

LEGISLATIVE DIGEST

[Park Code - PROSAC Membership]

Ordinance amending the Park Code to reduce the number of seats on the Parks, Recreation, and Open Space Advisory Committee (PROSAC), to provide for alternate members, and to allow members to serve for more than four consecutive terms.

Existing Law

The Park, Recreation and Open Space Advisory Committee (“PROSAC”) is a citizen advisory committee that makes recommendations to the Recreation and Park Department. PROSAC is comprised of 23 members. The Mayor appoints one member, and the 11 members of the Board of Supervisors appoint two members each: one from their supervisorial district, and one from a list that the Recreation and Park Commission maintains of persons who have been nominated by organizations that have a primary focus on park, environmental, recreational, cultural, sports, youth or senior citizen issues. (Four of the members chosen from this list must be nominated by an environmental organization.) PROSAC members serve two-year terms, but cannot serve more than four consecutive terms.

Amendments to Current Law

The ordinance would reduce PROSAC to 12 members. The Mayor would still appoint one member, but rather than 22 members appointed by the Board of Supervisors, each Supervisor Board member would appoint one regular voting member and one specific alternate for that member. The alternate would participate only if the regular voting member was unable to attend, so the total number of seats on PROSAC would still be 12. In addition, the ordinance would delete the restriction on members serving more than four consecutive terms.

The ordinance is not intended to disqualify any current PROSAC members from service. The current Board-appointees would need to decide amongst themselves, or let PROSAC decide, which of them should be the regular voting member versus the alternate. Going forward, the Board of Supervisors would decide which appointees serve as regular voting members versus as alternates, and would need to ensure appointees reside in their supervisorial districts.
