This message is from outside the City email system. Do not open links or attachments from untrusted sources.

Of the Board of Supervisors,

Hello,

I'm writing in strong support for both the Public Advocate and the Department of Sanitation and Streets measures sponsored by Supervisors Gordan Mar and Matt Haney.

The status quo is broken. While corrupt officials continue to line their pockets, our streets keep getting dirtier. San Francisco needs structural reform to address the corruption that's run rampant for years. We need oversight and accountability to ensure our government is effective, transparent, and serving the public good. We need to clean up corruption, and clean up our streets, and we can do that with a Public Advocate and a Department of Sanitation and Streets.

The Public Advocate and Department of Sanitation and Streets (DSS) are both common sense measures that are thoughtful, comprehensive, and will work hand in hand to make our City more effective and accountable. DSS will ensure we have a department dedicated to keeping our city clean and green and will provide the public oversight we so desperately need. The Public Advocate will ensure we have an office dedicated to rooting out corruption, fraud, and abuse of the public trust.

In light of the public health crisis, the economic downturn, an ongoing FBI scandal, and additional revenue measures heading to the November ballot, it's more important than ever that we rebuild trust in our government. We need to clean up our City and City Hall, and we need the structural reforms proposed by Supervisors Haney and Mar to do it. To deny voters the chance to decide on these measures in November would be a further betrayal of the public trust.

Please vote YES to fix the broken status quo -- vote YES for the Public Advocate, vote YES for the Department of Sanitation and Streets, and keep our City clean, safe, and accountable.

Subject: Supervisors and Mayor Breed - We need Clean Streets!
Date: Wednesday, July 8, 2020 10:13:14 PM

This message is from outside the City email system. Do not open links or attachments from untrusted sources.

Dear Mayor Breed and Supervisors,

My name is Olivia and I am a constituent of Bernal Heights. I am writing in support of Supervisors Haney, Ronen, Walton, Preston, and Mar's Charter Amendment that would finally address the state of our streets and create oversight commissions for the Department of Public Works and the new Department of Sanitation and Streets.

San Francisco is one of the only major cities in America without a Department of Sanitation.

Especially during the time of COVID-19 and heightened fears about the spread of infectious disease, creating a new Department of Sanitation and Streets is common sense. It is a solution to keep our city clean with data-driven decision making and real accountability and oversight. The new department will be dedicated to making sure our streets and sidewalks are cleaned, that we have trash cans for litter, and that we have public bathrooms available for people to use.

The Department of Sanitation and Streets will make a huge impact on our streets and the quality of life for all San Franciscans. While our streets continue to get more dirty, the current department tasked with street cleaning has been full of fraud and corruption. We need oversight and we need it now.

I am hoping that you will take the bold action that is needed now to make a change for our neighborhood. Please add yourself as a co-sponsor to truly make a change and to show your constituents that you care.

Please support Supervisor Haney's charter amendment. Our city needs this change now!

Thank you.

Olivia

Hello Mayor London Breed,

My name is Jesse Ante I am a Cal Alumni engineer and worked in San Francisco for 40 years 27 with PG&E and 13 with California Public Utilities Commission. I love this city and enjoyed all the time I have spent my professional career, however over the years I have seen the income inequality of the tech boom fuel the rise of homelessness and moral corruption has also leaked onto our dirty streets. When I travel the world, I tell people where I work in the city and the first thing they say is "San Francisco it's is on my Bucket list of favorite cities to visit". Right now it's still a beautiful and desired city but relatives who recently visited are affected by the homelessness and dirty streets.

I am writing in support of Supervisors Haney, Ronen, Walton, Preston, and Mar's Charter Amendment that would finally address the state of our streets and to create oversight commissions for the Department of Public Works and the new Department of Sanitation and Streets

San Francisco is one of the only major cities in America *without* a Department of Sanitation. Especially during the time of COVID-19 and heightened fears about the spread of infectious disease, creating a new Department of Sanitation and Streets is common sense: it is a solution to keep our city clean with data-driven decision making and real accountability and oversight.

The new department will be dedicated to making sure our streets and sidewalks are cleaned, that we have trash cans for litter, and that we have public bathrooms available for people to use. The Department of Sanitation and Streets will make a huge impact on our streets and the quality of life for all San Franciscans. While our streets continue to get more dirty, the current department tasked with street cleaning has been full of fraud and corruption. We need oversight and we need it now.

Please support Supervisor Haney's charter amendment. Our city needs this change **now!**

Thank you,

Jesse Ante

Of the Board of Supervisors,

Hello,

My name is Matt Swagler. I've worked for SF rec and park for 3 years. I've been following the FBI investigations into corruption in city departments closely. My work (pest control) takes me all over the city and I see how dirty the streets are. I think splitting dpw into a streets division with oversight would result in some real changes. I think it could practically pay for itself if we eliminate some of the money laundering and diversion.

I'm writing in strong support for both the Public Advocate and the Department of Sanitation and Streets measures sponsored by Supervisors Gordan Mar and Matt Haney.

The status quo is broken. While corrupt officials continue to line their pockets, our streets keep getting dirtier. San Francisco needs structural reform to address the corruption that's run rampant for years. Of the Board of Supervisors,

Hello,

I'm writing in strong support for both the Public Advocate and the Department of Sanitation and Streets measures sponsored by Supervisors Gordan Mar and Matt Haney.

The status quo is broken. While corrupt officials continue to line their pockets, our streets keep getting dirtier. San Francisco needs structural reform to address the corruption that's run rampant for years. We need oversight and accountability to ensure our government is effective, transparent, and serving the public good. We need to clean up corruption, and clean up our streets, and we can do that with a Public Advocate and a Department of Sanitation and Streets.

The Public Advocate and Department of Sanitation and Streets (DSS) are both common sense measures that are thoughtful, comprehensive, and will work hand in hand to make our City more effective and accountable. DSS will ensure we have a department dedicated to keeping our city clean and green and will provide the public oversight we so desperately need. The Public Advocate will ensure we have an office dedicated to rooting out corruption, fraud, and abuse of the public trust.

In light of the public health crisis, the economic downturn, an ongoing FBI scandal, and additional revenue measures heading to the November ballot, it's more important than ever that we rebuild trust in our government. We need to clean up our City and City Hall, and we need the structural reforms proposed by Supervisors Haney and Mar to do it. To deny voters the chance to decide on these measures in November would be a further betrayal of the public trust.

Please vote YES to fix the broken status quo -- vote YES for the Public Advocate, vote YES for the Department of Sanitation and Streets, and keep our City clean, safe, and accountable.

Of the Board of Supervisors,

Hello,

As your constituent and a long-time voter, I am writing to urge you to support the Public Advocate and Department of Sanitation and Streets measures sponsored by Supervisors Gordon Mar and Matt Haney.

Our neighborhood, like most in San Francisco today, is in a serious mess. Streets keep getting dirtier, and corruption and greed are going unchecked. San Francisco needs oversight and accountability to ensure that our government serves the public good. We must clear out corruption and clean up our streets! The most effective way to do that is by creating a Public Advocate and a Department of Sanitation and Streets.

These services make sense. They can work together to make our City more accountable, clean and green.

In light of the health and fiscal crises facing San Francisco today, it is especially important to rebuild trust in our government by cleaning up our City and City Hall. The structural reforms proposed by Supervisors Haney and Mar will help accomplish these goals.

Please vote YES for the Public Advocate and YES for the Department of Sanitation and Streets, to keep our City clean, safe, and accountable.

The status quo is broken. While corrupt officials continue to line their pockets, our streets keep getting dirtier. San Francisco needs structural reform to address the corruption that's run rampant for years. We need oversight and accountability to ensure our government is effective, transparent, and serving the public good. We need to clean up corruption, and clean up our streets, and we can do that with a Public Advocate and a Department of Sanitation and Streets.

The Public Advocate and Department of Sanitation and Streets (DSS) are both common sense measures that are thoughtful, comprehensive, and will work hand in hand to make our City more effective and accountable. DSS will ensure we have a department dedicated to keeping our city clean and green and will provide the public oversight we so desperately need. The Public Advocate will ensure we have an office dedicated to rooting out corruption, fraud, and abuse of the public trust.

In light of the public health crisis, the economic downturn, an ongoing FBI scandal, and additional revenue measures heading to the November ballot, it's more important than ever that we rebuild trust in our government. We need to clean up our City and City Hall, and we need the structural reforms proposed by Supervisors Haney and Mar to do it. To deny voters the chance to decide on these measures in November would be a further betrayal of the public trust.

Please vote YES to fix the broken status quo -- vote YES for the Public Advocate, vote YES for the Department of Sanitation and Streets, and keep our City clean, safe, and accountable.
