15 revisions to the MCMB EIR beyond the further analysis in the SEIR due to the involvement of
16 the new significant environmental effects or an increase in the severity of previously identified
17 significant impacts, and there is no new information of substantial importance that would
18 change the conclusions set forth in the MCMB EIR, as supplemented and amended by the
19 SEIR; and be it

20 FURTHER RESOLVED, That this Board has not identified any feasible alternative or
21 additional feasible mitigation measures within its powers that would substantially lessen or
22 avoid any significant effect the project would have on the environmental; and be it

23 FURTHER RESOLVED, That the Board hereby approves the rooftop helipad
24 proposed for the UCSF Medical Center at Mission Bay as provided for under California Public
25 Utilities Code Section 21661.5.
