SUBJECT: Lease Extensions for Concession Leases with Development Costs Exceeding Supportable Investment Amounts

DIRECTOR'S RECOMMENDATION: APPROVE LEASE EXTENSIONS OF TWO YEARS FOR 30 LEASES THAT HAVE COMMENCED SINCE JANUARY 1, 2017 WHICH HAVE DEVELOPMENT COSTS EXCEEDING THE SUPPORTABLE INVESTMENT AMOUNT.

Executive Summary

Since January 2017, development and construction costs at the Airport for concessionaires have far exceeded the projections upon which the business deals were underwritten. Of the 41 leases which have commenced since January 1, 2017, Staff has determined that the economics for 30 such leases are outside of standard supportable levels, as measured by development cost per square foot. Staff is recommending one 2-year lease extension for 30 recently commenced leases to allow longer amortization periods for development costs.

Background

Since January 2017, 41 new stores and restaurants have opened at the Airport. Design and construction costs (as certified by the tenants) for the majority of these new tenants exceeded the forecast costs to the point of rendering the business deals financially unhealthy. Prior to all leasing efforts for each location, Staff estimates sales, rent and construction costs. For some leases, Staff creates projected profit and loss statements that include cost of goods sold and labor, among other expenses. All of these estimates inform decisions regarding the bundling of leases and the length of lease terms.

In the last three years, design and construction costs are far exceeding minimum investment requirements, which have ranged from \$450 to \$1,000 per square foot, depending upon when the location was leased and the type of concession to be constructed. Actual costs have ranged from

\$593 per square foot to over \$2,000 per square foot. From the time of our last significant redevelopments, Terminal 3 Boarding Area E in 2012 and Terminal 3 East in 2014, average retail development costs have risen 45% and average food and beverage development costs have risen 69%.

The business deals were crafted projecting, among other things, that development costs would not exceed \$1,300 per square foot for food and beverage locations and \$900 for retail locations (Supportable Investment Amount). These metrics were thought to be conservative when Staff created them. Each business deal is unique; however, Staff has determined that any development costs above these metrics render the business deals fragile at best, but in many cases unsupportable.

Undue pressure on a concessionaire's profit and loss statement can result in cost savings measures which are undesirable from the Airport's standpoint, such as reducing staffing and maintaining less product on shelves. In an extreme example, a tenant will request a renegotiation, an assignment or an early termination. All of our concessions locations are necessary to provide the level of customer service that our guests expect, and keeping each of them operating at an optimal level is key to that goal. Additionally, we view our concessions tenants and their joint venture partners as our business partners. We are committed to providing them sustainable opportunities.

There are currently 118 food and beverage and retail leases, excluding the duty free lease and vending leases. These leases can be described as follows:

Description	Number of leases	Action Sought
Leases commenced between 2017 and 2019	41	Lease extensions are sought under this memorandum for 30 tenants whose development costs exceeded Supportable Investment Amount.
Leases commenced between 2011 and 2016	41	None. Investment levels were supportable.
Leases in holdover status or which have been extended	10	None. Investments fully amortized.
Leases which have been awarded but not constructed or are scheduled for award in October 2019	26	None.
Total Leases	118	

Attachment A is a list of the 30 leases for which a lease extension is sought. Attachment B lists the 26 leases which may be appropriate for lease extensions in the future but are not being considered at this time. These leases are either awarded but not yet constructed or are scheduled to be awarded in October 2019. After build-out, Staff will compile the development costs and determine if extensions should be sought utilizing the Supportable Investment Amount criteria mentioned above.

Proposal

Staff is recommending one 2-year lease term extension to the base operating term of each Lease as a revenue neutral solution to ease financial pressure for 30 tenants who have opened a new location since January 1, 2017 and whose development costs exceed the Supportable Investment Amount.

Recommendation

I recommend the Commission (1) adopt the accompanying resolutions approving lease amendments for 30 leases that include premises which became operational between January 1, 2017 and July 31, 2019 and whose development costs exceeded the Supportable Investment Amount, as determined by Airport staff, and (2) direct the Commission Secretary to request the approval of the lease amendments from the San Francisco Board of Supervisors pursuant to Section 9.118 of the Charter of the City and County of San Francisco.
