Brian Strong, Chief Resilience Officer and Director  
Office of Resilience and Capital Planning  
April 19, 2023

# The 10-Year Capital Plan

- ❑ Adopted in 2006 to provide a formal structure to infrastructure planning and finance
- ❑ Guides San Francisco's infrastructure investments over the next ten years, and is updated every two years
- ❑ Fiscally constrained, relies on funding principles and policies to prioritize projects and allocate funds
- ❑ Capital Planning Committee recommends Plan, use of debt, and annual capital budget for Board of Supervisor's approval
  - ❑ G.O Bond Program
  - ❑ Debt Program (COPs and Revenue bonds)
  - ❑ Capital Budget and Pay-As-You-Go Program

# G.O. Bond Program

---

# G.O. Program Considerations

- Current policy is that G.O. bonds will not increase tax rates above 2006 levels (which means capacity to issue new bonds is very limited until 2028)
- Bonding capacity is very limited until 2028, due to:
  - Lower, near-term assessed value projections from Controller
  - Several, recently-approved, large G.O. Bond measures (as seen on previous slide)
- Proposed bond program must reflect even-year only election cycle
- New needs related to climate change and housing in addition to on-going seismic and state of repair infrastructure needs are out-stripping revenue sources

## COPs Debt Capacity

# Pay-As-You-Go (Cash) Program

---

# Proposed Pay-As-You-Go Program

## Policies and assumptions

- Pay Go funding level aims to restore and eventually exceed pre-pandemic funding levels
  - Recommend General Fund investment of \$89M in FY2024 growing by \$30M per year until FY2028, and \$25M per year thereafter
  - Recommend issuing \$30 million COPs in FY24 and FY25 to support lower General Fund funding level
- Achieve and maintain Street Resurfacing Pavement Condition Index (PCI) target at 75
  - Current PCI level is 74
- ADA-related policy continues to prioritize barrier access removal and the ongoing Curb Ramps right-of-way program
- Maintain \$10M/yr for Enhancement projects
  - In FY24 and FY25 the Plan recommends \$5M/yr due to lower General Fund funding level

# Proposed Pay-As-You-Go Program

## Impact of COVID-19 on Capital Plan

- The FY22-31 Capital Plan (in blue) was reduced significantly due to the uncertainties posed by COVID-19
- The FY24-33 Capital Plan (in red) is attempting to restore pre-pandemic funding levels, but proposed funding still falls short

# Proposed Pay-As-You-Go Program

## Impact of Funding Level on Backlog

- Facilities Backlog estimation methodology
  - Current backlog is defined as total current renewal need (i.e. deferred maintenance + immediate need) less the amount funded in the first year of the Plan
  - The chart above does not include REC facilities since REC has a GF set-aside to address these needs
  
- At planned funding levels, the facilities backlog is expected to start reducing in FY2028

# Questions and Comments

# G.O. Bond Program Review

- Historically, the Capital Plan has focused on life safety (seismic needs, first responder facilities) and the City's state-of-good-repair needs

## VOTER APPROVED BONDS SINCE 2008

Year	Program	Current Amount
2008	Neighborhood Parks and Open Space	180
2008	Public Health - SFGH rebuild	887
2010	Earthquake Safety & Emergency Response	412
2011	Road Resurfacing and Street Safety	248
2012	Neighborhood Parks and Open Space	195
2014	Earthquake Safety & Emergency Response	400
2014	Transportation	500
2015	Affordable Housing	310
2016	Public Health and Safety	350
2018	Seawall Resilience	425
2019	Affordable Housing	600
2020	Earthquake Safety & Emergency Response	628.5
2020	Health and Recovery	487.5
<b>TOTAL</b>		<b>5,623</b>

- Voters have approved \$1.7B in bonds since 2019
- This recent success limits capacity to issue new bonds in the near-term (while remaining under the 2006 property tax constraint)
