Hello Erin,

Thank you for your time to chat over the phone to help me clearly understand what this means.

I would like to withdraw my current application for PCN with the Board of Supervisors for now and resubmit it once I receive approval for a change of use permit from the Planning Department, presumably at the end of August. I understand that this withdrawal is not a denial from the Public Safety and Neighborhood Services Committee and it is not a withdrawal of my liquor license application with ABC. Therefore I would not be required to restart my application with the ABC.

Thank you again for your help,

Hello,

Erin here in Supervisor Mandelman's office, Chair of the Public Safety & Neighborhood Services Committee. Our office has been informed of an outstanding issue with your application for PCN, which does not yet have approval from the Planning Department due to the requirement of a Change of Use Permit.

Given that this application will require additional time in order to work through that process with the Planning Department, Chair Mandelman requests that you submit a letter/email formally withdrawing your request for a finding of PCN with the Board of Supervisors. You should resubmit your request for PCN to the Board of Supervisors, after your application has received approval for a Change of Use permit from Planning.

Please confirm receipt of this email and submit your withdrawal as soon as possible, and let our office know when you anticipate resubmitting a request for PCN. We will work with you to agendize it when you're ready.

Thanks,  
Erin
