Resolution directing the City Attorney and the City Lobbyist, on behalf of the City, to request that the State Department of Housing and Community Development (HCD) extend the Housing Element Implementation Action Plan deadline to ensure all of San Francisco's extensive, collaborative work to further housing development does not 1) lead to de-certification of San Francisco's thorough and adopted Housing Element; 2) to revise and correct HCD's "Policy and Practice Review" letter to be responsive to San Francisco's adopted Housing Element, including its actions on affordable housing and equity; and 3) to be responsive to the City's legal obligations to affirmatively further Fair Housing, San Francisco's Chartered legislative process, and San Francisco's status as a Charter City imbued with the power of local action over municipal affairs.

WHEREAS, California's Department of Housing and Community Development (HCD) certified SF's Housing Element in January, 2023; and

WHEREAS, Since then, both the Mayor and the Board of Supervisors have introduced multiple Ordinances proposing changes to this City's land use and housing policies to advance and conform to the provisions of the City's Housing Element, including several significant Ordinances that have already passed to "reduce constraints" for market rate housing, specifically Board File Nos. 230026, 230374, 230764, 230769, 230855, and 230732, which are hereby declared to be a part of this resolution as if set forth fully herein; and

WHEREAS, This San Francisco Housing Element is the first ever to center racial and social equity in the formation of our housing goals and land use actions, and implementation will require a coordinated, interlocking, and balanced set of interventions; and

1	WHEREAS, San Francisco exceeded its market rate housing production goals in prior
2	Regional Housing Needs Assessment (RHNA) cycles, although it failed to produce more than
3	half of its affordable housing production goals; and
4	WHEREAS, San Francisco will not be able to achieve its 2023-2031 affordable housing
5	production goals with a singular focus on private development policies and practices, and
6	without sufficient measures to address racial equity, fair housing practices, affordability, and
7	displacement, HCD's singular focus on efforts to streamline market rate development may
8	even exacerbate our affordability crisis; and
9	WHEREAS, San Francisco is a Charter City with authority over municipal affairs, with
10	the power to take local action, as long as the action is not inconsistent with the city's charter
11	or the California or United States Constitutions, and even if the subject matter may be at odds
12	with a state statute or if the subject matter is of statewide concern, in which case state law
13	must be reasonably related and narrowly tailored to address that statewide concern; and
14	WHEREAS, HCD published a document entitled "San Francisco Housing Policy and
15	Practice Review" and transmitted it to San Francisco on October 25, 2023, recommending
16	that the Housing Element be de-certified unless the City override its own local laws to further
17	deregulate market rate housing development requirements and review; and
18	WHEREAS, In its "Policy and Practice Review", HCD imposes deadlines for
19	Implementing Actions that require adoption and action within time periods that may conflict
20	with or are contrary to San Francisco's Charter and other law; and
21	WHEREAS, The deadlines imposed by the "Policy and Practice Review" do not
22	consider or accommodate the City's obligation to consider and address in the drafting and
23	implementation of new policies the potential adverse impacts its requirements would impose
24	on the urgent need to preserve and enhance existing rent-controlled housing, the retention of
25	neighborhood small businesses, job opportunities and the workforce represented by

1	organized labor, communities at greater risk and disproportionately impacted by
2	displacement, particularly Black, Indigenous and people of color, and other critical needs of
3	San Francisco's residents; and
4	WHEREAS, De-certification of a Housing Element triggers various actions including the
5	"Builders Remedy", which is recently proving to reduce the number of units developers are
6	building in San Jose and surrounding areas; and
7	WHEREAS, De-certification of San Francisco's Housing Element would diminish the
8	construction and building trades' ability and rights to negotiate project labor agreements,
9	leading to labor shortages and increasing disparities between wages and housing costs; and
10	WHEREAS, De-certification of San Francisco's Housing Element would completely
11	deregulate development of market rate housing and put the approximately 65% of San
12	Francisco's population that are renters, as well as San Francisco's historically marginalized
13	low-income communities and communities of color at heightened risk of displacement; and
14	WHEREAS, Since the certification of San Francisco's Housing Element, the State has
15	adopted SB 423, which included a late-in-the-process amendment reducing only San
16	Francisco's reporting period to one year, making San Francisco the only of one of California's
17	58 counties targeted by this amendment, which will ultimately force San Francisco out of
18	compliance; and
19	WHEREAS, De-certification of San Francisco's Housing Element will lead to the
20	displacement of low-income residents, renters, and seniors, which are protected classes the
21	City has a vested interest in protecting and advocating for, which is why San Francisco has
22	adopted as a city policy priority the need to protect San Francisco residents from
23	displacement; and
24	
25	

1	WHEREAS, San Francisco has worked diligently to meet or exceed HCD's requests,
2	despite a demonstrated pattern of an inconsistent application of state law across jurisdictions
3	and ever-changing goalposts; and
4	WHEREAS, Over 57% of the Regional Housing Needs Allocation (RHNA) plan for this
5	RHNA cycle (which has greatly inflated production mandates over prior RHNA cycles) is
6	targeted to three income categories that are "below market", but HCD has not provided any
7	new resources for assisting in accomplishing these affordable housing mandates, most
8	notably funding; and
9	WHEREAS, HCD's "Policy and Practice Review" letter ignores Section 65584(d)(1) of
10	the Government Code that specifically says the RHNA plan shall further the objective of
11	increasing the housing supply and mix of housing types, tenure, and affordability in all cities
12	and counites within the region in an equitable manner, which shall result in each jurisdiction
13	receiving an allocation of units for low- and very low-income households, and de-certification
14	of San Francisco's Housing Element and imposition of the "Builder's Remedy" will box San
15	Francisco into only prioritizing the lucrative development of market-rate housing, which is in
16	contravention of the mandate for equitable distribution in the region; and
17	WHEREAS, HCD's "Policy and Practice Review" letter fails to acknowledge the legal
18	requirements of AB 686 to "Affirmatively Further Fair Housing", and is ignoring Section
19	65584(d)((5) of the Government Code that specifically says the RHNA plan shall further clear
20	objectives, including affirmatively furthering fair housing, which does not address the
21	displacement of low-income, BIPOC, Seniors, and disabled San Franciscans in its current
22	Review letter; and
23	WHEREAS, San Francisco's Housing Element has several priority Implementing
24	Actions that are specifically intending to Affirmatively Further Fair Housing, such as Actions

- 5 8.6.10; and

WHEREAS, HCD's "Policy and Practice Review" letter appears to blame the slow rate of development permit applications in 2023 entirely on San Francisco's review and approval process, which analysis is grossly incomplete, as it ignores the market realities of declining market rate demand, high interest rates, lack of financing, and other labor and development costs that are completely independent of San Francisco's approval processes; and

WHEREAS, It is a City priority to retain union workforce members to live and work in San Francisco, and HCD's "Policy and Practice Review" letter ignores Section 65584(d)(3) of the Government Code that specifically says the RHNA plan shall promote an improved intraregional relationship between jobs and housing, including an improved balance between the number of low-wage jobs and the number of housing units affordable to low-wage workers in each jurisdiction, which de-certification would undermine; and

WHEREAS, HCD's "Policy and Practice Review" letter fails to acknowledge that more than 60,000 housing units have been documented by the City as sitting vacant in San Francisco, and while more than 50,000 housing units have been entitled, these projects have not moved into construction because of a lack of financing and equity lending, not due to any City zoning or local discretionary review process; and

WHEREAS, In its "Policy and Practice Review", HCD creates deadlines for Implementing Actions and creates new Implementing Actions, including those with deadlines which appear to require action within 30 days while some actions require more than 30 days to adopt and implement; and

1	WHEREAS, The City Attorney of the City and County of San Francisco is reviewing the
2	"Policy and Practice Review" recommendations and requirements within the context of
3	recently adopted state legislation and members of the Board of Supervisors are awaiting
4	advice from the City Attorney to consider appropriate action and amendments to pending
5	legislation to conform with those policies and existing law, including but not limited to the
6	City's Charter and state obligations to Affirmatively Further Fair Housing; now, therefore, be it
7	RESOLVED, That the Board of Supervisors of the City and County of San Francisco
8	directs the City Attorney and the City Lobbyist, on behalf of the City, to request that the State
9	Department of Housing and Community Development (HCD) extend the Housing Element
10	Implementation Action Plan deadline to ensure all of San Francisco's extensive, collaborative
11	work to further housing development does not lead to de-certification of San Francisco's
12	thorough and adopted Housing Element; and, be it
13	FURTHER RESOLVED, That the Board of Supervisors of the City and County of San
14	Francisco direct the City Attorney and the City Lobbyist, on behalf of the City, to revise and
15	correct the "Policy and Practice Review" letter so it is responsive to the thorough and adopted
16	San Francisco Housing Element, including its actions on affordable housing and equity, as
17	well as responsive to the City's legal obligations to affirmatively further Fair Housing, San
18	Francisco's Chartered legislative process, and San Francisco's status as a Charter City
19	imbued with the power of local action over municipal affairs; and, be it
20	FURTHER RESOLVED, That the Board of Supervisors of the City and County of San
21	Francisco request that HCD step forward as a state partner to draft a review of joint local -
22	state actions to advance policies, tools, and financial and resource investments to achieve the
23	affordable housing goals in the 2023-2031 RHNA cycle; and, be it
24	
25	

1	FURTHER RESOLVED, That the Board of Supervisors of the City and County of San
2	Francisco direct the Clerk of the Board to transmit this Resolution to the City Attorney, the City
3	Lobbyist and the State Legislative Delegation upon final passage.
