Community Policing Plan Narrative

Please describe your agency's implementation plan for this program (if awarded), with specific reference to each of the following elements of community policing: (a) community partnerships and support, including consultation with community groups, private agencies, and/or other public agencies; (b) related governmental and community initiatives that complement your agency's proposed use of COPS funding; and (c) organizational transformation – how your agency will use these funds, if awarded, to reorient its mission to community policing or enhance its involvement in and commitment to community policing. Your organization may be audited or monitored to ensure that it is initiating or enhancing community policing in accordance with this plan. The COPS Office may also use this information to understand the needs of the field, and potentially provide for training, technical assistance, problem solving and community policing implementation tools.

If your organization receives this grant funding, these responses, along with the previous questions, will be considered as your organization's community policing plan. We understand that your community policing needs may change during the life of your grant (if awarded), and minor changes to this plan may be made without prior approval from the COPS Office. We also recognize that this plan may incorporate a broad range of possible community policing strategies and activities, and that your agency may implement particular community policing strategies from the plan on an as-needed basis throughout the life of the grant. If your agency's community policing plan changes significantly, however, you must submit those changes in writing to the COPS Office for approval. Changes are "significant" if they deviate from the range of possible community policing activities identified and approved in this original community policing plan submitted with your application.

In the space provided, please address your agency's implementation plan for this program with specific reference to each of the following elements of community policing:

(a) Community partnerships and support, including consultation with community groups, private agencies, and/or other public agencies.

[Please limit your response to a maximum of 3,000 characters.]

San Francisco has an infrastructure to support the expansion of this gunshot location technology. This is Phase III of the system, which will expand the current gunshot location system and integrate the community crime camera project into the areas where gunfire related crime is most prevalent.

The centerpiece of San Francisco's community policing strategy is engagement. This occurs primarily at the local level where commanders of district police stations regularly convene community meetings. At these community meetings citizens are given an opportunity to present concerns to police management and receive updates on crime trends and crime-fighting strategies. If San Francisco is awarded this grant it will enhance our ability to provide our citizens with real-time information related to fire arm violence as captured from the gunshot locations system and other violent crimes that may be captured by the community crime cameras.

(b) Related governmental and community initiatives that complement your agency's proposed use of COPS funding.

[Please limit your response to a maximum of 3,000 characters.]

On June 19, 2010 the San Francisco Police Department established the Bay Area Regional Information Crime Center (BRICC). The mission of the BRICC is to act as a real time crime center, supporting operations to law enforcement agencies operating in the San Francisco Bay Area. The Bay Area is comprised of 9 of the 58 counties in California. The BRICC will provide effective criminal justice information exchange, leveraging technology and effective partnerships, to support personnel tasked with keeping our communities safe. An example of the leverage technology is the implementation of COMPSTAT in San Francisco. The data that ShotSpotter captures as a result of gunfire activity will be integrated in COMPSTAT fuel efforts of personnel and resource deployment. An example of the effective partnership is the sharing of lessons learned from the deployment of ShotSpotter with our law enforcement partners in the Bay Area cities of Richmond, East Palo, Belmont and Oakland. These are other cities in the Bay Area that have implemented ShotSpotter.

(c) Organizational transformation – how your agency will use these funds, if awarded, to reorient its mission to community policing or enhance its involvement in and commitment to community policing.

[Please limit your response to a maximum of 3,000 characters.]

This project will enhance our involvement and commitment to community policing by enabling us to anticipate and respond to crime trends more rapidly. The enhancement of the gunshot location system and further expansion of community crime cameras provides for more crime data and the collection of additional evidence of criminal activity, which ultimately suppresses crime. The data from these systems not only supports a more efficient law enforcement operation but allows for additional engagement, and supports crime educational initiatives, informing the community of when and where crimes are happening, and steps to be taken to avoid becoming victims of crime.

CP1) To what extent is there community support in your jurisdiction for implementing the proposed grant activities?

- High level of support Moderate support Minimal support

CP2) If awarded, to what extent will the grant activities impact the other components of the criminal justice system in your jurisdiction?

- Potentially decreased burden No change in burden Potentially increased burden

SECTION 7: NEED FOR FEDERAL ASSISTANCE

A. Waivers of the Local Match

Section Not Applicable to 2010 COPS Application Attachment

B. Explanation of Need for Federal Assistance

All applicants are required to address the need for federal assistance. In the space below, please provide a brief explanation of your agency's inability to address your public safety needs and implement this project without federal assistance.

[Please limit your response to a maximum of 3,000 characters.]

The Mayor of the City and County of San Francisco recently presented a FY 2010/11 balanced budget that addresses a \$483 million shortfall, which is further compounded by a budget shortfall of \$575 million for FY 2009/10. To date, the San Francisco Police Department has allocated all available discretionary funds to the maintenance of basic personnel and infrastructure, including maintenance of current information technologies. Present fiscal constraints preclude us from expanding the system, though it has proven to be an effective and essential tool for combating gun violence.

SECTION 8: CONTINUATION OF PROJECT AFTER FEDERAL FUNDING ENDS

If you are applying for a COPS grant with a post-grant retention plan requirement, please complete A. If you are applying for a COPS grant without a post-grant retention plan requirement, please complete B.

B. Continuation of Project after Federal Funding Ends (for other COPS grants with no retention plan requirement)

Please complete these questions to indicate any plans you may have to continue this program, project, or activity after the conclusion of federal funding

1. Will your agency plan to retain any additional positions awarded under this grant for a minimum of 12 months at the conclusion of federal funding for each position?

YES NO

2. Please identify the source(s) of funding that your agency plans to utilize to cover the costs of retention from the drop-down box listed below: (*check all that apply*)

- General funds
- Raise bond/tax issue
- Private sources/donations
- Non-federal asset forfeiture funds (subject to approval from the state or local oversight agency)
- Fundraising efforts
- Other (Please provide a brief description of the source(s) of funding not to exceed 350 characters.)

SECTION 10: EXECUTIVE SUMMARY

Please provide a brief summary of how your agency will use this federal funding. Refer to the COPS Application Guide for clarification on specific information to include in your summary, and be sure to provide a description of how you expect this grant to impact public safety and/or crime prevention in your community. The Executive Summary may be used to keep Congress or other executive branch agencies informed on law enforcement strategies to deter crime in your community.

[Please limit your responses to a maximum of 3,000 characters.]

In January 2008 the City and County of San Francisco embarked on an effort to deploy a gunshot location system manufactured by ShotSpotter, Inc. By December 2008, Phase I of the deployment of this system was completed. The system was operational and covered 3.3 square miles of the City. Phase II of this effort was completed using local funds. In fiscal year 2009/2010 the COPS Office awarded San Francisco \$1,000,000 to further expand the system. An additional 4 square miles of coverage will be installed and operational as a result of those funds. Phase II of this project is ahead of schedule and is expected to be complete by December 2010, bringing the total square miles of coverage to 7.3.

San Francisco is the second densest city in the nation with a total of 49 square miles with a population of approximately 800,000 with an additional 400,000 to 500,000 daily visitors. Historically, the most concentrated gunfire activity, both random and malicious, has fallen within a 20 square miles zone. The goal is to make operational a gunfire location system that will cover this zone that has been plagued with gunfire activity.

In 2005 San Francisco embarked on an effort to deploy surveillance cameras in areas of the city that were most prone to violent crime. The deployment of cameras was done in a piece-meal manner. The areas of deployment were prioritized by need and funding availability. By 2008 there were a total of 76 cameras in 26 locations. Since then there have been no additional cameras deployed, primarily due to budgetary constraints.

With the funding opportunity presented through COPS for Fiscal Year 2010-2011, San Francisco hopes to implement Phase III of the gunshot location system by adding 2 additional square miles to the coverage area. This will bring San Francisco to approximately 50% completion of our desired coverage area of 20 square miles, with 9.3. Additionally, with this funding we anticipate adding 30 surveillance cameras to the existing system. The cameras will be deployed in the areas most plagued by gunfire and other violent crimes, most notably homicides and robberies.

Phase III of this project will further enhance public safety by covering additional areas within San Francisco that have, historically, been plagued with gunfire activity. Additionally, this expansion will allow for the deployment of additional community safety cameras.

SECTION 11: PROJECT DESCRIPTION (NARRATIVE)

Please include in your application an in-depth narrative response detailing your proposed project. Please refer to the program-specific section of the COPS Application Guide: "How to Apply" section for information on what should be included in your response, as well as any additional formatting requirements and page length limitations. **Note: Child Sexual Predator Program (CSPP) and Community Policing Development (CPD) grant applicants must submit their entire project description narrative as an attachment in Section 13 of this application.**

A. Problem Identification

[Responses are limited to a maximum of 3,000 characters.]

Anecdotal evidence from the media and interviews with local officials, police, and community members suggests that random gunfire is considered a serious problem in many large cities in the United States. Random gunfire has been defined as "the indiscriminate discharge of firearms into the air," which generally occurs during holiday celebrations, during weekends or sporting events, and often in association with the consumption of alcoholic beverages.

Random gunfire problems are distinguishable from other types of shooting incidents such as urban sniper attacks, gang shootouts, domestic homicides, and revenge shootings because (1) random gunfire is strictly an outdoor activity; (2) it is not usually part of other criminal activity such as drug dealing, assaults, or robberies; (3) generally, random gunfire shooters do not fire their weapons to intentionally injure or kill people.

Residents in communities with high levels of random gunfire live in perpetual fear; and law-abiding business owners and residents freely express their willingness to abandon or relocate from a neighborhood with random gunfire problems.

San Francisco is impacted by random and intentional gunfire problems as is the rest of the country. It is generally understood within the law enforcement community that acts of random gunfire create environments that are more conducive to acts of intentional gun violence. In 2008 San Francisco installed a gunshot location system manufactured by ShotSpotter, Inc., Mountain View, California. Since becoming operational the system has been a very useful tool for the San Francisco Police Department (SFPD). In the neighborhoods most impacted by violence crime, the system has alerted to gunfire incidents at a rate of close to 700% greater than is being reported by citizens. This system assists the SFPD by alerting its officers to a greater number of criminal incidents involving firearms. In 2009 The Center for Information Technology Research in the Interest of Society (CITRIS) reported on the efficacy of San Francisco's crime reduction camera program. Two significant findings were (1) there was a 23% reduction in property crimes associated with the placement of the cameras and (2) violent crime was displaced as a result of the placement of the cameras.

The use of the gunfire location system and community crime cameras has been a fundamental part of San Francisco's violence reduction strategy. We believe that the strategy is working. Accordingly, we believe that expansion of our technological capacities will further reduce the problem of gun violence in our city.

B. Project Goals/Objectives

[Responses are limited to a maximum of 3,000 characters.]

The goal of this project is to decrease the number of homicides and incidents of firearm related injuries in San Francisco. An objective is also to create a national model established in the use of technology in combating violent crime. Although, the technologies behind the gunshot location system is proven and sound, it has not been readily received in law enforcement and municipalities across the country. As San Francisco endeavors to more broadly use the gunshot location technology and integrate it with community crime cameras it provides a model of proven practice that influences crime fighting strategies nationally.

C. Building Relationships and Solving Problems

[Responses are limited to a maximum of 3,000 characters.]

D. Implementation Plan

[Responses are limited to a maximum of 3,000 characters.]

San Francisco has an infrastructure to support the expansion of the gunshot location technology and the installation of additional community crime cameras. The project will be implemented in two stages, each adding one square mile of coverage. We are planning to have the first square mile operational within four months of receiving funding and the second within three months from the time that the first is completed. Effectively, the projected timeline for completing the first square mile of coverage is by the first quarter of 2011 with the second and final area of coverage for phase III of this project to be completed by the beginning of the third quarter of 2011. From the inception of this project the San Francisco Police Department has been the lead agency, amongst several San Francisco agencies, and will maintain as the primary project management. Accordingly, this continuation will ensure an effective and efficient implementation of phase III of this project.

The system will be tested after each square mile of deployment. After each square mile of deployment is completed the system will undergo collaboration and testing. The collaboration and testing consists of having law enforcement personnel go into the deployed area and under controlled conditions conduct live gunfire testing. This will ensure that the system properly detects and provides for accurate information regarding time and location of gunfire incidents. Once the data is evaluated the engineers with ShotSpotter can make any necessary adjustments of the equipment and software to address any performance concerns. The time line for testing is dependent on the successful deployment of the system. The projected period of time for testing is by the first quarter of 2011 and by the beginning of the third quarter of 2011.

E. Evaluation Plan/Effectiveness of Program

[Responses are limited to a maximum of 3,000 characters.]

The intended evaluation plan is to measure the number of incidents in a covered area and compare the results to a base-line once the expanded areas are operational. The evaluation benchmarks will be after six and twelve months of operation. The project has a project manager who is responsible for interfacing with line staff personnel, the end users. This allows for informal and immediate addressing of the operation of the system. In addition, with phase III there will be a formal survey of line and supervisory personnel to determine the efficacy of the ShotSpotter system and the deployment of community crime cameras.

F. Project Description (Narrative) Attachment

Child Sexual Predator Program (CSPP) and Community Policing Development (CPD) applicants must submit their entire project description as an attachment in Section 13 of this application.

SECTION 13: APPLICATION ATTACHMENTS

This section should be used to attach any required or applicable attachments to your grant application (e.g., a Memorandum of Understanding). If the program for which you are applying requires a Memorandum of Understanding (MOU), this document should define the roles and responsibilities of the individuals and partner(s) involved in your proposed project. Please refer to the program-specific Application Guide to determine if an MOU or other application attachments are required. The Guide will also specify if optional attachments are permitted for submission.

SECTION 14: BUDGET DETAIL WORKSHEETS

Instructions for Completing the Budget Detail Worksheets

The following Budget Detail Worksheets are designed to allow all COPS grant and cooperative agreement applicants to use the same budget forms to request funding. Allowable and unallowable costs vary widely and depend upon the type of COPS program. The maximum federal funds that can be requested and the federal/local share breakdown requirements also vary.

Please refer to the program-specific Application Guide to determine the allowable/unallowable costs, the maximum amount of federal funds that can be requested, and the federal/local share requirements for the COPS program for which your agency is applying. To assist you, sample Budget Detail Worksheets are included in each Application Guide.

Please complete each section of the Budget Detail Worksheets applicable to the program for which you are applying (see the program-specific Application Guide for requirements). If you are not requesting anything under a particular budget category, please check the appropriate box in that category indicating that no positions or items are requested.

All calculations should be rounded to the nearest whole dollar. Once the budget for your proposal has been completed, a budget summary page will reflect the total amounts requested in each category, the total project costs, and the total federal and local shares.

If you need assistance in completing the Budget Detail Worksheets, please call the COPS Office Response Center at 800.421.6770.

A. SWORN OFFICER POSITIONS

Instructions: This worksheet will assist your agency in reporting your agency's current entry-level salary and benefits and identifying the total salary and benefits request per officer position for the length of the grant term. Please list the current entry-level base salary and fringe benefits rounded to the nearest whole dollar for one full-time sworn officer position within your agency. Do not include employee contributions. (Please refer to the program-specific Application Guide for information on the length of the grant term for the program under which you are applying.)

Special note regarding sworn officer fringe benefits: For agencies that do not include fringe benefits as part of the base salary costs and typically calculate these separately, the allowable expenditures may be included under Part 1, Section B. Any fringe benefits that are already included as part of the agency's base salary (Part 1, Section A of the Sworn Officer Budget Worksheet) should not also be included in the separate fringe listing (Part 1, Section B).

Please refer to the program-specific Application Guide for information about allowable and unallowable fringe benefits for sworn officer positions requested under the program to which your agency is applying.

C. EQUIPMENT/TECHNOLOGY

Instructions:List non-expendable items that are to be purchased. Provide a specific description for each item and explain how the item supports the project goals and objectives as outlined in your application. Non-expendable equipment is tangible property (e.g., technology) having a useful life of more than one year and an acquisition cost of \$5,000 or more per unit. Expendable items should be included either in the "SUPPLIES" or "OTHER" categories. Applicants should analyze the cost benefits of purchasing versus leasing equipment, especially for high-price items and those subject to rapid technical advances. Rented or leased equipment costs should be listed in the "CONTRACTS / CONSULTANTS" category.

Please be advised that, to the greatest extent practical, all equipment and products purchased with these funds must be American-made.

For agencies purchasing items related to enhanced communications systems, the COPS Office expects and encourages that, wherever feasible, such voice or data communications equipment should be incorporated into an intra- or interjurisdictional strategy for communications interoperability among federal, state, and local law enforcement agencies.

See the program-specific Application Guide for a list of allowable/unallowable costs for this program. Agencies are encouraged to limit their requests to the lines shown below and group similar items together so that all items are accounted for on the budget worksheet for each category. However, if your agency requires more lines please check the available box.

Identify the location of travel whenever possible, and show the number of staff expected to attend each event. Training fees, transportation, lodging and per diem rates for trainees should be listed as separate travel items. Grantee travel costs specific to the grant project may be based on the grantee's written travel policy, assuming the costs are reasonable. Grantees without a written travel policy must follow the established federal rates (found at www.gsa.gov) for lodging, meals, and per diem. For all grantees (with or without a written travel policy), airfare travel costs must be one of the following: the lowest discount commercial airfare, standard coach airfare, or the federal government contract airfare (if authorized and available). The Office of Community Oriented Policing Services needs to secure your assurance that the applicant will comply with these provisions. If you would like further information about any of these assurances, please contact your state's COPS Grant Program Specialist at 800.421.6770.

By the applicant's authorized representative's signature, the applicant assures that it will comply with all legal and administrative requirements that govern the applicant for acceptance and use of federal grant funds. In particular, the applicant assures us that:

1. It has been legally and officially authorized by the appropriate governing body (for example, mayor or city council) to apply for this grant and that the persons signing the application and these assurances on its behalf are authorized to do so and to act on its behalf with respect to any issues that may arise during processing of this application.

2. It will comply with the provisions of federal law, which limit certain political activities of grantee employees whose principal employment is in connection with an activity financed in whole or in part with this grant. These restrictions are set forth in 5 U.S.C. §1501, et seq.

3. It will comply with the minimum wage and maximum hours provisions of the Federal Fair Labor Standards Act, if applicable.

4. It will establish safeguards, if it has not done so already, to prohibit employees from using their positions for a purpose that is, or gives the appearance of being, motivated by a desire for private gain for themselves or others, particularly those with whom they have family, business or other ties.

5. It will give the Department of Justice or the Comptroller General access to and the right to examine records and documents related to the grant.

6. It will comply with all requirements imposed by the Department of Justice as a condition or administrative requirement of the grant, including but not limited to: the requirements of 28 CFR Part 66 and 28 CFR Part 70 (governing administrative requirements for grants and cooperative agreements); 2 CFR Part 225 (OMB Circular A-87),

2 CFR 220 (OMB Circular A-21), 2 CFR Part 230 (OMB Circular A-122) and 48 CFR Part 31.000, et seq. (FAR 31) (governing cost principles); OMB Circular A-133 (governing audits) and other applicable OMB circulars; the applicable provisions of the Omnibus Crime Control and Safe Streets Act of 1968, as amended; 28 CFR Part 38.1; the current edition of the COPS Grant Monitoring Standards and Guidelines; the applicable COPS Grant Owner's Manuals; and with all other applicable program requirements, laws, orders, regulations, or circulars. 7. If applicable, it will, to the extent practicable and consistent with applicable law, seek, recruit and hire qualified members of racial and ethnic minority groups and qualified women in order to further effective law enforcement by increasing their ranks within the sworn positions in the agency.

8. It will not, on the ground of race, color, religion, national origin, gender, disability or age, unlawfully exclude any person from participation in, deny the benefits of or employment to any person, or subject any person to discrimination in connection with any programs or activities funded in whole or in part with federal funds. These civil rights requirements are found in the non-discrimination provisions of the Omnibus Crime Control and Safe Streets Act of 1968, as amended (42 U.S.C. § 3789d); Title VI of the Civil Rights Act of 1964, as amended (42 U.S.C. § 2000d); the Indian Civil Rights Act (25 U.S.C. §§ 1301-1303); Section 504 of the Rehabilitation Act of 1973, as amended (29 U.S.C. § 794); Title II, Subtitle A of the Americans with Disabilities Act (ADA) (42 U.S.C. § 12101, et seq.); the Age Discrimination Act of 1975 (42 U.S.C. § 6101, et seq.); and Department of Justice Non-Discrimination Regulations contained in Title 28, Parts 35 and 42 (subparts C, D, E, G and I) of the Code of Federal Regulations.

A. In the event that any court or administrative agency makes a finding of discrimination on grounds of race, color, religion, national origin, gender, disability or age against the applicant after a due process hearing, it agrees to forward a copy of the finding to the Office for Civil Rights, Office of Justice Programs, 810 7th Street, NW, Washington, D.C. 20531.

B. If your organization has received an award for \$500,000 or more and has 50 or more employees, then it has to prepare an Equal Employment Opportunity Plan (EEOP) and submit it to the Office for Civil Rights ("OCR"), Office of Justice Programs, 810 7th Street, N.W., Washington, DC 20531, for review within 60 days of the notification of the award. If your organization received an award between \$25,000 and \$500,000 and has 50 or more employees, your organization still has to prepare an EEOP, but it does not have to submit the EEOP to OCR for review. Instead, your organization has to maintain the EEOP on file and make it available for review on request. In addition, your organization has to complete Section B of the Certification Form and return it to OCR. If your organization received an award for less than \$25,000; or if your organization has less than 50 employees, regardless of the amount of the award; or if your organization is a medical institution, educational institution, nonprofit organization or Indian tribe, then your organization is exempt from the EEOP requirement. However, your organization must complete Section A of the Certification Form and return it to OCR.

The first two letters are your state abbreviation, the next three numbers are your county's code, and the next two numbers identify your jurisdiction within your county. If you do not currently have an ORI number, the COPS Office will assign one to your agency for the purpose of tracking your grant. ORI numbers assigned to agencies by the COPS Office may end in "ZZ."

B. Applicant Data Universal Numbering System (DUNS) Number: 120802983

A Data Universal Numbering System (DUNS) Number is required. A DUNS number is a unique nine or thirteen digit sequence recognized as the universal standard for identifying and keeping track of entities receiving federal funds. For more information about how to obtain a DUNS number, please refer to the "How to Apply" section of the COPS Application Guide.

C. Central Contractor Registration (CCR)

All applicants (other than individuals) are required to maintain current registrations in the Central Contractor Registration (CCR) database. The CCR database is the repository for standard information about federal financial assistance applicants, recipients, and sub-recipients. For more information about how to register with the CCR, please refer to the "How to Apply" section of the COPS Application Guide. Please note that applicants must update or renew their CCR at least once per year to maintain an active status.

Does your agency have an active registration with the Central Contractor Registration database?

Note: Your Agency must have an active registration with the CCR. If your agency is not registered, please register now by going to the following web address: <https://www.bpn.gov/ccr/default.aspx>

D. Geographic Names Information System (GNIS) ID: 2411786

Please enter your Geographic Names Information System (GNIS) Identification Number. This is a unique ID assigned to all geographic entities by the U.S. Geological Survey. To look up your GNIS Feature ID, please go to the website: <http://geonames.usgs.gov/domestic/index.html>. For more information about how to obtain a GNIS number, please refer to the "How to Apply" section of the COPS Application Guide.

E. Cognizant Federal Agency: Department of Justice

Select the legal applicant's Cognizant Federal Agency. A Cognizant Federal Agency, generally, is the federal agency from which your jurisdiction receives the most federal funding. Your Cognizant Federal Agency also may have been previously designated by the Office of Management and Budget. Applicants that have never received federal funding should select the "Department of Justice" as the Cognizant Federal Agency.

SECTION 6: LAW ENFORCEMENT & COMMUNITY POLICING STRATEGY

COPS Office grants must be used to reorient the mission and activities of law enforcement agencies toward the community policing philosophy or enhance their involvement in community policing. The following is the COPS Office definition of community policing that emphasizes the primary components of community partnerships, organizational transformation, and problem solving.

Community policing is a philosophy that promotes organizational strategies, which support the systematic use of partnerships and problemsolving techniques, to proactively address the immediate conditions that give rise to public safety issues, such as crime, social disorder, and fear of crime.

The COPS Office has completed the development of a comprehensive community policing self-assessment tool for use by law enforcement agencies. Based on this work, we have developed the following list of primary sub-elements of community policing. Please refer to the COPS Office web site (www.cops.usdoj.gov) for further information regarding these sub-elements.

SECTION 6: LAW ENFORCEMENT & COMMUNITY POLICING STRATEGY

Community Policing Plan Narrative

Please describe your agency's implementation plan for this program (if awarded), with specific reference to each of the following elements of community policing: (a) community partnerships and support, including consultation with community groups, private agencies, and/or other public agencies; (b) related governmental and community initiatives that complement your agency's proposed use of COPS funding; and (c) organizational transformation – how your agency will use these funds, if awarded, to reorient its mission to community policing or enhance its involvement in and commitment to community policing. Your organization may be audited or monitored to ensure that it is initiating or enhancing community policing in accordance with this plan. The COPS Office may also use this information to understand the needs of the field, and potentially provide for training, technical assistance, problem solving and community policing implementation tools.

If your organization receives this grant funding, these responses, along with the previous questions, will be considered as your organization's community policing plan. We understand that your community policing needs may change during the life of your grant (if awarded), and minor changes to this plan may be made without prior approval from the COPS Office. We also recognize that this plan may incorporate a broad range of possible community policing strategies and activities, and that your agency may implement particular community policing strategies from the plan on an as-needed basis throughout the life of the grant. If your agency's community policing plan changes significantly, however, you must submit those changes in writing to the COPS Office for approval. Changes are "significant" if they deviate from the range of possible community policing activities identified and approved in this original community policing plan submitted with your application.

In the space provided, please address your agency's implementation plan for this program with specific reference to each of the following elements of community policing:

(a) Community partnerships and support, including consultation with community groups, private agencies, and/or other public agencies.

[Please limit your response to a maximum of 3,000 characters.]

San Francisco has an infrastructure to the support the expansion of this gunshot location technology. This is Phase III of the system, which will expand the current gunshot location system and integrate the community crime camera project into the areas where gunfire related crime is most prevalent.

The centerpiece of San Francisco's community policing strategy is engagement. This occurs primarily at the local level where commanders of district police stations regularly convene community meetings. At these community meetings citizens are given an opportunity to present concerns to police management and receive updates on crime trends and crime-fighting strategies. If San Francisco is awarded this grant it will enhance our ability to provide our citizens with real-time information related to fire arm violence as captured from the gunshot locations system and other violent crimes that may be captured by the community crime cameras.

(b) Related governmental and community initiatives that complement your agency's proposed use of COPS funding.

[Please limit your response to a maximum of 3,000 characters.]

On June 19, 2010 the San Francisco Police Department established the Bay Area Regional Information Crime Center (BRICC). The mission of the BRICC is to act as a real time crime center, supporting operations to law enforcement agencies operating in the San Francisco Bay Area. The Bay Area is comprised of 9 of the 58 counties in California. The BRICC will provide effective criminal justice information exchange, leveraging technology and effective partnerships, to support personnel tasked with keeping our communities safe. An example of the leverage technology is the implementation of COMPSTAT in San Francisco. The data that ShotSpotter captures as a result of gunfire activity will be integrated in COMPSTAT fuel efforts of personnel and resource deployment. An example of the effective partnership is the sharing of lessons learned from the deployment of ShotSpotter with our law enforcement partners in the Bay Area cities of Richmond, East Palo, Belmont and Oakland. These are other cities in the Bay Area that have implemented ShotSpotter.

(c) Organizational transformation – how your agency will use these funds, if awarded, to reorient its mission to community policing or enhance its involvement in and commitment to community policing.

[Please limit your response to a maximum of 3,000 characters.]

This project will enhance our involvement and commitment to community policing by enabling us to anticipate and respond to crime trends more rapidly. The enhancement of the gunshot location system and further expansion of community crime cameras provides for more crime data and the collection of additional evidence of criminal activity, which ultimately suppresses crime. The data from these systems not only supports a more efficient law enforcement operation but allows for additional engagement, and supports crime educational initiatives, informing the community of when and where crimes are happening, and steps to be taken to avoid becoming victims of crime.

CP1) To what extent is there community support in your jurisdiction for implementing the proposed grant activities?

- High level of support Moderate support Minimal support

CP2) If awarded, to what extent will the grant activities impact the other components of the criminal justice system in your jurisdiction?

- Potentially decreased burden No change in burden Potentially increased burden

SECTION 7: NEED FOR FEDERAL ASSISTANCE

A. Waivers of the Local Match

Section Not Applicable to 2010 COPS Application Attachment

B. Explanation of Need for Federal Assistance

All applicants are required to address the need for federal assistance. In the space below, please provide a brief explanation of your agency's inability to address your public safety needs and implement this project without federal assistance.

[Please limit your response to a maximum of 3,000 characters.]

The Mayor of the City and County of San Francisco recently presented a FY 2010/11 balanced budget that addresses a \$483 million shortfall, which is further compounded by a budget shortfall of \$575 million for FY 2009/10. To date, the San Francisco Police Department has allocated all available discretionary funds to the maintenance of basic personnel and infrastructure, including maintenance of current information technologies. Present fiscal constraints preclude us from expanding the system, though it has proven to be an effective and essential tool for combating gun violence.

SECTION 8: CONTINUATION OF PROJECT AFTER FEDERAL FUNDING ENDS

SECTION 10: EXECUTIVE SUMMARY

Please provide a brief summary of how your agency will use this federal funding. Refer to the COPS Application Guide for clarification on specific information to include in your summary, and be sure to provide a description of how you expect this grant to impact public safety and/or crime prevention in your community. The Executive Summary may be used to keep Congress or other executive branch agencies informed on law enforcement strategies to deter crime in your community.

[Please limit your responses to a maximum of 3,000 characters.]

In January 2008 the City and County of San Francisco embarked on an effort to deploy a gunshot location system manufactured by ShotSpotter, Inc. By December 2008, Phase I of the deployment of this system was completed. The system was operational and covered 3.3 square miles of the City. Phase II of this effort was completed using local funds. In fiscal year 2009/2010 the COPS Office awarded San Francisco \$1,000,000 to further expand the system. An additional 4 square miles of coverage will be installed and operational as a result of those funds. Phase II of this project is ahead of schedule and is expected to be complete by December 2010, bringing the total square miles of coverage to 7.3.

San Francisco is the second densest city in the nation with a total of 49 square miles with a population of approximately 800,000 with an additional 400,000 to 500,000 daily visitors. Historically, the most concentrated gunfire activity, both random and malicious, has fallen within a 20 square miles zone. The goal is to make operational a gunfire location system that will cover this zone that has been plagued with gunfire activity.

In 2005 San Francisco embarked on an effort to deploy surveillance cameras in areas of the city that were most prone to violent crime. The deployment of cameras was done in a piece-meal manner. The areas of deployment were prioritized by need and funding availability. By 2008 there were a total of 76 cameras in 26 locations. Since then there have been no additional cameras deployed, primarily due to budgetary constraints.

With the funding opportunity presented through COPS for Fiscal Year 2010-2011, San Francisco hopes to implement Phase III of the gunshot location system by adding 2 additional square miles to the coverage area. This will bring San Francisco to approximately 50% completion of our desired coverage area of 20 square miles, with 9.3. Additionally, with this funding we anticipate adding 30 surveillance cameras to the existing system. The cameras will be deployed in the areas most plagued by gunfire and other violent crimes, most notably homicides and robberies.

Phase III of this project will further enhance public safety by covering additional areas within San Francisco that have, historically, been plagued with gunfire activity. Additionally, this expansion will allow for the deployment of additional community safety cameras.

SECTION 11: PROJECT DESCRIPTION (NARRATIVE)

Please include in your application an in-depth narrative response detailing your proposed project. Please refer to the program-specific section of the COPS Application Guide: "How to Apply" section for information on what should be included in your response, as well as any additional formatting requirements and page length limitations. **Note: Child Sexual Predator Program (CSPP) and Community Policing Development (CPD) grant applicants must submit their entire project description narrative as an attachment in Section 13 of this application.**

A. Problem Identification

[Responses are limited to a maximum of 3,000 characters.]

Anecdotal evidence from the media and interviews with local officials, police, and community members suggests that random gunfire is considered a serious problem in many large cities in the United States. Random gunfire has been defined as "the indiscriminate discharge of firearms into the air," which generally occurs during holiday celebrations, during weekends or sporting events, and often in association with the consumption of alcoholic beverages.

Random gunfire problems are distinguishable from other types of shooting incidents such as urban sniper attacks, gang shootouts, domestic homicides, and revenge shootings because (1) random gunfire is strictly an outdoor activity; (2) it is not usually part of other criminal activity such as drug dealing, assaults, or robberies; (3) generally, random gunfire shooters do not fire their weapons to intentionally injure or kill people.

Residents in communities with high levels of random gunfire live in perpetual fear; and law-abiding business owners and residents freely express their willingness to abandon or relocate from a neighborhood with random gunfire problems.

San Francisco is impacted by random and intentional gunfire problems as is the rest of the country. It is generally understood within the law enforcement community that acts of random gunfire create environments that are more conducive to acts of intentional gun violence. In 2008 San Francisco installed a gunshot location system manufactured by ShotSpotter, Inc., Mountain View, California. Since becoming operational the system has been a very useful tool for the San Francisco Police Department (SFPD). In the neighborhoods most impacted by violence crime, the system has alerted to gunfire incidents at a rate of close to 700% greater than is being reported by citizens. This system assists the SFPD by alerting its officers to a greater number of criminal incidents involving firearms. In 2009 The Center for Information Technology Research in the Interest of Society (CITRIS) reported on the efficacy of San Francisco's crime reduction camera program. Two significant findings were (1) there was a 23% reduction in property crimes associated with the placement of the cameras and (2) violent crime was displaced as a result of the placement of the cameras.

The use of the gunfire location system and community crime cameras has been a fundamental part of San Francisco's violence reduction strategy. We believe that the strategy is working. Accordingly, we believe that expansion of our technological capacities will further reduce the problem of gun violence in our city.

B. Project Goals/Objectives

[Responses are limited to a maximum of 3,000 characters.]

The goal of this project is to decrease the number of homicides and incidents of firearm related injuries in San Francisco. An objective is also to create a national model established in the use of technology in combating violent crime. Although, the technologies behind the gunshot location system is proven and sound, it has not been readily received in law enforcement and municipalities across the country. As San Francisco endeavors to more broadly use the gunshot location technology and integrate it with community crime cameras it provides a model of proven practice that influences crime fighting strategies nationally.

C. Building Relationships and Solving Problems

[Responses are limited to a maximum of 3,000 characters.]

D. Implementation Plan

[Responses are limited to a maximum of 3,000 characters.]

San Francisco has an infrastructure to support the expansion of the gunshot location technology and the installation of additional community crime cameras. The project will be implemented in two stages, each adding one square mile of coverage. We are planning to have the first square mile operational within four months of receiving funding and the second within three months from the time that the first is completed. Effectively, the projected timeline for completing the first square mile of coverage is by the first quarter of 2011 with the second and final area of coverage for phase III of this project to be completed by the beginning of the third quarter of 2011. From the inception of this project the San Francisco Police Department has been the lead agency, amongst several San Francisco agencies, and will maintain as the primary project management. Accordingly, this continuation will ensure an effective and efficient implementation of phase III of this project.

The system will be tested after each square mile of deployment. After each square mile of deployment is completed the system will undergo collaboration and testing. The collaboration and testing consists of having law enforcement personnel go into the deployed area and under controlled conditions conduct live gunfire testing. This will ensure that the system properly detects and provides for accurate information regarding time and location of gunfire incidents. Once the data is evaluated the engineers with ShotSpotter can make any necessary adjustments of the equipment and software to address any performance concerns. The time line for testing is dependent on the successful deployment of the system. The projected period of time for testing is by the first quarter of 2011 and by the beginning of the third quarter of 2011.

E. Evaluation Plan/Effectiveness of Program

[Responses are limited to a maximum of 3,000 characters.]

The intended evaluation plan is to measure the number of incidents in a covered area and compare the results to a base-line once the expanded areas are operational. The evaluation benchmarks will be after six and twelve months of operation. The project has a project manager who is responsible for interfacing with line staff personnel, the end users. This allows for informal and immediate addressing of the operation of the system. In addition, with phase III there will be a formal survey of line and supervisory personnel to determine the efficacy of the ShotSpotter system and the deployment of community crime cameras.

F. Project Description (Narrative) Attachment

Child Sexual Predator Program (CSPP) and Community Policing Development (CPD) applicants must submit their entire project description as an attachment in Section 13 of this application.

SECTION 13: APPLICATION ATTACHMENTS

This section should be used to attach any required or applicable attachments to your grant application (e.g., a Memorandum of Understanding). If the program for which you are applying requires a Memorandum of Understanding (MOU), this document should define the roles and responsibilities of the individuals and partner(s) involved in your proposed project. Please refer to the program-specific Application Guide to determine if an MOU or other application attachments are required. The Guide will also specify if optional attachments are permitted for submission.

The following Budget Detail Worksheets are designed to allow all COPS grant and cooperative agreement applicants to use the same budget forms to request funding. Allowable and unallowable costs vary widely and depend upon the type of COPS program. The maximum federal funds that can be requested and the federal/local share breakdown requirements also vary.

Please refer to the program-specific Application Guide to determine the allowable/unallowable costs, the maximum amount of federal funds that can be requested, and the federal/local share requirements for the COPS program for which your agency is applying. To assist you, sample Budget Detail Worksheets are included in each Application Guide.

Please complete each section of the Budget Detail Worksheets applicable to the program for which you are applying (see the program-specific Application Guide for requirements). If you are not requesting anything under a particular budget category, please check the appropriate box in that category indicating that no positions or items are requested.

All calculations should be rounded to the nearest whole dollar. Once the budget for your proposal has been completed, a budget summary page will reflect the total amounts requested in each category, the total project costs, and the total federal and local shares.

If you need assistance in completing the Budget Detail Worksheets, please call the COPS Office Response Center at 800.421.6770.

A. SWORN OFFICER POSITIONS

Instructions: This worksheet will assist your agency in reporting your agency's current entry

level salary and benefits and identifying the total salary and benefits request per officer position for the length of the grant term. Please list the current entry-level base salary and fringe benefits rounded to the nearest whole dollar for one full-time sworn officer position within your agency. Do not include employee contributions. (Please refer to the program-specific Application Guide for information on the length of the grant term for the program under which you are applying.)

Special note regarding sworn officer fringe benefits: For agencies that do not include fringe benefits as part of the base salary costs and typically calculate these separately, the allowable expenditures may be included under Part 1, Section B. Any fringe benefits that are already included as part of the agency's base salary (Part 1, Section A of the Sworn Officer Budget Worksheet) should not also be included in the separate fringe listing (Part 1, Section B).

Please refer to the program-specific Application Guide for information about allowable and unallowable fringe benefits for sworn officer positions requested under the program to which your agency is applying.

C. EQUIPMENT/TECHNOLOGY

Instructions:List non-expendable items that are to be purchased. Provide a specific description for each item and explain how the item supports the project goals and objectives as outlined in your application. Non-expendable equipment is tangible property (e.g., technology) having a useful life of more than one year and an acquisition cost of \$5,000 or more per unit. Expendable items should be included either in the "SUPPLIES" or "OTHER" categories. Applicants should analyze the cost benefits of purchasing versus leasing equipment, especially for high-price items and those subject to rapid technical advances. Rented or leased equipment costs should be listed in the "CONTRACTS / CONSULTANTS" category.

Please be advised that, to the greatest extent practical, all equipment and products purchased with these funds must be American-made.

For agencies purchasing items related to enhanced communications systems, the COPS Office expects and encourages that, wherever feasible, such voice or data communications equipment should be incorporated into an intra- or interjurisdictional strategy for communications interoperability among federal, state, and local law enforcement agencies.

See the program-specific Application Guide for a list of allowable/unallowable costs for this program. Agencies are encouraged to limit their requests to the lines shown below and group similar items together so that all items are accounted for on the budget worksheet for each category. SECTION 15A: ASSURANCES

Several provisions of federal law and policy apply to all grant programs. The Office of Community Oriented Policing Services needs to secure your assurance that the applicant will comply with these provisions. If you would like further information about any of these assurances, please contact your state's COPS Grant Program Specialist at 800.421.6770.

By the applicant's authorized representative's signature, the applicant assures that it will comply with all legal and administrative requirements that govern the applicant for acceptance and use of federal grant funds. In particular, the applicant assures us that:

1. It has been legally and officially authorized by the appropriate governing body (for example, mayor or city council) to apply for this grant and that the persons signing the application and these assurances on its behalf are authorized to do so and to act on its behalf with respect to any issues that may arise during processing of this application.

2. It will comply with the provisions of federal law, which limit certain political activities of grantee employees whose principal employment is in connection with an activity financed in whole or in part with this grant. These restrictions are set forth in 5 U.S.C. §1501, et seq.

3. It will comply with the minimum wage and maximum hours provisions of the Federal Fair Labor Standards Act, if applicable.

4. It will establish safeguards, if it has not done so already, to prohibit employees from using their positions for a purpose that is, or gives the appearance of being, motivated by a desire for private gain for themselves or others, particularly those with whom they have family, business or other ties.

5. It will give the Department of Justice or the Comptroller General access to and the right to examine records and documents related to the grant.

6. It will comply with all requirements imposed by the Department of Justice as a condition or administrative requirement of the grant, including but not limited to: the requirements of 28 CFR Part 66 and 28 CFR Part 70 (governing administrative requirements for grants and cooperative agreements); 2 CFR Part 225 (OMB Circular A-87),

2 CFR 220 (OMB Circular A-21), 2 CFR Part 230 (OMB Circular A-122) and 48 CFR Part 31.000, et seq. (FAR 31) (governing cost principles); OMB Circular A-133 (governing audits) and other applicable OMB circulars; the applicable provisions of the Omnibus Crime Control and Safe Streets Act of 1968, as amended; 28 CFR Part 38.1; the current edition of the COPS Grant Monitoring Standards and Guidelines; the applicable COPS Grant Owner's Manuals; and with all other applicable program requirements, laws, orders, regulations, or circulars. 7. If applicable, it will, to the extent practicable and consistent with applicable law, seek, recruit and hire qualified members of racial and ethnic minority groups and qualified women in order to further effective law enforcement by increasing their ranks within the sworn positions in the agency.

8. It will not, on the ground of race, color, religion, national origin, gender, disability or age, unlawfully exclude any person from participation in, deny the benefits of or employment to any person, or subject any person to discrimination in connection with any programs or activities funded in whole or in part with federal funds. These civil rights requirements are found in the non-discrimination provisions of the Omnibus Crime Control and Safe Streets Act of 1968, as amended (42 U.S.C. § 3789d); Title VI of the Civil Rights Act of 1964, as amended (42 U.S.C. § 2000d); the Indian Civil Rights Act (25 U.S.C. §§ 1301-1303); Section 504 of the Rehabilitation Act of 1973, as amended (29 U.S.C. § 794); Title II, Subtitle A of the Americans with Disabilities Act (ADA) (42 U.S.C. § 12101, et seq.); the Age Discrimination Act of 1975 (42 U.S.C. § 6101, et seq.); and Department of Justice Non-Discrimination Regulations contained in Title 28, Parts 35 and 42 (subparts C, D, E, G and I) of the Code of Federal Regulations.

A. In the event that any court or administrative agency makes a finding of discrimination on grounds of race, color, religion, national origin, gender, disability or age against the applicant after a due process hearing, it agrees to forward a copy of the finding to the Office for Civil Rights, Office of Justice Programs, 810 7th Street, NW, Washington, D.C. 20531.

B. If your organization has received an award for \$500,000 or more and has 50 or more employees, then it has to prepare an Equal Employment Opportunity Plan (EEOP) and submit it to the Office for Civil Rights ("OCR"), Office of Justice Programs, 810 7th Street, N.W., Washington, DC 20531, for review within 60 days of the notification of the award. If your organization received an award between \$25,000 and \$500,000 and has 50 or more employees, your organization still has to prepare an EEOP, but it does not have to submit the EEOP to OCR for review. Instead, your organization has to maintain the EEOP on file and make it available for review on request. In addition, your organization has to complete Section B of the Certification Form and return it to OCR. If your organization received an award for less than \$25,000; or if your organization has less than 50 employees, regardless of the amount of the award; or if your organization is a medical institution, educational institution, nonprofit organization or Indian tribe, then your organization is exempt from the EEOP requirement. However, your organization must complete Section A of the Certification Form and return it to OCR.
