Subject: Proposed Charter Amendment – Department of Sanitation and Streets, Sanitation and Streets Commission, and Public Works Commission (BOS File No: 200510)

Dear Labor Colleagues,

Supervisor Matt Haney presented amendments to the Charter Amendment re: Department of Sanitation and Streets, Sanitation and Streets Commission, and Public Works Commission (BOS File No: 200510) at the Board of Supervisors' Rules Committee on July 6, 2020. The revised Charter amendment is attached for your information.

Hello,

I am writing in support of Supervisors Haney, Ronen, Walton, Preston, and Mar's Charter Amendment that would finally address the state of our streets and to create oversight commissions for the Department of Public Works and the new Department of Sanitation and Streets.

San Francisco is one of the only major cities in America *without* a Department of Sanitation.

Especially during the time of COVID-19 and heightened fears about the spread of infectious disease, creating a new Department of Sanitation and Streets is common sense: it is a solution to keep our city clean with data-driven decision making and real accountability and oversight. The new department will be dedicated to making sure our streets and sidewalks are cleaned, that we have trash cans for litter, and that we have public bathrooms available for people to use.

The Department of Sanitation and Streets will make a huge impact on our streets and the quality of life for all San Franciscans. While our streets continue to get more dirty, the current department tasked with street cleaning has been full of fraud and corruption. We need oversight and we need it now.

Please support Supervisor Haney's charter amendment. Our city needs this change now!

Dear BOS,

I tried dialing in to today's meeting but for an "invalid/not started yet" response. Not surprising.

In reference to this item, Clean Streets/Sanitation Department: this is long overdue. I have lived in a number of cities in the US and California (Wausau & Madison, WI ; Chicago, Raleigh NC, Sacramento, Fresno, San Mateo, and 30 years in SF). NEVER in my life have I seen such filth CITYWIDE! Honestly, the streets of Cairo with 20 million people are cleaner than SF.

And it is not just the homeless who create this mess. It is the residents themselves who seem to have a mindset that it is just fine to throw candy wrappers, pizza boxes and just about anything on the sidewalks and streets. Compounding the problem is the fact that unlike Chicago, there are few receptacles and when they are there they are overflowing with junk. Some of it comes from residents who refuse to pay for garbage service but the rest is from a haphazard collection routine by DPW.

We need a real sanitation service, oversight and a mechanism to ensure public cooperation.

Christine Cordaro

Greetings Mayor Breed and Board of Supervisors

I am writing in support of Supervisors Haney, Ronen, Walton, Preston, and Mar's Charter Amendment that would finally address the conditions of our streets and to create a much needed oversight commissions for the Department of Public Works and the new Department of Sanitation and Streets.

San Francisco is one of the only major cities in America *without* a Department of Sanitation. A fact that both astounds me and that makes so much sense considering the condition our city has been in.

With us on the beginning of a statewide second wave of COVID-19 and increasing concerns about the spread of infectious disease, creating a new Department of Sanitation and Streets is necessary now more than ever and is just plain good old common sense: it is a solution to keep our city clean with data-driven decision making and real accountability and oversight. The new department will be dedicated to making sure our streets and sidewalks are cleaned, that we have trash cans for litter, and that we have public bathrooms available for people to use.

The Department of Sanitation and Streets will make a huge impact on our streets and the quality of life for all San Franciscans. While our streets continue to get more dirty, the current department tasked with street cleaning has been full of fraud and corruption. We need oversight and we need it now.

Please support Supervisor Haney's charter amendment. Our city needs this change now!

Hello,

I'm a resident of SF and have lived in the Tenderloin area for 8 years. It is **CRUCIAL** that a Department of Sanitation and Streets is created. I am a working artist who has managed to somehow stay in the city I love, despite the housing crisis. Yet everyday I am stepping over or in Human Feces, Animal Feces, used needles, and gutters full of trash and biowaste.

Please address this by creating a Department of Sanitation and Streets to address what is actually a public health issue.

Thank you,
Mica Sigourney

Hello,

I am writing in support of Supervisors Haney, Ronen, Walton, Preston, and Mar's Charter Amendment that would finally address the state of our streets and to create oversight commissions for the Department of Public Works and the new Department of Sanitation and Streets.

San Francisco is one of the only major cities in America *without* a Department of Sanitation.

Especially during the time of COVID-19 and heightened fears about the spread of infectious disease, creating a new Department of Sanitation and Streets is common sense: it is a solution to keep our city clean with data-driven decision making and real accountability and oversight. The new department will be dedicated to making sure our streets and sidewalks are cleaned, that we have trash cans for litter, and that we have public bathrooms available for people to use.

The Department of Sanitation and Streets will make a huge impact on our streets and the quality of life for all San Franciscans. While our streets continue to get more dirty, the current department tasked with street cleaning has been full of fraud and corruption. We need oversight and we need it now.

Please support Supervisor Haney's charter amendment. Our city needs this change now!

Thank you,

Lordgin Savella

Hello,

As a SOMA resident and SFUSD teacher I've been extremely concerned about the safety and sanitation of our city for many years now. COVID-19 has exacerbated the need for our tax dollars to be spent in ways that are visible and beneficial to the everyday people who have to navigate the city streets with their head down to avoid stepping on human feces, urine and/or needles. My concern is not only for the people who have to walk through this grime daily, I am also concerned for those who have no choice but to defecate in public spaces. We need real solutions and tangible change now!

I am writing in support of Supervisors Haney, Ronen, Walton, Preston, and Mar's Charter Amendment that would finally address the state of our streets and to create oversight commissions for the Department of Public Works and the new Department of Sanitation and Streets.

San Francisco is one of the only major cities in America *without* a Department of Sanitation.

Hello-

I am writing today to ask that one more supervisor vote in favor of getting a ballot measure on the November ballots in regards to a Street and Sanitation Dept. The amount of money being asked for is very small compared to the size of the total budget but will make an enormous difference in the cleanliness of our streets. I live and work in several neighborhoods that would benefit from a dedicated department to keep the streets cleaner.

I hope 6 supervisors will step up and vote in favor of putting it on the ballot so the residents of this city can vote on it in November.

Thank you

Jasmine Johnson

Mayor Breed and Board of Supervisors,

I presently live in the Nopa neighborhood, and have lived in the Bay Area for most of my life. I am writing because I have been informed there is discussion to form a Department of Sanitation and Streets in San Francisco, and was surprised to hear that this department did not exist.

I support the exploration of and potential creation of this department, as I believe the state of our streets is currently not only negatively affecting the lives of residents such as myself, but the economic future of our city (such as certain conferences pulling out of San Francisco due to the look and smell of our city).

I hope that your offices commit the time and resources to both performing due diligence, and if appropriate, forming this new department, so that our city can reflect on the outside the beauty I know our residents hold on the inside.

This message is from outside the City email system. Do not open links or attachments from untrusted sources.

Hello Mayor Breed, and Supervisors,

Having worked in District 6 and lived around for a number of years, I am writing in support of Supervisors Haney, Ronen, Walton, Preston, and Mar's Charter Amendment that addresses the state of our streets and to create oversight commissions for the Department of Public Works and the new Department of Sanitation and Streets.

San Francisco is one of the few major cities in America *without* a Department of Sanitation. Especially during the time of COVID-19 and heightened fears about the spread of infectious disease, creating a new Department of Sanitation and Streets is common sense: it is a solution to keep our city clean with data-driven decision making and real accountability and oversight. The new department will be dedicated to making sure our streets and sidewalks are cleaned, that we have trash cans for litter, and that we have public bathrooms available for people to use.

The Department of Sanitation and Streets will make a huge impact on our streets and the quality of life for all San Franciscans as well as those who travel in and out of the city.

It makes absolutely no sense all districts receive equal resources if D6 has the most daily traffic by foot and car in the city.

Please support Supervisor Haney's charter amendment or you will lose my vote come next election

Thank you,

Dan Weiner

This message is from outside the City email system. Do not open links or attachments from untrusted sources.

Dear Board of Supervisors & Mayor Breed,

I am an SF resident and concerned constituent writing in support of Supervisor Matt Haney's charter amendment to establish a Department of Sanitation & Streets, along with an oversight commission for DPW.

I strongly urge all the Supervisors to jump on board with this charter amendment as it works in the best interest of SF residents. Right now we are concerned-- more than ever-- with our dirty streets (due to COVID-19) and the DPW scandal. This proposal will bring accountability to DPW and aim to make our streets safe and clean! I was stunned to find out that San Francisco is one of the only major cities without a Department of Sanitation, yet I guess I should have known that considering how dirty our streets are. We need this charter amendment now & if it is not passed, a lot of your constituents will be disappointed.

Thank you,

Britney

Dear all,

Thank you so much for your tireless effort during this pandemic. Your leadership is inspiring and I am so proud to be a resident of San Francisco! I am writing today about a different matter, in support of Supervisors Haney, Ronen, Walton, Preston, and Mar's Charter Amendment that would finally address the state of our streets and to create oversight commissions for the Department of Public Works and the new Department of Sanitation and Streets.

I was really surprised to learn that San Francisco is one of the only major cities in America *without* a Department of Sanitation. Especially during this scary time of COVID-19 and heightened fears about the spread of infectious disease, creating a new Department of Sanitation and Streets is common sense. I believe that it is a solution to keep our city clean with data-driven decision making and real accountability and oversight. I fully support the work the new department would be doing - making sure our streets and sidewalks are cleaned, that we have trash cans for litter, and that we have public bathrooms available for people to use. I am consistently disappointed at the state of our streets and the hazardous waste and materials often strewn onto the sidewalks for days. It concerns me that these unsanitary conditions create greater risk for our most vulnerable communities to contract and spread diseases.

The Department of Sanitation and Streets will make a huge impact on our streets and the quality of life for all San Franciscans. While our streets continue to get more dirty, the current department tasked with street cleaning has been full of fraud and corruption. We need oversight and we need it now.

Please support Supervisor Haney's charter amendment. I am a proud constituent of his, and I believe his work is truly leading the way for the changes our city desperately needs.

Kindest regards,

Jordan Amann
San Francisco Resident, District 6

Hello Mayor London Breed,

My name is Jesse Ante I am a Cal Alumni engineer and worked in San Francisco for 40 years 27 with PG&E and 13 with California Public Utilities Commission. I love this city and enjoyed all the time I have spent my professional career, however over the years I have seen the income inequality of the tech boom fuel the rise of homelessness and moral corruption has also leaked onto our dirty streets. When I travel the world, I tell people where I work in the city and the first thing they say is "San Francisco it's is on my Bucket list of favorite cities to visit". Right now it's still a beautiful and desired city but relatives who recently visited are affected by the homelessness and dirty streets.

I am writing in support of Supervisors Haney, Ronen, Walton, Preston, and Mar's Charter Amendment that would finally address the state of our streets and to create oversight commissions for the Department of Public Works and the new Department of Sanitation and Streets

The new department will be dedicated to making sure our streets and sidewalks are cleaned, that we have trash cans for litter, and that we have public bathrooms available for people to use.

The Department of Sanitation and Streets will make a huge impact on our streets and the quality of life for all San Franciscans. While our streets continue to get more dirty, the current department tasked with street cleaning has been full of fraud and corruption. We need oversight and we need it now.

I am hoping that you will take the bold action that is needed now to make a change for our neighborhood. Please add yourself as a co-sponsor to truly make a change and to show your constituents that you care.

Please support Supervisor Haney's charter amendment. Our city needs this change now!

Thank you,
Delali Dzikunu

Dear Mayor Breed and Supervisors,

I am a constituent of **Mission District** and I am writing in support of Supervisors Haney, Ronen, Walton, Preston, and Mar's Charter Amendment that would finally address the state of our streets and create oversight commissions for the Department of Public Works and the new Department of Sanitation and Streets.

San Francisco is one of the only major cities in America without a Department of Sanitation.

Especially during the time of COVID-19 and heightened fears about the spread of infectious disease, creating a new Department of Sanitation and Streets is common sense. It is a solution to keep our city clean with data-driven decision making and real accountability and oversight. The new department will be dedicated to making sure our streets and sidewalks are cleaned, that we have trash cans for litter, and that we have public bathrooms available for people to use.

The Department of Sanitation and Streets will make a huge impact on our streets and the quality of life for all San Franciscans. To whom it may concern,

I would like to voice my support for the amendment proposed by Supervisors haney, Ronen, Walton, Preston, and Mar which would create oversight commissions for the DPW and create a Department of Sanitation and Streets. I am a constituent of District 9, and I believe it is imperative that splitting the Department of Public works will help fight corruption in our city and finally put our resources towards creating a clean and livable city for all residents. I urge anyone reading this email to vote in favor of this measure tomorrow.

Best,
Lola Cleaveland
District 9 Resident

Especially during the time of COVID-19 and heightened fears about the spread of infectious disease, creating a new Department of Sanitation and Streets is common sense. It is a solution to keep our city clean with data-driven decision making and real accountability and oversight. The new department will be dedicated to making sure our streets and sidewalks are cleaned, that we have trash cans for litter, and that we have public bathrooms available for people to use.

The Department of Sanitation and Streets will make a huge impact on our streets and the quality of life for all San Franciscans. While our streets continue to get more dirty, the current department tasked with street cleaning has been full of fraud and corruption. We need oversight and we need it now.

I am hoping that you will take the bold action that is needed now to make a change for our neighborhood. Please add yourself as a co-sponsor to truly make a change and to show your constituents that you care.

Please support Supervisor Haney's charter amendment. Our city needs this change now!

Thank you.

Dear Mayor Breed and Supervisors,

My name is Olivia and I am a constituent of Bernal Heights. I am writing in support of Supervisors Haney, Ronen, Walton, Preston, and Mar's Charter Amendment that would finally address the state of our streets and create oversight commissions for the Department of Public Works and the new Department of Sanitation and Streets.

San Francisco is one of the only major cities in America without a Department of Sanitation.

Hello,

I am writing in support of Supervisors Haney, Ronen, Walton, Preston, and Mar's Charter Amendment that would finally address the state of our streets and to create oversight commissions for the Department of Public Works and the new Department of Sanitation and Streets.

San Francisco is one of the only major cities in America *without* a Department of Sanitation. Especially during the time of COVID-19 and heightened fears about the spread of infectious disease, creating a new Department of Sanitation and Streets is common sense: it is a solution to keep our city clean with data-driven decision making and real accountability and oversight. The new department will be dedicated to making sure our streets and sidewalks are cleaned, that we have trash cans for litter, and that we have public bathrooms available for people to use.

The Department of Sanitation and Streets will make a huge impact on our streets and the quality of life for all San Franciscans. While our streets continue to get more dirty, the current department tasked with street cleaning has been full of fraud and corruption. We need oversight and we need it now.

Please support Supervisor Haney's charter amendment. Our city needs this change now!

Thank you,

To whom it may concern,

The idea of a Department of Sanitation, providing oversight as to our efforts to keep our neighborhoods clean and safe is something I can support. The current state of San Francisco's streets is poor at best. This is not due to the lack of effort by any of the cities various departments or agencies but instead reliant upon a cross department / agency coordination they may not exist. Why not make one point person / persons responsible?

This used to be called the greatest city in the world? We need a tune-up.
