 and increasing concerns about the spread of infectious disease, creating a new Department of Sanitation and Streets is necessary now more than ever and is just plain good old common sense: it is a solution to keep our city clean with data-driven decision making and real accountability and oversight. The new department will be dedicated to making sure our streets and sidewalks are cleaned, that we have trash cans for litter, and that we have public bathrooms available for people to use.

The Department of Sanitation and Streets will make a huge impact on our streets and the quality of life for all San Franciscans. While our streets continue to get more dirty, the current department tasked with street cleaning has been full of fraud and corruption. We need oversight and we need it now.

Please support Supervisor Haney's charter amendment. Our city needs this change now!

Hello,

I'm a resident of SF and have lived in the Tenderloin area for 8 years. It is **CRUCIAL** that a Department of Sanitation and Streets is created. I am a working artist who has managed to somehow stay in the city I love, despite the housing crisis. Yet everyday I am stepping over or in Human Feces, Animal Feces, used needles, and gutters full of trash and biowaste.

Please address this by creating a Department of Sanitation and Streets to address what is actually a public health issue.

Thank you,
Mica Sigourney

Hello,

As a SOMA resident and SFUSD teacher I've been extremely concerned about the safety and sanitation of our city for many years now. COVID-19 has exacerbated the need for our tax dollars to be spent in ways that are visible and beneficial to the everyday people who have to navigate the city streets with their head down to avoid stepping on human feces, urine and/or needles. My concern is not only for the people who have to walk through this grime daily, I am also concerned for those who have no choice but to defecate in public spaces. We need real solutions and tangible change now!

I am writing in support of Supervisors Haney, Ronen, Walton, Preston, and Mar's Charter Amendment that would finally address the state of our streets and to create oversight commissions for the Department of Public Works and the new Department of Sanitation and Streets.

San Francisco is one of the only major cities in America *without* a Department of Sanitation.

Hello-

I am writing today to ask that one more supervisor vote in favor of getting a ballot measure on the November ballots in regards to a Street and Sanitation Dept. The amount of money being asked for is very small compared to the size of the total budget but will make an enormous difference in the cleanliness of our streets. I live and work in several neighborhoods that would benefit from a dedicated department to keep the streets cleaner.

I hope 6 supervisors will step up and vote in favor of putting it on the ballot so the residents of this city can vote on it in November.

Thank you

Jasmine Johnson

Mayor Breed and Board of Supervisors,

I presently live in the Nopa neighborhood, and have lived in the Bay Area for most of my life. I am writing because I have been informed there is discussion to form a Department of Sanitation and Streets in San Francisco, and was surprised to hear that this department did not exist.

I support the exploration of and potential creation of this department, as I believe the state of our streets is currently not only negatively affecting the lives of residents such as myself, but the economic future of our city (such as certain conferences pulling out of San Francisco due to the look and smell of our city).

I hope that your offices commit the time and resources to both performing due diligence, and if appropriate, forming this new department, so that our city can reflect on the outside the beauty I know our residents hold on the inside.

Dear Mayor Breed and Supervisor Safai,

I am a D11 Constituent and I am writing in support of Supervisors Haney, Ronen, Walton, Preston, and Mar's Charter Amendment that would finally address the state of our streets and to create oversight commissions for the Department of Public Works and the new Department of Sanitation and Streets.

San Francisco is one of the only major cities in America *without* a Department of Sanitation. Especially during the time of COVID-19 and heightened fears about the spread of infectious disease, creating a new Department of Sanitation and Streets is common sense: it is a solution to keep our city clean with data-driven decision making and real accountability and oversight. The new department will be dedicated to making sure our streets and sidewalks are cleaned, that we have trash cans for litter, and that we have public bathrooms available for people to use.

I have made no less than 20 separate submissions on the 311 app related to trash on the streets and sidewalks in my neighborhood, all within the past two months. Because of the trash I see on a daily basis, I believe that the Department of Sanitation and Streets will make a huge impact on our streets and the quality of life for all San Franciscans. While our streets continue to get more dirty, the current department tasked with street cleaning has been full of fraud and corruption. We need oversight and we need it now.

As your constituent Supervisor Safai, I am hoping that you will take the bold action that is needed now to make a change for our neighborhood. Please add yourself as a co-sponsor to truly make a change and to show your constituents that you care.

Please support Supervisor Haney's charter amendment. Our city needs this change now!

Thank you,
Corey Farris

This message is from outside the City email system. Do not open links or attachments from untrusted sources.

Hello Mayor Breed, and Supervisors,

Having worked in District 6 and lived around for a number of years, I am writing in support of Supervisors Haney, Ronen, Walton, Preston, and Mar's Charter Amendment that addresses the state of our streets and to create oversight commissions for the Department of Public Works and the new Department of Sanitation and Streets.

San Francisco is one of the few major cities in America *without* a Department of Sanitation. Especially during the time of COVID-19 and heightened fears about the spread of infectious disease, creating a new Department of Sanitation and Streets is common sense: it is a solution to keep our city clean with data-driven decision making and real accountability and oversight. The new department will be dedicated to making sure our streets and sidewalks are cleaned, that we have trash cans for litter, and that we have public bathrooms available for people to use.

The Department of Sanitation and Streets will make a huge impact on our streets and the quality of life for all San Franciscans as well as those who travel in and out of the city.

It makes absolutely no sense all districts receive equal resources if D6 has the most daily traffic by foot and car in the city.

Please support Supervisor Haney's charter amendment or you will lose my vote come next election

Thank you,

Dan Weiner

This message is from outside the City email system. Do not open links or attachments from untrusted sources.

Dear Board of Supervisors & Mayor Breed,

I am an SF resident and concerned constituent writing in support of Supervisor Matt Haney's charter amendment to establish a Department of Sanitation & Streets, along with an oversight commission for DPW.

I strongly urge all the Supervisors to jump on board with this charter amendment as it works in the best interest of SF residents. Right now we are concerned-- more than ever-- with our dirty streets (due to COVID-19) and the DPW scandal. This proposal will bring accountability to DPW and aim to make our streets safe and clean! I was stunned to find out that San Francisco is one of the only major cities without a Department of Sanitation, yet I guess I should have known that considering how dirty our streets are. We need this charter amendment now & if it is not passed, a lot of your constituents will be disappointed.

Thank you,

Britney

This message is from outside the City email system. Do not open links or attachments from untrusted sources.

Dear all,

Thank you so much for your tireless effort during this pandemic. Your leadership is inspiring and I am so proud to be a resident of San Francisco! I am writing today about a different matter, in support of Supervisors Haney, Ronen, Walton, Preston, and Mar's Charter Amendment that would finally address the state of our streets and to create oversight commissions for the Department of Public Works and the new Department of Sanitation and Streets.

I was really surprised to learn that San Francisco is one of the only major cities in America *without* a Department of Sanitation. Especially during this scary time of COVID-19 and heightened fears about the spread of infectious disease, creating a new Department of Sanitation and Streets is common sense. I believe that it is a solution to keep our city clean with data-driven decision making and real accountability and oversight. I fully support the work the new department would be doing - making sure our streets and sidewalks are cleaned, that we have trash cans for litter, and that we have public bathrooms available for people to use. I am consistently disappointed at the state of our streets and the hazardous waste and materials often strewn onto the sidewalks for days. It concerns me that these unsanitary conditions create greater risk for our most vulnerable communities to contract and spread diseases.

The Department of Sanitation and Streets will make a huge impact on our streets and the quality of life for all San Franciscans. While our streets continue to get more dirty, the current department tasked with street cleaning has been full of fraud and corruption. We need oversight and we need it now.

Please support Supervisor Haney's charter amendment. I am a proud constituent of his, and I believe his work is truly leading the way for the changes our city desperately needs.

Kindest regards,

Jordan Amann
San Francisco Resident, District 6

Hello Mayor London Breed,

My name is Jesse Ante I am a Cal Alumni engineer and worked in San Francisco for 40 years 27 with PG&E and 13 with California Public Utilities Commission. I love this city and enjoyed all the time I have spent my professional career, however over the years I have seen the income inequality of the tech boom fuel the rise of homelessness and moral corruption has also leaked onto our dirty streets. When I travel the world, I tell people where I work in the city and the first thing they say is “San Francisco it’s is on my Bucket list of favorite cities to visit”. Right now it’s still a beautiful and desired city but relatives who recently visited are affected by the homelessness and dirty streets.

I am writing in support of Supervisors Haney, Ronen, Walton, Preston, and Mar’s Charter Amendment that would finally address the state of our streets and to create oversight commissions for the Department of Public Works and the new Department of Sanitation and Streets

It is a solution to keep our city clean with data-driven decision making and real accountability and oversight. The new department will be dedicated to making sure our streets and sidewalks are cleaned, that we have trash cans for litter, and that we have public bathrooms available for people to use.

The Department of Sanitation and Streets will make a huge impact on our streets and the quality of life for all San Franciscans. While our streets continue to get more dirty, the current department tasked with street cleaning has been full of fraud and corruption. We need oversight and we need it now.

I am hoping that you will take the bold action that is needed now to make a change for our neighborhood. Please add yourself as a co-sponsor to truly make a change and to show your constituents that you care.

Please support Supervisor Haney's charter amendment. Our city needs this change now!

Thank you,
Jackie Prager

Hello,

I am writing in support of Supervisors Haney, Ronen, Walton, Preston, and Mar's Charter Amendment that would finally address the state of our streets and to create oversight commissions for the Department of Public Works and the new Department of Sanitation and Streets.

San Francisco is one of the only major cities in America *without* a Department of Sanitation. Especially during the time of COVID-19 and heightened fears about the spread of infectious disease, creating a new Department of Sanitation and Streets is common sense: it is a solution to keep our city clean with data-driven decision making and real accountability and oversight. The new department will be dedicated to making sure our streets and sidewalks are cleaned, that we have trash cans for litter, and that we have public bathrooms available for people to use.

The Department of Sanitation and Streets will make a huge impact on our streets and the quality of life for all San Franciscans. While our streets continue to get more dirty, the current department tasked with street cleaning has been full of fraud and corruption. We need oversight and we need it now.

Please support Supervisor Haney's charter amendment. Our city needs this change now!

Thank you,

To whom it may concern,

I would like to voice my support for the amendment proposed by Supervisors haney, Ronen, Walton, Preston, and Mar which would create oversight commissions for the DPW and create a Department of Sanitation and Streets. I am a constituent of District 9, and I believe it is imperative that splitting the Department of Public works will help fight corruption in our city and finally put our resources towards creating a clean and livable city for all residents. I urge anyone reading this email to vote in favor of this measure tomorrow.

Best,
Lola Cleaveland

Hello,

I, Alexandra Nobida, am writing in support of Supervisors Haney, Ronen, Walton, Preston, and Mar's Charter Amendment that would finally address the current state of our streets and would create oversight commissions for the Department of Public Works and the new Department of Sanitation and Streets.

San Francisco is one of the only major cities in America *without* a Department of Sanitation. Especially during the time of COVID-19 and heightened fears about the spread of infectious disease, creating a new Department of Sanitation and Streets is common sense: it is a solution to keep our city clean with data-driven decision making and real accountability and oversight. The new department will be dedicated to making sure our streets and sidewalks are cleaned, that we have trash cans for litter, and that we have public bathrooms available for people to use.

I believe that the Department of Sanitation and Streets will make a huge impact on our streets and the quality of life for all San Franciscans. While our streets continue to get more dirty, the current department tasked with street cleaning has been full of fraud and corruption. We need oversight and we need it now.

Please support Supervisor Haney's charter amendment. Our city needs this change now!

Thank you,
Alexandra Nobida

To whom it may concern,

The idea of a Department of Sanitation, providing oversight as to our efforts to keep our neighborhoods clean and safe is something I can support. The current state of San Francisco's streets is poor at best. This is not due to the lack of effort by any of the cities various departments or agencies but instead reliant upon a cross department / agency coordination they may not exist. Why not make one point person / persons responsible?

This used to be called the greatest city in the world? We need a tune-up.

Subject: YES on DSS & Public Advocate to clean up corruption and clean up our streets
Date: Monday, July 13, 2020 7:14:13 AM

This message is from outside the City email system. Do not open links or attachments from untrusted sources.

Of the Board of Supervisors,

Hello,

I'm writing in strong support for both the Public Advocate and the Department of Sanitation and Streets measures sponsored by Supervisors Gordan Mar and Matt Haney.

The status quo is broken. While corrupt officials continue to line their pockets, our streets keep getting dirtier. San Francisco needs structural reform to address the corruption that's run rampant for years. We need oversight and accountability to ensure our government is effective, transparent, and serving the public good. We need to clean up corruption, and clean up our streets, and we can do that with a Public Advocate and a Department of Sanitation and Streets.

The Public Advocate and Department of Sanitation and Streets (DSS) are both common sense measures that are thoughtful, comprehensive, and will work hand in hand to make our City more effective and accountable. DSS will ensure we have a department dedicated to keeping our city clean and green and will provide the public oversight we so desperately need. The Public Advocate will ensure we have an office dedicated to rooting out corruption, fraud, and abuse of the public trust.

In light of the public health crisis, the economic downturn, an ongoing FBI scandal, and additional revenue measures heading to the November ballot, it's more important than ever that we rebuild trust in our government. We need to clean up our City and City Hall, and we need the structural reforms proposed by Supervisors Haney and Mar to do it. To deny voters the chance to decide on these measures in November would be a further betrayal of the public trust.

Please vote YES to fix the broken status quo -- vote YES for the Public Advocate, vote YES for the Department of Sanitation and Streets, and keep our City clean, safe, and accountable.

Hello Mayor London Breed,

My name is Jesse Ante I am a Cal Alumni engineer and worked in San Francisco for 40 years 27 with PG&E and 13 with California Public Utilities Commission. I love this city and enjoyed all the time I have spent my professional career, however over the years I have seen the income inequality of the tech boom fuel the rise of homelessness and moral corruption has also leaked onto our dirty streets. When I travel the world, I tell people where I work in the city and the first thing they say is "San Francisco it's is on my Bucket list of favorite cities to visit". Right now it's still a beautiful and desired city but relatives who recently visited are affected by the homelessness and dirty streets.

I am writing in support of Supervisors Haney, Ronen, Walton, Preston, and Mar's Charter Amendment that would finally address the state of our streets and to create oversight commissions for the Department of Public Works and the new Department of Sanitation and Streets

Of the Board of Supervisors,

Hello,

My name is Matt Swagler. I've worked for SF rec and park for 3 years. I've been following the FBI investigations into corruption in city departments closely. My work (pest control) takes me all over the city and I see how dirty the streets are. I think splitting dpw into a streets division with oversight would result in some real changes. I think it could practically pay for itself if we eliminate some of the money laundering and diversion.

I'm writing in strong support for both the Public Advocate and the Department of Sanitation and Streets measures sponsored by Supervisors Gordan Mar and Matt Haney.

The status quo is broken. While corrupt officials continue to line their pockets, our streets keep getting dirtier. Of the Board of Supervisors,

Hello,

I'm writing in strong support for both the Public Advocate and the Department of Sanitation and Streets measures sponsored by Supervisors Gordan Mar and Matt Haney.

The status quo is broken. While corrupt officials continue to line their pockets, our streets keep getting dirtier. San Francisco needs structural reform to address the corruption that's run rampant for years. We need oversight and accountability to ensure our government is effective, transparent, and serving the public good. We need to clean up corruption, and clean up our streets, and we can do that with a Public Advocate and a Department of Sanitation and Streets.

The Public Advocate and Department of Sanitation and Streets (DSS) are both common sense measures that are thoughtful, comprehensive, and will work hand in hand to make our City more effective and accountable. DSS will ensure we have a department dedicated to keeping our city clean and green and will provide the public oversight we so desperately need. The Public Advocate will ensure we have an office dedicated to rooting out corruption, fraud, and abuse of the public trust.

In light of the public health crisis, the economic downturn, an ongoing FBI scandal, and additional revenue measures heading to the November ballot, it's more important than ever that we rebuild trust in our government. We need to clean up our City and City Hall, and we need the structural reforms proposed by Supervisors Haney and Mar to do it. To deny voters the chance to decide on these measures in November would be a further betrayal of the public trust.

Please vote YES to fix the broken status quo -- vote YES for the Public Advocate, vote YES for the Department of Sanitation and Streets, and keep our City clean, safe, and accountable.

Of the Board of Supervisors,

Hello,

As your constituent and a long-time voter, I am writing to urge you to support the Public Advocate and Department of Sanitation and Streets measures sponsored by Supervisors Gordon Mar and Matt Haney.

Our neighborhood, like most in San Francisco today, is in a serious mess. Streets keep getting dirtier, and corruption and greed are going unchecked. San Francisco needs oversight and accountability to ensure that our government serves the public good. We must clear out corruption and clean up our streets! The most effective way to do that is by creating a Public Advocate and a Department of Sanitation and Streets.

These services make sense. They can work together to make our City more accountable, clean and green.

In light of the health and fiscal crises facing San Francisco today, it is especially important to rebuild trust in our government by cleaning up our City and City Hall. The structural reforms proposed by Supervisors Haney and Mar will help accomplish these goals.

Please vote YES for the Public Advocate and YES for the Department of Sanitation and Streets, to keep our City clean, safe, and accountable.

In light of the public health crisis, the economic downturn, an ongoing FBI scandal, and additional revenue measures heading to the November ballot, it's more important than ever that we rebuild trust in our government. We need to clean up our City and City Hall, and we need the structural reforms proposed by Supervisors Haney and Mar to do it. To deny voters the chance to decide on these measures in November would be a further betrayal of the public trust.

Please vote YES to fix the broken status quo -- vote YES for the Public Advocate, vote YES for the Department of Sanitation and Streets, and keep our City clean, safe, and accountable.

Sincerely,
J. Sheldon

Of the Board of Supervisors,

Hello,

I'm writing in strong support for both the Public Advocate and the Department of Sanitation and Streets measures sponsored by Supervisors Gordan Mar and Matt Haney.

The status quo is broken. While corrupt officials continue to line their pockets, our streets keep getting dirtier. San Francisco needs structural reform to address the corruption that's run rampant for years. We need oversight and accountability to ensure our government is effective, transparent, and serving the public good. We need to clean up corruption, and clean up our streets, and we can do that with a Public Advocate and a Department of Sanitation and Streets.

The Public Advocate and Department of Sanitation and Streets (DSS) are both common sense measures that are thoughtful, comprehensive, and will work hand in hand to make our City more effective and accountable. DSS will ensure we have a department dedicated to keeping our city clean and green and will provide the public oversight we so desperately need. The Public Advocate will ensure we have an office dedicated to rooting out corruption, fraud, and abuse of the public trust.

In light of the public health crisis, the economic downturn, an ongoing FBI scandal, and additional revenue measures heading to the November ballot, it's more important than ever that we rebuild trust in our government. We need to clean up our City and City Hall, and we need the structural reforms proposed by Supervisors Haney and Mar to do it. To deny voters the chance to decide on these measures in November would be a further betrayal of the public trust.

Please vote YES to fix the broken status quo -- vote YES for the Public Advocate, vote YES for the Department of Sanitation and Streets, and keep our City clean, safe, and accountable.

Of the Board of Supervisors,

Hello,

I'm writing in strong support for both the Public Advocate and the Department of Sanitation and Streets measures sponsored by Supervisors Gordan Mar and Matt Haney.

The status quo is broken. While corrupt officials continue to line their pockets, our streets keep getting dirtier. San Francisco needs structural reform to address the corruption that's run rampant for years. We need oversight and accountability to ensure our government is effective, transparent, and serving the public good. We need to clean up corruption, and clean up our streets, and we can do that with a Public Advocate and a Department of Sanitation and Streets.

The Public Advocate and Department of Sanitation and Streets (DSS) are both common sense measures that are thoughtful, comprehensive, and will work hand in hand to make our City more effective and accountable. DSS will ensure we have a department dedicated to keeping our city clean and green and will provide the public oversight we so desperately need. The Public Advocate will ensure we have an office dedicated to rooting out corruption, fraud, and abuse of the public trust.

In light of the public health crisis, the economic downturn, an ongoing FBI scandal, and additional revenue measures heading to the November ballot, it's more important than ever that we rebuild trust in our government. We need to clean up our City and City Hall, and we need the structural reforms proposed by Supervisors Haney and Mar to do it. To deny voters the chance to decide on these measures in November would be a further betrayal of the public trust.

Please vote YES to fix the broken status quo -- vote YES for the Public Advocate, vote YES for the Department of Sanitation and Streets, and keep our City clean, safe, and accountable.
