15 Be it ordained by the People of the City and County of San Francisco:

16 Section 1. Chapter 91 of the Administrative Code is hereby amended by revising
17 Sections 91.1, 91.2, 91.4, 91.5, 91.7, 91.8, 91.9, 91.10, 91.11, 91.12, 91.13, 91.14, 91.15,
18 91.16, and 91.17, and 91.18, to read as follows:

19 **SEC. 91.1. PURPOSE AND FINDINGS.**

- 20 (a) Title. This Chapter 91 shall be known as the "Language Access Ordinance."
21 (b) Findings.

22 (1) The City and County of San Francisco ("the City") seeks to ensure a safe,
23 inclusive, and equitable environment where every person, regardless of immigration status or language
24 spoken can readily access information about City services and programs.

25 (2) ~~The Board of Supervisors finds that~~ San Francisco provides an array of services
and information that can be made accessible to persons who are not proficient in the English

1 language, or for whom English is not their primary language. The City of San Francisco is
2 committed to providing equal access to information about City services and programs ~~improving the~~
3 ~~accessibility of these services~~ by providing language access services, including language interpretation
4 and written translations. ~~and providing equal access to them.~~

5 (32) ~~The Board finds that~~ Despite a long history of commitment to language
6 access as embodied in federal, state, and local law, beginning with the landmark Civil Rights
7 Act of 1964, there is still a significant gap in providing the provision of governmental services
8 and programs to Limited English Proficient (“LEP”) pPersons ~~limited-English language speakers.~~

9 (43) In 1973, the ~~California State~~ Legislature adopted the Dymally-Alatorre
10 Bilingual Services Act, which required certain state and local agencies to provide language
11 services to ~~non-English speaking LEP Persons~~ people who comprise 5% or more of the total state
12 population whenever they serve a Substantial Number of Non-English Speaking People and
13 to hire a sufficient number of bilingual staff.

14 (54) In 1999, the California State Auditor concluded that ~~80% of some~~ state
15 agencies were not in compliance with the Dymally-Alatorre Bilingual Services Act; ~~therefore,~~
16 not providing equitable services to people who require bilingual assistance. ~~and many of the audited~~
17 ~~agencies were not aware of their responsibility to translate materials for non-English speakers.~~

18 (65) In 2001, in response to these findings, the ~~San Francisco Board of~~
19 ~~Supervisors~~ City enacted the Equal Access to Services Ordinance, Ordinance No. 126-01, which
20 required major departments to provide ~~language translation services~~ language access services to
21 ~~limited-English LEP Persons~~ proficiency individuals who comprise 5% or more of the total city
22 population.

23 (76) In 2009, in Ordinance No. 202-09, the ~~The Board~~ City enacted a number of
24 significant changes to the ~~Ordinance,~~ in 2009 and renamed renaming it the Language Access
25 Ordinance, and assigning roles and responsibilities for implementation and compliance to the Office

1 of Civic Engagement and Immigrant Affairs (“OCEIA”) and the Immigrant Rights Commission. Since
2 amendment of the Language Access Ordinance ~~was amended~~ in 2009, City ~~D~~departments have
3 made significant progress in providing language access services ~~improved access to services.~~ ~~The~~
4 ~~Board finds, however, that~~ However, as of 2023, significant gaps remain in language access
5 consistency, quality, budgeting, and implementation across ~~d~~Departments.

6 (8) The COVID-19 pandemic and health emergency highlighted the barriers to language
7 access services and inequities for many LEP Persons. The pandemic made it clear that City
8 departments must prioritize language access services during health-related emergencies, disaster-
9 related activities, and all other public safety crisis situations. A community-focused approach to
10 language access services ensures that residents can receive information about City programs and
11 services, including public service announcements, to effectively communicate with City agencies,
12 policymakers, and elected officials.

13 (9~~7~~) Since the Covid-19 pandemic, the City’s use of digital services, web-based content,
14 and on-line mediums for providing information about City programs and services has increased. To
15 meet the needs of City residents, the City’s language access services must also expand to those media
16 to make them accessible to LEP Persons.

17 (10) In 2023, the Legislature amended the Dymally-Alatorre Bilingual Services
18 Act to require translation services in emergency situations, involving an immediate threat of
19 serious harm or mass casualties, including conditions of natural disaster or conditions posing
20 extreme peril to the safety of persons and property. The Legislature’s amendments were in
21 response to critical incidents that severely impacted communities. In January 2023, mass
22 shootings in Half Moon Bay and Monterey Park impacted communities of color where English
23 was not the primary language spoken and concerns were raised as to whether vital
24 information was being effectively communicated. In March 2023, the broken levee in Monterey
25 County flooded the entire town of Pajaro and forced more than 2,000 people to evacuate.

1 Various news media documented the local agencies' failure to provide language services to
2 communicate vital information on safety and access to recovery with impacted communities.
3 The Legislature's amendments expanded the Act's application to cover all languages spoken
4 jointly by 5% or more of the population whenever 5% of those affected also speak English
5 less than "very well."

6 (4011) Despite the City's progress in providing language access services, ~~The Board~~
7 finds that as of 20232024 there are still gaps in language services ~~access can seriously~~ affecting
8 San Francisco's ~~the City's~~ ability to serve all of its residents, ~~and provide timely access to~~
9 information to enable full participation in City services and programs.

10 (4112) The United States Census Bureau's 2008-2012 2017-2021 2018 - 2022
11 American Community Survey ("ACS") reveals that ~~36.34.4~~ 33.9% of San Franciscans are
12 foreign-born and ~~45.2~~ 42.7 42.9% over the age of five can speak a language other than English
13 at home. More than ~~112~~ 127 languages are spoken in the San Francisco Bay Area with at
14 least ~~28~~ 109 different languages spoken in the City alone.

15 (4213) Historically, the City has offered language access services in ~~Three~~
16 languages ~~currently have at least 10,000 or more Limited English Persons~~ LEP Persons: Chinese,
17 Spanish and Filipino Tagalog. ~~Among~~ According to the 2017-2021 2018-2022 ACS, the ~~21~~ 18.8
18 18.9% of the total City population who self-identify as LEP Persons ~~limited English speakers~~, ~~57~~
19 ~~56.7~~ 56.4% are Chinese speakers, ~~23.7~~ 20.5 20.3% are Spanish speakers, ~~65%~~ are Tagalog
20 Filipino speakers, ~~4.4~~ 4.4% are Vietnamese speakers, and ~~3.35~~ 3.16% are Russian speakers. ~~5% are~~
21 ~~Russian speakers, and 3.8% are Vietnamese speakers.~~

22 (4314) While the City remains a national leader in language access, much remains to
23 be done to continue fighting for full inclusion of our LEP community. The City must continue to make
24 every effort to ensure City departments comply with the Language Access Ordinance and removes
25 barriers to participation in City processes by increasing bilingual staffing levels and language services

1 budgets; improving accessibility through continued digital and telephonic language services; and
2 increasing language services planning and coordination for public health crises, disasters, and
3 emergencies.

<p>EXECUTIVE SUMMARY</p>	
<p style="text-align: center;">Legislative Objectives</p>	
<ul style="list-style-type: none"> • The proposed ordinance would amend Chapter 91 of the Administrative Code to add new requirements to the Language Access Ordinance. 	
<p style="text-align: center;">Key Points</p>	
<ul style="list-style-type: none"> • Under the existing Code, City Departments must translate certain forms, notices, and determinations of benefit eligibility. Chapter 91 also requires translation of board and commission meeting materials. These and other “language access services” are required for Chinese, Spanish, and Filipino speakers, based on the number of speakers of those languages within San Francisco that have limited English proficiency. Compliance with these requirements is overseen by the Office of Civic Engagement and Immigrant Affairs (OCEIA), a division of the City Administrator. 	
<ul style="list-style-type: none"> • Starting in January 2026, baseline language access would be required for languages with at least 6,000 speakers in San Francisco who have limited English proficiency. Based on the 2021 U.S. Census data (the most recent available), this would require language access services in a fourth language, Vietnamese. 	
<ul style="list-style-type: none"> • The proposed ordinance would also require translation of public-facing signage, websites, and digital content in the required languages. In addition, the Tax Collector and Public Utilities Commission would need to provide information in the required languages to help customers understand their bills. 	
<p style="text-align: center;">Fiscal Impact</p>	
<ul style="list-style-type: none"> • Under the proposed changes, we estimate \$730,000 in new translation costs in CY 2025 and \$1,695,000 in new translation costs in CY 2026. 	
<ul style="list-style-type: none"> • In addition, OCEIA reports it will need four position reclassifications and three new staff, with a total cost of approximately \$600,000 starting in FY 2024-25. We will evaluate all position changes if they are included in the Mayor’s Proposed Budget for FY 2024-25 – FY 2025-26. 	
<p style="text-align: center;">Recommendation</p>	
<ul style="list-style-type: none"> • Approval of the proposed ordinance is a policy matter for the Board of Supervisors. 	

MANDATE STATEMENT

City Charter Section 2.105 states that all legislative acts shall be by ordinance, approved by a majority of the members of the Board of Supervisors.

BACKGROUND

Chapter 91 of the Administrative Code (the Language Access Ordinance) provides various requirements for language access to City public-facing services. Under the existing Code, City Departments must translate certain forms, notices, and determinations of benefit eligibility. Chapter 91 also requires translation of board and commission meeting notices, agendas, and minutes, upon request, and to provide interpretation at public meetings, if requested at least 48 hours in advance. These and other “language access services” are required for Chinese, Spanish, and Filipino speakers, based on the number of speakers of those languages within San Francisco that have limited English proficiency. Compliance with these requirements is overseen by the Office of Civic Engagement and Immigrant Affairs (OCEIA), a division of the City Administrator.

DETAILS OF PROPOSED LEGISLATION

The proposed ordinance would amend Chapter 91 of the Administrative Code to make the following changes:

1. Require departments to provide language access services (verbal and written translation) for Chinese, Spanish, and Filipino speakers accessing City services.
2. Starting in January 2026, baseline language access would be required for languages with at least 6,000 speakers in San Francisco who have limited English proficiency. Based on the 2021 U.S. Census data (the most recent available), this would require language access services in a fourth language, Vietnamese.
3. Require translation of public-facing signage, websites, and digital content in required languages.
4. Require the Public Utilities Commission and the Tax Collector to provide information so that customers can understand their bills in the required languages.
5. Require the Police Department, Fire Department, and Department of Emergency Management to provide language access services in crisis situations, consistent with State law.
6. Require the OCEIA to translate a language access know-your-rights document into the top twenty languages in San Francisco.
7. Further specify OCEIA’s oversight of departmental compliance with the Language Access, including additional reporting, investigation, and audits.

FISCAL IMPACT

The primary incremental fiscal impacts of the new language access requirements are the new signage requirements, the new digital content translation requirements, reducing the threshold number of speakers for requiring language access services (which will likely require Citywide document translations into Vietnamese, starting in 2026), and new staff for OCEIA. We do not include interpretation costs because the current language access ordinance already requires interpretation upon request.

Exhibit 1 below shows our estimate of the Citywide costs for the new requirements. We estimate \$730,000 in new translation costs in CY 2025 and \$1,695,000 in new translation costs in CY 2026.

Exhibit 1: Citywide Translation Costs

	Signage	Documents	Digital Content	Bills	Total
2025	\$420,000	\$0	\$250,000	\$60,000	\$730,000
2026	\$140,000	\$1,250,000	\$250,000	\$55,000	\$1,695,000

Source: BLA

The costs in Exhibit 1 are high-level initial estimates. Actual costs may differ depending on the extent to which departments are already providing language access services in the required languages. In addition, the composition of the City’s population may change over time and therefore more required languages for translation, which would increase costs. A portion of the costs will be ongoing, depending on how often documents and digital content are updated.

In addition, OCEIA reports it will need four position reclassifications and three new staff, with a total cost of approximately \$600,000 starting in FY 2024-25. We will evaluate all position changes if they are included in the Mayor’s Proposed Budget for FY 2024-25 – FY 2025-26.

RECOMMENDATION

Approval of the proposed ordinance is a policy matter for the Board of Supervisors.

Recommendations

- Align statewide crisis/disaster response threshold to local threshold:
 - Replace “5% of population” with “**required languages and languages with a substantial number of LEP persons in San Francisco, as well as any additional languages in the district that are most spoken and have the highest rates of language access need.**”
- Refine requirement for translating Know Your Rights information:
 - Replace “20 most spoken languages in San Francisco” with “20 languages in San Francisco **that are most spoken and have the highest rates of language access need.**”
- Refine definition of “vital information” to include: “**bills, fees, fines, penalties.**”
- Emphasize support for American Indian, Central and South American, and Oceanian languages.

Key issues for consideration

- **City information is shared most efficiently when we serve communities that have the highest rates of language access need, not just the most individual speakers.**
 - Departments should be encouraged to focus on communities with **high percentages of limited English proficiency** and **linguistic isolation** (a federal measure of households where no adult speaks English “very well”). Social service organizations have expressed that language access is a matter of “life and death” for these communities. *See attachment for comparison.*
- **The new statewide language threshold for crisis/disaster response is less robust than the existing San Francisco language threshold.**
 - The new statewide requirement is “5% of the population.” At the citywide population level, this would include **only Spanish and Chinese**; at a district population level, this would include **only Chinese in most districts, and no languages in others.** *See attachment for estimates by district.*
- **Language access for American Indian, Central and South American, and Oceanian communities is an important part of restoring their right to self-determination.**
 - In California, households that speak Indigenous languages have the highest rates of linguistic isolation (e.g., **53% for Central and South American languages; 15% for Native North American languages**). However, the American Community Survey – the most frequently used source of language data – samples only a small number of people and undercounts these households in San Francisco. *See attachment for California-wide estimates.*
- **The most impactful update to the ordinance is requiring departments to translate vital information into additional languages upon request.**
 - This amendment creates a pathway for everyone who lives, works, or attends school in San Francisco to receive vital information in their language.
 - In contrast, changing the required language threshold from “10,000 LEP persons” to “6,000 LEP persons” would likely add only a single language – Vietnamese – because of the ongoing displacement of communities of color from San Francisco to the wider Bay Area.
