Subject: FW: 1236 Carroll Avenue CEQA Review
Date: Tuesday, December 14, 2021 11:16:11 AM

Hi all,

Let's discuss this tomorrow. Jonathan, please have your biological resource specialists review these comments.

Thanks,
Jeanie

This message is from outside the City email system. Do not open links or attachments from untrusted sources.

Hey Jeanie,

Thank you for giving me a call back yesterday and walking me through the next steps for the project. I understand it is too late for official comments, but I wanted to get back to you sooner rather than later.

I have briefly reviewed the CEQA document, including the mitigation measures. The only few comments I had were:

CDFW would ask that you avoid any construction activities after sunset and not to start up construction activities until after sunrise. Noise and vibrations can cause impacts to nearby species.

Preconstruction surveys, specifically for nesting birds and vegetation is something I would strongly urge. Nesting bird surveys may need to be done multiple times a year if nests are found during the preconstruction survey. As mentioned in the CEQA document, consultation with CDFW may be needed. Please feel free to reach out to me if you have anything that comes up.

Thank you for allowing me to review and give you some feedback. If you have any questions, feel free to reach out.

Thanks again,

Will Kanz

Subject: 1236 Carroll Avenue CEQA Review

Good afternoon,

I wanted to inform you that I was made aware of the 1236 Carroll Avenue project recently and I understand today is the last day for CEQA review and comments. I'm reaching out to you to see if you would approve of a 2–3-week extension for CDFW to review and possibly comment on the project.

Thank you,

Will Kanz
