[Building, Subdivision, and Administrative Codes - Fee Adjustment and Building Inspection Fund Subfunds]

Ordinance amending the Building, Subdivision, and Administrative Codes to adjust fees charged by the Department of Building Inspection and to establish Subfunds within the Building Inspection Fund; and affirming the Planning Department's determination under the California Environmental Quality Act.

NOTE: **Unchanged Code text and uncodified text** are in plain Arial font.
Additions to Codes are in *single-underline italics Times New Roman font*.
Deletions to Codes are in ~~*strikethrough italics Times New Roman font*~~.
Board amendment additions are in double-underlined Arial font.
Board amendment deletions are in ~~strikethrough Arial font~~.
Asterisks (* * * *) indicate the omission of unchanged Code subsections or parts of tables.

Be it ordained by the People of the City and County of San Francisco:

Section 1. Environmental and General Findings.

(a) The Planning Department has determined that the actions contemplated in this ordinance comply with the California Environmental Quality Act (California Public Resources Code Sections 21000 et seq.). Said determination is on file with the Clerk of the Board of Supervisors in File No. 250592 and is incorporated herein by reference. The Board affirms this determination.

(b) On June 18, 2025, at a duly noticed public hearing, the Building Inspection Commission considered this ordinance in accordance with Charter Section 4.121 and Building Code Section 104A.2.11.1.1. A copy of a letter from the Secretary of the Building Inspection Commission regarding the Commission's recommendation is on file with the Clerk of the Board of Supervisors in File No. 250592.

1 (c) No local findings are required under California Health and Safety Code Section
2 17958.7 because the amendments to the Building Code contained in this ordinance do not
3 regulate materials or manner of construction or repair, and instead relate in their entirety to
4 administrative procedures for implementing the Code, which are expressly excluded from the
5 definition of a "building standard" by California Health and Safety Code Section 18909(c).

6 (d) The Department of Building Inspection submitted a report describing the basis for
7 modifying various fees in the Building Code. Said report is on file with the Clerk of the Board
8 of Supervisors in File No. 250592.

9
10 Section 2. Chapter 1A of the Building Code is hereby amended by revising Sections
11 102A.13, 104A.4, 104A.5, 107A.7.2A, and 110A (specifically Tables 1A-A through 1A-S), to
12 read as follows:

13 **102A.13 Repair and Demolition Fund.** A special revolving fund, established by Section
14 10.100-45 of the Administrative Code, ~~to be known as~~ the Repair and Demolition Fund, may be
15 used for the purpose of defraying the costs and expenses (including Department
16 administrative costs) which may be incurred by the Building Official in carrying out the actions
17 described in Section 102A.12.

18 The Board of Supervisors may, by transfer or by appropriation, establish or increase
19 the special revolving fund with such sums as it may deem necessary in order to expedite the
20 performance of the work of securing, repairing, altering or demolition. The Repair and
21 Demolition Fund shall be replenished with all funds collected under the proceedings
22 hereinafter provided for, either upon voluntary payments or as the result of the sale of the
23 property after delinquency, or otherwise. Balances remaining in the Repair and Demolition
24 Fund at the close of any fiscal year shall be carried forward in such fund.

1 **104A.4 Code ~~E~~enforcement and ~~R~~ehabilitation ~~F~~und.** All funds deposited by the State
2 Controller from the Local Agency Code Enforcement and Rehabilitation Fund shall be deposited into
3 the Code Enforcement and Rehabilitation Fund established by Section 10.100-45 of the Administrative
4 Code.

5 ~~**104A.4.1 Establishment.** There is hereby established in the Treasury of the City and County of~~
6 ~~San Francisco a special fund to be known and designated as the Code Enforcement and Rehabilitation~~
7 ~~Fund, into which shall be deposited all funds allocated by the State Controller from the Local Agency~~
8 ~~Code Enforcement and Rehabilitation Fund.~~

9 **104A.4.2~~1~~ Use of funds.** The Code Enforcement and Rehabilitation Fund shall be
10 used exclusively to defray costs incurred in the enforcement of local code provisions
11 mandated by State law.

12 **104A.5 Building Inspection Fund.** All ~~fees~~revenue collected pursuant to this ~~e~~Code
13 shall be deposited into the Building Inspection Fund and its Subfunds established by the City
14 Controller pursuant to Section ~~10.117-78~~10.100-45 of the ~~San Francisco~~ Administrative Code.
15 The Building Inspection Fund ~~This fund~~ shall be used by the Department, subject to the approval
16 of the Building Inspection Commission, to defray costs incurred for, but not limited to,
17 personnel, supplies, and equipment used in evaluating the applications, maintaining files and
18 records, and for disseminating information, reviewing plans and making inspections to
19 determine compliance with the conditions of approvals. Any charges established by the
20 Building Official or the Building Inspection Commission for copies of approvals, publications or
21 other Department records shall be deposited into this fund. Deposits into and expenditures from
22 the Subfunds shall be made pursuant to the provisions of Section 10.100-45(c) of the Administrative
23 Code.

1 **107A.7.2A California Building Standards Commission Fund.** That portion of the fee
2 assessed pursuant to Section 107A.7.2 relating to building materials that is retained by the
3 Department of Building Inspection shall be deposited into the California Building Standards
4 Commission Fund established by Section 10.100-45 of the Administrative Code~~the City Controller~~.
5 ~~This category 2~~ fund shall be used, subject to the approval of the Building Official and the
6 Building Inspection Commission, for administrative costs and code enforcement education,
7 including but not limited to, certification in the voluntary construction inspector certification
8 program. The California Building Standards Commission Fund shall continue from year to
9 year ~~and shall not be included in the Cash Reserve Fund~~.

Section 3. Division 1, Article 3 of the Subdivision Code is hereby amended by revising Section 1315, to read as follows:

SEC. 1315. FEES.

* * * *

(e) Additional Fees.

(1) In instances where administration or processing of any application, action, or procedure is or will exceed the fee amount established pursuant to subsection (a), the

1 Director, in his or her discretion, may require an applicant or permittee to pay a sum in excess
2 of the subject fee amounts. This additional sum shall be sufficient to recover actual costs that
3 the Department incurs and shall be charged on a time and materials basis. The Director also
4 may charge for any time and materials costs that other agencies, boards, commissions, or
5 departments of the City, including the City Attorney's Office, incur in connection with the
6 processing or administration of a particular application, action, or procedure. Whenever
7 additional fees are or will be charged, the Director, upon request of the applicant or permittee,
8 shall provide in writing the basis for the additional fees or an estimate of the additional fees to
9 be charged.

10 (2) **DBI Review Fee.** A subdivision fee of \$374.00 listed in Building Code Section 110A
11 Table 1A-J shall be charged for each action specified above that the Department of Building
12 Inspection reviews. This fee is in addition to the fees specified above and shall be paid
13 separately at the time of application.

14 (f) Beginning with fiscal year 2006-2007, the fees which are established herein may
15 be adjusted each year, without further action by the Board of Supervisors, to reflect changes
16 in the relevant Consumer Price Index, as determined by the Controller. No later than April
17 15th of each year, the Director shall submit the Department's current fee schedule to the
18 Controller, who shall apply the price index adjustment to produce a new fee schedule for the
19 following year. No later than May 15th of each year, the Controller shall file a report with the
20 Board of Supervisors reporting the new fee schedule and certifying that: (a) the fees produce
21 sufficient revenue to support the costs of providing the services for which the fee is charged
22 and (b) the fees do not produce revenue that exceeds the costs of providing the services for
23 which each permit fee is charged. Notwithstanding the procedures set forth in this Section, the
24 Board of Supervisors, in its discretion, may modify the fees at any time.

1 Section 4. Chapter 10, Article 13 of the Administrative Code is hereby amended by
2 revising Section 10.100-45, to read as follows:

3
4 **SEC. 10.100-45. BUILDING INSPECTION FUND.**

5 (a) **Establishment of Fund.** The Building Inspection Fund is established ~~as a category~~
6 ~~four fund~~ to receive all operating revenues collected by the Department of Building Inspection,
7 including, but not limited to, application fees, permit fees, plan check fees, the Apartment and
8 Hotel License Fee, and reproduction fees, but excluding Fire Department plan check fees,
9 and Department of City Planning fees shall be deposited into this fund.

10 (b) **Use of the Fund.** This fund shall be used by the Department of Building
11 Inspection, subject to the approval of the Building Inspection Commission exclusively to
12 defray the costs of the Bureau of Building Inspection in processing and reviewing permit
13 applications and plans, field inspections, code enforcement and reproduction of documents.

14 (c) **Subfunds.** Within the Building Inspection Fund shall be established:

15 (1) An Operating Fund as a category three fund.

16 (2) A Continuing Projects Fund as a category four fund.

17 (3) A Special Revenue Fund as a category eight fund for the following purposes:

18 (A) Management of Building Code Section 107A.7.2A, California Building
19 Standards Commission Fund.

20 (B) Management of Building Code Section 104A.4, Code Enforcement and
21 Rehabilitation Fund.

22 (C) Management of Building Code Section 107A.7.1, Strong Motion Revolving
23 Fund.

24 (D) Management of Building Code Section 102A.13, Repair and Demolition
25 Fund.

1 (E) Deposit and management of other Department of Building Inspection non-
2 operating revenue.

3
4 Section 5. Effective Date. This ordinance shall become effective 30 days after
5 enactment. Enactment occurs when the Mayor signs the ordinance, the Mayor returns the
6 ordinance unsigned or does not sign the ordinance within ten days of receiving it, or the Board
7 of Supervisors overrides the Mayor's veto of the ordinance.

8
9 Section 6. Implementation. The Controller is authorized and directed to make budget
10 and accounting adjustments to implement the changes herein within 60 days of the effective
11 date.

12
13 Section 7. Scope of Ordinance. In enacting this ordinance, the Board of Supervisors
14 intends to amend only those words, phrases, paragraphs, subsections, sections, articles,
15 numbers, punctuation marks, charts, diagrams, or any other constituent parts of the Municipal
16 Code that are explicitly shown in this ordinance as additions, deletions, Board amendment
17 additions, and Board amendment deletions in accordance with the "Note" that appears under
18 the official title of the ordinance.

LEGISLATIVE DIGEST

[Building, Subdivision, and Administrative Codes - Fee Adjustment and Building Inspection Fund Subfunds]

Ordinance amending the Building, Subdivision, and Administrative Codes to adjust fees charged by the Department of Building Inspection and to establish Subfunds within the Building Inspection Fund; and affirming the Planning Department's determination under the California Environmental Quality Act.

Existing Law

Building Code Section 110A establishes the fees for permits and services provided by the Department of Building Inspection in Tables 1A-A through 1A-S. Subdivision Code Section 1315 establishes a set \$374 fee for subdivisions. Section 10.100-45 establishes the Building Inspection Fund ("BIF") for depositing permit fees and the outlines the permissible expenditures from the Fund.

Amendments to Current Law

The fee tables in Section 110A are being amended to adjust all fees by amounts pursuant to a 2023 fee study. The Proposed Legislation would also amend Section 1315 of the Subdivision Code to delete the set \$374 fee and instead refer back to Section 110A, Table 1A-J of the Building Code. Finally, the Proposed Legislation would add subfunds within the BIF for specific revenue sources and expenditures.

Background Information

In 2023, the Department of Building Inspection ("DBI") commissioned a fee study to determine the actual costs of service for each permit service. The fee study produced a recommended maximum amount to set each fee that would fully recover DBI costs to perform the service without risk of overcharge to permit applicants. To implement fee increases gradually, the fees were increased partially in 2024 and the Proposed Legislation makes the next incremental adjustment of fees. All the fees will remain at or below the maximum recoverable amount identified in the fee study. This legislation is part of the Mayor's budget presentation.

DBI Fee Legislation

Budget and Appropriations Committee – June 20, 2025

Fee Ordinance

- **File No. 250592** amends the Building Code to adjust fees based on the recommendations of the NBS (consultant) fee study.
- Fees in the proposed ordinance are assumed in the department's FY 2025-26 and FY 2026-27 budget.
- The Code Advisory Committee and Building Inspection Commission reviewed the ordinance and recommended approval.

Background on Fees

- The Department of Building Inspection is an enterprise department that operates on a cost-recovery model.
- In 2023, DBI hired NBS, a consultant, to perform a user fee study to determine fee amounts that recover costs in compliance with applicable laws and industry standards.
- The fee study was completed in January 2024 and found that the majority of DBI's fees were lower than fees charged by other large California cities for similar services.
- The consultant recommended that fees be updated annually.

Fee History

- Fee history
 - FY08 increase (fee study)
 - FY15 decrease (fee study)
 - FY24 increase (15% on all)
 - FY25 increase (18.4% revenue increase, phase one of three)
- 42% revenue decrease from FY19 to FY23
- Phased-in fee increase over three years, reaching full cost recovery in FY27

Grant Funding

- An amendment to the fee legislation has been submitted that adjusts fees, primarily increasing the hotel and apartment license fees.
- This will generate an additional **\$1.7M** for the Code Enforcement Outreach Program grants.

Dear Ms. Calvillo:

RE: File No. 250592

Ordinance amending the Building, Subdivision, and Administrative Codes to adjust fees charged by the Department of Building Inspection and to establish Subfunds within the Building Inspection Fund; and affirming the Planning Department's determination under the California Environmental Quality Act.

The Code Advisory Committee (CAC) met on June 11, 2025 to consider adoption of the File No. 250592 Fee Adjustment. After a power point presentation by the Department of Building Inspection (DBI) staff as to the origins and need for fee adjustment to meet full recovery of expenses, the committed vote 8 to 3 **to recommend the Building Inspection Commission (BIC) approve the ordinance** with the conditions any surplus funds stay within the Building Department.

The Building Inspection Commission met and held a public hearing on June 18, 2025 regarding the proposed amendment to the Building, Subdivision, and Administrative Codes contained in Board File No. 250592. The Commission recommended the fee legislation with amendments as presented by the Department of Building Inspection to cover the fee increase related to the Code Enforcement Outreach Program (CEOP), and any amendments made by the Board of Supervisors to cover the Single Room Occupancy (SRO) Collaborative Program.

The Commissioners voted unanimously to **recommend approval of the Ordinance.**

1. EXECUTIVE SUMMARY

NBS performed a Comprehensive User Fee Study (Study) for the San Francisco Department of Building Inspection (DBI). The purpose of this report is to present the findings and recommendations of the various fee analyses performed as part of the Study and provide DBI with the information needed to update and establish user and regulatory fees for service. Throughout the process, the Study afforded much effort to ensure that not only are the fees and charges reasonable and equitable, but that they also meet industry standards and uphold the statutory requirements of the State of California.

California cities, counties, and special districts may impose user and regulatory fees for services and activities they provide through provisions set forth in the State Constitution, Article XIII C § 1. Under this legal framework, a fee may not exceed the reasonable cost of providing the service or performing the activity. For a fee to qualify as such, it must relate to a service or activity performed at the request of an individual or entity upon which the fee is imposed, or their actions specifically cause the local government agency to perform additional activities. In this instance, the service or underlying action causing the local agency to perform the service is either discretionary and/or is subject to regulation. As a discretionary service or regulatory activity, the user fees and regulatory fees considered in this Study fall outside of the definition and statutory requirement to impose general taxes, special taxes, and fees as a result of property ownership.

DBI's main reason for conducting this Study was to ensure that existing fees do not exceed the costs of service, and (to provide an opportunity for the Board of Supervisors to re-align fee amounts with localized cost recovery goals and policies.

1.1 Findings

This Study examined user and regulatory fees managed by DBI's Permit, Inspection, and Administration services. The Study identified an estimated \$84 million in eligible costs for recovery from fees for service compared to approximately \$61.4 million DBI is currently collecting each year from fees. The table on the following page provides a summary of the Study's results:

* sufficient data regarding activity levels for fees charged was not available for purposes of annual revenue analysis

As shown in Table 1 above, DBI is recovering approximately 73% of the costs associated with providing user and regulatory fee-related services. Should the Board adopt fees at 100% of the full cost recovery amounts determined by this Study, an additional \$22.6 million in costs could be recovered.

However, Section 2.2.3 later explains, there may be other local policy considerations that support adopting fees at less than the calculated full cost recovery amount. Since this element of the Study is subjective, NBS provided the maximum potential of fee amounts at 100% full cost recovery for DBI to consider. As such, DBI staff provided initial recommended fee amounts for the Board's consideration. If the Board elects to adopt fee levels at staff's initial recommendations, an additional \$14.3 million in costs could be recovered, for an 90% cost recover outcome for services provided. Once the Board of Supervisors has reviewed and evaluated the results of the Study, DBI can set fees at appropriate cost recovery levels according to local policy goals and considerations.

1.2 Report Format

This report documents the analytical methods and data sources used in the Study, presents findings regarding current levels of cost recovery achieved from user and regulatory fees, discusses recommended fee amounts, and provides a comparative survey of fees to neighboring agencies for similar services. The report is organized into the following sections:

- Section 2 - Outlines the general framework, approach, and methodology of the Fee Study.
- Section 3 - Discusses the results of the cost of service analysis. The analysis includes: (1) fully burdened hourly rate(s); (2) calculation of the costs of providing service; (3) the cost recovery performance of each fee category; and, (4) the staff-recommended fees for providing services.
- Section 4 - Presents the conclusions of the analysis provided in the preceding sections.
- Appendices to this report - Include additional details of the analysis performed and a comparison of the fees imposed by neighboring agencies for similar services.

2. INTRODUCTION AND FUNDAMENTALS

2.1 Scope of Study

The following is a summary of the fees evaluated during the Study:

- Permit Services
- Inspection Services
- Administration Services

The fees examined in this report specifically exclude development impact fees, and any special tax assessments which fall under a different set of statutory and procedural requirements from the body of user and regulatory fees analyzed in this Study. The Study also excludes facility and equipment rental rates, as well as fines and penalties imposed by DBI for violations of requirements or codes.¹

Additionally, this Study excludes any analysis of Code Enforcement Outreach Grants. DBI currently contracts with various Community Based Organizations to provide code enforcement outreach services to apartment and Single Room Occupancy (SRO) tenants and apartment owners. The budget for these services is \$4.8M annually for FY 24 and FY 25, and they are funded by the City's General Fund. Because the services have their own funding source, they are excluded from existing fee cost recovery calculations. The Building Inspection Commission has requested that alternative funding options be explored due to economic uncertainty surrounding the General Fund. DBI staff will continue to work with consultants to determine possible alternatives.

2.2 Methods of Analysis

Three phases of analysis were completed:

2.2.1 COST OF SERVICE ANALYSIS

This cost of service analysis is a quantitative effort that compiles the full cost of providing governmental services and activities. There are two primary types of costs considered: direct and indirect costs. Direct costs are those that specifically relate to an activity or service, including the real-time provision of the service. Indirect costs are those that support the provision of services in general but cannot be directly or easily assigned to a singular activity or service.

¹ According to the California Constitution Article XIII C § 1 (e) (4) and (5), DBI is not limited to the costs of service when charging for entrance to or use of government property, or when imposing fines and penalties.

Direct Costs:

- **Direct personnel costs** – Salary, wages and benefits expenses for personnel specifically involved in the provision of services and activities to the public.
- **Direct non-personnel costs** – Discrete expenses attributable to a specific service or activity performed, such as contractor costs, third-party charges, and materials used in the service or activity.

Indirect Costs:

- **Indirect personnel costs** – Personnel expenses supporting the provision of services and activities. This can include line supervision and departmental management, administrative support within a department, and staff involved in technical support activities related to the direct services provided to the public.
- **Indirect non-personnel costs** – Expenses other than labor involved in the provision of services. In most cases, these costs are allocated across all services provided by a department, rather than directly assigned to individual fee/rate categories.
- **Overhead costs** – These are expenses, both labor and non-labor, related to agency-wide support services. Support services include general administrative services such as County Administrator, Finance, Human Resources, etc. The amount of costs attributable to the sections included in this Study were sourced from DBI's Operating Expenditure Budget.

All cost components in this Study use annual (or annualized) figures, representing a twelve-month cycle of expenses incurred by DBI.

Nearly all the fees reviewed in this Study require specific actions on the part of DBI staff to provide the service or conduct the activity. Since labor is the primary underlying factor in these activities, the Study expresses the full cost of service as a fully burdened cost per labor hour. NBS calculated a composite, fully burdened, hourly rate for each service area applicable to the organization. These rates serve as the basis for further quantifying the average full cost of providing individual services and activities. Determining the fully burdened labor rate for each service area requires two data sets: (1) the full costs of service, and (2) the number of staff hours available to perform those services. NBS derived the hours available based on the complete list of all DBI employees and/or available service hours of its contracted professionals (where applicable).

DBI supplied NBS with the total number of paid labor hours for each employee involved in the delivery of services included in this Study. These available hours represent the amount of productive time available to provide both fee-recoverable and non-fee recoverable services and activities. Available labor hours divided into the annual full costs of service equal the composite, fully burdened, labor rate. Some agencies may also use the resulting rates for purposes other than setting fees, such as calculating the full cost of general services or structuring a cost recovery agreement with another agency or third party.

NBS also assisted DBI in estimating the staff time for the services and activities listed in the DBI's fee schedule. Time tracking records for the fee programs studied as part of this analysis, when available, proved useful in identifying time spent providing general categories of service (e.g., division administration, plan review, inspection, public information assistance, etc.). However, DBI does not systematically track the service time of activities for all individual fee-level services provided. Therefore,

NBS also relied on interviews and questionnaires to develop the necessary data sets of estimated labor time. In many cases, DBI provided estimates of the average amount of time (in minutes and hours) it took to complete a typical service or activity considered on a per-occurrence basis.

It should be noted that the development of these time estimates was not a one-step process but required careful review by both NBS and DBI staff to assess the reasonableness of such estimates. Based on the results of this review, DBI reconsidered its time estimates until all parties were comfortable that the fee models reasonably reflected the average service level provided by DBI. Finally, the fully burdened labor rates calculated in earlier steps were applied at the individual fee level time estimates, yielding an average total cost of providing each fee for service or activity. The graphic below provides a visual representation of the steps discussed in this section.

2.2.2 FEE ESTABLISHMENT

The fee establishment process includes a range of considerations, including the following:

- **Addition to and deletion of fees** – The Study provided each service area with the opportunity to propose additions and deletions to their current fee schedules, as well as re-name, re-organize, and clarify which fees were to be imposed. Many of these fee revisions allowed for better adherence to current practices, as well as the improvement in the calculation, application, and collection of the fees owed by an individual. Some additions to the fee schedule were simply the identification of existing services or activities performed by DBI staff for which no fee is currently charged.
- **Revision to the structure of fees** – In most cases, the focus was to re-align the fee amount to match the costs of service and leave the current structure of fees unchanged. However, in

several cases, fee categories and fee names had to be simplified or re-structured to increase the likelihood of full cost recovery or to enhance the fairness of how the fee is applied to the various types of fee payers.

- **Documentation of the tools used to calculate special cost recovery** –DBI’s fee schedule should include the list of fully burdened rates developed by the Study. Documenting these rates in the fee schedule provides an opportunity for the Board of Supervisors to approve rates for cost recovery under a “time and materials” approach. It also provides clear publication of those rates so that all fee payers can readily reference the basis of any fee amounts. The fee schedule should provide language that supports special forms of cost recovery for activities and services not included in the adopted master fee schedule. In these rare instances, published rates are used to estimate a flat fee or bill on an hourly basis, which is at the department director’s discretion.

2.2.3 COST RECOVERY EVALUATION

The NBS fee model compares the existing fee for each service or activity to the average total cost of service quantified through this analysis. Here are the possible outcomes of the fee analysis:

- Cost recovery rate of 0% - This signifies that there is currently no current recovery of costs from fee revenues (or insufficient information available for evaluation).
- Cost recovery rate of 100% - This means that the fee currently recovers the full cost of service.
- Cost recovery rate between 0% and 100% - This indicates partial recovery of the full cost of service through fees.
- Cost recovery rate greater than 100% - This means that the fee exceeds the full cost of service. User fees and regulatory fees should not exceed the full cost of service.

In all cases, the cost recovery rate achieved by a fee should not be greater than 100%. In most cases, imposing a fee above this threshold could change the definition of the charge from a cost of service based fee to a tax which has other procedural requirements, such as ballot protest or voter approval.

NBS assisted with modeling the “recommended” or “target” level of cost recovery for each fee, established at either 100% or any amount less than the calculated full cost of service. Targets and recommendations reflect discretion on the part of the agency based on a variety of factors, such as existing DBI policies and agency-wide or departmental revenue objectives, economic goals, community values, market conditions, level of demand, and others.

A general method of selecting an appropriate cost recovery target is to consider the public and private benefits of the service or activity in question, such as:

- To what degree does the public at large benefit from the service?
- To what degree does the individual or entity requesting, requiring, or causing the service benefit?

When a service or activity benefits the public at large, there is generally little to no recommended fee amount (i.e., 0% cost recovery), reinforcing the fact that a service which truly benefits the public is best funded by general resources of DBI, such as revenues from the General Fund (e.g., taxes). Conversely,

when a service or activity wholly benefits an individual or entity, the cost recovery is generally closer to or equal to 100% of cost recovery from fees collected from the individual or entity.

In some cases, a strict public-versus-private benefit judgment may not be sufficient to finalize a cost recovery target. Any of the following factors and considerations may influence or supplement the public-versus-private benefit perception of a service or activity:

- If optimizing revenue potential is an overriding goal, is it feasible to recover the full cost of service?
- Will increasing fees result in non-compliance or public safety problems?
- Are there desired behaviors or modifications to behaviors of the service population helped or hindered through the degree of pricing for the activities?
- Does current demand for services support a fee increase without adverse impact to the community served or current revenue levels? In other words, would fee increases have the unintended consequence of driving away the population served?
- Is there a good policy basis for differentiating between the type of user (e.g., residents vs. non-residents, residential vs. commercial, non-profit entities, and business entities)?
- Are there broader DBI objectives that merit a less than full cost recovery target from fees, such as economic development goals and local social values?

NBS provided the cost of service calculation based on 100% full cost recovery for each fee item, as well as the framework for DBI to adjust the amount of cost recovery in accordance with its broader goals as they pertain to code compliance, cost recovery, economic development, and social values.

2.2.4 COMPARATIVE FEE SURVEY

Appendix B presents the results of the Comparative Fee Survey for DBI. Policy makers often request a comparison of their jurisdictional fees to those of surrounding or similar communities. The purpose of a comparison is to provide a sense of the local market pricing for services, and to use that information to gauge the impact of recommendations for fee adjustments.

In this effort, NBS worked with the DBI to choose five comparative agencies – cities of Los Angeles, Oakland, San Diego, San Jose and, Santa Clara. It is important to keep the following in mind when interpreting the general approach to, and use of, comparative survey data:

- Comparative surveys do not provide information about cost recovery policies or procedures inherent in each comparison agency.
- A “market-based” decision to price services below the full cost of service calculation is the same as deciding to subsidize that service.
- Comparative agencies may or may not base their fee amounts on the estimated and reasonable cost of providing services. NBS did not perform the same level of analysis of the comparative agencies’ fees.
- The results of comparative fee surveys are often non-conclusive for many fee categories. Comparison agencies typically use varied terminology for the provision of similar services.

NBS made every reasonable attempt to source each comparison agency's fee schedule from their respective websites and compile a comparison of fee categories and amounts for the most readily comparable fee items that match DBI's existing fee structure.

2.2.5 DATA SOURCES

The following data sources were used to support the cost of service analysis and fee establishment phases of this Study:

- The DBI's Adopted Budget for Fiscal Year 2024-25.
- A complete list of all DBI personnel, salary/wage rates, regular hours, paid benefits, and paid leave amounts provided by DBI.
- Prevailing fee schedules.
- Three-year average of annual permit data.

DBI's adopted budget serves as an important source of information that affects the cost of service results. NBS did not audit or validate DBI's financial documents and budget practices, nor was the cost information adjusted to reflect different levels of service or any specific, targeted performance benchmarks. This Study accepts DBI's budget as a legislatively adopted directive describing the most appropriate and reasonable level of DBI spending. NBS consultants accept the Board of Supervisors' deliberative process and DBI's budget plan and further assert that through this legislative process, DBI has yielded a reasonable and valid expenditure plan to use in setting cost-based fees.

3. DEPARTMENT OF BUILDING INSPECTION

Under the direction and management of the seven-member citizen Building Inspection Commission, the Department of Building Inspection (DBI) oversees the effective, efficient, fair and safe enforcement of the City and County of San Francisco's Building, Housing, Plumbing, Electrical, and Mechanical Codes, along with the Disability Access Regulations. DBI consists of three service areas:

- Permit Services - responsible for all steps of permit issuance to ensure that proposed construction meets all safety requirements in a timely professional manner. This includes:
 - Plan Review Services – responsible for review and approval of all permit applications to assure that proposed construction work meets accessibility, life and structural safety requirements of the code.
 - Technical Services – focuses on code interpretation, code and policy review and development, major emergency response planning and representation at the Board of Appeals, the Code Advisory Committee, the Public Advisory Committee, and other official bodies.
- Inspection Services – inspects buildings for compliance with code requirements, permit scope, and responds to building complaints. This includes:
 - Code Enforcement – investigates complaints of building code violations and compels building owners to fix the violations.
- Administration Services – also known as records management, this service area stores, maintains, and makes available records of buildings, including plans, permit applications, and job cards. This includes:
 - Management Information Services – archive and safeguard DBI's data; to manage network access to files and data; to scan, digitize and store plans, documents and drawings on the network; to develop and maintain an extensive client-server database to support the permitting functions and related complaint and inspection tracking functions; to supply software for common office applications, including: word processing, spreadsheet, database, presentation, telecommunications, and desktop layout; to install, repair, upgrade and maintain desktop computer equipment and peripherals, including printers, plotters, scanners; to provide daily HelpDesk support for computer-related problems, to assist end-users in graphic projects; provide in-house training; research technical issues; and to provide custom reports both for the public and DBI management.
 - Finance services – provide support to the Department in the areas of fiscal management, purchasing, and business analysis. This consists of budget preparation and reconciliation; revenue management; controlling labor and non-labor expenditures, capital expenditures and work order expenditures; accounts payable; performing internal audits, and employee claims management. In the area of purchasing, the division is involved in procuring materials and supplies; vendor identification and interfacing; and contract administration. The division also provides needs and operations analysis, revenue/expenditure analysis, and develops office policies and procedures.

3.1 Cost of Service Analysis

NBS developed a composite, fully burdened, hourly rates for DBI as shown in Table 2 below:

Table 2. Fully Burdened Hourly Rate

Cost Element	Fee for Service: Admin Services	Fee for Service: Permits	Fee for Service: Inspections	Total
Labor	\$ 7,734,052	\$ 8,569,727	\$ 11,110,886	\$ 27,414,666
Recurring Non-Labor	2,849,862	3,157,794	4,094,166	10,101,822
Admin Support Activities	9,902,312	11,546,848	20,710,987	42,160,146
Division Total	\$ 20,486,226	\$ 23,274,368	\$ 35,916,039	\$ 79,676,633
Fully Burdened Hourly Rate	\$ 214	\$ 439	\$ 461	
<i>Reference: Direct Hours Only</i>	95,836	52,979	77,957	

Overtime Rate	\$ 242	\$ 497	\$ 511
----------------------	---------------	---------------	---------------

Section 2.2, *Methods of Analysis*, further describes the types of expenditures and allocated costs considered in the development of the rate. All subsequent cost of service calculations at the individual fee level assume a fully burdened hourly rate of **\$214** for Administration services, **\$439** for Permit services, and **\$461** for Inspection services.

3.2 Fee Establishment

The following is a summary of the overall changes to DBI's fee schedule:

- Table 1A-A (new construction, alteration, no plans): no changes
- Table 1A-B (other building and plan review fees): deletion of fees that are no longer used or needed, such as plan review fees not covered in table 1A-A.
- Table 1A-C (plumbing/mechanical): no changes
- Table 1A-D (hourly rates):
 - Deletion of fees that are no longer used or needed, such as OSHPD inspection rate, and minimum charge for 30 minutes or less.
 - Addition of new fee category for off-hour inspections.
- Table 1A-E (electrical): reorganization of fee categories or clarification of fee names to create a more user-friendly fee structure, such as witness testing.
- Table 1A-F (specialty permits): Deletion of fees that are no longer used or needed, such as:
 - Bleachers permit fee
 - Chimney and flue permit fee
 - Demolition permit work
 - Extra permit work
 - Grading permit fee
 - Recommencement of work not completed

- Subsidewalk construction permit fee
- Table 1A-G (inspections, surveys and reports): Deletion of fees that are no longer used or needed, such as inspection fee, and re-inspection fee.
- Table 1A-H (sign permit fees): table was deleted
- Table 1A-J (miscellaneous fees): no changes
- Table 1A-K (penalties, hearings, code enforcement): Addition of new fee category for subordination, notated as “New” in the Current Fee / Deposit column of Appendix A.11.²
- Table 1A-L (public information):
 - Deletion of fees that are no longer used or needed, such as Electrostatic reproduction, 8.5 inch by 11 inch copy from aperture cards or from electronic copies of building records, and minimum microfilm reproduction charge.
 - Revision to hard copy prints from per page fees to flat fee per request.
- Table 1A-M (boiler fees): no changes
- Table 1A-N (energy conservation): no changes
- Table 1A-P (residential code enforcement and license fees): no changes
- Table 1A-Q (hotel conversion ordinance fees): no changes
- Table 1A-R (refunds): no changes
- Table 1A-S (unreinforced masonry bearing wall building retrofit): table was deleted

3.3 Cost Recovery Evaluation

Appendix A presents the results of the detailed cost recovery analysis of fees for the Department of Building Inspection. In the Appendix, the “Cost of Service per Activity” column establishes the maximum adoptable fee amount for the corresponding service identified in the “Fee Name” list.

Currently, DBI is recovering approximately 73% of the total cost of providing services from fees. As Table 3 shows, DBI collects approximately \$61.4 million per year in revenue at the current fee amounts. At full cost recovery and the same demand level for these services, DBI would recover approximately \$84 million.

² Refer to Section 2.2, *Methods of Analysis*, for additional discussion on the Study’s approach to adding, deleting, and revising fee categories.

NBS provided a full cost of service evaluation and the framework for considering fees, while DBI staff recommended fee amounts at the appropriate cost recovery levels at or below full cost amounts.

The “Recommended Fee / Deposit Level” column in Appendix A displays DBI staff’s initially recommended fee amounts. Based on this information, the initial recommendations for adjusted fee amounts are projected to recover approximately 90% of the total costs of providing fee-related services.

4. CONCLUSION

Based on the outcomes of the Cost of Service Analysis, Fee Establishment, and Cost Recovery Evaluation presented in this Study, DBI has prepared a proposed Master Fee Schedule for implementation and included it in the Department's Staff Report.

As discussed throughout this report, the intent of the proposed fee schedule is to improve DBI's recovery of costs incurred to provide individual services, as well as adjust fees where the fees charged exceed the average costs incurred. Predicting the amount to which any adopted fee increases will affect DBI revenues is difficult to quantify. For the near-term, DBI should not count on increased revenues to meet any specific expenditure plan. Experience with the revised fee amounts should be gained first before revenue projections are revised. However, unless there is some significant, long-term change in activity levels at DBI, proposed fee amendments should enhance DBI's cost recovery performance over time, providing it the ability to stretch other resources further for the benefit of the public at-large.

DBI's Master Fee Schedule should become a living document, but handled with care:

- A fundamental purpose of the fee schedule is to provide clarity and transparency to the public and to staff regarding fees imposed by DBI. Once adopted by the Board of Supervisors, the fee schedule is the final word on the amount and method in which fees should be charged and supersedes all previous fee schedules. If it is discovered that the master document is missing certain fees, those fees will eventually need to be added to the master fee schedule and should not exist outside the consolidated, master framework.
- DBI should consider adjusting these user fees and regulatory fees on an annual basis to keep pace with cost inflation. For all fees and charges, for example, DBI could use a Consumer Price Index adjustment that is applied to the new fee schedule. Conducting a comprehensive user fee Study is not an annual requirement, and only becomes worthwhile over time as shifts in organization, local practices, legislative values, or legal requirements result in significant change.

As a final note, it is worth mentioning the path that fees, in general, have taken in the State of California. In recent years, there is more public demand for the precise and equitable accounting of the basis for governmental fees and a greater say in when and how they are charged. It is likely that into the future, user and regulatory fees will require an even greater level of analysis and supporting data to meet the public's growing expectations. An agency's ability to meet these new pressures will depend on the level of technology they invest in their current systems. Continuous improvement and refinement of time tracking abilities will greatly enhance DBI's ability to set fees for service and identify unfunded activities in years to come.

Disclaimer: In preparing this report and the opinions and recommendations included herein, NBS has relied on a number of principal assumptions and considerations with regard to financial matters, conditions and events that may occur in the future. This information and assumptions, including DBI's budgets, time estimate data, and workload information from DBI staff, were provided by sources we believe to be reliable; however, NBS has not independently verified such information and assumptions. While we believe NBS' use of such information and assumptions is reasonable for the purpose of this report, some assumptions will invariably not materialize as stated herein and may vary significantly due to unanticipated events and circumstances. Therefore, the actual results can be expected to vary from those projected to the extent that actual future conditions differ from those assumed by us or provided to us by others.

NOTICE IS HEREBY
GIVEN THAT the Board of
Supervisors of the City and
County of San Francisco's
Budget and Appropriations
Committee will hold a public
hearing to consider the
following proposal and said
public hearing will be held
as follows, at which time
all interested parties may
attend and be heard: **File
No. 250606.** Ordinance
amending the Business and
Tax Regulations Code, Health

Code, Administrative Code, and Public Works Code to: 1) eliminate the permit requirement for temporary hospitals and laundry facilities; 2) eliminate the food facility surcharge and certain fees for agricultural inspections; 3) increase the regulatory compliance activities for solid waste facilities, refuse service for commercial and residential properties, and licensing of refuse collectors; 4) establish regulatory fee for food safety and food inspection examinations 5) increase existing regulatory fees for agricultural inspections, certified farmers' market permits, and hazardous waste management; and 6) increase the fee for violations of tobacco sales enforcement by tobacco retailers. If this legislation passes, the San Francisco Business and Tax Regulations Code, Section 35, will be modified to establish a fee of \$251 per hour for service by environmental health inspectors and a fee of \$229 per hour for service by environmental health technicians when the Department of Public Health conducts inspections, training, classes, or examinations of solid waste facilities as defined in Section 41094 and required by California Public Resources Code, Sections 43209 et seq., and a fee of \$188 per training, class, or examination when the Department of Public Health offers training, classes, or examinations to the person in charge of the operation of a food facility and food handlers, such as a food safety manager, as required by California Health and Safety Code, Sections 113947 et seq. San Francisco Business and Tax Regulations, Section 249.6, will establish an annual fee of \$314 for the use of the Tax Collector for every refuse collector licensed by the Director of Health for each refuse collection route permitted by the Director of Health in accordance with the California Health Code, Section 22A.19, will be modified to increase the initial fee payable to the Department of Public Health upon filing documents for review in administration of Sections 22A.9 and 31A.1, from \$609.50 to \$1,000, and increase the additional fee from \$203.17 to \$333 per hour exceeding three hours or portion thereof. San Francisco Health Code, Section 22A.9 and 31A.1, will be modified to establish an

annual fee of \$1,000 payable to the Department of Public Health due upon filing documents for a dust control plan and for review and establish an additional fee of \$100 per hour of exposure over three hours or portion thereof for the administration of Articles 22B and 31. The Controller shall, if necessary, adjust the fees upward or downward for the upcoming fiscal year as needed to ensure that the program recovers the costs of operation without producing revenue. Health Code, Section 38111, will be modified to increase the fees in review and approval of an enhanced dust abatement process from \$984 to \$1,255. Additional consultation, document review or inspection will increase from \$225 to \$251. The Controller shall, if necessary, adjust the fees upward or downward for the upcoming fiscal year to ensure the program recovers without producing revenue. Administrative Code, Section 1.10, will be modified to increase the fees for inspection and certificates of agricultural products to be shipped from \$40 to \$70; certificate of fumigation from \$30 to \$70, and the minimum charge for any single certificate from \$25 to \$70. Quarantine inspection fees will increase from \$20 to \$240 plus any hour or portion thereof in excess of three hours required to complete the inspection will increase from \$45 to \$90 per hour; and per mile traveled to perform such inspection will increase from \$10 to \$0.56 per mile. Inspections of quarantine shipments which require special handling will increase from \$35 to \$90 per hour, and from \$0.30 to \$0.56 per mile traveled to perform such inspection. Persons working with Administrative Code, Section 677-1, persons who are unable to attend the hearing on this matter may submit written comments prior to the time the hearing begins. hearing to consider the following proposal and said public hearing will be held as follows, at which time all interested parties may attend and be heard: **File No. 250605.** Ordinance amending the Park Code to allow the Recreation and Park Department to set fees for recreation programs based on the Department's operating costs for those programs and various other factors, including whether the program is designated for youth, seniors, or persons

with disabilities, subject to approval of the Recreation and Park Commission; and the Planning Department to update its scholarship policy to provide for further discounts for recreation programs based on financial need; making certain clarifying changes; and affirming the Planning Department's determination that the Recreation and Park Department's Environmental Quality Act. This legislation passes, a \$100 deposit will be established to hold a reservation for each tent site or cabin reserved at Camp Mather. The remaining balance of the reservation fee will be returned to the camper at the start of the reservation. The proposed Ordinance would allow the Recreation and Park Department to set recreation program fees based on the estimated operating costs of those programs. The set fees intended to cover the programs' full operating costs, but for programs designated for youth or seniors or persons with disabilities could set fees that recovered only 75% of the operating costs. In addition, the Recreation and Park Department to set fees for programs that benefit the community at large based on only 50% of the operating costs. All fees would require approval from the Recreation and Park Commission and, if approved, would be published on the Department's website. The Ordinance also directs the Recreation and Park Commission to update its scholarship policy to provide for further discounts for recreation programs based on financial need, in accordance with Administrative Code, Section 67-7.1, persons who are unable to attend the hearing on this matter may submit written comments prior to the time the hearing begins.
