

Attachment A

To Planning Commission Motion No.

Case No. 2010.0305 E GPA PCT PCM DEV GEN SHD

The Sunnydale HOPE SF Master Plan Project General Plan Findings

and

Planning Code Section 101.1 Findings

The following constitute findings that the Sunnydale HOPE SF Master Plan Project (Project) and approval actions thereto are, on balance, consistent with the General Plan and Planning Code Section 101.1. The SUNNYDALE Master Plan Project is described within the Final EIR, Certified by the Planning Commission on July 9, 2015, with Planning Commission Motion No. 19409.

Approval actions that will be required to implement the Project include, but are not limited to: (1) Adoption of General Plan, Planning Code Text, and Map Amendments that would establish a Sunnydale HOPE SF Special Use District and associated Design Standards and Guidelines Document, and would increase heights in some locations; (2) Approval of a Development Agreement between the City of County of San Francisco, the Master Developer, and the San Francisco Housing Authority; (3) shadow impact findings; and (4) various mapping, street vacation and street dedication actions; and (5) the purchase of the site at Sunnydale and Hahn for the development of affordable housing.

HOUSING ELEMENT

The principle objectives of the Housing Element are to provide new housing; retain the existing supply; enhance physical conditions and safety without jeopardizing use or affordability; support affordable housing production by increasing site availability and capacity; increase the effectiveness and efficiency of the affordable housing production system; protect the affordability of existing housing; expand financial resources for permanently affordable housing; ensure equal access; avoid or mitigate hardships imposed by displacement; reduce homelessness and the risk of homelessness in coordination with relevant agencies and providers; pursue place making and neighborhood building principles in increasing the supply of housing; and strengthen citywide affordable housing programs through coordinated regional and state efforts.

The Project is consistent with and implements the following objectives and policies of the Housing Element:

- OBJECTIVE 1 Identify and make available for development adequate sites to meet the City's housing needs, especially permanently affordable housing.
- POLICY 1.1 Plan for the full range of housing needs in the City and County of San Francisco, especially affordable housing.
- POLICY 1.3 Work proactively to identify and secure opportunity sites for permanently affordable housing.
- Objective 4 Foster a housing stock that meets the needs of all residents across lifecycles.
- POLICY 4.1 Develop new housing, and encourage the remodeling of existing housing, for families with children.
- POLICY 4.2 Provide a range of housing options for residents with special needs for housing support and services.
- POLICY 4.5 Ensure that new permanently affordable housing is located in all of the city's neighborhoods, and encourage integrated neighborhoods, with a diversity of unit types provided at a range of income levels.
- Objective 5 Ensure that all residents have equal access to available units.
- POLICY 5.5 Minimize the hardships of displacement by providing essential relocation services.
- POLICY 5.6 Offer displaced households the right of first refusal to occupy replacement housing units that are comparable in size, location, cost, and rent control protection.
- Objective 7 Secure funding and resources for permanently affordable housing, including innovative programs that are not solely reliant on traditional mechanisms or capital.
- POLICY 7.5 Encourage the production of affordable housing through process and zoning accommodations, and prioritize affordable housing in the review and approval processes.

- Objective 8 Build public and private sector capacity to support, facilitate, provide and maintain affordable housing.
- POLICY 8.1 Support the production and management of permanently affordable housing.
- POLICY 8.3 Generate greater public awareness about the quality and character of affordable housing projects and generate communitywide support for new affordable housing.
- Objective 9 Preserve units subsidized by the federal, state or local sources.
- POLICY 9.3 Maintain and improve the condition of the existing supply of public housing, through programs such as HOPE SF.
- POLICY 11.1 Promote the construction and rehabilitation of well-designed housing that emphasizes beauty, flexibility, and innovative design, and respects existing neighborhood character.
- POLICY 11.2 Ensure implementation of accepted design standards in project approvals.
- POLICY 11.3 Ensure growth is accommodated without substantially and adversely impacting existing residential neighborhood character.
- POLICY 11.6 Foster a sense of community through architectural design, using features that promote community interaction.
- Objective 12 Balance housing growth with adequate infrastructure that serves the City's growing population.
- POLICY 12.1 Encourage new housing that relies on transit use and environmentally sustainable patterns of movement.
- POLICY 12.2 Consider the proximity of quality of life elements, such as open space, child care, and neighborhood services, when developing new housing units.
- POLICY 12.3 Ensure new housing is sustainably supported by the City's public infrastructure systems.

The Hope SF initiative, including the Sunnydale Hope SF Master Development Project, is a central affordable housing and community development program for the City and County of San Francisco. Through the Hope SF initiative, existing affordable housing sites for very low income residents will be rebuilt with better connected mixed-income, complete neighborhoods that increase the permanent affordable housing stock of the City as well as provides a range of housing options for residents with special needs and for a range of income levels.

The Sunnydale HOPE SF Master Development Project will take advantage of the underutilized site to create both additional affordable housing and market rate housing thereby furthering Policies 1.1 and 1.4 provided above. The Sunnydale HOPE SF Master Development Project will seek to minimize displacement of existing residents and will provide essential relocation services that include maintenance of subsidized housing opportunities and the right to return as provided in the Right to Return Ordinance. The proposed funding of this large scale project is creative and leverages extensive public and private sources of capital. The project will receive zoning and priority approval processes to encourage the production of affordable housing.

The high visibility of this project will increase capacity of builders and owners of affordable and mixed income communities as well as raise greater public awareness of the high quality design and character of affordable housing. Policy 9.3 specifically names HOPE SF as leading initiative to maintain and improve the condition of existing supply of public housing in the Plan Area. As a site that is currently well under the Planning Code's density limit, the Hope SF also looks to take advantage of the additional allowed density to construct both affordable and market-rate units. The market-rate development will both create a mixed-income neighborhood and will cross-subsidizing the cost of reconstructing the existing dilapidated affordable housing. Also central to the Hope SF initiative, is the construction of new infrastructure including new streets and parks that meet -- and in some cases exceed -- current City standards for ecological performance, safety, and comfort.

COMMERCE AND INDUSTRY

The principle objectives for Commerce & Industry are to manage economic growth and change, maintain a sound and diverse economic base and fiscal structure, provide expanded employment opportunities for city residents particularly the unemployed and underemployed in a wide range of fields and levels, improve viability of existing businesses as well as attract new businesses – particularly in new industries, and assure entrepreneurial opportunities for local businesses.

The following objectives and policies are relevant to the Project:

OBJECTIVE 6 MAINTAIN AND STRENGTHEN VIABLE NEIGHBORHOOD
COMMERCIAL AREAS EASILY ACCESSIBLE TO CITY RESIDENTS.

POLICY 6.1 Ensure and encourage the retention and provision of neighborhood-
serving goods and services in the city's neighborhood commercial
districts, while recognizing and encouraging diversity among the
districts.

POLICY 6.2 Promote economically vital neighborhood commercial districts which
foster small business enterprises and entrepreneurship and which are
responsive to economic and technological innovation in the marketplace
and society.

POLICY 6.4 Encourage the location of neighborhood shopping areas throughout the
city so that essential retail goods and personal services are accessible to
all residents.

POLICY 6.7 Promote high quality urban design on commercial streets.

The Project meets and furthers the Objectives and Policies of the Commerce and Industry Element by reinforcing the typical San Francisco pattern of including resident serving uses along with residential development. The Project will generally permit small scale retail and community related uses throughout and requiring ground floor non-residential uses on a portion of Sunnydale and Hawn Streets, which will serve as a part of the neighborhood's "Hub". Design and Land Use regulations for the development will require that neighborhood commercial retail be established in a pedestrian-oriented active environment typical of San Francisco neighborhoods and specifically called for in the Commerce and Industry Element. The possible provision of retail space will provide entrepreneurial opportunities for local residents and workers. Of course, new development will provide construction business opportunities, especially with outreach to small businesses through the City's SBE program, along with opportunities for property management and maintenance.

RECREATION AND OPEN SPACE ELEMENT

The principle objectives of the Recreation and Open Space Element are to preserve large areas of open space sufficient to meet the long-range needs of the Bay Region, develop and maintain a diversified and balanced citywide system of high quality public open space, provide a continuous public open space along the shoreline, and provide opportunities for recreation and the enjoyment of open space in every neighborhood.

- OBJECTIVE 1 ENSURE A WELL-MAINTAINED, HIGHLY UTILIZED, AND INTEGRATED OPEN SPACE SYSTEM

- POLICY 1.1 Encourage the dynamic and flexible use of existing open spaces and promote a variety of recreation and open space uses, where appropriate.

- POLICY 1.11 Encourage private recreational facilities on private land that provide a community benefit, particularly to low and moderate-income residents.

- OBJECTIVE 2 INCREASE RECREATION AND OPEN SPACE TO MEET THE LONG-TERM NEEDS OF THE CITY AND BAY REGION

- POLICY 2.7 Expand partnerships among open space agencies, transit agencies, private sector and nonprofit institutions to acquire, develop and/or manage existing open spaces.

- POLICY 2.8 Consider repurposing underutilized City-owned properties as open space and recreational facilities.

- OBJECTIVE 3 IMPROVE ACCESS AND CONNECTIVITY TO OPEN SPACE

- POLICY 3.1 Creatively develop existing publicly-owned right-of-ways and streets into open space.

- POLICY 3.2 Establish and Implement a network of Green Connections that increases access to parks, open spaces, and the waterfront.

- POLICY 3.6 Maintain, restore, expand and fund the urban forest.

The Project meets and furthers the Objectives and Policies of the Recreation and Open Space by creating a new street and open space network within an area that is currently characterized by wide disconnected streets, steep unoccupied terrain, and lack of recreational opportunities. Altogether, 3.5 acres of new parks and open space are proposed for the site. Further, the new street network will improve connectivity from existing residential neighborhoods, parks and open spaces.

TRANSPORTATION ELEMENT

The Transportation Element is largely concerned with the movement of people and goods. It addresses the need for multi-modal streets and facilities, implementation of the City's transit-first policy, the need to limit parking and auto capacity on the roads, and ways to incentivize travel by transit, bike and by foot. It also addresses the relationship between transportation and land use and how the two should be coordinated to reduce the need for auto trips.

The following objectives and policies are relevant to the Project:

- OBJECTIVE 1 MEET THE NEEDS OF ALL RESIDENTS AND VISITORS FOR SAFE, CONVENIENT AND INEXPENSIVE TRAVEL WITHIN SAN FRANCISCO AND BETWEEN THE CITY AND OTHER PARTS OF THE REGION WHILE MAINTAINING THE HIGH QUALITY LIVING ENVIRONMENT OF THE BAY AREA.
- POLICY 1.2 Ensure the safety and comfort of pedestrians throughout the city.
- POLICY 1.6 Ensure choices among modes of travel and accommodate each mode when and where it is most appropriate.
- POLICY 2.5 Provide incentives for the use of transit, carpools, vanpools, walking and bicycling and reduce the need for new or expanded automobile and automobile parking facilities.
- OBJECTIVE 18 ESTABLISH A STREET HIERARCHY SYSTEM IN WHICH THE FUNCTION AND DESIGN OF EACH STREET ARE CONSISTENT WITH THE CHARACTER AND USE OF ADJACENT LAND.
- POLICY 18.2 Design streets for a level of traffic that serves, but will not cause a detrimental impact on adjacent land uses, or eliminate the efficient and safe movement of transit vehicles and bicycles.
- POLICY 18.4 Discourage high-speed through traffic on local streets in residential areas through traffic "calming" measures that are designed not to disrupt transit service or bicycle movement, including:
- Sidewalk bulbs and widenings at intersections and street entrances;
 - Lane off-sets and traffic bumps;

- Narrowed traffic lanes with trees, landscaping and seating areas;
and
- colored and/or textured sidewalks and crosswalks.

POLICY 20.5 Place and maintain all sidewalk elements, including passenger shelters, benches, trees, newsracks, kiosks, toilets, and utilities at appropriate transit stops according to established guidelines.

OBJECTIVE 23 IMPROVE THE CITY'S PEDESTRIAN CIRCULATION SYSTEM TO PROVIDE FOR EFFICIENT, PLEASANT, AND SAFE MOVEMENT.

POLICY 23.1 Provide sufficient pedestrian movement space with a minimum of pedestrian congestion in accordance with a pedestrian street classification system.

POLICY 23.2 Widen sidewalks where intensive commercial, recreational, or institutional activity is present, sidewalks are congested and where residential densities are high.

POLICY 23.3 Maintain a strong presumption against reducing sidewalk widths, eliminating crosswalks and forcing indirect crossings to accommodate automobile traffic.

POLICY 23.6 Ensure convenient and safe pedestrian crossings by minimizing the distance pedestrians must walk to cross a street.

OBJECTIVE 24 IMPROVE THE AMBIENCE OF THE PEDESTRIAN ENVIRONMENT.

POLICY 24.2 Maintain and expand the planting of street trees and the infrastructure to support them.

POLICY 24.3 Install pedestrian-serving street furniture where appropriate.

POLICY 24.5 Where consistent with transportation needs, transform streets and alleys into neighborhood-serving open spaces or "living streets", especially in neighborhoods deficient in open space.

OBJECTIVE 26 CONSIDER THE SIDEWALK AREA AS AN IMPORTANT ELEMENT IN THE CITYWIDE OPEN SPACE SYSTEM.

- OBJECTIVE 27 ENSURE THAT BICYCLES CAN BE USED SAFELY AND CONVENIENTLY AS A PRIMARY MEANS OF TRANSPORTATION, AS WELL AS FOR RECREATIONAL PURPOSES.
- OBJECTIVE 28 PROVIDE SECURE AND CONVENIENT PARKING FACILITIES FOR BICYCLES.
- POLICY 28.1 Provide secure bicycle parking in new governmental, commercial, and residential developments.
- OBJECTIVE 34 RELATE THE AMOUNT OF PARKING IN RESIDENTIAL AREAS AND NEIGHBORHOOD COMMERCIAL DISTRICTS TO THE CAPACITY OF THE CITY'S STREET SYSTEM AND LAND USE PATTERNS.
- POLICY 34.3 Permit minimal or reduced off-street parking supply for new buildings in residential and commercial areas adjacent to transit centers and along transit preferential streets.
- OBJECTIVE 35 MEET SHORT-TERM PARKING NEEDS IN NEIGHBORHOOD SHOPPING DISTRICTS CONSISTENT WITH PRESERVATION OF A DESIRABLE ENVIRONMENT FOR PEDESTRIANS AND RESIDENTS.

The Project meets and furthers the Objectives and Policies of the Transportation Element by requiring the creation of a new fine-grained street grid in place of the curvilinear configured and disconnected street and block pattern that exists today. The Project accommodates the creation of a new mixed-use predominately development in a pattern that encourages walking and using transit. The Project also calls for streetscape improvements that will calm auto traffic while assuring pedestrian and bicyclist comfort and enjoyment.

URBAN DESIGN ELEMENT

The Urban Design Element addresses the physical character and order of the City. It establishes objectives and policies dealing with the city pattern, conservation (both of natural areas and historic structures), major new developments, and neighborhood environment. It discusses meeting “human needs”, largely by assuring quality living environments, and by protecting and enhancing those characteristics of development that make San Francisco special.

The following objectives and policies are relevant to the Project:

OBJECTIVE 1 EMPHASIS OF THE CHARACTERISTIC PATTERN WHICH GIVES TO THE CITY AND ITS NEIGHBORHOODS AN IMAGE, A SENSE OF PURPOSE, AND A MEANS OF ORIENTATION.

POLICY 1.1 Recognize and protect major views in the city, with particular attention to those of open space and water.

POLICY 1.2 Recognize, protect and reinforce the existing street pattern, especially as it is related to topography.

POLICY 1.3 Recognize that buildings, when seen together, produce a total effect that characterizes the city and its districts.

POLICY 1.5 Emphasize the special nature of each district through distinctive landscaping and other features.

POLICY 1.6 Make centers of activity more prominent through design of street features and by other means.

POLICY 1.7 Recognize the natural boundaries of districts, and promote connections between districts.

POLICY 2.9 Review proposals for the giving up of street areas in terms of all the public values that streets afford.

POLICY 2.10 Permit release of street areas, where such release is warranted, only in the least extensive and least permanent manner appropriate to each case.

OBJECTIVE 3 MODERATION OF MAJOR NEW DEVELOPMENT TO COMPLEMENT THE CITY PATTERN, THE RESOURCES TO BE CONSERVED, AND THE NEIGHBORHOOD ENVIRONMENT.

- POLICY 3.3 Promote efforts to achieve high quality of design for buildings to be constructed at prominent locations.
- POLICY 3.4 Promote building forms that will respect and improve the integrity of open spaces and other public areas.
- POLICY 3.5 Relate the height of buildings to important attributes of the city pattern and to the height and character of existing development.
- POLICY 3.7 Recognize the special urban design problems posed in development of large properties.
- POLICY 3.8 Discourage accumulation and development of large properties, unless such development is carefully designed with respect to its impact upon the surrounding area and upon the city.
- OBJECTIVE 4 IMPROVEMENT OF THE NEIGHBORHOOD ENVIRONMENT TO INCREASE PERSONAL SAFETY, COMFORT, PRIDE AND OPPORTUNITY .
- POLICY 4.3 Provide adequate lighting in public areas.
- POLICY 4.4 Design walkways and parking facilities to minimize danger to pedestrians.
- POLICY 4.5 Provide adequate maintenance for public areas.
- POLICY 4.6 Emphasize the importance of local centers providing commercial and government services.
- POLICY 4.8 Provide convenient access to a variety of recreation opportunities.
- POLICY 4.10 Encourage or require the provision of recreation space in private development.
- POLICY 4.12 Install, promote and maintain landscaping in public and private areas.
- POLICY 4.13 Improve pedestrian areas by providing human scale and interest.

On balance, the Project is consistent with and furthers the Urban Design Element. The project enables the establishment of a new vibrant mixed-use-predominately-residential neighborhood on currently underutilized land. The Project will connect to the Visitacion Valley street grid and block pattern where

it currently does not today, thereby reinforcing Visitacion Valley's street pattern. The Project's compact urban development of modulated buildings will step along the site's topography; open spaces and green streets will punctuate the new block pattern. Taken together, these characteristics will enable the revitalized Sunnydale Hope SF neighborhood to be both individually distinctive and better integrated into the larger Visitacion Valley neighborhood. Streets will be designed to Better Streets standards and will be safe, comfortable, and inviting. While the proposal includes allowing heights of buildings to be as tall as 65-feet at some locations (taller than what's allowed within other residentially portions of Visitacion Valley), design standards will require that they be broken down both vertically and horizontally and be designed to the human scale. The portion of the site that allows the tallest heights will be reserved for the center of the neighborhood's planned commercial and community-serving center, thereby demarking the Project's civic heart. While the view across the site will change in nature with additional buildings in the foreground, other views will be improved and protected by aligning new streets with existing streets allowing continual views down them and assuring they are not blocked in the future. On balance, the urban design character of the site will be significantly improved; therefore, the Project is consistent with the Urban Design Element.

ENVIRONMENTAL PROTECTION ELEMENT

The Environmental Protection Element is concerned with protecting the natural environment within San Francisco's urban context. The element provides objectives and policies for the following topics: the Bay, ocean and shoreline, air, fresh water, land, flora and fauna, transportation noise, and energy.

The following objectives and policies are relevant to the Project:

OBJECTIVE 1 ACHIEVE A PROPER BALANCE AMONG THE CONSERVATION, UTILIZATION, AND DEVELOPMENT OF SAN FRANCISCO'S NATURAL RESOURCES.

Policy 1.4 Assure that all new development meets strict environmental quality standards and recognizes human needs.

OBJECTIVE 15 INCREASE THE ENERGY EFFICIENCY OF TRANSPORTATION AND ENCOURAGE LAND USE PATTERNS AND METHODS OF TRANSPORTATION WHICH USE LESS ENERGY.

POLICY 15.3 Encourage an urban design pattern that will minimize travel requirements among working, shopping, recreation, school and childcare areas.

The Project is consistent with and implements the Environmental Protection Element in that it calls for mixed-use, moderate density, transit-friendly, sustainable development. The Project and all related City approvals are consistent with the Environmental Protection Element as the Project satisfies and implements the preponderance of Element's objectives and policies: the Project furthers the Element's emphasis on the need for compact, and sustainable development.

COMMUNITY FACILITIES ELEMENT

The Community Facilities element addresses police facilities, neighborhood center facilities, fire facilities, library facilities, public health facilities, and touches upon educational facilities, institutional facilities (colleges, etc.) wastewater facilities, and solid waste facilities.

The following objectives and policies are relevant to the Project:

OBJECTIVE 3 ASSURE THAT NEIGHBORHOOD RESIDENTS HAVE ACCESS TO
NEEDED SERVICES AND A FOCUS FOR NEIGHBORHOOD
ACTIVITIES

POLICY 3.6 Base priority for the development of neighborhood centers on relative
need.

OBJECTIVE 4 PROVIDE NEIGHBORHOOD CENTERS THAT ARE RESPONSIVE TO
THE COMMUNITY SERVED.

POLICY 4.1 Assure effective neighborhood participation in the initial planning,
ongoing programming, and activities of multi-purpose neighborhood
centers

The Project is consistent with and implements the Community Facilities Element. The Project allows for community serving uses on the ground floor throughout the development. A community center and senior housing development is planned for "The Hub" portion of the site, that among other community-based uses will include child care. Whether or not community uses will eventually establish themselves in other permitted locations will depend on community needs and demands as well as broader market factors as the Project gets built out.

PUBLIC SAFETY ELEMENT

OBJECTIVE 2 REDUCE STRUCTURAL AND NON-STRUCTURAL HAZARDS TO LIFE SAFETY, MINIMIZE PROPERTY DAMAGE AND RESULTING SOCIAL, CULTURAL AND ECONOMIC DISLOCATIONS RESULTING FROM FUTURE DISASTERS.

POLICY 2.1 Assure that new construction meets current structural and life safety standards.

POLICY 2.3 Consider site soils conditions when reviewing projects in areas subject to liquefaction or slope instability.

POLICY 2.9 Consider information about geologic hazards whenever City decisions that will influence land use, building density, building configurations or infrastructure are made.

POLICY 2.12 Enforce state and local codes that regulate the use, storage and transportation of hazardous materials in order to prevent, contain and effectively respond to accidental releases.

The Project is consistent with and implements the Community Safety Element. All improvements, including infrastructure, buildings and open space improvements will be constructed to local seismic standards, taking into account, among other considerations, the geological condition of the soil and where applicable, any remediation activity.

AIR QUALITY ELEMENT

The Air Quality Element is concerned, in part, with reducing the level of pollutants in the air, thus protecting and improving public health, welfare and the quality of life of the citizens of San Francisco and the residents of the metropolitan region. It emphasizes that opportunities for economic growth in the area can be enhanced through implementation of transportation, land use and other policies in harmony with clean air goals.

The following objectives and policies are relevant to the Project:

- OBJECTIVE 3 DECREASE THE AIR QUALITY IMPACTS OF DEVELOPMENT BY COORDINATION OF LAND USE AND TRANSPORTATION DECISIONS.
- POLICY 3.1 Take advantage of the high density development in San Francisco to improve the transit infrastructure and also encourage high density and compact development where an extensive transportation infrastructure exists.
- POLICY 3.2 Encourage mixed land use development near transit lines and provide retail and other types of service oriented uses within walking distance to minimize automobile dependent development.
- POLICY 3.6 Link land use decision making policies to the availability of transit and consider the impacts of these policies on the local and regional transportation system.
- POLICY 3.9 Encourage and require planting of trees in conjunction with new development to enhance pedestrian environment and select species of trees that optimize achievement of air quality goals

The Project is consistent with and implements the Air Quality Element in that it calls for mixed-use predominately residential, moderate density, sustainable development that will enable efficient use of land and encourage travel by transit and by foot, thereby reducing auto use. The Project will be built to LEED Neighborhood Development standards. The Project is consistent with the Air Quality Element because it satisfies and implements the preponderance of Element's objectives and policies; most importantly, the Project furthers the Element's emphasis on efficient and compact development.

General Plan Priority Finding

(Planning Code Section 101.1 Findings)

Planning Code Section 101.1(b) establishes eight priority policies and is a basis by which differences between competing policies in the General Plan are resolved. As described below, the Project is consistent with the eight priority policies set forth in Planning Code Section 101.1(b).

1. That existing neighborhood serving retail uses be preserved and enhanced and future opportunities for resident employment in or ownership of such businesses enhanced.

The Project will preserve and enhance existing neighborhood serving retail uses. The Project would potentially accommodate roughly 15,000 square feet of new retail uses. The retail uses are envisioned to be local serving. The project does not include the removal of any existing neighborhood serving retail and is not expected to unduly compete against long established Visitacion Valley neighborhood commercial districts along Leland Avenue.

2. That existing housing and neighborhood character be conserved and protected in order to preserve the cultural and economic diversity of our neighborhoods.

The Project accommodates new development on land that is underutilized and improvements that are dilapidated. While it would remove existing housing, the housing will be replaced by significantly improved housing in a neighborhood pattern much more similar to the rest of Visitacion Valley than what exists today. Existing tenants will be actively engaged in the relocation planning process and will be offered on-site relocation opportunities as part of a larger community building strategy employed by HOPE SF to preserve the cultural and economic diversity of the neighborhood. . Outside of the boundaries of the Housing Authority site

3. That the City's supply of affordable housing be preserved and enhanced.

The Project is a part of the Hope SF, the Mayor's signature anti-poverty initiative aimed at eradicating intergenerational poverty. As noted above, existing affordable units will be demolished and replaced with significantly improved units at the same affordable levels as the units removed. Along with replacement units for extremely low income households, about 295 additional affordable units for low income households are also proposed.

4. That commuter traffic not impede MUNI transit service or overburden our streets or neighborhood parking.

The Project anticipates and accommodates new transit as planned through the City's Muni Forward Project. Design of streets and bus stops will include bus bulbs and bus shelters; street cross sections and corner design will assure sufficient space for bus travel. Moreover, the Project includes the creation of a pedestrian-oriented street and open space network that will encourage alternative modes of transportation. The Project will provide less than one-to-one parking, further encouraging travel by other modes of travel other than by single-occupancy vehicle.

5. That a diverse economic base be maintained by protecting our industrial and service sectors from displacement due to commercial office development, and that future opportunities for resident employment and ownership in these sectors be enhanced.

The Project would not adversely affect the industrial sector or service sectors. No such uses would be displaced by the Project. Construction activity generated by the Project, however, will support these sectors.

6. That the City achieves the greatest possible preparedness to protect against injury and loss of life in an earthquake.

All new construction would be subject to the City's Building Code, Fire Code and other applicable safety standards. Thus, the Project would improve preparedness against injury and loss of life in an earthquake by prompting development that would comply with applicable safety standards.

7. That landmarks and historic buildings be preserved.

The Project would not accommodate the removal, demolition, or of any known landmark or historic building.

8. That our parks and open space and their access to sunlight and vistas be protected from development.

On balance, the Project would improve the City's open space and park system and would not adversely effect parks access to sunlight and vistas. The project includes providing roughly 3.5 acres of additional parks to the City's overall park system. The site is immediately adjacent to and downslope to Herz Playground and McLaren Park. Because the proposal does include constructing buildings immediately across the street from the park, new shadows will be created on the park.. However, the EIR has shown that the new shadows would not cause a significant adverse effect. Given that additional parks and accessible green space is being added by the

Exhibit A to Motion No.
Hearing Date: November 17, 2016

Case No. 2010.0305 E
Sunnydale Hope SF Master Plan

Project, and the impacts of the proposed development on Herz Playground and McLaren Park are limited, on balance, the Project is consistent with this General Plan Priority Finding.
