Subject:	VOTE AGAINST
Date:	Monday, February 26, 2024 8:00:53 AM

Please vote against a deceptive so-called housing bill.

Supervisor Engardio is presenting to you "Family & Senior Housing Opportunity Special Use District" Item # 3

It is a disguised Big Development opportunity to tear down, maybe even a 3 lot mergers, single family houses and put up expensive units/condos. Where will the tenants go when their living space is torn down? will they be able to return at their same rent? You and I know that answer NO.

And if this is such a great idea why not in Supervisor Engardio's area Lakeside Village?

Does this legislation have anything to do with trying to weaken the California Coastal Commission?

Not a stupid voter

Hi Renee and Shawna,

As a reminder, on **Monday (2/26) at 1:30 pm in room 250 at City Hall**, the Board of Supervisors Land Use and Transportation Committee will vote on Supervisor Engardio's latest bad idea which he is marketing as the "Family and Senior Housing Opportunity Special Use District." It's item #3 on this agenda: <u>https://sfbos.org/sites/default/files/lut022624_agenda.pdf</u>

Supervisors Engardio and Melgar are sponsoring the SUD ordinance targeting corner houses for demolition and promoting lot mergers. The proposed SUD is bounded by 19th Avenue to Great Highway and from Sloat to Lincoln---in other words, the whole Sunset/Parkside.

The SUD authorizes up to 6 units per corner lot or one unit per 1000 square feet of lot area, whichever is greater.

The SUD also authorizes up to **18 units per corner lot or one unit per 1000 square feet** of lot area, whichever is greater, resulting from <u>3 lot mergers</u> and 12 units per corner lot or one unit per 100 square feet of lot area, whichever is greater, for **2 lot mergers**.

Details here: <u>https://sfgov.legistar.com/LegislationDetail.aspx?</u> ID=6285923&GUID=4CEFA7D9-8381-43A3-B486-3EA947C494E8

Supervisor Engardio lives in a single family house just outside the southern boundary of the SUD, while Supervisor Melgar lives in a single family house east of the SUD boundary. Accordingly, neither sponsor will be personally impacted by the SUD.

We need people to tell President Peskin and Supervisor Preston (the third committee member is Melgar) to table or vote against this ugly SUD ordinance in committee before the Board of Supervisors approves it.

Below are the addresses to send comments. Of course, in-person testimony is even

better.

RE: Agenda Item #3 [Planning Code, Zoning Map - Family and Senior Housing Opportunity Special Use

District] File #240808

Position: TABLE or OPPOSE

This legislation has numerous flaws in both the legislation itself and in the narrative supporting it.

When this legislation was heard at the Planning Commission, Commissioner Moore described it as lot merger legislation. The title does not reflect this.

During that same Commission hearing for public comment, it was stated that this duplicated file seemed to mirror how the state legislature works. Each state legislator wants their own bill package. This is how multiple bills on the same topic are introduced in a process referred to as the buckshot approach.

After public comment had closed, Commissioner Moore cited the significant number of agenda items on legislation and urged Supervisors to work collaboratively on a single piece of legislation rather than introducing multiple pieces of legislation related to the same topic.

At a subsequent Planning Commission hearing regarding upzoning, Commissioner Diamond suggested that dense infill projects should have step downs so that they will avoid sticking out like a sore thumb.

The dense infill project in District 4 which the sponsor often cites as widely supported is the Gus's Market project at 3701 Noriega.

However, this project has no step downs. So, by Commissioner Diamond's own definition, this project sticks out like a sore thumb.

The 3701 Noriega project is entirely market rate units. It has an onsite fitness center and a rooftop gathering area. It has a high end grocery store. There is no onsite parking for either the grocery store or the residents.

The project could be seen as gentrification in an historically working class neighborhood.

The boundaries for this SUD legislation do not include neighborhoods south of Sloat Blvd even though the Sloat Blvd and Ocean Avenue blocks in District 4 have very wide streets which would allow for densification.

The only areas in this SUD legislation are north of Sloat Blvd which could be seen as a carpetbagger mentality.

The sponsor refers to the concept of Dom-i-City and cites three emails in support of the concept. However, a handful of emails does not indicate widespread support.

The Dom-i-City concept was presented at the West of Twin Peaks Central Council as well as the Coalition for San Francisco Neighborhoods. Both presentations received mixed reviews.

The sponsor has previously cited election results as proof of District 4 support for Dom-i-City. This is flawed logic as election results do not confirm acceptance.

The District 4 working class neighborhoods are unfairly disparaged as being cookie cutter row houses.

However, the Dom-i-City concept relies modular design in the same way as the single family row houses relied on modular design.

Dom-i-City projects could be seen as one more reason to disparage the Sunset and Parkside neighborhoods.

То:	Peskin, Aaron (BOS); Preston, Dean (BOS); Carroll, John (BOS); BOS-Supervisors; BOS-Legislative Aides
Subject:	Strongly OPPOSING File #230808 "Family and Senior Housing" SUD
Date:	Monday, February 12, 2024 11:54:51 AM

President Peskin, Supervisor Preston and colleagues,

The marketing handle of "Family and Senior Housing Special Use District" belies the nefarious intent of this legislation. The ordinance declares open season for unbridled demolition and development in the Sunset/Parkside and would forever disrupt life as we know it in the neighborhood. Some of the most distinctive houses that distinguish the Sunset/Parkside districts are on corner lots. The objective of the ordinance is to demolish these corner houses and replace them with box-designed multiplexes to warehouse people. Further, the objective is to merge multiple lots and disrupt tightly-knit communities of people living in houses while turning these areas into something resembling Miami Beach.

Supervisor Engardio lives in a single family house just outside the southern boundary of the SUD, while Supervisor Melgar lives in a single family house east of the SUD boundary. Accordingly, neither sponsor will be personally impacted by the SUD.

While supervisors are often inclined to defer to the district supervisor and support legislation introduced by a district supervisor impacting that supervisor's district, this unwritten code is outdated and must change! It is not reasonable for a supervisor to simply check the ordinance or, in this case, the SUD map to see if it impacts his or her district---and if it doesn't, move it forward.

Supervisors must take responsibility for their votes on legislation that impacts any district, particularly when the legislation has ramifications for the entire City and County of San Francisco.

Please vote NO.

Evan Rosen

Subject:	Agenda Item #3 [Planning Code, Zoning Map - Family and Senior Housing Opportunity Special Use District] File #240808
Date:	Monday, February 12, 2024 7:23:39 AM

Dear Chair Melgar, President Peskin and Supervisor Preston:

Good morning.

Regarding this <u>Item #3</u> on your Agenda at the LUT today, I want to make two points for you to consider

First.

This geographic area of the City covered by this <u>Board File #24808</u> has many, many blocks already proposed for "*up zoning*" at the corners along the transit corridors. This Rezoning from the Mayor's "Housing for All" initiative, will allow for greater densities and heights and has not been finalized. *And in fact the Planning Commission has delayed further Informational Hearings on the Rezoning into March and perhaps beyond.*

Please look at this interactive map put out by the Planning Department with the proposed Rezoning to understand what is being proposed at <u>every</u> corner along the transit corridors in this geographic area. It is extensive.

https://experience.arcgis.com/experience/6e0e399f9c82456dbda233eacebc433d/

This ongoing Rezoning process at the Planning Commission should be concluded before Board File #240808, which would up zone *every* corner in this geographic area, is approved.

Second.

Financial Feasibility Study on the Mayor's Rezoning from the Planning Department's Consultant have not yet been published. The Supervisors need to read and understand this study before <u>Board File #240808</u> is approved just as this Feasibility Study is needed to understand the Mayor's Rezoning. The Study has been delayed since last year apparently due to incorporating all the legislation from Sacramento. <u>Board File #240808</u> should not be approved until the Supervisors and the public can read this Study.

Thank you. Sincerely, Georgia Schuttish

RE: Planning, Subdivision, Administrative Codes and Zoning Map - Family Housing Opportunity Special Use District] Duplicated File #230808

Position: Strongly urging a CONTINUANCE

SPEAK is strongly urging the Committee to continue this item due to the fact that the newest feasibility study for the rezoning process has yet to be released.

The Department staff initially stated last November that this feasibility study would be released before the end of 2023 with an informational hearing at the Planning Commission in December of 2023.

The upcoming feasibility study for the rezoning process could provide information that would be pertinent to the typology of the 65 corner lots being proposed in this duplicated file.

From:	Thomas Schuttish
To:	<u>Major, Erica (BOS)</u>
Subject:	LUT June 12, 2024 Item No. 6 Family Housing Opportunity SUD Case Number 2023-000413PCAMAP (Board File No. 230026)
Date:	Sunday, June 11, 2023 4:11:53 PM
Attachments:	<u>#2021-012246PCA.pdf</u>

Dear Ms. Major:

Attached are my comments (a pdf and the email below) for the LUT hearing on Monday June 12th for Board File No. 230026, Item No. 6.

This is what I sent in to the Planning Commission when this File was heard on June 1st.

Also do you think this Item will be heard as scheduled or do you think it will be continued?

Thanks much and take good care. Sincerely, Georgia Schuttish

Begin forwarded message:

Dear Commissioners:

Attached are the comments I submitted last year for Supervisor Safai's proposed legislation which I think are also applicable to Supervisor Melgar's legislation that will be before you on June 1, 2023. Some of the comments submitted also concern SB 9.

While her legislation is both broader and more specific than his, the points raised in the attached pdf apply. Particularly the point regarding the concern raised by Planning Department Staff about low income home owners "cashing out" under SB 9 (See page 14 of Executive Summary, October 21, 2021). There are probably many low income home owners in the Well Resourced Neighborhoods.

I also want to add a few more points:

1. If there is no 311 Notification, does that mean there will be no PreApp Notice? The PreApp Notice is linked with the 311 Notification criteria. Will the only

Notice to immediately adjacent neighbors be a form letter from DBI about a Demolition?

What if the project is a major Alteration? Without any appeal process to the Board of Appeals how will adjacent property owners have any leverage to protect their property from damage, particularly the undermining of foundations which is a real issue where there are zero lot lines. It seems like developers will have no incentive to "be kind and considerate" to the neighboring property owners.

2. A year is too short of a time for ownership. It is not uncommon for developers to hold onto properties for longer than that. One year will encourage and allow for speculative development. And the Staff Report's **Recommendation 4** on page 12, to eliminate the one year ownership requirement will only turbo-charge speculation by developers. [See Finding (o) on page 6 of the proposed Ordinance].

3. Finally. According to a May 23, 2023 SF Chronicle article Supervisor Melgar and the Mayor are proposing legislation to allow for "*denser housing*" along many commercial corridors. I think the general public awareness of the 2024 <u>Housing Element</u> is that is where — *on the commercial corridors* — development would occur on the Westside — not on the neighboring Avenues. It is highly unlikely the existing housing in St. Francis Wood or Balboa Terrace or Ingleside Terrace or West Portal or Seacliff or the Marina will be demolished to create multi-unit housing. But there are blocks and blocks of sound housing in the Richmond and the Sunset that will be vulnerable to speculation and demolition.

The legislation proposing housing on the commercial corridors — that are also transit corridors — should be considered and approved first before transforming half the City into an SUD.

Thank you. Georgia Schuttish

QUESTION #1

Sometimes overlooked in all the discussions about increasing density in the RHD's is the statement on page 14 (attached) of the Staff's October 21, 2021 analysis of SB 9. This is true for this PCA as well. *How can this bad outcome be prevented?* Here is the statement:

"Without City investment in programs that support owner-occupied development, such as construction loans or funding prioritized for owners of color or low-income owners, the more straightforward option would be for existing owners to sell their property, or "cash out," and leave San Francisco for areas with lower home costs".

QUESTION #2

8

This PCA proposes getting rid of 311 Notification, Discretionary Review and Section 317. All three allow for transparency and full participation of the public whether tenants or property owners.

The published Century Urban Feasibility Studies do not explicitly analyze getting rid of these in the analyses with the Staff Reports. According to the May 6, 2022 Staff Report it states that the assumption is one year for the project to be completed. And also, that the fees will be limited to no more than \$10K. In fact in some of the emails between Staff last year, it was stated that Century Urban was reluctant to factor in ministerial review into their analysis. <u>Is this so?</u>

Here are some more questions:

- 1. On average how much does 311 Notification cost a developer?
- 2. How many 311 Notifications lead to Discretionary Review?
- 3. How many Discretionary Reviews are withdrawn before the hearing?
- 4. How often does Discretionary Review either find or correct "errors" in a project?
- 5. What is the housing policy rationale for Section 317?
- 6. What is the intent of the conditions in Conditional Use regarding the outcome of a project?

Attached is an article from the San Francisco Chronicle which offers conflicting statements about densification. On the one hand the problem is the physical constraints of building four units, but on the other hand, regardless of the physical limitations in designing a four-plex on the typical San Francisco lot, the real problem is is too much process! <u>How can it be both?</u>

Also attached are annotated printouts of five multi-unit projects with entitlements that are now for sale. This illustrates the speculative fever (or commodification) in housing and the issue raised in <u>Question #1</u> above. Please note the asking price for these entitlements. <u>Is this now</u> <u>the market?</u> Four of the five could have been "refreshed" to provide housing these past years.

QUESTION #3

Century Urban writes that the most financially feasible outcome may be to preserve, and not demolish, an existing SFH and add a unit creating a duplex in an SB9 scenario. (Again this has ramifications for the "cashing out" issue in **Question #1**). See the Century Urban studies for January 31st (page 4) and May 6th (page 3) attached to the Staff Reports in the agenda packet. *Has the Commission had an update on the details of the project applications under SB 9 and should such an update also include an update on the Residential Flat Policy and any mergers of dwelling units per Section 317 (b) (7)?*

Executive Summary Hearing Date: October 21, 2021

SB 9 does not produce below-market-rate (BMR) units, without a substantial increase in supply, it will not realistically assist moderate, low, or extremely low income households (below 120% AMI) obtain housing.

Many areas of the city with lower land values, high percentages of households of color, and/or with lower outcomes in health, wealth, and life expectancy also have high rates of owner-occupied single family housing, for example, the Bayview (73%), Visitation Valley (70%), and Outer Mission (75%). SB 9 may offer these homeowners the opportunity to add units for extended families or to generate rental income, or gain wealth through lot splits. However, there are significant hurdles to realize these gains. Acquiring financing for project development, navigating a complex permitting process, and having the resiliency to manage the significant disruption and take financial risks of construction are major barriers facing existing homeowners in communities of color and low-income communities. Without City investment in programs that support owner-occupied development, such as construction loans or funding prioritized for owners of color or low-income owners, the more straightforward option would be for existing owners to sell their property, or "cash out," and leave San Francisco for areas with lower home costs. While the bill includes a provision that the applicant of an SB 9 lot split is required to occupy one of the housing units as their principal residence for a minimum of three years from the date of the lot split approval, it does not apply to SB 9 project without the lot split. And while selling may financially benefit an individual household, this practice has been incrementally devastating to communities of color. Cultural Districts, and areas of the city where residents have a common sense of cultural identity, and a historic and major loss to San Francisco as a whole.

Additional Considerations

1

Beyond the issues addressed above, there are unintended consequences for any legislation and these conditions can be difficult to study and anticipate. Some property owners or developers may use SB 9 to streamline the redevelopment of smaller, existing homes into larger, more expensive single family homes with a small additional unit that may never be rented, undermining the intent of creating more housing stock. Renters are protected by SB 9, but may be vulnerable to unscrupulous landlords due to a variety of circumstances, like being undocumented, in a dire financial state, or otherwise exploited. While the city must implement projects that meet the requirements of SB 9, and other state requirements such as SB 330, the Housing Accountability Act, and others, it may also consider allowable measures to tailor SB 9 through local implementation such as creating owner-occupied development programs that prioritize households of color and low income households, unit parity requirements that balance housing unit size, or others new programs.

SB 10 Summary

Senate Bill 10 (Wiener)⁷ authorizes a local government to adopt an ordinance to zone any parcel for up to 10 units of residential density per parcel, at a height specified in the ordinance if the parcel is located in a transit-rich area or an urban infill site. Specifically, this bill:

2,700 square feet - which doesn't allow much room to shoehorn four units. And

vacant lots are rare, as are "tear downs," small and outdated homes that don't have much value.

Sean Kieghran, president of San Francisco's Residential Builders Association, said he supports getting rid of singlefamily only zoning but doesn't think it will result in many new units. Kieghran said that building fourplexes requires either two staircases or a staircase and an elevator, which takes up too much of the site.

And, unless the city streamlined the process of building a fourplex on a single-family lot, builders would run into too many bureaucratic obstacles, Kieghran said. "With how long it takes to get through planning and fire and DPW and all the other red tape it's not likely we are going to see anybody building fourplexes anytime soon," he said.

Before the late 1960s, San Francisco developers regularly built two-, three-, and fourunit buildings. Stacked flats were the bread and butter of San Francisco's housing stock. But in the late 1960s and 1970s

- a series of laws changed that. and the majority of the city, especially the west side, was rezoned to prohibit anything but single-family homes.

One of the few architects to design fourplexes on singlefamily sized lots in the last few decades is Daniel Solomon, who has worked on three such projects. One of those is at 247 27th Ave., a

About This Home

Nestled in the heart of San Francisco's Noe Valley is an unparalleled development opportunity. This collaborative project culminates four years of design planning, architectural development and neighborhood outreach. 4250 26th Street is a rare extra wide lot (40 feet), single family home and ADU with unobstructed panoramic views designed by award winning, EDMONDS + LEE Architects. The plans include 4 stories, 6 bedroom, 6.5 bathrooms, 2 car garage, elevator, access yard, several decks, and 6000 sq ft. All of the levels have been designed to have high ceiling heights with large rear over-sized windows. The new house and ADU has been approved by the Planning

Department. 4250 26th Street is a remarkable and special building opportunity rarely found in The City. This makes 4250 26th Street a unique property that is ready to start building with a team that will support your vision. Noe Valley is one the best neighborhoods to live in. Close to Douglass Park and Downtown.
