LEGISLATIVE DIGEST

[Transportation Code – Inoperable/Broken Parking Meter Time Limits]

Ordinance amending the Transportation Code, Division I, to clarify the definition for “Parking Meter” to include electronic pay stations, and change the time limit for parking at inoperable or broken parking meters, from two hours to the maximum time permitted for the parking meter; and making environmental findings.

Existing Law

The Transportation Code currently limits the time permitted for parking at a broken or inoperable parking meter to the maximum time permitted for parking at that parking meter. However, if a parking meter permits parking in excess of two hours, the maximum time period to park is limited to two hours.

Amendments to Current Law

Effective January 1, 2014, state law will be changed to require local authorities to permit vehicles to park up to the posted time limit in any public parking space regulated by an inoperable or broken parking meter or parking payment center. Local authorities, such as a the City, will be prohibited from restricting the parking of vehicles in any public parking space regulated by a parking meter or parking payment center to a period of time less than the posted time limit for parking.

Background Information

The SFMTA has installed SF*park* parking meters and parking payment centers that permit vehicles to park for time periods in excess of two hours. As a result, in 2011, the SFMTA proposed an ordinance, sponsored by Supervisor Avalos, to limit the time vehicles were permitted to park at inoperable or broken SF*park* parking meters or parking spaces regulated by inoperable or broken SF*park* payment centers to two hours. In 2013, AB 61 was approved by the California State Legislature and signed into law by the Governor. AB 61 becomes effective January 1, 2014, and will expire on January 1, 2017, unless subsequent legislation extends that date.

SUBJECT: Ordinance Amending Division I of the Transportation Codes 7.2.30 and 7.2.65
On Overtime Parking at Inoperable On and Off-Street Parking Meters

The San Francisco Municipal Transportation Agency (SFMTA) will be forwarding legislation to the Board of Supervisors to amend Section 7.2.30 and 7.2.65 of the Transportation Code. This memo summarizes the background behind the State law changes (Assembly Bill 61) that require this local amendment.

Background Information

The SFMTA has installed parking meters that permit vehicles to park for time periods in excess of two hours. As a result, in 2011, the SFMTA proposed an ordinance, sponsored by Supervisor Avalos, to limit the time vehicles were permitted to park at inoperable or broken parking meters to two hours maximum. These proposals were reviewed by the SFMTA Board Policy and Governance Committee on January 11, 2011 and approved by the SFMTA Board at its February 1, 2011 meeting. The Transportation Code currently limits the time permitted for parking at a broken or inoperable parking meter to the maximum time permitted for parking at that parking meter. However, if an on or off-street parking meter permits parking in excess of two hours, the maximum time period to park is limited to two hours. This was to discourage someone from tampering with a meter to park legally for half or all day in one parking spot for free.

Assembly Bill 61

The SFMTA formally opposed Assembly Bill (AB) 61. This bill was introduced to address issues related to the broken meter policy adopted in Los Angeles, where parking at broken meters had been completely prohibited. AB 61 reads in part as follows:

California Vehicle Code Section 22508.5, Section 2:

- (a) A vehicle may park, for up to the posted time limit, in any parking space that is regulated by an inoperable parking meter or an inoperable parking payment center.
- (b) A local authority shall not, by ordinance or resolution, prohibit or restrict the parking of vehicles in a space that is regulated by an inoperable parking meter or inoperable parking payment center.

In 2013, AB 61 was approved by the California State Legislature and signed into law by the Governor. Effective January 1, 2014, state law will be changed to require local authorities to permit vehicles to park up to the meter time limit in any public parking space regulated by an inoperable or broken parking meter or parking payment center. Local authorities like the SFMTA will be prohibited from restricting the parking of vehicles in any public parking space regulated by a parking meter or parking payment center to a period of time less than the posted time limit for parking. In order to conform to this change in state law, Section 7.2.65 will be amended to remove the provision for a two hour maximum time limit at any meter. The proposed change will become operative on January 1, 2014.

AB 61 will expire on January 1, 2017, unless subsequent legislation extends that date. At that time the SFMTA may consider re-introducing this provision of the Transportation Code.
