ADOPTING FINDINGS RELATING TO A CONDITIONAL USE AUTHORIZATION PURSUANT TO PLANNING CODE SECTIONS 207, 209.1, AND 303 TO CONSTRUCT UP TO ONE DWELLING UNIT PER 1,500 SQUARE FEET OF LOT AREA FOR THE CHANGE OF USE FROM INSTITUTIONAL USE TO RESIDENTIAL USE OF THE EXISTING 11,353 SQUARE FOOT TWO-STORY BUILDING, LOCATED AT 331 PENNSYLVANIA AVENUE, LOT 026 IN ASSESSOR'S BLOCK 4040, WITHIN THE RH-2 (RESIDENTIAL, HOUSE, TWO-FAMILY) ZONING DISTRICT AND A 40-X HEIGHT AND BULK DISTRICT, AND ADOPTING FINDINGS UNDER THE CALIFORNIA ENVIRONMENTAL QUALITY ACT.

### PREAMBLE

On November 20, 2014, Anthony Pantaleoni of Kotas Pantaleoni Architects (hereinafter "Project Sponsor") filed Application No. 2014.0231CUA (hereinafter "Application") with the Planning Department (hereinafter "Department") for a Conditional Use Authorization for a change of use of the existing building from Institutional to Residential use with seven dwelling units (hereinafter "Project") at 331 Pennsylvania Avenue, Block 4040 Lot 026 (hereinafter "Project Site").

The Planning Department Commission Secretary is the custodian of records; the File for Case No. 2014.0231CUA is located at 1650 Mission Street, Suite 400, San Francisco, California.

On June 7, 2018, the San Francisco Planning Commission (hereinafter "Commission") conducted a duly noticed public hearing at a regularly scheduled meeting on Conditional Use Authorization Application No. 2014.0231CUA.

The Project is exempt from the California Environmental Quality Act ("CEQA") as a Class 1 categorical exemption.

The Commission has heard and considered the testimony presented to it at the public hearing and has further considered written materials and oral testimony presented on behalf of the applicant, Department staff, and other interested parties.

**MOVED**, that the Commission hereby authorizes the Conditional Use Authorization as requested in Application No. 2014.0231CUA, subject to the conditions contained in "EXHIBIT A" of this motion, based on the following findings:

## FINDINGS

Having reviewed the materials identified in the preamble above, and having heard all testimony and arguments, this Commission finds, concludes, and determines as follows:

1. The above recitals are accurate and constitute findings of this Commission.
2. **Project Description.** The Project includes a change of use from Institutional to Residential use within the existing building envelope (approximately 11,353 gross square feet) with seven dwelling units, five off-street parking spaces at rear, and 10 Class 1 bicycle parking spaces. The Project includes 901 square feet of common open space via open ground at rear of building and 2,534 square feet of private open space via rear decks and roof decks. The Project entails an interior remodel, addition of decks and carports at rear, addition of roof decks, changes to the exterior, removal of a secondary exterior stair, and replacement of an existing gate at side.
3. **Site Description and Present Use.** The Project is located on a square midblock lot (with a lot area of approximately 10,000 square feet) and 100-ft of frontage along Pennsylvania Avenue. The Project Site contains a two-story-over-basement institutional building measuring approximately 11,353 square feet. Historically, the building was occupied by a hospital including the Union Iron Works Hospital and the Kaiser Permanente Foundation Hospital. Currently, the existing building is vacant.
4. **Surrounding Properties and Neighborhood.** The Project Site is located within the RH-2 Zoning District in the Showplace Square/Potrero Area Plan. The immediate context is mostly residential in character with single- and multi-family dwellings. The immediate neighborhood includes two-story industrial buildings and California Interstate 280 off-ramp to the north, California Interstate 280 directly to the east, and two-to-four story residential development to the south and west. Other zoning districts in the vicinity of the project site include: P (Public), UMU (Urban Mixed Use), RH-3 (Residential, House, Three-Family), and NC-2 (Neighborhood Commercial-Small Scale) Zoning Districts.
5. **Public Outreach and Comments.** The Department has received five inquiries for the project, which did not express support or opposition. The Sponsor has hosted two meetings within the community over the past four years.
6. **Planning Code Compliance.** The Commission finds that the Project is consistent with the relevant provisions of the Planning Code in the following manner:

- A. **Dwelling Unit Density.** Planning Code Section 209.1 allows up to one dwelling unit per 1,500 square feet of lot area with a Conditional Use Authorization, and per Planning Code Section 207(b)(1), a remaining fraction of one-half or more of the minimum of lot area per dwelling unit shall be adjusted upward to the next higher whole number of dwelling units.

*The Project Site measures 9,997 square feet and a maximum of seven dwelling units are permitted with Conditional Use Authorization from the Planning Commission. The Project proposes seven dwelling units within the existing two-story-over-basement building.*

- B. **Open Space.** Planning Code Section 135 requires the project to provide at least 125 sq. ft. of private, or 166 sq. ft. of usable common open space for each dwelling unit.

*The Project proposes 901 sq. ft. of common open space for Units 101 and 102 via open ground at rear of building, 230 sq. ft. of private open space for Unit 201 at a roof deck, 705 sq. ft. of private open space for Unit 202 at roof deck and rear deck, 452 sq. ft. of private open space for Unit 203 at roof deck, 271 sq. ft. of private open space for Unit 204 at roof deck, and 876 sq. ft. of private open space for Unit 205 via roof deck and rear deck. Therefore, the Project complies with the open space requirement.*

- C. **Exposure.** Planning Code Section 140 requires the windows of at least one room in each dwelling unit to face directly on an open area that includes a public street, public alley at least 20 feet in width, side yard at least 25 feet in width, rear yard meeting the requirements of the Planning Code, or an inner court or a space between buildings on the same lot, which is unobstructed and is no less than 25 feet in every horizontal dimension for the floor at which the dwelling unit in question is located and the floor immediately above it, with an increase of five feet in every horizontal dimension at each subsequent floor.

*Unit No. 102 does not meet the exposure requirements of Section 140 of the Planning Code since it only faces a nine foot side yard and is located at the basement level. The remaining six units front onto Pennsylvania Avenue or an inner court that meets the requirements of the Planning Code. Pursuant to Planning Code Section 307(h), the Zoning Administrator may allow complete or partial relief from dwelling unit exposure for historic buildings. The Zoning Administrator intends to grant the exception through administrative review as part of the building permit application. The Project Sponsor shall submit a Historic Building Maintenance Plan as part of the building permit application, which outlines a program for the proposed restorative and rehabilitation work and regular maintenance and repair of the historic building. This maintenance plan would improve the viability of preserving the subject building.*

- D. **Off-Street Parking.** Planning Code Section 151 requires one off-street parking space for each dwelling unit.

*The Project proposes five residential parking spaces at the rear of the building that will be accessed via an existing curb cut and driveway at side. The remaining two required parking spaces are replaced by two Class 1 bicycle parking spaces pursuant to Planning Code Section 150(e).*

- E. **Bicycle Parking.** Planning Code Section 155.2 requires one Class 1 bicycle parking space per dwelling unit and no Class 2 spaces.

*The Project proposes 10 Class 1 spaces in an area adjacent to the common area at basement level with direct access to the street and complies with the bicycle parking requirements.*

7. **Conditional Use Findings.** Planning Code Section 303 establishes criteria for the Planning Commission to consider when reviewing applications for Conditional Use authorization. On balance, the project complies with said criteria in that:

- A. The proposed new uses and building, at the size and intensity contemplated and at the proposed location, will provide a development that is necessary or desirable, and compatible with, the neighborhood or the community.

*The Project's residential use is consistent and compatible with the neighborhood, community, and the Showplace Square / Potrero Area Plan. The proposal will occupy a vacant building and will add seven dwelling units into the City's housing stock, which will maximize the residential density on this lot. The proposed units will be located within the existing building envelope and will contain a mix of one-bedroom and three-bedroom units with private and common usable open space. The subject property has been identified as individually eligible for listing in the California Register under Criterion 1 (Events) and Criterion 3 (Design/Construction) for its association with the Union Iron Works and the Kaiser-Permanente Foundation, and as a well-preserved and early surviving example of a concrete hospital building designed by a prominent local architect, Frederick H. Meyer. The proposal will restore the historic property without expanding the building volume and will provide on-going maintenance and repair. The Project will also contribute to the economic vitality of the neighborhood by occupying a vacant building and by providing new residents, who may patron and/or own these businesses.*

- B. The proposed project will not be detrimental to the health, safety, convenience or general welfare of persons residing or working in the vicinity. There are no features of the project that could be detrimental to the health, safety or convenience of those residing or working the area, in that:

- (1) Nature of proposed site, including its size and shape, and the proposed size, shape and arrangement of structures;

*The height and bulk of the existing building will remain the same and will not alter the existing appearance or character of the project vicinity. The proposed work will not affect the building envelope and will restore the historic building.*

- (2) The accessibility and traffic patterns for persons and vehicles, the type and volume of such traffic, and the adequacy of proposed off-street parking and loading;

*The Project includes seven dwelling units, five of which will have one off-street parking space located at the rear of the building and accessed via an existing driveway and curb cut facing Pennsylvania Avenue. This amount of parking will not generate significant amounts of vehicular trips from the immediate neighborhood or citywide.*

- (3) The safeguards afforded to prevent noxious or offensive emissions such as noise, glare, dust and odor;

*The Project is residential in character and would not create any noxious or offensive emissions such as noise, glare, dust, and odor. All construction activities will comply with the San Francisco Building Code requirements, which include compliance with air quality control measures for dust and odor.*

- (4) Treatment given, as appropriate, to such aspects as landscaping, screening, open spaces, parking and loading areas, service areas, lighting and signs;

*The Project includes new street trees and landscaping to improve the visual interest at a pedestrian scale along its frontage.*

- C. That the use as proposed will comply with the applicable provisions of the Planning Code and will not adversely affect the General Plan.

*The Project complies with all relevant requirements and standards of the Planning Code and is consistent with objectives and policies of the General Plan as detailed below.*

- D. That the use as proposed would provide development that is in conformity with the purpose of the applicable Residential District.

*The Project is located in an RH-2 Zoning District that contains controls designed to permit the appropriate intensity of residential development. The Project conforms to the stated purpose of this district and is an appropriate change of use that will add seven new dwelling units to the City's housing stock and occupy a vacant building.*

*Overall, the Project features an appropriate use encouraged by the Area Plan for this location. The Project is a residential development providing seven new dwelling units in a residential area, which maximizes the residential density of the subject lot with this Conditional Use Authorization. The project is restoring the historic property and providing a high quality of materials, while removing a vacancy from the City's building stock. The proposal also features private and common usable open space in excess of the Planning Code requirements and improves the public rights of way with new street trees and landscaping. On balance, the Project is consistent with the Objectives and Policies of the General Plan.*

9. **Planning Code Section 101.1(b)** establishes eight priority-planning policies and requires review of permits for consistency with said policies. On balance, the project complies with said policies in that:

A. That existing neighborhood-serving retail uses be preserved and enhanced and future opportunities for resident employment in and ownership of such businesses be enhanced.

*The project site does not possess any neighborhood-serving retail uses. The Project provides seven new dwelling units, which will enhance the nearby retail uses by providing new residents, who may patron and/or own these businesses.*

B. That existing housing and neighborhood character be conserved and protected in order to preserve the cultural and economic diversity of our neighborhoods.

*The project site does not possess any existing housing. The Project would provide seven new dwelling units, thus resulting in an overall increase in the neighborhood housing stock. The Project would restore the historic building, and relates well to the scale and form of the surrounding neighborhood. For these reasons, the Project would protect and preserve the cultural and economic diversity of the neighborhood.*

C. That the City's supply of affordable housing be preserved and enhanced,

*The Project does not currently possess any existing affordable housing and no affordable housing is required. Therefore, the Project will not affect the stock of affordable housing units in the City.*

- D. That commuter traffic not impede MUNI transit service or overburden our streets or neighborhood parking.

*The Project Site is served by nearby public transportation options. The Project is located along a Muni bus line (22-Fillmore). In addition, the Project is directly adjacent to the California Interstate 280. Future residents would be afforded proximity to a bus line. The Project also provides off-street parking at the principally permitted amounts and sufficient bicycle parking for residents and their guests.*

- E. That a diverse economic base be maintained by protecting our industrial and service sectors from displacement due to commercial office development, and that future opportunities for resident employment and ownership in these sectors be enhanced.

*The Project is located in a residentially zoned neighborhood and does not include any commercial office development.*

- F. That the City achieve the greatest possible preparedness to protect against injury and loss of life in an earthquake.

*The Project will be designed and will be constructed to conform to the structural and seismic safety requirements of the Building Code. This proposal will not impact the property's ability to withstand an earthquake.*

- G. That landmarks and historic buildings be preserved.

*The Project will restore the exterior of the historic building and will include quality materials.*

- H. That our parks and open space and their access to sunlight and vistas be protected from development.

*The Project will have no negative impact on existing parks and open spaces.*

10. The Project is consistent with and would promote the general and specific purposes of the Code provided under Section 101.1(b) in that, as designed, the Project would contribute to the character and stability of the neighborhood and would constitute a beneficial development.
11. The Commission hereby finds that approval of the Conditional Use Authorization would promote the health, safety and welfare of the City.

**DECISION**

That based upon the Record, the submissions by the Applicant, the staff of the Department and other interested parties, the oral testimony presented to this Commission at the public hearings, and all other written materials submitted by all parties, the Commission hereby **APPROVES Conditional Use Authorization Application No. 2014.0231CUA** subject to the following conditions attached hereto as "EXHIBIT A" in general conformance with plans on file, dated May 16, 2018, and stamped "EXHIBIT B", which is incorporated herein by reference as though fully set forth.

## STEP 7: MODIFICATION OF A CEQA EXEMPT PROJECT

### TO BE COMPLETED BY PROJECT PLANNER

In accordance with Chapter 31 of the San Francisco Administrative Code, when a California Environmental Quality Act (CEQA) exempt project changes after the Approval Action and requires a subsequent approval, the Environmental Review Officer (or his or her designee) must determine whether the proposed change constitutes a substantial modification of that project. This checklist shall be used to determine whether the proposed changes to the approved project would constitute a "substantial modification" and, therefore, be subject to additional environmental review pursuant to CEQA.
