Findings

Having reviewed the materials identified in the preamble above, and having heard all testimony and arguments, this Commission finds, concludes, and determines as follows:

The Department supports the overall goals of the proposed Ordinance because it will increase the effectiveness of the Department's the code enforcement program and deter future violations. The administrative penalty program has not been significantly updated since its creation in 2008, and as such, its process and penalty amounts have become less effective in inducing compliance with the Planning Code. The proposed Ordinance, with all recommended modifications, will give the Department much needed tools to increase the effectiveness of the Enforcement Division.

General Plan Compliance

The proposed Ordinance and the Commission's recommended modifications are consistent with the following Objectives and Policies of the General Plan:

HOUSING ELEMENT
