Dear Supervisor Sherrill:

Thank you for your support of the BOS public comment changes required by the Brown Act. This must be adopted by July 1, 2026.

Please make sure the public knows that remote comment is now available to every one at the BOS meetings.

During Covid the public could also provide remote comments. I would like the Board to restore this for Board committee meetings as well as for other Commissions. These hearings are where full discussions occur and are important because there is no opportunity for any public comment at the BOS on items heard in committee.

Thank you.

Regina Sneed
