# Data Collection & Tracking

- Tracking of an arrest begins shortly after an individual is booked into the County Jail during the fingerprinting process, captured via LiveScan, which is completed by San Francisco Sheriff's Deputies.
- Information obtained from the California Department of Justice is tracked and managed by the SFPD Identification Bureau to include:
  - Offender information
  - Type of crime
  - Offense
- Probation/parole violation information is later captured after being entered into Crime Data Warehouse, which is not only the SFPD report writing system, but the records management system that maintains all our data in a web-based environment.
